Preface

The Crew module is one of the core module within Shipboard Property Management System (SPMS), which handle all crew's reservations, billing and other requests during the voyage.

Audience

This document is intended for application specialists and users of Oracle Hospitality Cruise Shipboard Property Management System.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL:

<https://support.oracle.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at <http://docs.oracle.com/en/industries/hospitality/>.

Revision History

Table 1 Revision History

Date	Description of Change
September 2021	• Initial publication.
May 2022	• Updated gender field to support non-binary gender • Updated the close posting flag in Quick Billing function.
July 2022	• Made minor grammatical changes.

Prerequisites and Compatibility

This section describes the minimum requirements for the Crew Module.

Prerequisites

- OHC Crew.exe

Compatibility

SPMS version 20.2 or later. For customers operating on version 20.2 and below, database upgrade to the recommended or latest version is required.

1

Overview

The Crew Overview Menu is comprised of the functions that provide an overview of the Cabin Availability, Cabin Overview, Comments, Flights, and the ability to add Work Orders related to the cabin. The function is accessible by launching the Crew module from the Launch Panel.

Cabin Availability

Cabin Availability provides an overview of cabin availability by date, deck, category, and/or features, including a view by deck plan along with the current cabin cleaning status and the number of available berths.

Figure 1-1 Cabin Availability

Show Deck Plan

OK Cancel Refresh

1. From the Overview menu, select **Cabin Availability**.
2. In the Selection Criteria, select the **Date From/To**, **Deck**, and **Category** from the drop-down list.
3. Select the **Cabin Features** using the check box, if any.
4. Click **Refresh** to refresh the view.

Figure 1-2 Deck Plan Viewer

5. From the Cabin Availability window, click **Show Deck Plan**.
6. In the Selection Criteria, enter the **Date From/To**, and click **Refresh**.
7. The status of the cabin is indicated by the color chart. Information about the selected cabin appears in the **Selected Cabin** section.

Cabin Overview

The Cabin Overview lists all cabins by cabin clean status, date, category, and the occupant's name. You can update the cabin clean status in batches within the same window.

Figure 1-3 Cabin Overview Window

Navigating through Cabin Overview

In the Overview window, the cabin numbers and category are listed, followed by the cabin cleaning status and occupant's name in the next column. If the cabin is occupied or blocked for expected guest, the passenger name appears in the grid from the date of embarkation to the date of disembarkation. You can use the filter options to search for a specific category or cabin in a particular cleaning state. In the Available Cabins, the cabins with crew name are shown when the crew name field is checked.

Batch Update of Cabin Clean Status

You can update the cabin status by batch using the available filters.
In the Cabin Overview window, click **Batch Update Cabin Clean Status**.

1. In the Batch Update Cabin Clean Status window, select the **category** or **deck**, followed by the **cleaning status**, and click **Search**.
2. Cabins matching the criteria will appear. Select the **cabin** by checking the check box next to the cabin number or use **Select All** to select all the check boxes.
3. Select the **Clean Status** from the drop-down list, and click **Update**.

Comments Overview

The Comments Overview allows you to view and edit all comments entered in the Crew Handling function, as well as add new comments.

Figure 1-4 Comments Overview Window

1. From the Overview menu, select **Comments Overview**.
2. In the **Selection Criteria**, select from the available filters for information to display, and click **Refresh**.
3. Information matching the selection appears in the Comment section. To view comments, select a comment.

See *Comments Tab* section on how to add or remove a comment.

Flights Overview

This function enables you to set up arrival or departure flights, which allows you to plan your resources and organize ground transfers for crew and passengers where necessary. To access the function, select **Flights Overview** from the Overview menu.

Figure 1-5 Flight Overview Window

The screenshot shows the 'Flights Overview' window. On the left, the 'Flight Dates' section lists dates from 23/05/2010 to 29/08/2015, with a tree view icon. Below the list are '+ Add Flight' and '- Remove Flight' buttons. A 'Show All Flights' checkbox is at the bottom left. The main area is divided into sections: 'Flight Information' (Direction: Arrival, Connecting: Yes, International: Yes, Flight Carrier: , Flight Number: 100, Flight Time: 0800, Flight Capacity: , Flight Occupancy: 12, Default No of Bags: , Bag Label: , Transfer Price:), 'Flight Departure/Transfer Details' (Time: 00:00, Date: 29/08/2015, Airport: Not Specified, City: , Country: Italy), 'Flight Arrival Details' (Time: 00:00, Date: 30/08/2015, Airport: Not Specified, City: , Country:), and 'Hotel Details' (Name: , Address: , Date Check In: 04/10/2008, Date Check Out: 04/10/2008). At the bottom right are 'OK', 'Cancel', and 'Apply' buttons.

Adding / Removing Flight Information

1. In the Flight Dates section, right-click and select **Add Flight**.
2. In the Flight Information section, enter all the necessary information and click **OK** to save.
3. To remove flight information, select and right-click the **Flight Number** and select **Remove Flight**.

Add Work Orders

You can add work orders individually or by batch using the Criteria Add function. Entry of work orders is not limited to the Crew module, and this function is available in the Maintenance module and Management module, Front Desk, and in Add Work Order.

Figure 1-6 Add new Work Order Form

Adding a Single Work Order

1. From the Overview menu, select **Add Work Orders**.
2. In the Work Order Details tab of the Add New Work Order form, enter the external document number in the **Work Order Request No.** field, if any.
3. Select from the drop-down list the **Work Order Type**, **Task Code** and enter the **Task Description** and **Comment**.
4. Select the **Priority** and **Location/Cabin Usable Status** from the drop-down list and attach a picture file, if any. You can override the predefined Priority and Location Usable Status when adding or editing a work order.
5. In the Reported By section, select the **Cabin number** and enter the **Name of Person reporting AVO**.
6. Select the **Location Type**, either **Cabin**, **Public** or **Others (Select Category)**, and navigate to the Location section and select the exact **location** from the grid.
7. Click **Add** to add the location to Location (Selected) section.
8. To de-select the location from Locations (Selected), mark the item to remove and click **Remove (-)** or **Remove All**.
9. Click **OK** to save the work order.

Adding Work Orders by Batch

1. Repeat steps 1 to 6 of Adding Single Work Order.
2. Click **Criteria Add>** to launch the Cabin Selection window.

3. In the Cabin Selection window, **Search Criteria** section, select the criteria from the drop-down list and check the required filter.
4. Click **Refresh** to update the information in the grid.

Figure 1-7 Cabin Selection Criteria

The screenshot shows the 'Cabin Selection' window. At the top, it says 'Crew Cabins with ALL available berth'. Below this is a table with the following data:

Cabin	Details	Deck	Cleaning Status	Total Berth	Available Berth
714	Officer Cabin	DECK07	OD	1	1
715	Officer Cabin	DECK07	OD	1	1
716	Officer Cabin	DECK07	OD	1	1
729	Officer Cabin	DECK07	OD	1	1

Below the table is the 'Search Criteria' section. It includes several dropdown menus and checkboxes:

- Not Occupied From: 23/08/2015
- Not Occupied To: 01/09/2015
- Deck: All
- Category: Officer Cabin (OC)
- Cabin Type: Crew
- Availability: Cabin with ALL Berth available
- Connected: ☐ 2B 2 single beds, ☒ C 1S Single Occupancy, ☐ C 2B 2 Bunk beds, ☐ C 4B 4 Bunk Beds, ☐ H Handicapped, ☐ LIFACC Special Lift Acce, ☐ P Pullman
- Count: 40
- Task Done: (empty dropdown)
- Task Done Before: 09/10/2006
- Task Done After: 09/10/2016
- Task Not Done: (empty dropdown)

At the bottom right, there is a legend:

- OD = Occupied Dirty
- OC = Occupied Clean
- VD = Vacant Dirty
- VC = Vacant Clean

At the bottom of the window are three buttons: OK, Cancel, and Refresh.

5. Click **OK** to add the selection to Locations (Selected).
6. To de-select the location from **Locations (Selected)**, mark the item to remove and click **Remove (-)** or **Remove All**.
7. Click **OK** to complete the work order.

2

Quick Functions

The Quick Function is designed to facilitate and expedite billing processes during disembarkation, assigning of crew course and certificates, flight arrangements and many others.

Quick Billing

The Quick Billing function allows you to expedite the check-out processes during disembarkation, and invoices to be printed in batches using the available criteria. Function is accessible from **Quick Functions** menu.

Figure 2-1 Quick Billing Selection Criteria Window

The screenshot shows the 'Quick Billing Selection Criteria Window'. The left pane, titled 'Invoices', contains a tree view with 'Crew Invoices' selected. Below it, a list of invoice types and documents is shown, including 'Invoice Type 1 - Final Statement', 'Invoice Type 2 - Detailed Statement', 'Invoice Type 3 - Split Statement', 'Invoice Type 5 - Checked Out', 'Closed Postings Crew', 'Crew Phone Agreement', 'Detail Statement - Discount', 'Crowd Management Certificate', 'Crowd and Crisis Management Certificate', 'Detail Statement - Selected Invoice', 'PPE Voucher', 'PPE Returned', 'PPE Received', 'Detail Statement - Closed Postings', and 'Technical Data Sheet'. The right pane, titled 'Criteria', has tabs for 'Criteria' and 'Report Printing Criteria'. The 'Criteria' tab is active, showing fields for 'Balancing Beg Date' (9/29/2016), 'Disembarkation Date' (8/29/2015), 'Balancing End Date' (9/29/2016), 'Payment Type' (All), 'Redirected Payment Type' (No Change), 'Package Plan' (All), 'Folio Balance' (empty), 'Divisions' (All), 'Starboard/Portside' (All), 'Positions' (All), 'Disable accounts' (Do not change current status), and checkboxes for 'Do not collect non refundable credit', 'Process 0 bal with transactions', and 'Process 0 balance accounts'. At the bottom, there are fields for 'Printer Name' and 'Copies', a 'Printer Properties' button, and a 'Print' button. A checkbox for 'Charge commission' is also present.

Table 2-1 Field Definition of Quick Billing Window

Field	Description
Crew Invoices	Type of invoice form.

Table 2-1 (Cont.) Field Definition of Quick Billing Window

Field	Description
Balancing Begin Date	Date to balance from.
Balancing End Date	Date to balance until.
Disembarkation Date	Disembarkation Date filter.
Payment Type	Payment type filter.
Redirected Payment Type	Redirect selected payment to another payment method.
Package Plan	Filter by Package Plan.
Folio Balance	Filter by folio balance, for example, greater than or equal to X value.
Do not collect non-refundable credit	Credit balance withheld for use in future cruise.
Divisions	Invoice sort order by division.
Starboard/Portside	Invoice sort order Starboard/Portside.
Positions	Invoice sort order by position.
Disable accounts	Update account status to "allow manual postings only" or "blocked all postings".
Process 0 bal with transactions	Include guests who have already settled in and allow a reprint of the invoice in Quick Billing window.
Process 0 balance accounts	Include zero balance accounts with/without transactions.
Printer	Printer assigned for invoice printing, number of copies to print and print orientation.

Figure 2-2 Quick Balance Selected Tab

Table 2-2 Field Definition of Crew Quick Balance

Field	Description
Division	Division number.
Deck	Location of Cabin.
Name	Crew Name.
Balance	Total Invoice Balance.
Auth	Authorization Status.
Print	Invoice Printed status.
Status	Close Posting status.
Statistics	Indicator count of selected, processed, remaining and close postings (successful/failed) accounts with its value in balance or charged.
Send eMail	Invoices are emailed to crew on-board email account.
Close Postings	Set invoice postings to close.
Balance	Process balancing for selected accounts.
Print	Print invoices for selected accounts

Crew Quick Billing

Quick Bill Printing

The Selection Criteria tab in the Crew Quick Billing function determines the type of invoices to print/pay based on the criteria entered for all disembarking crews. For example, crew paying by credit card or only crew with x outstanding amount.

1. From the Quick Billing, Selection Criteria tab, select an **Invoice Type, Balancing Begin Date, Disembarkation Date, Payment Type, Folio Balance (if applicable), Division, and Position**.
2. At the **Printer** section, select an invoice printer, enter the number of copies to print, select the print orientation, and click **Print**.
3. At the Quick Printing prompt, select **Yes** to continue.

Quick Bill Balance

Apart from printing invoices by batch, balancing of the new crew account is only possible when there is a credit card on file.

1. Repeat steps 1 to 3 of the above.
2. In the **Disable accounts** field, select the appropriate **Posting status** from the drop-down list.
3. Navigate to the **Selected tab** to verify the results and adjust the selection until you achieve the desire result.
4. To exclude a crew from the search results, right-click on the name, and click **Remove**. When a crew is removed from the grid, the statistic count is updated accordingly.
5. At the Confirmation prompt, click **Yes** to confirm and click **Balance**.
6. At the Quick Balance prompt, select **Yes** and click **OK** at the Quick Balance Info prompt.

Figure 2-3 Quick Balance Info Prompt

7. In the Quick Balance Info warning prompt, read the warning, and click **OK** to proceed.

Figure 2-4 Quick Balance Info Window

8. The total amount charged and the number of the account processed appear in the Statistic section once the account is balanced successfully.

Figure 2-5 Statistic of Account Processed and Value Charged

Statistics	
Selected:	8
Processed:	8
Remaining:	0
Close Posting Success:	0
Close Posting Fail:	0
Balance Total:	241.65
Comission Total:	0.00
Balance Charged:	142.10
Package Balance:	99.55
Non-ref. Balance:	0.00
Balance Remaining:	0.00

9. Click **Close Postings** to disallow postings as close on these accounts.

Quick Bill eMail

All Crew that haves an on-board email account can opt to receive a copy of their invoices through email. This function is controlled by a parameter. Consult your IT Department for setup if this is not pre-configured.

1. Repeat steps 1 to 4 of Quick Bill Balance.
2. Navigate to the **Selected tab** and click **Send eMail**. The Send eMail feature is disabled if no printer is assigned.

- Without balancing the invoice, click **Send eMail**.
- At the Quick Printing prompt, click **Yes** to proceed. An 'e-Mail sent' status is added in the **Auth** column when the invoice is sent successfully.

Figure 2-6 Invoice Successfully Emailed Indicator

Cabin	Deck	Name	Balance	Auth	Print	Status

Assign Cabin Unassign Cabin Cancel

Assigning a Cabin

- From the **Quick Functions**, select **Crew Quick Cabin Assignment**.
- Select the **Date From and Date To** using the date editor, then click the **Show Expected Crew**. The expected crew that do not have a cabin assign appear in the **Expected Crew With Cabin Not Assign** grid.

- Available cabins are shown in the Available Cabin section. Selecting any cabin from the grid will show the cabin assignment history of Checked-In and Expected crew in the Crew Currently Assign to Cabin xxx with x bed(s) **grid**.
- Navigate to the Assigned Cabin tab to view all cabins assigned to crew. The cabin assignment history of Checked-In and Expected Crew appears in the Crew Currently Assign to Cabin xxx with x bed(s) grid when a cabin is selected.
- Select the crew and the cabin from either the Available Cabin or Assigned Cabin and click the **Assign Cabin**. The assigned crew cabin appears in the Crew Currently Assign to Cabin xxx with x bed(s) grid.
- Another option for assigning a cabin is by clicking **Show Available Cabin**. This function displays only the cabins without an assignment, and in the Available Cabin tab, a list of available staterooms appears in the grid. Cabin management history for Checked-In and Expected Crew are then shown in the Crew Currently Assign to cabin xxx with x bed(s).
- Repeat step 3 to 5 of the above to assign a cabin.

Un-assigning a Cabin

- Repeat steps 1 to 2 of Assigning a Cabin.
- Navigate to the Assigned Cabin tab to view all cabin assigned to crew.
- Select the cabin from the Staterooms list to display the crew assignment history for Checked-In and Expected Crew who are shown in the Crew Currently Assign to Cabin xxx with x bed(s) grid.

Figure 2-8 Assigned Cabin Window

- Select crew from the Staterooms grid or Crew Currently Assign to Cabin xxx with x bed(s) grid, then click **Unassign Cabin** to un-assign the cabin for the crew.

