# 1. Preface

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <a href="http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc">http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc</a>.

## 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

### 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

## 1.5 Related Information Sources

## 3. Peer To Peer Payments

Peer to Peer (P2P) transaction enables the retail user to initiate a payment towards the payee's contact ID, namely, email ID, mobile number, Facebook ID, and Twitter handle. The user can simply select the contact ID through which the payment is to be made. This feature eliminates the need to know the recipient's account and bank details, thus simplifying the payment process by a great deal.

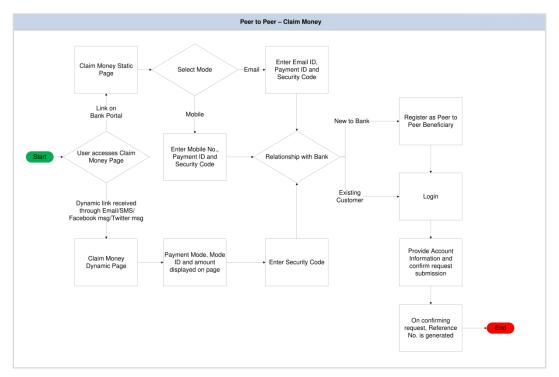

After selecting the 'Transfer Money > New Payee' option, the user is expected to select the mode through which the payment is to be initiated. After specifying the contact details, the user has to simply enter the payment details, that is, the amount and the source account. The user can then proceed to review and confirm the payment. Once the payment is confirmed, the system creates a link and posts it as a message to the payee's email ID / mobile number / Facebook Messenger / Twitter handler (through which the payment is initiated). The payee can then claim the amount by clicking on the link which takes him/her to the Claim Money page of the bank. A security code is displayed on the payment confirmation page, which the initiator of the payment must share with the payee so as to enable him/her to claim the amount paid.

#### Workflow- Transfer Money

#### Workflow- Claim Money

#### Features Supported in the Application

The following features are available as part of Peer to Peer payments:

- Transfer Money
  - > To existing payees
  - To new payees Transfers to new payees can be initiated towards the payee's email ID, mobile number, Facebook account, or Twitter handle.
- Claim Money

#### How to reach here:

Dashboard > Payments widget > Transfer Money OR Toggle menu > Payments > Payments and Transfers > Transfer Money OR Dashboard > Payments widget > Manage Payees > More Options > Pay

## 3.1 Transfer Money - New Payee

Using this option you can transfer funds from your account to a payee by entering the payee's mobile number or email ID or even by logging into your Facebook or Twitter accounts and selecting a payee from your Facebook contacts or Twitter followers.

By selecting the 'New Payee' option, the user is provided with the following choices by which to initiate a fund transfer. They are as follows:

#### Email/Mobile

The Email/Mobile option enables the user to initiate a funds transfer towards an email or mobile contact. The user has to simply specify the email address or the mobile number of the intended payee and specify other transfer related details such as the transfer amount and source account. Once the transfer is initiated, the funds are transferred to the account number associated with that email address or mobile number.

#### Bank Account

The user can select this option if he wishes to initiate a transfer towards a beneficiary who is not yet registered as a payee. On selecting this option, the user will be directed to a screen from which he can select the option to navigate to the screen on which he can register a payee.

#### Facebook

By selecting this option, the user is able to transfer funds to a Facebook contact. Funds can be transferred towards only those Facebook contacts who have registered themselves for this facility with the bank via Facebook.

#### Twitter

On selecting this option, the user is able to transfer funds to a Twitter contact. The user can select any one Twitter contact as the recipient of the funds transfer.

#### To transfer money to a new payee:

1. In the **Transfer Type** field, select the **New Payee** option. The fields by which to transfer funds to a new payee appear.

#### **Field Description**

Field Name	Description
Transfer Type	Select the type of transfer that is to be initiated.
	The options are:
	Existing Payee
	New Payee
	My Accounts
	Between Wallets

The following fields appear when the option 'New Payee' is selected.

