# Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.

## Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

## Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

## Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# Export LC Cancellation

Export LC Cancellation process enables the user to cancel the LC which had been already advised.

The cancellation require consent from the beneficiary of the LC. In such scenarios, after the processing of cancellation, the cancelled LC is parked awaiting beneficiary consent.

In the following sections, let's look at the details for export LC cancellation process.

This section contains the following topics:

<a href="#">Common Initiation Stage</a>	<a href="#">Registration</a>
<a href="#">Data Enrichment</a>	<a href="#">Exceptions</a>
<a href="#">Multi Level Approval</a>	<a href="#">Reject Approval</a>

## Common Initiation Stage

The user can initiate the new export LC cancellation request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

The screenshot shows the Oracle OBTFPM application interface. The top navigation bar includes the Oracle logo, the page title 'Initiate Task', and user information (JEEVA02, subham@gmail.com). A search bar is present. The main content area is titled 'Registration' and contains three input fields: 'Process Name' with a dropdown menu showing 'Export LC Cancellation', 'Advising Bank Reference' with a text input containing '300ELCH160010505', and 'Branch' with a dropdown menu showing '300-International Payments-Fast...'. There are 'Proceed' and 'Clear' buttons on the right. The left sidebar menu is visible, with 'Initiate Task' highlighted in red.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Advising Bank Reference	Select the advising bank reference.
Branch	Select the branch.

## Action Buttons

Use action buttons based on the description in the following table:

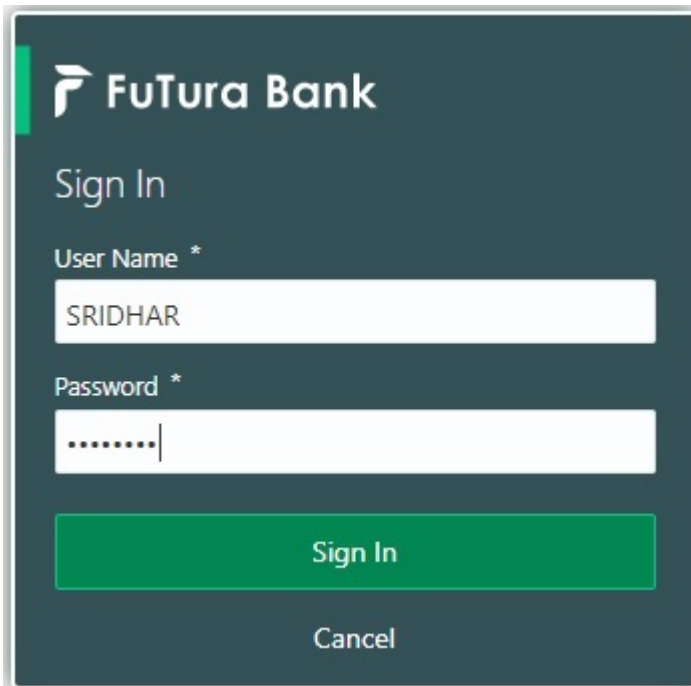

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

## Registration

If the Letter Of Credit cancellation request is submitted through branch, the Export LC Cancellation process starts from the Registration Stage.

During registration stage, user can capture the basic details of the application and upload the related documents of the applicant. On submit of the request, the request will be available for an LC cancellation expert to handle the request in the next stage.

3. Using the entitled login credentials for registration stage, login to the OBTFPM application.

## Exceptions

The Export LC Cancellation request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

### Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account
