ORACLE®

Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:
- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:
- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

ORACLE®

Export LC Drawing

Drawings under Export LC is initiated on account of receipt of documents under LC from the beneficiary to negotiating bank.

This section contains the following topics:

Common Initiation Stage	Scrutiny
Registration	Exceptions
Data Enrichment	Reject Approval
Multi Level Approval	

Common Initiation Stage

The user can initiate the new export LC drawing request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.

2. Click **Trade Finance > Initiate Task.**

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
LC Reference Number	Select the LC Reference Number.
Branch	Select the branch.
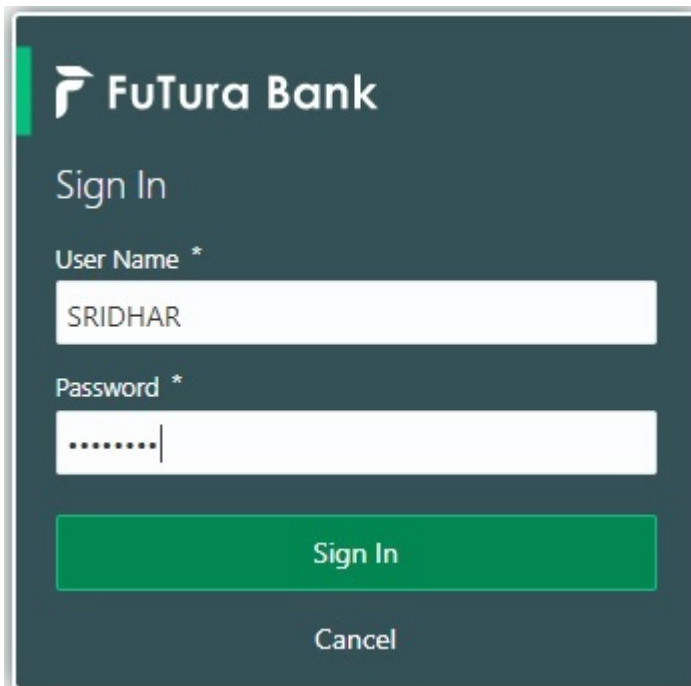

ORACLE®

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

During Registration stage, user can capture the basic details and upload the documents received from beneficiary. It also enables the user to capture some additional product related details as an option. On submit of the request the request will be available for an LC expert to handle the request in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

ORACLE®

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.
3. Click **Trade Finance> Export - Documentary Credit> Export LC Drawings.**
The Registration stage has two sections Basic Details and LC Details. Let's look at the details of Registration screens below:

ORACLE®

Application Details

Provide the Basic Details based on the description in the following table:

Field	Description	Sample Values
LC Advised by us	**Toggle On:** Set the toggle to On, if LC is advised by negotiating bank. **Toggle Off**: Set the toggle to Off, if LC is not advised by the negotiating bank.	
Export LC Reference Number	Provide the Export LC Reference Number. Alternatively, user can search the export LC reference number using LOV. In the LOV, user can input Customer ID, Applicant, Currency, Amount and Issue Date to fetch the LC details. Based on the search result, select the applicable LC for drawing. **Note** This field is applicable only if LC Advised by us toggle is On.	
Beneficiary	**LC Advised by us:** Read only field. Beneficiary will be auto-populated based on the selected LC from the LOV. **LC not advised by us:** Select the beneficiary customer from the LOV. If beneficiary is a customer of the bank, system will check for valid KYC status. If KYC status is not valid, system will display alert message.	

Field	Description	Sample Values
Branch	Read only field. Branch details will be auto-populated based on the selected LC from the LOV.	203-Bank Futura -Branch FZ1
Process Reference Number	Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	
Priority	System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated any time before submit.	High
Submission Mode	Select the submission mode of Export LC Drawing request. By default the submission mode will have the value as 'Desk'. **Desk-** Request received through Desk **Courier-** Request received through Courier	Desk
Drawing Date	By default, the application will display branch's current date and does not enables the user to change the date to any back date.	04/13/2018
Document Received Date	By default, the application will display branch's current date and does not enables the user to change the date to any back date.	04/13/2018

LC Details

Registration user can provide drawing details in this section. Alternately, drawing details can be provided by Scrutiny user.