Quick Courses Assignment

The Quick Courses Assignment function enable you to assign crew courses and certificates.

Figure 2-9 Courses Assignment Window

Table 2-3 Field Definition of Courses/Certificate Assignment Window

Field	Description
Code	Courses/ Certificates codes set up in Administration module.
Name	Course/Certificate Name.
Related To	Category the course belongs to in Safety/ Operational.

Courses Assignment

1. From the Quick Functions file menu, select **Quick Courses Assignment**.
2. Navigate to the **Courses** tab and select the type of course to assign by selecting the check box beside the code.
3. In the Account Identifier section, select either **Search by Cabin Number** or **Search by Safety Number**.
4. In the Additional Information section, fill in the Additional Information if any.
5. Select the **Completion Date** and select the **date** from the date editor.
6. Select the course expiration period either by selecting the **Valid until a Specified Date** or **Valid until Crew Disembark**. If the Valid until a Specified Date is selected, select the **Renewal Date** and select the **date** from the date editor.

7. Select **Assign** to assign the courses and click **Assign & Print** to assign the course assigned at the same time.
8. Courses can be searched using the Search Panel below the course grid.
9. Selecting the **Clear fields after assigning** check box clears all details after the course assignment completes.

Certificates Assignment

Figure 2-10 Certificates Assignment Window

Code	Name	Related To
CA-01	Course A	Safety
CA-02	Course B	Safety
CA-03	Course C	Safety
CE-01	Cert A	Safety
CE-02	Cert B	Safety
CE-03	Cert C	Safety
CPSC	Certificates Proficiency Survival	Safety
CRISIS	Crisis Management Certificate	Safety
CROWD	Crowd Management Certificate	Safety
ENV	Environmental Training	Safety
FADVAC	Firefighting Advanced	Operational
FADVAN	Basic Safety Training	Safety
FBASIC	Firefighting Basic	Safety
GMDSS	Radio Operator's Certificate	Operational
IMO	IMO 1995	Safety

1. From the **Course/Certificates Assignment** window, navigate to the **Certificates** tab and select the **course** to assign by selecting the check box next to the code.
2. Repeat above steps 3 to 9.

Advanced Courses/Certificates Assignment

The Advanced Course Assignment allows you to assign multiple crew to a course/certificate.

1. Under the Account Identifier section in the Courses/Certificates Assignment window, click **Advanced** to open the **Multiple Accounts Selection** window.
2. Crew listed in the **Non Selected Accounts** section are based on the default setting in the Status and Account Type criteria.

Figure 2-11 Routing Multiple Account Selection Window

3. Select the **reservation status** of the crew from the Status drop-down list.
4. To select **all crew**, click the **Add All>** button to transfer the crew list to the Selected Account window, or individually select the crew name and click **Add**.
5. Click **OK** to confirm the multiple accounts selection and this opens the **New Courses/ Certificates Assignment** window.
6. The cabin search function under the Account Identifier section is now dimmed and replaced with (multiple selection).
7. Repeat steps 4 to 9 Courses Assignment.

Quick Discounts Assignment

The Quick Discounts Assignment function enables you to assign discounts to multiple crew's accounts, either by percentage or by value.

Figure 2-12 Quick Discount Window

Assigning Discount to Individual Crew

1. From the Quick Functions file menu, select **Quick Discounts Assignment**.
2. In the Discounts window, Account Selection section, enter the cabin number and select the **respective crew** from the drop-down list.
3. Navigate to the How much section and enter the **Percentage**, **Apply Count** and **Reason**. To apply a value discount, deselect the **check mark** next to Percentage.
4. Select the **department group** or **department code** in the What section, and check whether the discount is applicable to Actual or Future Postings.
5. Click **OK** to confirm.

Assigning Discount to Multiple Crew

1. From the **Quick Functions** option menu, select **Quick Discount Assignment**.
2. In Discount assignment, Account Identifier section, click **Advanced** to open the **Multiple Accounts Selection** window.
3. Crew listed in the Non Selected Accounts section are based on the default setting in Status and Account Type criteria.
4. Select the **reservation status** of the crew from the Status drop-down list.
5. To select all crew, click **Add All>** to transfer the crew list to the Selected Account window, or individually select the **crew names** and click **Add**.

- Click **OK** to confirm the multiple accounts selection, which opens the New Discounts Assignment window with the selected crew account listed.

Figure 2-13 Quick Discount to Multiple Account

[illegible]

7. Repeat steps 2 to 5 of Quick Discount to Individual Crew by Percentage/Value.

Quick Effects Assignment

The Quick Crew Effects Assignment allows you to record crew's personal effects for single/multiple accounts.

Post

1. From the **Quick Functions** menu, select **Quick Flight Assignment**.
2. Enter the **account** in the Account Identifier field or click **Advanced** to select **Multiple Account**.
3. Navigate to Flight Information section and select the **Direction**, **Departure Date**, and **Flight Number** from the drop-down list.
4. In the Additional Information section, enter additional information if any.
5. Click **Add Crew** to add the selected crew to Flight Assignment List and take note of the Total count next to the Flight Assignment Last grid.
6. Click **Post** to update the flight assignment in the crew's account in the **Crew Handling**, **Flight Info** tab.

Quick Posting

The Quick Postings function enables posting by batch to a single account or multiple accounts. This function is extremely useful when there is a large quantity of checks such as laundry or transportation to be posted at the same time.

Figure 2-16 Quick Posting

The screenshot shows the 'Quick Posting' window. At the top, there's a 'Posting Account' field with a dropdown menu showing '(multiple selection)'. To its right is a 'Department' field with a dropdown menu showing '2050'. A 'Search' button is next to the department field. Below the account field is a 'Clear fields after adding to postings list' checkbox, which is checked. To the right of this is an 'Advanced' button. Below the 'Advanced' button is an 'Additional Information' section with fields for 'Check Number:', 'Server #1:', 'Server #2:', 'Number of People:', 'Invoice Number:', and 'Comments:'. The 'Invoice Number' field has a dropdown menu with options 1, 2, 3, and 4. To the right of the 'Additional Information' section is a table with two columns: 'Department' and 'Amount'. The table contains the following data:

Department	Amount
Beverages	0.00
Champagne	0.00
Food	0.00
Tobacco	0.00
Package	0.00
Service Charge A.	0.00
Sales Commission	0.00

Below the table is a 'Sub Total' field showing '0.00'. At the bottom of the window is a 'Postings List' table with columns: 'Acc. ID', 'Acc. Identifier', 'Dept. ID', 'Dept. Details', and 'Amount'. The table contains the following data:

Acc. ID	Acc. Identifier	Dept. ID	Dept. Details	Amount
292	TESTER, CREW 02	4		5
108	TESTER, CREW 010	4		5
292	TESTER, CREW 02	3		15
108	TESTER, CREW 010	3		15

To the right of the 'Postings List' table is a 'Totals' section with fields for 'Batch Count:', 'Current', 'Batch Total:', and 'Current Total:'. The 'Current' field shows '4' and the 'Current Total' field shows '40.00'. A 'Post' button is at the bottom right of the window.

Quick Posting to Single Account

1. From the **Quick Functions** menu, select **Quick Posting**.
2. Enter the cabin number or select the **Account** using the drop-down list.
3. In the Department field, enter the **department code**, and enter the **value** to post.
4. In the Additional Information section, insert the **check number**, **Server#1**, if any, and select the **invoice number** to post. The system default invoice is one.
5. Click **Add** to add the account to the Posting List grid. Repeat the above steps until all checks are added to the Posting List.
6. Note and tally the current count and Current Totals with physical checks.
7. Click **Post** to confirm posting.

Quick Posting to Multiple Accounts

1. Under the Account field of the Quick Posting window, click **Advanced**.
2. In the **Multiple Accounts Selection** window, select the **Status** from the drop-down list.

Buttons: Add All >, < Remove All, Add >, < Remove, Criteria Add >, < Criteria Rem., Pre-Select, OK, Cancel

3. Select the **account name** from the Non Selected Accounts pane, and click **Add** to add the account singly or **Add All>** to add all accounts listed or use the **Criteria Add>**. See the *Selecting Account Using Criteria Option* section on how to select accounts using Criteria Add.
4. Accounts selected appear in the Selected Account window. Click **OK** to return to the Quick Posting window.
5. Navigate to the Department field, select the **department code**, and enter the **value** to post.
6. At the **Additional Information** section, insert the **Check number, Server#1**, if any, and select the **invoice number** to post to. System default Invoice is 1.
7. Click **Add** to add the account to the Posting List grid.
8. Click **Post** to complete the postings.

Selecting Account Using Criteria Option

The criteria options filters the accounts based on the criteria entered, for example by embarkation/disembarkation date, age, cabin category, and other.

1. At the Multiple Accounts Selection window, click **Criteria Add>**.
2. Select the **options** from the drop-down list in the **General** tab, then navigate to Crew tab.

Figure 2-18 Accounts Selection Criteria-General

The screenshot shows the 'Accounts Criteria Selection' dialog box with the 'General' tab selected. The dialog has four tabs: General, Crew, Nationality, and Financial. The General tab contains the following options:

- ☐ Embarkation Date / Port: = [dropdown] 10/7/2016 [dropdown]
- ☐ Disembark Date / Port: = [dropdown] 10/7/2016 [dropdown]
- ☐ Age: = [dropdown] [dropdown]
- ☐ Flight Destination Code: [dropdown]
- ☐ Flight Package Code: [dropdown]
- ☐ Cabin Category: [dropdown]
- ☐ Cabin Classification: [dropdown]
- ☐ Guest With no Gangway Activity: 10/7/2016 [dropdown]

At the bottom right, there are 'OK' and 'Cancel' buttons.

3. In the **Crew** tab, select from the available **options** using the drop-down menu and continue to select from the remaining tabs, if required.
4. Click **OK** to return to the Multiple Account Selection window.

Figure 2-19 Accounts Selection Criteria-Crew

The screenshot shows the 'Accounts Criteria Selection' dialog box with the 'Crew' tab selected. The dialog has four tabs: General, Crew, Nationality, and Financial. The Crew tab contains the following options:

- ☐ Safety Department: [dropdown]
- ☐ Safety Position: [dropdown]
- ☐ Safety Group: [dropdown]
- ☒ Safety Role: (not applicable) [dropdown]
- ☐ Safety Function: [dropdown]
- ☐ Muster Station: [dropdown]
- ☐ Life Boat: [dropdown]

At the bottom right, there are 'OK' and 'Cancel' buttons.

Quick Posting Status

The Quick Posting Status Enable/Disable function sets the account posting status by batch.

Figure 2-20 Enable/Disable Posting Selection

1. From the Quick Functions File menu, select **Quick Posting Status Enable/Disable** from the drop-down menu.
2. In the Enable/Disable Posting by Selection window, select the **amount** from the drop-down list or click **Advanced** to select multiple accounts.
3. Insert a reason in the **Reason** field.
4. Select the **Allow manual postings** check box if manual posting is allowed for Disabled accounts.
5. Select one of the options: **Enable** or **Disable the account**.

Quick Remote Check-In

The Quick Remote Check-In enables you to check-in the crew by Deck.

Figure 2-21 Quick Remote Check-In

1. From the Quick Functions options menu, select **Quick Remote Check-In** option.

2. Select the **Deck** from the drop-down list and click **Refresh**.
3. At the Selected Crew section, cabin number and name of crews due to check in are listed, with the total selected account shown at the **Statistic** section.
4. Click **Process** and select **Yes** at the confirmation prompt to proceed.
5. The system updates the number of records processed and its status in the Statistic section. Click **Close** to return to the main window.

3

Crew Members Function

The content below describes the function for accessing the crew data such as Crew Information, travel documents, invoice, crew history, group account, and others. You can create, amend and cancel a reservation, post a charge and check out a crew account. These functions are accessed by using the **Crew Members** drop-down menu.

Figure 3-1 Crew Handling

Crew Handling

Search Panel

The Search Panel function is a reservation look up by status in a tab view — Check In, Check Out, Expected, Canceled and No Show from the Crew Handling window.

Search Using the Search Panel

1. At the Search Panel, select the **Status** tab.
2. You can select an alphabet corresponding to the last name of the reservation or select **ALL** to list all reservations in alphabetical order.
3. You can further narrow down the search using either the crew name, document number, or cabin number and date.

Crew Info Tab

The Crew Info tab is the default tab after an account/reservation search. It provides a single view of crew's information such as name, address, passport details, cabin information, and others that enable you to drill down further into the reservation for more information.

Creating New Reservation

1. At the Crew Handling window, click the **New Reservation** button to open a Crew Information form.
2. Enter all relevant information, particularly the mandatory fields and read the Notice and Consent clause to the crew before selecting the **check box**. You are not allowed to proceed if the check box remains deselected when you click the **OK** button, and the system prompts a warning message.

3. Note that the ship operator sets the mandatory fields. Refer to your company standard operating procedure.
4. Click **OK** to save the form.
5. Saved information is updated and shown under the **Crew Info tab** and categorizes the crew as Expected Arrival.

Editing a Reservation

1. Search the reservation using the **Search Panel**, then click **Edit Information** under the **Crew Info tab** to open the existing Reservation Form.
2. Edit all relevant information, and click **OK** to save the changes.

Cancelling a Reservation

1. Select the **Expected crew** from the Search Panel, and click **Cancel Reservation** under the Crew Info tab. You can only cancel an Expected crew reservation.
2. Selecting **Yes** at the Cancel Reservation prompt places the booking under the Cancelled tab.

Posting Status

The Posting Status function enable/disable an account from accepting postings coming from food and beverage or retail outlets, and provides a better management of the crew account so that it does not exceed the credit limit allowed.

Enabling a Posting

1. Search the crew account from the Search Panel and click **Posting Status** at **Crew Info** tab.
2. The system prompts for a response to enable the account. Selecting **Yes** at the prompt resets the Posting status to allowed, or **No** to remain as unchanged.

Disabling a Posting

1. Repeat step 1 of the above.
2. Enter the **reason to disable** the posting when prompted, either by selecting a predefined reason from the drop-down list or by entering them manually.

Figure 3-5 Predefined Reason to Disable Posting

3. If **Allow manual postings** is selected, this only disables postings through the interfaces. Manual posting within the **Crew Handling** window is still permissible.
4. Click **OK** to set the posting status for the account to a **No** or **Manual**.

Figure 3-6 Manual Posting Allowed Status

Print Passport Label

The Print Passport Label prints the crew's information on a label, which are then pasted into the crew's passport for ease of identification. A label must be set up in *Administration, Report Printing, Crew – General* group.

Print Safety Card

The Print Safety Card prints the **Blue Card** of the crew as an identification of the manning station they should report to during an emergency. Information printed on the card derives from the Safety Info tab.

Show Log

The system logs a chronological record of activities such as crew movements, financial transactions, and system events. To enable the reconstruction and examination of the sequence of events and/or changes made, you can view such information in the Show Log function.

1. Retrieve the reservation from the Search Panel.
2. Click the **Show Log** in **Crew Info** tab.
3. A list of events appears on the window, ordered by date/time.
4. Click the **Print** button to send a copy of the log to the printer.

5. Click **Export** to export the log into a supported file format.

Figure 3-7 File Export Prompt

Disc Route Pkg Tab

The Discount, Route, Package function routes the charges within the same invoice or to other crew prior to crew check-in if set up. The functions enable allowable discounts in SPMS and MICROS. It also gives an overview of the Package Plan entitlement.

Routing

The Routing function automates the transfer of charges within the crew account or to multiple accounts, allowing you to consolidate charges into one invoice/account. The use of this function is to facilitate the invoicing process at group reservations level or party/family traveling together. Depending on the requirements, the routing can be set up using one of these options: **Pay for** or **Pay by**.

