Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Export Documentary Collection Booking

Export Documentary Collection Booking process enables the Drawee (exporter) to collect payment for document under collection from the Drawer (Importer) through intermediate banks (Remitting/Collecting Bank).

This section contains the following topics:

Common Initiation Stage	Data Enrichment
Exceptions	Multi Level Approval
Reject Approval	

Common Initiation Stage

The user can initiate the new shipping guarantee request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Customer ID	Select the customer id of the applicant or applicant's bank.
Branch	Select the branch.

Action Buttons

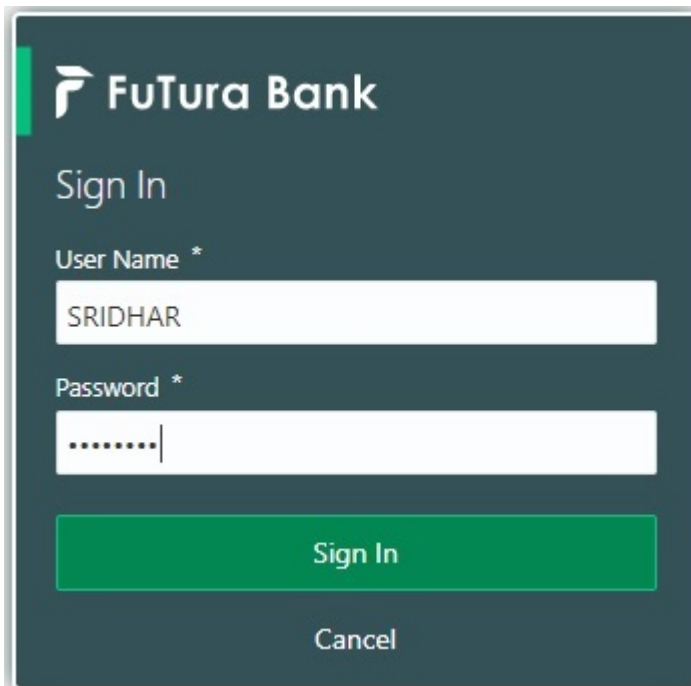

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

The process starts from Registration stage, during Registration stage, user can capture the basic details of the transaction and upload related documents. On submit, the request will be available for an collection expert to handle the request in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

The screenshot shows a dark-themed login interface for FuTura Bank. At the top left is the FuTura Bank logo. Below it, the text 'Sign In' is displayed. There are two input fields: 'User Name *' containing the text 'SRIDHAR' and 'Password *' containing masked characters. Below the input fields are two buttons: a green 'Sign In' button and a white 'Cancel' button.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user profile.

3. Click Trade Finance> Export - Documentary Collection> Export Documentary Collection Booking.

The registration stage has two sections Application Details and Collection Details. Let's look at the details of registration screens below:

Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
Transshipment	Provide the transshipment details of goods (if any) from the document received. The values are: <ul style="list-style-type: none"> Allowed Not Allowed 	
Partial Shipments	Provide the partial shipment details of goods (if any) from the document received. The values are: <ul style="list-style-type: none"> Allowed Not Allowed 	
Date Of Shipment	Provide the date of shipment from the document received. Shipment date can be back dated but not future dated. This is a mandatory field, an error message will be displayed if not provided.	

Field	Description	Sample Values
Place Of Taking In Charge	<p>This field specifies the place of taking in charge (in case of a multi-modal transport document), the place of receipt (in case of a road, rail or inland waterway transport document or a courier or expedited delivery service document), the place of dispatch or the place of shipment to be indicated on the transport document.</p> <p>Provide the details of place of taking in charge from the document received.</p> <p> Note This field is alternate to Port Of Loading.</p>	
Port Of Loading	<p>This field specifies the port of discharge or airport of destination to be indicated on the transport document.</p> <p>Provide the details of Port/Airport of Loading from the document received.</p> <p> Note This field is alternate to Place Of Taking In Charge.</p>	
Port Of Discharge	<p>This field specifies the port of discharge or airport of destination to be indicated on the transport document.</p> <p>Provide the details of Port/Airport of Discharge from the document received.</p> <p> Note This field is alternate to Place Of Final Destination.</p>	
Place Of Final Delivery	<p>This field specifies the final destination or place of delivery to be indicated on the transport document.</p> <p>Provide the details of Place Of Final Destination from the document received.</p> <p> Note This field is alternate to Port Of Discharge.</p>	
Carrier Name	<p>Provide the name of the carrier through which the goods were shipped.</p>	
Shipping Agent	<p>Provide the shipping agent name from the document received.</p>	

Field	Description	Sample Values
Shipping Agent Address	Provide the shipping agent address from the document received.	
Transshipment	Provide the transshipment details of goods (if any) from the document received.	
Partial Shipment	Provide the partial shipment details of goods (if any) from the document received.	
INCO Terms	Select the INCO terms from the document received.	
INCO Terms Description	The description of the INCO Term.	