ORACLE®

Provide the drawing LC Details based on the description in the following table:

Field	Description	Sample Values
Document Received	Enables to user to select the number of sets of documents received from the LOV: • First • Second • Both	
Tenor Type	Select the Tenor Type from the LOV: • Sight • Usance • Mixed	
Product Code	Select the product code for the drawing.	
Product Description	Read only field. This field displays the description of the product as per the product code.	
Drawing Reference Number	This is auto generated by the back end system.	
Applicant	**LC Advised by us:** Read only field. Applicant will be auto-populated based on the selected LC from the LOV. **LC not advised by us:** Select the applicant from the LOV.	
Issuing Bank	**LC advised by us:** Read only field. Issuing bank will be auto-populated based on the selected LC from the LOV. **LC not advised us:** Select the issuing bank. Party type with banks will only be displayed in LOV. The system will display the a) SWIFT code (if available) b) Name and address of the bank On selection of the record if SWIFT code is available then SWIFT code will be populated, if SWIFT code is not available then the bank's name and address will be populated.	
Issuing Bank Reference	**LC Advised by us:** Read only field. Issuing bank reference will be auto-populated based on the selected LC from the LOV. **LC not advised by us:** Provide the issuing bank reference number.	

ORACLE®

Field	Description	Sample Values
Date of Expiry	**LC Advised by us:** Read only field. Expiry Date reference will be auto-populated based on the selected LC from the LOV. **LC not advised by us:** Provide the expiry date.	
Presenting Bank	**LC Advised by us:** Read only field. Presenting Bank will be auto-populated based on the selected LC from the LOV. **LC not advised by us:** Select the Presenting Bank from the LOV. **Note** In case the selected Bank is not RMA Compliant, the system displays error message "RMA arrangement not available".	
Presenting Bank Reference Number	**LC Advised by us:** Read only field. Presenting Bank Reference number will be auto-populated based on the selected LC from the LOV. **LC not advised by us:** Provide the Presenting Bank Reference Number.	
Drawing Amount	Provide the amount to be drawn in this drawing.	
Amount In Local Currency	System fetches the local currency equivalent value for the LC amount from back office (with decimal places).	
Operation Type	**LC Advised by us:** Read only field. Operation Type will be auto-populated based on the selected LC from the LOV. **LC not advised by us:** Select the operation type from the LOV.	
Negotiation/Financing Amount	**LC Advised by us:** Read only field. Negotiation/Financing Amount will be auto-populated based on the selected LC from the LOV. **LC not advised by us:** Provide the Negotiation/Financing Amount.	
Unlinked FX Rate	**LC Advised by us:** Read only field. Unlinked FX Rate will be auto-populated based on the selected LC from the LOV. **LC not advised by us:** Provide the Unlinked FX Rate.	

ORACLE®
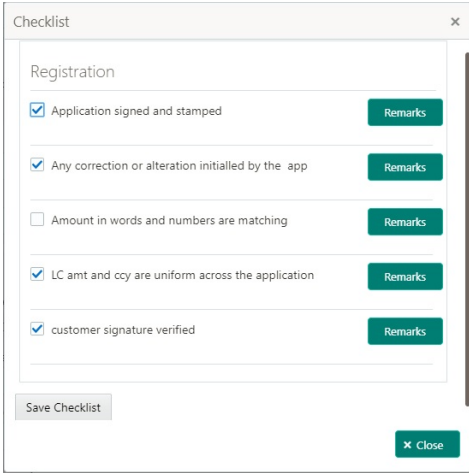

Field	Description	Sample Values
Outstanding LC Value	**LC Advised by us:** Read only field. Outstanding LC Value reference will be auto-populated based on the selected LC from the LOV. **LC not advised by us:** Provide the outstanding LC value.	
Additional Amount	This field enables user to provide any additional amount to be processed under this LC drawing.	

Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the documents received under the LC.	
Remarks	Provide any additional information regarding the drawing. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Fetch LC Events	On click, system will display the details of LC issuance, amendments (if any), drawings (if any) and liquidations if any under the LC in chronological sequence from LC Issuance.	

Action Buttons

ORACLE®

Field	Description	Sample Values
Submit	On submit, task will get moved to next logical stage of Export LC Drawing. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Export LC Drawing Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit. 	

Scrutiny

On successful completion of Registration of an Export LC Drawing request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized.

The following steps enable the user to acquire the task available-at Scrutiny stage:

ORACLE®

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Trade Finance> Tasks> Free Tasks.**

ORACLE®

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to scrutinize the registered task.

The Scrutiny stage has following hops for data capture:

- Main Details
- Document Details
- Shipment Details
- Additional Conditions
- Discrepancy Details
- Additional Fields
- Additional Details
- Maturity Details
- Summary

Let's look at the details for Scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value from Registration/online channels may not be editable.

Main Details

Main details section has two sub section as follows:

- Application Details
- LC Details

Application Details

All fields displayed under Application Details section, would be read only except for the **Priority**. Refer to Application Details for more information of the fields.

ORACLE®

LC Details

The fields listed under this section are same as the fields listed under the LC Details section in Registration. Refer to LC Details for more information of the fields. During Registration, if user has not captured input, then user can capture the details in this section.

Following fields can be amended based on the description in the following table:

Field	Description	Sample Values
Document Received	Enables to user to select the number of sets of documents received from the LOV: • First • Second • Both	
Presenting Bank	Select the Presenting Bank from the LOV.	

13

Field	Description	Sample Values
Presenting Bank Reference Number	Provide the Presenting Bank Reference Number.	
LC Drawing Amount	Provide the amount to be drawn in this drawing.	
Operation Type	Select the operation type from the LOV.	
Negotiation/Financing Amount	Provide the Negotiation/Financing Amount.	
Unlinked FX Rate	Provide the Unlinked FX Rate.	
Additional Amount	This field enables user to provide any additional amount to be processed under the LC drawing.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	

ORACLE®

Field	Description	Sample Values
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

ORACLE®

Document Details

User can verify the documents received and identify discrepancies, if any. User can compare the document received with the required documents and identify the discrepancies, if any.

Provide the information based on the description in the following table:

Field	Description	Sample Values
Document Code	Document code is auto-populated from the latest LC.	
Document Reference Number	Enables to user to provide the reference number available in the documents.	
Copy	Number of duplicate copies of documents as required in LC.	
Original	Number of documents in original as required in LC.	
Description	Description of the document required as per LC.	
First Mail Original	Provide the number of originals of documents received.	
First Mail Copy	Provide the number of duplicate copies of documents received.	
Second Mail Original	Provide the number of originals of documents received from second mail.	
Second Mail Copy	Provide the number of duplicate copies of documents received.	
Received Description	Provide the description of the documents received from presenting bank.	

Field	Description	Sample Values
Discrepant	System marks the discrepant toggle as 'Yes' if there is difference between number of documents required and number of documents received. It also enables the user to make the changes, if any discrepancy identified in the document.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Action	Click Edit icon to edit the document code/ document date. Click Delete icon to delete the document code.	

For LC Not Advised by Us: The LC terms documents will be inactive. The user must read the description available in the documents and compare them with the description as per LC terms and will mark them if discrepant and provide discrepancy description.

If there are additional documents received from the beneficiary that has not be requested through LC, user must add them.

Additional Conditions

Enables the user to check the whether the documents received comply with the additional conditions mentioned in LC.

This section displays the list of additional conditions as per LC. Provide the Additional Conditions details as per the description in the following table:

Field	Description	Sample Values
FFT Code	**LC Advised by us:** Read only field. This field displays the FFT code as per the latest LC. **LC not advised by us:** Provide the FFT code.	

Field	Description	Sample Values
FFT Description	**LC Advised by us:** Read only field. This field displays the FFT description as per the latest LC. **LC not advised by us:** Provide the FFT description.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Action	Click Edit icon to edit the additional condition details.	

