- 5. The system displays the message "Record Added...Authorization Pending..".
- 6. Click OK.
- 7. The card master details are added once the record is authorized.

# 1.2 CM08 - Card Product and Account Product Xref

Using this option, the bank can link different account products to a card product. You can setup a card product using the **Card Master Setup** (Task Code: CM07) option.

Once the card products are defined, that needs to be linked with the account products. After the accounts are opened under these products, the card details can be maintained using the **Card Maintenance** option. The account product which is attached to the card product can be either with the card facility or you can select the **ATM** check box in the **External Bank Facility** section in the **Account Details 2** tab in **Account Master Maintenance** (Task Code: CH021) option.

### **Definition Prerequisites**

- CM07 Card Product Master Maintenance
- Account Product Definition

### Modes Available

Add, Delete, Cancel, Authorize, Enquiry. For more information on the procedures of every mode, refer to **Standard Maintenance Procedures**.

### To link a card product to a account product

- 1. In the **Dashboard** page, Enter the Task code **CM08** and then click <sup>Q</sup> or navigate through the menus to **Front Office Transactions > Customer Transactions > Card Product and Account Product Xref**.
- 2. You will be navigated to Card Product and Account Product Xref screen.

# 1.3 CM01 - Card Details Maintenance

Using this option the bank can issue or reissue a card in batch or an online mode. The card details tab allows you to link the primary account number and the default account number to the card and modify the existing account linkage of a card.

### **Definition Prerequisites**

• 8053 - Customer Addition

### Modes Available

Add, Cancel, Amend, Authorize, Enquiry. For more information on the procedures of every mode, refer to **Standard Maintenance Procedures**.

#### To issue or reissue a card

- 1. In the **Dashboard** page, Enter the Task code **CM01** and then click <sup>Q</sup> or navigate through the menus to **Front Office Transactions > Customer Transactions > Card Details Maintenance**.
- 2. You will be navigated to Card Details Maintenance screen.

| Field Name      | Description  |  |  |  |  |  |  |  |
|-----------------|--|--|--|--|--|--|--|--|
| Search Criteria | [Mandatory, Drop-Down]<br>Select the search criteria to search for the customer from the drop-<br>down list.<br>The options are:   |  |  |  |  |  |  |  |
|                 | Customer short name: The short name of the customer.   |  |  |  |  |  |  |  |
|                 | <ul> <li>Customer IC: The identification criteria (IC) arrived at by the<br/>bank during customer addition.</li> </ul>   |  |  |  |  |  |  |  |
|                 | Customer ID: The unique identification given by the bank.  |  |  |  |  |  |  |  |
| Search String   | [Mandatory, Alphanumeric, 20]<br>Type the search string, to search for a customer, corresponding to the<br>search criteria selected in the <b>Search Criteria</b> field.<br>If the search criterion is specified as customer's short name or IC then |  |  |  |  |  |  |  |

|              | any letter of the short name or IC can be entered. The system displays<br>the Search List of all those customers having those letters in their<br>respective criteria. Choose the appropriate customer from the existing<br>customer list.<br>For example, if the customer's short name is George Abraham. One<br>can search the above customer by entering Geo in the <b>Search String</b><br>field.   |
|--------------|---|
| Customer IC  | [Display]<br>This field displays the identification code of the customer.<br>A customer IC along with customer type is a unique method of<br>customer identification across the bank (covering all branches). Based<br>on the combination, the system can identify the customer as an<br>existing customer even when the customer opens a new account in<br>another branch. A social security number, passport number, birth<br>certificate or corporate registration can be used as a customer IC. |
| Customer ID  | [Display]<br>This field displays the ID of the customer.<br>A customer ID is an identification number, generated by the system<br>after customer addition is completed successfully. This running<br>number, unique to a customer across the system, is generated after the<br>system has identified the customer IC and the customer category<br>combination to be non-existent in the system. This ID is used for<br>searching and tracking the customer in the system.                           |
| Home Branch  | [Display]<br>This field displays the short name of the branch, where the customers<br>account is opened.<br>The customer signature record and the other customer papers are kept<br>in this branch.<br>These short names are maintained in the <b>Branch Master</b><br><b>Maintenance</b> (Task Code: BAM03) option.  |
| Full Name    | [Display]<br>This field displays the full name of the customer.<br>The full name of the customer is defaulted from the <b>Customer</b><br><b>Addition</b> (Task Code: 8053) option.   |
| Short Name   | [Display]<br>This field displays the short name of the customer.<br>The short name of the customer is defaulted from the <b>Customer</b><br><b>Addition</b> (Task Code: 8053) option.   |
| Group Code   | [Display]<br>This field displays the group code to which the customer belongs.  |
| Card Product | [Conditional, Editable/Search List]<br>This field displays the card product.<br>If the card is to be issued, enter the card product or select from the<br>Search List.  |
| Card Number  | [Mandatory, Numeric, 20]<br>Select the card number from the Search List.<br>In online issuing mode the card number is mandatory and will be<br>validated against the branch inventory.  |

| Reissue/Replacement        | [Optional, Check Box]<br>Select the <b>Reissue</b> check box to reissue a card.<br>The <b>Card Product</b> field gets disabled if this check box is selected.  |
|----------------------------|--|
| Old Card Number            | [Conditional, Search List]<br>Select the old card number from the Search List.<br>In case of reissue, an old card number is mandatory and the card status<br>will be validated for Lost or Damaged status. |
| Non-Personalized           | [Input, Checkbox]  |
| card                       | For issuing non personalised card, user needs to select the checkbox.  |
| Now                        | [Input, Checkbox]  |
| New                        | For issuing New card, user needs to select the checkbox.   |
|                            | [Display]  |
