Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process trade finance transaction.

Overview

OBTFPM is a Trade Finance Middle Office Platform, which enables Bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during Transaction handling /processing.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Shipping Guarantee Issuance

As a part of Shipping Guarantee Issuance, the applicant approaches a Bank and requests the bank to issue a Shipping Guarantee on their behalf to the Beneficiary (Shipping Company).

In the subsequent sections, let's look at the details for Shipping Guarantee Issuance process:

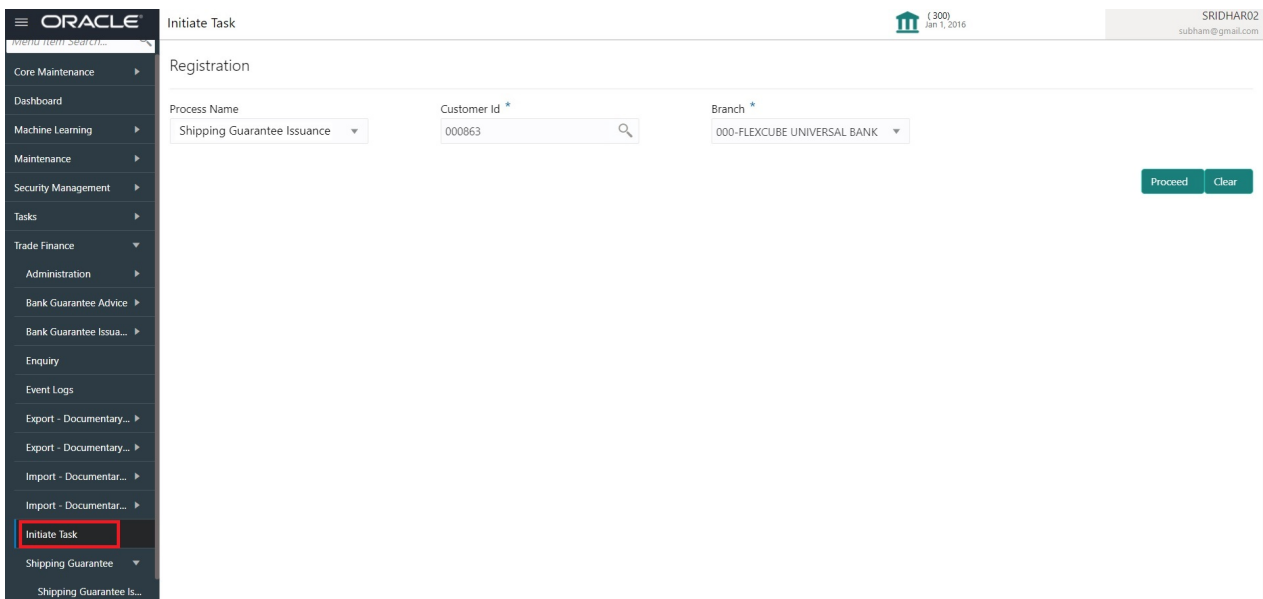

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Amount Block Exception Approval - Trade Finance Transactions
Amount Block Details	Multi Level Authorization

Common Initiation Stage

The user can initiate the new Shipping Guarantee request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Customer ID	Select the customer id of the applicant.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

The first stage of Shipping Guarantee Issuance process starts from the Registration Stage. The user can initiate Shipping Guarantee issuance from the Registration process.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

The screenshot shows a dark-themed login interface for FuTura Bank. At the top left is the FuTura Bank logo. Below it, the text 'Sign In' is displayed. There are two input fields: 'User Name *' containing the text 'SRIDHAR' and 'Password *' containing masked characters. Below the input fields are two buttons: a green 'Sign In' button and a white 'Cancel' button.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Shipping Guarantee > Shipping Guarantee Issuance.

