1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Patchset Release 21.1.4.0.0, refer to the following documents:

- Oracle Banking Digital Experience Licensing Guide
- Oracle Banking Digital Experience Installation Manuals

3. Wealth Management

Wealth Management or Investment Management is an important offering in a bank's product bundle. Wealth management services offered by banks usually involve risk profiling a client and recommending investments that suit the risk profile. Investments could be in multiple instruments like Mutual Funds, Equity shares, Bonds, and so on. Performance of these investments are regularly tracked.

OBDX Wealth Management functionality supports the opening of an investment account, risk profiling, mutual fund order placement and tracking of their performance.

Note: OBDX fully depends on integration with the mutual fund processor to provide data for all the functionality such as, fund information, order capture, order processing, funds and portfolio performance, and so on.

Features Supported In the Application

The Wealth Management module of the application supports the following features:

- Open Investment Account
- Risk Profiling
- Purchase Mutual Funds
- Redeem Mutual Funds
- Switch Mutual Funds
- Order Status
- Investment Details
- Transaction Report
- Capital Gain Report
- Dividend Report

[Home](#)

4. Overview

Wealth Management overview provides you a snapshot of your mutual fund portfolio at a given point of time.

The overview/ dashboard page displays an overview of the customer's investments with the bank as well as quick links to various wealth management transactions offered to the customer.

How to reach here:

Dashboard > Toggle Menu > Menu > Wealth Management > Overview

The screenshot shows the 'futura bank' dashboard for user 'keron Bohr'. The main section is 'Mutual Funds' with a 'Portfolio Summary' as of 06 Sep 2018. Key metrics include: Invested Value (GBP76,885.00), Current Value (GBP91,665.00), Profit/Loss (GBP11,492.00), and Rate of Return (0.2%). A line chart in 'Performance Analysis' shows annualized returns over 1, 3, and 5 years. Other sections include 'Investment Accounts' (bar chart), 'Investment Allocation' (donut chart), 'Reports' (Capital Gains, Transactions, Dividends), 'Top Funds' (list of funds with values and returns), 'News' (market updates), and 'Quick Links' (Purchase, Redeem, Switch, Risk Profiling, Order Status, View/Cancel Request). Promotional banners for 'WATCH YOUR MONEY GROW' and 'Be your daughter's superhero' are at the bottom.

Overview

The Wealth management Overview screen features the following:

Portfolio Summary:

The Portfolio Summary widget allows the user to view the following:

- Total money invested in Mutual Funds
- Current market value of the investments done
- Change in the market value of investments over previous value, if the change is positive it will be in **Green** color and **Red** color if change is negative
- Profit/ Loss amount for the above investments
- Change in the profits figure over previous value, if the change is positive it will be in **Green** color and **Red** color if change is negative
- Rate of return in percentage for the above investments
- Change in rate of returns figure over previous value, if the change is positive it will be in **Green** color and **Red** color if change is negative
- The realized gain/ loss figure for the above investments
- Value of dividends earned from the above investments
- Number of SIPs current running/ active in the investment account.

Under the kebab menu -

- Click the **Investment Details** option to access the **Investment Details** screen.
OR
Click the **Open Another Investment Account** option to access the **Open Investment Account** screen.

Performance Analysis:

The widget allows the user to view the performance of his investments in graphical form. The graph represents percent return of the investment account over time periods – 1 month, 3 month, 1 year, 3 years and 5 years.

Investment Accounts:

The investment account details are displayed in the form of bar chart. The X axis denotes the investment amount and current market value (Two vertical bars) of the investment accounts whereas Y axis denotes the amount.

Investment Allocation:

The investor/ user can view the details summary of all his investment accounts.

Doughnut chart displays the distribution of current market value various fund categories along with legends.

Reports:

This widget allows the user to directly access the report instead of navigating from the menus.

The following reports can be accessed:

- Capital Gains Report
- Transactions Report
- Dividends Report

Top & Bottom Funds:

This widget displays the following details:

- Fund Name: Names of the Top/ Bottom fund amongst the funds held by user – based on performance
- Price: Latest available price per unit of the fund
- % Change: Percent change in price of the fund over previous value, positive changes in Green and negative changes in Red

News:

The News widget displays the news feed/ headlines.

