1. Preface

1.1 Introduction

This manual is designed to help you quickly get acquainted with the Oracle Banking Branch Current Account and Savings Account Services. It provides an overview of the module and provides information on using the Current and Savings Account sub-module of Oracle Banking Branch Current Account and Savings Account Services.

1.2 Audience

This manual is for the Customer Service Representatives (CSRs) and staff in charge of setting up new products in your bank.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at: <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>

1.4 Symbols, Definitions and Abbreviations

The following are some of the Symbols you are likely to find in the manual:

Table 1.1: Symbols

	Information

Table 1.2: Common Icons and its Definitions

Icon Names	Applicable Stages	Operation
Document	Initiation, Approval and Hand-off Retry	The maker of the transaction can click on 'Document' to upload documents that are relevant to the transaction. Once uploaded, the documents are available for viewing during authorization or by the maker.
Change Log	Approval	When the authorizer clicks on the Change Log button, the system displays the changes made to the transaction in a pop-up window. By default, the change log is set to display only modified values. The Change Log button has two options, All and Updated. All button displays both modified and non-modified fields and the Updated button displays only the modified fields. All the modified values are displayed in red that helps the authorizer to compare and simplify the authorization process.
Remarks	Initiation, Approval and Hand-off Retry	'Remarks' can be used either by the maker or the authorizer of the transaction to optionally capture useful information about the transaction.
Host Error	Hand Off Retry	Hand off Retry' comes into use whenever a transaction input from the mid-office system fails authorization due to Host System rejection. The authorizer of the transaction can view the reason for Host rejection and take appropriate action.
i icon	Initiation, Approval and Hand-off Retry	To view the Customer details such as the photograph, signature, customer ID, Account Branch, and balance, the 'i' icon is used. The 'i' icon becomes active once the maker of the transaction inputs the account number and tabs out of the field. The 'i' icon is useful to inquire customer information about both the debit and the credit account numbers.
Minimize	Initiation, Approval and Hand-off Retry	Users can minimize the transaction input screen. When the screen is minimized, it appears as to a separate tab within the same web page

Icon Names	Applicable Stages	Operation
Maximize	Initiation, Approval and Hand off Retry	User can maximize the transaction input screen.
Close	Initiation, Approval and Hand off Retry	Users can close the transaction input screen. The system displays a warning message to the user that any unsaved data would be lost. User can either choose to ignore the message and close the screen or choose to 'save and close' the transaction
Save and Close	Initiation	In case a transaction has to be closed midway due to a lack of sufficient information, the maker of the transaction can choose this option. On 'Save & Close', the input details are saved and the transaction screen is closed. Saved transaction details will be available in 'My task'. Users can select the transaction from 'My Task' and proceed with the transaction or delete it.
Submit	Initiation	On completion of input of all parameters for a particular transaction, click the 'Submit' icon to move the transaction from the initiation stage to the approval stage. Authorizer can select the transaction from 'Free Task' for approval.
Cancel	Initiation, Approval and Hand off Retry	Cancel operation cancels the transaction input midway without saving any data. The user is alerted that the input data would be lost before confirming the cancellation.
Approve	Approval	Click Approval. The system displays a pop-up screen where approval remarks if any can be input. Click OK to submit the transaction to the Host for approval through Oracle Banking Routing Hub.
Reject	Approval and Hand off Retry	When an authorizer chooses to reject a transaction, the 'Reject' icon is used. The system displays a pop-up screen to capture the Rejection remarks if any. Click OK for the transaction to be routed back to the initiation stage. Subsequently, the maker can modify or delete the transaction details

Icon Names	Applicable Stages	Operation
Retry	Hand off Retry	The possibility of retrying a transaction arises when transaction input from the mid-office system fails authorization due to Host System rejection. Such host-rejected transactions will be present in the Hand off Retry queue in the Task Wizard. The Retry option is available only to the authorizer. Upon 'Retry', the transaction is sent to the host once again through Oracle Banking Routing Hub. Optionally, the authorizer can also 'Reject' the transaction in which case it is routed back to the maker.
Audit	Initiation, Approval and Hand off Retry	Audit details provide the logs of users who have acted on the transaction, the transaction date, and the time for all stages that the transaction has passed through.
Reset	Hand off Retry	The reset button clears all the details displayed on the screen and allows input or selection of a different customer number.

1.5 List of Topics

This manual is organized as follows:

Table 1.3:

Topics	Description and Cross References
Preface	This topic provides the general information about the manual. It also list the various topics covered in the User Manual.
Dashboard	<p>The Dashboard provides an overview of the goings-on at the bank to its users, which helps the user in managing the transaction life cycle of different activities in an efficient manner.</p> <ol style="list-style-type: none"> 1) 2.1 Pending Documentation 2) 2.2 My Transactions 3) 2.3 Bulletin Board 4) 2.4 My Diary 5) 2.5 Service Request 6) 2.6 My Pending Tasks

Topics	Description and Cross References
Standing Instruction Maintenance	The topics which are part of Standing Instructions are: <ol style="list-style-type: none"> 1) Scheduled Transfer 2) View and Modify Scheduled Transfer 3) Sweep In to Account 4) View and Modify Sweep In to Account 5) Sweep Out from Account 6) View and Modify Sweep Out from Account 7) Term Deposit Instruction 8) Online Account Sweep In
Cheque Book	The topics which are part of Cheque Book are: <ol style="list-style-type: none"> 1) Stop Cheque Payment 2) Cheque Book Request
Debit Card	The topics which are part of Debit Card are: <ol style="list-style-type: none"> 1) Card Status Change 2) ATM and POS Limits 3) Debit Card Request

Others	The topics which are part of Others are: <ol style="list-style-type: none"> 1) Account Branch Transfer
Statement	The topics which are part of Statement are: <ol style="list-style-type: none"> 1) Account Statement Request 2) Account Statement Frequency
Limits	The topics which are part of Limits are: <ol style="list-style-type: none"> 1) Temporary Overdraft Limit
Amount Block	The topics which are part of Amount Block are: <ol style="list-style-type: none"> 1) Amount Block 2) View and Modify Amount Block 3) Consolidated Amount Block

Topics	Description and Cross References
Maintenance	The topics which are part of Maintenance are: <ol style="list-style-type: none"> 1) Account Address Update 2) Account Documents Update 3) Joint Holder Maintenance 4) Nominee Details Update
Inquiry	The topics which are part of Inquiry are: <ol style="list-style-type: none"> 1) Account Balance Inquiry 2) Account Transaction Inquiry 3) Cheque Status Inquiry 4) Tax Deducted at Source Inquiry 5) Online Account Sweep History
Error Codes	This topic describes about the Error Codes and Messages <ol style="list-style-type: none"> 1) Error Codes and Messages

2. Dashboard

This topic describes the systematic instructions about Dashboard and various widgets used. This Dashboard provides an overview of the goings-on at the bank to its users, which helps the user in managing the transaction life cycle of different activities in an efficient manner.

The Dashboard is used to visualize the data by graphically representing them using a doughnut wheel. In Dashboard the filters are used to narrow down the data to the transaction level.

Figure 2.1: Dashboard

The Dashboard displays widgets for which access is granted to the user. Following widgets are available in the Account Dashboard and described in the sub-sections:

- [2.1 Pending Documentation](#)
- [2.2 My Transactions](#)
- [2.3 Bulletin Board](#)
- [2.4 My Diary](#)
- [2.5 Service Request](#)
- [2.6 My Pending Tasks](#)

2.1 Pending Documentation

This topic describes the systematic instruction about the Pending Documentation widget in Dashboard.

Context:

The Pending documentation widget provides users a view of pending, expired, expiring this month documents.

The Pending Documentation doughnut is classified as follows:

- Pending
- Expired
- Expiring this Month

Figure 2.2: Pending Documentation

1. Hover the mouse on each section of the widget, it displays the total number of documents outstanding for each respective segment.
2. Click on a particular section of the widget.

For example, when you click on the Pending section, the pop-up window lists all the account numbers from which documents are pending to be collected.

STEP RESULT: A pop-up window displays the account numbers available.

5. On the **Account Documents Update** screen, the following fields are displayed.
 - a. Document Type
 - b. Mandatory
 - c. Expiry Date
 - d. Expected Submission Date
 - e. Actual Submission Date
 - f. Document Reference
 - g. Actions

For more information on the fields, refer to [Table 22.1: Account Documents Update - Field Description](#)

6. Click  to filter the pending documentation based on the sub domain and product.
For more information on fields, refer to the field description table.

Table 2.1: Pending Documentation-Filter

Field	Description
Filter by Sub Domain	Displays all the modules supported by widget from the drop down list.
Filter by Product	Enter the Account Class Code or click the search icon to view the Filter by Product pop-up window. By default, this window lists all the Account Class codes present in the system. You can search Account Class code , Account Class description or Account Type and click on the Fetch button.

7. Click the **Filter** button.
STEP RESULT: The applied Filters will appear in the band within the widget.
8. To remove the filters, click  icon and click the clear button.

2.2 My Transactions

This topic describes the systematic instruction about the Pending Documentation widget in Dashboard.

CONTEXT:

My Transaction widget provides a view of all transactions that the user performed during the day.

My Transaction doughnut is classified as follows:

- Pending Approval
- Failed
- Rejected
- Completed

Figure 2.6: My transactions

1. To view the Transactions for the day, hover the mouse on each section of the doughnut.
2. Click  icon to display the transactions based on the sub domain and the process name. For more information on fields, refer to the field description table.

Table 2.2: My Transactions-Filter

Field	Description
Filter by Sub Domain	Displays all the modules supported by widget from the drop down list.
Process Name	Enter the Process Name or click on the search icon to select the processes available under a particular sub-domain

3. After selecting the Process Name click the **Filter** button.
STEP RESULT: The applied Filters will appear in the band within the widget.
4. To remove the filters, click  icon and click the clear button

2.3 Bulletin Board

This topic describes the systematic instruction about the Bulletin Board widget in Dashboard.

