1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

3. Payments

The following sections in this document detail all the features offered to users through the payments module of the digital banking application.

A Note on Domestic (Local) Payments:

Local Payments are very region specific. For example NEFT is a network supported for local payments within India. The same will not be of any relevance in Europe. Similarly, SEPA is a network supported within Europe and will not have any relevance in Asia for local payments.

For Domestic (Local) Payments, the base product of Oracle Banking Digital Experience supports some local payments out of the box as mentioned in the Transaction Host Integration Matrix. Therefore more often than not, there will be a need for the implementation team to step in and implement the local network specific to the region that the bank is in.

The following sections in this document detail all the features offered to users through the payments module of the digital banking application.

Note: Payment Screens are NOT supported in the landscape mode of mobile applications and mobile browser.

Features Supported In Application

Payment features supported in application includes:

- Favorite Transactions
- Payee Setup
- Repeat Transfer
- Make Single Payment
- Make Multiple Payments
- Adhoc Payment
- Demand Draft Issuance
- Upcoming Payments
- Payment Inquiries

4. Manage Payees

The online banking application enables users to register and maintain payees (beneficiaries) towards whom payments are to be made frequently.

The 'Manage Payee' feature not only enables users to register payees, but also enables them to add accounts to a registered payee and view and delete the accounts of existing payees. Additionally, the user can also initiate a payment from this screen by selecting the option 'Pay' against a specific account of a payee.

Payee Maintenance is provided for following payment transactions:

- Bank Account
 - Internal Bank Account
 - Domestic Bank Account
 - International Bank Account
- Demand Drafts
 - Domestic Bank Account
 - International Bank Account

Payee Access Type:

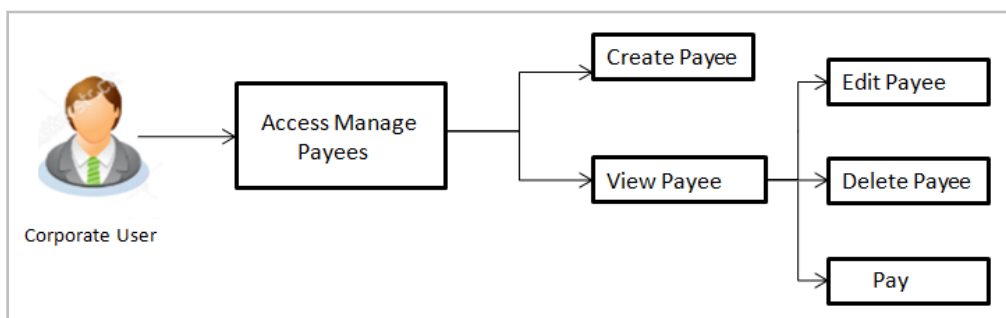

User can specify payee access type while maintaining a payee. Payee access type decides if only creator of a payee or all users of a party can access a payee. Payee access type is categorized as 'Private' and 'Public'.

- Public: A Payee marked as 'Public' is visible to all the users mapped to the Party ID of the user who created a payee. While, all users of the party can view and use the payee while initiating payments, only the user who has created the payee, can edit and delete the payee.
- Private: A Payee marked as 'Private' is available to only the creator of the payee. Only the creator of the payee can use such payees while initiating payment and modify or delete the private payees.

Pre-Requisites

- Transaction access is provided to corporate user
- Approval rule set up for corporate user to perform the actions

Workflow

Features Supported In the application

Functions available on Payees are as follows:

- Create Payee
- View Payee
- Edit Payee (Access Type)
- Delete Payee

How to reach here:

Toggle menu > Payments > Setups > Manage Payees

4.1 Payee Summary

A summarized view of all the Payees maintained by the logged in user, along with the public payees created by other users of the Party, are listed on the Payee Summary screen. A separate section is provided on the screen to view the 'Accounts' payees and 'Demand Drafts' payees. By default, all the payees maintained (created by the logged in user and shared by other users of a party) under type 'Accounts' are listed on the screen.

