Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction.

Overview

OBTFPM is a Trade Finance Middle Office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of Trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

ORACLE®

Guarantee Advise Cancellation

As a part of Guarantee Advise Cancellation, the user requests for cancellation of a Guarantee/SBLC advised. On the issuing bank request, the Guarantee Advise Cancellation is initiated. The cancellation request is indicated in the incoming MT 767 message, field 23S Cancellation Request.

If the field 23S has value 'CANCEL', then Guarantee/SBLC should be initiated.

This section contains the following topics:

Common Initiation Stage

The user can initiate the Guarantee Advise Cancellation request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.

2. Click **Trade Finance > Initiate Task.**
Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.

ORACLE®

Field	Description
Clear	The user can clear the contents update and can input values again.

Registration

The first stage of Guarantee Advise Cancellation process starts from the Registration Stage. During Registration stage, the user can register Guarantee/SBLC Cancellation request received from the Applicant. If the Guarantee Advise cancellation request is given through email or physical application form (courier), the user can update the request.

The user has the option to submit, hold, save and hold and cancel the application

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Trade Finance > Bank Guarantee Advise > Guarantee Advise Cancellation**.

ORACLE®
The Registration stage has two sections Application Details and Guarantee Details. Let's look at the details of Registration screens below:

Application Details

If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	The task gets canceled and system should clear the Guarantee Advice Cancellation Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	
Verify Signature	System will display the details of Authorized signatories. The pop up box will display the signature id, signature title and image of the signature for verification.	

ORACLE®

Data Enrichment

As part of Data Enrichment, user can register and update the Guarantee Cancellation request received from the Issuing Bank. If the request is received by mail/Courier, the user should be able to update the request. In case the message is received by SWIFT, then the cancellation task needs to be auto created and available for the user to handle.

Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Trade Finance> Tasks> Free Tasks.**

4. Select the appropriate cancellation task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task.

ORACLE®

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

The Guarantee Advise Cancellation - Data Enrichment stage has three sections as follows:

- Main Details
- Guarantee Preferences
- Additional Fields
- Advices
- Additional Details