Quick Links:

Quick links to access the following transactions:

- Purchase : Click to access the Purchase Mutual Funds screen
- Redeem: Click to access the Redeem Mutual Funds screen
- Switch: Click to access the Switch Mutual Funds screen
- Risk Profiling: Click to access the Risk Profiling screen
- Order Status: Click to access the Order Status screen
- View /Cancel Request: Click to access the Order Status screen

Offers :

Any offers and rewards as hosted by the bank will be shown in this section of the dashboard. (Note: Offers data needs to be supplied to the OBDX)

Promotions:

This section of the dashboard displays promotional messages of any bank offerings applicable to the user. (Note: Promotions data needs to be supplied to the OBDX)

[Home](#)

5. Start Investing

This module allows the user to start investments using their CASA balances.

This module includes following transactions:

- Open Investments Account
- Risk Profiling

5.1 Open Investments Account

Investment Accounts are the placeholders for mutual fund investments of a bank customer. They are internal to the bank and unlike current & savings accounts have no real significance outside the bank. Opening of the investment account is a mandatory for user to start transacting in mutual funds in OBDX. Currently OBDX supports opening of investment accounts in "Single" holding mode only.

The investment account involves transaction of financial assets, mutual funds etc.

Following are the steps involved as part of opening of investment account:

- Personal details of the user
- Contact details of the user
- Specifying the nominations for mutual fund investments made through the investment account.
- Specifying the Foreign Account Tax Compliance Act (FATCA) related details
- Additional Details

Note: The maximum number of investment accounts a user can open is configurable. If user tries to open investment account beyond the maximum allowed limit he will get a message "You already have the maximum number of investment account allowed. Please visit our branch or talk to your relationship manager for further queries." on the Open Investment Account screen.

Pre-Requisites

- Transaction access is provided to the Retail User.

How to reach here:

Dashboard > Toggle Menu > Menu > Wealth Management > Start Investing > Open Investments Account

OR

Dashboard > Portfolio Summary widget kebab menu > Open Another Investments Account

Open Investments Account

5.2 Risk Profiling

Banks/ investment advisers have a practice of doing a “Risk Profile” of the prospective investor. A risk profile is an evaluation of an investor's attitude and ability to take risks. Risk profiling involves the assessment of investor psychological level with the volatility of capital markets. A risk profile is important to determine which asset should be allocated to an investor's portfolio.

A risk profiling involves the series of questionnaire and based on the answers assign a risk profile to the investor. The tolerance to risk is reflected in the “Asset Allocation” that the bank recommends to the investor. Aggressive investors who have high tolerance to equity usually have a high percentage of Equity in their allocation, conservative investors tend to have more of debt. The MF portfolio that the investor invests has to match his/ her asset allocation, which is based on risk profile.

Note: The risk profile questionnaire, recommended asset allocation will be fetched from mutual fund processor. OBDX will display the questionnaire, capture the answers and pass them on to the mutual fund processor. Further, the computation of risk profile based on user provided answers will happen at mutual fund processors and will be communicated to OBDX which will display it to the user.

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Risk Profile Assessment
- Edit Risk Profile

How to reach here:

Know Your Risk Profile Cancel

Risk Profile

Risk profile is about knowing an investor's risk appetite. Somebody with a low risk appetite should ideally have in low risk asset allocation typically involving bonds/debt based instrument. Equity is part of the asset allocation to those investors who can take some risk in their portfolio.

Risk profiles do change as the personal financial circumstances of investor changes and hence risk profiling should be done periodically.

6. Place Orders

This module allows the investor/ retail user to place orders related to their investments. Investor can purchase mutual funds, redeem mutual funds, switch between two different schemes and can view the statuses of their orders.

This module includes following transactions:

- Purchase Mutual funds
- Redeem Mutual funds
- Switch Mutual funds
- Order Status

6.1 Purchase Mutual Funds

Mutual Funds (MFs) are investment instruments fund collects money from investors and invests the money on their behalf. It is one of the top investment choices for retail investors that allows the investors to view and manage the professionally managed portfolios of instruments like equity shares, bonds, insurance etc. Some mutual funds are also traded in stock exchanges - these are called Exchange Traded Funds (ETFs). Mutual Funds are managed by a fund manager. The investor share of investment is called as "Units" that represents the ownership of the investor in the scheme.