Context:

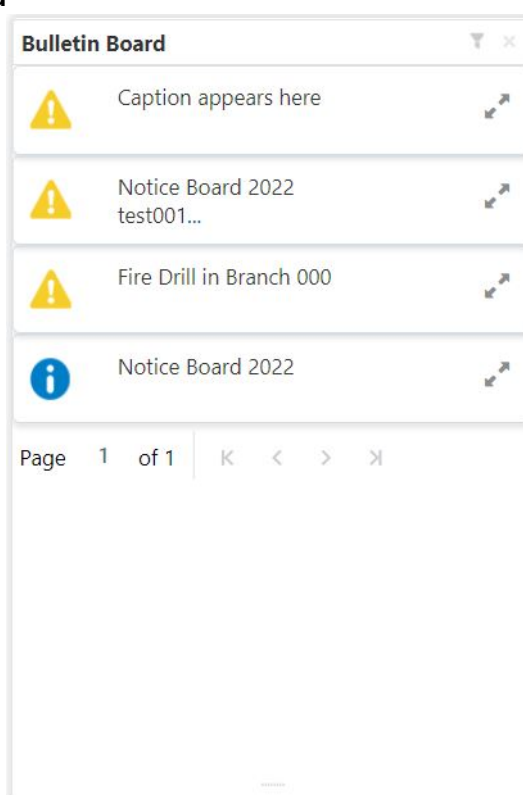

The Bulletin Board widget posts all messages about the business in between the bank and its customers. If the

bulletin message is Alert, the  icon is displayed and if the bulletin message is information, the  icon is displayed.

The messages are:

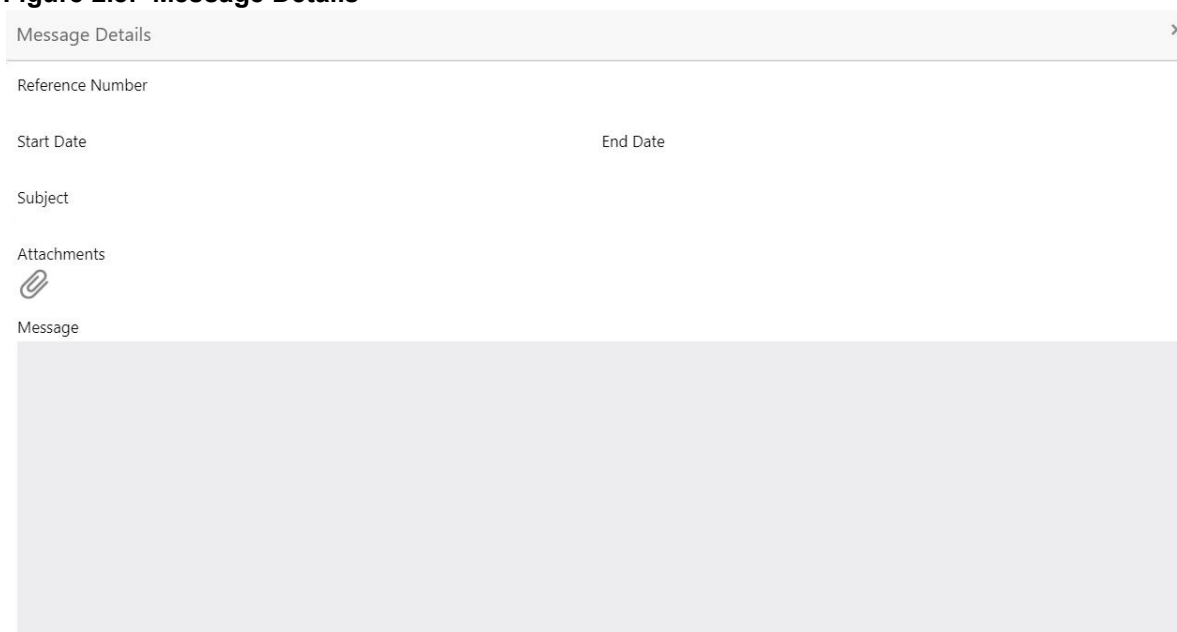

- Public news and its messages
- Bank policies and notices
- System Messages like system downtime information, network failures, etc.

Figure 2.7: Bulletin Board

5. To view the details of the bulletin, click  icon.

STEP RESULT: **Message Details** pop-up window is displayed.

Figure 2.8: Message Details

6. Click the  icon, to view the list of attachments.
 STEP RESULT: **Document List** pop-up window is displayed.

Figure 2.9: Document List

7. Click the attachment to view the document.
8. Click  icon to filter the bulletin board based on Reference Number, Start Date, End Date.
 For more information on fields, refer to the field description table.

Table 2.3: Bulletin Board-Filter

Field	Description
Reference Number	Enter the Reference Number or click the search icon to view the Reference Number pop-up window. By default, this window lists all the Reference Numbers present in the system. You can search for a specific Reference Number by providing Reference Number , and click on the Fetch button.
Start Date	Click on the adjoining calendar icon and specify the Start Date .
End Date	Click on the adjoining calendar icon and specify the End Date .

- Click the **Filter** button.

STEP RESULT: The applied Filters will appear in the band within the widget.

- To remove the filters, click  icon and click the clear button

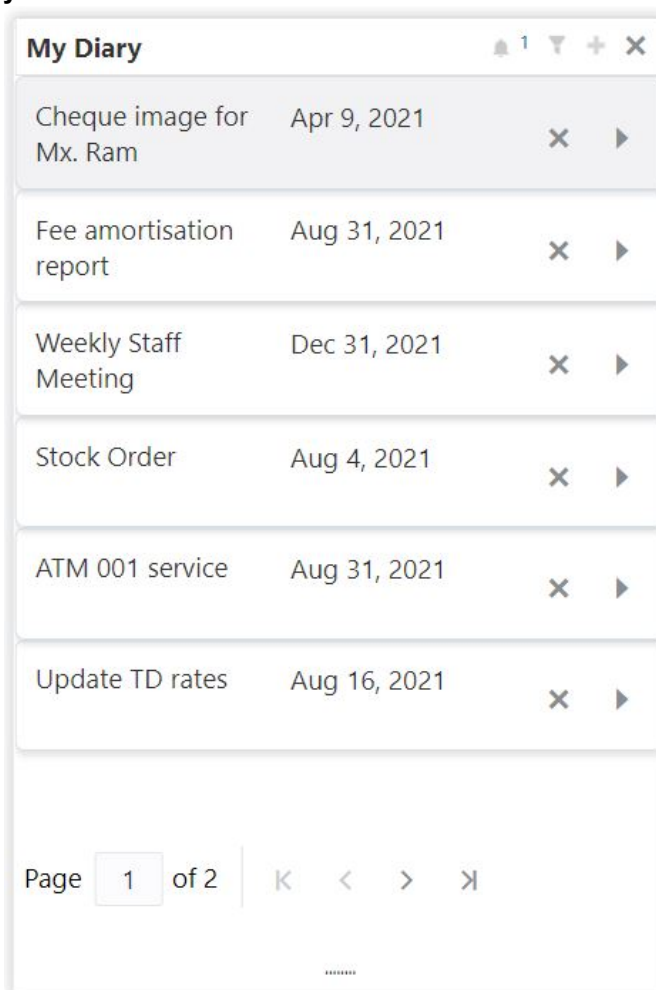

2.4 My Diary

This topic describes the systematic instruction about the My Diary widget in Dashboard.

CONTEXT:

My Diary widget helps users to keep a record of activities that they would perform in the near future or perform at regular intervals. This widget allows users to set reminders, define a frequency for reminders as well as define an end date to the event.

Figure 2.10: My Diary

- Click  to filter the events based on due date.

For more information on fields, refer to the field description table.

Table 2.4: My Diary-Filter

Field	Description
Filter By Due Date	Click on the adjoining calendar icon and specify the Due date.

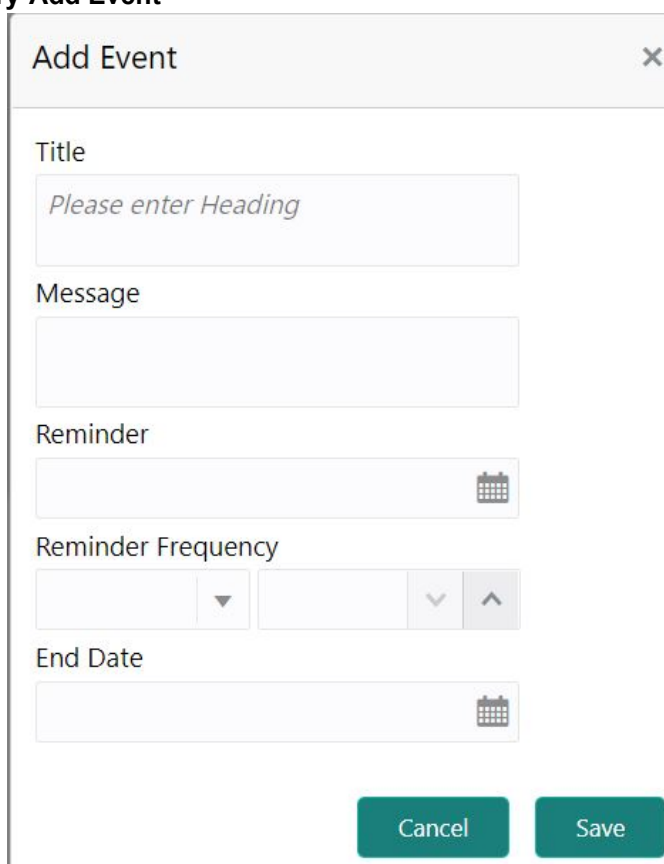

- The dairy event within the widget will show the Title and the End-Date. Click  to view or edit the diary event.
- When the user defines the reminder date for a dairy event, the bell icon with the number of reminder events will be displayed. Click  icon to view the events that are due for the day.
- Click  to create a new Diary event.
STEP RESULT: **Add Event** pop up screen is displayed.