Users can search for a specific payee by entering the name of the payee in the search field provided. The user is able to view payee details by selecting the provided option and is also able to edit (only access i.e. private or public and payee photo) or delete a payee record. Moreover, the option to add new account payees or new demand draft payees is also provided on this screen.

To manage payees:

1. All the registered payees are listed down by their names, photos (if uploaded) and other details defined at the time of payee creation. If no photo has been uploaded against a payee, the initials of the payee appear in place of a photo.

Payees

The screenshot shows the 'Payees' management page in the Futura Bank interface. At the top, there are navigation options for 'ATM/Branch' and 'English'. The user is logged in as 'ParagC Kinikar' with a last login time of '24 Aug 02:48 PM'. The page title is 'Payees' and it has two tabs: 'Account' (selected) and 'Demand Drafts'. A 'Create' button is visible in the top right. Below the tabs is a search bar labeled 'Search By Payee Name'. The main content is a table with the following data:

Payee Name	Account Type	Account Details	Nickname	Created By	Access Type

6. Add Payee - Demand Draft

A Demand Draft is a pre-paid negotiable instrument. The issuing bank undertakes to make payment in full when the instrument is presented by the payee. The demand draft is made payable at a specified center and can be issued in local currency as well as in (allowed) foreign currencies. A foreign currency demand draft can be requested using International Demand Draft while a pay order or local currency demand draft can be requested using Domestic Demand Draft transaction. A Demand Draft, unlike a cheque is issued by the Bank against the Bank's own funds and hence there is a reduced risk of the draft not clearing. Application allows user to save the payee details of the draft through payee maintenance. Payees for demand drafts are of two types:

- Domestic Demand Draft
- International Demand Draft

The application also provides an additional option to have the demand draft delivered at the customer's convenience. The following options are provided for the same:

- Branch Near Me – This option enables the user to select a branch of the bank (issuing bank) at which the draft is to be delivered.
- My address – This option enables the user to specify which registered address of the user (out of the user's work, residential or postal address) the draft is to be delivered at.
- Other Address – This option enables the user to specify an address at which the draft is to be delivered. The user can select this option if he wishes to have the draft delivered to an address that is different from that of any of the bank's branches or any of the user's registered addresses.

FAQ

1. Can I delete payees that I no longer need to make payments to?

Yes. You can choose to delete the payees that you no longer need.

2. When can I make the payment to newly added payee?

After successfully adding a payee, you may proceed to transfer funds immediately or set a future date for the transaction to take place.

3. Who can access the payees created with access type as ‘Private’?

Private payees can only be accessed by creator of the payee. Only creator of the payee can apply such payees while initiating payment.

4. Who can access the payees created with access type as 'Public'?

Payee marked as 'Public' are visible to all the users mapped to the Party ID of the user who created a payee. All users of the party will be able to view and use these payees while initiating payments, while only the creator will be able to edit and delete the payee.

5. If I delete or edit a payee, what will happen to the in-flight transactions?

Payee modification or deletion will not have any impact on the transactions which are initiated with a same payee and are pending for further processing. In-flight transactions will continue to progress with the data with which the transaction was initiated.

7. Adhoc Demand Draft

Users can initiate requests for demand drafts to be payable towards beneficiaries that are not registered as payees in the system, via the adhoc demand draft feature. Since the demand draft request is for an unregistered beneficiary, the user is required to specify details of the beneficiary along with demand draft details at the time of adhoc demand draft request.

Once the request for the demand draft is initiated, the user can register the beneficiary as a payee by selecting the Add as Payee option provided on the confirm screen.

Pre-Requisites

- Transaction and account access is provided to the corporate user.
- Transaction working window is maintained.
- Transaction limits are assigned to the user to perform the transaction.

FAQ

1. **Can I use the adhoc transfer transaction to transfer funds towards the repayment of a loan which I hold in the same bank?**

No, fund transfers can be made only to current or savings account through the adhoc transfer transaction

2. Can I set a future date for a fund transfer?

You can set a future date for a payment using Pay Later payment option.

3. What happens if I have set up a future dated transfer, but don't have enough funds in my account on the transaction date for the transfer?

