Introduction

About this Guide

This guide helps you to get familiarize with the Maintenance module in Oracle Banking Credit Facilities Process Management (OBCFPM) for managing the parameters used in business processes, such as Credit Proposal, Credit Amendment, and Facility Review.

Intended Audience

This document is intended for the bank users responsible for maintaining the following parameters in OBCFPM:

- Business Process
- Financial Category
- Financial Code
- Financial Document Template
- Financial Ratio Benchmark
- Questionnaire Details
- Questionnaire Process Linkage
- Facility Template
- Write-up Category
- Terms & Conditions

List of Topics

The following table lists the topics that are covered in this document:

Topics	Description
Business Process	Provides information on maintaining the business processes such as Credit Proposal and Credit Amendment
Financial Category	Provides information on maintaining the financial category for financial code and financial document template maintenance
Financial Code	Provides information on maintaining the financial code for financial document template maintenance
Financial Document Template	Provides information on maintaining the template for financial documents to be uploaded
Questionnaire Details	Provides information on maintaining the questionnaire for evaluation / analysis in business processes
Questionnaire Process Linkage	Provides information on linking the questionnaire with a business process
Facility Template	Provides information on maintaining the facility template for facility creation

Topics	Description
Write-up Category	Provides information on maintaining write-up category for write-up data segment in the business processes
Terms & Conditions	Provides information on maintaining the terms & conditions for linking with customer or other entities

Business Process

The 'Business Process' sub-menu under 'Maintenance' menu allows to customize all the business processes, such as Policy Definition, Credit Proposal, Credit Amendment, and Facility Closure, available in OBCFPM. You can choose to display / hide a particular data segment and field for any process through this maintenance, according to your business need.

Create Business Process

The **Create Business Process** page provides an option to select and customize the business processes maintained in 'Common Core Maintenance' module.

Steps to create business process:

1. Navigate to Credit Facilities > Maintenance > Business Process > Create Business Process.

Create Business Process				$\mu^{k'} \to$
Process Code *	Process Description	Business Process Code $*$	Business Process Description $*$	
Process Full View				

Field	Description
Process Code	Click the search icon and select the required process code. Process codes maintained in the 'Common Core Maintenance' module are displayed in the LOV.
Process Description	Description provided for the process code in Process Code Maintenance screen gets defaulted.
Business Process Code	Type a unique code for the business process to be created.
Business Process Description	Type brief description for the business process to be created.

2. Provide the process details based on description in the following table.

		• • • • •		
Upon clicking the	search icon in Proces	s Code field.	the following	window is displayed.

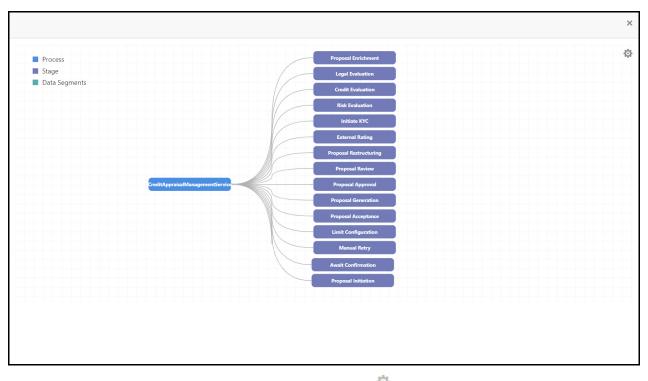

Process Code		×
Process Code [Description	
Fetch		
Process Code	Description	
FIAM	FI Amendment Process	
COIN	Collateral Insurance Process	
COPS	CollateralPerfectionService	
CLIQ	CollateralLiquidationService	
CBID	CollateralBiddingService	
РУОВ	Party Onboarding	
CAMS	CreditAppraisalManagementService	
CFAM	AmendmentService	
Page 1 of 4 (1 - 10 of 32 it	ems) K < 1 2 3 4 > λ	

- 3. Click **Fetch**. The process codes maintained in the 'Common Core Maintenance' module gets populated.
- 4. Click on the required **Process Code**. **Process Code** and **Process Description** fields in the **Create Business Process** screen gets updated with the selected code details, and the following screen is displayed.

