Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction.

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Guarantee Issuance

As part of Guarantee Issuance, the applicant approaches a bank and requests the bank to issue a Bank Guarantee on their behalf to the beneficiary.

The various activities involved in OBTFPM during issuance of a guarantee are:

- Receive and verify application and other documents (Non Online Channel) - Registration stage
- Input application details
- Upload of related mandatory and non mandatory documents
- Verify documents and capture details (Online/Non Online Channels)- Scrutiny stage
- Check balance availability for amount block
- Input/Modify details of the guarantee - Data enrichment stage
- Conduct legal checks
- Check for limit availability
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges
- Capture remarks during any stage of transaction for other users to check and act
- Draft guarantee copy for legal verification
- Generate acknowledgement and draft guarantee copy to customer
- Notify customer on any negative statuses during any of the stages to the applicant
- Hand off approved transaction to back office

In the subsequent sections, let's look at the details for Guarantee Issuance process:

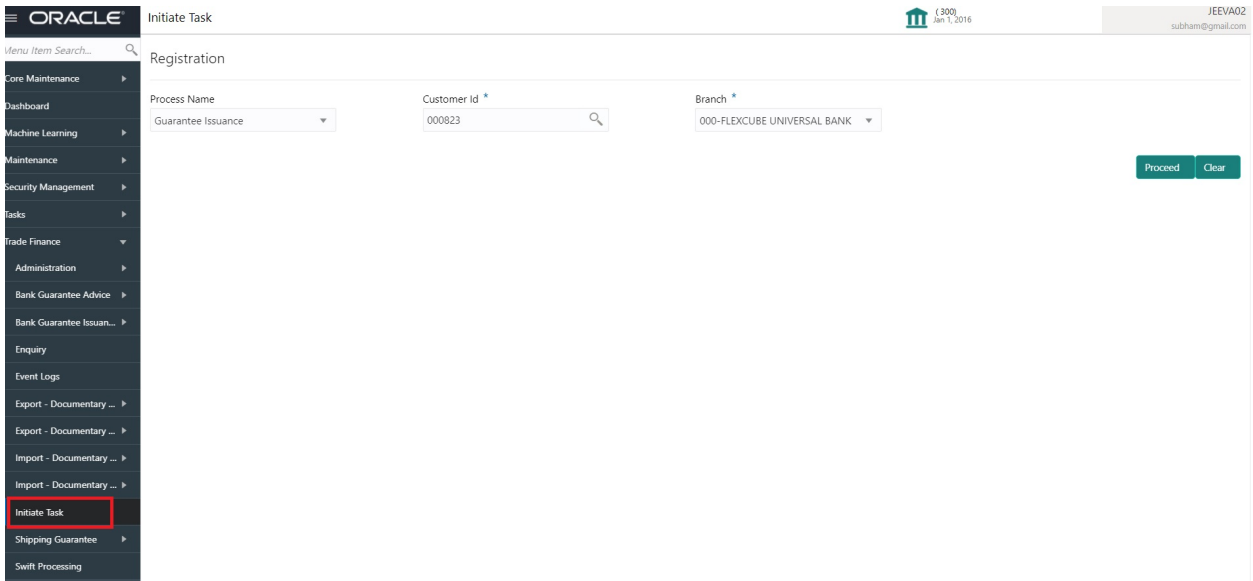

This section contains the following topics:

Common Initiation Stage	Registration
OBTFPM- OBDX Bidirectional flow	Data Enrichment
Exceptions	Multi Level Approval
Customer - Acknowledgement letter	Customer - Reject Letter
Reject Approval	Initiate - Guarantee Issuance Template Maintenance

Common Initiation Stage

The user can initiate the new guarantee issuance request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Customer ID	Select the customer id of the applicant or applicant's bank.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

If the Guarantee Issuance request is given through branch either by fax, email or physical application form, the Guarantee Issuance process starts from the registration stage.

During registration stage, user can capture the basic details of the application, check the signature of the applicant and upload the related documents of the applicant. It also enables the user to capture some additional product related details as an option. On submit of the request, the customer will be notified with an acknowledgment and the request will be available for a Guarantee Issuance expert to handle the request in the next stage

1. Using the entitled login credentials for registration stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Bank Guarantee Issuance> Guarantee Issuance.

The registration stage has two sections Application Details and Guarantee Details. Let's look at the registration screens below:

Application Details

The screenshot displays the Oracle SBLC Issuance registration interface. It is divided into two main sections: 'Application Details' and 'SBLC/Guarantee Details'. The 'Application Details' section includes fields for 'Received From Applicant Bank' (a toggle switch), '32B - Currency Code, Amount' (USD, US\$1,200.00), 'Application Date' (05-May-2021), 'Received From - Customer ID' (000326), 'Priority' (Medium), 'Received From - Customer Name' (PHIL HAMPTON), 'Submission Mode' (Desk), 'Branch' (PK1-Oracle Banking Trade Finan...), 'Process Reference Number' (PK1GTEI00002603), and 'Template Name'. The 'SBLC/Guarantee Details' section includes '22D - Form of Undertaking' (DGAR - Guarantee), '22K - Type of Undertaking' (Credit Facilities Guarantee), '23X - Narrative', '23B - Expiry Type' (FIXD), 'Applicant' (000326 PHIL HAMPTON), 'Local SBLC/Guarantee Issuing Bank', 'Product Code' (GUIS), '22K - Narrative', '31C - Date of Issue' (05-May-2021), 'Date of Expiry' (12-Aug-2021), 'Beneficiary' (000335 SH TEST CORP), '39D - Additional Amounts', 'Product Description' (Guarantee Issuance Reissuance upon r...), '22A - Purpose of Message' (ISSU - Issue of undertaking), '40E - Applicable Rules' (URDG - Uniform rules for dema...), '35G - Expiry Condition/ Event', 'Advising Bank', 'Accountee', '20 - Undertaking Number' (PK2GUIS211254001), '23X - File Identification', '40C - Narrative', '51A - Applicant Bank', 'Counter SBLC/Guarantee Issuing Bank', and 'Amount In Local Currency' (GBP, £923.08). At the bottom right, there are buttons for 'Hold', 'Cancel', 'Save & Close', and 'Submit'.