Transfer Via	Select the mode through which funds are to be transferred.
	The options are:
	Email/ Mobile
	Bank Account
	Facebook
	Twitter
The following fie	Id appears if you select the option <b>Bank Account</b> in the <b>Transfer Via</b> list.
Add Bank Account	Select this option to add a new payee having a bank account.
The following fie	lds appear if you select the option <b>Email/ Mobile</b> in the <b>Transfer Via</b> list.
Email / Mobile	Enter the email ID or mobile number of the payee to initiate the money transfer.
Confirm Email/Mobile	Re-enter the email ID or mobile number as entered in the Email/Mobile field so as to confirm the same.
Currency	Select the currency in which the transfer is to take place.
Amount	Specify the amount to be transferred.
View Limits	Link to view the transaction limits of the user.
Transfer From	Select the source account from which the funds are to be transferred.
	In case of Oracle Banking Payments (OBPM) as backend system, user's accounts which are in the entity local currency will be fetched for selection
Balance	On selecting a source account, the net balance of the account appears below the <b>Transfer From</b> field.
Note	Add a narration, if required, for the transaction.
	elds appear once you have successfully logged into Facebook after having ion <b>Facebook</b> in the <b>Transfer Via</b> list.
Transfer To	Select the Facebook contact towards whom you want to transfer money.
Currency	The currency in which the transfer is to take place.
	The currency will be defaulted to the local currency when transfers are made to Facebook contacts.

Description

**Field Name** 

Field Name	Description
Amount	Specify the amount to be transferred.
View Limits	Link to view the transaction limits of the user.
Transfer From	Select the source account from which the funds are to be transferred.
	In case of Oracle Banking Payments (OBPM) as backend system, user's accounts which are in the entity local currency will be fetched for selection.
Balance	On selecting a source account, the net balance of the account appears below the <b>Transfer From</b> field.
Note	Add a narration, if required, for the transaction.
	elds appear once you have successfully logged into Twitter after having on <b>Twitter</b> in the <b>Transfer Via</b> list.
Transfer To	On having logged into the Twitter account, this field serves as a link by which the user can arrive at the screen on which to select a Twitter Handle to transfer funds towards.
Currency	The currency in which the transfer is to take place

- **Currency** The currency in which the transfer is to take place.
- **Amount** Specify the amount to be transferred.
- **View Limits** Link to view the transaction limits of the user.
- **Transfer From** Select the source account from which the funds are to be transferred.

In case of Oracle Banking Payments (OBPM) as backend system, user's accounts which are in the entity local currency will be fetched for selection.

- Balance On selecting a source account, the net balance of the account appears below the Transfer From field.
- **Note** Add a narration, if required, for the transaction.
- 2. From the **Transfer Via** list, select the type of payee.
  - a. If you select the Email or Mobile option:
    - i. In the Email /Mobile field, enter the email id or mobile number of the recipient.
    - ii. Re-enter the recipient's Email ID or Mobile number in the **Confirm Email/Mobile** field.
    - iii. From the **Currency** field, select the currency in which the transfer is to take place.
    - iv. In the Amount field, enter the transfer amount.
    - v. From the Transfer From account list, select the source account.

- b. If you select the **Bank Account** option:
  - i. To add new payee having bank account, click **Add Bank Account**. The **Add Payee** screen appears.
  - ii. Add the bank account details of the payee and then continue to transfer in **Add Payee** screen.
- c. If you select the Facebook option, the Facebook login page appears.
  - i. Log into your Facebook account with Facebook credentials.
  - i. In the **Email Address or Phone Number** field, enter your email ID or phone number associated with the Facebook account.
  - ii. In the **Password** field, enter the password associated with your Facebook account. The Facebook page appears. You will need to provide the bank's application permission to access your Facebook contact details.
  - iii. Click **Log In**. All your contacts that have registered with the bank through Facebook will be listed and available for selection in the **Transfer To** list.
  - iv. From the Transfer To list, select the Facebook contact to whom you want to transfer funds.
- d. If you select the **Twitter** option, the **Twitter** login page appears.
  - i. Log into your Twitter account with Twitter credentials
  - ii. In the **Username or email** field, enter your email ID or username associated with the Twitter account.
  - iii. In the **Password** field, enter the password associated with your Twitter account. Click **Sign In** to log into Twitter. The Twitter page appears with the list of the followers. Close the popup window to proceed.
  - iv. Click on the Enter Twitter Handle link under the Transfer To field.