Description of Goods and/or Services

The screenshot shows the Oracle 'Export Documentary Collection Booking - DataEnrichment' interface. The '45A Description of Goods and/or Services' section is highlighted with a red box. It contains a table with the following data:

Goods Code	Goods Type	Goods Description	No of Units	Price per Unit	Total Amount	Action
CILLAFABRIC	G	CILLAFABRIC				[Look Up] [Delete]

Below the table, there are input fields for 'Country of Origin', 'Insurance Company Code', 'Insurance Company', and 'Policy Number'. The 'Insurance Company Code' field has a search icon. At the bottom of the section, there is a link for 'Multi-model/ Transshipment details'.

Provide the Goods Details based on the description in the following table:

Field	Description	Sample Values
+ Icon	Click + icon to add goods details.	
Goods Code	Click look up icon to select the goods code. Once you select goods code, value will default in Goods Type and Goods Description.	
Goods Type	The goods type is auto populated depending on selected goods code.	
Goods Description	This field displays the description of goods based on goods code.	
No of Units	Enter the number of units being imported or exported.	
Price per Unit	Enter the value for price per unit.	

Field	Description	Sample Values
Total Amount	<p>System to calculate the total price.</p> <p>In case of online request, the system should populate the total amount from incoming request.</p> <p>System should validate that the total amount is equal to the value of the transaction (LC/ Collection).</p>	
Action	<p>Click Edit icon to edit the goods code.</p> <p>Click Delete icon to delete the goods code.</p>	
Country of Origin	Provide the country of origin details from the documents received.	
Insurance Company Code	Select the Insurance Company Code from the LOV.	
Insurance Company	<p>Read only field.</p> <p>Insurance company details will be displayed as per the selected Insurance Company Code from the LOV.</p>	
Policy Number	Provide the policy number of the insurance.	
Insurance Company Address	<p>Read only field.</p> <p>Insurance company address will be displayed as per the selected Insurance Company Code from the LOV.</p>	

Multimodal/Transshipment Details

During shipment, if goods are shipped using multiple transports on its way or any transit ports, the details must be captured in this section.

The screenshot shows the Oracle Free Tasks interface for 'Export Documentary Collection Booking - DataEnrichment :: Application No: PK2EDCB000057483'. The 'Shipment Details' section is active, and the 'Multi-model/ Transshipment details' section is highlighted with a red box. This section contains the following fields:

Carrier Name	Port	Action
SAS Carriers	London	<input type="button" value="Edit"/> <input type="button" value="Delete"/>

Field	Description	Sample Values
Carrier Name	Provide the details of the carrier as per the documents received, if the goods were shipped via multiple carriers.	
Ports	Provide the port details as per the document received, if the ship has transit on its way to the destination.	
Action	Click Edit icon to edit the Carrier name and port. Click Delete icon to delete the record.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Request Clarification	On click the Request Clarification button the user can request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details.	
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

Draft Details

Update the maturity details based on the description in the following table:

Field	Description	Sample Values
Draft Code	Update the draft code. Alternatively, user can search the draft details using LOV.	
Draft Amount	Update the draft amount.	
Action	Click Edit icon to edit the draft code. Click Delete icon to delete the draft code.	

Maturity and Multi Tenor Liquidation Details

Provide the maturity details based on the description in the following table:

Field	Description	Sample Values
SNo.	Serial number of the tenor record.	
Tenor Basis	Provide the tenor basis. This field is disabled if the Tenor Type is 'Mixed'.	
Tenor Description	The tenor base code description is displayed based on the selected tenor basis. The user to can edit the tenor description.	
Start Date	Provide the tenor start date.	
Tenor Days	Provide the number of tenor days	
Transit Days	Provide the transit days, if the tenor is sight.	