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Received From Applicant bank	Guarantee Issuance request can be received from the applicant or from the applicant's bank. Toggle on: Switch on the toggle if Guarantee Issuance request is received from applicant's bank. Toggle off: Switch off the toggle if Guarantee Issuance request is received from applicant.	Toggle off
Received From - Customer ID	Select the customer id of the applicant or applicant's bank.	001345
Received From - Customer Name	Name of the customer or applicant. This field will be auto populated based on the selected customer ID.	EMR & CO
Branch	Select the branch. Customer's home branch will be displayed based on the customer ID and it can be changed, if required. <div style="text-align: center;">  Note Once the request is submitted, Branch field is non-editable. </div> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), Branch to be resolved from CIF. If the Guarantee Issuance is at Local Issuing Bank (LIB), Branch to be resolved from CIF.</p>	203-Bank Futura -Branch FZ1

Field	Description	Sample Values
Currency code, Amount	<p>Select the currency code and Provide the guarantee value (with decimal places) as per currency type.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	GBP
Priority	<p>Priority maintained will be populated as either 'Low or Medium or High'. If priority is not maintained for a customer, 'Medium' priority will be defaulted.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is defaulted and user can change its value.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is defaulted and user can change its value.</p>	High
Submission Mode	<p>Select the submission mode of Guarantee Issuance request. By default the submission mode will have the value as 'Desk'.</p> <p>Desk- Request received through Desk</p> <p>Fax - Request received through Fax</p> <p>Email - Request received through Email</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and SWIFT.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and SWIFT.</p>	Desk
Process Reference Number	<p>Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and generated by system.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and generated by system.</p>	203GTEISS000 001134
Application Date	<p>By default, the application will display branch's current date and enables the user to change the date to any back date.</p> <p> Note Future date selection is not allowed.</p>	04/13/2018

Field	Description	Sample Values
Customer Reference Number	User can enter the 'Reference number' provided by the applicant/applicant bank.	
Copy Existing Undertaking	Select any existing undertaking to be copied, if required.	
Template name	<p>This is applicable only for the non-online Guarantee Issuance request.</p> <p>This option allows user to select a template if the applicant details are already captured and the data can be reused with the template to reduce the effort. The details pertaining to the subsequent screens in scrutiny and data enrichment screens will be persisted and populated when you move to the relevant screens.</p> <p>Before populating the screens, application will check if there are any existing values and will display an alert message ' Value exist already in few fields - Do you want to use the template - Yes/No'. If the you click on Yes the existing details will be over-written with the template values.</p> <p>Click the look up icon to search the Template code with Template Code or Template Description.</p> 	

Guarantee Details

Registration user can provide Guarantee details in this section. Alternately, guarantee details can be provided by Scrutiny user.

Provide the Guarantee Details based on the description in the following table:

Field	Description	Sample Values
Form of Undertaking	<p>Select the Form of Undertaking from the available options:</p> <ul style="list-style-type: none"> • DGAR - Guarantee • STBY - Standby LC  <p>Note This is a mandatory field.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Product Code	<p>Select the applicable product code.</p> <p>Click the look up icon to search the product code with code or product description.</p>  <p>You can also enter the product code and on tab out system will validate and populate the selected product description. The product codes will be listed based on the selected value in Form of Undertaking.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), user can enter the product code.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), user can enter the product code.</p>	GUIS
Product Description	Auto populated by the application based on the Product Code selected.	Guarantee Issuance / Re-issuance upon receiving request

Field	Description	Sample Values
Undertaking Number	<p>Provide the undertaking number available in the guarantee/SBLC.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), Undertaking Number is generated from Back office System and in incoming MT 760 to be populated against Reference field for party CIB.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), Undertaking Number is generated from Back office System and in incoming MT 760 to be populated against Reference field for party CIB.</p>	
Type of Undertaking	<p>Select the guarantee type from the following available options:</p> <ul style="list-style-type: none"> ● Advance Payment Guarantee ● Credit Facilities Guarantee ● CUST - Customs Guarantee ● DPAY - Direct Pay ● INSU - Insurance ● JUDI - Judicial ● LEAS - Lease ● PAYM - Payment Guarantee ● PERF - Performance for bank guarantee ● RETN - Retention ● SHIP - Shipping - For shipping guarantee ● TEND - Tender or Bid ● WARR - Warranty ● OTHR - Any other local undertaking type. 	Financial Guarantee
Narrative	<p>Provide the details of any other type of local undertaking. This field is applicable if the Guarantee Type has value as OTHR.</p> <p>For Guarantee Advising MT760, the Narrative is read only and populated from Incoming MT 760.</p>	

Field	Description	Sample Values
Purpose of message	<p>Select the purpose of message from the LOV:</p> <ul style="list-style-type: none"> ● ISSU - Issue of Undertaking <p>In case the Undertaking is sent through SWIFT MT 760, the advising bank has to just advise the Undertaking to the Beneficiary.</p> <p>In case the Undertaking is advised through Mail Advice, the guarantee can be directly mailed by the Issuing bank to the Beneficiary.</p> <p>This is applicable for Guarantees/ Local Guarantees and SBLC (Standby LC)</p> <ul style="list-style-type: none"> ● ICCO - Issuance of counter-counter-undertaking and request to issue counter-undertaking <p>The bank receiving the Undertaking (usually through SWIFT MT 760) is required to issue a Counter- undertaking to another bank requesting the third Bank to issue Local Undertaking favoring the Beneficiary.</p> <ul style="list-style-type: none"> ● ISCO - Issuance of counter-undertaking and request to issue local undertaking <p>The bank receiving the Undertaking (usually through SWIFT MT 760) is required to issue Local Undertaking to the beneficiary.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), Purpose of Message is 'ISCO'.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), Purpose of Message is 'ISSU'.</p>	
Narrative	<p>Provide the details of any other type of local undertaking. This field is applicable if the Guarantee Type has value as OTHR.</p>	

