Working knowledge of PLSQL & SQL Language	Self-Acquired
Working knowledge of XML files	Self-Acquired

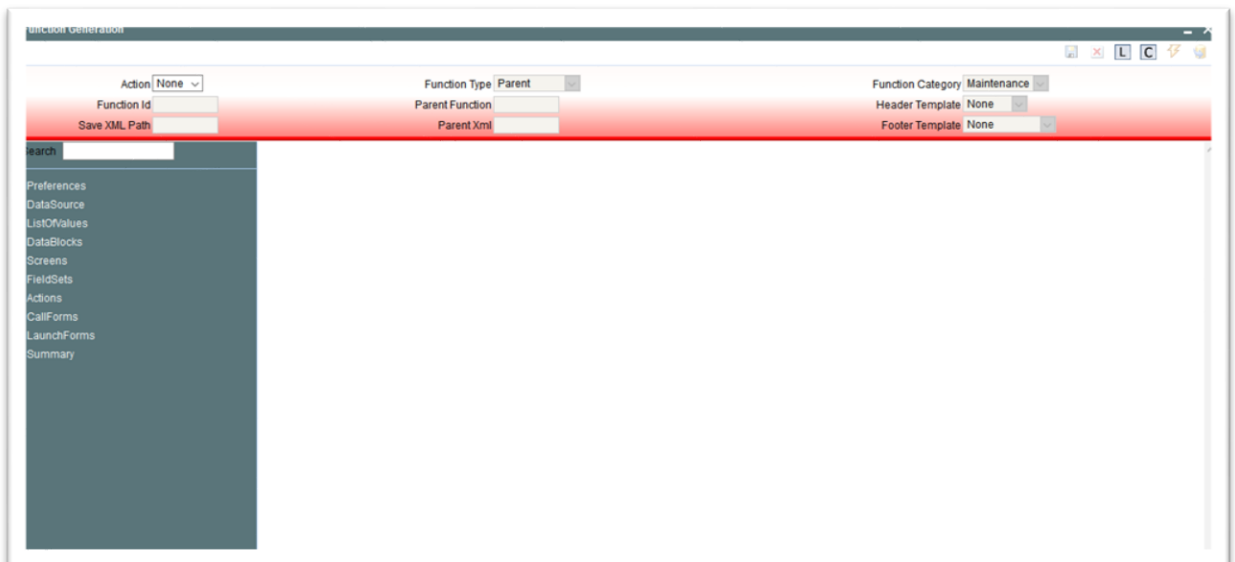

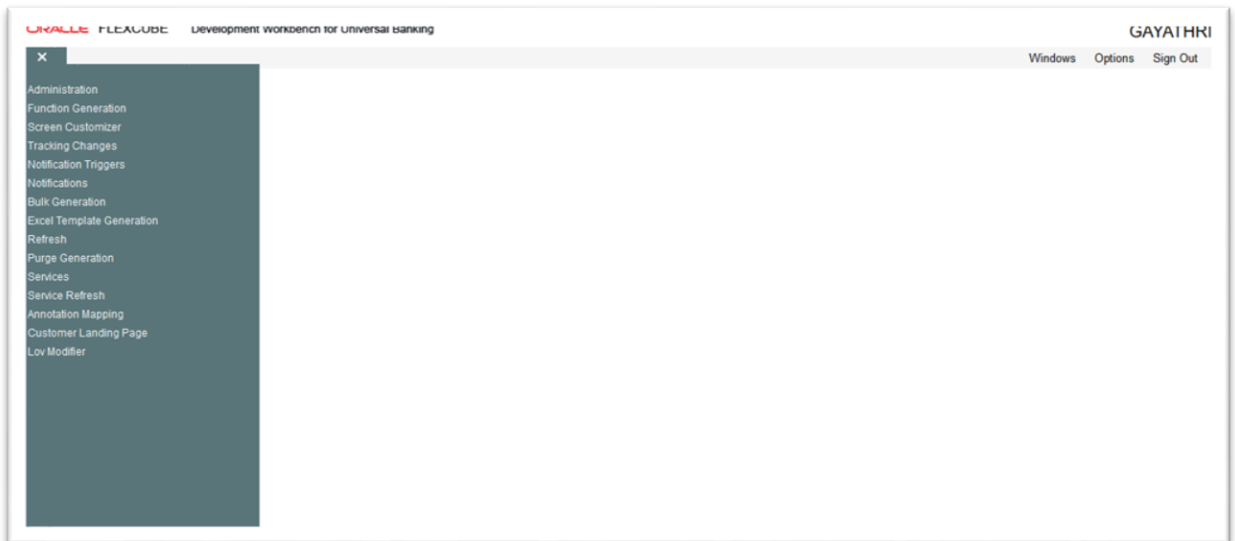

1.3 Related documents

For more information, see following documents.

