Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Drawing Under Transfer LC

Transfer LC is used when the beneficiary under LC transfers part or full value under the LC to one or multiple second beneficiaries.

The Life Cycle of Transfer LC:

1. Advise Export LC to the First Beneficiary
2. First Beneficiary requests for Transfer of LC
3. Issue Transfer LC
4. Advise Transfer LC
5. Second Beneficiary submits the document under Transfer LC
6. Transferee Bank submits the documents to transfer or bank.
7. Create drawing under Transfer LC and notify First Beneficiary
8. Receive Export Document from First Beneficiary (including substituted document if any)
9. Forward Export Document to Issuing Bank
10. Receive Settlement under Export LC
11. Liquidate Drawing under Transfer LC
12. Credit balance amount to First Beneficiary

This section contains the following topics:

| | |
|---|--------------------------------------|
| Common Initiation Stage | Registration |
| Scrutiny | Data Enrichment |
| Multi Level Approval | Multi Level Approval |

Common Initiation Stage

The user can initiate the new Drawing under transfer LC request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

| Field | Description |
|---------------------|---|
| Process Name | Select the process name to initiate the task. |
| LC Reference Number | Select the LC Reference Number. |
| Branch | Select the branch. |

Action Buttons

Use action buttons based on the description in the following table:

| Field | Description |
|---------|--|
| Proceed | Task will get initiated to next logical stage. |
| Clear | The user can clear the contents update and can input values again. |

Registration

The process starts from Registration stage, the user can register a request for Drawings under Transferred LC.

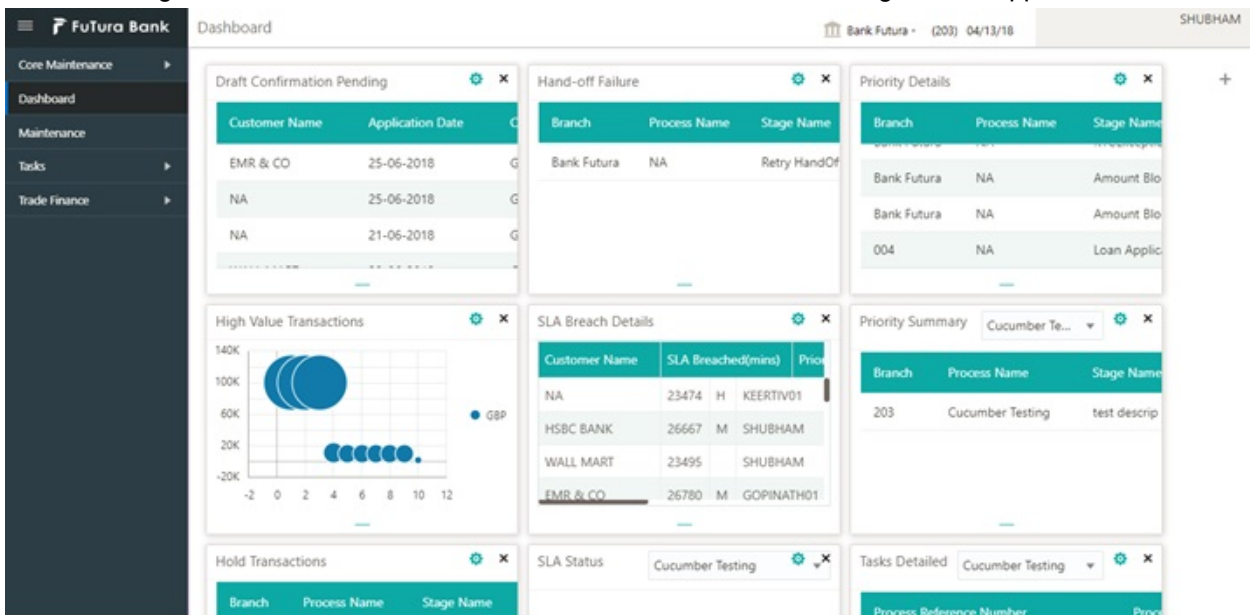

During Registration stage, user can capture the basic details and upload the documents received from presenting bank. It also enables the user to capture some additional product related details as an option. On submit of the request the request will be available for an LC expert to handle the request in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

The image shows the login interface for FuTura Bank. It features the bank's logo and name at the top. Below that, the text "Sign In" is displayed. There are two input fields: "User Name *" with the text "SRIDHAR" and "Password *" with masked characters. At the bottom, there are two buttons: a green "Sign In" button and a "Cancel" button.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The image displays the FuTura Bank dashboard. On the left is a navigation menu with options like Core Maintenance, Dashboard, Maintenance, Tasks, and Trade Finance. The main area contains several widgets:

- Draft Confirmation Pending:** A table with columns Customer Name, Application Date, and a status indicator. Data includes EMR & CO (25-06-2018), NA (25-06-2018), and NA (21-06-2018).
- Hand-off Failure:** A table with columns Branch, Process Name, and Stage Name. Data includes Bank Futura, NA, and Retry HandOf.
- Priority Details:** A table with columns Branch, Process Name, and Stage Name. Data includes Bank Futura, NA, Amount Blo, and 004, NA, Loan Applic.
- High Value Transactions:** A bubble chart showing transaction values for different customers. The y-axis ranges from -20K to 140K. Data points are shown for EMR & CO, NA, HSBC BANK, WALL MART, and FMR & CO.
- SLA Breach Details:** A table with columns Customer Name, SLA Breached(mins), and Priority. Data includes NA (23474, H, KEERTIV01), HSBC BANK (26667, M, SHUBHAM), WALL MART (23495, SHUBHAM), and FMR & CO (26780, M, GOPINATH01).
- Priority Summary:** A table with columns Branch, Process Name, and Stage Name. Data includes 203, Cucumber Testing, and test descrip.
- Hold Transactions:** A table with columns Branch, Process Name, and Stage Name.
- SLA Status:** A widget showing Cucumber Testing.
- Tasks Detailed:** A widget showing Cucumber Testing.

3. Click **Trade Finance> Import - Documentary Credit> Drawings Under Transferred LC.**

The Registration stage has two sections Application Details and LC Drawing Details. Let's look at the details of Registration screens below:

Scrutiny

On successful completion of Registration of an Drawings under Transferred LC request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized.

As part of scrutiny, the user can enter/update basic details of the drawings and verify the documents received under the LC for discrepancies.

Import LC Drawings created from Incoming MT 750 message will have details available in the message auto populated in the screens. In case of drawings on account of MT 750, user will not be able to enter any information all fields will be auto populated by the system.

Documents that are received for Drawings under Transferred LC at the desk will move to scrutiny stage post successful registration. The transaction will have the details entered during the registration stage.

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Tasks> Free Tasks.

Following fields can be amended based on the description in the following table:

| Field | Description | Sample Values |
|--------------------------|--|---------------|
| Tenor Type | Select the Tenor Type from the drop down: <ul style="list-style-type: none"> Sight Usance Mixed | |
| Documents Received | Set the document received status as 'Yes' or 'No' from the drop down. | |
| Document Set | Enables to user to select the number of sets of documents received from the LOV: <ul style="list-style-type: none"> First Second Both | |
| Duplicate | If documents received are duplicate and if the drawing is already completed, user can mark this as duplicate and submit. | |
| Outstanding LC Value | Read only field. This field displays the value as per the LC. | |
| Product Code | Select the product code for the drawing. Only the products that are allowed for Bills under Transfer LC should be displayed. | |
| Product Description | Read only field. This field displays the description of the product as per the product code selected. | |
| Operation Type | Read only field. Operation Type will be auto-populated based on the selected LC. | |
| Drawing Reference Number | This is auto generated by the back end system. | |
| Drawing Amount | Outstanding LC Amount as per the latest LC details is displayed. User can Change the value. | |

| Field | Description | Sample Values |
|-----------------------------|---|---------------|
| Amount In Local Currency | After the tab out of 'Currency Code, Amount' field, system populates the Local currency and amount value in this field. System fetches the local currency equivalent value for the LC amount from back office (with decimal places). | |
| Additional Amount | Read only field. This field can have value only if an MT 750 has been processed for this drawing earlier | |
| Limits/ Collateral Required | Toggle On: Set the toggle 'On' to enable limit check. Toggle Off: Set the toggle 'Off' to disable limit check. | |

Action Buttons

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|-----------------------|--|---------------|
| Documents | User can see the documents uploaded. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application. | |
| Remarks | User can capture remarks as well as see remarks made in the earlier screens/stages. | |
| Overrides | Click to view the overrides accepted by the user. | |
| Customer Instructions | Click to view/ input the following <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. | |
| Common Group Message | Click Common Group Message button, to send MT799 and MT999 messages from within the task. | |

| Field | Description | Sample Values |
|--------------|---|---------------|
| Refer | <p>On click of Refer, user must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. | |
| Save & Close | <p>Save the information provided and holds the task for working later.</p> <p>This option will not submit the request.</p> | |
| Cancel | Cancel the Scrutiny stage inputs. | |
| Hold | <p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p> | |
| Reject | <p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p> | |
| Next | <p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p> | |

Document Details

User can verify the documents received and identify discrepancies, if any.

| Next | On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment. | |

Shipment Details

User must check whether the received documents of goods and shipment matches the requirement in LC.