Field	Description	Sample Values
File Identification	<p>This field enables the user to select the type of delivery channel and its associated file name or reference from the available values:</p> <ul style="list-style-type: none"> • COUR - Courier delivery • EMAL - Email transfer • FACT - SWIFTNet • FAXT - Fax transfer • HOST - Host-to-Host • MAIL - Postal Delivery • OTHR - Other delivery channel <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Narrative	<p>If File Identification field values are COUR or OTHR, user must be able to provide description in this field.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Date of Issue	<p>Application will default the branch's current date in date of issue. User cannot change the defaulted date.</p> <p>Application will populate the Date of Issue field with branch date on approval if date of approval is later than date of registration.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), Date of Issue = Branch Date (Date of Issue in incoming MT 760 should be mapped to Party CIB- Field Date).</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), Date of Issue = Branch Date (Date of Issue in incoming MT 760 should be mapped to Party CIB- Field Date).</p>	04/13/18

Field	Description	Sample Values
Applicable Rules	<p>Select the applicable rules for the Guarantee Issuance from the available options:</p> <ul style="list-style-type: none"> • URDG - Uniform rules for demand guarantees • UCPR - Uniform customs and Practices • ISPR - International standby Practices • OTHR <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	URDG - Uniform rules for demand guarantees
Narrative	<p>If Applicable Rules field value is OTHR, user must be able to provide description in this field.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Expiry Type	<p>This field indicates whether undertaking has specified expiry date or is open-ended. Select the applicable value from the available options:</p> <ul style="list-style-type: none"> • COND - Conditional Expiry • FIXD - Specified expiry date (with/without automatic expansion) • OPEN - No specific date of expiry <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Field	Description	Sample Values
Date Of Expiry	<p>Provide the expiry date of the Guarantee Issuance.</p> <p>The expiry date can be equal or greater than the issue date. If the Expiry Date is earlier than the issue date, system will provide an error and if the 'Expiry Date is equal to the Issue Date', system will provide an alert message.</p> <p>This field is applicable only if Expiry Type is COND or FIXD.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	09/30/18

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	<p>Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p>	
Remarks	<p>Provide any additional information regarding the Guarantee Issuance. This information can be viewed by other users processing the request.</p>	
Submit	<p>On Submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Guarantee Issuance.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	

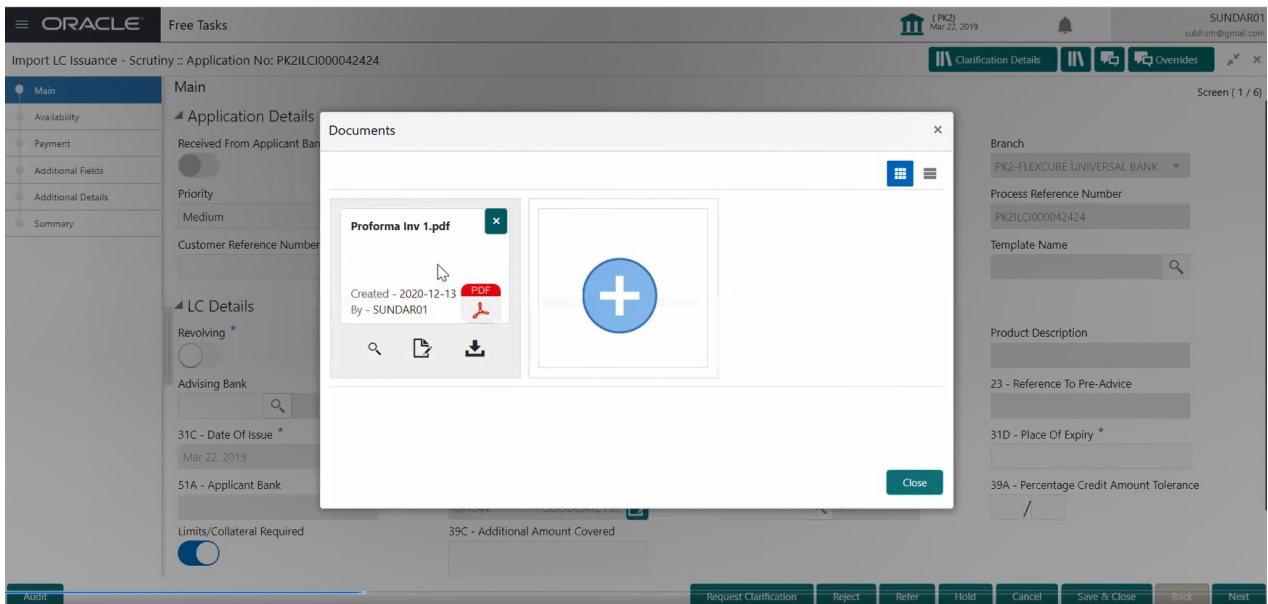

Field	Description	Sample Values
Cancel	Cancels the Guarantee Issuance Registration stage input.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	

OBTFPM- OBDX Bidirectional flow

As a part of Digital Experience, customers can initiate Trade Finance Transactions from online channels and the respective task will be available in OBTFPM for further handling.