Balance check will not be performed at the time of transaction initiation with future date. The transaction will get declined in case of insufficient funds in the account on the given transaction date.

4. What happens if the transaction amount is less than set Transaction Limit?

If the transaction amount is less or more than transaction limit set by the Bank, user cannot proceed to make payment.

5. Can I make a payment to an account which is currently not registered as my payee?

Yes, you can make payment to the accounts which are not registered as payees.

6. Do separate transactions limits get defined if I initiate a transfer using Adhoc Transfer and using Transfer Money by selecting a payee?

Transactions limits are defined based on each payment network. The same limits get utilized if the transaction is initiated from Adhoc Transfer or by using Transfer Money (provided the payment network is the same).

7. When can I generate e-receipt?

The user can generate an e-receipt, after successful transaction processing in the Core banking application. The user can download it, from the Activity log – detailed view screen.

9. Issue Demand Drafts

The Issue Demand Draft transaction enables users to request the bank to issue demand drafts towards payees. In order to initiate a demand draft issue request, the user has to first ensure that the payee i.e. the recipient of the demand draft is registered as a demand draft payee through the Manage Payees feature. Once the payee is registered, the user can initiate a request to the bank to issue a demand draft by specifying details such as the amount for which the draft is to be drawn, the account from which the funds are to be debited as well as the date on which the draft is to be drawn.

Prerequisites:

- Transaction and account access is provided to corporate user
- Approval rule set up for corporate user to perform the actions
- Transaction working window is maintained
- Required payees are maintained
- Transaction limits are assigned to user to perform the transaction

Features supported in the application

User can request for two types of drafts:

- Domestic Demand Draft – Where the draft is payable within a country
- International Demand Draft – Where the draft is payable outside country

How to reach here:

Toggle menu > Payments > Payments and Transfers > Issue Demand Drafts

OR

Dashboard > Quick Links > Issue Draft

9.1 Issue Demand Draft

A user can initiate a request for a Demand Draft using this transaction. All Demand Draft payees (Domestic and International Demand Draft payees) created by the logged in user and shared by other users of the party are listed for selection. Details of the selected payee are auto populated on the transaction screen. The user is then required to fill in details such as the source account to be debited, the amount for which the draft is to be drawn and the date on which the draft is payable, in order to initiate the demand draft request.

An E-Receipt gets generated on the successful completion of the transaction. The E-Receipt gets displayed in Activity Log detailed view.

Issue Demand Draft

The screenshot shows the 'Issue Demand Draft' interface in the Futura Bank system. The form is titled 'Issue Demand Draft' and is displayed in the user's language (English). The user is identified as 'Mack Thomas' with a last login of '13 May 10:25 PM'. The form fields are as follows:

10. Make Payment (Transfer Money)

Navigate to Payments >> Payments and Transfers >> Transfer Money

The Transfer Money feature enables the user to initiate online payments between his own accounts or perform one of the following types by using an existing payee:

- Internal Transfer
- Domestic Transfer
- International Transfer

On selecting the option, 'Existing Payee', the user has to simply select a payee towards which the transfer is to take place. The user is not required to explicitly select the transfer type (internal, domestic or international) since this categorization is undertaken at the time of payee creation.

Prerequisites:

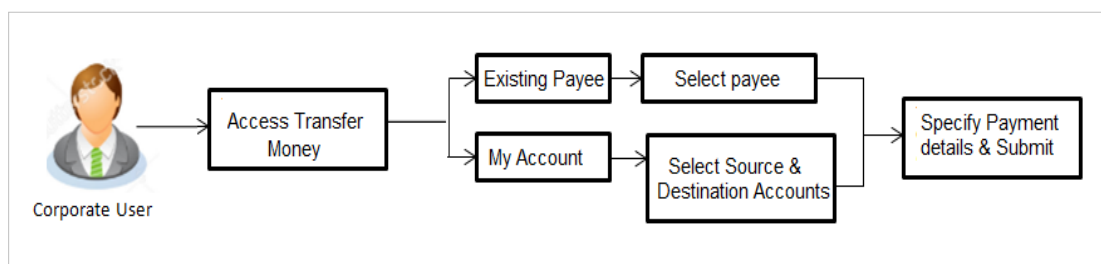

- Transaction and account access is provided to corporate user
- Approval rule set up for corporate user to perform the actions
- Transaction working window is maintained
- Payees are maintained
- Purposes of Payments are maintained which are mandatory for Internal and Domestic Payment
- Transaction limits are assigned to user to perform the transaction

