1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. Introduction

Islamic Banking is a banking system that is based on the principles of sharia (Islamic law) and guided by the Islamic economics. The Shariah Laws provide guidance on each and every aspect of human life, and the laws which govern and guide financial and commercial transactions define Islamic Banking activities.

Although Islamic banking may seem similar to conventional banking, the two differ conceptually. One key difference is that in conventional banking, banks earn their money by charging interest and fees for services, whereas in Islamic banking, banks earn their money by profit and loss sharing, leasing, charging fees for services rendered, etc.

The OBDX retail banking modules cater to both Conventional and Islamic accounts. Users of an Islamic bank, can view the account details, transfer money, make payments, request for cheque books, debit cards etc. using the banking portal.

A user can have only Islamic accounts or only conventional accounts or a mix of both types of accounts. The portal caters to each case. If the customer has both conventional CASA accounts and Islamic CASA accounts under the same ID and password, he will have a consolidated view of all accounts on logging in to the bank portal. While initiating any transaction or payment, the user can select either an Islamic account or a conventional account, grouped under the respective labels.

The labels on the different pages / screens, for Islamic accounts, reflect the nomenclature as per and in accordance with the requirements.

[Home](#)

4. Accounts

Current and savings accounts are the most basic and critical products of retail banking. Most banking customers hold either a current or a savings account with their banks. Banks, in turn, encourage the use of current or savings accounts as it results in a higher profit margin for the bank.

This application provides a platform by which banks are able to offer their customers an enriching online banking experience in performing activities on their accounts.

Through the online banking application, customers can perform various activities on their accounts. Customers can view account balances and statements, initiate service requests and perform other inquiries as well as perform financial transactions on their accounts.

Features Supported In the Application:

The retail accounts module of the application supports the following features:

- Overview Widget
- View Account Details
- View & Update Debit Card Limits
- Apply for New Debit Card
- Block Debit Card
- Re-issue Debit Card
- Upgrade Debit Card
- Unblock Card
- Request for new Debit Card PIN
- Reset Debit Card PIN
- Cheque Book Request
- Cheque Status Inquiry
- Stop/Unblock Cheque
- View Account Statement and E-Statement Subscription
- Request Statement
- Forex Calculator
- View Inactive Accounts

Pre-Requisites

- Transaction access is provided to retail users.
- Islamic CASA accounts and debit cards are maintained in the core banking system under a party ID mapped to the user.

Note: In application

- 1) Account searchable drop-down will allow user to search the account number basis on the Account Number, Account Name, or Account Currency.
 - 2) Bank can configure the fields to be shown as additional values in the accounts drop-down.
-

4.1 Overview Widget

The retail dashboard page displays an overview of the customer's holdings with the bank as well as links to various transactions offered to the customer. The **Overview** widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans and Credit Cards. On clicking on any account type record, the widget displays details specific to that account type. One such example is that of Current & Savings accounts. On selection of account type **Current & Savings**, details of the current and savings accounts held with the bank are displayed. This includes a summary of both Islamic and Conventional active accounts held by the customer along with the basic details of each current & savings account such as the account number and current balance. General details such as the total amount due for bill payment, the total count of current & savings accounts and the total net current balance are also displayed.

By clicking on a specific current & savings account card, the user is able to navigate to the **Current & Savings Account Details** page on which he can view the details of the selected account.

How to reach here:

Dashboard > Overview Widget > Current and Savings

The screenshot displays the 'Overview' widget with the following data:

Account Type	Value
Current & Savings (Current Balance)	EUR310,262.63
Credit Cards (Total Dues)	GBP39,000.00
Term Deposits (Current Balance)	EUR27,926.00
Current & Savings (Count)	3
Current & Savings (Current Balance)	EUR310,262.63
Bills Due	EUR0.00
Account Details (Current Balance)	GBP282,056.94

The account details card also shows an account number (XXXXXXXXXXXX0011) and the status 'ACTIVE Saving Account'.