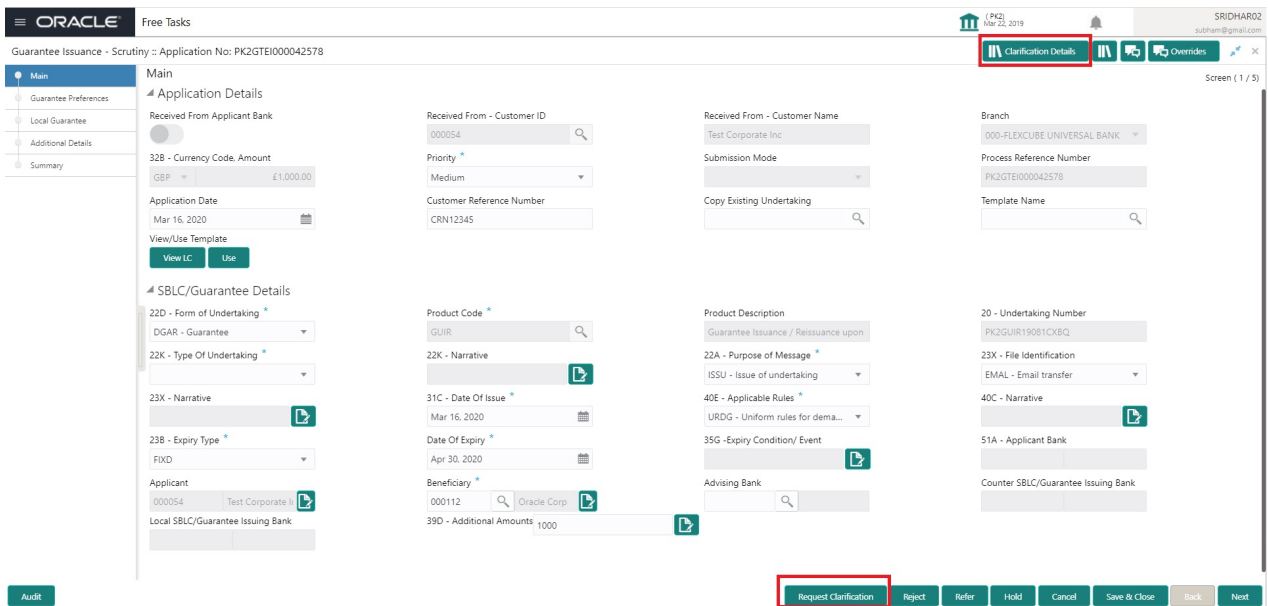

OBTFPM user, for task received from online channel, raise clarification and receive response from the customer.

1. Customer initiates the Trade Finance transaction in Online channel (OBDX) and upload the necessary documents.

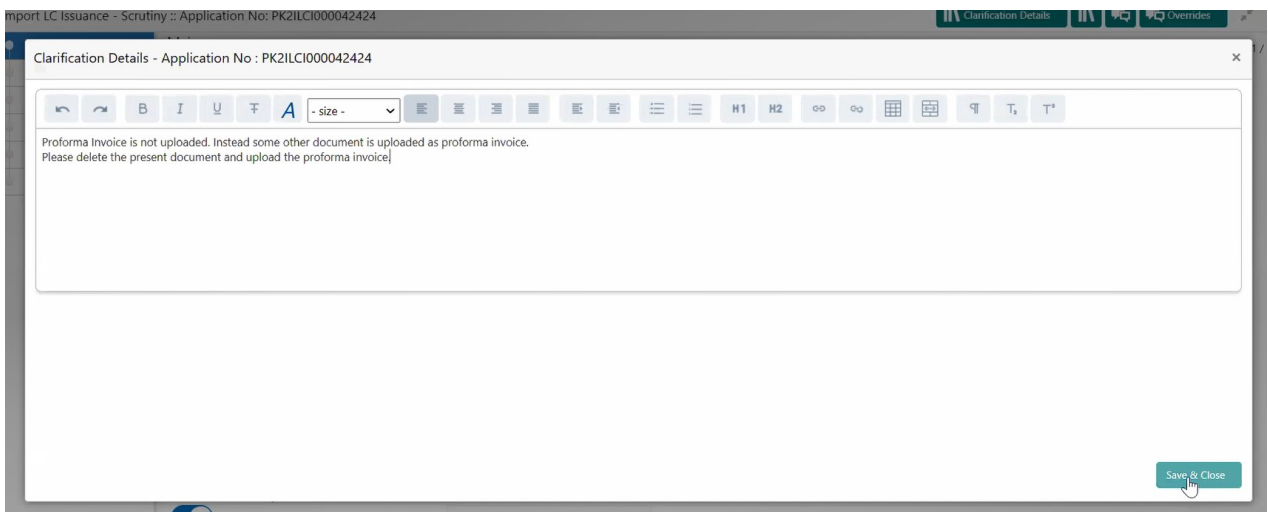

2. The task created will land in the Scrutiny stage of OBTFPM for handling by Trade expert for reviewing and identifying mismatch/incomplete data.

3. In the Scrutiny, Data Enrichment or Approval the bank user may require clarification from customer, OBTFPM user clicks **Request Clarification** button to request for online clarification from customer.

4. The **Request Clarification** detailed screen appears, user enters the information and clicks **Save**, the information should be sent to customer.

5. OBTFPM user should be able to see the details in the View Clarification window and the status will be Clarification Requested. The user can click Re clarification if required.

6. The task goes to **Awaiting Customer Clarification** state until the response received from the customer.

7. Click **Edit**.

Clarification	Raised By	Clarification Date	Response	Response Date	Response Type	Status
<input type="checkbox"/> Proforma Invoice is not uploaded. Instead some other document is	SUNDAR01	2019-03-21T18:31				Clarification Requested

8. The user can click **Accept Clarification** button, if the query raised has been answered by the customer. The status should change to Clarification Accepted. on next the task moves to the next logical stage.

9. Bank user checks the Clarification and opens the **Documents** Tab. System displays both the new document uploaded and the metadata for deleted document and the deleted document is displayed in

a blurred way. User can open the new document, the deleted document cannot be opened. System should also increment the version number of the documents.

Scrutiny

On successful completion of registration of a Guarantee issuance request, the request moves to scrutiny stage. At this stage the gathered information during registration are scrutinized.

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The dashboard for FuTura Bank displays several widgets. On the left is a navigation menu with options like Core Maintenance, Dashboard, Maintenance, Tasks, and Trade Finance. The main area contains:

- Draft Confirmation Pending:** A table with columns Customer Name, Application Date, and Status. Rows include EMR & CO (25-06-2018), NA (25-06-2018), and NA (21-06-2018).
- Hand-off Failure:** A table with columns Branch, Process Name, and Stage Name. A row shows Bank Futura, NA, and Retry HandOf.
- Priority Details:** A table with columns Branch, Process Name, and Stage Name. Rows include Bank Futura (NA, Amount Blo), Bank Futura (NA, Amount Blo), and 004 (NA, Loan Applic).
- High Value Transactions:** A bubble chart showing transaction values for GBP, with a scale from -20K to 140K.
- SLA Breach Details:** A table with columns Customer Name, SLA Breached(mins), and Priority. Rows include NA (23474, H, KEERTIVO1), HSBC BANK (26667, M, SHUBHAM), WALL MART (23495, SHUBHAM), and EMR & CO (26780, M, GOPINATH01).
- Priority Summary:** A table with columns Branch, Process Name, and Stage Name. A row shows 203, Cucumber Testing, and test descrip.
- Hold Transactions:** A table with columns Branch, Process Name, and Stage Name.
- SLA Status:** A dropdown menu currently set to Cucumber Testing.
- Tasks Detailed:** A dropdown menu currently set to Cucumber Testing.