Figure 3-8 Routing Tab

The screenshot shows the 'Routing' tab in a software application. The interface is divided into several sections. At the top, there are tabs for 'Credit Cards', 'Safety Info', 'Flight Info', 'Documents', 'Revenue Analyzer', 'Custom Info', 'Comments', and 'History/Promotions'. Below these, there are sub-tabs for 'Crew Info', 'DiscRoute,Plg', 'Invoice: 0.00', 'More Crew Info', 'Courses & Certs', 'Other Info', 'Effects/Warnings', and 'History/Promotions'. The 'Routing' tab is currently selected. It contains two main sections: 'Pays For' and 'For'. The 'Pays For' section has a field for 'Crew, John' (labeled 1) and a section for 'Pays for following Crew Member'. The 'For' section has a field for 'Crew, Jane' (labeled 2) and a section for 'Charges will be paid by' (labeled 3). Below this, there is a list of charges (labeled 4) including '5300 Laundry', '5305 Crew Laundry - Washing', and '5306 Crew Laundry - Pressing'. At the bottom, there are buttons for 'Delete Routing' and 'New Routing' (labeled 5).

Table 3-13 Routing Tab Definition

Section	Description
1	Pays for - This section defines the payer account and whom the account is paying.
2	For - This section defines where the assigned financial department is routed.
3	Cabin number and name of crew payer is responsible.
4	Financial Department code assigned.
5	Button to set up or remove routing instructions.

Before moving/routing the charges, be sure to first check the current routing arrangements to avoid duplication of routing, which may result on charges not being re-directed as planned.

Paying for another Party

Using the following setup steps, you can route a charge when crew A pays for crew B.

Table 3-14 Definition of Routing Options

Field	Description
Show Reservations	Include expected to embark and reserve bookings. Only display checked in bookings if it is deselected.
Actual Postings	Where the Actual postings are routed.
Actual Payments	Where the Actual payments are routed.
Package Postings	Only route package postings.

1. Search the crew account and navigate to the Disc, Route, Pkg, Routing tab.
2. Click **New Routing** under the Pays For section to open the routing dialog box.
3. Select the **Invoice number** where the charges are routed.
4. For charges within the same account, leave the cabin number and crew name as it is.

5. In the event where crew is paying for another account, change the **cabin number** and select the **respective guests**.
6. Select the **Financial Department** group or **codes** to be routed and enter the routing reason.
7. Select the options where applicable and click **OK** to save.
8. Once saved, the selected assignment is added to **Pays for** in the Routing tab.

Figure 3-10 Routing Pays for Window

Paid by Another Party

1. At the Disc, Route, Pkg, Routing tab, click **New Routing** under the 'For section' to open the routing dialog box.

Figure 3-11 New Routing To — 'Will Be Paid By'

2. Repeat steps 3 to 8 of Paying for another party.

Advanced Routing

Below are the steps to set up routing for multiple guests, for example, group of crew account of parties travelling together.

1. At the Disc, Route, Pkg, Routing tab, navigate to **Pays For** and click **New Routing** to open the routing dialog box.
2. At the new Routing window, click the **Advanced** button located just below the Invoice drop-down list to open the Multiple Accounts Selection window.
3. Accounts listed in the Non Selected Accounts section are based on default selection of the **Status** and **Account Type**. You can change these criteria using the drop-down list.

Figure 3-12 Routing Multiple Account Selection Window

4. To select all crew, click **Add All>** or individually select the crew, then click **Add>** to move the selection to the **Selected Accounts** pane.
5. Click **OK** to confirm the accounts selection which opens the **New Routing** window with the selected crew account listed.

Figure 3-13 Routing Multiple Account Instructions

Cabin	Name	Status
	Crewing	

6. In the New Routing window, select the **Financial Department, Reason** and select the **check box** for the routing to occurs, then click **OK** to initiate the account routing.
7. During the assignment process, the status of the crew account changes to **OK**, followed by **Done**, and the New Routing window closes automatically once the process completes.

Deleting Existing Routing

To remove routing setup in the crew account,

1. In the Disc, Route, Pkg, Routing tab, select either to delete the **sub-financial department code** from the individual assignment, or select the **Main Financial Department** to delete all department codes, then click **Delete Routing**.
2. The system prompts for confirmation to delete the assignment. Click **Yes** to confirm the deletion or **No** to return to the Routing window.

SPMS Discount

The SPMS Discount function allows you to assign eligible discount either by percentage or value to a crew account.

Assigning a Discount

1. In the Disc, Route, Pkg, Fidelio Discount tab, click **New Discount** to open the discount dialog box.

2. Insert the **Percentage** and the number of times the discount is given in the Apply Count field. For example, enter one to specify a one-time discount for every selected department code, or blank for unlimited discounts for every selected department.
3. Select the **Posting Department** entitled to discount, either by selecting department group or individually; for example, All Food/Beverage or Room Service Food only.
4. You can also use the **Discount Template** by selecting the **check box** and selecting a template from the drop-down list if they are pre-configured. See the Administration User Guide for setup procedures.
5. Select whether the discount is applicable to **Actual** or **Future Postings**, and click **OK** to save.

WARNING:

Once a discount is applied to an actual posting, it *cannot* be reversed. If the discount has a count indicator, the system then post the discount until it reaches the count indicated and no discount will be accorded thereafter.

6. The assigned discounts is saved in SPMS Discount tab. Similarly, these are added when **Future Postings** is selected in **Criteria Discount**.

Figure 3-14 Disc, Route, Pkg — Discount Tab

The screenshot displays the 'Disc, Route, Pkg' tab in the Oracle SPMS system. The interface is divided into two main panels for assigning discounts to a crew member named Jane.

Left Panel: Percentage Discount for Crew, Jane

This panel is titled 'Fidelio Discount'. It contains a table of discounts:

Code	Description	Percentage	Count
4600	Duty Free Shop		
4601	Duty Free Shop - Gen	10.00	(5)
4602	Duty Free Shop - Clo	10.00	(5)
4603	Duty Free Shop - Foo	10.00	(5)
4604	Duty Free Shop - Dri	10.00	(5)
4605	Duty Free Shop - Cos	10.00	(5)
4606	Duty Free Shop - Lei	10.00	(5)
4607	Duty Free Shop - Ele	10.00	(5)

At the bottom of this panel are buttons for 'Delete Discount' and 'New Discount'.

Right Panel: Value Discount for Crew, Jane

This panel contains a table of discounts:

Code	Description	Value	Count
5300	Laundry		
5305	Crew Laundry - Washi	10	(5)
5306	Crew Laundry - Press	10	(5)

At the bottom of this panel are buttons for 'Delete Discount' and 'New Discount'.

Table 3-15 Financial Department Codes

No.	Description
1	Financial Department codes entitled to Percentage discount.
2	Financial Department codes entitled to Value discount.
3	Financial Department codes and description.
4	Discount value (percentage or value).
5	No of count assigned to each financial code. 0 = unlimited.

7. If an **Actual Posting** is selected, the system post an adjustment (reverse) against the original posting and sets the adjusted posting to **No Print** automatically. It then reposts the correct value with the discount is indicated.

Deleting a Discount

1. In the Disc, Route, Pkg, Discount tab of the account.
2. If **Delete Discount** is clicked without first selecting a Financial code, this process deletes all assignments from the respective window.

Figure 3-15 Delete Discount Prompt

MICROS Discount

Figure 3-16 Disc, Route, Pkg — MICROS Discount

	Micros Discount Itemizer 1	discount = 10.00%	

The MICROS Discount tab displays discounts accorded to crew using **MICROS Discount Itemizer** level. These discounts appear when crew has discount level assigned in the Crew Info, Edit Information, Discount Template field.

Assigning a POS Discount Level

1. In the Crew Info tab of the account, click **Edit Information** to open the Edit Crew Information window.
2. In the **Name section**, select the discount template from the drop-down list, then click **OK** to save.

Disallow Department

The Disallow Department function manages posting from being posted from restricted outlets to the crew account, for example, Casino Bar, or all tobacco and others.

Setting up a Disallow Department

1. In the Disc, Route, Pkg, Disallow Posting tab, select the Financial Department codes to disallow, either by Group or individual department code from the list and then click **Save**.

Figure 3-19 Disallow Department Tab

The screenshot shows a software window with multiple tabs. The 'Disallow Dept' tab is selected and highlighted with a green box. The window title is 'Disallow posting for the below selected department list'. Below the title is a list of departments with checkboxes next to them. The list includes:

- ☐ 00000 Communications
- ☐ 00001 CBand - Guest Revenue
- ☐ 00004 CBand - Non Guest Revenue
- ☐ 00007 Other - Guest Surcharge
- ☐ 00008 Other - Guest Revenue
- ☐ 00009 Other - Guest Cost Satellite
- ☐ 00010 Other - Guest Land Line
- ☐ 00011 Other - Non Guest Revenue
- ☐ 00012 Other - Non Guest Cost Satellite
- ☐ 00013 Other - Non Guest Landline
- ☐ 00015 Other - Company Costs
- ☐ 00016 LDL - Company Costs Agent
- ☐ 00080 MTN Guest Calling Card Revenue
- ☐ 00100 SIM Card Revenue
- ☐ 00150 SIM Card Cost
- ☐ 01000 Tax
- ☐ 01001 Florida Sales Tax
- ☐ 01002 Key West Tax
- ☐ 01003 Port Canaveral Tax
- ☐ 01004 Tampa Tax
- ☐ 01006 Spanish VAT
- ☐ 01007 Washington Sales Tax
- ☐ 01008 California
- ☐ 01009 New Zealand GST
- ☐ 01010 Australian GST
- ☐ 01080 New York Tax
- ☐ 01091 Olympic Tax

At the bottom of the window are buttons for 'Search', 'Unselect All', 'Select All', and 'Save'.

- When a posting is for a disallowed department, the system displays a Posting Failure popup informing you that the posting is not allowed. See Figure 3–20 below.

Figure 3-20 Disallow Department Posting Failure Prompt

- Click **Yes** to exit without posting and **No** to return to the Add posting window.

Package Plan

Package Plan

The Package Plan function enables you to customize a cruise package that suits the crew requirements, combining different food and beverage outlets, excursions, or activities using the flexi package plan option.

Assigning / Purchasing a Package Plan

Assigning the correct package plan to the crew account enables you to post transactions accurately throughout the cruise and assign packages within the crew account.

1. At the Disc, Route, Pkg tab of the crew, select the **Package Plan** tab.
2. Select one of these options:
 - **Assign package Plan:** This assigns an available package that does not have a pre-set Purchase price.
 - **Purchase Package Plan:** This purchases a package setup with the purchase price.
3. To assign/purchase a package, select the available package from the drop-down list and enter the **Reason**.

Figure 3-21 Package Plan Assignment Window

Assign Package Plan

Package Plan

Assignment: 5* Mariner

Reason:

- Empl 10% disc Bar (3-5ster)
- Empl 10% disc Shorex
- Employee 10% discount Shorex
- Mid Cruise Rate 550

The following guest is selected:

50203 Wine - Premium				50204 Wine - Non-premium		Unlimited	10	0
50205 Beer - Premium						Unlimited	10	0

Refunding a Package Plan

The unutilized package plan is refundable to the crew at the end of the cruise. Below are the steps to refund a Value based package, Quantity based and Mix package.

- In the Disc, Route, Pkg tab of the crew account, select the **Package Plan** tab.
- Select **Refund Package Plan**.

Figure 3-23 Package Plan Refund Option

Package	Total Value	Redeemed Value	Available Value	Enable	Total Qt	Description	Available Amt/Qty	Disc % / Max Value	Group
QTY PKG 1	0	112.20	-112.20		4	[201 MINERAL WATER]	0	30	1
QTY PKG 1	0	0.00	0.00		4	QTY/VALUE PKG 1	3	30	1
QTY/VALUE PKG 1	200	100.00	100.00		2	2052	0	0	0
						100	100	100	0
						1	0	0	0

FC Management

Please note you are not able to undo this operation.
Total refund amount = 167.00.
Are you sure you want to refund the package QTY PKG 1?

Yes No

WARNING:

Once a Refund is processed, it is *not* possible to reverse the changes. This process also *disables* the package plan.

- Once the package plan is refunded, the system disables the package and displays the remaining value/quantity for reference only.
- If the postings are more than the package price, the system prompts that a refund is not allowed.

Routing a Package Plan Posting

Routing a package plan posting depends on two parameters: Do not allow post package to both buyer and payer and Package Plan Before Routing.

When both payer and buyer have a package, all postings go to the payer. Once the payer package is fully utilized, subsequent postings are posted the payer account as normal postings.

Auto Balancing a Package Plan

You can set up Auto Package Plan balancing using **Enable Package Auto Balance as 1** parameter, which allow the system to automatically balances the package invoice/account after each transaction and reduces the total package value or quantity at the same time.

Figure 3-24 Package Plan Invoice Window

The screenshot displays the 'Package Plan Invoice Window' with various tabs at the top: Credit Cards, Safety Info, Flight Info, Documents, Revenue Analyzer, Custom Info, Comments, Crew Info, Disc/Route/Pkg, Invoice: 155.07, More Crew Info, Courses & Certs, Other Info, Effects/Warnings, and History/Promotions. The 'Invoice' tab is active, showing a table with columns: Date, Department, Credit, Debit, Discount, POS-Discou, Buyer, Trans.ID, User, Gross, Check#, and Manual Pos. The table contains two rows of data. Below the table, there is a summary section with buttons for 'All Invoices', '1.Invoice', '2.Invoice', '3.Invoice', '4.Invoice', and 'Package'. The values for these buttons are: All Invoices (155.07), 1.Invoice (155.07), 2.Invoice (0.00), 3.Invoice (0.00), 4.Invoice (0.00), and Package (0.00).

Date	Department	Credit	Debit	Discount	POS-Discou	Buyer	Trans.ID	User	Gross	Check#	Manual Pos
3/20/2015	83		134.85	0.00	0.00				134.85		Yes
3/20/2015	88		20.22	0.00	0.00				20.22		Yes

All Invoices	1.Invoice	2.Invoice	3.Invoice	4.Invoice	Package
155.07	155.07	0.00	0.00	0.00	0.00

If the parameter above is set to zero, manual balancing of the package invoice/account is required using the **Pay Invoice** function.

Manually Balancing a Package Invoice

- Select the **crew account** from the Search panel, navigate to the **Invoice** tab, and click the **amount** under the **Package Invoice**.

Figure 3-25 Settling a Package Plan

Date	Department	Credit	Debit	Discount	Vat Tax	POS-Discou	Buyer	Trans.ID	User	Gross	Check#	Manual Post
12/04/2015	2000	30.00	0.00	0.00	0.00	0.00	E			30.00		Yes
12/04/2015	2000	20.00	0.00	0.00	0.00	0.00	E			20.00		Yes

All Invoices	1.Invoice	2.Invoice	3.Invoice	4.Invoice	Package
350.00	300.00	0.00	0.00	0.00	50.00

2. Select the **Payment method** and verify the amount to settle when prompted.
3. Select **Pay** or **Pay & Print** to pay and print the invoice and reduce the Package Invoice at the same time.

Post

4. Item count increases automatically when the posting is more than one.
5. Click **Post** to finalize the postings and the posted transaction appears in the Invoice tab among earlier posted charges.

Voiding a Posting

1. In the Invoice tab of the crew account, select the **transaction** to void and click the **Void** button.
2. The system prompts for confirmation on the charge to void. Click **Yes** to confirm the void and **No** to return to the previous window.

In the Void Posting Reason window, insert the void reason or select from the drop-down menu, then press **OK**.

Figure 3-30 Void Reason Prompt

The dialog box titled "Void Posting Reason" contains two input fields. The "Reason:" field is a dropdown menu currently showing "Predefine Reason". The "User Define Reason:" field is a text box containing the text "wrong amount". At the bottom right, there are two buttons: "OK" and "Cancel".

3. Void postings appears with a matching debit and credit amount.

	Date	Department	Credit	Debit	Discount	Vat Tax	POS-Discou	Buyer	Trans.ID	User	Gross
				100.00	0.00	0.00	0.00			A	100.00

Pay Invoice

The Pay Invoice function posts a settlement against an invoice, whether a partial or full payment. The process of settling an invoice by credit card and foreign currency differs from cash settlement. This function requires an open Cashier session to post.