[Home](#)

5. Current & Savings Account Details

The account details screen displays important information pertaining to a current or savings account such as the account holding pattern and the names of all the account holders, the current status of the account and the branch in which the account is held along with details on various balances and limits applicable on the account.

Additionally, the customer can also see the following on the account details page:

- Account Number along with account nickname (if any), balance in the account and the status of the account as well as the product name.
- Balance Details: This section displays information pertaining to the account balances such as Available Balance, Amount on Hold, Net Balance, Un-cleared Balance, Financing Limits, etc.
- General Details: This section displays basic information about the account such as customer ID, account holder name, branch details, etc.

6. Debit Cards

Debit cards are used for funds withdrawal at ATMs, for making purchase transactions at Point of sale (POS) terminals and doing online transactions. Since debit cards are very frequently used for banking transactions, it is essential for the bank to provide a means by which customers can view the details of their debit cards as well as apply for new debit cards online.

This feature enables customers to view details of debit cards linked to their current or savings accounts and also to apply for a new debit card on any of their accounts.

How to reach here:

Dashboard > Toggle menu > Menu > Accounts > Current & Savings > Debit Cards

OR

*Access through the kebab menu of transactions available under the **Current & Savings** module*

7. New Debit Card

The New Debit Card feature allows the customer to submit requests for new debit cards for their operating accounts. While initiating the request for new debit cards, customer can specify the reason for which a new card is being requested and also define the name to be embossed on the card.

This feature acts as a service request (SR) and an SR number is generated when the customer submits the request. Customers can track the status of their service requests by clicking on the Track Request link provided on the Service Request widget or by directly selecting the Track Request option from the toggle menu.

How to reach here:

Dashboard > Toggle menu > Menu > Accounts > Current & Savings > Debit Cards > kebab menu > Apply for New Debit Card

OR

Access through the kebab menu of transactions available under the kebab menu of any other Debit Cards screen

Click **View Account Details** to view the **Account Details** screen.

[Home](#)

8. Debit Card Limits

A customer can view the limits of an existing debit card linked to his current or savings account. The customer can view the existing limits and has the option to update the limits of active debit cards. In addition to the existing limits, the screen also displays the maximum limit count/ amount that can be set for the card.

The customer can view the various transaction limits associated with the debit card. The system displays limits in terms of count and amount in each category, which are as defined below:

- Own ATM Limits
- Remote ATM Limits
- Own Point of Sale Limits (PoS)
- Remote Point of Sale Limits (PoS)
- E-commerce Limits

The customer also has the provision to configure a combined limit on his debit card. It is the maximum allowed limit across all sections and if this limit is breached, user will not be allowed for any further transaction on the day irrespective of the individual daily limits set under various categories.

Note: Combined Limits will be applicable only for third party host system.

How to reach here:

Dashboard > Toggle menu > Menu > Accounts > Current & Savings > Debit Cards > kebab menu > Debit Card Limits

OR

Access through the kebab menu of transactions available under the kebab menu of any other Debit Cards screen.

8.1 View Daily Limits

To view the debit card limits

1. From the **Card Number** list, select the debit card whose limits you wish to view. The **Debit Card Limits** screen displaying the **Daily Limits** applicable on the selected card, appears.

Debit Card Limits

Field Description

Field Name	Description

9. Block Card

Debit card fraud costs individuals and businesses millions of dollars every year globally. The speed at which fraudulent transactions can be performed on a stolen debit card is incredible; hence users need a means by which to communicate the status of a lost or stolen card to the bank in the fastest possible manner with the least amount of friction.

The Block Debit Card feature enables users to block the debit card online in cases of a stolen card or lost debit card so that the bank can block the processing of any transaction, which can be performed via the debit card immediately.

This feature also enables the user to request for a replacement debit card which will have the same attributes as that of the debit card that is being blocked.

How to reach here:

Dashboard > Toggle menu > Menu > Accounts > Current and Savings > Debit Cards > kebab menu > Block Card

OR

Access through the kebab menu of transactions available under the kebab menu of any other Debit Cards screen.