Figure 2.11: My Diary-Add Event

- On **Add Event** pop up screen, specify the fields.
For more information on fields, refer to the field description table.

Table 2.5: My Diary-Add Event

Field	Description
Title	Enter an appropriate title for the diary event. When event is saved, the title appears on the widget.

Field	Description
Message	Enter details about the diary event.
Reminder	Click on the adjoining calendar icon and specify the reminder date.
Reminder Frequency	Users can define a reminder frequency for the diary event in Days, Months, or Years. By using the increment and decrement button, the frequency can be increased or decreased.
End Date	Click on the adjoining calendar icon and specify the End date. On this date, the event will be removed from the widget. NOTE: If the Due Date is not specified, the event remains in the widget indefinitely.

6. Click the **Filter** button.

STEP RESULT: The applied Filters will appear in the band within the widget.

7. To remove the filters, click  icon and click the clear button.

2.5 Service Request

This topic describes the systematic instruction about the Service Request widget in Dashboard.

CONTEXT:

Service Request widget helps the user to capture the service requests on behalf of customers whose transactions cannot be completed in a straight-through processing sequence or which might take time to analyze or investigate. Transactions such as double debits, incorrect charges, ambiguous transactions fall into this category.

The Service Requests widget is classified based on priority namely:

- High
- Medium
- Low

Figure 2.12: Service Requests

1. To view the Service Requests, hover the mouse on each section of the doughnut.
2. The Service Request details are derived from the function id **STDSRQST** (Service Request Input screen). Users can edit and save the details in this screen.
3. On the Service Request doughnut, when a section is clicked the doughnut pops out. Whenever the page is navigated away from the dashboard, this pop-out will reset and go back to the default view.

STEP RESULT: **Service Request Doughnut pop-out** is displayed.

Figure 2.13: Service Request Doughnut pop-out

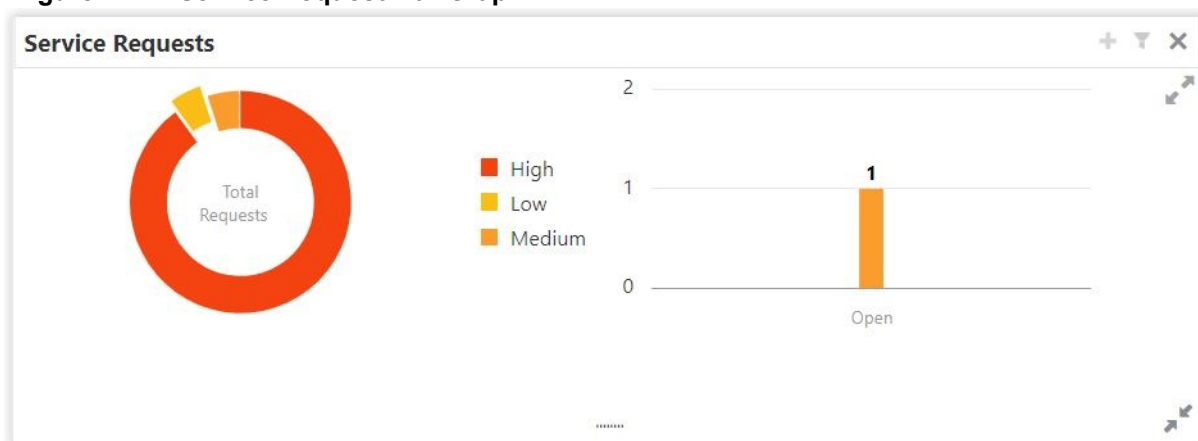

4. Click  icon to view the bar graph which displays different status of the service requests. Each bar displays the total number of service requests at the top of the bar.
STEP RESULT: **Service Request-Bar Graph** is displayed.

Figure 2.14: Service Request-Bar Graph

5. The bar graph displays different status like Open, Closed, Escalated, Pending. For a specific status, users can click the bar to view the following service request details in a tabular format.
 - a. Service Request Number
 - b. Service Request Type
 - c. Customer Number
 - d. Account Number
6. Click  icon to close the bar graph.
7. On the Service Request widget, click  icon to view available service requests for selected priority with the status in tabular format.

STEP RESULT: **Priority Service Request** pop-up window gets displayed.

Figure 2.15: Priority Service Request Pop Up Window

8. Users can view the following details in the Service Requests table,
 - a. Service Request Number
 - b. Service Request Type
 - c. Customer Number
 - d. Account Number
 - e. Status
9. Click  icon to create New Service Requests.

STEP RESULT: **New Service Request** screen is displayed.

Figure 2.16: Service request-New Service request

The screenshot shows a web form titled "New Service Requests" with a close button (X) in the top right corner. The form is organized into two columns of fields:

- Left Column:**
 - Service Request Number
 - Customer Number * (with a search icon)
 - Full Name
 - Telephone
 - Mobile Number
 - Email
 - Service Request Description (with placeholder text "Please enter description")
- Right Column:**
 - Service Request Type (dropdown menu)
 - Account Number
 - Priority (dropdown menu)
 - Status (dropdown menu)
 - Service Request Date (calendar icon)
 - Target Completion Date (calendar icon)

A green "Save" button is positioned at the bottom right of the form.

10. On the **New Service Request** screen, specify the fields.
For more information on fields, refer to the field description table.

Table 2.6: Service Request-New Service Request

Field	Description
Service request Type	Users can select any one of the Service Request Type from the drop-down list.
Customer Number	Enter the Customer Number or click the search icon to view the Customer Details pop-up window. By default, this window lists all the Customer Numbers present in the system. You can search for a specific Customer Details by providing Customer Number and click the Fetch button. After the Fetch button is clicked the system displays the customer details, <ul style="list-style-type: none"> • Full Name • Telephone Number • Mobile Number • Email
Account Number	Account Number is displayed based on the Customer Number selected. Alternatively, users can also enter or click the search icon to view the Customer Account Details pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing the Account Number or Account Name and click the Fetch button. After the Account Number is selected, the system defaults the Customer Number.
Priority	Users can select any one of the Priority Type from the drop-down list. The Priority drop-down lists the below values, <ul style="list-style-type: none"> • High • Medium • Low
Status	Users can select any one of the Status from the drop-down list. The Status drop-down lists the below values, <ul style="list-style-type: none"> • Open • Pending • Closed • Escalated
Service Request Date	Click on the adjoining calendar icon and specify the Service Request Date . NOTE: The Service Request Date is defaulted to current business date.
Target Completion Date	Click on the adjoining calendar icon and specify the Target Completion Date of the service request.

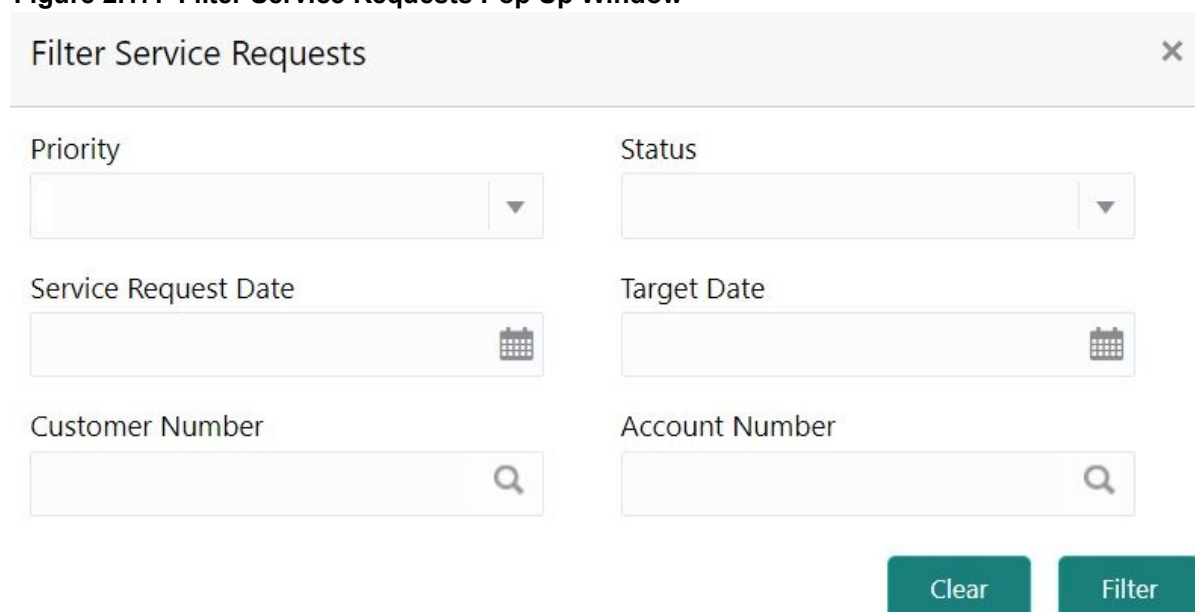

Field	Description
Service Request Description	Users can enter the description about the Service Request.
Service request Number	Displays the Service Request Number generated by the system.

11. After entering all the details users need to click on **Save** button. The system generates a service request number and populates in the Service Request Number field & displays a success message **SR is saved successfully**. When the user accepts the message, the screen is closed and the service request appears on the widget.

12. Click  to filter the service requests.

STEP RESULT: **Filter Service Requests** pop up window is displayed.

Figure 2.17: Filter Service Requests Pop Up Window

The screenshot shows a 'Filter Service Requests' pop-up window. It features a title bar with the text 'Filter Service Requests' and a close button (X). Below the title bar, there are six input fields arranged in two columns. The left column contains: 'Priority' (dropdown menu), 'Service Request Date' (calendar icon), and 'Customer Number' (search icon). The right column contains: 'Status' (dropdown menu), 'Target Date' (calendar icon), and 'Account Number' (search icon). At the bottom right of the window, there are two buttons: 'Clear' and 'Filter'.

13. On **Filter Service Requests** pop up window, specify the fields.
For more information on fields, refer to the field description table.