Figure 3-31 Invoice Payment Window

The "Invoice Payment" window is divided into several sections. On the left, the "Payment" section includes a "Department:" dropdown set to "9003 Cash Crew", an "Amount:" field with "288.37" and "USD", a "Notes:" text box, and "Invoice No:" checkboxes for "Invoice 1", "Invoice 2", "Invoice 3", and "Invoice 4", with "Package Invoice" also available. Below these are checkboxes for "Change due enabled", "Collect remaining non-refundable credit", and "Disable Posting Automatically". On the right, the "Calculation" section shows a list of items with their respective amounts: "Package Plan Credit: 0.00", "Non Refundable Credit: 0.00", "Current Balance: 288.37", "Received Amount: 288.37", "Commission: 0.00", "Due Balance: 0.00", and "Change Due: 0.00". At the bottom, there are buttons for "Pay", "Pay & Print", "Cancel", and "Pay & Print Cash Receipt".

Table 3-17 Field Definition of invoice Payment Window

Field	Description
Department	Financial Department codes - Credit.
Amount	Total amount due by guest, depending on the invoice no. selection.
Notes	Additional Notes pertaining to this payment.
Invoice Number	Invoice number to apply the payment.
Change due enabled	Enable auto calculation of change due to guest.
Disable Posting Automatically	Disable postings being posted into the invoice. This sets the Posting Allowed to No in Crew Info tab.
Package Plan Credit	Eligible credit value for Package Plan posting.
Non Refundable Credit	Credit value non-refundable to guest.
Current Balance	Current Invoice Balance.
Received Amount	Amount received.
Commission	Applicable credit card/foreign exchange commission value. Calculate when Charge 1% Commission is ticked or when foreign exchange has commission defined.
Due Balance	Outstanding sum after deducting payment applied.
Change Due	Balance due to crew when payment applied is more than invoice value.
Pay	Apply payment receipted and does not print cash receipt.
Pay & Print	Apply payment receipted and print invoice at the same time.
Pay & Print Cash Receipt	Apply payment receipted and print cash receipt at the same time.

Payment by Cash, Change Due

The Change Due function calculates the amount of change due to a crew when the payment method is either cash or foreign currency. You can set the "change due enabled" to be permanently selected. If this is not set as the default, you must check this option to activate automatic change due calculation when applying a payment.

Paying an Invoice by Cash

1. Retrieve the crew account from the Search Panel and click **Pay Invoice** in the Crew Handling window.
2. The system defaults the payment department according to the payment method defined during check-in. Select **Payment Department** from the drop-down menu, either Cash or Foreign Currency.
3. Select an **invoice** to apply the payment and the system calculates the total amount due by guest.

4. Enter the amount to settle.
 - If **Change due enabled** is selected, and the amount entered is more than the Current Balance, the system automatically calculates the amount and sets the invoice to Zero balance. See [Figure 3-32](#).
 - If the payment is applied without the **Change due enabled** selected, the system posts the amount as a negative value in **Due Balance** field, resembling a deposit. See [Figure 3-33](#).
 - If the payment is an exact amount, the system posts the value as payment receipted with the **Due Balance** or **Change Due** amount field as 0.00. See [Figure 3-34](#).

Figure 3-32 Invoice Payment with Change Due

The screenshot shows the 'Invoice Payment' window with the following details:

- Payment Section:**
 - Department: 9001 Cash
 - Amount: 50 USD
 - Notes: (empty)
 - Invoice No:
 - ☐ Invoice 1
 - ☒ Invoice 2
 - ☐ Invoice 3
 - ☐ Invoice 4
 - ☒ **Change due enabled** (highlighted with a green box)
 - ☐ Collect remaining non-refundable credit
 - ☐ Disable Posting Automatically
- Calculation Section:**
 - Package Plan Credit: 0.00
 - Non Refundable Credit: 0.00
 - Current Balance: 25.00
 - Received Amount: 50.00
 - Commission: 0.00
 - Due Balance: 0.00
 - Change Due: 25.00** (highlighted with a green box)
- Buttons:** Pay, Pay & Print, Cancel, and Pay & Print Cash Receipt.

Figure 3-33 Invoice Payment without the Change Due

The screenshot shows the 'Invoice Payment' window. The 'Payment' section on the left includes a dropdown for 'Department' set to '9001 Cash', an 'Amount' of '50 USD', and a 'Notes' field. Below these are checkboxes for 'Invoice No.' (Invoice 1, Invoice 2 (checked), Invoice 3, Invoice 4) and a 'Package Invoice' checkbox. At the bottom of this section are checkboxes for 'Change due enabled' (unchecked), 'Collect remaining non-refundable credit' (unchecked), and 'Disable Posting Automatically' (unchecked). The 'Calculation' section on the right shows: 'Package Plan Credit: 0.00', 'Non Refundable Credit: 0.00', 'Current Balance: 25.00', 'Received Amount: 50.00', 'Commission: 0.00', 'Due Balance: -25.00', and 'Change Due: 0.00'. The 'Due Balance' and 'Change Due' fields are highlighted with green borders. At the bottom right are buttons for 'Pay', 'Pay & Print', 'Cancel', and 'Pay & Print Cash Receipt'.

Figure 3-34 Invoice Payment with Exact Amount

The screenshot shows the 'Invoice Payment' window with the 'Amount' set to '5.00 USD'. In the 'Payment' section, the 'Change due enabled' checkbox is now checked. The 'Calculation' section on the right shows: 'Package Plan Credit: 0.00', 'Non Refundable Credit: 0.00', 'Current Balance: 5.00', 'Received Amount: 5.00', 'Commission: 0.00', 'Due Balance: 0.00', and 'Change Due: 0.00'. The 'Current Balance', 'Received Amount', 'Due Balance', and 'Change Due' fields are highlighted with green borders. The buttons at the bottom right remain the same: 'Pay', 'Pay & Print', 'Cancel', and 'Pay & Print Cash Receipt'.

5. Press either **Pay**, **Pay & Print** or **Pay & Print Cash Receipt** to complete the transaction. If **Pay** is selected, print a copy of the invoice for crew reference.

Paying an Invoice with Foreign Currency

1. Repeat steps 1 and 2 of the above and select a **Foreign Currency Financial Department**.
2. The exchange rate of the selected payment method appears next to the amount field.
3. Enter the **foreign currency amount** in the Amount field and the converted value appears in Received Amount.

Figure 3-35 Invoice Payment with Foreign Currency

The screenshot shows the 'Invoice Payment' dialog box. The 'Payment' section on the left includes a 'Department' dropdown set to '9505 British Pound', an 'Amount' field with '20.00', and a highlighted 'GBP' currency code with an 'Exchange Rate: 0.50000'. Below this are checkboxes for 'Invoice No.' (1-4), 'Package Invoice', 'Change due enabled' (checked), and 'Disable Posting Automatically'. The 'Calculation' section on the right shows: 'Package Plan Credit: 0.00', 'Non Refundable Credit: 0.00', 'Current Balance: 120.00', 'Received Amount: 40.00' (highlighted), 'Commission: 0.00', 'Due Balance: 80.00', and 'Change Due: 0.00'. At the bottom are buttons for 'Pay', 'Pay & Print', 'Cancel', and 'Pay & Print Cash Receipt'.

4. If the exchanged amount in foreign currency is more than the invoice amount, the system automatically calculates the change due amount in Ship currency when **Change Due Enable** is set as default.
5. Select an invoice to apply this payment to and recalculate the total amount due by guest.
6. Select either **Pay**, **Pay & Print**, or **Pay & Print Cash Receipt** to complete the transaction.

Paying an Invoice by City Ledger

1. Retrieve the crew account from the Search panel, then click **Pay Invoice**.
2. In the Payment Department field, select a **City Ledger code**.
3. Select an **invoice** to settle, and the system calculates the total amount due by guest.
4. Insert the amount to settle. If the exact amount is paid, the system sets the value as payment receipted and Due Balance is 0.00.

Figure 3-36 Invoice Payment by City Ledger

The screenshot shows the 'Invoice Payment' window with the following details:

Payment	
Department:	9074 City Ledger
Amount:	5.00 USD
Notes:	
Invoice No:	☐ Invoice 1 ☒ Invoice 2 ☐ Invoice 3 ☐ Invoice 4
	☐ Package Invoice
☐ Change due enabled	☐ Collect remaining non-refundable credit
☐ Disable Posting Automatically	

Calculation	
Package Plan Credit:	0.00
Non Refundable Credit:	0.00
Current Balance:	5.00
Received Amount:	5.00
Commission:	0.00
Due Balance:	0.00
Change Due:	0.00

Buttons: Pay, Pay & Print, Cancel, Pay & Print Cash Receipt

5. Select **Pay** or **Pay & Print** to complete the transaction. If **Pay** is selected, print a copy of the invoice for crew reference.

Disabling a Posting

In the Invoice Payment window, selecting the **Disable Posting Automatically** check box sets the Posting Allowed to **No** in the Crew Info tab when the invoice balance is 0.00.

Figure 3-37 Disable Posting Automatically

Figure 3-38 No Posting Allowed in Crew Info Tab

You will receive a notification when you try to post a charge to the invoice, and the posting will be rejected.

Resetting Posting Status to Allowed

1. Click the **Posting Status** in the Crew Info tab.
2. At the Enable Posting prompt, select **Yes** to confirm. This will reset the posting to allow.

Figure 3-39 Reset Posting Status

The 'Enable Postings' dialog box asks: "Do you want the account to accept postings?" with 'Yes' and 'No' buttons. To the right is a settings table:

Express C.Out:	No
Posting Allowed:	Yes
Routing Status:	
Serv Chg Amount:	10.00
PPD Category:	Regular Guest
Payment:	VISA

Payment by Credit Card

1. Retrieve the crew account from the Search Panel, and click **Pay Invoice**.
2. In the **Invoice Payment** form, select the **Payment department** from the drop-down list if it is different from the previous payment method.
3. The amount indicated is based on the current outstanding invoice (selected), for example, Invoice 1 balance = \$30, Invoice 2 balance = \$20. When all invoices are selected, the total becomes \$50. If you are paying a specific invoice, deselect the other invoices and adjust the amount accordingly.
4. The percentage (%) commission shown is based on the commission rate set up in *Administration, Financial Department codes* and is selected by default. The commission chargeable appears in the Commission field. If the commission is not applicable, deselect the field.
5. Press **Pay** or **Pay & Print** to complete the transaction. If Pay is selected, print a copy of the invoice for crew reference.

Figure 3-40 Credit Card Commission Selection

The 'Invoice Payment' form contains the following sections:

- Payment:** Department: VISA, Amount: 50.00 USD, Notes: (empty)
- Invoice No:**
 - ☒ Invoice 1
 - ☒ Invoice 2
 - ☒ Invoice 3
 - ☒ Invoice 4
 - ☐ Package Invoice
- ☐ Change due enabled ☐ Collect remaining non-refundable credit
- ☐ Disable Posting Automatically
- ☒ Charge 1.00% commission
- Credit Cards Payment Details:** Card Number: (masked)
- Calculation:**
 - Package Plan Credit: 0.00
 - Non Refundable Credit: 0.00
 - Current Balance: 50.00
 - Received Amount: 50.50
 - Commission: 0.50
 - Due Balance: 0.00
 - Change Due: 0.00
- Buttons:** Pay, Pay & Print, Cancel, Pay & Print Cash Receipt

Print Invoice

The Print Invoice function is similar to the Guest Handling print invoices. It enables you to print invoices in different layouts made available by the Ship. It has a preview function that allows you to view an invoice/statement prior to printing a hard copy invoice.

Printing an Invoice

1. Retrieve the reservation from the Search Panel, and click **Print Invoice**.
2. Select the invoice report to print from the **Report List**.
3. In the Print tab, select the printer, print range, and copies to print.
4. Press **Print** to send the print job to printer.

Figure 3-41 Print Invoice Window

Previewing an Invoice

To preview an invoice before sending the job to a printer,

1. Repeat steps 1 to 2 of Printing an Invoice.
2. Navigate to the Preview tab to view the invoice.
3. Press the **Printer icon** to send the print job to printer.

Figure 3-42 Preview Invoice Before Printing

Email Invoice

In a paperless environment, you can send a copy of the invoice to the guest's email account only when you have an on-board email account listed in the crew account. A special setup by the System Administrator is required before you can email an invoice.

Email an Invoice

1. Repeat steps 1 to 2 of Printing an Invoice.
2. In the Print tab, select **Send Email**. The system prompts a dialog box once the email is sent successfully.
3. Click **OK** to close the dialog box.

Exporting an Invoice

Exporting of invoices to other file formats is possible. Supported file formats are: Acrobat Format, Crystal Report, MS Word, MS Excel and more.
Repeat steps 1 to 2 of Printing an Invoice.

1. In the Print tab, select **Export**.
2. Select the **file format** and **destination type** from the drop-down list when prompted.
3. Select the **page range** to print.
4. Enter the **file name** and **location path** when the system prompts for file saving location.

Custom Excel Export

This function exports the invoice into a predefined Excel format.

1. Repeat steps 1 to 2 of Printing an Invoice.
2. In the Print tab, select **Custom Excel Export**.
3. Enter the **file name** and **location path** when the system prompts you for a file saving location.

Move & Route

The Move and Route function enables you to set up your bills at the time of credit sign up, during the cruise or at the end of the cruise when a crew would like to separate certain charges from the main invoice. You can move the charges easily using the drag and drop method and other available methods that suit the operations.

Moving a Charge from One Invoice to Another

1. Select the **crew account** and navigate to the Invoice tab.
2. Highlight the transaction to move.
3. Press **CTRL** and hold down the left mouse button.
4. Drag the transaction to the location by moving the mouse pointer.
5. Drop the object by releasing the left mouse button.

Figure 3-43 Move & Route Function

	Date	Department	Credit	Debit	Discount	Vat Tax	POS-Disco	Buyer	Trans.ID
	29/01/2015	2020		10.00	0.00	0.00	0.00		
	29/01/2015	1010 Cabin Upgrade		100.00	0.00	0.00	0.00		
All Invoices	1.Invoice	2.Invoice	3.Invoice	4.Invoice	Package				
110.00	110.00	0.00	0.00	0.00	0.00				

6. The original invoice amount decreases and the newly created invoice amount increases.

Setting up a Charge Route

The following functionalities allow crew to separate certain charges to be posted to another invoice throughout the cruise or route them to another account. It might be more feasible to set up routing instructions to move both current and future postings to a new invoice.

1. Select the **crew account** and navigate to the Invoice tab.
2. Click **Move & Route** to open a Move posting menu.

Table 3-18 Definition of Move Posting Tab

Field	Description
From	Default to Crew account, All Invoices.
To	Selectable invoice from Invoice 1 to 4 or another guest/payer account.
What	Department Group or Financial Department code to route.
Why	Reason why charges were routed.

Table 3-18 (Cont.) Definition of Move Posting Tab

Field	Description
When	Type of postings to route.

Figure 3-44 Move Posting Tab

- The system default main invoice is All Invoices. Select the **invoice** where the charges should be routed.
- To route the charge to another guest/payer, enter the **cabin number** and select the **crew name**.
- Select either the **department group** or **financial department code** to route, and insert the routing reason.
- Select the type of posting to route — actual/future postings or actual payments.
- If **Future Postings** is selected, the system automatically places the department code in **Disc, Route, Pkg tab, Routing** window.

See also Disc, Route, Pkg Tab.

Criteria Discount

The following function works the same as Percentage Discount in Disc, Route, Pkg tab and has an additional check box for Actual Postings, allowing you to apply a discount to the actual posting. This function creates a record in the discount section of Disc, Route, Pkg tab when Future Posting is selected.

See Disc, Route, Pkg Tab, *SPMS Discount* on how to apply a discount.

Item Discount

The Item Discounts deducts a specific percentage of selected postings on the crew invoice. The Percentage discount cannot be used as a value discount.

According an Item Discount

1. On the Invoice of the account, mark the posting entitled to the discount, and click the **Item Discounts** button.
2. Insert the **percentage value** in the discount field, and click **OK** to proceed.