Goods Details

Provide the Goods Details based on the description in the following table:

| Field | Description | Sample Values |
|------------------|--|---------------|
| Goods Code | This field displays goods code as per latest LC. | |
| As per LC | This field displays description of the goods as per the latest LC. | |
| As per Documents | Provide the description of the goods as per the documents received from presenting bank. | |
| Discrepant | User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received with respect to goods description. | |

| Field | Description | Sample Values |
|---------------------------|---|---------------|
| Discrepancy Code | Select the discrepancy code based on the discrepancy identified. System will not over write the discrepancy description. User can change the code. Dummy code can also be used. | |
| Discrepancy Description | Description will be displayed based on the discrepancy code. User can modify the description. | |
| Country of Origin | Update the country of origin as per the documents received. | |
| Insurance Company | Update the details of insurance company as per the document received. | |
| Insurance Company Address | Update the insurance company address as per the document received. | |

Shipment Details

Provide the Shipment Details based on the description in the following table:

| Field | Description | Sample Values |
|----------------------|---|---------------|
| Date of Shipment | Update the date of shipment as per the documents received. If user does not provide details, system should display an error message 'Please provide Date of shipment ' | |
| Shipping Agent | Update the shipping agent details based on the documents received. | |
| Date of Presentation | Read only field. Documents received date is auto-populated based on the system date. | |
| Details | Details represent the fields in latest LC. | |
| Partial Shipments | System displays the Partial Shipment terms from LC. User to capture if the shipment was partial. If the terms in LC is different from what is captured from document, system will mark discrepancy with discrepancy description as 'Discrepancy in Partial Shipment terms' User can modify the description. | |
| Transshipment | System displays the Transshipment terms from LC. User to capture if the shipment was Trans-shipped. If the terms in LC is different from what is captured from document, system will mark discrepancy with discrepancy description as 'Discrepancy in Trans-Shipment terms' User can modify the description | |

| Field | Description | Sample Values |
|----------------------------|--|---------------|
| Place Of Taking In Charge | System displays the Place of Taking charge if any from LC. User to capture Place of Taking charge if any from documents received. If the terms in LC is different from what is captured from document, system will mark discrepancy with discrepancy description as 'Discrepancy in Place of Taking Charge' User can modify the description. | |
| Port Of Loading | System displays the Port of Loading if any from LC. User to capture Port of Loading if any from documents received. If the terms in LC is different from what is captured from document, system will mark discrepancy with discrepancy description as 'Discrepancy in Port of Loading'. User can modify the description. | |
| Port Of Discharge | System displays the Port of Discharge if any from LC. User to capture Port of Discharge if any from documents received. If the terms in LC is different from what is captured from document, system will mark discrepancy with discrepancy description as 'Discrepancy in Port of Discharge' User can modify the description | |
| Place Of Final Destination | System displays the Place of Final Destination if any from LC. User to capture Place of Final Destination if any from documents received. If the terms in LC is different from what is captured from document, system will mark discrepancy with discrepancy description as 'Discrepancy in Place of Taking Charge' User can modify the description. | |
| Latest Date Of Shipment | System displays the Latest Date of Shipment if any from LC. System will also display the Shipment Date already captured as per documents. If the shipment date is later than the latest date of shipment, system will mark discrepancy as 'Late Shipment'. User can modify the description. | |
| Shipment Period | System displays the Shipment Period if any from LC. System will also display the Shipment Date already captured as per documents. If the shipment date is later than Shipment Period + Date of Expiry, system will mark discrepancy as 'Late Shipment'. User can modify the description. | |
| Period of Presentation | System displays the Period of Presentation if any from LC. System will also display the Presentation Date already captured as per documents. If the presentation date is later than the latest date of shipment+ Presentation Period, system will mark discrepancy as 'Late Presentation'. User can modify the description. | |

| Field | Description | Sample Values |
|-------------------------|--|---------------|
| As per LC | This field displays description of the fields as per the latest LC. | |
| As Per Document | Provide the description of the field as per document. | |
| Discrepant | User shall mark the discrepant toggle as 'Yes' if there is difference between LC terms and documents received. | |
| Discrepancy Code | Select the discrepancy code based on the discrepancy identified. | |
| Discrepancy Description | Description will be displayed based on the discrepancy code. | |

Carrier Details

If the shipment involves multiple carrier and or shipment passes through multiple ports, the details will be captured under this segment.

