Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance Middle Office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Import Documentary Collection Return - Close

Import Documentary Collection Return - Close process facilitates the user to close the outstanding bills along with the returning of documents or without any documents, when no more payments are expected.

This section contains the following topics:

Common Initiation Stage	Data Enrichment
Registration	Reject Approval
Multi Level Approval	

Common Initiation Stage

The user can initiate the new import collection return close from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

The screenshot shows the Oracle OBTFPM 'Initiate Task' screen. The page title is 'Initiate Task'. The breadcrumb trail is 'Registration'. The main content area has three fields: 'Process Name' with a dropdown menu showing 'Import Documentary Collection ...', 'Documentary Collection Number' with a search input field, and 'Branch' with a dropdown menu showing '300-International Payments-Fast...'. There are 'Proceed' and 'Clear' buttons on the right. The left sidebar menu is visible, with 'Initiate Task' highlighted in red.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Documentary Collection Number	Select the Documentary Collection Number.
Branch	Select the branch.

Action Buttons

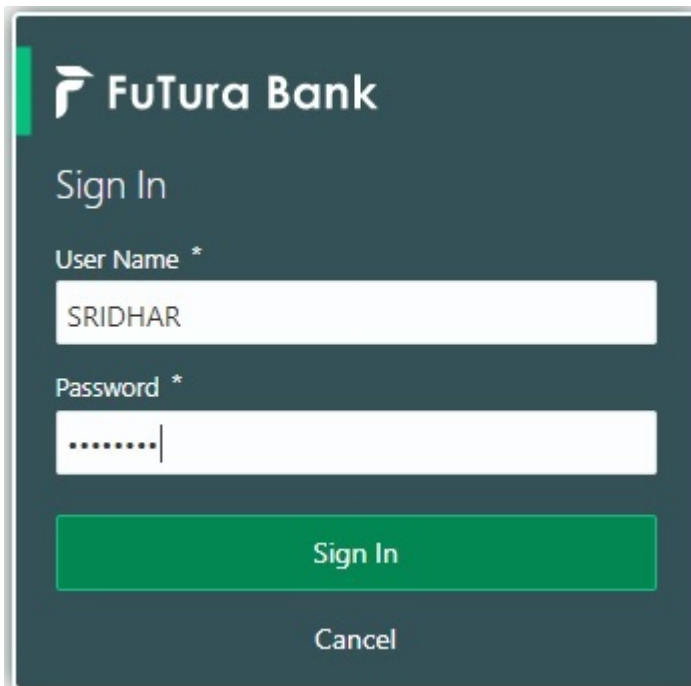

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

The process starts from Registration stage, during Registration stage, user can capture the basic details of the transaction and upload related documents. On submit, the request will be available for an collection expert to handle the request in the next stage.

1. Using the entitled login credentials for registration stage, login to the OBTFPM application.

The screenshot shows a dark-themed login interface for FuTura Bank. At the top left is the FuTura Bank logo. Below it, the text 'Sign In' is displayed. There are two input fields: 'User Name *' containing the text 'SRIDHAR' and 'Password *' containing masked characters. Below the input fields are two buttons: a green 'Sign In' button and a white 'Cancel' button.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user profile.

3. Click Trade Finance> Import - Documentary Collection> Import Documentary Collection Return - Close.

The registration stage has two sections Application Details and Collection Details. Let's look at the details of Registration screens below:

Application Details

Field	Description	Sample Values
Documentary Collection Number	Provide the Documentary Collection Number. Alternatively, user can search the Documentary Collection Number using LOV. In the LOV, user can search giving any combination details of Documentary Collection Number, Customer ID, Beneficiary, Currency, Amount and Value Date to fetch the collection details. Based on the search result, select the applicable documentary collection.	
Drawee	Read only field. Drawee ID and name will be auto-populated based on the selected Documentary Collection Number.	
Branch	Read only field. Branch details will be auto-populated based on the selected Documentary Collection Number.	203-Bank Futura -Branch FZ1
Priority	System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated any time before submit.	High
Submission Mode	Select the submission mode of Import Collection Liquidation request. By default the submission mode will have the value as 'Desk'. Desk - Request received through Desk Courier - Request received through Courier	Desk

Field	Description	Sample Values
Remitting Bank/Remitter	Read only field. Remitter bank will be auto-populated based on the selected Documentary Collection Number.	
Remitting Bank/Remitter Reference	Read only field. Remitting bank reference will be auto-populated based on the selected Documentary Collection Number.	
Process Reference Number	Unique OBTFPM task reference number for the transaction. This is auto generated by the system based on process name and branch code.	
Remitting Bank Date/ Remitting Date	Read only field. Remitter Name will be auto-populated based on the selected Documentary Collection Number.	
Return Date	By default, the application will display branch's current date.	04/13/2018
Version Number	This field displays the latest version of the bill.	