Figure 3-45 Item Discount

3. The system posts an adjustment (reverse) against the original posting, sets the adjusted posting to **No Print** automatically, and reports the correct value with the discount value indicated.

Figure 3-46 Example of Item Discount Transactions

Date	Department	Debit	Discount	Vat Tax	POS-Discou	Trans.ID	Gross	Check#
30/01/2015	3070 Minibar	-20.00	0.00	0.00	0.00	14118914	-20.00	123
30/01/2015	3070 Minibar	18.00	2.00	0.00	0.00	14118915	20.00	123
30/01/2015	3070 Minibar	50.00	0.00	0.00	0.00	14118912	50.00	123
30/01/2015	3070 Minibar	20.00	0.00	0.00	0.00	14118912	20.00	123

Hide No Print

This function hides transactions that are marked with No Prints, giving an organized view of the invoice. For example, a voided transactions.

Hiding/Showing No Prints Transactions

Hiding/Showing No Prints Transactions

1. Click the **Hide No Prints** to change the button from **Hide No Prints** to **Show No Prints**, or vice versa.
2. Transactions marked with **No Prints** (pale yellow) are hidden from the invoice window until you click the **Show No Prints**.

NoPrint

This function enables excluding past settlements or voided postings from being printed onto the invoices, and the transaction value must equals to 0.00. The system prompts an error if the balance of the transaction does not equal 0.00

Resetting No Print Transactions to Original State

1. Select the NoPrint transactions, and click **No Print**.
2. Transactions revert to normal postings and no longer appear in pale yellow.

Set Credit Limit

The floor limit is pre-set within the Financial Credit Sub-Department code and is adjustable for specific crew at the jurisdiction of the Chief Purser.

Setting a Credit Limit

1. On the Invoice tab, click **Set Credit Limit** button.
2. Insert the credit value in the dialog box, and click **OK** to override the pre-set credit limit defined in Credit Sub-Department code.
3. If the account exceeds the floor limit or the individual limit, the system prompts a 'Credit Limit Exceeded' on both SPMS and MICROS System during posting and you cannot proceed to post. The same warning prompt appears if the account is routed and payer has a Credit Limit defined.

Figure 3-47 Warning Prompt When Credit Limit Exceeded

Consult your Chief Purser/Front Desk Manager or refer to the Ship's Operating procedure for the next course of action.

! WARNING:

Once the account is closed, this *cannot be undone*.

Close Posting

The Close Posting function generates an interim invoice and closes the zero balanced account without checking out the account. This function does not work when the account still has a balance.

Closing an Account with Close Posting

1. Retrieve the account and navigate to the Invoice tab.
2. Ensure all invoices are 0.00 balance. You will receive a notification prompt when the balance is not zero. Click **OK** to return to the previous window.
3. If the account is balanced, click **Close Postings**.
4. Select **Yes** when the system prompts you for a response. If you select **No**, you are returned to the Invoice tab without closing the postings.
5. Select the **Hide Posting** button on the Invoice tab to hide all closed postings.

More Crew Info Tab

The More Crew Info tab stores additional information such as Other Related Information, Visa/Customs Info and Live Picture update from the main reservation and Crew Info tab.

Figure 3-48 More Info Tab

The screenshot shows a software interface with a top navigation bar containing several tabs: Credit Cards, Safety Info, Flight Info, Documents, Revenue Analyzer, and Custom Info. Below this, a secondary bar includes Crew Info, Disc.Route,Pkg, Invoice: 0.00, **More Crew Info** (highlighted with a green border), Courses & Certs, and Other Info. The main content area is divided into three sections. The top-left section, titled 'Live Picture' and 'Stored Picture', contains two image placeholders and a 'Take Picture' button. The top-right section, titled 'Visa/Customs Info', lists fields for Hair Colour, Eye Colour, Height, and Weight, with a blurred image placeholder. The bottom-left section, titled 'Other Related Info', displays 'Cruise Reservation Related Info: Trav. Insurance: 0' and 'Contract Related Info: Company Original Join Date - Worked Days: 36 days @ 10/29/2014'. The bottom-right section contains an 'External BCard' button.

Take Picture Option

The Take Picture option captures the current crew picture and share it with other modules, enabling other users to easily recognize the crew when dealing with them. The supported picture file format is .jpg or .bmp.

Cruise Reservation Related Info

The Other Related Info section displays the Crew Travel Insurance Number and the number of days worked from the original joined date.

Visa/Customs Info

This section displays the information entered in the Edit Reservation form.

Courses & Certs

All crew members are required to complete the safety and operational courses throughout their tenure, and these courses are recorded the in Course & Certs tab. The required courses/certificates are listed at the top section and completed course in the bottom section of the tab.

1. Select the **course name** from Courses & Certificates Completed section.
2. Click **Assign Course Done**.
3. In the Assign Courses & Certificates form, enter the **Course/Certificate number** and select the **Training Center** from the drop-down list.
4. Update the completion date and select the expiration date accordingly.
5. Once you update the completion date, you cannot change it.
6. Select either **Scan Document** or **Upload File** to store a copy of the certificate.
7. Click **OK** to update the course details.

Editing Course Done

1. Select the **course name** from the Courses & Certificates Completed section and click **Edit Course Done**.
2. In the Assign Course/Certificates form, update the necessary information.
3. Click **OK** to save.

Deleting Course Done

You can delete a completed course from the grid if you have access rights #740 assigned.

1. Select the **course** to delete and click **Delete Course Done**.
2. At the confirmation prompt, click **Yes** to complete the deletion.

Other Info Tab

In the Other Info tab, the crew medical certificates and uniform inventory are stored. You can also enable/disable the cabin telephone from here, this only work with an interface.

Assigning/Editing Medical Certificates

1. Retrieve the account navigate to the **Other Info** tab.
2. Click **Assign** to open the Courses/Certificates window.

Figure 3-51 Assign Course/Certificates

3. Select the type of **Course/Certificate to show** or use the Search field to search for a specific course/certificate.
4. Select the item from the courses displayed.
5. Enter the Course/Certificates Number, Training Centre and the center's address, if any.
6. Select the **Completion Date** using the date-editor.
7. In the Expiration section, select the **validity** of the certificate.
8. Click the **Upload File** to upload a copy of the certificate or use the Scan Document feature to scan a copy of the certificate, if any. This functionality requires an installed scanner.

9. Click **OK** to complete the process.
10. To edit the certificate, select the **certificate** from the list and click **Edit**.
11. Change the necessary information and click **OK** to save.

Uniform Inventory

This functionality records uniforms issued to/returned by the crew. The function buttons are enabled depending on the type of transaction to show.

Adding/Returning Uniform

*					

Add Delete Save

To add or delete an item,

1. Retrieve the account and navigate to the **Effects/Warning** tab.
2. Under the List of Crew Effects for Custom Declaration section, click **Add**.
3. At the Code field, select the item from the drop-down list, enter the quantity, and enter the transaction date.
4. Click **Save** to save the record.
5. To delete an item, select the **transaction** and click **Delete**.
6. At the confirmation prompt, select **Yes** to complete the deletion.

Warnings

The Warnings function enables the Ship operator to record any warnings given to the crew, be it verbal or written and by severity.

Figure 3-57 Crew Warning

Crew Warnings

Warning For

Selection of warning text : 04 Crew cabin dirty during inspect

Warning Text:

Action Taken :

OK Cancel

Adding A Warning

1. Retrieve the account and navigate to the **Effects/Warning** tab.
2. Under the Warnings section, click **New**.
3. At the Crew Warning window, select the **Warning code** , and the **Warning level** and enter **When**, **Place**, and **Issued By** information in the respective fields.

4. Insert a **Shoreside leave denied period from/to**, if any.
5. Select the **warning type** from the drop-down list and enter the **warning text** and **action** taken against the crew.
6. Click **OK** to save the record.
7. To update a warning record, double click the item and update the necessary information, and click **OK** to save the changes.
8. To delete a warning, select the **line item**, click **Delete**, and click **Yes** at the confirmation prompt.

History/Promotion Tab

The History tab stores future and past reservation records, as well as the promotion/demotion during the crew's tenure. Other than the **Future Reservations** section where you can insert, edit and remove a reservation, the rest of the information on this window is not editable.

Figure 3-58 History/Promotion Tab

The screenshot shows the 'History/Promotions' tab in a software application. The interface includes a sidebar with a 'Department Selector' and a main area with three sections: 'Previous Reservations', 'Future Reservations', and 'Promotions/Demotions'. Each section contains a table with columns for dates, times, and descriptions. The 'Previous Reservations' section is highlighted with a green circle labeled '1'. The 'Future Reservations' section is highlighted with a green circle labeled '2'. The 'Promotions/Demotions' section is highlighted with a green circle labeled '3'.

Table 3-19 Field Definition of History Tab

Field	Description
1	This section stores previous reservations by date, cabin number, notes and overall stay duration. Records are captured once the crew checks out.
2	This section stores the future reservations. During System Date Change, the system checks the future reservations records for expected embarkation that falls on the next system date and automatically renews them to Expected Arrival.

Table 3-19 (Cont.) Field Definition of History Tab

Field	Description
3	This section stores promotion/demotion history of crew during their employment.

Creating Future Reservation

1. Click **New** to open the Future Reservations form.
2. Enter the **Cabin Number** and select the **Expected Embarkation/Disembarkation Date**.
3. Clicking **OK** to save and insert the record in the Future Reservation section.

Figure 3-59 Creating Future Reservation

The screenshot shows a Windows-style dialog box titled "Future Reservations". It contains three input fields: "Cabin" (text box with "1015"), "Expected Embarkation Date" (calendar icon and dropdown showing "31/01/2015"), and "Expected Disembarkation Date" (calendar icon and dropdown showing "06/02/2015"). At the bottom are "OK" and "Cancel" buttons.

Editing Future Reservation

In the Future Reservations dialog, do the following:

1. Enter the **Cabin number**.
2. Select the **Expected Embarkation Date** and the **Expected Disembarkation Date** using the drop-down list.
3. Click **OK**.

Adding Promotion/Demotion

1. In the Promotions/Demotions section of the crew, click **New**.

Figure 3-60 Adding Promotions / Demotions

The screenshot shows a window titled "New Promotions/Demotions". Inside, there are two rows of fields. The first row has "Current Department :" and "Current Position :". The second row has "New Department :", "New Position :", "When :", "Reason for Promotion :", and "Remarks :". The "New Department" dropdown is set to "125 Hotel Department", "New Position" to "138B 3rd Purser\Crew Purser", and "When" to "3/4/2015". The "Reason for Promotion" dropdown is empty. The "Remarks" field is a large empty text box. At the bottom are "OK" and "Cancel" buttons.

2. In the New Promotions/Demotions form, select the **New Department**, **New Position**, **When date**, and **Reason for Promotion** from the drop-down list.
3. Insert a remark if any, and click **OK** to save.

Get Credit Cards Function

Similar to Get Credit function in Management module, this function enables you to update the crew's credit card details by swiping the card through the magnetic card reader.

Updating Credit Card Details

1. In the Search Panel, search for the crew, then click the **Get Credit Card** in the Crew Handling window to open the blank Credit Card Entry form.
2. In the blank Credit Card Entry form, swipe the credit card through the magnetic card reader, and the system auto populates the credit card details.

Figure 3-61 Setting Credit Card Spending Limit

The screenshot shows the 'Credit Card Entry' window. The 'Card Details' section has fields for 'Number:', 'Expiry Date:', and 'Owner:'. To the right is a 'EUROCARD MasterCard' logo. Below this, the text 'Use the card to pay for the following invoices :' is followed by a list of checkboxes: 'All Invoices' (checked), 'Invoice 1', 'Invoice 2', 'Invoice 3', and 'Invoice 4'. To the right of this list, the 'Set Spending Limit' checkbox is checked and highlighted with a green box, with an empty text input field next to it. Below that, the 'Make this card active' checkbox is also checked. At the bottom, there are three buttons: 'Manual', 'OK', and 'Cancel'. The 'Manual' button is highlighted with a green box. Below the buttons, the text 'Credit Card Accepted' is displayed and highlighted with a green box.

3. Select the **Set Spending Limit** to enter the credit limit of the card.

Manual Update of Credit Card Details

1. In the blank Credit Card Entry form, click **Manual**.
2. Manually enter the card information: credit card number, expiry date, and cardholder's name, and click **OK** to save.

Figure 3-62 Manual Credit Card Entry Form

The screenshot shows the 'Credit Card Entry' window in manual mode. The 'Card Details' section has input fields for 'Number:', 'Expiry Date:', and 'Owner:'. To the right is a 'Credit Card' logo. Below this, the text 'Use the card to pay for the following invoices :' is followed by a list of checkboxes: 'All Invoices' (checked), 'Invoice 1', 'Invoice 2', 'Invoice 3', and 'Invoice 4'. To the right of this list, the 'Set Spending Limit' checkbox is unchecked, and the 'Make this card active' checkbox is checked. At the bottom, there are three buttons: 'Swipe', 'OK', and 'Cancel'. The 'Swipe' button is highlighted with a green box. Below the buttons, the text 'Please enter card number' is displayed.

3. Click **Yes** at the CC Check prompt to update the credit card details on the crew account.
4. You can view the stored credit card details in the **Credit Card** tab.

Figure 3-63 Crew Handling Credit Card Tab

View Authorizations Inquire Points Redeem Points Restore Points

Registering Multiple Credit Card

You can store multiple card types of a crew member for ease of settlement, which is useful when the crew decides to settle part of an invoice using a different card at the end of the voyage.

1. Repeat steps 1 to 3 of Updating Credit Card Details.
2. You will receive a prompt asking for confirmation to register more than one car. Select **Yes** at the CC Check prompt.

Activating Credit Card for a Particular Invoice

1. In the **Credit Card tab**, select the card to activate, and click **Active Card**.

Figure 3-64 Activating Credit Card by Invoice

2. Select the invoice at the **Activate Credit Card** prompt and click **Activate** to activate the card.
3. The selected invoice appears in the **Invoice column**, and the card is set as **Active**.

Figure 3-65 Multiple Credit Card Assignment

Yes	1	Master Card	*****			No Limit	Yes
Yes	2,3,4	American Express	*****			No Limit	Yes
No	3,4	VISA	*****			No Limit	Yes

Capturing a Signature with Signature Device

Similar to Guest function, if a Signature Capture device is installed, you can store a sample of the crew signature in the Credit Card tab.

Safety Info

The Safety Info tab provides a view of the assigned Safety assignment of a crew member. All the information shown in this tab is updated through the Muster List Assignment function.

Figure 3-66 Safety Info Tab

The screenshot shows a software interface with multiple tabs. The 'Safety Info' tab is selected and highlighted with a green border. The interface is divided into several sections:

- Top Tabs:** Crew Info, Disc,Route,Pkg, Invoice: 0.00, More Crew Info, Courses & Certs, Other Info, Effects/Warnings, History/Promotions.
- Sub-Tabs:** Credit Cards, **Safety Info**, Flight Info, Documents, Revenue Analyzer, Custom Info, Comments.
- Safety Information Section:**
 - Manning Number: 0030
 - Required:
 - Life Boat: Lifeboat 9
 - Safety Department:
 - Muster Station: Musterstation S
 - Safety Group:
 - Safety Role:
 - Safety Function:
 - Safety Function Description:
- Safety Assignments and Remarks Section:**
 - Fire Duties: LIFEBOAT PREP. TEAM. STB.LIFEBOAT 9, FWD.
 - Abandon Ship Duties: 2ND COMMAND LIFEBOAT 9 FWD BOWSING TACKLES
 - Special Emergency Duties: LIFEBOAT PREP. TEAM. STB.LIFEBOAT 9, FWD.
 - Safety Comments:
 - PPD Category : Regular Crew
 - ☐ Excuse from Safety Drill
- Safety History Section:**
 - Table with columns: Manning Number, Start Date.

Flight Info Tab

The Flight Info tab stores the crew flight assignment and home airport location, enabling you to schedule their flights and transfers closer to home airports.

Flight Assignment

You can enter the Arrival/departure flight information and transfer arrangements in the Flight Assignment section.