Shipment Details

User must check whether the received documents of goods and shipment matches the requirement in LC.

Goods Details

Provide the Goods Details based on the description in the following table:

Field	Description	Sample Values
Goods Code	This field displays goods code as per latest LC.	
As per LC	**LC Advised by us:** Read only field. This field displays description of the goods as per the latest LC. **LC not advised by us:** Provide the description of goods.	
As per Documents	**LC Advised by us:** Read only field. This field displays description of the goods as per the received documents. **LC not advised by us:** Provide the description of the goods as per the documents.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Country of Origin	Update the country of origin as per the documents.	
Insurance Company	Update the insurance company name, if applicable.	
Insurance Company Address	Update the insurance company details, if applicable.	

Shipment Details

Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
Date of Shipment	Update the date of shipment as per the documents received.	
Shipping Agent	Update the shipping agent details.	
Date of Presentation	Read only field. Auto-populated based on the system date.	
Details	Details represent the fields in latest LC.	
As per LC	**LC Advised by us:** Read only field. This field displays description of the fields as per LC. **LC not advised by us:** Provide the description of the fields.	
As Per Document	Provide the description of the field as per document.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC Terms and documents received.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	

ORACLE®

Carrier Details

During shipment, If the shipment involves multiple carrier and or shipment passes through multiple ports, the details will be captured under this segment.

Field	Description	Sample Values
Carrier Name	Provide the details of the carrier as per the documents received, if the goods got shipped via multiple carriers.	
Port	Provide the port details as per the document received, if the ship has transit on its way to the destination.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Export LC Drawing Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	

ORACLE®

Field	Description	Sample Values
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

ORACLE®

Instruction Details

User can capture one of the applicable instruction codes for the drawing. System will populate the instruction description for the selected instruction code.

Field	Description	Sample Values
Instruction Code	Select the applicable instruction code for the drawing.	
Instruction Description	This field displays the instruction description based on the instruction code.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Submit	On successful submission, task moves to next logical stage of Export LC Drawing. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	

ORACLE®

Field	Description	Sample Values
Cancel	Cancel the Export LC Drawing Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Next	Click Next to move to next logical step in Scrutiny stage.	

Discrepancy Details

This section displays the list of discrepancies captured. User can add/update/review the discrepancies identified in the section.

Field	Description	Sample Values
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	

ORACLE®

Field	Description	Sample Values
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Discrepancy Resolved	Set the toggle to 'Yes', if discrepancy is resolved.	
Resolved Date	Set the date when discrepancy is resolved.	
Resolved Remarks	Provide remarks for discrepancy resolution.	
Action	Click Edit icon to edit the discrepancy details. Click Delete icon to delete the discrepancy details.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Export LC Drawing Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	

ORACLE®

Field	Description	Sample Values
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Maturity Details

This field displays the maturity details and this tile will be disabled, if the tenor for the drawing is 'Sight'.

Provide the maturity details based on the description in the following table:

Field	Description	Sample Values
Tenor Type	Read only field. This field displays the tenor type as per LC.	
Tenor Basis	Provide the tenor basis.	
Start Date	Provide the tenor start date.	
Tenor Days	Provide the number of tenor days	
Transit Days	Provide the transit days, if the tenor is sight.	
Maturity date	System displays the due date for the drawing based on tenor and tenor basis. If tenor is sight, system will calculate the maturity date as 5 working days from document Received date. User can change this value to any date earlier than the maturity date up to system date. User cannot change the value to later than maturity date. If tenor is Usance, system will calculate the maturity date based on the tenor basis and populate the maturity date.	
Usance Interest Rate	Provide the usance interest (if any).	
Usance Interest Amount	Provide the usance interest amount for the LC value as per the tenor basis.	

In case of multi tenor,

Field	Description	Sample Values
Interest from Date	Select the interest from date. The interest from date cannot be earlier than branch date and later than maturity date.	
Tenor Basis	Provide the tenor basis, if the tenor is not sight.	
Acceptance Commission From Date	Select the acceptance commission from date.	
Acceptance Commission To Date	Select the acceptance commission to date.	