The Select Twitter Handle pop up window appears.

v. Enter the name of the contact or the contact's Twitter handle in the **Search Twitter** or **Select a Follower** field to search for a Twitter handle and click **OK**.

The list of Twitter Handles that match the value entered in the **Search Twitter or Select a Follower** field appears.

Select a Twitter Handle towards which you wish to transfer funds.

The user is navigated to the **Pay to Contacts** screen with the selected Twitter Handle populated in the **Transfer Via** field.

Note: The user can transfer funds to twitter handles that are following his (the user's) twitter handle or to other twitter handles that have enabled receiving direct messages from anyone (this is an option that can be enabled in Twitter settings).

- vi. Click **Ok**. Details of the payee, including the payee's photo (if added) are displayed.
- vii. From the **Currency** field, select the currency in which the transfer is to take place.
- viii. In the **Amount** field, enter the transfer amount.
- ix. From the **Transfer From** account list, select the source account.
- 3. Click Transfer to initiate payment.

OR

Click **Cancel** to cancel the transaction.

4. The **Review** screen appears. Verify the details, and click **Confirm**. OR

Click **Cancel** to cancel the transaction.

OR

Click Back to return to the Transfer Money – New Payee initiation screen.

5. The **Verification** screen appears if the transaction is configured for 2 factor authentication. Click **Continue**. A message confirming submission of the transaction appears along with the transaction reference number and security code.

The generated security code is also sent via email/mobile to the initiator of the transfer. OR

Click Go to Dashboard, to navigate to the dashboard.

OR

Click <u>More Payment Options</u> to go to other payment options. OR

Click **<u>Add Payee</u>** to add payee. This option is not available if the transfer has been made towards a Facebook ID or a Twitter handle.

## 4. Payee Maintenance – Peer To Peer Payee

The online banking application enables users to register and maintain payees towards whom payments are to be made frequently or on a regular basis. Payee maintenance is beneficial to users as, it spares the user the effort and time spent to fill out the payee information every time a payment is to be initiated towards the payee's account.

The 'Manage Payee' feature not only enables users to register payees, but also enables them to add accounts to a registered payee and view and edit or delete the accounts of existing payees. Additionally, the user can also initiate a payment from this screen by selecting the option 'Pay' against a specific account of a payee.

This section in the user manual documents the maintenance of peer to peer payees specifically. For information on maintenance of account based and demand draft payees, refer to the Manage Payees section under *User Manual Oracle Banking Digital Experience Retail Payments*.

#### How to reach here:

Dashboard > Payments widget > Manage Payees OR Toggle menu > Payments > Setups > Manage Payees

### 4.1 Payee Summary

The summarized views of all the payees (including peer to peer payees) maintained by the user, are listed on the Payee Summary screen. The user is able to search for a specific payee by entering the payee name in the provided search field. The user is able to expand any payee record in order to view the accounts associated with that payee. Subsequently the user is able to view further details of the account associated with the payee and is also able to edit or delete the specific account. The user is also provided with the option to add a new payee maintenance.

#### Field Description

Field Name Description

Peer to Peer Payee Details

#### **Field Name Description**

The following fields appear if the payee details being viewed are that of a peer to peer payment to be initiated via email/mobile/Facebook, Twitter.