Table 2.7: Filter Service Requests

Field	Description
Priority	Users can select any one of the Priority Type from the drop-down list. The Priority drop-down lists the below values, <ul style="list-style-type: none"> • High • Medium • Low
Status	Users can select any one of the Status from the drop-down list. The Status drop-down lists the below values, <ul style="list-style-type: none"> • Open • Pending • Closed • Escalated
Service Request Date	Click on the adjoining calendar icon and specify the Service Request Date .
Target Date	Click on the adjoining calendar icon and specify the Target Date of the service request.
Customer Number	Enter the Customer Number or click the search icon to view the Customer Details pop-up window. By default, this window lists all the Customer Numbers present in the system. You can search for a specific Customer Details by providing Customer Number or Customer Name and click the Fetch button.
Account Number	Enter the Account Number or click the search icon to view the Customer Account Details pop-up window. By default, this window lists all the Customer Numbers present in the system. You can search for a specific Customer Account Details by providing Customer Number , Account Number or Account Name and click the Fetch button.

14. Click the **Filter** button.

STEP RESULT: The applied Filters will appear in the band within the widget.

15. To remove the filters, click  icon and click the clear button.

2.6 My Pending Tasks

This topic describes the systematic instruction about My Pending Tasks widget in Dashboard.

CONTEXT:

My Pending Tasks widget provides the user list of transactions that are in different statuses such as rejected, failed, and incomplete. Users can click on each section of the widget to access the transactions and proceed to complete them.

My Pending Tasks doughnut is classified as follows:

- Failed
- Incomplete
- Rejected

Figure 2.18: My Pending Tasks

1. To view the Pending Tasks, hover the mouse on each section of the doughnut.
2. Click  to display the transactions based on process name.
For more information on fields, refer to the field description table.

Table 2.8: My Pending Tasks-Filter

Field	Description
Process Name	Enter the Process Name or click on the search icon to select the processes available under a particular sub-domain.

3. Click the **Filter** button.
STEP RESULT: The applied Filters will appear in the band within the widget.
4. To remove the filters, click  icon and click the clear button.

3. Scheduled Transfer

This topic describes the systematic instruction to maintain scheduled transfer. A customer can issue standing instructions to the bank, to perform a certain transaction for a particular period without any follow-up or intervention by either party. For example, a customer can instruct the bank to debit a Current and Savings Account account by a fixed amount at a predefined frequency and transfer the funds to another account. When the customer requests a scheduled transfer to Current and Savings Account, the operation officer can capture the instruction details on this screen.

1. On the **Homepage**, from **Account Services**, under **Standing Instructions**, click **Scheduled Transfer**, or specify the **Scheduled Transfer** in the Search icon bar.

STEP RESULT: **Scheduled Transfer** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 3.1: Scheduled Transfer Screen

2. On **Scheduled Transfer** screen, specify the fields.
For more information on fields, refer to the field description table.

Table 3.1: Scheduled Transfer - Field Description

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID , Account Number , or Account Name and clicking on the Fetch button. When users enter the account number, the customer information is displayed.
Account Name	Account Name is displayed by default based on the account selected.

Field	Description
Beneficiary Account Number	Enter the Beneficiary Account Number, or click the search icon to view the Beneficiary Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Beneficiary Account Number by providing Customer ID, Beneficiary Account Number, or Beneficiary Account Name and clicking on the Fetch button.
Beneficiary Account Name	Beneficiary Account Name is displayed based on the account selected.
Transfer Amount	Input the Transfer Amount for scheduled transfer, this amount will be transferred on a predefined frequency. Field Transfer Amount is appended with transaction currency. Beneficiary account number currency will be default as transfer amount currency while choosing the beneficiary account number.
Frequency	The user can select the execution frequency from the Frequency drop-down list. Standing instruction transfer to Current and Savings Account will be executed on the selected frequency. Frequency drop-down list the below values: <ul style="list-style-type: none"> • Days • Months • Years The user can easily increase or decrease the value for the selected frequency with the up and down button.
Start Date	The system will default the Start Date as the current branch date, user can modify the start date to any future date using the adjoining calendar button. The first Standing instruction will be executed on the start date. NOTE: Start Date cannot be backdated.
Number of Transfers	The User can define the number of transfers to be executed on predefined frequency, it is not a mandatory field, if the user sets the number of transfers, the expiry date will be auto-calculated based on the Start date, Frequency, Month End Execution, and the number of transfers. The value for Number of Transfers can be increased or decreased using the Up and Down buttons

Field	Description
Month End Execution	The user can make sure that the standing instruction transfer to Current Account and Savings Account is executed every month-end by enabling the month-end execution. Month End execution is defined for daily frequency. By default month-end, execution will be off. Month End flag can be enabled only if the start date is falling on month-end
End Date	Click the calendar and specify the expiry date. The expiry date is a non-mandatory field. If the expiry date is not captured, the system considers the standing instruction as open-ended. NOTE: End Date cannot be less than Start Date.
Narrative	The Narrative defaults as Scheduled Transfer. The user can modify the defaulted value.

4. View and Modify Scheduled Transfer

This topic describes the systematic instruction to View, Modify and Close the Schedule Transfer. A new User Interface is required for finding the existing scheduled transfer contract and modify or close the contract or view the schedule transfer cycle details..

1. On the **Homepage**, from **Account Services**, under **Standing Instructions**, click **View and Modify Scheduled Transfer**, or specify the **View and Modify Scheduled Transfer** in the Search icon bar.

STEP RESULT: **View and Modify Scheduled Transfer** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

9. Term Deposit Instruction

This topic describes the systematic instructions to Create Term Deposit Instruction, Modify or Close the existing term deposit instruction. This screen helps to capture the customer requests for creating a term deposit account if the account balance goes above the threshold limit. This will ensure a better interest return to account holders.

1. On the **Homepage**, from **Account Services**, under **Standing Instructions**, click **Term Deposit Instruction**, or specify the **Term Deposit Instruction** in the Search icon bar.

STEP RESULT: **Term Deposit Instruction** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 9.1: Term Deposit Instruction

2. When the user inputs the account number, the system displays **Create Instruction** screen, If an active deposit instruction is unavailable.
3. On **Term Deposit Instruction** screen, specify the fields.
For more information on fields, refer to the field description table.

Table 9.1: Term Deposit Instruction

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID , Account Number , or Account Name and click the Fetch button. When users enter the account number, the customer information is displayed.
Account Name	Account Name is displayed by default based on the account number selected.
Threshold Amount	Account Currency will default to Threshold Amount filed. User can define the threshold amount for creating the term deposit account if the current account and savings account balance exceed the threshold amount, the system creates a term deposit account for the excess amount after considering the sweep multiples.
Sweep Multiples	Users can define the sweep multiples of which the term deposit to be created, this will avoid term deposit creation for a small amount.
Start Date	Users can define the start date from which the term deposit instruction to be valid, using the adjoining calendar. The system will default the start date as the current branch date, user can modify the start date to any future date. NOTE: Start Date cannot be backdated.
End Date	Users can define the end date of term deposit instruction, using the adjoining calendar, the system will not execute the term deposit instruction after the end date. NOTE: End Date cannot be less than Start Date.
Tenor	Users can define the tenor details for creating the term deposit account. Term Deposit account will be created for the selected tenor. The tenor drop down list the below values: <ul style="list-style-type: none"> • Days • Months • Years Users can increase or decrease the selected tenor with up and down arrow buttons.

4. When the user input the account number, the system displays **Edit instruction** screen with existing instruction details, If an active deposit instruction is available.

10. Online Account Sweep In

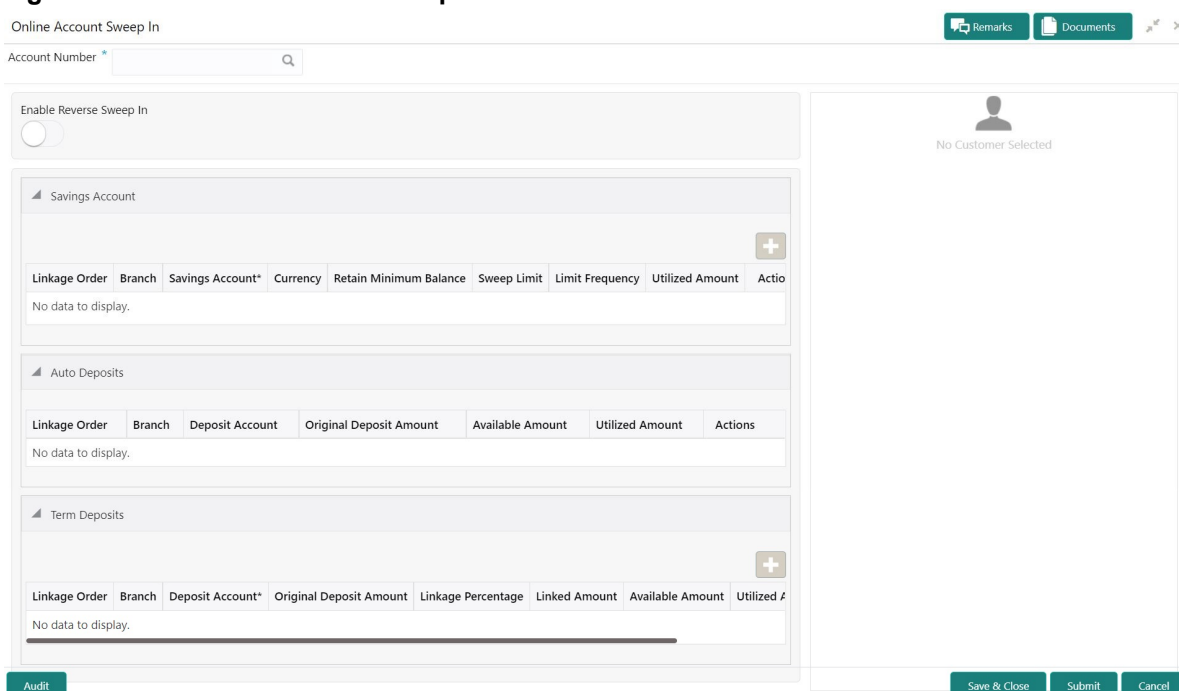

This topic describes the systematic instructions about Online Account Sweep In. This screen helps the users to link Savings accounts, Auto Deposits, and Term Deposits to a Primary Account to enable online sweep-in and reverse sweep-in feature. Online sweep enables the customer to utilize funds available in these accounts when there is a shortfall of balance in the Primary Account during a debit transaction.