Features supported in the application

The 'Transfer Money' feature enables users to make payments towards:

- Existing Payee – Internal, Domestic and International transfers are supported and are triggered based on the payee and specific payee account selection.
- My Accounts – Users are able to transfer funds within their own accounts held in the bank.

10.1 Make Payment - Existing Payee

The screenshot displays the Futura Bank 'Transfer Money' page. At the top, there's a navigation bar with 'futura bank' logo, 'ATM/Branch', and 'English'. Below the logo, there's a search icon and a user greeting: 'Welcome, Parag Kinikar' with a last login timestamp of '08 Aug 06:12 AM'. The main heading is 'Transfer Money'. Under 'Transfer Type', 'Existing Payee' is selected. The 'Payee' dropdown is set to 'Parag'. Below this, a card shows 'ParagSavings' with a profile icon. A table lists payee details: Account Number (5555555555), Payee Type (INTERNATIONAL), and Account Name (ParagInternational). Below the table, it shows 'Payee Address: Address1,Nsk,IN' and 'Bank Details: 14750,CITIBANK DUBAI,HANZALA MOSQUE ROAD, QALAI FATH'. The 'Transfer From' dropdown is set to 'xxxxxxxxxxxx0034' with a balance of '€24,700.34'. The 'Amount' is 'EUR' and there's a 'View Limits' link. 'Transfer When' is set to 'Now'. 'Correspondence Charges' is 'PAYEE'. 'Transfer via Intermediary Bank' is set to 'No'. At the bottom, there's a 'Payment Details' section with an 'Add Payment Details' link and a 'Note' field. Navigation buttons 'Pay', 'Cancel', and 'Back' are at the bottom left. A help button 'Hey, I am here to help if you need it!' is at the bottom right. The footer contains copyright information: 'Copyright © 2000, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Fields that are not totally self-explanatory are explained below:

Field Name	Description
------------	-------------

Transfer Type Select the type of transfer that you wish to initiate.
 The options are:

- Existing payee
- My Accounts (User's own account)

Existing Payee

The following fields appear if the **Existing Payee** option is selected in the **Transfer Type** field.

Payee Select the payee group. If the payee group contains multiple payees, you will see another dropdown called Sub Payee.

The screenshot shows a form titled "Transfer Money". Under "Transfer Type", the "Existing Payee" radio button is selected. Below it, the "Payee" dropdown menu is open, showing "INTERNATIONAL" as the selected option. The "Sub Payee" dropdown menu is also open, showing "Please Select" as the selected option. At the bottom of the form, there are three buttons: "Pay" (blue), "Cancel" (dark grey), and "Back" (light blue).

If the payee group contains only 1 payee then one will not see the sub payee dropdown, but the payee details directly on selecting the payee group.

Transfer From Account from which money will be debited.

Currency The currency in which the transfer is to take place.
 Currency is defaulted to destination account currency for Self and Internal Transfer and local currency for Domestic Transfer.
 For International transfer, the user can select the currency from the list.

View Limits Link to view the transaction limits applicable to the user.
 For more information on Limits, refer [View Limits](#) section.

Field Name	Description
Select Network (Applicable only for Domestic Payee Type)	Although the network is defined when creating the payee, in many countries the same BIC Code can be used on a different local network also. Therefore one can select the network again during a funds transfer.
Transfer via Intermediary Bank	Specify whether the fund transfer is to be done through intermediary bank. Note: This field is appears only for International Payee.
Pay Via	Select the network through which the payment is to be processed. The options are: <ul style="list-style-type: none"> • Swift Code • NCC (National Clearing code) • Bank Details This field appears if you select Yes option from Transfer via Intermediary Bank field.
Payment Details	You can add up to 4 fields each of length not more than 35. These will carry the unstructured remittance information to the Payment Processor. These are applicable to SWIFT and SEPA Payments.
Note	Narrative for the transaction. This will be internal to the bank.

