# **Oracle Banking Trade Finance Process Management**

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction.

#### Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

#### **Benefits**

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

#### **Key Features**

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# **Guarantee SBLC Advised - Claim Settlement**

As a part of Guarantee SBLC Advised Claim Settlement process, the user can initiate Settlement of Claim under a Guarantee/SBLC Advise.

This section contains the following topics:.

Common Initiation Stage	Registration
Data Enrichment	Multi Level Approval

## **Common Initiation Stage**

The user can initiate the new settlement for a claim lodged under a Guarantee/SBLC advised request from the common Initiate Task screen.

- 1. Using the entitled login credentials, login to the OBTFPM application.
- 2. Click Trade Finance > Initiate Task.

= ORACLE	Initiate Task		(300) Jan 1, 2016	JEEVA02 subham@gmail.com

#### Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	User can upload the claim documents.	
	Application will display the mandatory and optional documents.	
Remarks	User can enter the additional information regarding the Claim Guarantee Advise Settlement. This information can be viewed by other users in other stages of the process.	
	Content from Remarks Field should be handed off to Remarks field in Backend application.	
View Guarantee/SBLC	User can view all the latest Guarantee/Standby LC details.	
Guarantee/SBLC Events	User can view all the previous events under the Guarantee/Standby LC.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	The Task gets cancelled and system should clear the details captured in the screen. The task will be deleted.	
Save & Close	Save the information provided and holds the task in 'My Task' for working later. This option will not submit the request.	

Field	Description	Sample Values
Submit	On Submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Guarantee/ SBLC Claim.	
	If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	
	1. Signatures on Claim verified	
	2. Mandatory claim Documents received	

### **Data Enrichment**

On successful completion of Registration of a Guarantee SBLC Advise - Claim settlement request, the request moves to Data Enrichment stage. At this stage the bank user can update the various claim fields. The user can input the transaction details.

At this stage the gathered information during Registration stage and claim settlement request are scrutinized and enter the data as required.

Do the following steps to acquire a task currently at Data Enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

The Data Enrichment stage has five sections as follows:

- Main Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following fields as part of settlement of claim under Guarantee/SBLC - Data Enrichment Stage.

#### **Main Details**

Main details section has three sub section as follows:

- Application Details
- Guarantee Details

#### **Application Details**

All fields displayed under Application details section, would be read only except for the **Priority**. Refer to Application Details in the Registration stage for more information of the fields.

#### **Charge Details**

On landing the Additional Details section, the default commission, charges and tax if any will get populated.

If default charges are available under the product, they should be defaulted here with values. If customer or customer group specific charges are maintained, then the same will be defaulted from back end system.

Component	Currency	Amount	Modified	Billing	Defer	Waive	Charge Party	Settlement Account	
LCGCLM	GBP	£50.00				$\bigcirc$		PK20010440017	Q

Provide the Charge Details based on the description provided in the following table:

Field	Description	Sample Values
Component	Charge Component type.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Modified	From the default value, if the rate is changed or the amount is changed, the same gets updated in 'Modified' field.	

Field	Description	Sample Values
Billing	If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.	
	On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.	
	The user can not select/de-select the check box if it is de-selected by default.	
	This field is disabled, if 'Defer' toggle is enabled.	
Defer	If charges have to be deferred and collected at any future step, this check box has to be selected.	
	On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.	
	The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.	
Waive	If charges have to be waived, this check box has to be selected.	
	Based on the customer maintenance, the charges should be marked for Billing or for Defer.	
	If the user changes the defaulted charging to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' placeholder.	
	This field is disabled, if 'Defer' toggle is enabled.	
Charge Party	Charge party will be applicant by default. User can change the value to beneficiary	
Settlement Account	Details of the settlement account.	

#### **Commission Details**

The values gets defaulted, In the Commission Details section, If default commission is maintained under the product.

Commission Details

									+
Component	Rate	Modified	Currency	Amount	Modified	Defer	Waive	Charge Party	Settlement Account
No data to display.									
Page 1 (0 of 0 items)	Κ < 1	> >							

Provide the Commission Details based on the description provided in the following table:

Field	Description	Sample Values
Component	Select the commission component	
Rate	Defaults from product. User can change the rate, if required.	
Currency	Defaults the currency in which the commission has to be collected.	
Amount	An amount that is maintained under the product code defaults in this field. User can modify the value, if required.	
Modified Amount	From the default value, if the rate is changed or the amount is changed, the same gets updated in 'Modified' field.	
Billing	If charges/commission is handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	
Waive	Select the check box to waive charges/ commission.	
	Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.	
	If the user changes the defaulted Commission to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' placeholder.	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary.	
Settlement Account	Details of the Settlement Account.	

#### **Tax Details**

The tax component is calculated based on the commission. The tax component defaults if maintained in the product level. Tax detail cannot be updated by you and any change in Tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system.

Tax Details

Component	Currency	Amount	Billing	Defer	Settlement Account
No data to display.					

#### Following Tax Details will be displayed:

Field	Description	Sample Values
Component	Tax Component type.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Settlement Account	Details of the settlement account.	

#### **Preview Message**

Preview Message

The bank user can view a preview of the message and advice simulated from back office which is based on the guarantee Standby Advised captured in the previous screen.

- Split Settlement Details User should be able to view the split settlement details.
- Accounting Entries User can see the accounting details.
- Compliance The compliance tile has the KYC, Sanctions and AML.

#### **Action Buttons**

Field	Description	Sample Values
Reject	On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.	
	Reject Codes:	
	R1- Documents missing	
	R2- Signature Missing	
	R3- Input Error	
	<ul><li>R4- Insufficient Balance/Limits</li><li>R5 - Others.</li></ul>	
	Select a Reject code and give a reject description.	
	This reject reason will be available in the remarks window throughout the process.	
Refer	On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.	
	Refer Codes:	
	R1- Documents missing	
	R2- Signature Missing	
	<ul> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> </ul>	
	<ul> <li>R5 - Others.</li> </ul>	
Hold	The details provided will be on hold.	
	This option is used, if there are any pending information yet to be received from applicant.	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later.	
	This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Submit	On clicking Submit, system validates for all mandatory field values and the task should move to the next logical stage. If the user submits without visiting other mandatory steps, then error message is displayed and force the user to visit mandatory tabs/update mandatory fields.	

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents.	
	Application will display the mandatory and optional documents.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Incoming Message	Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.	
View Undertaking	Clicking this button allows the user should to view the undertaking details.	

### **Multi Level Approval**

This stage allows the approver user to approve a Claim settlement under Guarantee Advise Transaction.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

#### **Re-Key Authorization**

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Applicant Name
- Beneficiary Name
- Undertaking Currency
- Undertaking Amount
- Expiry Date

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

💵 Documents 🔤 🤜 Re	emarks
£25,000.00 🥝	
• Ø	
	£25,000.00 <ul> <li>✓</li> <li>✓</li> <li>✓</li> </ul>

In Approval, the user can view a snapshot of the amendment made to this transaction. Corresponding to the field the current latest Guarantee value and the new amended value should be displayed.

6. On clicking next, user can see the summary.