Other Bank Charges

Provide the other bank charges based on the description in the following table:

Field	Description	Sample Values
Other Bank Charges - 1	Charges to be collected for the other bank as part of the drawings transaction.	

ORACLE®

Field	Description	Sample Values
Other Bank Charges - 2	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Charges - 3	Charges to be collected for the other bank as part of the drawings transaction.	

Other Details

Provide the other bank details based on the description in the following table:

Field	Description	Sample Values
Debit Value Date	Provide the debit value date.	
Credit Value Date	Provide the credit value date.	
Value Date	Provide the value date.	
Allow Pre-Payment	**Toggle On:** Set the toggle 'On' to enable pre-payment. **Toggle Off:** Set the toggle 'Off' to disable pre-payment.	
Refund Interest	**Toggle On:** Set the toggle 'On' to refund the interest. **Toggle Off:** Set the toggle 'Off' to deny the interest refund.	
Transfer Collateral from LC	**Toggle On:** Set the toggle 'On' to enable the transfer collateral from LC. **Toggle Off:** Set the toggle 'Off' to disable the transfer collateral from LC.	

Additional Fields

Banks can configure these additional fields during implementation.

Limits & Collateral

Field	Description	Sample Values
Limit Details	Read only field. Customer ID: Applicant's/Applicant Bank customer ID will get defaulted.	
Line ID	Read only field. LINE ID-DESCRIPTION will be available along with Line ID.	
Contribution	System will default this to 100%.	
Contribution Currency	The LC currency will be defaulted in this field.	
Contribution Amount	Contribution amount will default based on the contribution%.	
Limit Currency	Limit Currency will be defaulted in this field.	

ORACLE®

Field	Description	Sample Values
Limit Available Amount	This field will display the value of available limit, i.e., limit available without any earmark. The Limit Available Amount must be greater than the Contribution Amount.	
Limit Check Response	Response can be 'Success' or 'Limit not Available'.	
Response Message	Detailed Response message.	

This section displays the collateral details:

Field	Description	Sample Values
Collateral Type	Cash Collateral (CASA) will be the default value available as collateral type. Selected collateral type will be displayed in this field.	
Collateral%	This field displays the percentage of collateral.	
Currency	The LC currency will get defaulted in this field.	
Contribution Amount	Collateral contribution amount will get defaulted in this field.	
Settlement Account	This filed displays the details of settlement account for then collateral.	
Settlement Account Branch	Settlement Account Branch will be auto-populated based on the Settlement Account selection.	
Settlement Account Currency	This field displays the Settlement Account Currency.	
Account Available Amount	Account Available Amount will be auto-populated based on the Settlement Account selection.	
Response	Response can be 'Success' or 'Amount not Available'.	
Response Message	Detailed Response message.	

ORACLE®

Charge Details

This section displays charge details:

Field	Description	Sample Values
Component	Charge Component type.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field.	
Modified Amount	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.	
Billing	If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.

ORACLE®

Field	Description	Sample Values
Defer	If check box is selected, charges/commissions has to be deferred and collected at any future step.	
Waive	Based on the customer maintenance, the charges/commission can be marked for Billing or Defer. If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary	
Settlement Account	Details of the Settlement Account.	

The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system.

This section displays the tax details:

Field	Description	Sample Values
Component	Tax Component type	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Settlement Account	Details of the settlement account.	

ORACLE®

Assignment of Proceeds

In this tile, assignment details for the applicable processes is displayed. Proceeds can be assigned only if the parties have been assigned during drawing or update drawing process.

Field	Description	Sample Values
Sequence	User can update the sequence number.	
Assignee ID	System lists all the third party that have been maintained from the third party maintenance replicated from back office. User can select the assignee id.	
Assignee Name	System defaults the assignee address pertaining to the assignee id.	
Address Line 1-4	System defaults the assignee address.	

