1. Preface

1.1 Intended Audience

This document is intended for the following audience*:*

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired*.*

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

3. Introduction

Islamic Banking is a banking system that is based on the principles of Shariah (Islamic law) and guided by the Islamic economics. The Shariah laws provide guidance on each and every aspect of human life, and the laws which govern and guide financial and commercial transactions define Islamic Banking activities.

Although Islamic banking may seem similar to conventional banking, the two differ conceptually. One key difference is that in conventional banking, banks earn their money by charging interest and fees for services, whereas in Islamic banking, banks earn their money by profit and loss sharing, leasing, charging fees for services rendered, and so on.

The OBDX corporate banking modules cater to Islamic accounts as well. Users of an Islamic bank, can view the account details, transfer money, make payments, request for cheque books, and so on, using the portal.

A user can either have only Islamic accounts or only conventional accounts or a mix of both types of accounts. The portal caters to each case. If the customer has both conventional CASA accounts and Islamic CASA accounts under the same ID and password, he will have a consolidated view of all accounts on logging.

The current and savings accounts widget has a representation of both conventional and Islamic accounts. This is also true for enquiry and transaction screens. While initialing any transaction or payment, the user selects either an Islamic account or a conventional account, grouped under the respective labels.

The labels on the different pages / screens, for Islamic accounts, reflect the nomenclature as per and in accordance with Islamic banking requirements.

ORACLE®

4. Accounts

Current and savings accounts are the most basic and critical products of corporate banking. Most banking customers hold either a current or a savings account with their banks. Banks, in turn, encourage the use of current or savings accounts as they can leverage the accounts to earn a higher profit margin.

This application provides a platform by which banks are able to offer their customers an enriching online banking experience in performing activities on their accounts.

Through the online banking application, customers can perform various activities on their accounts. Customers can view account balances and statements, initiate service requests and perform other inquiries as well as perform financial transactions in their accounts.

Note: In application
1) Account searchable drop-down will allow user to search the account number basis on the Account Number, Account Name, or Account Currency.
2) Bank can configure the fields to be shown as additional values in the accounts drop-down.
3) If in **Group Corporate Onboarding - Group Corporate Profiling** setup, **Approval Routing Type** is selected as **Manual**, system will allow initiator to choose the approval workflow from the resolved rules as part of transaction initiation. Refer **Group Corporate Onboarding - Group Corporate Profiling** section in **User Manual Oracle Banking Digital Experience Core** for more details.

Features Supported In the Application:

The corporate accounts module of the application supports the following features:

- Cheque Status Inquiry

- Stop/Unblock Cheque

- Cheque Book Request

- Request Statement

- Forex Calculator

Pre-requisites

- Transaction access is provided to corporate users

- Islamic CASA accounts are maintained in the core banking system under a party ID mapped to the user.

4.1 Current & Saving Accounts Overview

The savings accounts overview showcases a summary of the accounts held by the user. It provides the facility for users to access all the important features and information related to the account.

How to reach here:

Toggle Menu > Menu > Accounts > Current and Savings > Overview

ORACLE®

Current & Savings Accounts Overview

Dashboard Overview

Accounts Overview

View the number of Current & Savings accounts mapped to the user and the total consolidated net balance in all accounts.

Account Summary

This section on the current and savings accounts overview screen displays the summary of the accounts, which consists of party name, account number, account type, net balance available in each of the account. You can click the link under the **Account Number** column to view the account details. You can click the **Download** link to download the account details and balances for future reference.

Quick Links

It provides the facility for users to access all the important features like

- Stop / Unblock Cheque
- Cheque Status Inquiry
- Cheque Book Request
- Request Statement

Forex Calculator

The foreign exchange calculator provides a comparison between two currencies. It provides the equivalent value of one currency with another currency. With the help of forex calculator user can determine the buying and selling price between two currencies.

Offers

Any offers and rewards as hosted by the bank will be shown in this section of the dashboard.

Promotions

This section of the dashboard displays promotional messages of any bank offerings applicable to the customer.

ORACLE®

5. Current & Savings Account Details

The customer can navigate to this screen by selecting any active account card on the accounts dashboard. The account details screen displays important information pertaining to a current or savings account such as the account holding pattern and the names of all the account holders, the current status of the account and the branch in which the account is held along with details on various balances and limits applicable on the account.

Additionally, the customer can also see the following on the account details page:

- Account Number along with account nickname (if any), balance in the account and the status of the account, product name

- Balance Details: It includes information like Available Balance, Amount on Hold, Net Balance, Un-cleared Balance, Financing Limits, Advance Against Uncleared Funds Limit

- General Details: It includes the basic information about the account such as customer ID, account holder name, branch details.

How to reach here:

Toggle Menu > Menu > Accounts > Current & Savings > Overview > Account Summary > Islamic > Account Number link > Current & Savings Account Details
OR
Dashboard > Current & Savings widget > Account Summary > Islamic > Account Number link > Current & Savings Account Details
OR
Access through the kebab menu of transactions available under the **Current & Savings** *module*

ORACLE®

6. Cheque Book Request

Cheques are the most widely used instruments that are used to make different kinds of payments. The Cheque Book Request feature enables customers to request for a new cheque book online.