The Registration stage has two sections Application Details and Shipping Guarantee Details. Let's look at the Registration screens below:

Application Details

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Issued Against	Select whether this Shipping Guarantee is issued against Documentary Credit or against a Documentary Collection from the drop-down. Drop down values are: <ul style="list-style-type: none"> • Documentary Credit • Documentary Collection 	
Documentary Credit Number	Select Documentary Credit Number from LOV or input the LC number. This field is enabled only if value in Issued Against field is Documentary Credit.	
Customer	Read only field - If the value in Issued Against field is Documentary Credit , the customer ID for the selected Documentary credit is populated in this field and user should not be able to change the value. If the value in Issued Against is Documentary Collection , the user can input the Customer ID or select the Customer ID from the LOV	
Branch	Read only field. System defaults branch details.	203-Bank Futura -Branch FZ1
Process Reference Number	Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	203GTEISS000 001134

Field	Description	Sample Values
Customer Reference Number	Read only field. Shipping Guarantee back office reference gets simulated and displayed.	
Priority	Priority maintained will be populated as either 'Low or Medium or High'. If priority is not maintained for a customer, 'Medium' priority will be defaulted.	Medium
Submission Mode	System defaults the mode from Registration stage.	Desk
Booking Date	System defaults the branch date. User cannot change the value. If the task gets approved on a later date, system will populate that date as the booking date.	04/13/2018

Shipping Guarantee Details

Registration user can provide Shipping Guarantee details in this section.

The screenshot displays the Oracle Shipping Guarantee Issuance application. The top navigation bar includes the Oracle logo, a dashboard link, and user information for SRIDHAR02. The main content area is divided into two sections: 'Application Details - Main' and 'Shipping Guarantee Details'. The 'Application Details - Main' section contains fields for Document Type (Documentary Credit), Issued Against (PK2ILSR191265503), Process Reference Number (PK2SGT1000057694), Booking Date (May 6, 2019), Documentary Credit Number (PK2ILSR191265503), Customer (GOODCARE PLC), Branch (PK2-FLEXCUBE UNIVERSAL BANK), Customer Reference Number, Priority (Medium), and Submission Mode (Desk). The 'Shipping Guarantee Details' section includes fields for Product Code, Amount in Local Currency (GBP), Mode of Transport, Product Description, Contract Reference Number, Cargo Arrival Details, Outstanding LC Amount (GBP, £11,000.00), SG/DO Beneficiary, SG/DO Amount (GBP), and SG/DO Expiry Date. The interface also features a top navigation bar with the Oracle logo, user information, and various action buttons like 'Documents', 'Remarks', 'View LC', 'Events', 'Hold', 'Cancel', 'Save & Close', and 'Submit'.

Provide the details based on the description in the following table:

Field	Description	Sample Values
Product Code	<p>Select the applicable Shipping Guarantee product code.</p> <p>Click the look up icon to search the product code with code or product description.</p>  <p>You can also enter the product code and on tab out system will validate and populate the selected product description. The product codes will be listed based on the selected value in Form of Undertaking.</p>	GUIS
Product Description	Auto populated by the application based on the selected Product Code.	Shipping Guarantee
Outstanding LC Amount	Read only field. System defaults the outstanding amount if any.	
SG/DO Amount	User can enter the amount for which the shipping guarantee has to be issued.	
Amount In Local Currency	System fetches the local currency equivalent value for the LC amount from back office (with decimal places).	
Contract Reference Number	Read only field. Auto-generated by back end application. Shipping guarantee back office reference gets simulated and displayed.	203GUIS18103 ALP5
SG/DO Beneficiary	User can search and select the Shipping Guarantee beneficiary details from LOV.	
SG/DO Expiry Date	Provide the expiry date of the Shipping Guarantee Issuance.	09/30/18
Mode of Transport	User can select the mode of shipment from the drop-down. The values are: <ul style="list-style-type: none"> Sea Air 	
Cargo Arrival Details	User can capture the cargo arrival details.	

Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents. Application will display the mandatory and optional documents.	
Remarks	Provide any additional information regarding the Shipping Guarantee. This information can be viewed by other users processing the request.	
View LC	User can view the latest LC details.	
Events	User can view all the previous events under the LC.	