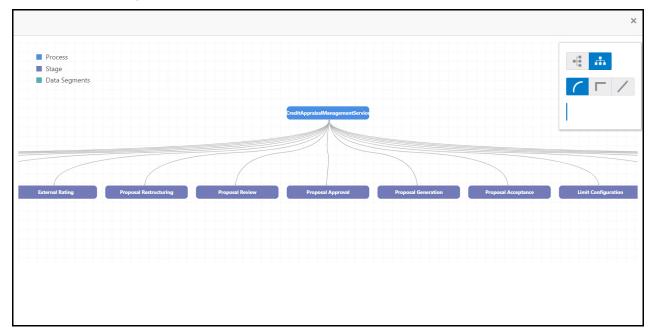

Create Business Process				$_{\mu^{k'}}$ \times
CAMS	Proposal Initiation			
	Data Segments	Documents	Checklist	Advices
🖷 Process View 🛛 🗹 E	edit +			
Stages				
Proposal Initiation

Legal Evaluation	0			
Credit Evaluation				
Risk Evaluation				
Initiate KYC				
External Rating				
Proposal Restructuring				
Proposal Review				
Proposal Approval	0			
Proposal Generation	0			
Proposal Acceptance	0			
				Save Cancel

5. To view the business process diagram, click the **Process View** icon. The process flow diagram is displayed as shown below.

6. To change the layout of the process flow diagram, click ⁽²⁾ the settings icon at the top right corner and select the required layout. The layout is changed based on the selected layout options. Sample screenshot is provided below for reference.

7. To exit the layout window, click the close icon at the top right corner.

In the **Create Business Process** page, stages maintained for the selected process in 'Common Core Maintenance' module are displayed in the left pane. You cannot add / remove the stages in OBCFPM.

Data Segments

1. To add data segments for a stage, select the required stage from left pane and click the add icon in the **Data Segment** tab. The following window is displayed.

	×
Data segment name	
Fetch	
Data segment name	
Riskevaluationhistory	
Initiation	
Valuation	
Collateral Insurance	
Collateral Ownership	
Party Approval	
Account Creation	
Basic Info	
Page 1 of 15 (1 - 10 of 148 items) K < 1 2 3 4 5 15 > \times	

2. Click **Fetch** and select the required data segment. The data segment is added in the **Data Segment** tab as shown below.

Create Business Process				, ²⁶ ×
CAMS Proposal initiation for Processivements C Edit		Documents	Checklist	Advices
Stages	1 Basic Info 🚦 🥥			
Proposal Initiation				
Proposal Enrichment	Mandatory Editable ScreenClass Description			
Legal Evaluation				
Credit Evaluation				
Risk Evaluation				
Initiate KYC				
External Rating				
Proposal Restructuring				
Proposal Review				

3. To add another data segment, perform the above two steps again.

By default, the system arranges the data segments in order in which they are added. You can rearrange the data segments by dragging and dropping them at the desired position.

4. To set the data segment as mandatory in the business process, enable the **Mandatory** flag.

The data segments added in the **Data Segment** tab can be configured as editable or non-editable. By default, the **Editable** flag is enabled for all the data segments. If you want the data segment to appear as display only page in the business process, disable the **Editable** flag.

5. Enable the **ScreenClass Description** flag, if the data segment can be combined with other data segment.

The Hamburger icon in the added data segment widget has the following options:

- Field Configuration
- Remove

Field Configuration

You can use this option to display / hide a particular field in any of the data segments.

-	Field configuration	Controls Settings
🔺 🕛 ோ Amendment overview	✓ Add Covenants Allowed	✓ Add Covenants Allowed
🔺 🕘 🗐 Entity summary	Edit Covenants Allowed	Edit Covenants Allowed
1 Pending Applications	✓ Link-To Facilities Allowed	✓ Link-To Facilities Allowe
	Delete Covenants Allowed	Delete Covenants Allow
4 🚺 💷 Entity Wrapper	✓ Allow filter by Request Type (for eg: New/Modified)	Facility Linkage Require
🔺 🕕 💷 Entity Modules		
🔺 🕕 🗐 Entity Modules		
🔺 🜗 🗐 Customer Demographic		
() 🗐 Additional Information		
I I Covenants		
😗 🗐 Covenant overview		
🕕 🗐 Facility T&C list		

- 1. Select the required component from the left pane. Fields related to the component are displayed.
- 2. Enable / disable the required check boxes and click Save.

Remove

This option allows you to remove the added data segment. If you do not require a particular data segment in the stage, click the hamburger icon and select **Remove** option. The data segment will be removed from the **Data Segment** tab.

Documents

This tab allows to configure the documents list that appears in the Link Document / Upload Document window throughout the business process.

Search Reset				

- 4. Specify / select value any or all of the following filter parameters:
 - Business Process Code
 - Process Code
 - Authorization Status
 - Record Status
- 5. Click Search. Records matching the filter criteria are displayed.

In the View Business Process page:

- 6. Click the refresh icon to refresh the business process record list.
- 7. Click the add icon to define new business process.

Steps to modify business process

In the View Business Process page:

- 1. Click on the required business process record. The Business Process Definition page appears.
- 2. Click **Unlock** to go to the edit mode.
- 3. Modify the required field values.
- 4. Click Save. Business process will be modified upon authorization.

Close Business Process

You can close the business processes that are no longer required for your business operations.