| Field | Description | Sample Values |
|--------------|---|---------------|
| Carrier Name | Provide the details of the carrier as per the documents received, if the goods got shipped via multiple carriers. | |
| Port | Provide the port details as per the document received, if the ship has transit on its way to the destination. | |

Action Buttons

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|-----------|--|---------------|
| Documents | User can see the documents uploaded. | |
| Remarks | User can capture remarks as well as see remarks made in the earlier screens/stages. | |
| Overrides | Click to view the overrides accepted by the user. | |
| Refer | On click of Refer, user must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. | |

| Field | Description | Sample Values |
|--------------|---|---------------|
| Save & Close | Save the information provided and holds the task in you queue for working later. This option will not submit the request. | |
| Cancel | Cancel the Drawing Under Transferred LC Scrutiny stage inputs. | |
| Hold | The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided. | |
| Reject | On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process. | |
| Back | Click Back to move the task to the previous segment | |
| Next | On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment. | |

Additional Conditions

Enables the user to check the whether the documents received comply with the additional conditions mentioned in LC.

The screenshot displays the 'Additional Conditions' section of the Oracle application. The table below represents the data shown in the interface:

| FFT Code | FFT Description | Discrepant | Discrepant Code | Discrepant Description | Action |
|-------------|-----------------|--------------------------|-----------------|--|---|
| 77UGUATERMS | 77uguatерms | <input type="checkbox"/> | AMNT | Drawing Amount more than Outstanding LC Amount | <input type="button" value="Edit"/> <input type="button" value="Delete"/> |

This section displays the list of additional conditions as per LC. Provide the Additional Conditions details as per the description in the following table:

| Field | Description | Sample Values |
|-------------------------|--|---------------|
| FFT Code | This field displays the FFT code as per the latest LC. | |
| FFT Description | This field displays the description of the FFT code as per the latest LC. | |
| Discrepant | User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received. | |
| Discrepancy Code | Select the discrepancy code based on the discrepancy identified. System will not overwrite the discrepancy description. User can change the code. Dummy code can also be used. | |
| Discrepancy Description | User to input the discrepancy description if any. This field will be enabled only if the user has selected the discrepancy check box. If discrepancy check box is ticked, and if there is no discrepancy description, system will give an error message 'Please provide discrepancy description' | |
| Action | Edit: Click edit to edit the FFT code Delete: Click Delete to delete the FFT code. | |

Action Buttons

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|--------------|---|---------------|
| Documents | User can see the documents uploaded. | |
| Remarks | User can capture remarks as well as see remarks made in the earlier screens/stages. | |
| Overrides | Click to view the overrides accepted by the user. | |
| Refer | <p>On click of Refer, user must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. | |
| Save & Close | <p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p> | |
| Cancel | Cancel the Import LC Drawing Scrutiny stage inputs. | |
| Hold | <p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p> | |
| Reject | <p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p> | |
| Back | Click Back to move the task to the previous segment | |

| Field | Description | Sample Values |
|-------|---|---------------|
| Next | On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment. | |

Discrepancy Details

This section displays the list of discrepancies captured.

System will generate a discrepancy summary from the discrepancies captured so far. System will also include discrepancies listed from MT 750 received from the Presenting bank. If the MT 750 discrepancies have been advised to the applicant and if they are resolved, the resolution status and the resolved date will be displayed by the system.

User can add/update/review the discrepancies identified in the section.

| Field | Description | Sample Values |
|-------------------------|--|---------------|
| Discrepancy Code | Select the discrepancy code based on the discrepancy identified. | |
| Discrepancy Description | Description will be displayed based on the discrepancy code. | |
| Discrepancy Resolved | Set the toggle to 'Yes', if discrepancy is resolved. | |
| Resolved Date | Set the date when discrepancy is resolved. | |
| Resolved Remarks | Provide remarks for discrepancy resolution. | |
| Action | Click Edit icon to edit the discrepancy details. Click Delete icon to delete the discrepancy details. | |

Action Buttons

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|--------------|---|---------------|
| Documents | User can see the documents uploaded. | |
| Remarks | User can capture remarks as well as see remarks made in the earlier screens/stages. | |
| Overrides | Click to view the overrides accepted by the user. | |
| Refer | <p>On click of Refer, user must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. | |
| Save & Close | <p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p> | |
| Cancel | Cancel the Drawing Under Transferred LC Scrutiny stage inputs. | |
| Hold | <p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p> | |
| Reject | <p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p> | |
| Back | Click Back to move the task to the previous segment | |

| Field | Description | Sample Values |
|-------|---|---------------|
| Next | On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment. | |

Maturity Details

This field displays the maturity details and for 'Sight' bills, maturity details are not required. User should be able to input the maturity details.