Action Buttons

Submit	On Submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Shipping Guarantee Issuance. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Shipping Guarantee Issuance Registration stage input.	

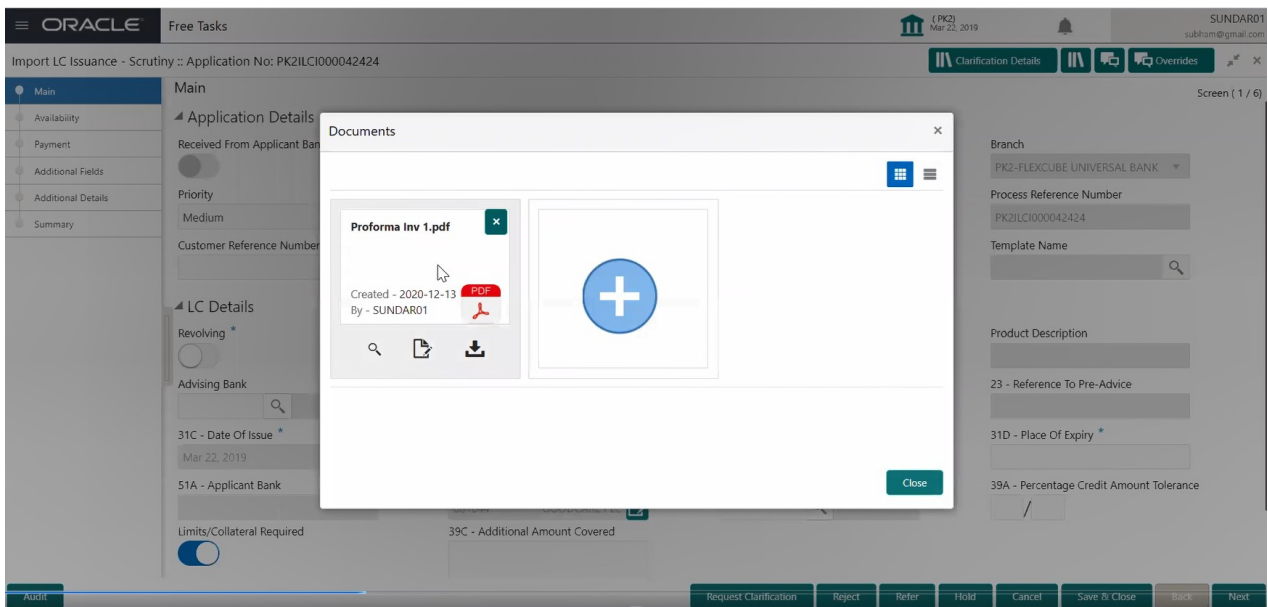

Field	Description	Sample Values
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Checklist	Make sure that the details in the checklist are completed. If mandatory checklist items are not marked, system will display an error on submit.	

OBTFPM- OBDX Bidirectional flow

As a part of Digital Experience, customers can initiate Trade Finance Transactions from online channels and the respective task will be available in OBTFPM for further handling.