ORACLE

Field	Description	Sample Values
Assignment %	User can input the percentage of LC amount that has be assigned to the assignee. Once the user updates the rate, the system has to calculate the amount as per assigned rate and default in the assigned amount field. If the user directly captures the assigned amount then the assigned percentage has to calculate the percentage and the same to be populated in the screen. If contribution is more than 100%, system to display an alert message. Once contribution % is input system will default the amount. System to validate that Limit Contribution percentage plus Collateral percentage is equal to 100. Otherwise system to provide override.The assignment percentage should be rounded to two decimal places	
Assignee Amount	User can input the amount that has to be assigned to the assignee. If the user has already inputted the assignment percentage, system to calculate the amount and populate the value	
Account Currency	User can select the account currency of the settlement account of the assignee. Only the currencies for which the settlement account is available, only those currency will be displayed.	
Account	User can select the settlement account listed from the LOV.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Scrutiny stage inputs.	

ORACLE®

Field	Description	Sample Values
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

ORACLE®

Summary

User can review the summary of details captured in Export LC Drawing Scrutiny stage. The tiles must display a list of important fields with values. User can drill down the tile and view the details provided in the various data segments.

Tiles Displayed in Summary

- Main Details - User can view details about application details and LC details.
- Document Details - User can view document details.
- Party Details - User can view party details like applicant, advising bank etc.
- Shipment Details - User can view shipment details.
- Additional Conditions - User can view the additional conditions.
- Discrepancy Details - User can view the discrepancy noted for the current LC drawing.
- Advices - User can view the advices.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	

ORACLE®
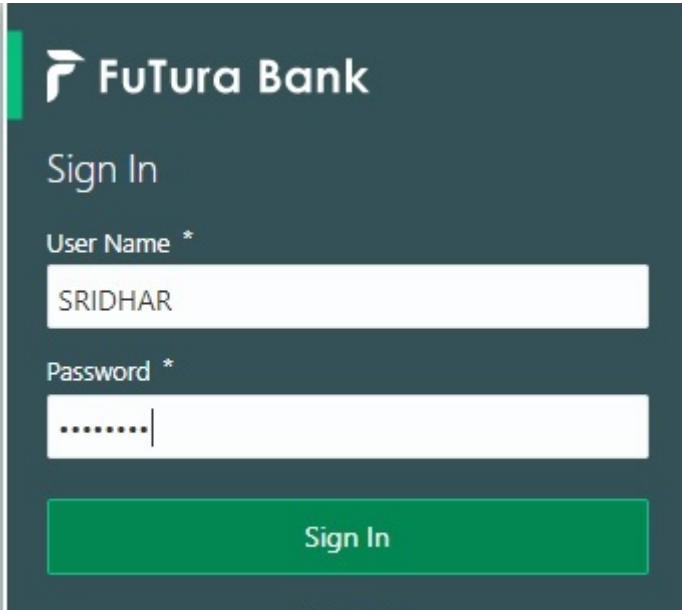

Field	Description	Sample Values
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Submit	Task will get moved to next logical stage of Export LC Drawing. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others.	

Data Enrichment

Do the following steps to acquire a task at Data Enrichment stage:

ORACLE®

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Trade Finance> Tasks> Free Tasks.**

ORACLE®

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

The Data Enrichment stage has following hops for data capture:

- Main Details
- Document Details
- Additional Conditions
- Shipment Details
- Discrepancy Details
- Maturity Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

Main Details

Refer to Main Details.

Document Details

Refer to Document Details.

ORACLE®

Additional Conditions

Refer to Additional Conditions.

Shipment Details

Refer to Shipment Details.

Discrepancy Details

Refer to Discrepancy Details.

Maturity Details

Refer to Summary.

Additional Fields

Refer to Maturity Details.

Advices

Advices menu displays the advices from the back office as tiles. User can edit the fields in the tile, if required.

Additional Details

Limits & Collateral

Refer to Limits & Collateral.

Charge Details

Refer to Charge Details.