This tile will be disabled if the tenor for the drawing is 'sight'. As part of creation of drawing, applicable Tenor details are also captured.

The screenshot shows the Oracle Maturity Details form. The left sidebar contains navigation options: Main Details, Document Details, Shipment Details, Additional Conditions, Discrepancy Details, Maturity Details (selected), Additional Details, and Summary. The main form area is titled 'Maturity Details' and contains several sections:

- Maturity Details:** Includes fields for Tenor Type (dropdown), Tenor Basis (text with search icon), Start Date (calendar icon, value: May 6, 2019), Tenor Days (text), Transit Days (text), Maturity Date (calendar icon, value: May 6, 2019), Usance Interest Rate (text), Interest Amount (dropdown), Interest From Date (calendar icon), Interest To Date (calendar icon), Acceptance Commission From Date (calendar icon), and Acceptance Commission To Date (calendar icon).
- Other Bank Charges:** Includes three dropdown fields: Other Bank Charges-1, Other Bank Charges-2, and Other Bank Charges-3.
- Other Details:** Includes Debit Value Date (calendar icon, value: May 6, 2019), Credit Value Date (calendar icon, value: May 6, 2019), Value Date (calendar icon, value: May 6, 2019), Allow Pre-Payment (radio button), Refund Interest (radio button), and Transfer Collateral from LC (radio button).

At the bottom of the form, there are buttons for 'Audit', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

Provide the maturity details based on the description in the following table:

| Field | Description | Sample Values |
|--------------|---|---------------|
| Tenor Type | Read only field. This field displays the tenor type as per LC. | |
| Tenor Basis | This field should be enabled if Tenor is not sight. User can capture the tenor basis. | |
| Start Date | Provide the tenor start date. | |
| Tenor Days | Provide the number of tenor days | |
| Transit Days | Provide the transit days, if the tenor is sight. | |

| Field | Description | Sample Values |
|-----------------------------|---|---------------|
| Maturity Date | <p>System displays the due date for the drawing based on tenor and tenor basis.</p> <p>If tenor is sight, system will calculate the maturity date as 5 working days from document Received date. User can change this value to any date earlier than the maturity date up to system date. User cannot change the value to later than maturity date.</p> <p>If tenor is Usance, system will calculate the maturity date based on the tenor basis and populate the maturity date.</p> | |
| Usance Interest Rate | Provide the usance interest rate (if any). | |
| Interest Amount | <p>User can capture the currency and amount of interest if any.</p> <p>If Tenor is multi tenor, then the user will enter the details of multi- tenor in the multi tenor grid.</p> <p>Multi Tenor grid should be enabled only when Tenor field has Multi tenor as value.</p> <p>If Tenor field has multi tenor as value, then multi tenor grid will only be enabled and the tenor details (tenor basis, maturity date without multi tenor will not be enabled.</p> <p>In the multi tenor grid, system will validate that each row in the grid has values in all fields except interest. Interest field may or may not have values.</p> | |
| Interest from Date | Select the interest from date. The interest from date cannot be earlier than branch date and later than maturity date. | |
| Interest To Date | Select the interest to date. The interest to date cannot be earlier than branch date and later than maturity date. | |
| Tenor Basis | Provide the tenor basis, if the tenor is not sight. | |
| Accept Commission From Date | Provide the accept commission from date. | |
| Accept Commission To Date | Provide the accept commission to date. | |

Other Bank Charges

Provide the other bank charges based on the description in the following table:

| Field | Description | Sample Values |
|------------------------|---|---------------|
| Other Bank Charges - 1 | Charges to be collected for the other bank as part of the drawings transaction. | |

| Field | Description | Sample Values |
|------------------------|---|---------------|
| Other Bank Charges - 2 | Charges to be collected for the other bank as part of the drawings transaction. | |
| Other Bank Charges - 3 | Charges to be collected for the other bank as part of the drawings transaction. | |

Other Bank Charges

Provide the other bank charges based on the description in the following table:

| Field | Description | Sample Values |
|-----------------------------|--|---------------|
| Debit Value Date | Provide the debit value date. | |
| Credit Value Date | Provide the credit value date. | |
| Value Date | Provide the value date. | |
| Allow Pre-Payment | <p>Toggle On: Set the toggle 'On' to enable pre-payment.</p> <p>Toggle Off: Set the toggle 'Off' to disable pre-payment.</p> | |
| Refund Interest | <p>Toggle On: Set the toggle 'On' to refund the interest.</p> <p>Toggle Off: Set the toggle 'Off' to deny the interest refund.</p> | |
| Transfer Collateral from LC | <p>Toggle On: Set the toggle 'On' to enable the transfer collateral from LC.</p> <p>Toggle Off: Set the toggle 'Off' to disable the transfer collateral from LC.</p> | |