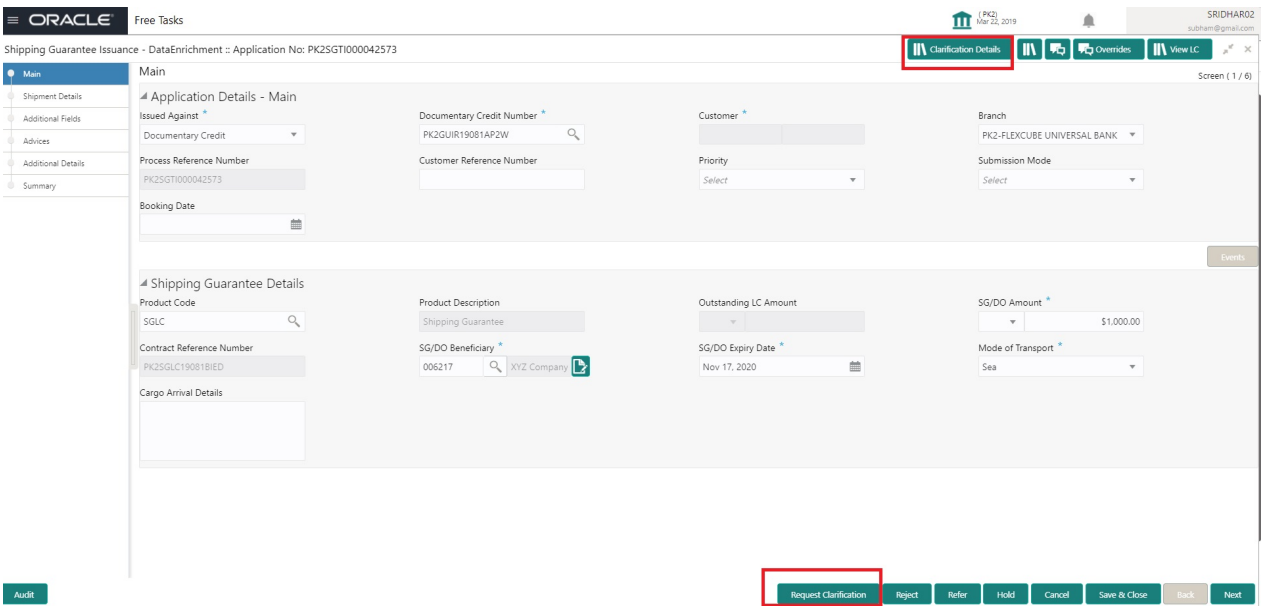

OBTFPM user, for task received from online channel, raise clarification and receive response from the customer.

1. Customer initiates the Trade Finance transaction in Online channel (OBDX) and upload the necessary documents.

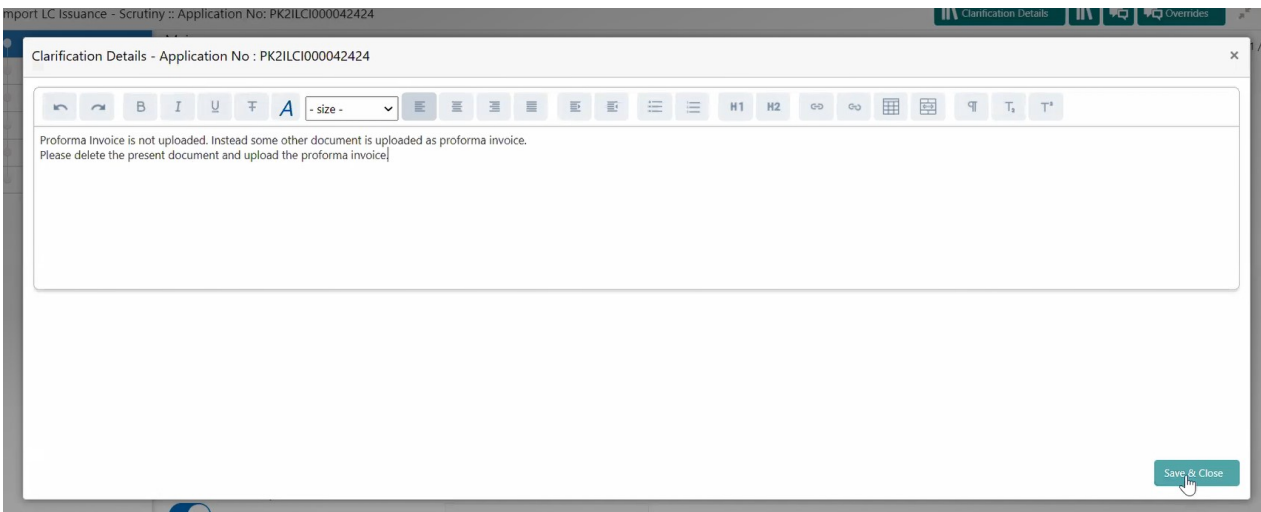

2. The task created will land in the Scrutiny stage of OBTFPM for handling by Trade expert for reviewing and identifying mismatch/incomplete data.