1. Click **Pay** to initiate the payment.
OR
Click **Cancel** to cancel the operation and to navigate back to the dashboard.
2. The **Make Payment - Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to navigate to the **dashboard**.
OR
Click **Back** to navigate back to the previous screen.
3. The success message appears along with the transaction reference number, status and transaction details.
Click **Go to Dashboard** to go to the **Dashboard** screen.
OR
Click **Add Favorite** to mark the transaction as favorite. The favorite transaction is added. For more information, refer **Favorite** transaction.
OR
Click the **e-Receipt** link to download the electronic receipt. For more information, refer the **e-receipt** section in the **Corporate Customer Services User Manual**.

Note: On Payment Confirmation the 'Set Repeat Transfer' link appears only in the case of Domestic and Internal Transfers. However, only Internal Transfers are qualified with Oracle Banking Payments and Internal, Domestic Repeat Transfers are qualified with Oracle FLEXCUBE Retail Banking.

Interpreting the success message on the Confirmation Screen:

Please note that Payment Processors can work in different ways. Some Payment Processors will respond with the final status of the submitted payment synchronously. Some Payment Processors work in an asynchronous mode and respond back with a host reference number only to indicate that the payment has been accepted for processing, but there is a chance that it may get into an Exception Queue during the actual processing itself. Therefore the final status of the payment can be viewed using the transaction called [Payment Status Inquiry](#).

10.2 Suggestive Credit Value Date

The Payment framework provides the facility to display the suggestive credit value date on the review screen of a payment. This date is an indicative date only and it gives the end user an idea of when the payment would get credited to the payee's account, before he can confirm the transaction.

The screenshot shows the 'Adhoc Domestic Payment' review screen in the Futura Bank interface. The page header includes the bank logo, user name 'ASHLEY CHARLES', and last login time. The main content area features a 'Review' banner with a warning icon and the text: 'You initiated a request for Adhoc Payment. Please review details before you confirm!'. Below this, the payment details are listed: Payment Type (Domestic), Account Number (55555555), Account Name (Parag), Bank Details (DEUTDEFFXXX), Head Office (Taunusanlage 12 875687, Frankfurt Am Main), Network (SEPA CREDIT), Amount (€211.00), Transfer When (27 Mar 2020), Transfer From (xxxxxxxxxxxx0126), Payment Details (D1), and Note (Remark). An 'Information' pop-up box in the top right corner displays: 'Suggestive Credit Date for this transaction is 27 Mar 2020'. At the bottom, there are 'Confirm', 'Cancel', and 'Back' buttons.

The service takes into account parameters like the network of payment, the currency etc. before arriving at the suggestive credit value date.

This service is currently available out of the box integrated only with Oracle Banking Payments. For other product processors a customization would be required.

12. Repeat Transfers

Repeat Transfers, also referred to as Standing Instructions or Standing Orders, are instructions given by a payer (bank account holder) to the bank to transfer a specific amount to another account at regular intervals.

Once initiated, these transfers are executed repeatedly till the end date.

The application has simplified the user's task of initiating repetitive payments by introducing the **Repeat Transfers** feature. Through this feature, users can set instructions for funds to be transferred at regular intervals towards registered payees or to the user's own accounts. Once initiated, the details of these transfers can be viewed in the View Repeat Transfers screen. The user can also cancel a repeat transfer instruction, if so desired, from the View Repeat Transfers screen.

Pre-Requisites

- Transaction and account access is provided to the corporate user
- Approval rule set up for the corporate user to perform the actions
- Transaction working window is maintained
- Transaction limits are assigned to the user to perform the transaction

Features supported in the application

- Set Repeat Transfers
- View Repeat Transfers
- Stop Repeat Transfers