Payment Details

Provide payment details based on the description in the following table:

Field	Description	Sample Values
Auto Liquidation Required	Auto Liquidation Required details gets defaulted from the LC, if the **LC Advised by us toggle** is on. If the **LC Advised by us toggle** is off: **Yes:** Select Yes, if auto liquidation is required. It is applicable only if the drawing is without discrepancy. **No:** Select No if auto liquidation is not required.	
Pre-shipment Credit Availed	Pre-shipment Credit Availed details gets defaulted from the LC, if the **LC Advised by us toggle** is on. If the **LC Advised by us toggle** is off: **Yes:** Select Yes, if pre-shipment credit is availed. **No:** Select No if pre-shipment credit is not availed.	
Reimbursement claimed	Reimbursing Claimed details gets defaulted from the LC, if **LC Advised by us toggle** is on. If the **LC Advised by us toggle** is off: **Yes:** Select Yes, if reimbursement to be claimed. **No:** Select No if there are no reimbursement to be claimed.	
Repay Pre-shipment Credit	Repay Pre-shipment Credit details gets defaulted from the LC, if the **LC Advised by us toggle** is on. If the **LC Advised by us toggle** is off: **Yes:** Select Yes, if pre-shipment credit to be repaid. **No:** Select No if there is no pre-shipment credit to be repaid.	

ORACLE®

Field	Description	Sample Values
Reimbursement Days	Provide the number of days before the maturity date on which the reimbursement claim needs to be triggered.	
Reimbursing Bank	Reimbursing bank details gets defaulted from the LC, if the **LC Advised by us toggle** is on. Select the Reimbursing Bank from the LOV, if the **Reimbursement Claimed** toggle is set to 'Yes'. **Note** If the user selects another bank and in case the selected Bank is not RMA Compliant, the system displays error message "RMA arrangement not available".	
Reimbursement Date	Reimbursement date will be displayed based on the reimbursement days and maturity date. Enables user to capture the reimbursement date. If reimbursement date is later than the branch date, system will display an error.	
Pre-shipment Credit Account Number	This field displays the pre-shipment credit account number.	
Pre-shipment Credit Outstanding Amount	This field displays the pre-shipment credit outstanding amount.	
Pre-shipment Credit Repayment Amount	This field displays the pre-shipment credit repayment amount.	

Preview

User can view the draft message (outgoing MT754 and MT742/MT750/MT742 SWIFT message format) being displayed on the preview message text box.

ORACLE®

Tracer Details

User can trace the response for the discrepancies identified.

Payment Tracer

Provide the payment tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Required	Toggle on - Switch on the toggle to capture the tracer details. Toggle off - Switch of the toggle, if user does not require to capture tracer details.	
Number of Tracers	Provide the number of tracers required.	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Medium	Select the tracer medium from the LOV: • Mail • Email • Swift	
Tracer Receiver Party	Read only field. 'Applicant' will be defaulted as tracer receiver party.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	

ORACLE®

Discrepancy Tracer

Provide the discrepancy tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Required	Toggle on - Switch on the toggle to capture the tracer details. Toggle off - Switch of the toggle, if user does not require to capture tracer details.	
Number of Tracers	Provide the number of tracers required.	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Medium	Select the tracer medium from the LOV: • Mail • Email • Swift	
Tracer Receiver Party	Read only field. 'Applicant' will be defaulted as tracer receiver party.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	

ORACLE®

Acceptance Tracer

Provide the acceptance tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Required	Toggle on - Switch on the toggle to capture the tracer details. Toggle off - Switch of the toggle, if user does not require to capture tracer details.	
Number of Tracers	Provide the number of tracers required.	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Medium	Select the tracer medium from the LOV: • Mail • Email • Swift	
Tracer Receiver Party	Read only field. 'Applicant' will be defaulted as tracer receiver party.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	

FX Linkage

This section enables the user to link the existing FX contract(s) to the drawing. User can link one or more FX deals to a drawing/bill. The linked value of an FX deal(s) must not exceed the value of the drawing/bill.

FX contract linkage with the Drawing/Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the drawing/bill.