Collection Details

Registration user can provide collection details in this section. Alternately, details can be updated by Data Enrichment user.

Action Buttons

Field	Description	Sample Values
Submit	On submit, task will move to next logical stage of Import Documentary Collection Return - Close. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in 'My Task' queue for working later. This option will not submit the request.	
Cancel	Cancels the Import Documentary Collection Return - Close Task. Details entered will not be saved and the task will be removed.	
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	

Data Enrichment

On successful completion of Registration of an Import Documentary Collection Return - Close, the request moves to Data Enrichment stage. At this stage the gathered information during registration are scrutinized.

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user profile.

The screenshot shows the Oracle dashboard interface. The left sidebar contains navigation options: Core Maintenance, Dashboard, Maintenance, Security Management, Tasks, and Trade Finance. The main content area displays several widgets:

- High Value Transactions:** A bubble chart showing transaction values for GBP and EUR over a period of 12 days. The y-axis ranges from 0 to 120K.
- High Priority Tasks:** A table listing tasks with columns for Branch, Process Name, and Status.
- Priority Summary:** A table showing task details with columns for Branch, Process Name, and Status.
- Pending Exception Approval:** A table with a search filter and columns for Customer Name, Stage Name, Process Reference Number, Process Name, Branch Name, and Currency.
- SLA Status Summary:** A table with a search filter and columns for Branch, Process Name, and Status.

3. Click Trade Finance> Tasks> Free Tasks.

The screenshot shows the Oracle Free Tasks page. The left sidebar is the same as in the previous screenshot, with 'Free Tasks' highlighted in red. The main content area displays a table of tasks with the following columns: Action, Priority, Process Name, Process Reference Number, Application Number, Stage, Application Date, Branch, and Count. The table contains 10 rows of task data.

The Data Enrichment stage has the following hops for data capture:

- Main Details
- Return Details
- Draft Details
- Additional Fields
- Advices
- Settlement Details
- Additional Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following fields. Some of the fields that are already having value from registration application Details may not be editable.

Main Details

Main details section has two sub section as follows:

- Application Details

- Collection Details

Application Details

All fields displayed under Basic details section, would be read only except for the **Priority**. Refer to [Application Details](#) for more information of the fields.

The screenshot shows the Oracle application details form. The 'Application Details' section is highlighted with a red border. The fields in this section are:

Documentary Collection Number *	Drawee *	Branch	Priority
PK2IAN1190811501	001141 BARCLAYS BANK		Medium
Submission Mode	Remitting Bank/Remitter	Remitting Bank/Remitter Reference	Process Reference Number
Desk			PK2IDCR000058698
Remitting Bank Date/Remitting Date *	Return Date *	Version Number	
May 6, 2019	May 6, 2019	2	

Collection Details

The fields listed under this section are same as the fields listed under the [Collection Details](#) section in [Registration](#). Refer to [Collection Details](#) for more information of the fields. During Registration, if user has not captured input, then user can capture the details in this section.

The screenshot shows the Oracle application details form. The 'Collection Details' section is highlighted with a red border. The fields in this section are:

Documents Received	Tenor Type *	Product Code *	Product Description
First	Usance	IAN1	INCOMING USANCE CLEAN BILLS NOT
Operation Type *	Stage *	Co Acceptance Required	Contract Reference Number
ACC	FINAL	<input type="checkbox"/>	PK2IAN1190811501
Bill Amount *	Amount In Local Currency	Bill Outstanding Amount	Finance Amount
EUR €1,000.00	GBP £907.69	EUR €1,000.00	EUR
Protest Date	Acceptance Date	Drawer *	
		001162 METRO BANK	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
View Collection	Enables user to view the details of the collection.	
Save & Close	<p>Save the details provided and holds the task in 'My Task' queue for further update.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

Return Details

Return details hop enables the user to provide details in the below mentioned section to process the return.