12. Request PIN

A debit card PIN is required to authenticate any debit card transaction. Without a PIN, the user will not be able to withdraw funds from his account or make any Point of Sale purchases. This feature enables a user to request for a new debit card PIN to be delivered at the address of choice.

The debit card PIN request is a service request transaction and on initiating the request, service request number is generated, which can be used by the user to track the status of the request. Duplication checks are done by the system to ensure that no duplicate requests are being initiated.

How to reach here:

Dashboard > Toggle menu > Menu > Accounts > Current and Savings > Debit Cards > kebab menu > Request PIN

OR

Access through the kebab menu of transactions available under the kebab menu of any other Debit Cards screen

Request PIN

The screenshot shows the 'Request PIN' form in the Futura Bank web application. The form is titled 'Request PIN' and includes the following fields:

- Card Number:** XXXXXXXX5801ACTIVE
- Account Number:** XXXXXXXXXXXX0011
- Delivery Location:** My Address (selected), Branch Near Me
- Postal:** Fiat No 34, sector 34, Goregaon 12, Mumbai, IN, 516152

There are 'Submit' and 'Cancel' buttons at the bottom of the form. A 'Tips' section on the right provides the following instructions:

- Do not keep the PIN issued by the Bank together with your Credit/Debit Card.
- Change your PIN immediately and destroy any documents containing PIN information.
- Do not share your PIN or card with anyone including Bank employees, merchant, not even your friends or family.
- Change your PIN at regular intervals.

14. Cheque Book Request

Cheques are the most widely used instruments that are used to make different kinds of payments. The Cheque Book Request feature enables customers to request for a new cheque book online.

This feature is available only for those accounts for which cheque book facility is enabled. Customers can specify the number of cheque books required, leaves per cheque book, cheque book type and also the delivery location as to where the cheque book is to be delivered, while initiating a cheque book request. On initiating a cheque book request, a service request number is generated. The customer can track the status of the request through this reference number generated.

How to reach here:

Dashboard > Toggle menu > Menu > Accounts > Current & Savings > Cheque Book Request
OR

*Access through the kebab menu of transactions available under the **Current & Savings** module*

Cheque Book Request

Field Description

Field Name	Description
Account Number	Islamic savings account number in masked format along with the account nickname. For more information on Account Nickname, refer Account Nickname .

16. Stop/ Unblock Cheque

Cheques are physical instruments used for making payments; it is likely that user might want to block payment in case of theft or misplacement of a cheque issued to a payee. Hence, it is critical to provide an option to stop cheques so that they cannot be utilized for making payment or cannot be misused.

Stop/ Unblock cheque feature allows user to stop a cheque issued for making payment. User can specify the cheque number and initiate a stop payment. The customer will have to select the account number and the cheque number. The cheque number entered will be validated against the account number selected. This is an online request and cheque status will be changed to stop. The User has to specify the reason while stopping the cheque.

This feature also enables customers to request for a cheque or cheque range that has been stopped or blocked to be unblocked. Both stop cheque as well as unblock cheque requests are online i.e. do not require manual intervention by a bank official and the specific cheque or cheque range is immediately stopped or unblocked based on the request raised.

How to reach here:

Dashboard > Toggle menu > Menu > Accounts > Current & Savings > Stop/Unblock Cheque
OR

*Access through the kebab menu of transactions available under the **Current & Savings** module*

17. Transactions

Customers can track the transactions taking place in their accounts. This feature enables customers to view the details of all the transactions performed in their accounts. All the debit and credit entries along with each transaction amount and reference details are displayed.

Customers can also undertake the following from this screen:

- Request for Statements – The customer can access this option by selecting the **Request Statement** option from the kebab menu. The user will be able to define the period for which he/she requires to receive statements at his/her registered address.
- Download Pre-Generated Statements – The customer can select the **Pre-Generated Statement** option from the kebab menu on this page, in order to be provided with the facility to define the period for which he/she would like to download pre-generated statements.
- Subscribe for E-Statements – By selecting the **E-Statement** option from the kebab menu, the user will be able to either subscribe or unsubscribe (if subscription is active) for e-statements for the specific account. If the user opts to subscribe for e-statements, he/she will receive monthly e-statements on his/her registered email address.