ORACLE®

Provide the FX linkage detail based on the description in the following table:

Field	Description	Sample Values
Drawing Currency	Read only field. This field displays the currency details from the drawing.	
Drawing Amount	Read only field. This field displays the drawing amount from the drawing.	
Drawing Maturity Date	System to display the due date for the drawing in case of a Usance bill. In case of a sight bill, the system should display the current branch date as Maturity Date (for processing immediate payment).	
Contract Reference Number	Select the FX contract from the LOV.	
Contract Currency	This field displays the currency of the FX contract.	
Contract Amount	This field displays the amount of the FX contract.	
Contract Available Amount	This field displays the unlinked/ available amount under the FX contract.	
Linkage Amount	If FX contract is linked already for the underlying LC, system will display the amount linked. If FX contract is not linked, user can provide the Linkage amount. **Note** The linkage amount must not be more than the drawing amount.	
Rate	This field displays the rate at which the contract is booked.	

ORACLE®

Field	Description	Sample Values
Amount in Contract Currency	This field displays the amount in contract currency converted from FX currency.	
Average FX Rate	Average rate for more than one contract if linked.	

Settlement Details

Provide the settlement details based on the description in the following table:

Field	Description	Sample Values
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	
Debit/Credit	Application displays the debit/credit indicators for the components.	
Account	Application Displays the account details for the components.	
Account Description	Application displays the description of the selected account.	

51

ORACLE®

Field	Description	Sample Values
Account Currency	Application defaults the currency for all the items based on the account number.	
Netting Indicator	Application displays the applicable netting indicator.	
Amount	Amount for each component. This is populated from the transaction details of the drawing.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Select the transfer type from the drop list: ● Customer Transfer ● Bank Transfer for own account ● Direct Debit Advice ● Managers Check ● Customer Transfer with Cover ● Bank Transfer	
Charge Details	Select the charge details for the transactions: ● Beneficiary All Charges ● Remitter Our Charges ● Remitter All Charges	
Netting Indicator	Select the netting indicator for the component: ● Yes ● No	
Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Select the intermediary reimbursement institution from the LOV.	

ORACLE®

Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	
Sender to Receiver 3	Provide the sender to receiver message.	
Sender to Receiver 4	Provide the sender to receiver message.	
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.	

Remittance Information

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Provide the payment details.	
Payment Detail 2	Provide the payment details.	
Payment Detail 3	Provide the payment details.	
Payment Detail 4	Provide the payment details.	

Summary

User can review the summary of details updated in Data Enrichment stage Export LC Drawing request.

ORACLE®

Tiles Displayed in Summary

- **Main Details** - User can view details about application details and LC details.
- **Document Details** - User can view the details of the document.

- **Party Details** - User can view party details like applicant, advising bank etc.
- **Accounting Details** - User can view the accounting entries generated by back office system.

ORACLE®

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Submit	Task will get moved to next logical stage of Export LC Drawing. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Data Enrichment stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: - R1- Documents missing - R2- Signature Missing - R3- Input Error - R4- Insufficient Balance/Limits - R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	

Exceptions

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. Task. The checks to external system/internal system is initiated after the DE Stage. The amount Block earmark and Limit Earmarks if applicable are also initiated after the DE stage.

If a negative response is received for any of the calls, the task lands in respective exceptional queue which require further manual handling/approval.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

ORACLE®

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Amount Bock Exception

This section will display the amount block exception details.

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charge Details - User can view and modify details provided for charges, if required.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	On click of reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: - R1- Documents missing - R2- Signature Missing - R3- Input Error - R4- Insufficient Balance/Limits - R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	

ORACLE®

Field	Description	Sample Values
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Refer	User will be able to refer the task back to the Data Enrichment user.User must select a Refer Reason from the values displayed by the system. Refer Codes: ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others	
Cancel	Cancel the Export LC Drawing Amount Block Exception check.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the customer. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can select a transaction and do the following actions:

Approve

● After changing the KYC status in the back end application (outside this process).

● Without changing the KYC status in the back end application.

● Reject (with appropriate reject reason).

ORACLE®

Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others	
Cancel	Cancel the approval.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.	

Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Export LC Drawing in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

ORACLE®

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

Application Details

The application details data segment have values for requests received from both non-online and online channels.

Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view details about application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
