3.1 Initiation of payment to a Twitter Handle	3-1
3.2 Claim Money – Dynamic URL	3-13

1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. Payments to Twitter Contacts

This feature enables the user to initiate a payment to a Twitter handle by simply logging into Twitter and selecting the handle towards whom the payment is to be made. This feature eliminates the need to know the recipient's account and bank details thus simplifying the payment process by a great deal.

After selecting the **Pay to Contacts** option under Payments, the user is required to select Twitter from the list of transfer options provided. The system will display a screen on which the user is required to enter his/her Twitter login credentials. Once successfully logged in, the user is displayed a list of Twitter followers from which to choose. After selecting a follower, the user has to simply specify the payment details i.e. the amount and the source account and proceed to review and confirm the payment. Once the payment is confirmed, the system creates a link and posts it as a private Twitter message on the Twitter Handle of the follower to enable him/her to claim the amount by navigating to the Claim Money page of the bank by clicking on the link.

A security code is displayed on the payment confirmation page, which the initiator of the payment is required to share with the Twitter follower so as to enable him/her to claim the amount paid.

Note:

- 1) The system will list all of the Twitter Handles that are following the initiator's Twitter account. The user can also make a payment towards those Twitter Handles that are not following the user's Twitter account if they have enabled the option to receive direct messages from any Twitter Handles. This option is available under Twitter settings.
 - 2) The limits defined for Peer to Peer transfers will be utilized for payments made to Twitter Handles.
 - 3) On initiation of the payment, the source account of the initiator will get debited or a hold will be placed on the account depending on the bank setup.
-

Pre-Requisites

- The user should have a valid account with the bank which is enabled for online banking.
- The user should have an active account on Twitter.
- The beneficiary should also have a valid account on Twitter in order to claim the payment.

3.1 Initiation of payment to a Twitter Handle

The steps involved in initiating a payment towards a Twitter handle are as follows.

To transfer money to a Twitter Handle:

1. Launch the futura bank mobile application. The futura bank login page appears.
2. The user can login by entering the username and password or through an alternate login method, if defined.

19. In the **Note** field, enter transaction remarks or comments for reference.
20. Click **Transfer** to initiate the payment.
OR
Click **Cancel** to cancel the transaction.
21. The **Review** screen appears.

Review Screen

22. Verify the transfer details displayed on the screen and click **Confirm** to confirm the payment.
OR
Click **Back** to return to the **Pay to Contacts** initiation screen.
23. The success message along with the security code, which is required to be communicated to the Twitter contact, appears.

Confirmation Screen

24. Click **Go to Dashboard** to navigate to the dashboard.
OR

Click **Share** to share the transfer details.

OR

Click **More Payment Options** to access other payment options.

Note: The security code is generated by the system and displayed on the confirmation page. The user is required to share this code with the beneficiary i.e. the Twitter contact so that he/she can claim the amount transferred.

3.2 Claim Money – Dynamic URL

Once a peer to peer transfer has been made, the recipient of the transfer can claim the amount transferred by clicking on the link received through an email, SMS, Facebook message or Twitter message, as the case may be.

This section describes the flow by which a recipient of a peer to peer transfer can claim money when the transfer has been made to the recipient's Twitter handle. In this case, the recipient can only claim money via the dynamic link and cannot claim money via the Claim Money option provided on the bank's portal page. When arriving at the claim money page via the dynamic link, the details pertaining to the recipient's Twitter ID along with the transfer amount will be prefilled. The user will be required to only enter the security code in order to proceed with the claim money flow.

To claim money:

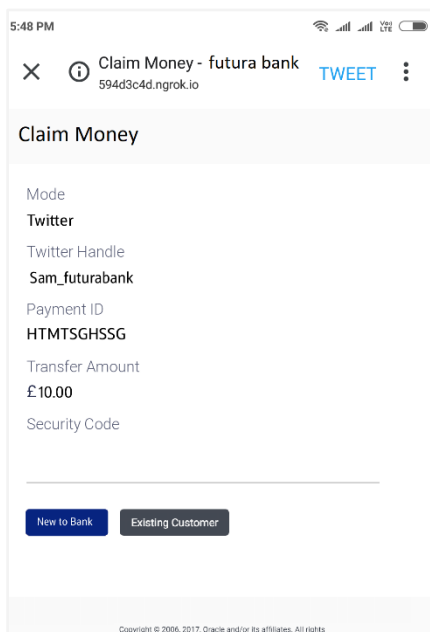

1. Click on the link received as part of the direct message sent to your Twitter account.

Peer to Peer Payment alert received as a Twitter Direct Message

2. The **Claim Money** screen appears.

Dynamic Claim Money Screen - Twitter

Field Description

Field Name	Description
Mode	The mode through which the funds have been transferred will be displayed. The user is not required to enter this value. In this case, the value will be Twitter .
Twitter Handle	The Twitter Handle of the recipient towards which the funds have been transferred will be displayed.
Transfer Amount	Displays the amount transferred.
Security Code	Enter the security code provided to you by the initiator of the peer to peer payment. This security code is generated by the bank when the peer to peer payment is initiated and appears on the peer to peer payment confirmation screen along with the success message. The initiator, in turn, reveals the security code to the beneficiary.
Sign In As	Select the relationship that you have with the bank, i.e. select the option New to Bank if you have no prior relationship with the bank, or select the option Existing Customer if you are an existing customer of the bank or have registered yourself previously as a peer to peer recipient. The options are: <ul style="list-style-type: none"> • New to Bank • Existing Customer

3. In the **Security Code** field, enter the security code as provided by the initiator of the peer to peer payment.
4. Select an option between **New to Bank** and **Existing Customer**.
For Further information on the Peer to Peer Claim Money flow refer the **Claim Money** section under the **Retail Peer to Peer Payments** user manual.
OR
Click **Back** to navigate to the previous screen.

Note: The user i.e. the beneficiary will always be re-directed to the URL of the entity from which the sender initiated the payment. P2P payment initiated from one entity cannot be claimed in another entity.

FAQs

1. Can every futura bank user initiate a payment to a Twitter follower?

Any futura bank user who has an active Twitter account can initiate payments to their Twitter followers.

2. Can I initiate a payment to multiple Twitter followers in one go?

No. You can select only a single follower from the list as part of the payment transfer.

3. How will the beneficiary i.e. the Twitter follower claim the payment initiated by the sender?

On initiation of a payment by the sender, the beneficiary will receive a private message on his/her Twitter account. This message will contain a link, by clicking on which, the beneficiary will be re-directed to the futura bank Claim Money page. The beneficiary will need to enter the security code on this page and follow the steps provided in order to claim the payment amount.