Payee Name	Name of the payee.
Payee Photo	Displays the payee account photo, if uploaded. If the photo has been deleted or if no photo is uploaded, the initials of the payee account will appear in place of the photo.
Nickname	The nickname assigned to the payee's peer to peer account maintenance for easy identification.
Account Type	The type of account. In this case, it will be 'Peer to Peer'.
Transfer Mode	The mode through which the funds are to be transferred. The value can be either Mobile or Email.
Transfer Value	The mobile number or email ID of the payee depending on the transfer mode.
Daily Limit	The maximum limit that can be transferred to the payee via the defined transfer mode on a daily basis.
Monthly Limit	The maximum limit that can be transferred to the payee via defined transfer mode on a monthly basis.

- 3. In the View/Edit Payee screen:
  - a. To transfer funds to the payee, click **Pay**.
  - b. To edit the daily and monthly funds transfer limits:
    - i. Click the  $\swarrow$  icon (edit option) against the **Daily Limit** field or the **Monthly Limit** field.

The respective field appears in editable mode.

- ii. Edit / enter limits against the daily / monthly limits field as the case may be.
- iii. Click against the Daily Limit / Monthly Limit field to save the changes made. A message stating that the limits have been set, appears.
   OR
   Click X to cancel the editing.
- c. To remove the limits that have already been set:
  - i. Click **Remove Limits** to delete the set limits assigned to the specific payee account. The Remove Limits pop-up appears. (This option appears only if limits (either daily or monthly) are already assigned to the payee account.)
  - ii. Select the limit you wish to delete and click **OK**. A message stating that the selected limit has been removed successfully appears.

- d. To edit the payee details, click
- e. To go back to the payee summary screen, click **Back**.

### 4.2 Edit Payee

Using this option, the user can modify certain details of existing payees.

#### To edit the payee details of a peer to peer payee:

1. From the **Payee List**, select and click on the expand option provided against the payee whose details you want to edit.

OR

Click  $^{ ext{Q}}$  to search for a specific payee whose details you want to edit.

A card displaying Payee Name, Payee Type and links to add a new account or new demand draft to the payee appears.

2. Click<sup>8</sup> and then click the **View/Edit** option. The **View/ Edit Payee** screen appears. OR

Click Add New Account or Add New Demand Draft to add new account type or demand draft type of payee.

3. Click <a></a> The Edit Payee Details screen appears.

## 5. Claim Money

The Claim Money feature enables recipients of peer to peer transfers to claim funds transferred to them. The following are the modes through which the beneficiary can arrive at the claim money page.

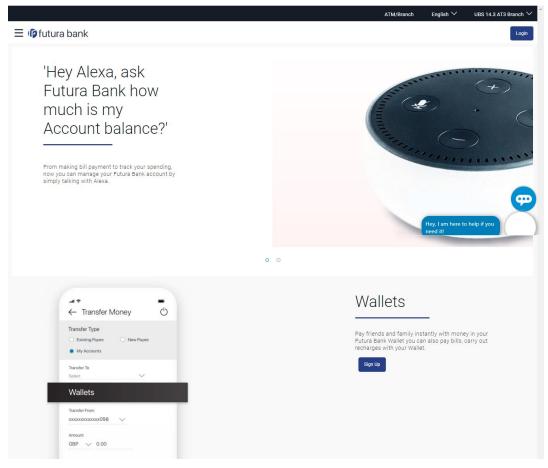

- Link on Bank Portal
- Click on link received through Email/Mobile SMS/Facebook Messenger/ Twitter Direct Message, depending on the transfer mode.

## 5.1 Link on Bank Portal

#### To claim money:

1. Arrive at the bank portal. The pre-login page of the bank's portal appears.

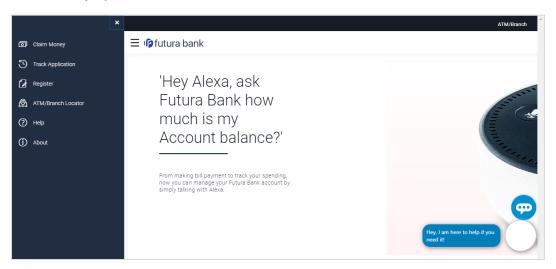

#### **Portal Page**

2. Select the Claim Money option from the menu. The Claim Money page appears.

#### **Claim Money option**

### 5.1.3 Dynamic URL

This section describes the flow by which a recipient of a peer to peer transfer can claim money by clicking on the link received through an email, SMS, Facebook message or Twitter message, as the case may be. When arriving at the claim money page via the dynamic link, the details pertaining to the transfer mode, email ID, mobile number, Facebook or Twitter ID along with the transfer amount will be prefilled. The user will be required to only enter the security code in order to proceed with the claim money flow.

