3. Term Deposits Application

A term deposit is a fixed term investment held at a bank or a financial institute. It involves the investment of an amount at an agreed rate of interest for a fixed amount of time.

The Term Deposit application has been built so as to capture the information that is essential to open a term deposit for the applicant. Additionally, the applicant is also required to provide basic personal, employment and financial information required for the processing of the term deposit application.

The application form is OCR (Optical Character Recognition) enabled so as to save the prospect applicant's time and effort in filling out the application form. At present, only the personal information section gets prefilled with information fetched through OCR based on the document uploaded.

Online KYC of the prospect can also be conducted by means of liveness check or through integration with third party identity verification service providers.

If online KYC through liveness check is enabled for the product application, the applicant will be provided with the option to initiate a video call with a bank executive. The applicant will be required to first upload images of the identification document he/she wishes to submit for online KYC. The bank executive in turn, will verify, by means of the video call, that the photograph as per the ID provided is truly that of the applicant's.

If online KYC through ID verification is enabled, the prospect will be required to define his/her Identification number along with other basic personal information such as name and date of birth so as to enable the bank to conduct online KYC of the applicant.

In both cases, once the applicant's identity is verified successfully, he/she will be able to proceed with the application form. The personal information section will also be prefilled with information as fetched on the basis of the identification provided.

Existing digital banking customers will be navigated to the **New Term Deposit** screen once they have specified their login credentials after having selected the **Login as a registered user** option provided on the Kickoff page.

Additional features that have been built into the application are enabling google map integration for capture of addresses, QR code scan enablement to continue applications on mobile devices, etc.

The application tracker has been built so as to enable tracking of the application once it has been submitted. The application tracker also enables the applicant to retrieve and complete an application that has been saved. Additionally, the applicant can view documents that have been uploaded as part of the application form and can also view details as defined in the application form in PDF format.

Note: The following is applicable for this release:

1) Only USA Driver's License is supported for OCR.

Following are the steps involved in the application submission:

- **Product Selection:** All the products belonging to the selected product category will be listed here. Each product will be listed as a separate card which will display the name and image of the product along with a short description, features and the options to view further details, or to apply for the product. The additional option to select the product so as to compare it with others within the same category will also be provided on each card. You can select a maximum of three products for comparison.

- **Kick Off:** This page serves as an introduction to the application form. The various steps involved in an application are displayed on this page. You can also view the documents required to be uploaded as part of the application. As an applicant, you can identify how you are going to proceed with the application. If you are a new/unregistered user, you can continue as a guest, or if you are an existing online banking customer you can login with your online banking credentials.

Note: If you are an existing online banking customer, you will be navigated to the New Term Deposit screen once you have successfully logged in to the application after having selected the **Login as a registered user** option provided on the Kickoff page.

- **Mobile Verification:** This step is applicable if you are filling out the application as a new/unregistered user. You will be instructed to enter your mobile number, after which the system will identify whether your mobile number is already registered with the bank or not. You will then be required to enter the OTP sent to this mobile number in order to proceed with the application form.
- **Liveliness Check:** This step will be enabled if it is configured for the product category you have applied for and is applicable only to new/unregistered users. You will be provided with the option to initiate a video call with a bank executive who will verify your identity and will also undertake liveliness checks. In order to enable the bank executive to verify your identity, you will be required to first upload images of an ID document that contains your most recent photograph. On completion of this step, if the bank executive has successfully verified your identity and conducted other checks, you will be able to proceed with the application form. Your personal information will be prepopulated on the basis of the information defined in your ID document.
- **Upload Documents:** At this step, you will be required to upload the supporting documents that can serve as proof of identity, address proof, etc. If you are a new/unregistered user, you will be able to upload a document so as to have your personal information pre-populated on the basis of the information defined in this document.
- **ID Verification:** This step will be enabled if it is configured for the product category you have applied for and is applicable only to new/unregistered users. You can select an ID that you would like to provide for verification and can enter the ID number in the provided input field. You will be sent an OTP to the mobile number defined against your ID. Your ID will be verified once you have entered the correct OTP in the provided field. Subsequently, your information, as fetched from the third party service providers on the basis of Identification provided, will be pre-populated in the personal information section.
- **Personal Information** – This section captures information pertaining to your personal information which will include your full name, date of birth, address details, etc. In case ID verification, Liveliness Check or OCR are enabled, the details are pre-populated based on either the ID number (in case of ID Verification) or uploaded document (in the case of Liveliness Check and OCR). In case of OCR, information will be prepopulated in editable mode. In case of information populated through ID verification or Liveliness Check, information will not be editable.
- **Deposit Details** – In this section, you can specify details pertaining to the deposit which will include the deposit amount, tenure and maturity instructions.
- **Review and Submit** – Once you have filled out all the information required in the term deposit application form, you will be displayed this information on the review page. You can verify the details provided and if required, can edit the information in any sections by selecting the option provided against each section.
- **Terms of Service** – On having reviewed the application, you can then proceed to view the terms and conditions of the home loan you are applying for. You can also add a digital