1. On the **Homepage**, from **Account Services**, under **Standing Instructions**, click **Online Account Sweep In**, or specify the **Online Account Sweep In** in the Search icon bar.

STEP RESULT: **Online Account Sweep In** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 10.1: Online Account Sweep In

2. On **Online Account Sweep In** screen, specify the fields.
For more information on fields, refer to the field description table.

Table 10.1: Online Account Sweep In

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID, Account Number, or Account Name and click on the Fetch button. When users enter the account number, the customer information is displayed.
Account Name	Account Name is displayed based on the account number selected.
Search	Users need to click on Search button to view the Sweep History details.

3. After clicking on the Search button, the system displays the existing records for Savings Account, Auto Deposits, and Term Deposits in a tabular format. If no records are found, the system displays a message 'No records exist for the given account number'.
4. Users can link new Savings Account, Term Deposits by clicking on  icon.
5. To input the editable fields like Savings Account, Seep Limit, Limit Frequency, Deposit Account, Linkage Percentage, Linked Amount click  icon.
6. To link the new Savings Account, Term Deposits click  icon.
7. To delete the linked Savings Account, Auto Deposits and Term Deposits by clicking  icon.
8. On **Savings Account**, specify the fields.
For more information on fields, refer to the field description table.

Table 10.2: Online Account Sweep In-Savings Account

Field	Description
Linkage Order	Displays the sequential order of the Savings account linked. This is automatically updated by the system.
Branch	Displays the branch code for the selected Savings account number.
Savings Account	Enter the Savings Account number or click on the search icon to view the Savings Account pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Savings Account by providing Customer ID , Account Number , or Account Name and click on the Fetch button.
Currency	Currency is displayed based on the account number selected.
Retain Minimum Balance	Users can click on the toggle button to enable or disable the minimum balance. When the Toggle button is enabled, the amount swept from the Savings Account is the difference between the available balance and the minimum balance maintained. The system considers the minimum balance of the Savings Account when the account balance goes below the minimum balance. If the toggle button is not enabled, the available balance in the Savings Account is swept during a transaction.
Sweep Limit	Users can input the maximum amount to be swept from the Savings Account.
Limit Frequency	Users can select the Limit Frequency from the drop-down list. The drop-down lists the below values: <ul style="list-style-type: none"> • Per Transaction- The sweep limit maintained for the Savings Account is applied for every transaction that requires the amount to be swept from the Savings Account. • Daily- The sweep limit maintained for the Savings Account is the cumulative limit up to which the sweep transactions will be allowed for the day.
Utilized Amount	Displays the amount utilized by the receiving account number during a sweep in transaction.
Actions	Enables the options to Create, Modify, Delete.

9. When Primary Account and Auto Deposit account classes are enabled for Sweep in, then the system by default includes auto deposits of a primary account in Sweep structure maintained for the primary account and allocates 100% of Auto Deposit amount as Linked Amount.
10. On Auto Deposits, system displays the following fields.
 - a. Linkage Order
 - b. Branch

- c. Deposit Account
- d. Original Deposit Amount
- e. Available Amount
- f. Utilized Amount

11. On **Term Deposits**, specify the fields.

For more information on fields, refer to the field description table.

Table 10.3: Online Account Sweep In-Term Deposits

Field	Description
Linkage Order	Displays the sequential order of the Term Deposit account linked. This is automatically updated by the system.
Branch	Displays the branch code for the selected Deposit account number.
Deposit Account	Enter the Deposit Account number or click on the search icon to view the Deposit Account pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Deposit Account by providing Customer ID , Account Number , or Account Name and click on the Fetch button.
Original Deposit Amount	Displays the amount for the Deposit Account.
Linkage Percentage	Users can input the percentage. The value can be less than or equal to 100. NOTE: The value cannot be in negative value. If the entered value is more than 100, the system displays an error.
Linked Amount	Users can specify the amount. This amount cannot be greater than the available deposit amount.
Available Amount	Displays the available amount for the Deposit Account.
Utilized Amount	Displays the amount utilized by the receiving account number during a sweep in transaction.
Actions	Enables the options to Delete, Create

12. To **Enable Reverse Sweep In**, click on the toggle button.

11. Online Account Sweep History

This topic describes the systematic instructions about Online Account Sweep History. This screen helps in inquiring about the sweep in and reverse sweep in transactions that have taken place as a result of the customer opting for the Current Account and Savings Account sweep in feature on the primary account. The system computes the Sweep history details when Savings Accounts, Auto Deposits or Term Deposits are linked to the primary account in 'Online Account Sweep In' screen at a customer account level.

1. On the **Homepage**, from **Account Services**, under **Inquiry**, click **Online Account Sweep History**, or specify **Online Account Sweep History** in the Search icon bar.

STEP RESULT: **Online Account Sweep History** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

2. On **Online Account Sweep History** screen, specify the fields.
For more information on fields, refer to the field description table.

Table 11.1: Sweep History

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID , Account Number , or Account Name and click on the Fetch button.
Account Name	Account Name is displayed based on the account number selected.

3. After input of the account number, the Sweep History details are displayed in a tabular format.
4. On **Sweep History** details, users can view the fields.
For more information on fields, refer to the field description table.

Table 11.2: Sweep History Details

Field	Description
Account Number	Displays the linked Account Number.
Branch	Displays the branch code for the account number.
Account Type	Displays if the linked account is Savings Account, Auto Deposit or Term Deposit.
Operation	Displays the operation performed on the sweep transaction if it is a Sweep In or Reverse Sweep In transaction.
Transaction Date	Displays the date of sweep in or reverse sweep in transaction.
Transfer Amount	Displays the transfer amount involved in sweep in or reverse sweep in.

5. **View Sweep Setup** remains inactive until the account number is input and the Search button is clicked. When users click on the **View Sweep Setup**, Account Sweep In Definition pop up window is displayed.
6. In the Account Sweep In Definition screen, users can view the Account Sweep In details. The details are as follows,
 - a. Enable Reverse Sweep In
 - a. Savings Accounts
 - a. Auto Deposits
 - a. Term Deposits

12. Stop Cheque Payment

This topic describes the systematic instructions for stopping payment of cheque. Based on Customer Request Bank can stop payment on uncleared cheque. Stop payment requests can either be for a single cheque or a continuous sequence of cheque.

NOTE: Users can select the option **Single Cheque** or **Range of Cheque** for a stop payment. If stop payment to be performed for multiple sequential cheque numbers, user has to select the Range of cheque option.

1. On the **Homepage**, from **Account Services**, under **Cheque Book**, click **Stop Cheque Payment**, or specify the **Stop Cheque Payment** in the Search icon bar.

STEP RESULT: **Stop Cheque Payment** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 12.1: Stop Cheque Payment - Single Cheque tab

The screenshot displays the 'Stop Cheque Payment' interface with the 'Single Cheque' tab selected. At the top, there is a search bar labeled 'Account Number *' with a magnifying glass icon. To the right are buttons for 'Remarks' and 'Documents'. Below the search bar, there are two tabs: 'Single Cheque' (active) and 'Range of Cheques'. Under the 'Single Cheque' tab, there are two input fields: 'Cheque Number *' and 'Stop Reason *'. To the right of these fields is a customer selection area with a person icon and the text 'No Customer Selected'. At the bottom of the screen, there are four buttons: 'Audit', 'Save & Close', 'Submit', and 'Cancel'.

Figure 12.2: Stop Cheque Payment - Range of Cheque tab

2. On **Stop Cheque Payment** screen, specify the fields.
For more information on fields, refer to the field description table.

Table 12.1: Stop Payment Cheque - Single Cheque - Field Description

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID , Account Number , or Account Name and clicking on the Fetch button. When users enter the account number, the customer information is displayed.
Account Name	Account Name is displayed based on the account number selected.
Cheque Number	Enter the Cheque Number on which payment has to be stopped. NOTE: Option to input a single cheque number is available when Single Cheque is selected. This field is mandatory.
Stop Reason	User can capture the reason for stop payment instruction.

Table 12.2: Stop Payment Cheque - Range of Cheque- Field Description

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID , Account Number , or Account Name and click the Fetch button.
Account Name	Account Name is displayed based on the account number selected.

Field	Description
Cheque Start Number	Enter the first cheque number in a series of cheque on which payment has to be stopped. NOTE: Option to input Cheque Start Number is available when Range of Cheque is selected.
Cheque End Number	Enter the last cheque number in a series of cheque on which payment has to be stopped. NOTE: Option to input Cheque Start Number is available when 'Range of Cheque is selected. Cheque End Number cannot be less than the Cheque Start Number The cheque numbers must always be sequential
Stop Reason	User can capture the reason for stop payment instruction.

13. Cheque Book Request

This topic describes the systematic instructions to request Cheque book. Subject to the facility being available for the category of account the Customer owns, Cheque Books can be requested by the Customer. Generally, Cheque Books come in pre-defined book sizes and customers can request for issuance of new Cheque books when they run out of Cheque leaves.

1. On the **Homepage**, from **Account Services**, under **Cheque Book**, click **Cheque Book Request**, or specify the **Cheque Book Request** in the Search icon bar.

STEP RESULT: **Cheque Book Request** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 13.1: Cheque Book Request

The screenshot shows the 'Cheque Book Request' interface. At the top right, there are buttons for 'Remarks' and 'Documents'. The main form area contains several input fields: 'Account Number' with a search icon, 'Number Of Cheque Leaves' (with a dropdown arrow), 'Delivery Mode' (with a dropdown arrow), 'Narrative' (with a text area), 'Request Date' (with a calendar icon), and 'Delivery Address'. To the right of these fields is a customer selection area with a person icon and the text 'No Customer Selected'. At the bottom of the form, there are four buttons: 'Audit', 'Save & Close', 'Submit', and 'Cancel'.