3. Click Trade Finance> Tasks> Free Tasks.

The Oracle Free Tasks page shows a table of tasks. The left navigation menu has 'Free Tasks' highlighted. The table has the following data:

Action	Priority	Process Name	Process Reference Number	Application Number	Stage	Application Date	Branch	Ct

4. Select the appropriate task and click Acquire & Edit to edit the task or click Acquire to edit the task from My Tasks.

This screenshot is identical to the previous one, but the 'Acquire & Edit' button for the first task (Guarantee Issuance) is highlighted with a red box. The 'Free Tasks' menu item in the left navigation is also highlighted with a red box.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to scrutinize the registered task.

The screenshot shows the Oracle My Tasks interface. On the left is a navigation menu with 'My Tasks' highlighted. The main area displays a table with the following data:

Ac...	Priority	Process Name	Process Reference Number	Application Number	Stage	Application Date	Branch	Customer
<input checked="" type="checkbox"/> Edit	M	Guarantee Issuance	300GTEI000030653	300GTEI000030653	Scrutiny	20-04-20	300	001506

At the bottom, there is a pagination control showing 'Page 1 of 1 (1 - 1 of 1 items)'.

The scrutiny stage has three sections as follows:

- Main Details
- Guarantee Preferences
- Local Guarantee
- Additional Details
- Summary

Let's look at the details for scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value from registration/online channels may not be editable.

Main Details

Main details section has three sub section as follows:

- Application Details
- Guarantee Details

Application Details

All fields displayed under Application details section, would be read only except for the **Priority** and **Customer Reference Number**. Refer to [Application Details](#) for more information of the fields.

Guarantee Details

The fields listed under this section are same as the fields listed under the [Guarantee Details](#) section in [Common Initiation Stage](#). Refer to [Guarantee Details](#) for more information of the fields. During registration, if user has not captured input, then user can capture the details in this section.

Following fields are the additional new fields apart from the fields carried over from [Guarantee Details of Registration](#). Provide the details for the two additional fields based on the description in the following table:

Field	Description	Sample Values
Copy Existing Undertaking	Select any existing undertaking to be copied, if required.	

Field	Description	Sample Values
Template name	<p>This is applicable only for the non-online Guarantee Issuance request.</p> <p>This option allows user to select a template if the applicant details are already captured and the data can be reused with the template to reduce the effort. The details pertaining to the subsequent screens in scrutiny and data enrichment screens will be persisted and populated when you move to the relevant screens.</p> <p>Before populating the screens, application will check if there are any existing values and will display an alert message ' Value exist already in few fields - Do you want to use the template - Yes/No'. If the you click on Yes the existing details will be over-written with the template values.</p> <p>Click the look up icon to search the Template code with Template Code or Template Description.</p> 	
View Guarantee/ SBLC	Click View to view the details of the selected template in Template Name.	
Use	Click Use to use the selected template in Template Name.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.</p>	
Overrides	<p>Click to view overrides, if any.</p>	
Incoming Message	<p>This button displays the multiple messages (MT760 + up to 7 MT761).</p> <p>Click to allow parsing of MT 760 along with MT761(up to 7) messages together to create a Guarantee Issuance.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request</p>	
Cancel	<p>Cancel the Guarantee Issuance scrutiny stage inputs.</p>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

Guarantee Preferences

Preferences

Provide the preferences details based on the description in the following table:

Field	Description	Sample Values
Terms and Conditions	<p>Select the terms and conditions from the LOV that are not already mentioned.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p> <p>The field displays the content from MT760 and all the applicable MT 761.</p>	

Field	Description	Sample Values
Governing Law and Jurisdiction	<p>Select the applicable governing law and jurisdiction for the undertaking.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Automatic Extension Details

Provide the Automatic Extension Details based on the description in the following table:

Field	Description	Sample Values
Automatic Extension Required	<p>Toggle On: Set the toggle On, if automatic extension for expiry date is required.</p> <p>Toggle Off: Set the toggle Off, if automatic extension for expiry date is not required.</p> <p>Note: This field is not applicable Validity field in registration stage has value as Open.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), this button is enabled if 23F field has value.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), this button is enabled if 23F field has value.</p>	
Auto Extension Period	<p>Select the auto extension period for expiry date from the following options:</p> <ul style="list-style-type: none"> • Days • One year • Others <p> Note</p> <p>This field is applicable only if Auto Extension Required toggle is set to On.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Field	Description	Sample Values
Extension Details	<p>Provide the extension details for the expiry date.</p>  <p>Note This field is applicable only if Auto Extension Period field value is Days/ Others.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Non-Extension Details	<p>Provide the non-extension details for automatic expiry date extension such as notification methods or notification recipient details.</p>  <p>Note This field is applicable only if Auto Extension Period field has values.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Non-Extension Notice Period	<p>Provide the non-extension notice days.</p>  <p>Note This field is applicable only if Auto Extension Period field has values.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Field	Description	Sample Values
Auto Extension Final Expiry Date	<p>Provide the final extension date for automatic expiry date extension after which no automatic extension is allowed.</p>  <p>Note This field is applicable only if Auto Extension Period field has values.</p> <p>If Automatic Extension Required toggle is set to Yes, the user can manually enter the value. This date/duration can be beyond the calculated value provided in the “Auto Extension Period”.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Liability Change Schedule

In this section, user can enter the details of increase or decrease of liability on a pre-scheduled date as applicable.

Provide the **Liability Change Schedule** based on the description in the following table:

Field	Description	Sample Values
Liability Change Type	<p>Select the liability change type. This field describes the basis for liability change.</p> <p>Values are:</p> <ul style="list-style-type: none"> • Event Based - User can enter the Event details in “Additional Details” field. The actual liability change for Event based type should be operationally handled by the user based on the event details • Time Based - The liability change should happen automatically on the pre-scheduled date as given. 	
Additional Details	This field describes whether Increase or decrease of liability or both are involved.	
Standard Type	This field describes whether liability change is standard or non-standard.	
Liability Type	This field describes whether Increase or decrease of liability or both are involved.	
Number of Periods	User can enter the numeric value of the period corresponding to the units.	