signature by means of uploading a document containing your signature or by physically signing the provided space if you are filling out the application from a touchscreen device.

- **Fund your account:** This step will be part of the application form if it has been configured for Term Deposit applications. Through this step you will be able to fund your new account if you wish to do so. If you opt to fund your account, you will be required to furnish information regarding mode of transfer from the payment gateway page.
- **Confirmation** – Once you have submitted your application after having reviewed it and having accepted the terms and conditions, a confirmation page will be displayed. This page will display a success message along with the application reference number. You can track your application on the basis of this reference number. Additionally, this page will also contain a button, by clicking on which you can navigate to the application tracker.

Apart from the **Review and Submit** and **Confirmation** steps, the sequence of the remaining steps may vary based on the configuration maintained for the product applications, by the bank.

How to reach here:

Bank Portal page > Our Product Offerings > Term Deposits

To apply for term deposit:

1. Click on **Term Deposits** under the product offerings section in the Bank Portal page.
A screen containing the term deposits products available for online application will be displayed.

3.1 Term Deposits – Product Listing

This page is displayed once you select the Term Deposits category on the bank portal. All the term deposits products of the bank that are available for online application are displayed on this page as cards. Each card will display the product name, a short description of the product as well as the key features of each product. You can view all the products and select the best suitable one as per your needs. You can directly apply for a specific product on this page or can opt to view a detailed description of any product type by selecting the **Learn More** link provided on each product card. Alternately, you can also compare up to three products at a time so as ensure you are taking an informed decision while applying for a specific product.

This page also displays cross sell cards i.e. cards which enable the user to navigate to the other product offering pages of the bank.

Product Categories

3.6 Liveliness Check

If liveliness check is enabled for the product application, you will be provided with the option to have your KYC verified through liveliness check. If you opt to go through with liveliness check, you will be required to first upload images of an ID proof document. Once you have uploaded these images, you will be placed in a video call with a bank executive who will verify whether the identity proof you have provided is valid or not. The bank executive will also conduct other checks that comprise of liveliness check and will proceed to provide either positive or negative feedback. If the bank executive has approved the liveliness check, you will be able to proceed with the application form and your personal information section will be prefilled with data as fetched from the ID proof that you have provided as part of this step. However, if the feedback is negative, you will be informed of the same and the bank will conduct your KYC check manually. You will still be allowed to proceed with the application form. However, your personal information section will not be prefilled with information and you will be required to enter all information manually.

Liveliness Check – Introductory Page

1. Click **Continue** to proceed with Liveliness Check. The first page of liveliness check will be displayed.

OR

Click **Skip for now** if you do not wish to go through with liveliness check. The **Upload Documents** page will be displayed.

Liveliness Check – Start Verification

The screenshot shows a 'Verification' window with a 'Help' link in the top right corner. The main heading is 'Start verification' with a green checkmark icon. Below this, a text box explains: 'This process is designed to verify your identity and protect you from identity theft. Please have your ID ready and click "Start".' A prominent blue 'Start' button is centered below the text. A warning icon and text state: 'This page will expire in a few minutes if you do not start.' At the bottom, it says 'Powered by jumio' with links for 'Privacy policy' and 'Legal'.

2. Click **Start** to start with the liveliness check flow.

Liveliness Check – Identity Proof Selection

In this step, you will be required to choose an identification document that you would like to provide for liveliness check. Your liveliness check and identity verification will be conducted on the basis of this document. In the next step you will be required to upload images of the identity proof you have selected.

The screenshot shows a 'Verification' window with a back arrow and 'Help' link in the top right. The main heading is 'Choose issuing country/region'. Below it is a dropdown menu with 'India' selected. The next section is 'Select ID type' with a sub-heading 'Use a valid government-issued photo ID.' and three radio button options: 'Passport', 'Driver's license', and 'Identity card'. At the bottom, it says 'Powered by jumio' with links for 'Privacy policy' and 'Legal'.