#### To claim money:

1. Click on the link received through email, SMS, Facebook or Twitter.

#### Peer to Peer Payment alert received as a Twitter Direct Message

2. The Claim Money screen appears.

### **Dynamic Claim Money - Twitter**

## 6. Claim Money Link

Once a peer to peer payment is successfully initiated, a link is sent to the beneficiary through the mode defined in the payment instruction, i.e. if the initiator has opted to make the payments towards an Email ID, the link to claim money is sent via email to the beneficiary's Email ID defined in the peer to peer payment instruction. Similarly, if the initiator opted to make the payment towards a mobile number, the claim money link is sent as an SMS to the beneficiary's mobile number defined in the payment instruction and if the payment was made towards a Facebook account or a Twitter Handle, the claim money link is sent to the beneficiary as a private message via Facebook Messenger or a direct message through Twitter.

Once the beneficiary clicks on the link, the **Claim Money** screen is opened and the beneficiary can follow the steps to claim the money transferred via peer to peer payment.

Another mode through which a beneficiary could have received a link to claim money is through iMessage i.e. if the person transferring the funds, did so using **iMessage Payments**. In this case, when the beneficiary clicks on the claim money link, the Claim Money page is displayed without the options to select the payment modes. The subsequent steps required to initiate a claim money request remain the same. Please refer the user manual on iMessage Payments for further information on payments made through iMessage.

# 7. Claim Money – Request initiated by an existing (registered payee)

Once a user has registered himself as a beneficiary of peer to peer payments, the account identified as the account in which funds are to be credited will be maintained in the bank's database. Hence, when the beneficiary logs in to initiate subsequent claim money requests, the same account will be available for selection. Alternately, the beneficiary can also identify any other account to be credited with the fund transfer. This account can be either held with the bank or in an external bank.

Hence, when the existing customer logs into the application using the credentials, and claims money for the second time, he gets two options:

- 1. Receive a payment with the same account details: The customer can claim money using the same bank account which he has already used to claim money for the first time.
- 2. Update new bank Account details: The customer can also opt to add another account number of the same bank or account number of other bank.

## <u>FAQ</u>

# 1. As part of Peer to Peer transfer, what is the relevance of the security code displayed on the confirmation screen?

The security code displayed should be noted by the user (initiator of the peer to peer payment) and should be provided to the beneficiary of the payment so that the receiver / beneficiary can claim the money.

# 2. Can the recipient of the peer to peer payment, transfer funds received from the sender to an account in another bank?

Yes, as part of the claim money process the recipient has an option to select the bank in which the money is to be transferred. The recipient will need to enter the account number and select the bank in which account is maintained.

# 3. As part of the funds transfer process to a new payee, on the transaction confirmation screen does the sender need to add the recipient as a new payee?

No. It is not mandatory to add the recipient as a new payee. The user can optionally select the Add New Payee option and enter the payee details.

# 4. I am the beneficiary of the payment, how do I get the security code required to claim the money?

The initiator of the peer to peer payment is displayed the security code on the confirmation page of the payment. He/she will, in turn, make the security code known to you so that you can enter the same in the provided field while initiating a claim money request.

# 5. I am the beneficiary of the payment, I want to transfer the money to another bank but do not know the BIC code?

You can look up the bank BIC by clicking on the lookup link.

# 6. I am the beneficiary of the payment, and have lost/deleted the email received to claim the money. How can I claim it now?

You can visit the bank portal, click on the link of 'Claim Money' from the menu. On clicking on the Claim Money option, you will be navigated to the screen on which you can initiate a request to claim money.