The investor make the purchase of Mutual fund units, or shares, based on the fund's current market value of the fund's investment portfolio which is termed as net asset value (NAV) per share/ NAVPS. A fund's NAV is derived by dividing the total value of the securities in the portfolio by the total amount of shares outstanding.

The investor (retail user) can purchase single or multiple mutual funds in one go and can place orders to be executed same day or at any future date. Further customer can place one time lump sum order or a recurring order called Systematic Investment. The investor can buy mutual funds from their existing schemes as well as invest on new schemes. The OBDX allows the user (investor) to view the list of recommended funds and top purchase funds so that he can take a decision of buying the funds.

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Purchase Funds - New
- Purchase Funds - Existing

How to reach here:

Dashboard > Toggle Menu > Menu > Wealth Management > Place Orders > Purchase Mutual Funds

OR

*Access through kebab menu of the **Place Orders** transactions*

6.1.1 Purchase Funds - New

This option allows the retail investor/ user to place purchase orders either one time or Systematic Investment Plan (SIP) or Standing Instruction (SI) type for buying one or more mutual fund schemes. In SIP the dates of investment and frequencies are pre-decided by the fund house therefore an SIP is a one-time instruction to the fund house to place recurring orders. SI on the other hand is a feature provided by the bank to mimic the SIP but with dates & frequency chosen by the investor. Here the order is not a one-time instruction/order but multiple orders placed one time by investor.

To purchase the new mutual funds:

1. In the **Search for new mutual fund to purchase or pick one of your existing funds** field, select the **New** option.

OR
Click **Go to Dashboard** link, to navigate to the dashboard.

6.1.2 Purchase Funds - Existing

This option allows the retail investor/ user to place purchase orders either one time or Systematic Investment Plan (SIP) or Standing Instruction (SI) type for buying one or more units of the mutual fund schemes which is currently owned by the investors.

To purchase the mutual funds:

- 1. In the **Search for new mutual fund to purchase or pick one of your existing funds** field, select the **Existing** option.

Purchase Mutual Funds – Existing Funds

Field Description

Field Name	Description
Fund Details	
Search for new mutual fund to purchase or pick one of your existing funds	Options for the user to select a new mutual fund to purchase or to purchase additional units of a scheme he already has invested in. The options are: <ul style="list-style-type: none"> • New • Existing
Investment Account	The investment account to which the current purchase order belongs.

Field Name	Description
Risk Profile	The risk profile of the selected investment account. For more information on Risk Profile, refer Risk Profiling section.
Scheme Name	Name of the fund/ scheme which user intends to purchase for current purchase order.
Purchase Type	Type of purchase order user wishes to place. The options are: <ul style="list-style-type: none"> • Onetime - This type of purchase order allows the retail investor placing order for one time lump sum purchase. • SIP - A SIP (Systematic Investment Plan) is an investment vehicle that allows the users to invest small amounts periodically or at regular frequency instead of lump sums. Dates and frequency of investment are specified by the fund house. • SI - Standing Instruction allows the users to set instructions for purchasing the mutual funds at regular intervals. Dates and frequency of investment are of customer's choice.

Recommended Funds/ Top Purchased Funds

Scheme Name	Name of the funds/ scheme as recommended by the application/ or that are mostly purchased by the investors.
Latest Price	The current price of the recommended funds/ top purchased funds.
Returns in% (1 Month/ 3 Months/ 1 Year/ 3 Year/ 5 Year)	The past rate of return that the fund has earned (recommended / top purchased) over a period.

2. From the **Investment Account** list, select the investment account to which the current purchase order belongs.
3. From the **Scheme Name** list, select the fund/ scheme which user wants to purchase.
4. Repeat the steps 6 to 11 of **Purchase Funds - New** section.