2. On **Cheque Book Request** page, specify the fields.
For more information on fields, refer to the field description table.

Table 13.1: Cheque Book Request

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID , Account Number , or Account Name and clicking on the Fetch button. When users enter the account number, the customer information is displayed.
Account Name	Account Name is displayed based on the account number selected.

Field	Description
Number of Cheque Leaves	Input the Number of Cheque Leaves per Cheque book. Cheque books are generally issued by the Bank in predefined sizes or leaves per book. The number of leaves is a drop-down field that contains numbers that define the size of the Cheque book.
Request Date	Request date defaults to the current business date and will not allow editing.
Delivery Mode	<p>In the Delivery Mode drop-down, the available options are:</p> <ul style="list-style-type: none"> • Post/Courier • Branch <p>Selecting Branch would indicate that the customer would collect the Cheque book at the Branch whereas selecting Delivery would mean that the Cheque book will be delivered at the registered mailing address of the account.</p> <p>NOTE: There will be no option to select a delivery address since the mailing address is verified at the time of account opening and all customer communication happens at this address.</p>
Delivery Address	If Delivery Mode is selected as 'Post/Courier', Delivery Address will default to the address maintained at the Account. This field cannot be edited.
Narrative	Narrative field defaults to Cheque Book Request and allows editing.

14. Cheque Status Inquiry

This topic describes the systematic instructions about Cheque Status Inquiry. This screen will help the user to inquire about the cheque status and beneficiary details by providing the Account number and cheque number.

1. On the **Homepage**, from **Account Services**, under **Inquiry**, click **Cheque Status Inquiry**, or specify the **Cheque Status Inquiry** in the Search icon bar.

STEP RESULT: **Cheque Status Inquiry** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 14.1: Cheque Status Inquiry

2. On **Cheque Status Inquiry** screen, specify the fields.

For more information on fields, refer to the field description table.

Table 14.1: Cheque Status Inquiry

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID , Account Number , or Account Name and click on the Fetch button.
Account Name	Account Name is displayed based on the account number selected.
Cheque Number	Enter the Cheque Number and click the Search button to view the Cheque Status details.

Field	Description
Cheque Status	In Cheque Status the following details are displayed, <ul style="list-style-type: none">• Status• Amount• Presented On• Date On Cheque• Beneficiary
Status	The Status displays if the cheque is Used, Not Used, Canceled, Rejected and Part Used. For cheques that are stopped from payment, an additional remark, 'Stopped' will be displayed in the status.
Amount	Displays the Amount for which the cheque is drawn.
Presented On	Displays the date on which the Cheque was presented for encashment.
Date On Cheque	Displays the date mentioned on the cheque.
Beneficiary	Displays the beneficiary of the cheque.

15. Card Status Change

This topic describes the systematic instructions about Card Status Change.

1. On **Home** screen, from **Account Services**, under **Debit Card**, click **Card Status Change** or specify the **Card Status Change** in the Search icon bar.

STEP RESULT: **Card Status Change** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 15.1: Card Status Change

2. On **Card Status Change**, specify the fields.
For more information on fields, refer to the field description table.

Table 15.1: Card Status Change

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID , Account Number , or Account Name and clicking on the Fetch button. When users enter the account number, the customer information is displayed.
Account Name	Account Name is displayed based on the account number selected
Card Number	Enter the Card Number or click the search icon to view the Card Number pop-up window. By default, this window lists all the Card Numbers linked to the Account Number. You can search for a specific Card Number by providing Card Number , Name on the Card , or Card Type and click on the Fetch button.
Name on the Card	The system defaults this field, based on the Card Number.

Field	Description
Card Type	The system defaults this field based on the Card Number.
Expiry Date	Expiry Date of the Card is defaulted based on the Card Number
Card Status	Select the Card status from the drop-down list. Users can Block or Activate the Card by selecting the appropriate value in the drop-down list.
Reason for change	Specify the reason for change.

16. ATM and POS Limits

This topic describes the systematic instructions about ATM and POS Limits. This screen will help to capture the customer's request for editing the existing limits on ATM and POS transactions defined on the debit card.

1. On the **Homepage**, from **Account Services**, under **Debit Card**, click **ATM and POS Limits**, or specify the **ATM and POS Limits** in the Search icon bar.

STEP RESULT: **ATM and POS Limits** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 16.1: ATM and POS Limits

Audit Save & Close Submit Cancel

2. On the **Consolidated Amount Block** screen, specify the fields.
For more information on fields, refer to the field description table.

Table 25.1: Consolidated Amount Block - Field Description

Field	Description
Customer ID	Enter the Customer ID or click the search icon to view the Customer ID pop-up window. By default, this window lists all the Customer ID's present in the system. You can search for a specific Customer ID by providing Customer ID or Customer Name and click on the Fetch button.
Customer Name	Customer Name is displayed based on the Customer ID selected
Actions	<p>At Account level, click  icon to perform the following actions:</p> <ul style="list-style-type: none"> • No Debits • Add New Block <p>At individual amount block level, click  icon to perform the following actions:</p> <ul style="list-style-type: none"> • Edit • Pre-Close

3. After input of **Customer ID**, the system displays the following details:
 - a. All accounts of the customer
 - b. Available balance against each account
 - c. Cumulative blocked amount against each account
 - d. Individual amount block details
 - e. Labels to signify if an account is placed under no-debits and if an amount block is pre-closed.

4. Click **Add New Block** option from  icon, to create a new amount block.
 STEP RESULT: **Add New Block** pop up window is displayed.

Figure 25.2: Add New Block

- On the **Add New Block** pop up window, specify the fields.
For more information on fields, refer to the field description table.

Table 25.2: Add New Block - Field Description

Field	Description
Account Number	Displays the Account number.
Effective Date	Input the date on which the amount block becomes effective. By default, the current business date is shown. However, if the date is future-dated, the amount block becomes effective on that date. NOTE: The effective date cannot be backdated from the current business date.
Expiry Date	Input the date on which the amount block expires. The system releases the blocked amount back into the available balance of the account. NOTE: The Expiry Date cannot be less than effective date.
Block Reason	Input the block reason specific to the amount block.

- After the input of fields on the **Add Block** pop-up window, click **Save**.
- To modify an existing amount block, click **Edit** from  icon.
STEP RESULT: **Edit Block** pop-up window is displayed.

Figure 25.3: Edit Block

The screenshot shows a pop-up window titled "Edit Block". It contains the following fields and controls:

- Account Number:** A text input field.
- Amount to be blocked:** A text input field with a currency symbol (₹) on the right.
- Effective Date:** A date picker field with a calendar icon.
- Expiry date:** A date picker field with a calendar icon.
- Block Reason:** A text area for entering the reason for the block.
- Buttons:** Two buttons at the bottom right: "Save" and "Cancel".

8. On the **Edit Block** pop-up window, users can modify the following details and click **Save**.
 - a. Amount to be blocked
 - b. Effective Date
 - c. Expiry Date
 - d. Block Reason

9. Click the **No Debits** option from  icon to block the account from any further debits on the account. It is possible to release (uncheck) **No Debits** at a later point to release the full block and define partial blocks if required.

10. Click the **Pre-Close** option from  icon to release the amount block before the expiry date. Then, the system releases the blocked balance to the available account balance.

26. Nominee Details Update

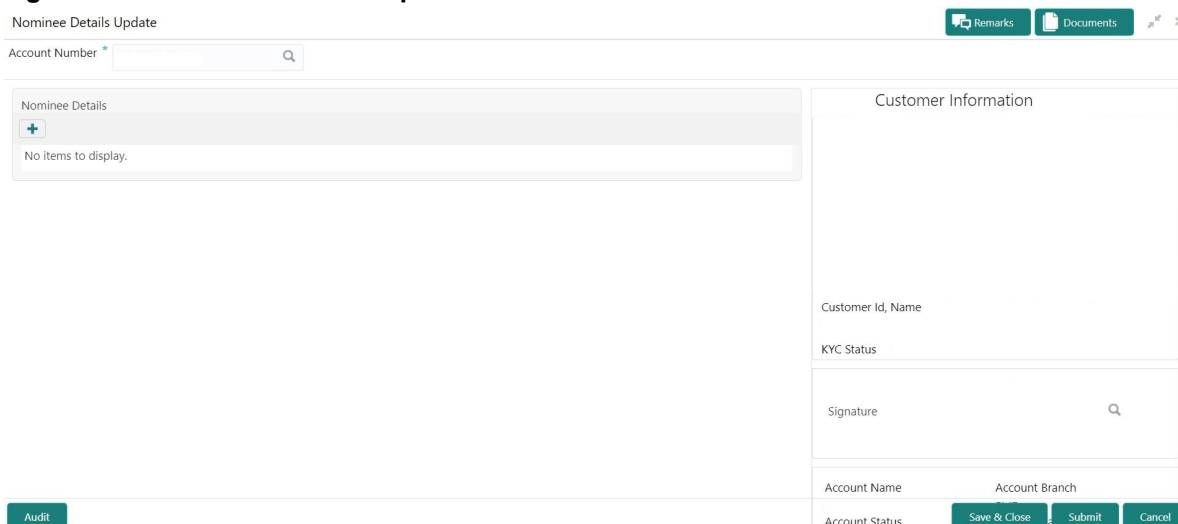

This topic describes the systematic instruction to update nominee details.

1. On the **Homepage**, from **Account Services**, under **Maintenance**, click **Nominee Details Update**, or specify the **Nominee Details Update** in the Search icon bar.

STEP RESULT: **Nominee Details Update** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory.