3. From the **Choose issuing country/region** field, select the country that has issued the identity proof you wish to provide for liveliness check.
4. From the **Select ID type** field, select the identification proof that you wish to provide. The next step of Liveliness Check gets displayed.

Liveliness Check – Option for document upload

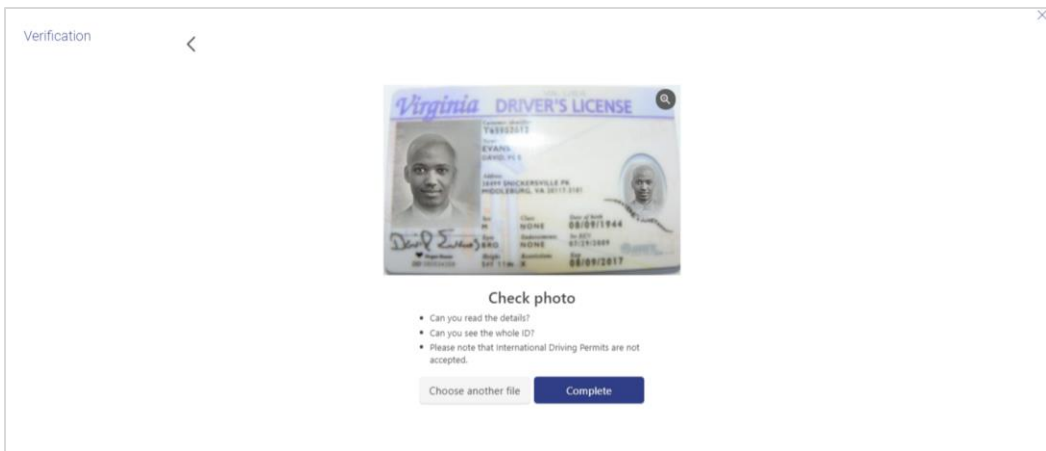

In this step, you can select the method through which you would like to upload images of the identity proof you have selected.

5. Select the option of choice.
 - a. If you have selected the option **Upload file**, your device's browse file feature will get enabled and you will be able to select images of the front and back of the document you wish to provide.
 - b. If you selected the option **Prefer to use your mobile?** you will be displayed a screen containing a field in which you can enter your email address as well as a QR code you can scan. You will be able to enter your email address so as to have the link sent to your email address. In this case you can proceed to access your email on the device and select the link on which you wish to continue liveliness check or you can scan the QR code on the device on which you wish to continue your liveliness check.
 - c. If you are applying from a mobile device or a device that has a camera, the option to **Take photo** will appear. If you select this option, your device's camera will get enabled and you will be able to click pictures of the front and back of the document you wish to provide.

Liveliness Check – Upload Identity Proof Images

In this step, you can upload images of the front and back of the identity proof document you wish to provide for liveliness check. Once you have added images, the system will undertake a check to ensure the quality of the document images you have uploaded is good and readable.

6. Click Choose file to upload the front image of the identity proof document. The file browser window is opened through which you can browse your device and upload the image of choice.

Once you have uploaded the image, it is displayed on the page with the options to either **Choose another file** or **Complete** upload of the image.

- a. If you select **Choose another file**, the file browser window is opened and you can selected a different image to replace the one you had selected previously.
 - b. If you select **Complete**, the image gets uploaded and the page on which you can upload the back image of the identity proof document is displayed.
7. Click Choose file to upload the back image of the identity proof document. The file browser window is opened through which you can browse your device and upload the image of choice.

Once you have uploaded the image, it is displayed on the page with the options to either **Choose another file** or **Complete** upload of the image.

- a. If you select **Choose another file**, the file browser window is opened and you can selected a different image to replace the one you had selected previously.
- b. If you select **Complete**, the image gets uploaded and the next step of the liveness check flow gets displayed.

Liveliness Check – Video KYC Initiation

Once you have uploaded the images of your identity proof document, you will be requested to proceed onto a video call with a bank executive.

8. Click **Continue** if you agree to enter into a video call with a bank executive.
A modal window is displayed informing you that the video call might be recorded.
Click on **Yes** if you wish to continue with the video call.
OR
Click **Cancel** if you wish to cancel.
9. Click **Share** to share the images of the identity proof documents with a bank executive. You will be added into a video call with a bank executive.