Field	Description	Sample Values
Units	User can select the value from drop down. Values are: <ul style="list-style-type: none"> • Monthly • Quarterly • Half Yearly • Yearly 	
Amount	User can enter the Liability Amount that should be increased or decreased on the liability change date.	
Percentage	User can either enter the amount of liability to be changed or percentage of liability to be changed. If percentage is chosen, then system should calculate the equivalent amount of liability to be changed.	
Schedule Grid	If the liability change is for more than one date, or if the liability change is not based on time, user can input the details in the schedule grid.	
Sequence Number	Serial number of the liability change.	
Scheduled Date	User can enter the date on which liability change to happen.	
Amount	User can enter the Liability Amount that should be increased or decreased on the liability change date.	
Percentage	The user can either enter the amount of liability to be changed or percentage of liability to be changed. If percentage is chosen, then system should calculate the equivalent amount of liability to be changed.	
Liability Type	This field describes whether Increase or decrease of liability or both are involved.	
Plus Icon 	Click plus icon to add a new row to input the liability change details in the grid.	
Minus Icon 	Click minus icon to remove any existing grid Details.	

Demand Indicator

Field	Description	Sample Values
Demand Indicator	<p>This field specifies whether partial and/or multiple demands are not permitted. Select the demand indicator from the following options:</p> <ul style="list-style-type: none"> • Multiple demands are not permitted - Partial amount can be claimed • Partial demands are not permitted - Entire amount can be claimed • Multiple and partial demands are not permitted - Entire amount can be claimed <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Underlying Transaction Details

Field	Description	Sample Values
Underlying Transaction Details	<p>Select the underlying business transaction details (for which the undertaking is issued) from the LOV.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Delivery of Original Undertaking

Field	Description	Sample Values
Delivery of Original Undertaking	<p>Select the method of the delivery from the following options by which the original local undertaking needs to be delivered:</p> <ul style="list-style-type: none"> • COLL - By Collection • COUR - By Courier • MAIL - By Mail • MESS - By Messenger - Hand Deliver • OTHR - Other Method <p> Note This field is not applicable, if Purpose of Message field value is ICCO/ISCO.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Narrative	<p>Provide the description of method of delivery of original undertaking.</p> <p> Note This field is applicable only if the Delivery of Original Undertaking field value is COUR/OTHR.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Field	Description	Sample Values
Delivery to/Collection by	<p>Select the details of to whom the original local undertaking is to be delivered or by whom the original local undertaking is to be collected:</p> <ul style="list-style-type: none"> • BENE - Beneficiary • OTHR - Others <div style="text-align: center;">  <p>Note</p> <p>This field is not applicable, if Purpose of Message field value is ICCO/ISCO.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p> </div>	
Narrative	<p>Provide the name and address.</p> <div style="text-align: center;">  <p>Note</p> <p>This field is applicable only if the Delivery to/Collection by field value is OTHR.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p> </div>	

Transfer Details

Field	Description	Sample Values
Transfer Indicator	<p>Select the check box if the undertaking is transferable.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Transfer Conditions	<p>Provide the conditions to transfer the undertaking.</p> <div style="text-align: center;">  <p>Note</p> </div> <p>This field is applicable only if the Transfer Conditions check box is checked.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Others

Field	Description	Sample Values
Sender to Receiver Information	<p>Select the additional information for receiver from the LOV.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Charges	<p>Select the charger for the undertaking from the LOV.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Field	Description	Sample Values
Advice Through Bank	<p>Select the additional bank to advise the undertaking from the LOV.</p>  <p>Note This field is applicable only if Advice Through Bank field in Main Details has value.</p>	
Available With	<p>This field identifies the bank with which the credit is available of the issued LC.</p> <p>User must capture the bank details or any free text.</p> <ul style="list-style-type: none"> • Search the bank with SWIFT code (BIC) or Bank Name. <p>On selection of the record if SWIFT code is available, then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address gets defaulted.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Confirmation Instructions	<p>Select the confirmation instruction from the available values:</p> <ul style="list-style-type: none"> • CONFIRM • MAY ADD • WITHOUT  <p>Note This field is applicable if the Form of Undertaking is STBY - Standby LC.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	

Field	Description	Sample Values
Requested Confirmation Party	<p>Select the requested confirmation party from the available options:</p> <ul style="list-style-type: none"> • Advising Bank • Advise Through Bank • Others <p> Note This field is applicable if the Confirmation Instructions is Confirm or May Add.</p> <p>If the Guarantee Issuance is at Counter Issuing Bank (CIB), the field is Read only and populated from Incoming MT 760.</p> <p>If the Guarantee Issuance is at Local Issuing Bank (LIB), the field is Read only and populated from Incoming MT 760.</p>	
Confirming Bank	<p>Select the Confirming Bank from the LOV.</p> <p> Note This field is applicable if the Requested Confirmation Party value is Others.</p>	

Acknowledgement Details

An acknowledgment in format MT 768 is sent by advising bank to the issuing for Guarantee. The user can input the details required for issuing bank as part of MT 768. The outgoing MT 798 should display the 761 as applicable.

Data Enrichment

As part of data enrichment, you can enter/update basic details of the incoming request.

Do the following steps to acquire a task which completed the registration and scrutiny and currently at Data enrichment stage:

1. Using the entitled login credentials for scrutiny stage, login to the OBTFPM application.

FuTura Bank

Sign In

User Name *
SRIDHAR

Password *
.....

Sign In

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The dashboard for Futura Bank displays several key performance indicators and task lists. The 'Draft Confirmation Pending' widget shows a table with columns for Customer Name, Application Date, and Status. The 'Hand-off Failure' widget shows a table with Branch, Process Name, and Stage Name. The 'Priority Details' widget shows a table with Branch, Process Name, Stage Name, and Amount. The 'High Value Transactions' widget features a bubble chart with a Y-axis ranging from -20K to 140K and an X-axis from -2 to 12. The 'SLA Breach Details' widget shows a table with Customer Name, SLA Breached (mins), and Priority. The 'Priority Summary' widget shows a table with Branch, Process Name, and Stage Name. The 'Hold Transactions' widget shows a table with Branch, Process Name, and Stage Name. The 'SLA Status' widget shows a dropdown menu with 'Cucumber Testing' selected. The 'Tasks Detailed' widget shows a table with Process Reference Number and Process Name.