Action Buttons

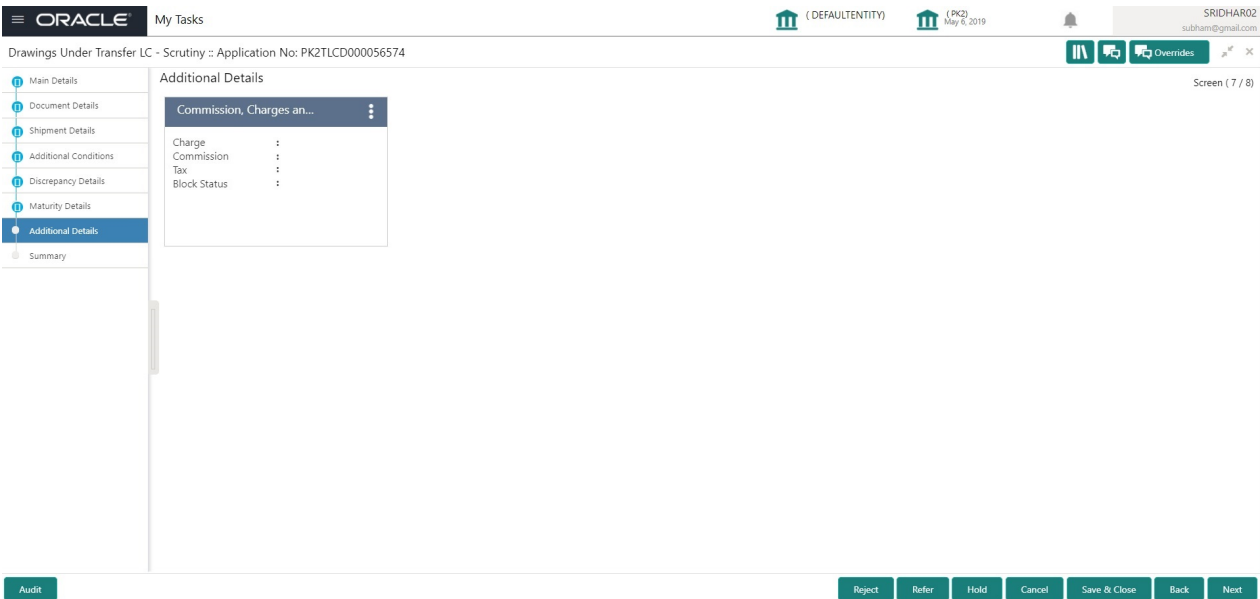

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|-----------|---|---------------|
| Documents | User can see the documents uploaded. | |
| Remarks | User can capture remarks as well as see remarks made in the earlier screens/stages. | |
| Overrides | Click to view the overrides accepted by the user. | |

| Field | Description | Sample Values |
|--------------|---|---------------|
| Refer | <p>On click of Refer, user must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. | |
| Save & Close | <p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p> | |
| Cancel | <p>Cancel the Drawing Under Transferred LC Scrutiny stage inputs.</p> | |
| Hold | <p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p> | |
| Reject | <p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p> | |
| Back | <p>Click Back to move the task to the previous segment</p> | |
| Next | <p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p> | |

Additional Details

Scrutiny User can view and update the Additional Details during Drawings under Transferred LC request.

Charge Details

Landing on the additional tab, the default commission, charges and tax if any will get populated.

If default charges are available under the product, they should be defaulted here with values. If customer or customer group specific charges are maintained, then the same will be defaulted from back end system.

Charge Details are auto-populated from the back-end system.

| Field | Description | Sample Values |
|-----------------|---|---------------|
| Component | Charge Component type. | |
| Currency | Defaults the currency in which the charges have to be collected. | |
| Amount | An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required. | |
| Modified Amount | From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field. | |

| Field | Description | Sample Values |
|--------------------|---|---------------|
| Billing | <p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p> | |
| Defer | <p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p> | |
| Waive | <p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p> | |
| Charge Party | Charge party will be applicant by default. You can change the value to beneficiary | |
| Settlement Account | Details of the settlement account. | |

Commission Details

If default commission is available under the product, it should be defaulted here with values.