Figure 3-67 Flight Assignment in Other Info Tab

The screenshot shows a dialog box titled 'Assign New Flight'. It contains the following fields and controls:

- Assign Flight Section:**
 - Flight Direction : **Arrival** (dropdown menu)
 - Flight Date : 29/08/2015 00:00 (dropdown menu)
 - Flight Carrier/No : (dropdown menu)
 - Flight Seat No : (text input field)
 - Flight Class : (text input field)
 - Passenger Name : (text input field)
 - Record (PNR): (text input field)
 - ☐ Onboard Airline Check In
- Buttons:** OK, Cancel

To Add an Arrival / Departure Flight Details

1. In the **Flight info tab**, **Flight Assignment** section, click **Add**.
2. Select the **Flight Direction**, **Flight Date**, and **Flight Carrier/No** from the drop-down list, and enter the **Flight Seat No**, **Flight Class**, and **Passenger Name**.
3. Click **OK** to save the record.

You can only use the Edit assignment to edit the transfer price, number of bags, bag label or seat number.

Figure 3-68 Edit Flight Assignment

The screenshot shows a window titled "Edit Guest Flight" with a blue border and a red close button in the top right corner. Inside the window, there is a section titled "Guest Flight Options" which contains five input fields. The first field is "Transfer Price" with the value "100". The second field is "Number of Bags :" with the value "2". The third field is "Bag Label :" which is empty. The fourth field is "Flight Seat No :" with the value "15". The fifth field is "Flight Class :" with the value "E". At the bottom of the window, there are two buttons: "OK" and "Cancel".

To add a Home Airport

1. At the Home Airport section, click the **Airport** field.
2. Select the **code** from the drop-down list for each field, and enter the validity of the home airport.

Documents Tab

The system stores details of the crew passport, identification or any travel documents captured through the passport/ID scanning device in this tab. The information is purged at the end of the cruise or according to the policy defined by the Ship.

Figure 3-69 Travel Documents Tab

Table 3-20 Field Definition of Travel Documents

Field	Description
Predefined Document Type	Document type configured in Administration Module, For example, passport, identification card.
Document Type	Type of Visa.
Document Name	Document type.
Document Number	Passport or ID number.
Document Issue Date	Document issue date.
Document Expiry Date	Document expiry date.
Document Issue Country	Country document were issued.
Document Issue Place	Document issued place.
First Name	First Name.
Last Name	Last Name.

Table 3-20 (Cont.) Field Definition of Travel Documents

Field	Description
Birthdate	Crew Birthdate.
Code MRZ1	Machine Reader Track 1.
Code MRZ2	Machine Reader Track 3.
Code MRZ3	Machine Reader Track 3.
Number of Entries	Number of entries allowed.
Valid From	Validity of document.
Allow Duration of Stay	Allowed duration of stay on each visit.

Adding / Editing a Travel Document

Figure 3-70 Travel Document Add/Edit Window

The screenshot shows the 'Document Add/Edit' window. The title bar is 'Document Add/Edit' with a close button. Below the title bar is a blue header with the text 'Documents Add/Edit'. The main content area is divided into two sections. The top section, 'Document Details', contains various input fields and dropdown menus. The bottom section, 'Document Photo', includes a checkbox for 'Assign to Account' and a large area for a 'Document Snapshot' with a 'Save Document Image' checkbox. At the bottom of the window are three buttons: 'Upload File', 'OK', and 'Cancel'.

1. In the **Documents** tab, click **Add New** to open the Document Add/Edit form.
2. Select all applicable information from the list or manually enter the information.

3. Click **Upload File** to upload the picture or scanned document.
4. Click **OK** to save the travel document.
5. To edit, click **Edit**, update the relevant information, and click **OK** to save.

Revenue Analyzer Tab

The Revenue Analyzer provides you an analysis of the selected crew by date, department, and transaction number order. It comprises two tabs: **Department Details** and **Item Details**. By default, information displayed on the window is imploded and only the transaction date, net total and gross total appear. To view detailed information, select the **Expand All** check box or manually click the '+/-' key to show/hide the column. You can also click the **arrow down key** on the header to further expand the information in the respective column. This feature is also available in the Management, Guest Handling function.

Figure 3-71 Revenue Analyzer Viewer Window

Transaction Date	Department	Transaction Number	Net Total	Gross Total
2015-01-29 Embarkation Day			10.00	10.00
		Total	10.00	10.00
			5.00	5.00
		Total	5.00	5.00
2015-01-29 Embarkation Day			14.00	14.00
		Total	14.00	14.00
			29.00	29.00
		Total	29.00	29.00
2015-01-30 Island Tour at Danang			10.00	10.00
		Total	10.00	10.00
			10.00	10.00
		Total	10.00	10.00
Total			39.00	39.00

Table 3-21 Field Definition of Revenue Analyzer

Field	Description
Transaction Date	Date transaction posted.
Department	Financial Department.
Transaction Number	System generated transaction ID.
Total	Sub-total of each Financial Department.
Net Total	Total Net amount (Total value excluding discount).
Gross Total	Gross amount (Total value before discount).

Custom Info Tab

The Custom Info tab is a user definable fields that allows you to customize fields according to the operational requirements. The field names are defined in Administration, User Definable Field Setup.

Comments Tab

The Comments tab is designed to handle multiple follow-ups on feedback received. It can be on services rendered, facilities, cabin, and others. You can scan, attach an image file, and manually enter a comment.

Figure 3-72 Comments Tab

The screenshot displays the 'Comments' tab within a software application. The top navigation bar includes tabs such as 'Crew Info', 'Disc.Route,Pkg', 'Invoice: 9.00', 'More Crew Info', 'Courses & Certs', 'Other Info', 'Effects/Warnings', and 'History/Promotions'. The 'Comments' tab is currently selected and highlighted. Below the navigation bar, there is a list of comments on the left and a detailed form for adding or editing a comment on the right. The form includes fields for 'Entry Date', 'Entered By (User)', 'Entered By (User ID)', 'Reported By (Person)', 'Assigned To', 'Comment Category', 'Guest Comments', 'Action', 'Subject', 'Comment Type', 'Resolved By (Date/Time)', 'Associated Cost', 'Urgent' and 'Sensitive' checkboxes, and 'Comment Department Involved'. The 'Add Comment' button is visible at the bottom left of the form.

Adding a Comment/Sub-comment

1. Click the **Add Comment**.
2. In the Comment tab, select the appropriate **fields** from the drop-down list.
3. Enter the **Reported By, Assigned To, Comment Category, Comment**, and **Associated Cost** and check the urgency and sensitivity, if any.
4. Click **Save** to save the record, which adds a **Red Cross indicator** on the Comment tab.
5. When you select a **Comment** and click the **Add Comment**, it creates a sub-comment with the **Comment Category** and **Comment Description** being defaulted to the main comment. The Comment Category and Comment Description are not editable.

Attaching Image File

1. Select a **comment** and navigate to the Document Image tab.
2. Click **Scan Document** or **Upload File** if you are uploading an image from a storage location.
3. Click **Save** to save the image to the database.

Resolving a Comment

1. Select the **main comment** and navigate to **Resolution tab**.
2. Enter the **Resolved by (Person)** and **Resolution Description**, and select the **Resolved** check box.
3. Click **Save** to save the resolution and place a check mark next to the comment (s).
4. Select the **Resolved** check box to set all sub-comments as resolved.

Figure 3-73 Comment Resolution Tab

The screenshot displays the 'Comment Resolution Tab' interface. On the left, a 'Comment' panel shows a list of comments, including 'CABSAF|23/08/2015 10:49:32| Complaint - Service by T' and '23/08/2015 11:04:40 Complaint - Service by TESTER'. Below this list are buttons for 'Add Comment', 'Remove Comment', 'Remove Resolution', 'Save', 'Undo', and 'Spell Check'. The main 'Resolution' tab on the right contains the following fields:

- Entry Date:** 23/08/2015 11:12:46
- Entered By (User):** TESTER, [redacted]
- Date/Time Resolved:** 23/08/2015 (dropdown) 11:12:46 (dropdown)
- Resolved By (Person):** [empty field]
- Resolution Code:** [dropdown menu]
- Resolution Description:** [text area]
- Comments:** [text area]
- External Code:** [empty field]
- Associated Cost:** 0.00
- Resolved:** ☐ (checkbox)

Renew Reservation Function

1. Navigate to the Check Out tab in the Search Panel.
2. By default, the date is set to System Date in the Search Panel. Change the date to the passenger checked-put date.
3. Enter the crew's **Last Name** or use the alphabets tab to search for the last name. Select the **ALL** tab to list all passengers departed on the date specified.
4. Click the **Re-New Reservation** located in the Crew Handling window.
5. At the New Crew Reservation prompt, select **Yes** to renew the reservation.
6. Click **Edit Information** to change the expected arrival date and any other required information.

Check In Function

Crew joining the cruise are expected to checked-in to the system prior to boarding, and these reservations are categorized under the Expected tab.

1. Retrieve the reservation from the Search Panel, **Expected** tab and click **Check In**.
2. At the Check In prompt, select **Yes** to check in the reservation and print the key card at the same time.

Check Out Function

At the end of the voyage, all crew accounts must be checked-out from the system. This is to ensure all accounts are in balance before performing a System Cruise Change.

To check out a crew,

1. Retrieve the reservation from the Search Panel, Check In tab and click **Check Out**.
2. At the Check Out prompt, select **Yes** to check out the reservation.
3. If the account is unbalanced, you will be prompted to settle the invoice before proceeding. Click **OK** to return to the crew account.

Figure 3-74 Unbalanced Invoice

See *Pay Invoice* section for steps on how to settle an account.

Print Board Card Function

The Print Board Card function enables you to print a copy of the crew board card, if they are not printed earlier. These cards are printable from the Crew Handling window.

1. Retrieve the reservation from the Search Panel and click the **Print Board Card**.

Figure 3-75 Board Card Number in Crew Info Tab

The screenshot displays a form titled 'Crew Info' with the following fields and sections:

- Cabin Information** (Section Header)
- Cabin Cleaning State
- Crew Cabin:
- Status:
- Clock in/out Status:
- Department:
- Position:
- National ID:
- Embarkation:
- Port:
- Disembark:
- Port:
- Age:
- Handicapped:
- Shore-G.ID:
- Charge ID:** (This field is highlighted with a green box)
- Folio Number:
- Privilege Level:
- Posting Allowed:
- Routing Status:
- Payment:
- H/Bar S/Chg Start
- H/Bar S/Chg End
- Stay Overnight Shoreside

2. The process increases the Board Card number shown in the Crew Info tab, and the last digit of the board card denotes the number of times the board card was re-printed. The first printed card always ends with zero.
3. The Status of the printed card is reflected in the Batch Board Card Printing window. If the card status is failed, clicking the **Reprint All failed print job** will reprint it.

Figure 3-76 Batch Board Card Printing

4. If the board card fails to print, check the Interface or Printer connectivity.

Resetting a Board Card

If a board card is lost, a change of lock combination for the cabin is necessary. This process assigns a new board card number to **all** occupants of the same cabin.

1. Retrieve the reservation from Search panel and click the **Reset Board Card**.
2. At the Reset Board Card prompt, select **Yes** at the Recreate Cards prompt.

WARNING:

This process invalidates all previously issued cards.

3. At the **Batch Board Card Printing** prompt, click **Close** if the card is printed successfully. Otherwise, repeat the above process.

4

Board Card

The Board Card function enables you to print board cards by batch, based on the criteria set in a template.

See [Advanced Board Card Printing User Guide.pdf](#) for details about setup and printing.

5

Safety

Every crew member on board is assigned with specific Emergency roles. You can define them in the Safety management function within the Safety tab. The defined emergency roles can be a standard when assigning emergency functions across the fleet, based on the crew accreditation.

Muster List Setup

The Muster List setup is a representation of the Ship's emergency stations. The information entered here requires a crew entry and will become the foundation for future safety reporting purpose. The Safety Manager or Safety Coordinator is responsible in setting up and updating this information.

This function is controlled by the **Safety, Advance Safety Drill** (0= Standard / 1= Advance Safety Drill) parameter. The Muster List Setup for Standard Safety Drill Mode is described below.

Definition Emergency Duties Eligibility Drill Definition

The Standard Muster List Setup mode comprises four main tabs: Definition, Emergency Duties, Eligibility and Drill Definition. Each of these tab defines the Safety task to be carried out during emergency, required accreditation, and the drill courses.

Search Panel

The information displayed in the Muster List Setup is managed using the filter selection of the Search Panel, for example, filter by Safety Department, Safety Group, Muster Station, Safety Position, In Port Manning (IPM group), Emergency Function, Life Boat, or Life Raft.

In the Summary Section:

- You can see the total number of Required/Optional Safety Numbers Assigned/ Unassigned

- Active Safety Numbers has a check mark in the Active column.

Definition Tab

The Definition section defines the safety number associated to the safety information.

Figure 5-3 Definition Tab

Table 5-1 Drill Definition Tab

Field	Description
Compliance	Safety Number flag – Required or Optional.
Manning Number	A unique Safety Number that identifies the Emergency Function. Field is compulsory and alphanumeric.
Safety Department	Crew Safety Department related to Emergency Function. Field is compulsory and reference to setup in Administration, Safety Setup, and Safety Department.
Safety Position	Defines the Safety Position in emergency, and is a compulsory field.
Safety Group	Grouping of related safety functions. Reference to Administration, Safety Setup, Safety Group.
Safety Role	Crew Safety Role. Reference to Administration, Safety Setup, Safety Role.

Table 5-1 (Cont.) Drill Definition Tab

Field	Description
Safety Function	Function define in Survival Craft. Reference to Administration, Safety Setup, Survival Craft Function.
Muster Station	Muster Station assigned to the Safety Number. Reference to Administration, Safety Setup, Muster Station.
Life Boat	Life Board assigned to a specific emergency function. Reference to Administration, Safety Setup, Life Boat.
Current Assigned Crew	Crew currently assigned to the Safety Number.
Scheduled Crew	Crew scheduled to the Safety Number.
Assignment History	Past records of crew assigned to the Safety Number.
Comments	Additional comments pertaining to the Safety Number.

Emergency Duties Tab

The Emergency Duties to be carried out by crew that are assigned to the Safety Number are defined in this tab. The headings of the Emergency Type are set up in **Administration, System Setup, Label Setup** under **SFTEM** group.

Figure 5-4 Emergency Duties Tab

The screenshot displays the 'Emergency Duties' tab, which is highlighted with a green border and a warning icon. The tab is divided into several sections, each with a title and a set of configuration fields:

- Fire Duties:** Includes fields for Safety Group (ALMS ASS. LEADER), Safety Role (2COMLB 2 ND COM), Safety Function (ABOSUN ASSISTS B), and Muster Station (undefined). Comments: 466 characters left.
- Oil Pollution Duties:** Includes fields for Safety Group, Safety Role, Safety Function, and Muster Station, all set to (undefined). Comments: 481 characters left.
- Abandon Ship Duties:** Includes fields for Safety Group, Safety Role, Safety Function, and Muster Station, all set to (undefined). Comments: 465 characters left.

- Man Overboard Duties:** Includes fields for Safety Group, Safety Role, Safety Function, and Muster Station, all set to (undefined). Comments: 481 characters left.
- Emergency 8 - User Definable:** Includes fields for Safety Group, Safety Role, Safety Function, and Muster Station, all set to (undefined). Comments: 500 characters left.

At the bottom of the interface, there is a navigation bar with four icons and labels: 'Definition' (gear icon), 'Emergency Duties' (warning icon, highlighted with a green border), 'Eligibility' (person icon), and 'Drill Definition' (bell icon).

Eligibility Tab

In the Eligibility tab, the required Operational Position courses and certifications are defined in accordance to SOLAS regulation and the Ship's safety rules.

Definition Emergency Duties Eligibility **Drill Definition**

Adding Manning Number

1. At the Muster List Setup window, click **Add New**.
2. Enter all of the required fields in the Definition tab using the drop-down list.
3. Navigate to the Emergency Duties tab and define the type of duties for the Safety Number by selecting the Safety Group, Safety Role, Safety Role, Safety Function and Muster Station from the drop-down list.
4. Navigate to the Eligibility tab and select the mandatory requirements, courses/certification and Operational Position by selecting the respective check boxes.
5. Click **Save** to save the Safety Number.