27. Joint Holder Maintenance

This topic describes the systematic instruction to update joint account details. A Customer can be the sole owner of the account he owns or it can be held jointly. Joint accounts are accounts that are shared between two or more individuals. They can be operated either singly or jointly. However, Joint account holders share equal responsibility for charges or any other liability arising from holding such accounts.

1. On the **Homepage**, from **Account Services, Maintenance**, click **Joint Holder Maintenance**, or specify the **Joint Holder Maintenance** in the Search icon bar.

STEP RESULT: **Joint holder Maintenance** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 27.1: Joint Holder Maintenance

2. On **Joint Holder Update Details** screen, specify the fields.
For more information on fields, refer to the field description table.

Table 27.1: Update joint Account Details

Field	Description
Account Number	<p>Enter the Account number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID, Account Number, or Account Name and click on the Fetch button</p> <p>Click the Search icon after providing the Account Number. If the account is already held jointly, 'Account Type', 'Mode of Operation', and 'Joint Holder Details' are defaulted and the record is open for editing. If the account is held Singly, you can update the Joint Holder details for the first time.</p> <p>When users enter the account number, the customer information is displayed.</p>

Field	Description
Account Name	Account Name is displayed based on the account number selected.
Account type	Select the Account Type from the following: <ul style="list-style-type: none"> • Single • Joint
Mode Of Operation	If the account is individually owned, Account Type and Mode of Operation are defaulted to Single. Joint Holder Details multi-grid table does not display any record. If the account is jointly owned, the Account Type has defaulted as Joint. Mode of Operation has defaulted to any one of Jointly, Either Anyone or Survivor, Former or Survivor or Mandate Holder. Joint Holder Details multi-grid table will contain one or more than one record.
Joint Holder Details	The joint Holder Details screen can be used to either input Joint Holder details for the first time or to modify existing details of Joint Holding. The Joint Holder Details will display: <ul style="list-style-type: none"> • Customer Number • Customer Name • Joint holder Type • Start Date • End Date

28. Temporary Overdraft Limit

This topic describes the systematic instructions to maintain Temporary Overdraft Limit. The temporary OD limit is the limit up to which any overdraft is allowed for a specified time over and above the limit provided for an account. This limit is independent of any credit line linked to the account. This facility is mostly opted by the customer for short-term overdrawing.

1. On the **Homepage**, from **Account Services**, under **Limits**, click **Temporary Overdraft Limit**, or specify the **Temporary Overdraft Limit** in the Search icon bar.

STEP RESULT: **Temporary Overdraft Limit** screen is displayed

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 28.1: Temporary Overdraft Limit

2. On **Temporary Overdraft Limit** screen, specify the fields.
For more information on fields, refer to the field description table.

Table 28.1: Temporary Overdraft Limit

Field	Description
Account Number	Enter the Account number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID , Account Number , or Account Name and click on the Fetch button. When users enter the account number, the customer information is displayed.
Temporary Overdraft Start Date	The current Business Date defaults in the Temporary Overdraft Start Date field. This can be changed to any future date. However, it cannot be backdated.

Field	Description
Temporary Overdraft End Date	The date on which the temporary overdraft limit comes to an end. This date cannot be lesser than the Temporary Overdraft Start Date Input to this field is optional. If a date is not specified it means that the temporary overdraft facility is extended to the customer for an indefinite period
Temporary Overdraft Limit	The limit amount can be input in the Temporary Overdraft Limit field. The ISO currency code will be defaulted in this field based on the Account Currency. This field highlights the limit up to which any overdraft is allowed for a specified period over and above the limit set for this account. This limit is independent of any credit line linked to this account. This is mostly used for short-term overdrawing. Any amount greater than equal one can be input. Negative values not allowed
Temporary Overdraft Renewal	Optionally, temporary overdraft renewal details can also be specified. Fields specific to renewal become visible only when the Temporary Overdraft Renewal slider is turned on. When the Temporary Overdraft Renewal slider is turned on, specifying Renewal Unit, Renewal Frequency and Next Renewal Limit becomes mandatory.
Renewal Frequency	Renewal frequency for temporary overdraft is specified in the Renewal Frequency field. The user has the option to specify the renewal frequency in: <ul style="list-style-type: none"> • Days • Months • Years
Next Renewal Limit	Specify the new renewal limit amount in the Next Renewal Limit field. A value greater than or equal to 1 is specified.

29. Account Statement Frequency

This topic describes the systematic instruction about Account Statement Frequency Update. After specifying the account number, system displays existing account statement cycle details, and the user can modify the frequency.

1. On the **Homepage**, from **Account Services**, under **Statement**, click **Account Statement Frequency**, or specify the **Account Statement Frequency** in the Search icon bar.

STEP RESULT: **Account Statement Frequency** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 29.1: Account Statement Frequency

2. On **Account Statement Frequency** screen, specify the fields.
For more information on fields, refer to the field description table.

Account Statement Frequency

Field	Description
Account Number	Enter the account number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID, Account Number, or Account Name and click the Fetch button. When users enter the account number, the customer information is displayed.
Account Name	Account Name is displayed based on the account number selected.
Last Statement Date	The last statement generation date will be displayed.

Field	Description
Frequency	<p>Users can modify the frequency for generating the account statements. To specify the frequency of the statements, click on the adjoining drop-down list. The following list is displayed:</p> <ul style="list-style-type: none"> • Annual • Semiannual • Quarterly • Monthly • Fortnightly • Weekly • Daily <p>For the Annual, Semiannual, Quarterly and Daily cycles, the account statement will be generated on the last day of that cycle.</p> <p>For a weekly and fortnightly statement, the user can specify the day of the week on which account statements must be generated. To specify weekly and fortnightly statements, click on the adjoining drop-down list. The following list of days will be displayed:</p> <ul style="list-style-type: none"> • Sunday • Monday • Tuesday • Wednesday • Thursday • Friday • Saturday <p>For monthly statements the user can specify the dates of the month, between 1 and 31(corresponding to the system date). For example:</p> <ul style="list-style-type: none"> • If the user selected the statement date to 30, then account statements will be generated on the last working day for months with < 30 days. • If the user sets the statement date to 31, then account statements will be generated on the last working day for months with <31 days. • If 30th or 31st is a holiday on the next working day the account statement gets generated.

30. Account Statement Request

This topic describes the systematic instructions about account statement requests. Based on the account holder's request, a detailed or brief account statement can be generated for a given Period.

1. On the **Homepage**, from **Account Services**, under **Statement**, click **Account Statement Request**, or specify the **Account Statement Request** in the Search icon bar.

STEP RESULT: **Account Statement Request** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 30.1: Account Statement Request

The screenshot shows the 'Account Statement Request' web interface. At the top, there are 'Remarks' and 'Documents' buttons. Below is a search bar for 'Account Number *' with a magnifying glass icon. Underneath, there are two main sections: 'Period' with a dropdown menu and 'Date Range *' with a date range selector and calendar icons. To the right, there is a user profile area showing 'No Customer Selected'. At the bottom of the form, there are four buttons: 'Audit', 'Save & Close', 'Submit', and 'Cancel'.

2. On **Account Statement Request** screen, specify the fields.
For more information on fields, refer to the field description table.

Table 30.1: Account Statement Request

Field	Description
Account Number	Enter the account number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. You can search for a specific Account Number by providing Customer ID, Account Number, or Account Name and clicking on the Fetch button. When users enter the account number, the customer information is displayed.
Account Name	Account Name is displayed based on the account number selected.

Field	Description
Period	<p>Users can select the period for account statement generation from the drop-down list. Period drop-down list the below values:</p> <ul style="list-style-type: none"> • Date Range • Current Month • Last 2 Months • Last 3 Months <p>When users select the Date Range in the Period drop-down, the user can define the account statement generation date manually.</p> <p>When users select the Current Month or Last 2 Months or Last 3 Months in the Period drop-down, the Date Range field will be default and the user cannot modify the date.</p> <p>For Example,</p> <ul style="list-style-type: none"> • If the user selected the Period drop-down as Current Month, then the date will be default based on the current date i.e first of every month till the current date. • If the user selected the Period drop-down as Last 2 Months, then the system defaults the account statement generation date as last 2 months from current date and the user cannot modify the date. • If the user selected the Period drop-down as Last 3 Months, then the system defaults the account statement generation date as last 3 months from current date and the user cannot modify the date.
Date Range	<p>Click on the Calender icon, and select the From and To date for account statement generation.</p> <p>NOTE: To Date cannot be less than From Date</p>

Banker Message	Specify the memo instruction message which displays to the bank user.
Start Date	The system defaults the start date as the current branch date, and the user can modify the start date to any future date using the adjoining calendar button. NOTE: The Start Date cannot be backdated.
End Date	Click on the adjoining calendar icon to specify the end date of the memo instruction.
Show to Customer	Users can click on the Show to Customer toggle button to capture memo instruction, which displays to the account holder. NOTE: The Customer Message and Channel fields are available if the user enables the Show to Customer toggle button.
Customer Message	Specify the memo instruction message, which displays to the Account holder.
Channel	Select the channel to display the memo to the account holder from the drop-down list. The drop-down lists the below values: <ul style="list-style-type: none"> • Dashboard • E-Mail • SMS

- On click of **Add Another** button, the **Add Memo** screen refreshes to capture another instruction detail and a new memo tile displays under the Memo Details.
- Click the **Add** button to add new memo details. After the click on **Add** button, the **Add Memo** pop-up window is closed.
- On **Memo Maintenance** screen, under **Memo Details**, click  on the tile to view the memo instruction.
STEP RESULT: **View Memo** pop up screen is displayed.

11. On the **Modify Memo** screen, users can modify the following fields:
 - a. Type
 - b. Banker Message
 - c. Start Date
 - d. End Date
 - e. Show to Customer
 - f. Customer Message
 - g. Channel
12. Click the **Save** button to update the memo details and the updated instruction details displayed in the tile.
13. On **Memo Maintenance** screen, under **Memo Details**, click  icon on the tile to delete the memo instruction.
STEP RESULT: **Delete Memo Instruction** pop up window is displayed.