3. Click Trade Finance > Tasks > Free Tasks.

The Oracle Free Tasks page displays a table of tasks. The table has the following columns: Action, Priority, Process Name, Process Reference Number, Application Number, Stage, Application Date, Branch, and Cl. The 'Free Tasks' menu item is highlighted in the left sidebar. The table contains 10 rows of task data.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for data enrichment stage.

The screenshot shows the Oracle 'My Tasks' interface. On the left is a navigation menu with 'My Tasks' highlighted in red. The main area displays a table with the following data:

Ac...	Priority	Process Name	Process Reference Number	Application Number	Stage	Application Date	Branch	Customer
Edit	M	Guarantee Issuance	300GTEI000030653	300GTEI000030653	DataEnrichment	20-04-20	300	001506

At the bottom of the table, it shows 'Page 1 of 1 (1 - 1 of 1 items)'.

The Data Enrichment stage has five sections as follows:

- Main Details
- Guarantee Preferences
- Documents and Instructions
- Local Guarantee
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Main Details

Refer to [Main Details](#).

Guarantee Preferences

Refer to [Guarantee Preferences](#).

Document Details

Documents maintained at the product level will be populated and user must be able to update the details if required.

Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Exceptions

The Guarantee Issuance request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Application

Refer to [Application Details](#).

Amount Block Exception

This section will display the amount block exception details.

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and guarantee details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charges - User can view and modify charge details, if required.
- Guarantee Details - User can view and modify Counter Guarantee details and Guarantee details, if required.
- Draft Confirmation - User can view and modify draft guarantee details, legal verification and customer confirmation details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none">● R1- Documents missing● R2- Signature Missing● R3- Input Error● R4- Insufficient Balance/Limits● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	

Field	Description	Sample Values
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	Cancel the Amount Block Exception Inputs.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the applicant. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application KYC exception queue. KYC exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can pick up a transaction and do the following actions:

Approve

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).

Application

Refer to [Application Details](#).

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and guarantee details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others 	
Cancel	Cancel the KYC Exception inputs.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Exception - Limit Check/Credit

The transactions that have failed limit check due to non-availability of limits will be available in limit check exception queue for further handling.

Log in into OBTFPM application limit check exception queue. Limit check exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

Limit check Exception approver can do the following actions:

Approve

- Limit enhanced in the back end (outside this process).
- Without enhancing limit in the back end.

Refer

- Refer back to DE providing alternate limit id to map
- Refer additional collateral to be mapped

Reject

The transaction due to non-availability of limits capturing reject reason.

Application

Refer to [Application Details](#).

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and guarantee details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.

- Guarantee Details - User can view and modify Counter Guarantee details and Guarantee details, if required.
- Draft Confirmation - User can view and modify draft guarantee details, legal verification and customer confirmation details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others 	
Cancel	Cancel the Limit check inputs.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Multi Level Approval

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

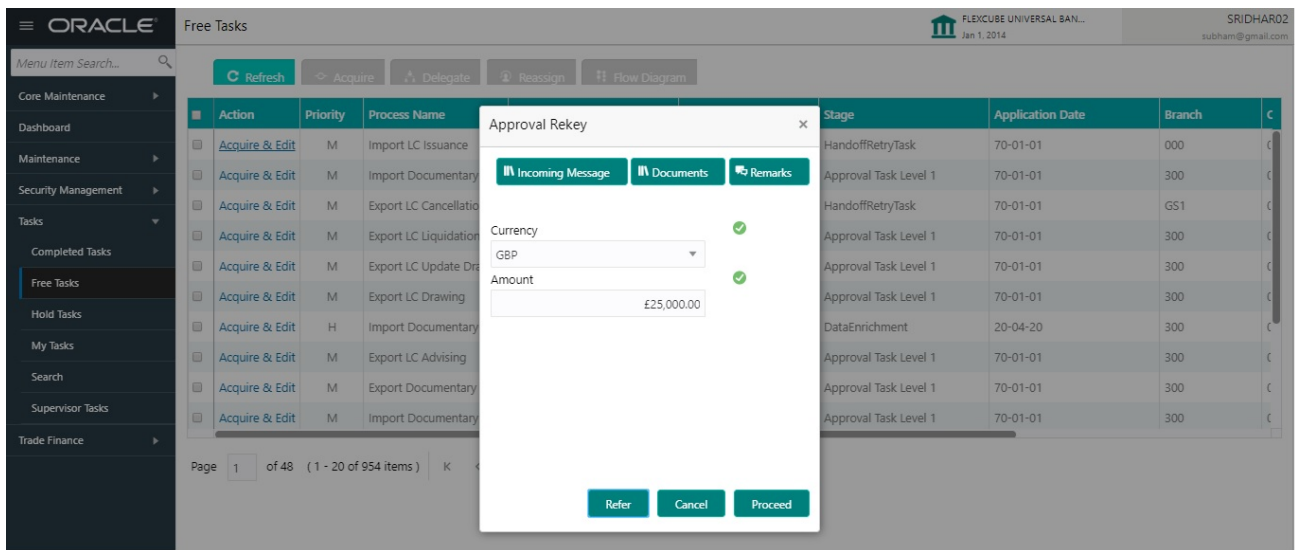

Authorization Re-Key (Non-Online Channel)

For non-online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Currency
- Amount