Return Details

The user can check the relevant box indicating the documents that are being returned. The user can also input additional remarks/description about the documents being returned.

Field	Description	Sample Values
Protested Bill of Exchange	Check the protested bill of exchange check box, if returned. User can provide any remarks if required.	
Unaccepted Bill of Exchange	Check the unaccepted bill of exchange check box, if returned. User can provide any remarks if required.	
Other Documents	Check the other documents check box, if any other documents are returned. User can provide any remarks if required.	

Documents Disposal

The user can check the relevant box indicating the instructions received from the Remitting Bank towards disposal of documents. The user can also input additional remarks/description about the document disposal.

Field	Description	Sample Values
Documents Delivered to Drawee Free of Payment	Check the documents delivered to drawee free of payment check box, if returned. User can provide any remarks if required.	

Field	Description	Sample Values
Documents Returned to Remitting Bank	Check the documents returned to remitting bank check box, if returned. User can provide any remarks if required.	
Documents Handed over to 3rd Party	Check the documents handed over to 3rd party check box, if returned. User can provide any remarks if required.	

Draft Details

Draft Details enables the user to capture details of Cost of Goods, Freight, Insurance etc.

The screenshot shows the Oracle Draft Details interface. At the top, there is a navigation bar with the Oracle logo, 'My Tasks', and user information including '(DEFAULTTENITY)', '(PK2) May 6, 2019', and 'SRIDHAR02 subham@gmail.com'. Below this is a breadcrumb trail: 'Import Documentary Collection Return/Close - DataEnrichment :: Application No: PK2IDCR000056955'. The main content area is titled 'Draft Details' and includes a left-hand navigation menu with options like 'Main Details', 'Return Details', 'Draft Details', 'Additional Fields', 'Advices', 'Settlement Details', 'Additional Details', and 'Summary'. The 'Draft Details' section contains fields for 'Shipping Guarantee Reference', 'Transport Document Reference', and 'Transport Document Date'. Below these is a table with columns for 'Draft Code', 'Draft Amount', and 'Action'. The table has one row with 'Interest amount' in the 'Draft Code' column. At the bottom of the table, there is a pagination control showing 'Page 1 (1 of 1 items)'. At the very bottom of the interface, there is a row of buttons: 'Audit', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

Shipping Guarantee Reference

Field	Description	Sample Values
Shipping Guarantee Reference	Shipping Guarantee Reference is auto populated from the underlying Shipping Guarantee details, if the Transport Reference Number in the Collection document is same as the Transport Document reference in the Shipping Guarantee.	
Transport Document Reference	Transport Document Reference is auto populated from the underlying Shipping Guarantee details, if the Transport Reference Number in the Collection document is same as the Transport Document reference in the Shipping Guarantee.	
Transport Document Date	Transport Document Date is auto populated from the underlying Shipping Guarantee details, if the Transport Reference Number in the Collection document is same as the Transport Document reference in the Shipping Guarantee.	

Draft Details

Draft Code	Update the draft details. Alternatively, user can search the draft code using LOV.	
Draft Amount	Update the draft amount.	

Additional Fields

Banks can configure user defined fields as per their requirement in the Additional Fields Screen.

The screenshot shows the Oracle 'Additional Fields' screen. The top navigation bar includes the Oracle logo, 'My Tasks', user information for SRIDHAR02 (subham@gmail.com), and application details (PK2, May 6, 2019). The main content area displays 'Additional Fields' with a sub-header 'Additional Fields' and a message 'No Additional fields configured!'. The bottom of the screen features a row of action buttons: Audit, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

Advices

Advices menu displays the advices from the back office as tiles. User can update the fields in the tile for details to be captured in the advices.