Field	Description	Sample Values
Maturity date	System displays the due date for the bill based on tenor and tenor basis. If tenor is sight, system will calculate the maturity date as 5 working days from Document Received Date. If tenor is Usance, system will calculate the maturity date based on the tenor basis and populate the maturity date.	
Bill Amount	Provide the bill amount.	
Liquidated Amount	Provide the liquidation amount.	
Exchange Rate	Provide the Exchange Rate.	
Liquidation Date	Provide the liquidation date.	
Liquidation Amount	Provide the bill amount.	
Action	Click Edit icon to edit the tenor record. Click Delete icon to delete the tenor record.	

In case of multi tenor, user can provide multiple maturity details by clicking the plus icon.

Field	Description	Sample Values
Interest from Date	Select the interest from date. The interest from date cannot be earlier than branch date and later than maturity date.	
Interest to Date	Application defaults Maturity Date in this field, if Interest from Date is provided.	
Accept Commission From Date	Provide the accept commission from date.	
Accept Commission To Date	Provide the accept commission to date.	

Additional Fields

Banks can configure user defined fields as per their requirement in the Additional Fields Screen.

Advices

Advices menu displays the advices available under a product code from the back office as tiles. User can edit the fields in the tile, if required. User can suppress the advice, if required.

FX Linkage

This section enables the user to link the existing FX contract(s) to the Bill. User can link one or more FX deals to a bill. The linked value of an FX deal(s) must not exceed the value of the bill.

FX contract linkage with the Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the bill.

Following are the features of FX Linkage in BC.

- FX linkage cannot be linked at Bills at initial stage.
- When a bill is drawn under LC, the details of forward contract linked as a part of the LC, will be defaulted at bill.
- Linked amount will be defaulted against the corresponding FX sequentially.
- User can delink or modify the defaulted FX details at in the Bill.
- Bill maturity date should be greater than or equal to FX Value date.
- Sum of Linked amount will not be greater than Bill contract amount.
- Linked amount will not be greater than the available amount for linkage.
- Current Utilized amount will display the liquidated/purchased/discounted/negotiated amount of Bill contract. It cannot go beyond the linked FX amount.
- When a bill is drawn under LC, delink of FX at BC is allowed only if the linked FX is not utilized by the bill.
- Multiple forward FX contract could be linked and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. The same will be populated in the Average FX Rate.

FX Linkage									
FX Reference Number	Bought Currency	SOLD Currency	Available Contract Amount	Rate	Linked Amount	Current Utilized Amount	Total Utilized Amount	FX Expiry Date

Provide the FX linkage detail based on the description in the following table:

Field	Description	Sample Values
FX Reference Number	<p>Select the FX contract reference number from the LOV.</p> <p>On select and save and close, system defaults the available amount, bot currency, sold currency and rate.</p> <p>Forward FX Linkage available for selection at bill would be as follows,</p> <ul style="list-style-type: none"> • Counterparty of the FX contract should be the counterparty of the Bill contract. • Active Forward FX transactions authorized not marked for auto liquidation. <p>Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill.</p>	
Bought Currency	This field displays the currency from the linked FX contract.	
Sold Currency	This field displays the currency from the linked FX contract.	
Available Contract Amount	Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.	
Rate	This field displays the rate at which the contract is booked.	

Field	Description	Sample Values
Linked Amount	Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage.	
Current Utilized amount	This field displays the liquidated /purchased / discounted /negotiated amount of BC contract. It cannot go beyond the linked FX amount.	
Total Utilized amount	This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version.	
Amount in Contract Currency	This field displays the amount in contract currency converted from FX currency.	
FX Expiry Date	This field displays the expiry date from the linked FX contract.	
FX Delivery Period - From	This field displays the date from which the contract is valid for utilization.	
FX Delivery Period - To	This field displays the date to which the contract is valid for utilization.	
Action	Click the Edit icon to modify the FX details. Click the Delete icon to delete the FX details.	
Average FX Rate	Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.	

Tracers

This section enables the user to view the default Tracer details from back end application. It also allows the user to add new Tracer details. Add new Tracer details based on the description in the following table:

Acknowledgement Tracer, Acceptance Tracer and Payment Tracer are applicable for this process.

The screenshot shows a 'Tracer Details' window with two sections: 'Payment Tracer' and 'Acknowledgement Tracer'.
Payment Tracer: Tracer Required is checked. Number of Tracers is 3. Tracer Frequency is Weekly. Tracer Medium is SWIFT. Tracer Receiver Party is empty. Tracer Start Date is Jan 1, 2014.
Acknowledgement Tracer: Tracer Required is unchecked. Number of Tracers is empty. Tracer Frequency is empty. Tracer Medium is empty. Tracer Receiver Party is Advising Bank. Tracer Start Date is Jan 1, 1970.
 Buttons for 'Save & Close' and 'Close' are at the bottom right.