Duplicating Manning Number

You can duplicate a Safety Number when the majority of the information is the same.

To copy the Safety Number:

1. Select the **Safety Number** from the Search Panel and click **Duplicate**.
2. Update the necessary information and click **Save** to save the record.

Deleting Manning Number

You can delete a Safety Number that is not in use, simply by selecting the Safety Number and clicking **Delete**.

Configuring Advance Muster List Setup

The Advance Muster List Setup has fewer tabs than the Standard Muster List Setup. It comprises two main tabs, which are Definition and Eligibility.

Definition Tab

In the Definition section, you can define the safety number associated to the safety information. It has additional fields compared to the Standard Muster List setup.

Figure 5-7 Muster List Setup Definition Tab

Table 5-3 Muster List Setup Field Definition

Field	Description
Compliance	Safety Number flag – Required or Optional.
Manning Number	A unique Safety Number that identifies the Emergency Function. Field is compulsory and alphanumeric.
Safety Department	Crew Safety Department related to Emergency Function. Field is compulsory and reference to setup in Administration, Safety Setup, Safety Department.
Safety Position	Define the Safety Position in emergency, and is a compulsory field.
Safety Group	Grouping of related Emergency function, and is a compulsory field.
Emergency Station	A station assigned to the Safety Number. Reference to setup in Administration, Safety Setup, Muster Station.

Table 5-3 (Cont.) Muster List Setup Field Definition

Field	Description
Safety Role	Crew Safety Role. Reference to Administration, Safety Setup, Safety Role.
Muster Station	Muster Station assigned to the Safety Number. Reference to Administration, Safety Setup, Muster Station.
Life Boat	Life Board assigned to a specific emergency function. Reference to Administration, Safety Setup, Life Boat.
Safety Function	Function define in Survival Craft. Reference to Administration, Safety Setup, Survival Craft Function.
Critical E#	An indicator flag if the Safety Number is a critical Emergency Number.

Eligibility Tab

The information contained in this tab is similar to the Eligibility tab in Standard Muster List Setup.

To set up the Advance Muster List Setup, see steps in the Adding Manning Number section.

Muster List Assignment

The Muster List Assignment function is where you assign a specific Safety Number to crew members onboard or expected to arrive.

This function is the second option from the Safety menu, and the assignment is done by either Function or Person. The behavior of the Muster List Assignment is dependent on the **Safety, Allow Multiple Safety Number Assignment** parameter.

All records in the Muster List are active assignments that you commit after changes have been made. The system checks and ensures only qualified onboard crew members are assigned to the specific Safety Number /Function, based on crew's qualifications and the Muster List Setup.

Standard Muster List Assignment

Active Muster List Assignment — Standard

The Muster List Assignment has two functions that are an assignment by function or person. Although the information on these tab is different, they yield the same results.

The Assign by Function tab has two sections:

- Muster List and Eligible Crew.
- Assign by Person, which consists of the Crew List and Eligible Function.

Assign by Function Assign by Person

Save Active Muster List Reload Active Muster List

In the Assign by Function tab, you will see a summary of assigned/not-assigned count, with a list of all Safety Numbers associated to a position of the Muster Station underneath it.

In the Eligible Crew section, lists of crew matching the eligibility criteria and to be assigned to the Safety Number is shown. A list of courses taken is shown in the grid if this is defined in the **Safety, Display Valid Courses on Muster List Assignment** parameter.

You are allowed to save or reload the Active Muster List in both tabs.

- **Save Active Muster List:** Saves all current safety number assignments as backup in a text file format.
- **Reload Active Muster List:** Allow restoration of backed up safety number assignments based on the saved muster list file. You can use this function to undo all the changes after activating the Schedule Muster List.

Assigning Safety Number by Function

1. In the Muster List Assignment window, click **Active and Assign by Function**.
2. Select the criteria from the drop-down list.
3. To view more information about the selected Safety Number, click the **Show Emergency Duties**.

1. Navigate to the Eligible Crew section and further filter the information to display.
2. Double-click the Crew name to view the Crew Eligibility Status and course history.
3. Select the **Crew name** and then click **Assign Function**. You can assign only crew members with on-board status.
4. In the confirmation prompt, click **Yes** to proceed, which places a check mark on the **Assigned** column, or click **No** to return to the previous window.

Assigning Safety Number by Person

In the Assign by Person tab, crew on-board/expected are listed.

The Eligible Function section displays crew members who match the eligibility function to the Safety Number, including the courses taken if they are defined in the **Safety, Display Valid Courses on Muster list Assignment** parameter.

Assigned functions display a check mark. Information on the grid may vary depending on the black filter selection.

Assigning Safety Number

1. In the Muster List Assignment window, click **Active and Assign by Person**.
2. Select the criteria from the drop-down list.
3. To view more information about the selected Safety Number, click the **Show Emergency Duties**.
4. Select the crew name and click **Assign Function** in the Eligible Function section.
5. If the Safety Number is assigned, the system prompts and override confirmation. Select **Yes** to reassign the Safety Number to the selected crew.

Un-assigning Safety Number by Function

1. Select the crew you wish to un-assign and click the **Unassign Function**.
2. At the confirmation prompt, click **Yes** to proceed.

Scheduled Muster List Assignment - Standard

This function allows Safety Officers to plan ahead and assign a safety number in advance, allowing the arriving crew to replace crew members due to disembark.

In the Scheduled tab, the system checks and ensures only qualified Onboard and Expected crew members are assigned to the specific emergency functions.

The assignment of Safety number per crew or by onboard/expected is managed by the **Safety, Allow Safety No Assignment to Onboard or Expected** parameter. See Appendix — Parameter for further details.

Figure 5-11 Standard Schedule Muster List — Assign by Function

The screenshot displays the Oracle Safety Management System interface for the 'Muster List' assignment. The 'Active' tab is selected, and the 'Scheduled' sub-tab is active. The 'Muster List' section shows a search for 'Found 751' with a table of assigned and unassigned functions. The 'Eligible Crew' section shows a search for 'Found: 4' with a table of eligible crew members. The interface includes various filters and search options to refine the assignment process.

☐						Expected	8/22/2015	11/4/2015			

Figure 5-12 Advance Schedule Muster List — Assign by Function

The screenshot displays the 'Assign by Function' tab in the Oracle Advance Schedule Muster List window. The interface is split into two panes. The left pane, titled 'Muster List', contains a table of crew members with columns: Assigned (checkbox), Manning Number, Description, Priority, and Course Code. Above the table is a summary box for 'Found 751' with counts: Required (4), Optional (0), Assigned (746), Not Assigned (1), Duplicate (0), and Unassigned (0). Below the table are search and filter options. The right pane, titled 'Assigned Crew', contains a table of assigned crew members with columns: Assigned (checkbox), Last Name, First Name, Manning Number, Safety Department, Operational Position, Status, Embark Date, Disembark Date, and Crew External ID. Above this table is a summary box for 'Found: 160' and an 'Unassign Function' button. Below the table are search and filter options. At the bottom of the window are buttons for 'Assign by Function', 'Assign by Person', and 'Activate Scheduled Muster List'.

The information displayed in the Assign by Function tab is similar to Active Muster List and has an additional filter by **Embarkation From/To** and **Disembark From/To** in the Eligibility section.

Scheduling Safety Number by Function

1. In the Muster List Assignment window, click **Schedule**.
2. Select the criteria from the drop-down list.
3. To view more information about the selected Safety Number, click the **Show Emergency Duties**.
4. Navigate to the Eligible Crew section and further filter the information to display.
5. Double-click the crew name to view the Crew Eligibility Status and course history.
6. Select the **crew name** and click **Assign Function**.
7. At the confirmation prompt, click **Yes** to proceed. This places a check mark on the Assigned column or **No** to return to the previous window.

Un-assigning Safety Number by Person

1. Select the **crew** you want to un-assign and click **Unassign Function**.
2. At the confirmation prompt, click **Yes** to proceed.

Figure 5-13 Schedule Master List Assignment by Person

The function in Assign by Person is the same as Assign by Function, with an added functionality to customize the grid display color scheme for crew onboard or expected.

Scheduling Safety Number

1. In the Master List Assignment window, click **Schedule**.
2. Select the criteria from the drop-down list.
3. To view more information about the selected Safety Number, click the **Show Emergency Duties** in the Eligible Function section.
4. Select the **crew name** and click **Assign Function** in the Eligible Function section.
5. If the Safety Number is assigned, the system prompts an overriding confirmation. Selecting **Yes** reassigns the Safety Number to the selected crew.

Activating Master List

In the scheduling mode, the Activate Scheduled Master List activates all of the changes made to the Safety Number/Functions assignment. Once this is activated and committed, you will see the changes in the Active Master List.

1. Under the Eligible Crew section in Schedule Master List, click **Activate Scheduled Master List**.

Figure 5-14 Activate Schedule Muster List

2. In the Activate Scheduled Muster List dialog window, check the **Save to logfile** if you wish to save the process into a log.
3. Click **Start** in the dialog window and select **Yes** at the confirmation prompt.
4. The number of records processed appear on the status bar.
5. During this process, the system checks and prompts a warning if discrepancies are found, for example, the status of the assigned crew is still in Expected status or a new crew has the same safety number as an existing crew onboard.

Figure 5-15 Crew Safety Number

- Click **Exit** once the process status shows Completed. The log file is saved in the Oracle Hospitality Cruise program folder.

 Note:

The system can automate the Safety Number assignment without prompting a dialog box based on values defined in the **General, Duplicate Safety Number Action** parameter. See Appendix — Parameter for more information.

Refresh Scheduled

The Refresh Schedule functionality imports the previously saved Activate Schedule Muster List into the current Schedule muster list. For emergency assignment prior to the embarkation date, the Safety Officers must compile the current crew manifest and import it into the Schedule.

Re-importing the current crew manifest allows the Safety Officer to determine the status of newly embarked crew and those scheduled to disembark, and ensures the Muster List has the current data and assignments.

Refreshing a Schedule

Figure 5-16 Confirmation of Re-Import

- Click **Refresh Schedule** on the ribbon bar.
- Take note of the last import date at the confirmation prompt before proceeding. Once you proceed, the system refreshes and overrides any unsaved Scheduled Muster List with the Active Muster List.

Show Duplicate

The system permits only one (1) Emergency Function per crew member, with the exception in the Scheduled Muster List where the same function assignment to an Expected Crew Member and Onboard Crew member is allowed. You can use this function to show all duplicate assignments and make corrections where necessary.

Depending on the selected tabs – Active or Scheduled and when you click the Show Duplicate, the system prompts a list of duplicate Emergency Function assignments. The

Safety Officer is required to re-assigned the Emergency Function to a unique crew member, if any.

Export

1. In the Muster List Assignment window, click **Export** to export all the data.

Figure 5-17 Export to Excel

2. The system launches the Microsoft Excel application and transposes the information on a spreadsheet when the export completes.
3. Save the file to your chosen location.
4. Click **Exit** to return to the Muster list Assignment window.

Violation Overview

It is mandatory for crew to complete certain courses/certificates related to their safety number but not all are on the eligible operational position list, or vice versa. In the Violation Overview window, you can filter and view the violation, if any. You must have access right #4655 — *Access to Violation Overview* granted in order to access this function.

Figure 5-18 Safety Violation Overview

You can select only one of the following violations from the drop-down list:

1. **Operational Requirement Violation:** Crew with Safety number assigned but Operational Position not linked to an assigned Safety Number.
2. **Qualification Requirement Violation:** Crew with Safety number assigned but does not fulfil the primary/substitution course and certificate required for that safety number.
3. **Both:** Crew that violates both of the above requirements.

To view the violation, select **Violation Type** from the drop-down list.

In Port Manning

The In Port Manning (IPM) is a special function that enables the Safety Officer to assign and schedule crew duty while the ship is docked in port. This function is enabled by the **Safety, Allow to use a special In Port Manning handling = 1** parameter.

The following setup must be in place before you use this function Configure the setup in Administration, Safety Setup and System Setup. See *Administration User Guide, Safety Setup*.

- IPM Group or otherwise known as Safety Group
- Safety Roles
- Safety Department
- In Port Occurrence
- IPM Parameter

IPM Port Occurrence

The IPM Port Occurrence distinguishes the Safety Occurrence of some IPM duties or functions that could be different when the ship docked at different types of ports. For example,

- **At Port:** Ship is docked alongside the port.
- **Tender:** Ship is docked at Tender Port.
- **Undefined:** Ship is at Sea Day.

The occurrence is linked to System Cruise in Administration, System Cruise Setup. IPM Port Type.

In Port Manning Setup

The IPM Setup consists of two tabs: an Overview and the IPM Setup. Multiple IPM Group can be set up with safety functions defined on each one. In each of the IPM's, only one Safety Department can be assigned and is based on the IPM Port Occurrence.

Assigning IPM Group

Figure 5-19 IPM Setup

The screenshot shows the 'IPM Setup' window with two main sections: 'In Port Manning Groups/Functions' and 'IPM Compliance'.

In Port Manning Groups/Functions: This section has a tab for 'All Assigned/Unassigned'. It contains a table with columns: Assigned, IPM/Safety Role, IPM/Safety Role Description, and Comments. The table lists several roles: IAOC (ALL OVER COMMAND), 2NDIC (SECOND IN COMMAND), M (MEMBER), OSC (ON SCENE COMMAND (FIRE)), SL (SUBLEADER), and TL (TEAM LEADER). The 'Assigned' column has checkboxes, with 'IAOC' and 'TL' currently checked. A search bar at the bottom shows 'Found: 6'.

IPM Compliance: This section has a dropdown for 'Occurrence Required for:' with options 'Port Only', 'Tender Only', and 'Port/Tender'. Below it is a 'Safety Department' dropdown set to '3 Hotel - General'. A table lists IPM/Safety Roles and their details: 2NDIC (SECOND IN COMMAND) and TL (TEAM LEADER). The table columns are IPM/Safety Role, IPM/Safety Role Description, Comment, Safety Department, Required, and % Required of The Group. The 'Required' column shows values 1 for both roles. A search bar at the bottom shows 'Found: 2'.

Table 5-4 Field Description of IPM Setup Window

Field	Description
IPM Groups/Functions	List of available IPM Groups.
Assigned	Indication of IPM Group currently assigned if check box is ticked.
IPM/Safety Role	Defines the Safety Department the IPM Group belongs to.
Occurrence Required	Occurrence based on selected port and IPM Group. Port Only: Belongs to specific Safety Department Occurrence at Port. Tender Only: Belongs to specific Safety Department Occurrence at Tender Port. Port/Tender: IPM Group applicable to both type of port.
Required	Define the number of required crew member(s) to remain onboard to perform the safety function and this may be overwritten. This value takes precedence if no value is define in % Required of The Group.
% Required of The Group	Define the minimum number of crew onboard by percentage. If the number of crew in the group changes, the required crew onboard changes automatically based on the percentage specified. For example, a safety group with 20 crew members and percentage is set to 50%, the required crew is 10.

1. From the Safety Menu, select **In Port Manning Setup** from the drop-down list.
2. Navigate to the **IPM Setup** tab and select the **Occurrence Required** and **Safety Department**.
3. Select the **In Port Manning Groups/Functions** and click the **right arrow**.
4. In the Required or % Required of the Group Field, enter the desired value.
5. Use the Search function to search for the IPM Group. The search field is case sensitive.

Defining IPM Eligibility

In Port Manning (IPM) eligibility is based on the crew member's Operational Position, Emergency Functions (Muster List), or Course and Certificates. The selection can either be one or both of these criteria.

1. At the IPM Setup window, IPM Compliance section, double-click the **IPM/Safety Role Description** field.
2. Select the eligibility by **Operational Positions**, **Emergency Functions** or **Course and Certificates** per each IPM Group.