3.8 Upload Documents

You can upload documents required for the application to be processed in this step. You can upload single as well as multiple documents and photographs and can also map each document or photograph against a specific document proof category and type.

From this step onwards, you will be provided with the option to continue the application on a mobile or tablet device using the **Scan QR code** link. All you have to do is invoke the QR code by selecting the option provided at the bottom of each page. Once the QR code is displayed on the modal window, you can scan the same through any of your mobile or tablet devices. Once the QR code is successfully scanned, the bank application that is installed on the device will be invoked. You can login to the application with your online banking credentials if you are an existing customer of the bank or if you are a prospect you can login by defining your mobile number and subsequently entering the OTP sent to the mobile number. Once you have successfully logged in, your application form will be displayed. You can then complete and submit the application form from this device.

If the banking application is not installed on the device, the user will be navigated to the app. Store and will be guided to install the banking application.

Note:

1) Click on the **Refer the list of required** documents link to view the list of documents required for the processing of the application.

2) In case Liveness Check is part of the application form and has been completed, the front image of the identity proof that you had uploaded as part of the liveness check steps will displayed on this page as a link. You will be able to click on the link to download and view the image. You will not be able to delete this image.

24. The steps involved in uploading documents are as follows:

- a. Drag and drop or browse your device's folders to upload the required documents. The uploaded documents get listed one below the other.
- b. Select the document type under the Proof Category from the dropdown provided, to map each uploaded document to a specific proof category and document type.

Note:

1) The document formats supported can be configured by the bank. By default, the supported formats are PDF, PNG, JPG and JPEG.

2) The maximum size allowed per document can be configured by the bank.

FAQ

1. Can I proceed with the application if I am an existing customer of the bank but do not have online banking access?

You will need to first onboard yourself on the digital banking platform. You can do so by selecting the 'Register for online banking access' link on the kick off page or by selecting the 'Register Now' option provided on the login page. Once you have completed the registration process, you can login and proceed to apply for a term deposit from the New Term Deposit screen provided to online banking retail customers.

2. Can I add a joint applicant while applying for any of the products?

No, as of now you can apply only as a single applicant. Adding joint applicants is not supported currently.

3. I am applying for the product as a guest user. The address that is mentioned in the document that I have uploaded in support of the application is different from my current permanent address. Can I update that information in the application form?

Yes, all the information that is fetched from your document is displayed in editable format in the Personal Information section. You can update the required details and submit your application. However, please note that once your mobile number, as provided in the Mobile Verification page, is verified, you will not be able to modify it in the Personal Information section.

4. How many products can I apply for as part of a bundled application?

Out of the box, you can add a maximum of three products in a bundle. This number is configurable by the Bank and may change.

5. In case my application is saved as a draft, can I request a bank executive to complete this application on my behalf?

Only you can resume and complete a draft application.

6. Can I cancel one of the product applications that has been submitted as part of a bundled application?

No. Currently, it is not possible to cancel a specific product application that is part of a bundled application. You can however, cancel the entire bundled application, if you wish to do so.

7. For how long I can access and resume my applications that are saved as drafts?

This is based on the Bank's purging policy. The draft applications will be available for x days in the application tracker before they are purged by the bank.

8. Can I apply for a product that I have already applied for and that the bank is currently processing?

Yes, you can still submit an application for the same product. The decision to process or reject either of the two (or more) applications will rest on the bank.

9. Can I view the offer provided by the bank against my application?

As of now, this option is not available on the digital platform.

10. I have started my application on my laptop. However, I have realized that some of the documents that I need to upload are available on my tablet. Do I need to abandon the application that I started on my laptop to restart the entire process on my tablet?

No, you can scan the QR code available on every step of the application form, post the Mobile Verification step, and resume the application from your tablet or mobile device.

11. Can bank administrators define the sequence in the steps of the application forms?

No, as of now there is no front end to enable bank administrators to configure the origination workflow from the OBDX platform.

12. How does ID verification work?

The bank can integrate with government or other third party systems (which store and maintain data of National ID holders), through available hook points. Online authentication will be performed to verify the identity claim of the ID holder and to fetch the required personal information.

13. How does OCR work?

The bank can integrate with the third party adapters that provide OCR services, through available hook points. The system will be able to prefill certain fields in the Personal Information section from data fetched from the applicant's uploaded documents.

Currently, only driver's license of USA is supported for OCR. Other documents can be used to support OCR through the use of extensibility hooks.