The screenshot shows the Oracle Advices menu interface. The top navigation bar includes the Oracle logo, 'My Tasks', and user information for 'SRIDHAR01' (subhram@gmail.com) on 'Jan 1, 2014'. The main header displays 'Import Documentary Return - DataEnrichment :: Application No: 000IDCR000030521' and action buttons for 'Documents', 'Remarks', and 'View Collection'. A sidebar on the left lists menu items: Main Details, Return Details, Additional Fields, Advices (selected), Additional Details, Settlement Details, and Summary. The main content area, titled 'Advices', contains two tiles. The first tile, 'Advice : CLOSURE_ADVICE', shows details: Advice Name : CLOSURE_ADVICE, Advice Party : DRAWEE, Party Name : Mitsubishi Corporation, Suppress : N, and Advice. The second tile, 'Advice : PAYMENT_MESSAGE', shows details: Advice Name : PAYMENT_MESSAGE, Advice Party : , Party Name : , Suppress : N, and Advice. At the bottom, there is an 'Audit' button on the left and a row of action buttons: 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'. The page is identified as 'Screen (4 / 7)'.

Preferences

Select the preferences options based on the description in the following table:

Field	Description	Sample Values
Auto Liquidate	Read only field. Auto Liquidation enables liquidation of the bill on the due date automatically from the back office system.	
Advance by Loan	Read only field. Advance by Loan enables creation of loan at the time of Final liquidation.	
Allow Roll over	Read only field.	
Auto Change from Acceptance to Advance	Read only field. This flag indicates whether an Acceptance type of bill should be automatically converted into an Advance type of bill on its liquidation date. <div style="text-align: center;">  Note </div> This option is applicable only for the bills that are co-accepted by the bank.	

Cash Collateral Details

Select the cash collateral details options based on the description in the following table:

Cash collateral is applicable only for the bills which are co-accepted by the bank.

Field	Description	Sample Values
Liquidate using Collateral	Read only field.	

Field	Description	Sample Values
Outstanding Collateral Amount	Read only field. Auto Liquidation enables liquidation of the bill on the due date automatically from the back office system.	
Settlement Details - Liquidation		
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	
Debit/Credit	Application displays debit/ credit for the component.	
Account	Customer account.	
Account Description	Description of the account.	
Account Branch	Branch of the customer's account.	
Account Currency	Currency of the account.	

FX Linkage

This section enables the user to link the de-link one or more FX contract(s) linked to the bill.

De-link the FX contracts detail based on the description in the following table:

Field	Description	Sample Values
Bill Currency	Read only field. This field displays the currency details from the bill.	
Bill Amount	Read only field. This field displays the bill amount from the drawing.	

Field	Description	Sample Values
Maturity Date	System to display the due date for the bill in case of a Usance bill. In case of a sight bill, the system should display the current branch date as Maturity Date (for processing immediate payment).	
Bill Currency	Read only field. This field displays the currency details from the bill.	
Available Contract Amount	This field displays the unlinked/ available amount under the FX contract.	
Rate	This field displays the rate at which the contract is booked.	
Amount in Contract Currency	This field displays the amount in contract currency converted from FX currency.	
FX Expiry Date	This field displays the expiry date of the contract.	
FX Delivery Period From	This field displays the date from which the contract is valid for utilization.	
FX Delivery Period To	This field displays the date to which the contract is valid for utilization.	
FX Reference Number	This field displays the FX Reference Number of the FX contract.	
Currency	This field displays the currency of the FX contract.	
FX Amount	This field displays the amount of the FX contract.	
Linkage Amount	If FX contract is linked already for the underlying bill, system will display the amount linked.	
Average FX Rate	Average rate for more than one contract if linked.	

Loan Preference

This section enables the user to request for a loan to liquidate the bill. This section will be enabled based on the product code selected.

Provide the loan preference details based on the description in the following table:

Field	Description	Sample Values
Drawing/Collection Ref	Defaults from the underlying task. User cannot change the value.	
Bill Currency-Amount	Outstanding Drawing/ Collection Currency and Amount. Defaults from the underlying task. User cannot change the value.	
Customer ID	Read only field. This field displays the customer ID of the drawee.	
Customer Name	Read only field. This field displays the drawee name.	
Product Code	Read only field. This field displays the loan product code linked to the bill.	
Loan Currency-Amount	Select the currency and amount for the loan amount.	
Exchange Rate	This field will be enabled only if the Drawing currency and Loan Currency are different. If FX linkage is available, system to display the Exchange rate from FX linkage. System will display the card rate, if FX linkage is not applicable.	