Figure 5-20 IPM Setup Eligibility

The screenshot shows the 'IPM Setup Eligibility' window. At the top, there are 'Save' and 'Exit' buttons. Below them is a header 'TL - TEAM LEADER'. Underneath, it says 'Selected : 3' and 'Staff Engineer, 1st Engineer, 2nd Engineer'. The main area contains a table with three columns: 'Eligible', 'Operational Code', and 'Operational Position'. The table lists various roles with checkboxes in the 'Eligible' column. The 'Operational Positions' tab is selected and highlighted with a green box.

Eligible	Operational Code	Operational Position
☐	111	Chief Engineer
☒	112	Staff Engineer
☒	113	1st Engineer
☒	114	2nd Engineer
☐	115	3rd Engineer
☐	116	Cadet Engineer
☐	117	Hotel Engineer
☐	128	2nd Purser

Search: Search Found : 309

Departments: (All) ▼

Operational Positions Safety Function Courses & Certificates

- **Operational Positions:** Crew members whose position matches the selected operation position.
 - **Safety Function:** Crew members whose safety number assigned is the same as the selected safety function.
 - **Course & Certificates:** Crew members have either completed the selected primary course or selected a substitution course and primary certificate or selected substitution course.
3. When you un-assign the IPM Group from the Safety Department, the system checks whether the IPM Group has crew members assigned in the IPM Assignment.
 4. If the answer is yes, you will receive a warning message before you can proceed.
 5. When the IPM Group has crew members scheduled, you cannot un-assign the IPM Group from the Safety Department.
 6. Click **Save** to save the selection, and click **Exit** to close the window.

Overview of IPM Setup

In Port Manning (IPM) eligibility is based on crew member's Operational Position, Emergency Functions (Muster List) or Course and Certificates. The selection can either be one or both of these criteria.

This function shows all of the required Head Count, Eligible Operational Positions, Emergency Functions, Required Course, and Certificate per each Safety Department, IPM Group/Function.

Figure 5-21 IPM Overview Window

Safety Department	Port/Tender	IPM/Safety Rule Code	IPM/Safety Role Description	Required Headcount	Eligible Position Codes	Eligible Position Names	Eligible Safety Function Code	Eligible Safety Function Names	Required Course Codes	Required Course Names	Required Certificate Codes	Required Certificate Names
Administration	Tender	SAOC	ALL OVER COMMAND	1	111,146,103,102,104,103	Chief Engineer, Excursion Manager, Captain, Staff Captain, 1st Officer, Safety Officer			CA-01	Course A	CE-01	Cert A
Engine	Port/Tender	M	MEMBER	1	136b,136,130a,136a,137,138,138a,136,101	2nd Purser/Accounting Mgr., Accounting Mgr., Cadet Purser/Crew Purser, 3rd Purser/Accounting Mgr., IT Systems			CA-01	Course A	FADVAN	Basic Safety Training
	Port/Tender	TL	TEAM LEADER	1	107,106,105,103,104	Cadet Officer, 3rd Officer, 2nd Officer, Safety Officer, 1st Officer						
Ship's Command	Port/Tender	2NDIC	SECOND IN COMMAND	2	191,193,193A,192	Chief Electrician, 1st Electrician, Electronic Technician, Chief Fireman						

Double-click the field name on the Overview window to assign the eligible Operational Positions or Emergency Functions.

IPM Assignment

Other than setting up the In Port Manning (IPM), the Safety Officer must assign onboard crew members based on their eligible criteria in the respective IPM Group. In this function, only crew members who are on-board are shown in the IPM Assignment window. Crew members who have signed off will not be listed.

Assigning Crew to IPM Group

1. From the Safety menu, select **IPM Assignment**.
2. In the IPM Assignment window, select the **Occurrence Required** to display, and select the **Safety Department** from the drop-down list.

3. The **Operational Department** to display defaults to **All**. Select the department if required.
4. Select the **Type of Eligibility** to display and/or **type of crew** to filter from the drop-down list.
5. Select the **Assigned** check-box to assign the selected crew from the grid individually or use the **Select All** to assign all crew shown in the grid.
6. Crew members with multiple assignments have an additional IPM Code in the **Belongs to IPM** column. To view crew with multiple assignments, select **crew members** with Multiple Assignment from the Filter option.
7. Once a crew is assigned to the IPM Group, the number of crew assigned to the IPM Group then populates in the Compliance Requirements.
8. Some of the IPM Groups could have the same eligible Operational Positions or Emergency Functions and may appear or be assigned to more than one IPM Group, depending on the Ship's operation.
9. Assignment of a crew to multiple IPM Group is controlled by setting the **Safety, InPortManning Enable One Crew Assignment per Group** parameter to zero. If the parameter is set to 1, the system prompts a dialog before removing the Crew from the previously assigned IPM Group.
10. To un-assign the crew from the IPM Group, deselect the **Assigned** check box and at the message prompt, select **Yes** to confirm.

IPM Scheduling

The In Port Manning (IPM) Scheduling Tool allows the Department Head to schedule daily tasks for crew members on duty when at port based on the set up in the IPM Group and IPM Assignment.

In the IPM Scheduling window, the system displays IPM Groups per department based on IPM Port Occurrence setup for that day. See IPM Port Occurrence for more information.

In the Scheduled Crew Members section, the system display the list of crew members according to the respective IPM Assignment and crew embarkation/disembarkation within the system cruise date.

Crew members who have IPM duties are not allowed to go ashore. The Gangway Security staffs receives an alert when crew members swipe their card at the gangway. This setting is configured in **Administration, Security Alert Setup** using a script. Please consult Oracle Support for more information.

Figure 5-22 IPM Scheduling Window

The screenshot shows the 'In Port Manning - Schedule Overview' window for Saturday, January 31, 2015. The window is divided into several sections:

- Calendar:** A calendar for January 2015 with the 31st highlighted in green.
- Legend:** Shows 'IPM Port Day Color' (green) and 'IPM Tender Day Color' (blue).
- Filter:** Includes a dropdown for 'Department' (set to 'All'), a dropdown for 'Crew Scheduling' (set to 'Show All'), and a 'Time Range' section with 'From' and 'To' time pickers (set to 6:00:00 PM and 10:00:00 PM respectively) and an 'Update' button.
- Daily Schedule Overview by Safety Department:** A table showing crew assignments for the selected date.

Safety Department	IPM/Safety Role - Code & Descr	Crew Available	Crew Required	Crew Scheduled	Debarb Date
8 - Ship's Command	2NDIC - SECOND IN COMMAND	4	2	0	2
2 - Engine	M - MEMBER	26	1	1	0
2 - Engine	TL - TEAM LEADER	18	1	2	-1
Totals:		48	4	3	1
- Scheduled Crew Members:** A table showing the schedule for selected crew members.

Scheduled	Operational Position Code	Name	Operational Position	Operational Dept	Onboard Status	Debarbation Date	Previous Cruise IPM Duty Count	Current Cruise IPM Duty Count	From Time	To Time
☒	103				Onboard	1/13/2017	1		6:00:00 PM	10:00:00 PM
☒	103				Onboard	8/30/2018	1		2:00:00 PM	6:00:00 PM
☐	103				Onboard	3/3/2015	1		12:00:00 AM	2:00:00 AM

In the window, only the crew with IPM Assignment can view other crew members within the same IPM group.

For example:

Crew A, B, C are eligible to IPM Group – Commander Lifeboat. Assign crew A, B to same IPM Group, where crew C does not belong in any IPM group. If crew C logs in, IPM scheduling will not show any available crew for scheduling. If crew C is assigned to the IPM group and logs in, IPM scheduling then shows all available crew members who belong to the same group of logged in crew.

Scheduling a Crew

1. In the IPM Scheduling window, select the **date** and the **Safety Role** from the Daily Schedule Overview by Safety Department.
2. In the Scheduled Crew Members section, select the **Scheduled** check box of the crew.
3. In the Time Range editor, select the **check box** and adjust the time accordingly, and click **Update** to populate the new time.

You can schedule one crew duty in advance over the period of the current cruise. If a crew member is assigned to more than one IPM groups, only one duty per day is allowed.

If scheduling is performed on the same day as the System Date, the system only allow you to schedule crew members whose status is onboard. This is to prevent accidental assignment to crew members who are already ashore and not able to perform the duty.

All schedules performed on past cruises are not modifiable.

Ashore Deny List

This function restricts the crew movements by denying them from going ashore, using either by Safety Number, Nationality, Name/Cabin/Crew ID, or Manning Number.

Denying Crew From Going Ashore

1. From the **Safety Menu**, select **Ashore Deny List** option.
2. Select the **Cruise Date** from the drop-down list and click **Refresh**.
3. Select the tab to add the deny list and enter the **search identifier**.
4. In the Additional Information section, enter the date to deny from/until and reason in the comments field
5. Click **Add** to add the crew name to the selection grid and click **OK** to confirm.
6. Denied crew name(s) with its Operational Position, denied From/Until date and Nationality are shown in the grid.
7. To remove the name from the Denied List grid, select the **name** and click **Remove**. Use CTRL +/- or SHIFT + to remove crew name by batch.
8. At the confirmation prompt, select **Yes** to proceed.
9. Click **Close** to return to the main window.

6

Reports

A set of operational reports are pre-installed with the software, and additional customized reports can be added through the **Administration module, System Setup, Reports Setup. Printing a Report**

1. From the **Crew File Menu**, select **Reports**.
2. In the Reports List section ,click the **(+)** to expand the container, and select the **report** to print.
3. Navigate to the **Print tab**, and select the available **Selection/Criteria**.
4. Select a **Printer, Print Range** and **Copies** to print from its respective section, and click **Print**.
5. To view a report before printing, repeat the above steps and navigate to **Preview tab**.
6. To export the report, repeat the above steps, and click **Export**.

Batch Reporting

You can print a set of departmental reports by batch, and these reports are predefined in **Administration module, System Setup, Reports Batch Printing Setup**.

To print the report by batch,

1. Select **Reports Batch Printing** from the Reports options.
2. In the Batch Reports Printing window, select the **batch number** to print.
3. In the Printer selection section, select the **Printer** and click **Run**.

7

Options

The Options Menu is where you set up the hardware and devices supported by SPMS. The menu is accessible from the Crew Main Menu.

General Tab

In the General Tab, the options to switch on/off is determined by selecting the respective check boxes. By default, the check boxes are not selected.

Figure 7-1 Options Menu — General Tab

Colors

The Colors tab allows you to define a standard color scheme suitable for your operations. These colors can be easily changed by clicking the color bar and selecting the color from the color chart.

Hardware

Supported peripherals, printers, and devices are configured in the Hardware tab. The window varies depending on the type of report printer's you select. Please contact Oracle Hospitality Cruise Customer Support for list of compatible hardware.

Video Parameters

This section defines the video format, source, and type of compression to store in the database.

Document Scanner

You can link a scanner for scanning specific forms in this tab. Please contact Oracle Hospitality Cruise Customer Support for compatible hardware list.

Field Definition

This section allows you to customize the crew reservation window labels in the Crew's personal/additional/visa details tab.

Figure 7-2 Field Definition Tab

8

Security

In the Security menu, function such as User Login, Passenger movement from ship to shore or vice versa, statistic count of passengers on-board or at shore side can be found.

Login

The Login function enables you to log out/log in from a current session using either a **Function key (F8)** or by selecting the option from the Security menu.

Change Password

The Change Password function allows you to reset passwords. You must log in prior to accessing this function.

1. From the Security Menu, select **Change Password**.
2. Enter the **new password**, confirm the password, and click **Apply**.
3. At the Password Successfully Changed prompt, click **OK**.

User Logfile

The User Logfile records all transactions performed by users by date, and by time order. Use the available filters such as by user, type of activities, date, time, or workstation to retrieve log information. The transaction logs are printable and exportable to a supported file format.

Gangway Logfile

The Gangway Logfile records the gangway movement for all passengers going ashore or coming onboard. Use Search to find information by location, movement directions, type of passengers, date, time, cabin number, and name. Retrieved information is available for printing or exporting in a supported file format.

Count Onboard/Shoreside

The Count Onboard/Shoreside shows the security count of total crews and the number of crews onboard or at shoreside. The counts are displayed by type of crews.

Figure 8-1 Count Onboard/Shoreside

Reset Security

Show Count

Close

To reset the count, click **Reset Security**. The messages prompt varies on each reset.

Guests/Crew Onboard

The Guest/Crew Onboard lists all crew members onboard, with the Last Coming On-Board status shown when selecting the crew's name.

The status of the guest can be change by:

- Clicking the Go Ashore / Go Onboard.
- Clicking the Gangway Log to open the Gangway movement log.

Port/Visa Requirement

You can restrict crew members who have travel restrictions on their travel documents from going ashore on port day. Once set up, the system prompts a notification window when a restricted crew member's passport/travel document is swiped at the Gangway.

Figure 8-2 Port/Visa Requirement

The screenshot shows the 'Port/Visa Requirement' window. The 'Setup' section includes 'Date & Time From' (27/8/2015 00:00:15), 'Date & Time To' (27/08/2015 23:00:00), 'Remarks' (empty), 'Port' (not applicable), and 'Apply To' (Pax and Crew selected). The 'Conditions' section includes 'Nationality' (MY Malaysia) and 'Visa Type' (B2 Tourist Visa). Below these are buttons for 'Add New', 'Delete', 'Save', and 'Close'. A table below the buttons shows a single entry with Nationality 'CU', Visa Type 'D', Start From '27/08/2015 00:00:01', and Until '28/08/2016 23:00:00'. An 'Insert Confirm ?' dialog is overlaid, displaying an information icon and the message: 'Nationality of MY Malaysia without document B2 Tourist Visa not allowed for port entry From 27/8/2015 00:00:15 To 27/08/2015 23:00:00'. The dialog has 'Yes' and 'No' buttons.

Nationality	Visa Type	Start From	Until	Remarks
CU	D	27/08/2015 00:00:01	28/08/2016 23:00:00	

1. From the Security menu, select **Port/Visa Requirement**.
2. Click **Add New**, enter the **Date/Time From/To** field, and select the **Port** from the drop-down list.
3. At the **Conditions Setup** section, select the **Nationality** and **Visa Type** from the drop-down list. and click **Save**.
4. At the Insert Confirmation prompt, select **Yes** to confirm, and click **Close** to exit.

Appendix A. Parameters

This section describes the Parameters available in the Crew module. You can access Parameters from the **Administration** module under **System Setup, Parameter**.

Table 9-1 PAR Group Safety

PAR Name	PAR Value	Description
Advance Safety Drill	0 or 1	0 - Standard Safety Drill Handling; 1 - Advance Safety Drill Handling.
Course Code for Boat Commander	XXX	Qualifying course for Boat Commander. (XXX=COU_CODE).
Allow Multiple Safety Number Assignment	0 or 1	0 - Do Not Allowed Multiple Safety Number Assignment 1 - Allow
Allow to use special In Port Manning handling	0 or 1	0 - Disallow, 1 - Allow
Auto Set Ashore Denial During Drill Scheduling		Specify duration before a Drill starts that going ashore is denied. Duration in minutes.
Display Valid Courses On Muster List Assignment		Display list of important courses on Muster List Assignment window. PAR_VALUE should contain COU_CODE separated by commas (for example: 331,321)
Operational Position that Receive Message		Crew of certain operational position to receive warning message in Active Muster List when there is expected crew in the muster list.
Allow SafetyNo Assignment to Onboard And Expected		0 = both onboard and expected crew per safety number. 1 = one crew per safety number at any one time.
InPortManning Enable One Crew Assignment per Group	0 or 1	0 = Crew is allowed to be assign to multiple IPM Group. 1 = Crew is not allowed to be assigned to multiple IPM Group.

Table 9-2 PAR Group General

PAR Name	PAR Value	Description
Duplicate Safety Number	0, 1, 2 or 3	0 = Prompt for further action. 1 = Keep both safety numbers assigned for checked-in crew and embarking crew. 2 = Assign Safety Number to newly embarked crew and un-assign checked-in crew. 3 = Remove the safety number from expected crew and maintain safety number for checked-in crew. This option is performed in silent mode.