Field	Description	Sample Values
Tracer Required	Select if tracer is required or nor from the available drop list: <ul style="list-style-type: none"> • Required • Not required • Till resolved 	
Number of Tracers	Provide the number of tracers required.	
Tracer Frequency	Provide the frequency for generation of the Tracer.  Note This field is applicable only if Tracer Required has value as Till Resolved .	
Tracer Medium	Select the tracer medium from the LOV.  Note This field is applicable only if Tracer Required has value as Required or Till Resolved .	
Tracer Receiver Party	Select the tracer receiver party from the LOV.  Note This field is applicable only if Tracer Required has value as Required or Till Resolved .	

Field	Description	Sample Values
Tracer Start Date	<p>Select the tracer start date. Start date cannot be earlier than the branch date.</p> <p> Note This field is applicable only if Tracer Required has value as Required or Till Resolved.</p>	

Interest Details

The user can view and modify the Interest Details Simulated from Back Office system. On update of the Interest rate user has to click on Recalculate button. System will trigger a simulation call to the back office and the updated Interest details will be reflected in this section.

Provide the Pre Shipment details based on the description in the following table:

Field	Description	Sample Values
Loan Account Number	Select the pre-shipment Loan Account number from the LOV.	
Currency	The currency of the pre-shipment loan account number.	
Outstanding Amount	The pre-shipment credit outstanding amount.	
Action	Click the Edit icon to modify the Pre Shipment details. Click the Delete icon to delete the Pre Shipment details.	
Settled Loan		
Sequence Number	This field displays the sequence of the settled loan.	
Loan Account Number	This field displays the pre-shipment Loan Account number.	
Currency	This field displays the currency of the pre-shipment loan account number.	
Outstanding Amount	This field displays the pre-shipment credit outstanding amount.	
Event	This field displays the event.	
Settled Amount	This field displays the settled amount.	

Preview Message

User can preview the message simulated for correspondence with Remitting Bank.

Pre-Shipment Details

Provide the Liquidate Pre-Shipment Finance details based on the description in the following table:

Field	Description	Sample Values
Repay Pre-shipment Credit	Yes: Select Yes, if pre-shipment credit to be repaid. No: Select No if there is no pre-shipment credit to be repaid.	
Pre-shipment Credit Account Number	This field displays the pre-shipment credit account number.	
Pre-shipment Credit Outstanding Amount	This field displays the pre-shipment credit outstanding amount.	
Pre-shipment Credit Repayment Amount	This field displays the pre-shipment credit repayment amount.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Request Clarification	On click the Request Clarification button the user can request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details.	
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

Summary

User can review the summary of details updated in Data Enrichment stage of Export Documentary Collection Booking request.

The tiles must display a list of important fields with values. User can drill down from summary Tiles into respective data segments.

The screenshot displays the Oracle Financials Summary page for an Export Documentary Collition Booking. The page is titled "Summary" and contains 15 summary tiles arranged in a grid. The tiles are: Main Details, Document Details, Draft Details, Shipment Details, Maturity Details, Additional Fields, Advices, Limits and Collaterals, Commission, Charges and Taxes, Preview Messages, Payment Details, Tracer Details, FX Linkage, Settlement Details, Parties Details, Compliance details, and Accounting Details. The interface includes a navigation menu on the left, a top header with Oracle logo and user information, and a bottom toolbar with buttons like "Request Clarification", "Reject", "Refer", "Hold", "Cancel", "Save & Close", "Back", "Print", and "Submit".

Tiles Displayed in Summary

- Main Details - User can view details about application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
- Maturity Details - User can view the maturity details.
- Documents - User can view the document details.
- Draft Details - User can view the draft details.
- Additional Fields - User can view the details of additional fields.
- Advice Details - User can view the details of advices.
- Payment Details - User can view the payment details.
- Shipment Details - User can view the shipment details.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- Tracers - User can view the tracer details.
- FX Linkage - User can view the details of FX Linkage.
- Settlement Details - User can view settlement details.
- Preview message - User can view the preview message.
- Compliance - User can view the compliance details.
- Accounting Details - User can view the accounting entries generated by back office system.

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message "Value Date is different from Transaction Date for one or more Accounting entries."

