# **Oracle Banking Trade Finance Process Management**

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction.

#### Overview

OBTFPM is a Trade Finance Middle Office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

#### **Benefits**

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

#### **Key Features**

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# **Guarantee Issuance Claim Settlement**

As a part of Guarantee Issuance Claim Settlement process, the user can initiate Settlement of Claim under a Guarantee/SBLC, when a valid claim is received from the Beneficiary or the Bank that is authorized by the Guarantor to raise a claim under the Guarantee/SBLC.

This section contains the following topics:.

Common Initiation Stage	Registration
Data Enrichment	Multi Level Approval

# **Common Initiation Stage**

The user can initiate the new update a claim lodged under a Guarantee/SBLC Issued request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.

#### 2. Click Trade Finance > Initiate Task.

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	User can upload the claim documents. Application will display the mandatory and optional documents.	
Remarks	User can enter the additional information regarding the Claim Guarantee Issuance. This information can be viewed by other users in other stages of the process.	
	Content from Remarks Field should be handed off to Remarks field in Backend application.	
View Guarantee/SBLC	User can view all the latest Guarantee/Standby LC details.	
Guarantee/SBLC Events	User can view all the previous events under the Guarantee/Standby LC.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	The Task gets cancelled and system should clear the details captured in the screen. The task will be deleted.	
Save & Close	Save the information provided and holds the task in 'My Task' for working later. This option will not submit the request.	

Field	Description	Sample Values
Submit	On Submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Guarantee/ SBLC Claim.	
	If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	
	1. Signatures on Claim verified	
	2. Mandatory claim Documents received	

# **Data Enrichment**

On successful completion of Registration of a Guarantee SBLC Claim settlement request, the request moves to Data Enrichment stage. At this stage the bank user can update the various claim fields. The user can input the transaction details.

At this stage the gathered information during Registration stage and claim settlement request are scrutinized and enter the data as required.

Do the following steps to acquire a task currently at Data Enrichment stage:

1. Using the entitled login credentials for scrutiny stage, login to the OBTFPM application.

The Data Enrichment stage has five sections as follows:

- Main Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following fields as part of settlement of claim under Guarantee/SBLC - Data Enrichment Stage.

#### **Main Details**

Main details section has three sub section as follows:

- Application Details
- Guarantee Details

#### **Application Details**

All fields displayed under Application details section, would be read only except for the **Priority**. Refer to Application Details in the Registration stage for more information of the fields.

### **Action Buttons**

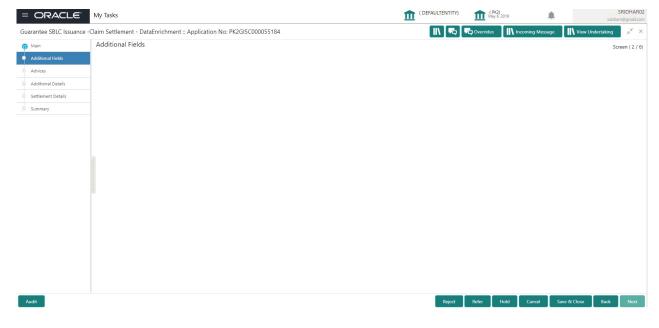

Field	Description	Sample Values
Reject	On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.	
	Reject Codes:	
	R1- Documents missing	
	R2- Signature Missing	
	R3- Input Error	
	<ul> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others.</li> </ul>	
	<ul> <li>R5 - Others.</li> <li>Select a Reject code and give a reject description.</li> </ul>	
	This reject reason will be available in the remarks window throughout the process.	
Refer	On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes:	
	R1- Documents missing	
	R2- Signature Missing	
	R3- Input Error	
	<ul><li>R4- Insufficient Balance/Limits</li><li>R5 - Others.</li></ul>	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	Cancel the Guarantee/ SBLC Claim update DE stage inputs.	
Save & Close	Save the information provided and holds the task in you queue for working later.	
	This option will not submit the request	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents.	
	Application will display the mandatory and optional documents.	
	The user can view and input/view application details simultaneously.	
	When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.	
View Undertaking	Clicking this button allows the user to view the undertaking details.	

### **Additional Fields**

This stage displays the additional fields based on the User defined fields maintained in the system.

#### **Action Buttons**

Field	Description	Sample Values
Reject	On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.	
	Reject Codes:	
	<ul> <li>R1- Documents missing</li> </ul>	
	R2- Signature Missing	
	R3- Input Error	
	<ul><li>R4- Insufficient Balance/Limits</li><li>R5 - Others.</li></ul>	
	Select a Reject code and give a reject description.	
	This reject reason will be available in the remarks window throughout the process.	
Refer	On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.	
	Refer Codes:	
	<ul> <li>R1- Documents missing</li> </ul>	
	R2- Signature Missing	
	R3- Input Error	
	<ul><li>R4- Insufficient Balance/Limits</li><li>R5 - Others.</li></ul>	
Hold	The details provided will be on hold.	
	This option is used, if there are any pending information yet to be received from applicant.	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later.	
	This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Field	Description	Sample Values
Documents	Click the Document icon to view the Documents already uploaded as part of Registration stage and also can upload additional documents.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.	
View Undertaking	Clicking this button allows the user to view the undertaking details.	

#### Advices

- FX Linkage User can view the FX Linkages.
- Charges User can view the details provided for charges. User can modify the details if required.
- Preview Message User can drill down to view the message preview, legal verification and customer draft confirmation details.
- Settlement Details User should be able to view the settlement details.
- Split Settlement Details User should be able to view the split settlement details.
- Accounting Entries User can see the accounting details.
- Compliance The compliance tile has the KYC, Sanctions and AML.

### **Action Buttons**

Field	Description	Sample Values
Reject	On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.	
	Reject Codes:	
	R1- Documents missing	
	R2- Signature Missing	
	R3- Input Error	
	<ul><li>R4- Insufficient Balance/Limits</li><li>R5 - Others.</li></ul>	
	Select a Reject code and give a reject description.	
	This reject reason will be available in the remarks window throughout the process.	
Refer	On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.	
	Refer Codes:	
	R1- Documents missing	
	R2- Signature Missing	
	<ul> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> </ul>	
	<ul> <li>R5 - Others.</li> </ul>	
Hold	The details provided will be on hold.	
	This option is used, if there are any pending information yet to be received from applicant.	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later.	
	This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Submit	On clicking Submit, system validates for all mandatory field values and the task should move to the next logical stage. If the user submits without visiting other mandatory steps, then error message is displayed and force the user to visit mandatory tabs/update mandatory fields.	

Field	Description	Sample Values
Documents	Click the Document icon to view the Documents already uploaded as part of Registration stage and also can upload additional documents.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.	
View Undertaking	Clicking this button allows the user to view the undertaking details.	

# **Multi Level Approval**

This stage allows the approver user to approve a Claim settlement under Guarantee Issued Transaction.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

#### **Re-Key Authorization**

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Applicant Name
- Beneficiary Name
- Undertaking Currency
- Undertaking Amount
- Expiry Date

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

Approval Rekey		×
	IN Documents	Remarks
Claim Amount		
	£25,000.00	0