This feature is available only for those accounts for which cheque book facility is enabled. Customers can specify the number of cheque books required, leaves per cheque book, cheque book type and also the delivery location as to where the cheque book is to be delivered, while initiating a cheque book request. On initiating a cheque book request, a service request number is generated. The customer can track the status of the request through this reference number generated.

Note: Send to Modify functionality is now supported for this transaction.

How to reach here:

Toggle Menu > Menu > Accounts > Current and Savings > Cheque Book Request
OR
Toggle Menu > Menu > Accounts > Current and Savings > Overview > Quick Links > Cheque Book Request
OR
*Access through the kebab menu of transactions available under the **Current & Savings** module*

Cheque Book Request

Field Description

ORACLE®

Field Name	Description
Account Number	Account number with the account nickname for which the cheque book is to be requested. The account number could be either the user's Party account or any linked party accounts that he has access to.
Account Balance	Net balance in the selected account.
Type of Cheque Book	The type of cheque book.
Number of Cheque Books	Number of cheque books required. This field appears if you have the facility to request for multiple cheque books.
Number of Leaves per Book	Number of cheque leaves needed per cheque book.
Delivery Location	Delivery location of the cheque book. The options are: • My Address • Branch Near Me

This section appears if you select **My Address** option in the **Delivery Location** field.

Field Name	Description
Select Address	The address for delivery of the cheque book. The options are: • Postal • Residence • Work
Address	The complete address of the primary account holder's work place, residence or that defined as postal address will be displayed based on which option has been selected in the address selection field.

This section appears if you select **Branch Near Me** option in the **Delivery Location** field.

Field Name	Description
City	The city where the cheque book is to be delivered.

ORACLE®

Field Name	Description
Branch Near Me	The branch in the selected city, where the cheque book is to be delivered.
	Note: The options in this field depend on the selected option in the **City** field.
Branch Address	The complete branch address based on the selection above.
	Note: The address displayed here depends on the selected option in the **Branch Near Me** field.

To request a cheque book:

1. From the **Account Number** list, select the account for which the cheque book is to be requested.

2. From the **Type of Cheque Book**, select the desired option.

3. In the **Number of Cheque Book** field, enter the required number of cheque books.

4. From the **Number of Leaves per Book** list, select the number of leaves required in each cheque book.

5. In the **Delivery Location** field, select the delivery location of choice.

    a. If you select the **My Address** option:

        i. From the **Address** list, select the cheque book delivery address.

    b. If you select the **Branch Near Me** option:

        ii. From the **City** list, select the desired city.

        iii. From the **Branch Near Me** list, select the desired branch.
        The complete address of the selected branch appears.

6. To submit the cheque book request, click **Submit**.
OR
Click **Cancel** to cancel the transaction.

7. The **Review** screen appears. Verify the details and click **Confirm**.
OR
Click **Back** to navigate back to the previous screen.
OR
Click **Cancel** to cancel the transaction.

8. The success message of cheque book request along with the service request number appears.

9. Click **Home** to go to the **Dashboard** screen.
OR
Click **View Account Details** to visit the account details page.

ORACLE®

7. Cheque Status Inquiry

The Cheque Status Inquiry transaction enables customers to view the status of cheques written at any point of time. The customer can view the status of either a single cheque by providing a cheque number or that of a cheque series by defining a cheque range. Customers can also search for cheques based on their status i.e. used, not used, stopped, and so on.

Note: The **Range** and **Status** fields are displayed if the **Oracle Banking Digital Banking Experience** application is integrated with **Universal Banking Solutions** and the region is **UK**.

How to reach here:

Toggle Menu > Menu > Accounts > Current and Savings > Cheque Status Inquiry
OR
Toggle Menu > Menu > Accounts > Current and Savings > Overview > Quick Links > Cheque Status Inquiry
OR
*Access through the kebab menu of transactions available under the **Current & Savings** module*

Cheque Status Inquiry

Cheque Status Inquiry- Result

ORACLE®

8. Stop/ Unblock Cheque

Cheques are physical instruments used for making payments; it is likely that user might want to block payment in case of theft or misplacement of a cheque issued to a payee. Hence it is critical to provide an option to stop cheques so that they cannot be utilized for making payment or cannot be misused.

Stop/ Unblock cheque feature allows user to stop a cheque issued for making payment. User can specify the cheque number and initiate a stop payment. The customer will have to select the account number and the cheque number. The cheque number entered will be validated against the account number selected. This is an online request and cheque status will be changed to stop. The User has to specify the reason while stopping the cheque.

This feature also enables customers to request for a cheque or cheque range that has been stopped or blocked. Both stop cheque as well as unblock cheque requests are online i.e. do not require manual intervention by a bank official and the specific cheque or cheque range is immediately stopped or unblocked based on the request raised.

Note: Send to Modify functionality is now supported for this transaction.