Field	Description	Sample Values
Loan Tenor Units	Period of loan. System defaults the value. User can change the value. The numerical value for Days or months or Years is applicable.	
Tenor Type	System defaults the value. User can change the value. Values are Days, Months and Years. The numerical value for Days or months or Years is applicable.	
Loan/Finance Value Date	System defaults the branch date as Value date. User cannot change the value.	
Loan Maturity Date	System defaults the date based on the Loan value date and Loan tenor. User cannot change the value.	
Loan Interest/UDE Details		
User Defined Element ID	System populates the UDE Element ID as part of simulation. User are allowed to change the selection through LOV.	
UDE Description	System populates the UDE description as part of simulation. If a user changes the UDE ID, system should populate the description.	
Rate Code	System populates the Rate code as part of simulation.	
Usage	System populates the details as part of simulation.	
UDE Value	System populates the value as part of simulation.	
Limits		
Linkage Type	System defaults the linkage type as "Facility" from back office.	
Linkage Reference Number	System defaults the Linkage reference as part of simulation. User can change the value. Linkages available for the customer should be displayed for selection.	
Linked Percentage	User can enter the value. Maximum is 100. User cannot enter negative values.	
Limit Amount	System defaults the value. System should populate the value based on the contribution percentage.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
View Collection	Enables the user to view the latest collection values displayed in the respective fields.	
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	

Field	Description	Sample Values
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. 	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Settlement Details

Provide the settlement details based on the description in the following table:

The screenshot shows the Oracle Financials Settlement Details screen. The main table displays the following data:

Field	Description	Sample Values
Component	Read only field. Components gets defaulted based on the product selected.	
Currency	Read only field. Application displays the default currency for the component.	
Debit/Credit	Read only field. Application displays the debit/credit indicators for the components.	

Field	Description	Sample Values
Account	Read only field. Application Displays the account details for the components.	
Account Description	Read only field. Application displays the description of the selected account.	
Account Currency	Read only field. Application defaults the currency for all the items based on the account number.	
Netting Indicator	Read only field. Application displays the applicable netting indicator.	
Amount	Read only field. Amount for each component. This is populated from the transaction details of the drawing.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Read only field. This fields displays the transfer type from the drop list: <ul style="list-style-type: none"> • Customer Transfer • Bank Transfer for own account • Direct Debit Advice • Managers Check • Customer Transfer with Cover • Bank Transfer 	
Charge Details	Read only field. This field displays charge details for the transactions: <ul style="list-style-type: none"> • Beneficiary All Charges • Remitter Our Charges • Remitter All Charges 	

Field	Description	Sample Values
Netting Indicator	Read only field. This field displays netting indicator for the component: <ul style="list-style-type: none"> • Yes • No 	
Ordering Customer	Read only field. This field displays the ordering customer from the LOV.	
Ordering Institution	Read only field. This field displays the ordering institution from the LOV.	
Senders Correspondent	Read only field. This field displays the senders correspondent from the LOV.	
Receivers Correspondent	Read only field. This field displays the receivers correspondent from the LOV.	
Intermediary Institution	Read only field. This field displays the intermediary institution from the LOV.	
Account with Institution	Read only field. This field displays the account with institution from the LOV.	
Beneficiary Institution	Read only field. This field displays the beneficiary institution from the LOV.	
Ultimate Beneficiary	Read only field. This field displays the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Read only field. This field displays the intermediary reimbursement institution from the LOV.	

Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Read only field. This field displays the sender to receiver message.	

Field	Description	Sample Values
Sender to Receiver 2	Read only field. This field displays the sender to receiver message.	
Sender to Receiver 3	Read only field. This field displays the sender to receiver message.	
Sender to Receiver 4	Read only field. This field displays the sender to receiver message.	
Sender to Receiver 5	Read only field. This field displays the sender to receiver message.	
Sender to Receiver 6	Read only field. This field displays the sender to receiver message.	

Remittance Information

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Read only field. This field displays the payment details.	
Payment Detail 2	Read only field. This field displays the payment details.	
Payment Detail 3	Read only field. This field displays the payment details.	
Payment Detail 4	Read only field. This field displays the payment details.	

Summary

User can review the summary of details updated in Data Enrichment stage of Import Documentary Collection Return - Close request.

The tiles must display a list of important fields with values. User can drill down from summary Tiles into respective data segments.