3. In the Scrutiny, Data Enrichment or Approval the bank user may require clarification from customer, OBTFPM user clicks **Request Clarification** button to request for online clarification from customer.

4. The **Request Clarification** detailed screen appears, user enters the information and clicks **Save**, the information should be sent to customer.

5. OBTFPM user should be able to see the details in the View Clarification window and the status will be Clarification Requested. The user can click Re clarification if required.

6. The task goes to **Awaiting Customer Clarification** state until the response received from the customer.

Action	Priority	Process Name	Process Reference Number	Application Number	Stage	Application Date	Branch	Customer Number	Amount
<input checked="" type="checkbox"/> Edit	M	Shipping Guarantee Iss...	PK2ILCA000042586	PK2ILCA000042586	Scrutiny	20-12-16	PK2	006466	

7. Click **Edit**.

Clarification	Raised By	Clarification Date	Response	Response Date	Response Type	Status
<input type="checkbox"/> Proforma Invoice is not uploaded. Instead some other document is	SUNDAR01	2019-03-21T18:31				Clarification Requested

8. The user can click **Accept Clarification** button, if the query raised has been answered by the customer. The status should change to Clarification Accepted. on next the task moves to the next logical stage.

9. Bank user checks the Clarification and opens the **Documents** Tab. System displays both the new document uploaded and the metadata for deleted document and the deleted document is displayed in

a blurred way. User can open the new document, the deleted document cannot be opened. System should also increment the version number of the documents.

Data Enrichment

On successful completion of Registration of a Shipping Guarantee Issuance request, the request moves to Data Enrichment stage. At this stage the bank user would be able to update fields, check the limits and other legal and financial risks the bank is exposed to and either approve or reject or refer the transaction to the customer for changes. The user should also be able to input transaction details.

Requests that are created online (Trade Portal) the task will be created in DE stage directly and the fields will be populated based on the incoming request. Submission mode for online requests will be "Online".

Do the following steps to acquire a task currently at Data Enrichment stage:

1. Using the entitled login credentials for scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets mapped to the user.

The screenshot shows the FuTura Bank Dashboard. The left sidebar contains navigation options: Core Maintenance, Dashboard, Maintenance, Tasks, and Trade Finance. The main dashboard area is titled 'Dashboard' and includes the following widgets:

- Draft Confirmation Pending:** A table with columns 'Customer Name' and 'Application Date'. Data rows include EMR & CO (25-06-2018), NA (25-06-2018), and NA (21-06-2018).
- Hand-off Failure:** A table with columns 'Branch', 'Process Name', and 'Stage Name'. Data row: Bank Futura, NA, Retry HandOf.
- Priority Details:** A table with columns 'Branch', 'Process Name', and 'Stage Name'. Data rows include Bank Futura (NA, Amount Blo), Bank Futura (NA, Amount Blo), and 004 (NA, Loan Applic).
- High Value Transactions:** A bubble chart showing transaction values on the y-axis (ranging from -20K to 140K) and categories on the x-axis (ranging from -2 to 12). A legend indicates 'GBP'.
- SLA Breach Details:** A table with columns 'Customer Name', 'SLA Breached(mins)', and 'Priority'. Data rows include NA (23474, H, KEERTIVO1), HSBC BANK (26667, M, SHUBHAM), WALL MART (23495, SHUBHAM), and EMR & CO (26780, M, GOPINATH01).
- Priority Summary:** A table with columns 'Branch', 'Process Name', and 'Stage Name'. Data row: 203, Cucumber Testing, test descrip.
- Hold Transactions:** A table with columns 'Branch', 'Process Name', and 'Stage Name'.
- SLA Status:** A dropdown menu currently set to 'Cucumber Testing'.
- Tasks Detailed:** A dropdown menu currently set to 'Cucumber Testing'.