- ODT Installation
- Development of Call Form

2. Development Workbench DMS Integration

1. Launch ODT tool.
2. Set Release and Environment details.

3. Open Function Generation.
4. Load the RADXML in which document upload CallForm has to be integrated.

5. Select “CallForms”.

6. Enter all the necessary CallForm details (CSCUPDOC). Give the details as shown in below example,

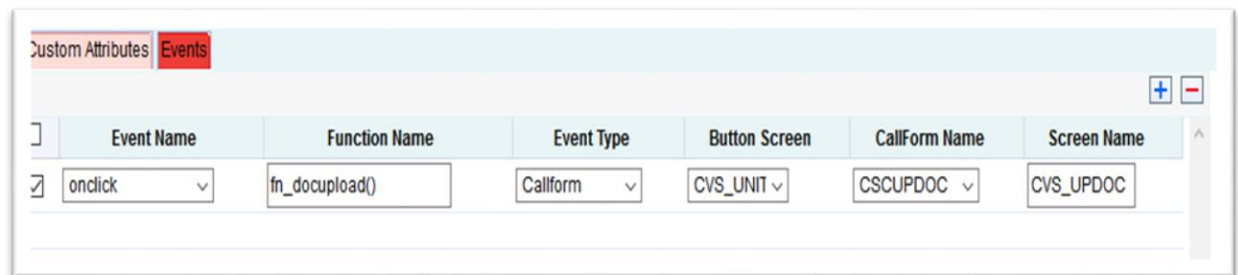

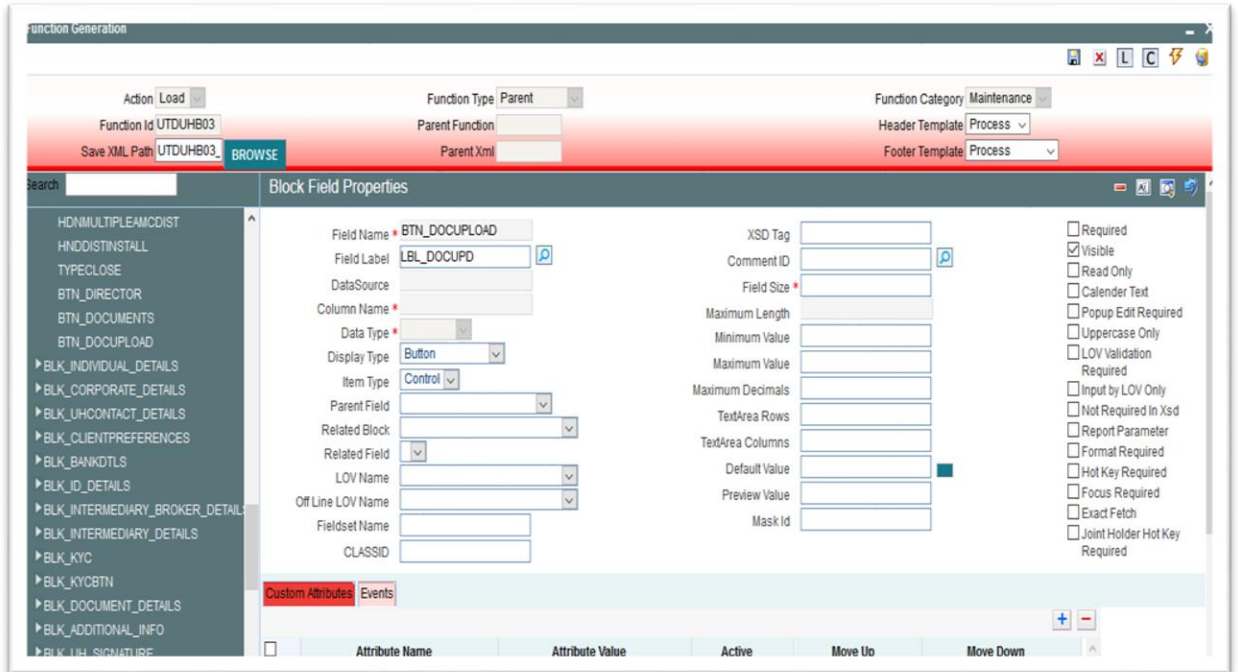

For BPEL Screen,

Function Id	CSCUPDOC
Parent Data Block	BLK_UNITHOLDER_DETAILS
Parent Data Source	UNITHOLDERTBL
Relation	UNITHOLDERTBL.CIFNUMBER = CSTB_DOC_UPLOAD_MASTER.KEY_ID
Relation Type	One to One

7. Navigate to DataBlocks.
8. Press Add button to enter more details as shown below,

Field Name	BTN_DOCUPLOAD
Field Label	LBL_DOCUPD
Event Name	onclick
Function Name	fn_docupload()
Event Type	Callform
Button Screen	CVS_UNITHOLDER
CallForm Name	CSCUPDOC
Screen Name	CVS_UPDOC

9. Generate the RAD output and deploy the same.

Note:

- Ensure that the document upload callform objects are compiled in the ODT schema.
- Check that the DMS server is up and running and the details are available in the FCUBS properties file.
- CallForm JS files are deployed in the environment.

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software" or "commercial computer software documentation" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.