How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Current and Savings > Transactions
OR

*Access through the kebab menu of transactions available under the **Current & Savings** module*

To view the transactions:

1. From the **Account Number** list, select the account of which you wish to view transactions.
2. From the **View Options** list, select the desired transaction period.
 - a. If the option **Date Range** has been selected in the **View Options** list, specify the date range in the **From Date** and **To Date** fields.
3. From the **Transaction** list, select the types of transactions to be displayed i.e. either debit or credit or all transactions.
4. In the **Amount** field, enter the specific transaction amount matching to which you wish to view transactions.
5. In the **Reference Number** field, enter a transaction reference number if you wish to view a specific transaction record.
6. Click **Apply** to view transactions based on the defined criteria.
OR
Click **Reset** to clear the details entered.

The statement gets downloaded.
8. The following actions can also be performed in the screen:
 - Subscribe for E-Statements.
 - Request for a specific statement
 - Download Pre-Generated Statements.

17.1 Request Statement

A user may require the physical copy of an account statement for a certain period. The statement request feature enables users to request the bank for a physical copy of the statement of an account for a specific period. This physical copy will be mailed to the user's address registered with the bank.

To request for a Statement

1. Click on the  icon on the **Transactions** screen, and click **Request Statement** to request for an account statement.

Request Statement

Field Description

Field Name	Description
Account Number	Islamic savings account number in masked format for which statement has to be requested.
From Date	The user is required to specify the start date from which the account statement is required.
To Date	The user is required to specify the date until when the statement is required.

To request for a physical statement:

- From the **Account Number** list, select the account number for the account statement.
- From the **From Date** list, select the start date of the account statement.
- From the **To Date** list, select the end date of the account statement.
- Click **Submit**.

18. Account Nickname

Customers can assign a specific name to a current or savings account. This is useful if the customer wishes to remember accounts with a particular name instead of account numbers. Once a nickname is assigned to an account, it is displayed on various transactions instead of the standard account description. The application also allows customer to modify or delete the nickname whenever required.

The customer can access this option by selecting the **Add/Edit Nickname** option from the kebab menu.

How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Current & Savings > Current & Savings Account Details > kebab menu > Add/Edit Nickname

To add/edit nickname against an account:

1. Click on the  icon on the screen, and click **Add/Edit Nickname** option to add/edit nickname against an account. The **Add/Edit Nickname** popup appears.

Add/Edit Nickname

Field Description

Field Name	Description
Nickname	Specify a nickname to be assigned to the account. If a nickname has already been assigned to the account, it will be displayed in editable mode.

2. In the **Nickname** field, enter the nickname you want to use.
3. Click **Save** to save your changes.
Nicknames will be displayed on various transactions instead of the standard account description.

OR
Click **Delete** to delete nickname.

FAQ

1. As a Retail User, what are the CASA accounts that I can view online?

The Retail User will have online access to all his accounts – whether conventional or Islamic, that he holds with the bank.

2. Can the user access Islamic CASA account details 24/7 on the online platform?

Yes, the user can access account details 24/7, except at times of system downtime or transaction blackout.

3. Who all can view a nickname that a user has set?

Only you can view the nickname that you have set.

4. Can a user apply for new debit card online, only at the time of account opening?

The user can apply for a debit card online, whether it is his first card or his existing card is expired or lost, at the time of account opening or later.

5. Can I have multiple debit cards linked to a CASA account?

This is dependent of the features of the specific Islamic CASA. Generally, in joint accounts, both the primary account holder as well as the joint holder are provided a debit card each.

6. If a lost debit card is found and restored to the cardholder, can it be reactivated?

No, for security purposes, once a card has been hotlisted, it cannot be re-activated. You can make a request for a new debit card. If the card was blocked, it can be unblocked online.

7. Can the user find exchange rate between all currency pairs?

The user can find exchange rate between currency pairs, provided that they are available for selection, and the currency pair is maintained in the Host and exchange rate is available for it.