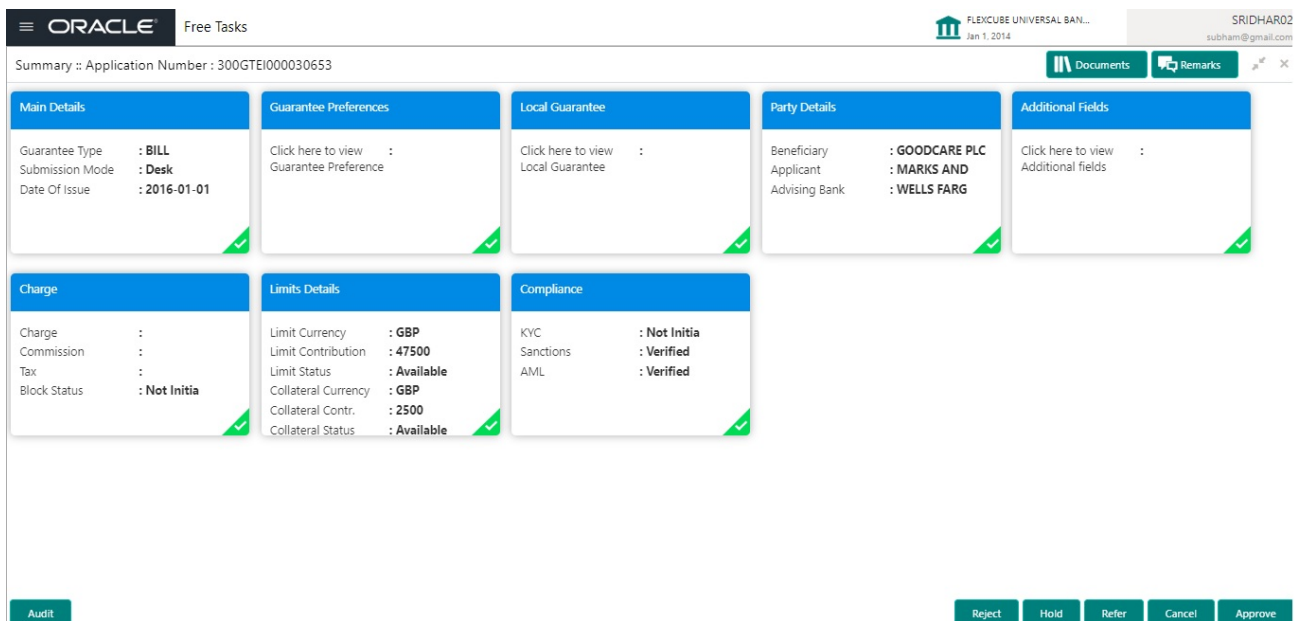

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.

Application

Refer to [Application Details](#).

Summary

Tiles Displayed in Summary:

- Main Details - User can view details about application details and guarantee details.
- Guarantee Preferences - User can view guarantee preferences.
- Local Guarantee - User can view local guarantee details.
- Additional Fields - User can view the details of additional fields
- Party Details - User can view party details like beneficiary, advising bank etc.
- Limits and Collaterals - User can view limits and collateral details.
- Charge Details - User can view charge details.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>

Authorized Signatory

Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Guarantee Issuance in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

Application Details

The application details data segment have values for requests received from both non-online and online channels.

Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view and modify details about application details and guarantee details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charge Details - User can view and modify charge details, if required.
- Guarantee Details - User can view and modify Counter Guarantee details and Guarantee details, if required.
- Draft Confirmation - User can view and modify draft guarantee details, legal verification and customer confirmation details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Remarks - As a Reject approval user, you will be able to view the remarks captured in the process during earlier stages. User also can see the Reject code with reason for rejection in the Remarks column

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject Approve	On click of Reject approve, the transaction is rejected.	
Reject Decline	On click of Reject Decline, the task moves back to the stage where it was rejected. User can update the reason for reject decline in remarks.	
Hold	User can put the transaction on 'Hold'. Task will remain in Pending state.	
Cancel	Cancel the Reject Approval.	

Initiate - Guarantee Issuance Template Maintenance

The user can create Guarantee Issuance Template and can use these templates to create Guarantee Issuance. The user can provide the basic application details to initiate the process.

Using the entitled login credentials, login to the OBTFPM application.

6. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

7. Click **Maintenance**> **Guarantee Issuance Template Maintenance** > **Guarantee Issuance Template Maintenance**.

Create Guarantee Issuance Template Maintenance (SWIFT 2021)

User can create a new Guarantee Issuance template maintenance.

The user can capture the basic application details in the Guarantee Issuance Template Maintenance screen. The Guarantee Issuance Template Maintenance screen has three sections as SBLC Guarantee Details, Sequence B and Sequence C.

Guarantee Issuance Template Summary

This screen allows the user to view the list of Guarantee Issuance Template/s saved.

1. Using the entitled login credentials, login to the OBTFPM application.

The image shows a login screen for FuTura Bank. It features the bank's logo at the top left, followed by the text 'Sign In'. Below this, there are two input fields: 'User Name *' with the text 'SRIDHAR' and 'Password *' with masked characters. A green 'Sign In' button is positioned below the password field, and a 'Cancel' link is located at the bottom center of the form.

2. Click **Maintenance > Guarantee Issuance Template Summary**

The image displays the Oracle OBTFPM application interface. At the top, there is a navigation bar with the Oracle logo, the word 'Dashboard', a user profile icon with '(300) Jan 1, 2016', a notification bell, and the user name 'JEEVA02 subham@gmail.com'. Below the navigation bar is a search bar labeled 'Menu Item Search...'. A dropdown menu is open, listing various maintenance options. The option 'Guarantee Issuance Template Summary' is highlighted with a red rectangular box.

Guarantee Issuance Template Summary

The Guarantee Issuance template/s Summary screen fetches and displays all the available templates. User can also filter the template using filter based on following parameters:

- Template Code
- Template Name
- Applicant Name

- Beneficiary Name

S.No	Template Code	Template Name	Applicant Name	Beneficiary Name
1	TEST1	TEST1	001507	001506
2	GUAT0021	ggg	000_TRADECUS01	000_TRADECUS01

Search the template based on the description in the following table:

Field	Description	Sample Values
Template Code	Search the template by selecting the Template Code from LOV.	
Template Name	Template Name of the template maintained is displayed based on the Template Code selected.	
Applicant Name	Applicant Name in the template maintained is displayed based on the Template Code selected.	
Beneficiary Name	Beneficiary Name in the template maintained is displayed based on the Template Code selected.	

3. Select the Template Code from LOV, Template Name, Applicant Name, Beneficiary Name of the template maintained is displayed based on the selected Template Code is displayed.
4. Click "Search" button. The Guarantee Issuance Template maintained is displayed.
5. Click the specific template to modify, Copy and Delete the template.

Guarantee Issuance Template - Modify

The OBTFPM user can update the Guarantee Issuance data in the template by clicking the 'Modify' button and can save the updated details. System does not allow the user to edit the Template Code and Template Name.

All the validation applicable for creating new template are applicable here also.