Note: Authorization is required for closing the business process.

Steps to close business process

In the View Business Process page:

- 1. Click the open icon in the required business process record. The **Business Process Definition** page appears.
- 2. Click Close. The business process will be closed upon authorization.

Reopen Business Process

You can reopen the closed business process when it is required for your business operations again.

Note: Authorization is required for reopening the closed business process.

Steps to open business process

In the View Business Process page:

- 1. Click the close icon in the required business process record. The **Business Process Definition** page appears.
- 2. Click Save. The business process will be reopened upon authorization.

Approve Business Process

All the business processes created in the 'Maintenance' module must be approved by the authorized person. Unauthorized Business Process will not be listed in the left navigation menu in OBCFPM.

Steps to approve business process

In the View Business Process page:

1. Click and open the unauthorized business process record. The **Business Process Definition** page appears.

Financial Category

The 'Financial Category' sub-menu under 'Maintenance' menu allows you to manage (create, edit, close, reopen, and approve) the financial categories in OBCFPM. Financial categories are the top most components in the financial document. For example, following are the three major financial categories in balance sheet:

- Assets
- Liabilities
- Ownership Equity

Create Financial Category

The **Create Financial Category** page provides an option to define financial categories available in the financial documents in OBCFPM.

Steps to create financial category:

1. Navigate to Credit Facilities > Maintenance > Financial Category > Create Financial Category.

Create Financial Categ	Jory						$\times \gamma_{n}$
New							
Category Code	Asset	Par	rent Category	AST	0

- 5. Click **Search**. The financial category records that match the search parameters are displayed.
- In the View Financial Category page:
- 1. Click the refresh icon to refresh the financial category records list.
- 2. Click the add icon to define new financial category.

Steps to modify financial category

In the View Financial Category page:

- 1. Click the required financial category record. The Financial Category Maintenance page appears.
- 2. Click **Unlock** to go to the edit mode.
- 3. Modify the required field values.
- 4. Click **Save**. The financial category will be modified upon authorization.

Close Financial Category

You can close the financial category that are no longer required for financial code maintenance.

Note: Authorization is required for closing the financial category.

Steps to close financial category

In the View Financial Category page:

- 1. Click the open icon in the required financial category record. The **Financial Category Maintenance** page appears.
- 2. Click Close. The financial category will be closed upon authorization.

Reopen Financial Category

You can reopen the closed financial category when you require the category for financial code maintenance again.

Note: Authorization is required for reopening the closed financial category.

Steps to open financial category

In the View Financial Category page:

- 1. Click the close icon in the required financial category record. The **Financial Category Maintenance** page appears.
- 2. Click **Save**. The financial category will be reopened upon authorization.

Approve Financial Category

All the maintenance activities of financial categories must be approved by the authorized person. Unauthorized financial category will not be listed in the financial code maintenance page.

Steps to approve financial category

Search					

4. Select the status of financial document template based on description in the following table.

Field	Description	Sample Value
Auth Status	Select the authorization status of the financial document template. The options available are Authorized and Unauthorized .	Refer screenshot
Record Status	Select the record status of the financial document template. The options available are Open and Closed .	Refer screenshot

5. Click **Search**. The financial document templates that match the search parameters are displayed.

In the View Financial Document Template page:

- 6. Click the refresh icon to refresh the template record list.
- 7. Click the add icon to define new template.

Steps to modify financial document template

In the View Financial Document Template page:

- 1. Click on the required financial document template record. The **Create Financial Document Template** page appears.
- 2. Click **Unlock** to go to the edit mode.
- 3. Modify the required field values.
- 4. Click **Save**. The financial document template will be modified upon authorization.

Close Financial Document Template

You can close any financial document template created for the sector, industry, and sub-industry combination, if required.

Note: Authorization is required for closing the financial document template.

Steps to close financial document template

In the View Financial Document Template page:

- 1. Click the open icon in the required financial document template record. The **Create Financial Document Template** page appears.
- 2. Click **Close**. The template will be closed upon authorization.

Reopen Financial Document Template

You can reopen the closed financial document template created for the sector, industry, and sub-industry combination, if required.

Note: Authorization is required for reopening the closed financial document template.

Steps to open financial document template

In the View Financial Document Template page:

- 1. Click the close icon in the required template record. The **Create Financial Document Template** page appears.
- 2. Click Save. The template will be reopened upon authorization.

Approve Financial Document Template

All the maintenance activities of financial document templates created for the sector, industry and subindustry combination must be approved by the authorized person.

Steps to approve financial document template

In the View Financial Document Template page:

- 1. Click and open the unauthorized financial document template record. The **Create Financial Document Template** page appears.
- 2. Click Authorize. The Approval page appears.
- 3. Click **Approve**. The confirmation dialogue box appears.