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Submit	<p>Task will move to next logical stage of Export Documentary Collection Booking.</p> <p>If mandatory fields have not been captured, system will display an error message highlighting that the mandatory fields have to be updated. In case of duplicate documents' system will terminate the process after handing off the details to back office.</p>	
Save & Close	<p>Save the details provided and holds the task in 'My Task' queue for further update.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.</p>	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Exceptions

The Export Collection Booking request, before the task moves to the approval stage, the application will validate the Amount Block, KYC and AML. A failure in validation of any of them, the task will reach exception stage for further approval for the exceptions.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create an amount block. On hand-off, system will debit the blocked account to the extent earmark and credit charges/ commission account in case of charges block or credit the amount in suspense account for earmarks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of updated available fields with values.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Amount Bock Exception

This section will display the amount block exception details.

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charge Details - User can view and modify details provided for charges, if required.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others 	
Cancel	Cancel the Export Collection Booking Amount Block Exception check.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the applicant. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for trade finance transactions will be listed in your queue. Open the task, to see summary tiles that display a summary of available updated fields with values.

User can pick up a transaction and do the following actions:

Approve

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).

Summary

Tiles Displayed in Summary:

- Main Details - User can view details about application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
- Document Details - User can view document details.
- Draft Details - User can view the draft details.
- Shipment Details - User can view shipment details.
- Charges - User can view charge details.
- Maturity Details - User can view the maturity details.

- Advices - User can view the advices.
- Payment Details - User can view the payment details.
- FX Linkage - User can view the FX Linkage details.
- Settlement Details - User can view the settlement details.
- Message Preview - User can view the preview of the simulating message to the remitting bank.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	<p>Cancel the Export Collection Booking KYC exception check.</p>	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage.</p>	
Back	<p>Task moves to previous logical step.</p>	

Exception - Limit Check/Credit

The transactions that have failed limit check due to non-availability of limits will be available in limit check exception queue for further handling.

Log in into OBTFPM application, limit check exception queue. Limit check exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

Limit check Exception approver can do the following actions:

Approve

- Limit enhanced in the back end (outside this process).
- Without enhancing limit in the back end.

Refer

- Refer back to DE providing alternate limit id to map
- Refer additional collateral to be mapped

Reject

The transaction due to non-availability of limits capturing reject reason.

Limit/Credit Check

This section will display the amount block exception details.

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Availability and Shipment - User can view and modify availability and shipment details, if required.
- Payments - User can view and modify all details related to payments, if required.
- Documents & Condition - User can view and modify the documents required grid and the additional conditions grid, if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charges - User can view and modify charge details, if required.
- Revolving Details - User can view and modify revolving details on revolving LC, if applicable.
- Preview Messages - User can view and modify preview details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>

Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage.</p>	
Back	<p>Task moves to previous logical step.</p>	

Multi Level Approval

Log in into OBTFPM application and acquire the task available in the approval stage in free task queue. Authorization User can acquire the task for approving.

Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open

the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Drawee Name
- Drawer Name
- Bill Currency
- Bill Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.

The screenshot displays the 'Free Tasks' interface in the FuTura Bank system. A modal window titled 'Approval Rekey' is open, allowing for the re-keying of application details. The modal includes the following fields:

- Applicant Party:** 000262 (with a search icon and a green checkmark)
- Application Date:** Feb 1, 2019 (with a calendar icon and a green checkmark)

At the bottom of the modal are three buttons: 'Proceed', 'Refer', and 'Cancel'. The background interface shows a table of tasks with the following columns: Action, Priority, Application Number, Process Name, Stage, and Back Office Ref No. The table contains several rows of task data, including 'Import LC Liquidation', 'Export LC Advising', and 'Import LC Amendment'.

Cancel	Cancel the approval.	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.</p>	

Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Import Documentary Collection Booking available in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The screen from which the reject was initiated can be seen highlighted in the tile view.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

Summary

The screen up to which data was captured before reject will be available for the user to view in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view details about application details and document under collection.
- Party Details - User can view party details like applicant, Remitting Bank etc.
- Document Details - User can view document details.
- Shipment Details - User can view shipment details.
- Charges - User can view charge details.
- Maturity Details - User can view the maturity details.
- Message Preview - User can view the preview of the simulating message to the remitting bank.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject Approve	On click of Reject Approve, the transaction is rejected.	
Reject Decline	On click of Reject Decline, the task moves back to the stage where it was rejected. User can update the reason for reject decline in remarks.	
Hold	User can put the transaction on 'Hold'. Task will remain in Pending state.	
Cancel	Cancel the Reject Approval.