6.2 Redeem Mutual Funds

Mutual Funds (MFs) can be redeemed or sold any time by the investors. Open ended funds usually can be sold at any point of time compared to closed ended funds that have a fixed investment period

Customers can specify any of the following for redeeming the funds:

- Whether the redemption is for a specific number of units & if so the number of units to be redeemed or
- Whether the redemption is for all units currently held (the user can view the balance units held) or
- Whether the redemption is for a specific amount & if so the amount to be redeemed or
- Whether the order is for a systematic withdrawal plan

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Search Funds to be Redeemed
- Search Funds to Redeem - SWP

How to reach here:

Dashboard > Toggle Menu > Menu > Wealth Management > Place Orders > Redeem Mutual Funds

OR

*Access through kebab menu of the **Place Orders** transactions*

6.2.1 Search Funds to Redeem

This option allows the retail investor/ user to search the mutual funds from the specific account to redeem. The user can search the mutual fund scheme name by selecting the search criteria like investment account number, name of the fund house, or scheme name.

To search the mutual funds:

Select Fund - Search Funds to Redeem

6.3 Switch Mutual Funds

Switching of funds means moving the money from an investment scheme to another investment scheme. Investor can switch between two different schemes i.e. money is taken out of fund A (a sell order) and invested in fund B (a purchase order). This way a switch, order results in two transactions a purchase & a sale. Fund A & Fund B in the above example could be from the same fund house or from different fund houses.

Switch Mutual Funds screen allows the user to switch out the funds either at one time, systematic order plan or Purchase + systematic order plan methods.

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Switch Funds - One Time
- Switch Funds - STP
- Switch Funds - PSTP

How to reach here:

Dashboard > Toggle Menu > Wealth Management > Switch Mutual Funds

OR

*Access through kebab menu of the **Place Orders** transactions*

6.3.1 Switch Funds - One Time

This option allows the retail investor/ user to place the one time lump sum switch order. The user can specify whether the order is for Now i.e. same business day or for later that is a future date. The user can also select the option to switch by Units/ All Units or Amount and can specify the units or amount to be switch in.

To switch the mutual funds:

Click the **Wealth Dashboard** to navigate to the **Wealth Management Dashboard** screen.

6.3.2 Switch Funds - STP (Systematic Transfer Plan)

This option allows the retail investor/ user to place a systematic transfer plan (STP) for the switch order. In Systematic Transfer Plan, investor places a onetime instruction to switch funds - a specified some of money is switched from source scheme to destination scheme at a set interval. Typically in financial plans money in debt funds is switched into an equity fund regularly to mimic an SIP.

In STP the user needs to specify the source and destination schemes belonging to the same fund house, source and destination folios (can ask for a new folio for destination scheme), start date of switches, no. of installments & frequency, end date of switches to be derived by the system and displayed and Amount/ units to be switched per installment.

To switch the mutual funds:

12. From the **Installments** list, select the STP installments.
13. Repeat steps 9 to 13 of **Switch Out Funds - One Time** section.

6.3.3 Switch Funds – PSTP (Purchase – Systematic Transfer Plan)

This option allows the retail investor/ user to place a purchase - systematic transfer plan for the switch order. In Purchase- Systematic Transfer Plan or PSTP, investor purchases a debt (usually) fund and also gives instructions switch the debt fund purchased into an equity fund. PSTPs are variations offered by banks/ investment advisers and hence fund houses treat them as two different orders – Purchase order and a switch order

In PSTP the user can place a purchase order for a fund and simultaneously place a switch order with the fund being purchased as the source fund and a different fund being the destination fund.

To switch the mutual funds:

Switch Funds - PSTP

The screenshot shows the 'Switch Mutual Funds' page on the Futura Bank website. At the top, there are navigation options for 'ATM/Branch', 'English', and 'UBS OBPM 14.4 HEL Branch'. The user is logged in as 'Welcome, keron Bohr' with a last login time of '28 Oct 10:19 AM'. The page title is 'Switch Mutual Funds' and it has a progress indicator with two steps: 'Fund Details' (active) and 'Order Details'. The 'Fund Details' section includes: 'Investment Account' (Bruce Wayne-xxxxxxxxxxxx0025-SINGLE), 'Risk Profile' (Moderate), 'Switch Type' (Onetime, STP, PSTP - selected), 'Initial Purchase Scheme' (New, Existing - selected), 'Fund House' (HDFC Mutual Fund CCI), 'Fund Category' (Equity), 'Scheme Name' (HDFC Growth Fund Growth), 'Current Unit Price' (GBP 50), 'Scheme Suitability' (No), 'Dividend' (Payout, Reinvest - selected), 'Pay From' (xxxxxxxxxxxx0011 - HE...), 'Balance' (GBP167384.29), 'Amount' (GBP12,000.00), 'Min. Amount' (GBP 500), and 'Cut Off Period' (Time: 8:37 PM, Date: 27 Jul 2018). At the bottom, there are 'Purchase' and 'Cancel' buttons. A footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. |SecurityInformation|Terms and Conditions'.