How to reach here:

Toggle Menu > Menu > Accounts > Current and Savings > Stop/Unblock Cheque
OR
Toggle Menu > Menu > Accounts > Current and Savings > Overview > Quick Links >
Stop/Unblock Cheque
OR
Access through the kebab menu of transactions available under the **Current & Savings** *module*

Stop /Unblock Cheque

Field Description

Field Name	Description
Account Number	Current and savings account number in masked format along with the account nickname for which the cheque to be stopped / unblocked. The account number could be either the user's Party account or any linked party accounts that he has access to.
Account Balance	The balance amount in the selected account.
Select Action	The action to be taken on cheque that is whether to stop or unblock the cheque. The options are: • Stop • Unblock
Specify Reason	The reason for stopping / unblocking the cheque.
Stop	Select the option to stop either a specific cheque by selecting Number or to stop multiple cheques by selecting Range. The options are: • Number • Range This field will be displayed if the option **Stop** is selected under the Select Action field.
Unblock	Select the option to unblock either a specific cheque by selecting Number or to unblock multiple cheques by selecting Range. The options are: • Number • Range This field will be displayed if the option **Unblock** is selected under the Select Action field.
Cheque Number	Cheque number of the cheque to be stopped/ unblocked. This field appears if you select the **Number** option.
From	Start number of the cheque range to be stopped/ unblocked. This field appears if you select the **Range** option.
To	End number of the cheque range to be stopped/ unblocked. This field appears if you select the **Range** option.

To stop or unblock cheque:

ORACLE®

1. From the **Account Number** field, select the account number of which cheque/cheques have to be stopped or unblocked.

2. In the **Select Action** field, select the appropriate option.

3. In the **Specify Reason** list, enter the reason to stop or unblock the cheque.

4. If **Stop** is selected under the **Select Action** field, in the **Stop** field, select the desired option:

9. Transactions

Customers can track the transactions taking place in their accounts. This feature enables customers to view the details of all the transactions performed in their accounts. All the debit and credit entries along with each transaction amount and reference details are displayed. User can access account related transactions on the kebab menu.

Customers can also undertake the following from this screen:

- Request for Statements – The customer can access this option by selecting the **Request Statement** option from the kebab menu. The user will be able to define the period for which he/she requires to receive statements at his/her registered address.

- Download Pre-Generated Statements – The customer can select the **Pre-Generated Statement** option from the kebab menu on this page, in order to be provided with the facility to define the period for which he/she would like to download pre-generated statements.

- Subscribe for E-Statements – By selecting the **E-Statement** option from the kebab menu, the user will be able to either subscribe or unsubscribe (if subscription is active) for e-statements for the specific account. If the user opts to subscribe for e-statements, he/she will receive monthly e-statements on his/her registered email address.

How to reach here:

*Toggle Menu > Menu > Accounts > Current and Savings > Transactions*
OR
Avail through kebab menu

To view the account statement:

1. From the **Account Number** list, select the account of which you wish to view transactions.

2. From the **View Options** list, select the desired transaction period.

   a. If the option **Date Range** has been selected in the **View Options** list, specify the date range in the **From Date** and **To Date** fields.

3. From the **Transaction** list, select the types of transactions to be displayed i.e. either debit or credit or all transactions.

4. In the **Amount** field, enter the specific transaction amount matching to which you wish to view transactions.

5. In the **Reference Number** field, enter a transaction reference number if you wish to view a specific transaction record.

6. Click **Apply** to view transactions based on the defined criteria.
   OR
   Click **Reset** to clear the details entered.

ORACLE

10. Account Nickname

Customer can assign a specific name to a current or savings account. This is useful if customer wishes to remember accounts with a particular name instead of account numbers. Once a nickname is assigned to an account, it is displayed on various transactions instead of the standard account description. The application also allows customer to modify or delete the nickname whenever required.

The customer can access this option by selecting the **Add/Edit Nickname** option from the kebab menu.

How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Current & Savings > Overview > Account Summary > Islamic > Account Number link > Current & Savings Account Details > kebab menu > Add/Edit Nickname

To add/edit nickname against an account:

1. Click on the ⠇ icon on the screen, and click **Add/Edit Nickname** option to add/edit nickname against an account. The **Add/Edit Nickname** popup appears.

FAQ

1. As a corporate User, what are the CASA accounts that I can view?

A Corporate User can view all the accounts that he has access to. This includes the accounts of his primary party as well as those of linked parties.

2. Can the user access CASA account details 24/7 on the online platform?

Yes, the user can access CASA account details 24/7, except at times of system downtime or transaction blackout.

3. What is the advantage of assigning a nickname to an account?

You can personalize your account by giving it a nickname. This way you will be able to easily identify it when viewing account summary.

4. Who all can view a nickname that a user has set?

One account can have multiple nicknames set by different users, who have access to that account – however only the logged in user can view the nickname he has set.

5. Are nicknames displayed in all places, where an account number is displayed?

No, Approvers can only view the account number, but not nicknames set by makers. Further Review screens contain the account number (where applicable), but not the nickname.