Commission Details

| Component | Rate | Modified | Currency | Amount | Modified | Defer | Waive | Charge Party | Settlement Account |
|-----------------------------|------|----------|----------|--------|----------|-------|-------|--------------|--------------------|
| No data to display. | | | | | | | | | |
| Page 1 (0 of 0 items) < 1 > | | | | | | | | | |

| Field | Description | Sample Values |
|-----------|---------------------------------|---------------|
| Component | Select the commission component | |

| Field | Description | Sample Values |
|--------------------|--|---------------|
| Rate | <p>Defaults from product.</p> <p>The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate.</p> <p>If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.</p> | |
| Currency | Defaults the currency in which the commission needs to be collected | |
| Amount | <p>An amount that is maintained under the product code defaults in this field.</p> <p>The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPM.</p> <p>If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.</p> | |
| Modified Amount | From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field. | |
| Billing | If charges/commission is handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing. | |
| Defer | Select the check box, if charges/commissions has to be deferred and collected at any future step. | |
| Waive | <p>Select the check box to waive charges/ commission.</p> <p>Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.</p> <p>If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p> | |
| Charge Party | Charge party will be 'Applicant' by Default. You can change the value to Beneficiary | |
| Settlement Account | Details of the Settlement Account. | |

Tax Details

The tax component is calculated based on the commission. The tax component defaults if maintained in the product level. The defaulted value can be edited by the user.

Tax Details

| Component | Currency | Amount | Billing | Defer | Settlement Account |
|---------------------|----------|--------|---------|-------|--------------------|
| No data to display. | | | | | |

| Field | Description | Sample Values |
|--------------------------|---|---------------|
| Component | Tax Component type | |
| Currency | The tax currency is the same as the commission. | |
| Amount | The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required. | |
| Settlement Account | Details of the settlement account. | |
| Charges From Beneficiary | User will input the amount to be collected from beneficiary on account of this transaction. This will also include charges mentioned in MT 750 if any. | |
| Presenting bank charges | If presenting bank charges are to be recovered from applicant, the details are captured here. This will also include charges mentioned in MT 750 if any | |
| Revolving Details | System will display the revolving details from the LC. User will not be able to modify the details displayed | |

Action Buttons

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|-----------|---|---------------|
| Documents | User can see the documents uploaded. | |
| Remarks | User can capture remarks as well as see remarks made in the earlier screens/stages. | |
| Overrides | Click to view the overrides accepted by the user. | |

| Field | Description | Sample Values |
|--------------|---|---------------|
| Refer | <p>On click of Refer, user must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. | |
| Save & Close | <p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p> | |
| Cancel | <p>Cancel the Drawing Under Transferred LC Scrutiny stage inputs.</p> | |
| Hold | <p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p> | |
| Reject | <p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p> | |
| Back | <p>Click Back to move the task to the previous segment</p> | |
| Next | <p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p> | |

Summary

User can review the summary of details captured in Drawings under Transferred LC.

The summary for Drawings under Transferred LC Scrutiny Stage is displayed as tiles. The tiles must display a list of important fields with values. User can drill down the tile and view the details provided in the various data segments.

Data Enrichment

DE stage for update of drawings under Transferred LC will be applicable only for non-discrepant drawings or where discrepancies have already been waived. This stage is not applicable for drawings where documents are received with discrepancies.

The user can enrich details of update drawings under Transferred LC.

Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Tasks> Free Tasks.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

The Data Enrichment stage has five sections as follows:

- Main Details
- Document Details
- Shipment Details
- Additional Conditions
- Discrepancy Details
- Maturity Details
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

Main Details

Refer to [Main Details](#).

Document Details

Refer to [Document Details](#).

Shipment Details

Refer to [Shipment Details](#).

Additional Conditions

Refer to [Additional Conditions](#).

Discrepancy Details

Refer to [Discrepancy Details](#).

Maturity Details

Refer to [Maturity Details](#).

Advices

Advices menu displays the advices from the back office as tiles. User can edit the fields in the tile, if required.

DE User can view the Advices generated for Drawings under Transferred LC process. Some of the possible advices could be Payment Message, Non Payment/Non Acceptance Advise, and Document Arrival Notice.

The screenshot displays the Oracle Advices interface. The top navigation bar includes the Oracle logo, 'My Tasks', and user information for SRIDHAR02. The main content area shows a list of advices, with one tile selected: 'Advice : PAYMENT_MESS...'. The details for this advice are: Advice Name: PAYMENT_MESSAGE, Advice Party: Party Name, Suppress: NO, and Advice. The interface also features a sidebar with navigation options like Main Details, Document Details, Shipment Details, Additional Conditions, Discrepancy Details, Maturity Details, Advices, Additional Details, Settlement Details, and Summary. At the bottom, there are buttons for Audit, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

The user can also suppress the Advice, if required.