Field Description

Field Name	Description
Fund Details	
Investment Account	The account number to which the current switch order belongs.
Risk Profile	The risk profile of the selected investment account. For more information on Risk Profile, refer Risk Profiling section.
Switch Type	The type of switch order that is to be placed. The options are: <ul style="list-style-type: none"> • Onetime - This type of switch order allows the retail investor placing switch order for one time lump sum purchase. • STP - A STP (Systematic Transfer Plan) is an investment vehicle that allows the users to invest small amounts periodically or at regular frequency instead of lump sums. • PSTP - Purchase + Systematic Transfer Plan
Initial Purchase Scheme	
New/ Existing	Indicates whether user plans to purchase additional units of a scheme he already has invested in or a new fund.
Fund House	The Fund house from which user intends to purchase the fund.
Fund Category	The fund category to which the fund house in context belongs.
Scheme Name	Name of the fund/ scheme.
Current Unit Price	The latest price per unit of the selected scheme for the current order.
Scheme Suitability	Indicate whether the scheme is suitable for user to invest in. The system displays 'Yes' if it is suitable and 'No', if the scheme is not suitable.
Folio	Folio number for the purchase scheme, can be an existing one or a new one
Amount	The order amount of the current one-time purchase order.
Min. Amount	The minimum purchase order amount per installment as set by the fund house for the scheme. This field appears, if you select Amount option in the Switch By field.

Field Name	Description
Cut Off Period	Cut off time and date for the order as provided by the MF processor.

1. From the **Investment Account** list, select the account number from which the user wants to select the fund.
2. In the **Switch Type** field, select the **PSTP** option.
3. In the **Initial Purchase Scheme** section, select the fund house from the **Fund House** list, from which user intends to switch the fund.
4. From the **Fund Category** list, select the fund house from which user wants to switch the fund.
5. From the **Scheme Name** list, select the fund/ scheme which user wants to switch.
6. From the **Folio** list, select the folio number of the scheme.
7. In the **Order Amount** field, enter the order amount.
8. Click **Purchase**. The **Switch In - PSTP - Order Details** screen appears.
OR
Click **Cancel** if you want to cancel the transaction.

Switch In- PSTP - Order Details

The screenshot displays the 'Switch In-PSTP' screen within the Futura Bank application. The interface is divided into two main sections: 'Fund Details' and 'Order Details'. The 'Fund Details' section includes a dropdown for 'Fund House' (HDFC Mutual Fund CO1), a dropdown for 'Scheme Name' (Reliance Mutual Fund), a dropdown for 'Folio', and a 'Dividend' section with radio buttons for 'Payout' (selected) and 'Reinvest'. The 'Order Details' section includes a 'Switch By' section with radio buttons for 'Units' (selected) and 'Amount', and a 'Start Date' field (01 May 2020). At the bottom, there are buttons for 'Save', 'Submit', 'Cancel', and 'Back'. A 'Back to Wealth Overview' link is also visible. The top of the screen shows the Futura Bank logo and navigation options like 'My Dashboard', 'ATM/Branch', 'English', and 'UBS 14.3 AT3 Branch'.

 - a. If you select **Units** option, enter the number of units to be switched in the **Units** field.
 - b. If you select **Amount** option, enter the amount to be switched in the **Amount** field.
13. In the **Start Date** field, select the appropriate start date for SWP.
14. From the **Installments** list, select the STP installments.
15. Repeat steps 9 to 13 of **Switch Out Funds - One Time** section

6.4 Order Status

Order status screen allows a retail user to search and view mutual funds orders in various statuses. The user can view the pending execution order across investment accounts and also can edit and delete the mutual fund orders that are not yet executed.