Tiles Displayed in Summary

- Main Details - User can view details about application details and LC details.
- Return Details - User can view return details.
- Additional Fields - User can view the additional fields.
- Advices - User can view the advices.
- Party Details - User can view party details like applicant, advising bank etc.
- Documents - User can view the document details.
- Preview - User can view the preview message.
- Settlement Details - User can view the settlement details.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- FX Linkage - User can view the details of FX Linkage.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
View Collection	Enables the user to view the latest Collection values displayed in the respective fields.	

Field	Description	Sample Values
Submit	<p>Task will move to next logical stage of Import Documentary Collection Return - Close.</p> <p>If mandatory fields have not been captured, system will display an error message highlighting that the mandatory fields have to be updated. In case of duplicate documents' system will terminate the process after handing off the details to back office.</p>	
Save & Close	<p>Save the details provided and holds the task in 'My Task' queue for further update.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.</p>	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>

Multi Level Approval

Log in into OBTFPM application and acquire the task available in the approval stage in free task queue. Authorization User can acquire the task for approving.

Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Drawee Name
- Drawer Name
- Bill Currency
- Bill Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

The screenshot displays the 'Free Tasks' interface in the FuTura Bank system. A modal window titled 'Approval Rekey' is open, allowing for the re-keying of application details. The modal includes the following fields:

- Applicant Party:** 000262 (with a green checkmark)
- Application Date:** Feb 1, 2019 (with a green checkmark)

The background interface shows a table of tasks with the following columns: Action, Priority, Application Number, Process Name, Stage, and Back Office Ref No. The table contains several rows of task data, including 'Import LC Liquidation', 'Export LC Advising', and 'Import LC Amendment'.

Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others 	
Cancel	Cancel the approval.	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.</p>	

Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Import Documentary Collection Booking available in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The screen from which the reject was initiated can be seen highlighted in the tile view.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

Summary

The screen up to which data was captured before reject will be available for the user to view in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view details about application details and document under collection.
- Party Details - User can view party details like applicant, Remitting Bank etc.
- Document Details - User can view document details.
- Shipment Details - User can view shipment details.
- Charges - User can view charge details.
- Maturity Details - User can view the maturity details.
- Message Preview - User can view the preview of the simulating message to the remitting bank.

Action Buttons

Use action buttons based on the description in the following table: Provide the Application Details based

Field	Description	Sample Values
Reject Approve	On click of Reject Approve, the transaction is rejected.	
Reject Decline	On click of Reject Decline, the task moves back to the stage where it was rejected. User can update the reason for reject decline in remarks.	
Hold	User can put the transaction on 'Hold'. Task will remain in Pending state.	
Cancel	Cancel the Reject Approval.	

on the description in the following table:

Field	Description	Sample Values
Documentary Collection Number	Provide the Documentary Collection Number. Alternatively, user can search the Documentary Collection Number using LOV. In the LOV, user can search giving any combination details of Documentary Collection Number, Customer ID, Beneficiary, Currency, Amount and Value Date to fetch the collection details. Based on the search result, select the applicable documentary collection.	
Drawee	Read only field. Drawee ID and name will be auto-populated based on the selected Documentary Collection Number.	

Field	Description	Sample Values
Documentary Collection Number	Provide the Documentary Collection Number. Alternatively, user can search the Documentary Collection Number using LOV. In the LOV, user can search giving any combination details of Documentary Collection Number, Customer ID, Beneficiary, Currency, Amount and Value Date to fetch the collection details. Based on the search result, select the applicable documentary collection.	
Branch	Read only field. Branch details will be auto-populated based on the selected Documentary Collection Number.	203-Bank Futura -Branch FZ1
Priority	System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated any time before submit.	High
Submission Mode	Select the submission mode of Import Collection Liquidation request. By default the submission mode will have the value as 'Desk'. Desk- Request received through Desk Courier- Request received through Courier	Desk
Bill Currency and Amount	Read only field. Bill currency and amount will be auto-populated based on the selected Documentary Collection Number.	
Process Reference Number	Unique OBTFPM task reference number for the transaction. This is auto generated by the system based on process name and branch code.	
Return-Close Date	By default, the application will display branch's current date.	04/13/2018
Remitter Name	Read only field. Remitter Name will be auto-populated based on the selected Documentary Collection Number.	
Remitter Date	Read only field. Remitter Name will be auto-populated based on the selected Documentary Collection Number.	
Version Number	This field displays the latest version of the bill.