3. Click Trade Finance> Tasks> Free Tasks.

The screenshot shows the Oracle 'Free Tasks' page. The left sidebar contains navigation options: tasks, Completed Tasks, Free Tasks (highlighted), Hold Tasks, My Tasks, Search, Supervisor Tasks, Trade Finance, Administration, Bank Guarantee Advise, Bank Guarantee Issua..., Enquiry, Export - Documentar..., Import - Documentar..., Initiate Task, Shipping Guarantee, Shipping Guarantee Is..., and Swift Processing. The main content area is titled 'Free Tasks' and includes the following elements:

- Buttons: Refresh, Acquire, Assign, Flow Diagram.
- Table with columns: Action, Priority, Process Name, Process Reference Number, Application Number, Stage, Application Date, Branch, Customer Num.
- Table content (partial):

The Data Enrichment stage has three sections as follows:

- Main Details
- Shipment Details
- Additional Fields
- Advices
- Additional Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following fields. Some of the fields that are already having value from Registration/online channels may not be editable.

Main Details

Main details section has three sub section as follows:

- Application Details
- Guarantee Details

Application Details

All fields displayed under Application details section, would be read only except for the **Priority** and **Customer Reference Number**. Applications from Online channels will be directly available in the Data Enrichment stage and the fields will be populated with the details from incoming request.

Refer to [Application Details](#) for more information of the fields.

The screenshot shows the Oracle Shipping Guarantee Issuance - DataEnrichment interface. The top navigation bar includes the Oracle logo, 'Free Tasks', and user information for SRIDHAR02. The main content area is titled 'Shipping Guarantee Issuance - DataEnrichment :: Application No: PK2SGTI000057694'. A sidebar on the left contains navigation options: Main, Shipment Details, Additional Fields, Advices, Additional Details, and Summary. The 'Main' section is expanded, showing 'Application Details - Main' with a red border. This section contains the following fields:

- Issued Against: Documentary Credit
- Documentary Credit Number: PK2ILSR191265503
- Customer: 001044 GOODCARE PLC
- Branch: PK2-FLEXCUBE UNIVERSAL BANK
- Process Reference Number: PK2SGTI000057694
- Customer Reference Number: (empty)
- Priority: Medium
- Submission Mode: Desk
- Booking Date: May 6, 2019

Below this section is the 'Shipping Guarantee Details' section, which is not highlighted. It includes fields for Product Code, Product Description, Outstanding LC Amount (GBP £11,000.00), SG/DO Amount (GBP £10,000.00), Amount In Local Currency (GBP £10,000.00), Contract Reference Number, SG/DO Beneficiary, SG/DO Expiry Date (Aug 31, 2019), Mode of Transport (Sea), and Cargo Arrival Details. At the bottom of the interface are buttons for Audit, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

Shipping Guarantee Details

The fields listed under this section are same as the fields listed under the [Shipping Guarantee Details](#) section in [Registration](#). Refer to [Shipping Guarantee Details](#) for more information of the fields. During Registration, if user has not captured values, then user can capture the details in this section.

This screenshot is identical to the one above, showing the Oracle Shipping Guarantee Issuance - DataEnrichment interface. However, the 'Shipping Guarantee Details' section is highlighted with a red border. This section contains the following fields:

- Product Code: (empty)
- Product Description: (empty)
- Outstanding LC Amount: GBP £11,000.00
- SG/DO Amount: GBP £10,000.00
- Amount In Local Currency: GBP £10,000.00
- Contract Reference Number: (empty)
- SG/DO Beneficiary: (empty)