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Search Mutual Funds orders
- Delete Mutual Funds orders

How to reach here:

Dashboard > Toggle Menu > Menu > Wealth Management > Place Orders > Order Status
 OR
*Access through kebab menu of the **Place Orders** transactions*

6.4.1 Orders Status - Search

Using this option, a retail user can search and view details of the mutual fund orders. Default search is available with Investment account and From Date and To Date, whereas user can be searched by provided other details also.

Orders Status – Search Criteria

The screenshot shows the 'Order Status' search criteria form in the Futura Bank application. The form is displayed on a dark-themed interface. At the top right, there are navigation options: 'ATM/Branch', 'English', and 'UBS OBPM 14.4 HEL Branch'. The user is logged in as 'Welcome, keron Bohr' with a last login time of '28 Oct 11:08 AM'. The form fields are as follows:

Investment Account Bruce Wayne-xxxxxxxxxxxx0023-SINGLE	Fund House HDFC Mutual Fund CCI
Scheme Name HDFC Growth Fund Growth	Order Type Purchase
From Date 28 Oct 2021	To Date 28 Oct 2021
Reference Number	

At the bottom of the form, there are two buttons: 'Apply' and 'Reset'. The footer of the page contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security | Information | Terms and Conditions'.

Field Description

Field Name	Description
Search	
Investment Account	The investment account for which order status search is to be done.
Fund House	Allows the user to search based on fund house.
Scheme Name	Allows the user to search based on orders placed in a specific scheme.
Order Type	Allows the user to search based on specific order type.
Reference Number	Allows the user to search based on reference number of the order.
From Date - To Date	Allows the user to search based on specific start date and end date. Orders placed between the start and end date matching the other filter criteria will be fetched.

To search the mutual funds order:

1. From the **Investment Account** list, select the account number for order status search.
2. From the **Fund House** list, select the fund house for order status search.
3. From the **Scheme Name** list, select the scheme name for order status search.
4. From the **From Date** and **To Date** list, select the appropriate dates for order status search.
5. In the **Reference Number** field, enter a transaction reference number if you wish to view a specific transaction record.
6. Click **Apply** to view orders status based on the defined criteria.
The search results appear on the **Order Status** screen based on the search parameters.
OR
Click **Reset** to clear the details entered.

8. Reports

Using this option, retail users can generate various investment related reports. Application provides an option to provide the search parameters and download the reports.

Reports module includes following reports:

- Capital Gains Report
- Dividend History report
- Transaction Report

8.1 Capital Gains Report

The profits or losses that an investor gets when he/she sells Mutual Fund units are called “Capital Gains/ Losses”. There are two types of capital gains – short term & long term. For example, In India gains /losses any equity investment sold within 12 months of purchase are treated as short-term gains/ losses. If the gap between purchase and sale is more than 12 months it’s called Long term capital gains/ losses. Short term gains tax rates tend to be higher compared to long-term capital gains taxes.

The retail user/ investor holding the mutual funds can download the Capital Gain report for the mutual funds that the user had transacted in for the current and past financial years.

The user can search the transactions and download the report.

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Search Transactions and Download the report

How to reach here:

Dashboard > Toggle Menu > Menu > Wealth Management > Reports > Capital Gains Report

Capital Gains Report

The screenshot shows the 'Capital Gains Report' search interface. At the top, there is a navigation bar with 'ATM/Branch', 'English', and 'UBS OBPM 14.4 HEL Branch'. Below this is the 'futura bank' logo and a search bar. The main content area is titled 'Capital Gains Report' and contains a search form with the following fields:

- Investment Account:** Bruce Wayne-xxxxxxxxxxxx0023-SINGLE
- Financial Year:** 2019-2020
- Fund House:** HDFC Mutual Fund CC1
- Scheme Name:** HDFC Growth Fund Growth
- Capital Gain/Loss Type:** Select

Buttons for 'Search', 'Cancel', and 'Clear' are located at the bottom of the form. A copyright notice is visible at the very bottom of the page: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security | Information | Terms and Conditions'.

Field Description

Field Name	Description
Search	
Investment Account	The investment account for which capital gains search is to be done.
Financial Year	The financial year for which capital gains data is to be generated.
Fund House	Allows the user to search based on fund house.
Scheme Name	Allows the user to search based on orders placed in a specific scheme.
