# 1. Configuring Firefox (Latest Qualified Version)

This section contains the configurations for Firefox.

For details on latest version of the software qualified with Oracle Banking Treasury Management, refer to the release certificate.

#### 1.1 Clearing the Cache

To clear the browser cache, follow the steps given below:

 Start Firefox. Go to Tools > Options >Privacy > Clear your Recent History. The following dialogue box is displayed:

| Clear All History  |           |        |
|--|-----------|--------|
| Time range to clear: Everything                                      |           | •      |
| All selected items will be cleared.<br>This action cannot be undone. |           |        |
| ▲ D <u>e</u> tails   |           |        |
| Browsing & Download History  |           |        |
| Form & Search History  |           |        |
| ☑ Cookies  |           |        |
| ✓ Cache  |           |        |
| Active Logins  |           |        |
| Offline Website Data   |           |        |
| Site Preferences   |           |        |
|  | Clear Now | Cancel |

2. Against 'Time range to clear', choose 'Everything'. Click 'Clear Now' button.

#### 1.2 Suppressing Caching

To suppress caching, you need to follow the steps below:

1. Start Firefox. Go to Tools > Options. Select 'Privacy' tab.

| Firefox about:preferen |   | V C Search        | ☆自 | ÷ | * 5 | ≡ |
|------------------------|---|-------------------|----|---|-----|---|
| D General              | Privacy   | ٢                 |    |   |     |   |
| <b>Q</b> Search        |   |                   |    |   |     |   |
| Content                | Tracking  |                   |    |   |     |   |
| Applications           | ✓ Use Tracking Protection in Private Windows Learn more | Change Block List |    |   |     |   |
| 🗢 Privacy              | You can also manage your Do Not Track settings.         |                   |    |   |     |   |
| Security               | History   |                   |    |   |     |   |
| 💭 Sync                 | Firefox will: Use custom settings for history           |                   |    |   |     |   |
| -                      | ✓ Always use private browsing mode                      |                   |    |   |     |   |
| o Advanced             | Remember my browsing and download history               |                   |    |   |     |   |
|                        | Remember search and <u>f</u> orm history                |                   |    |   |     |   |
|                        | Accept cookies from sites                               | Exceptions        |    |   |     |   |
|                        | Accept third-party cookies: Never                       |                   |    |   |     |   |
|                        | Keep until: I close Firefox 🔻                           | Show Cookies      |    |   |     |   |
|                        | Clear history when Firefox closes                       | Se <u>t</u> tings |    |   |     |   |
|                        | Location Bar  |                   |    |   |     |   |
|                        | When using the location bar, suggest:                   |                   |    |   |     |   |
|                        | ✓ <u>H</u> istory                                       |                   |    |   |     |   |
|                        | ✓ Boo <u>k</u> marks                                    |                   |    |   |     |   |
|                        | ✓ Open tabs   |                   |    |   |     |   |
|                        | Change preferences for search engine suggestions        |                   |    |   |     |   |
|                        |   |                   |    |   |     |   |
|                        |   |                   |    |   |     |   |

- 2. Under History, select 'Use custom setting for history' from the drop-down list.
- 3. Check the option 'Automatically start Firefox in a private browsing session'.
- 4. Click 'OK'.