FX Linkage

This section enables the user to link the existing FX contract(s) to the LC transactions. User can link multiple forward.

FX contract linkage with the Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the Bill.

FX Linkage

| FX Reference Number | Bought Currency | SOLD Currency | Available Contract Amount | Rate | Linked Amount | Current Utilized Amount | Total Utilized Amount | FX Expiry Date | Action |

Provide the FX linkage detail based on the description in the following table:

| Field | Description | Sample Values |
|---------------------|--|---------------|
| FX Reference Number | <p>Select the FX contract reference number from the LOV.</p> <p>On select and save and close, system defaults the available amount, bot currency, sold currency and rate.</p> <p>Forward FX Linkage available for selection at bill would be as follows,</p> <ul style="list-style-type: none"> Counterparty of the FX contract should be the counterparty of the Bill contract. Active Forward FX transactions authorized not marked for auto liquidation. <p>Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill.</p> | |

| Field | Description | Sample Values |
|-----------------------------|--|---------------|
| Bought Currency | This field displays the currency from the linked FX contract. | |
| Sold Currency | This field displays the currency from the linked FX contract. | |
| Available ContractAmount | Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero. | |
| Rate | This field displays the rate at which the contract is booked. | |
| Linked Amount | Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage. | |
| Current Utilized amount | This field displays the liquidated /purchased / discounted /negotiated amount of BC contract. It cannot go beyond the linked FX amount. | |
| Total Utilized amount | This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version. | |
| Amount in Contract Currency | This field displays the amount in contract currency converted from FX currency. | |
| FX Expiry Date | This field displays the expiry date from the linked FX contract. | |
| FX Delivery Period - From | This field displays the date from which the contract is valid for utilization. | |
| FX Delivery Period - To | This field displays the date to which the contract is valid for utilization. | |
| Action | Click the Edit icon to modify the FX details. Click the Delete icon to delete the FX details. | |
| Average FX Rate | Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate. | |

Action Buttons

Tiles Displayed in Summary

- Main Details - User can view details about application details and LC details.
- Party Details - User can view party details like Presenting bank, applicant, advising bank etc.
- Beneficiary Confirmation Details - User can view the beneficiary confirmation details.
- Document Details - User can view the document details.
- Shipment Details - User can view the availability and shipment details.
- Additional Conditions - User can view the details of additional conditions.
- Discrepancy Details - System displays if Discrepancies exist or not and the number of discrepancies on the face of the tile. On drill down, user can see all the discrepancies listed under the LC drawing.
- Maturity Details - User can view the maturity details in case of Usance and Multi tenor drawings.
- Advices - User can view the details of the advices.
- Payment Details - User can view the payment details.
- Preview Message - User can view the preview of draft message.
- Settlement Details - User can view the settlement details.
- Preferences - User can view set loan preferences.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Accounting Details - User can view the accounting entries generated in back office.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message "Value Date is different from Transaction Date for one or more Accounting entries.

Action Buttons

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|--------------|---|---------------|
| Submit | Task will get moved to next logical stage of Import LC Drawing. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided. | |
| Refer | On click of Refer, user must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none">• R1- Documents missing• R2- Signature Missing• R3- Input Error• R4- Insufficient Balance/Limits• R5 - Others. | |
| Save & Close | Save the information provided and holds the task in you queue for working later. This option will not submit the request | |
| Cancel | Cancel the Data Enrichment stage inputs. | |
| Hold | The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided. | |
| Reject | On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none">• R1- Documents missing• R2- Signature Missing• R3- Input Error• R4- Insufficient Balance/Limits• R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process. | |

| Field | Description | Sample Values |
|-------|---|---------------|
| Back | Click Back to move the task to the previous segment | |

Multi Level Approval

Approver user can approve the Drawings under Transferred LC transaction under the LC.

In case of Incoming SWIFT MT 750 processing and in case of discrepant documents received under LC, the drawings task will directly land in approval queue once submitted from scrutiny stage.

In case of documents received without discrepancies and without MT 750, the task will move from DE stage to approval.

The Summary tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Authorization Re-Key (Non-Online Channel)

Rekey is not applicable in case of processing Drawing of Incoming SWIFT MT 750. System will display the approval screens directly as the details have been auto populated from incoming SWIFT message.

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- First Beneficiary
- Second Beneficiary
- Drawing Currency, Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

| Cancel | Cancel the approval. | |

| Field | Description | Sample Values |
|---------|--|---------------|
| Approve | On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting. | |

Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Import LC Drawing in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

Application Details

The application details data segment have values for requests received from both non-online and online channels.

Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view details about application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
