Customer Standard Instructions

Customer needs to provide instructions in advance to the bank, which should be maintained as Standard Instructions in the system and should be referred at the time of transactions.

At the time of initiating the transactions to the bank instructions can also be provided and the system should have place holders for these instructions.

This section contains the following topics:

Creating Customer Standard Instructions	Viewing Customer Standard Instruction
Search Customer Standard Instruction	Authorization

Creating Customer Standard Instructions

OBTFPM user should be able to maintain the Standard Instructions received from the customer. This process allows the user to create Customer Standard Instructions, let's look at the steps of creating the standard instructions process:

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.