The rest of the interface, including the navigation bar, sidebar, and bottom buttons, remains the same as in the previous screenshot.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>Application displays mandatory documents to be uploaded for amendment. Place holders are also available to upload additional documents submitted by the applicant.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.</p>	
Overrides	<p>Click to view the overrides accepted by the user.</p>	
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>User can reject the task and has to enter the Reject Reason and the task may get terminated or moved to Reject Approval Stage</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User can refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 – Others 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	

Field	Description	Sample Values
Cancel	Cancel the Guarantee Issuance scrutiny stage inputs.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Shipping Details

Provide the shipping details based on the description in the following table:

Field	Description	Sample Values
Date of Shipment	Select the shipment date. If the shipment date is a future date, system should display an Error message.	
Port of Loading	Enter the port of loading details.	
Port of Discharge	Enter the port of discharge details.	
Carrier Name	Enter the carrier details.	
Bill of Landing/ AWB No.	Enter the Bill of Lading no. or Airway Bill number.	
Shipment Marks	Enter the Shipment marks and number.	
Shipping Agent	Enter the Shipping Agent details.	
Goods Details		
Goods Code	Against LC – System defaults the License Details as per LC details Against BC - User to select the License Details as per the documents	
Goods Type	System defaults the goods type as per the selected goods code.	
Goods Description	Against LC – System defaults the Goods Description as per LC Details Against BC - User to capture the Goods Description as per the documents	
No. of Units	Enter the goods quantity as per the documents.	

Field	Description	Sample Values
Price Per Unit	Enter the unit price as per the documents.	
Total Amount	Enter the Goods total amount as per the documents.	
Action	Click Edit to edit the goods details. Click Delete to delete the goods record.	
Shipping Guarantee Details		
Shipping Guarantee Text	Enter the Shipping Guarantee text.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view the overrides accepted by the user.	
Reject	On click of Reject, user must select a reject reason from a list displayed by the system. User can reject the task and has to enter the Reject Reason and the task may get terminated or moved to Reject Approval Stage This reject reason will be available in the remarks window throughout the process.	
Refer	User can refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 – Others 	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant.	

Field	Description	Sample Values
Cancel	Cancel the Guarantee Issuance scrutiny stage inputs.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Back	On click Back , user navigates to previous step.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Additional Fields

Based on the User defined fields maintained system defaults the UDF maintained.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view the overrides accepted by the user.	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>User can reject the task and has to enter the Reject Reason and the task may get terminated or moved to Reject Approval Stage</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User can refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 – Others 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>Cancel the Guarantee Issuance scrutiny stage inputs.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request</p>	
Back	<p>On click Back, user navigates to previous step.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

Advices

Based on the Advices maintained at the Product level, system should default the advices.

The screenshot shows the Oracle Shipping Guarantee Issuance interface. The top navigation bar includes the Oracle logo, 'My Tasks', and user information for ZARIABUT. The main content area is titled 'Shipping Guarantee Issuance - DataEnrichment :: Application No: 0005GT000037386'. A left sidebar contains navigation options: Main, Shipment Details, Additional Fields, Advices (selected), Additional Details, and Summary. The 'Advices' section displays five advice cards, each with a download icon:

- Advice : LC_CASH_COL_ADV**
Advice Name : LC_CASH_COL_ADV

Amount Block Exception Approval - Trade Finance Transactions

As a part of Amount Block Exception, the user has to review the amount block exception for Trade Finance requests that failed to create Amount Block in backend system.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

In Amount block, system checks whether the sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Application Details

Refer to [Application Details](#). The fields are read only.

Summary

Tiles Displayed in Summary:

- Main Details - User can view about the application details and guarantee issuance details.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required.
- Limits and Collaterals - User can view the captured details of limits and collaterals.

Block Status Detail	Failed Reason (This field will have value only if amount block is failed).	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	Cancel the Guarantee Issuance approval.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.	

Multi Level Authorization

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Authorization Re-Key

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction

screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Applicant Name
- Beneficiary Name
- Undertaking Currency
- Undertaking
- Amount
- Expiry Date

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.