Figure 34.7: Delete Memo Instruction

14. Click the **Cancel** button to cancel the Delete Memo Instruction operation.
15. Delete the Memo instruction by clicking on the **Confirm** button.

35. Bulletin Board Maintenance

The Bulletin Board Maintenance screen helps you to create, view, modify or delete the bulletin messages.

The bulletin message has two sub-sections:

- [35.1 Create Bulletin](#)
- [35.2 View Bulletin](#)

35.1 Create Bulletin

This topic describes the systematic instructions to Create a Bulletin Message. The created bulletin message is displayed on the Bulletin Board widget.

1. On the **Homepage**, from **Interaction Services**, under **Maintenance**, **Bulletin**, click **Create Bulletin**, or specify the **Create Bulletin** in the Search icon bar.

STEP RESULT: **Create Bulletin** screen is displayed.

NOTE: The fields which are marked in asterisk blue are mandatory fields.

Figure 35.1: Create Bulletin

Figure 35.1 shows the 'Create Bulletin' form. The form includes the following fields and sections:

- Message Type ***: A dropdown menu with 'Select' as the current value.
- Start Date ***: A date input field with a calendar icon.
- Expiry Date**: A date input field with a calendar icon.
- Subject ***: A text input field.
- Message**: A large text area for the bulletin content.
- Attachments**: A dashed box with the text 'Drop files here or click to select' and a trash icon below it.
- User Role Mapping**: A section containing a table with the following structure:

User / Role	ID	Name	Action
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="button" value="🗑️"/>

The form also includes a 'Page 1 of 1 (1 of 1 items)' indicator and 'Save' and 'Cancel' buttons at the bottom right.

2. On the **Create Bulletin** screen, specify the fields.
For more information on fields, refer to the field description table.

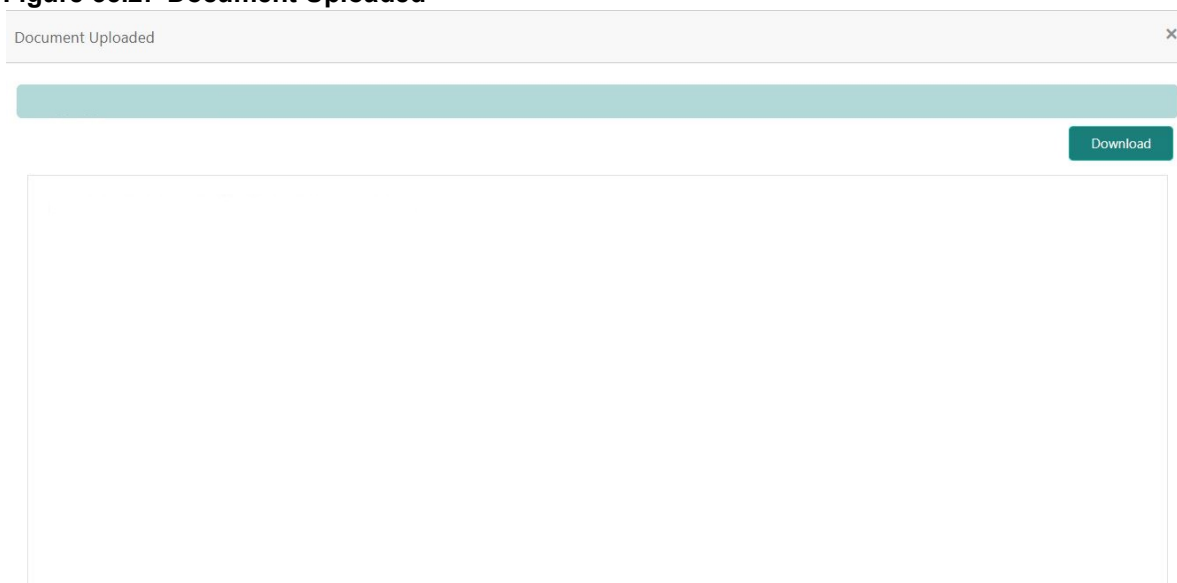

Table 35.1: Create Bulletin - Field Description

Field	Description
Message Type	<p>Select the message type from the drop-down list. The available options are:</p> <ul style="list-style-type: none"> • Alert - Select this option if the message requires immediate attention from the users. When this option is selected, the Bulletin message is represented with  icon on the widget. • Information - Select this option if the bulletin is for information purposes only. When this option is selected, the Bulletin message is represented with  icon on the widget.
Start Date	<p>Select the date from which the bulletin message displays on the widget.</p> <p>NOTE: This date cannot be lesser than the current business date.</p>
End Date	<p>Users can specify the expiry date of the bulletin message. Once the bulletin message reaches the expiry date, the message gets removed from the bulletin board widget.</p>
Subject	<p>Enter a brief description of the bulletin message.</p>
Message	<p>Enter a detailed description of the message.</p>
Attachments	<p>You can attach relevant documents using this option. You can either drag and drop files into the space provided or select documents from your local drive.</p> <p>You can preview or delete an attachment before submitting the transaction for authorization.</p>

- To preview an attached document, click on the document hyperlink.

STEP RESULT: **Document Uploaded** pop up window is displayed.

NOTE: The document preview is available only to those document types that support the preview feature by default. Where the preview feature is not supported, click on **Download** button to download the attached document before viewing.

Figure 35.2: Document Uploaded

4. Click on  to close the **Document Uploaded** pop up window.
5. You can target bulletin messages towards user groups or specific users. Using the **User Role Mapping** table, you can configure User Roles or Users to a particular bulletin.
6. Click  icon to specify User Role or User mapping to the bulletin message.
For more information on fields, refer to the field description table.

Table 35.2: User Role Mapping - Field Description

Field	Description
User/Role	Select User/Role from the drop-down list.
ID	When User is selected, click the search icon to view the User Mapping pop-up window. By default, this window lists all the Users present in the system. You can search for a specific User by providing User, or Username and click Fetch . When Role is selected, click the search icon to view the Role Mapping pop-up window. By default, this window lists all the Roles present in the system. You can search for a specific Role by providing Role, or Role Name and click Fetch .
Name	User or Role name is displayed based on the user id or role id selected.
Actions	Displays the  icon. Click the  icon to remove the respective user or role.

After the message is created, the status of the message is updated as **Active** or **Awaited**.

7. After the message is created, the status of the message is updated as **Active** or **Awaited**.
System updates the status of the Bulletin message as **Active** if the start date is equal to the current business date.

NOTE: If the Start Date is future dated, then the status of Bulletin message is updated as **Awaited** until the date is reached. The system automatically updates the status to **Active** once the start date is reached.

35.2 View Bulletin

This topic describes the systematic instructions to View or Modify the Bulletin Message.

1. On the **Homepage**, from **Interaction Services**, under **Maintenance, Bulletin**, click **View Bulletin**, or specify the **View Bulletin** in the Search icon bar.

STEP RESULT: **View Bulletin** screen is displayed.

Figure 35.3: View Bulletin

2. On the **View Bulletin** screen, the system displays all the bulletin messages with status:
 - a. Awaited
 - b. Active
 - c. Paused
 - d. Expired
3. On the **View Bulletin** screen, you can search for specific bulletin using the  icon. You can use any of the following options to search.
 - a. Message Type
 - b. Message Status
 - c. Message Reference Number
 - d. Subject
 - e. Start Date
 - f. Expiry Date
 - g. Authorization Status
 - h. Record Status
4. After the input of any options mentioned above, click the **Search** button.

5. Click  icon to display the following options:
 - a. Unlock
 - b. Authorize
 - c. Delete
 - d. Close
 - e. Copy
 - f. View

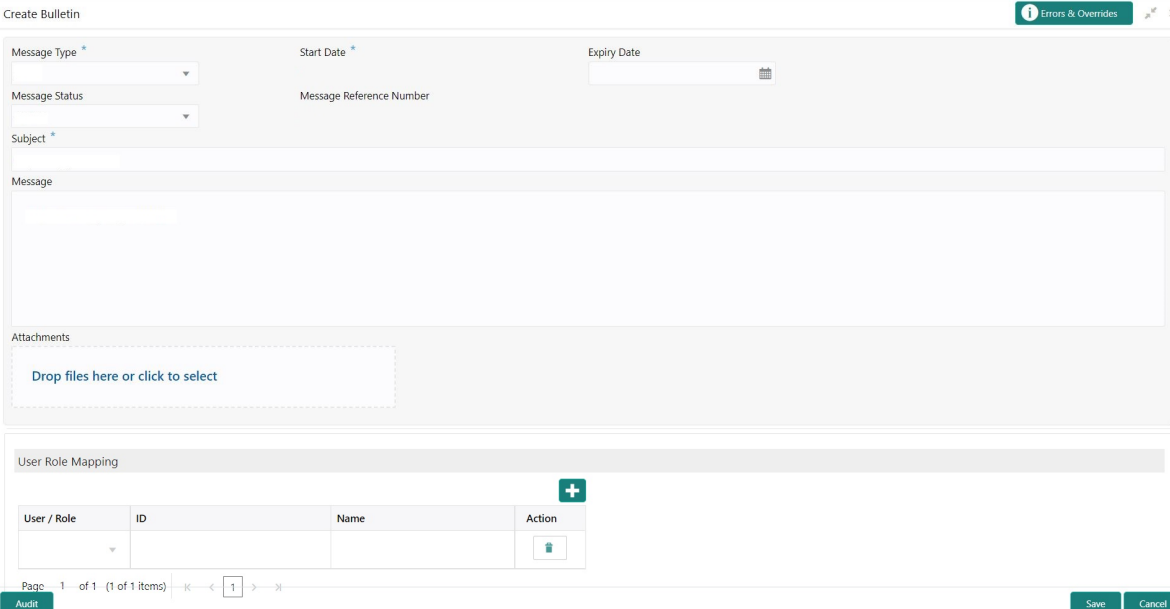

6. To modify an existing bulletin message, click the **Unlock** option from  icon.
STEP RESULT: **Create Bulletin** screen is displayed.
