Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction.

Overview

OBTFPM is a Trade Finance Middle Office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Guarantee Issuance Closure

The Guarantee Issuance Closure process enables the closure of a Guarantee/SBLC after the expiry date but before the auto closure date. Guarantees/SBLC have a pre-scheduled auto closure date, which is a few days after the expiry of undertaking.

In the subsequent sections, let's look at the details for Guarantee Issuance Closure process:

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Multi Level Approval
Customer - Acknowledgement letter Format	Customer - Reject Letter Format

Common Initiation Stage

The user can initiate the new guarantee issuance request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Customer ID	Select the customer id of the applicant or applicant's bank.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

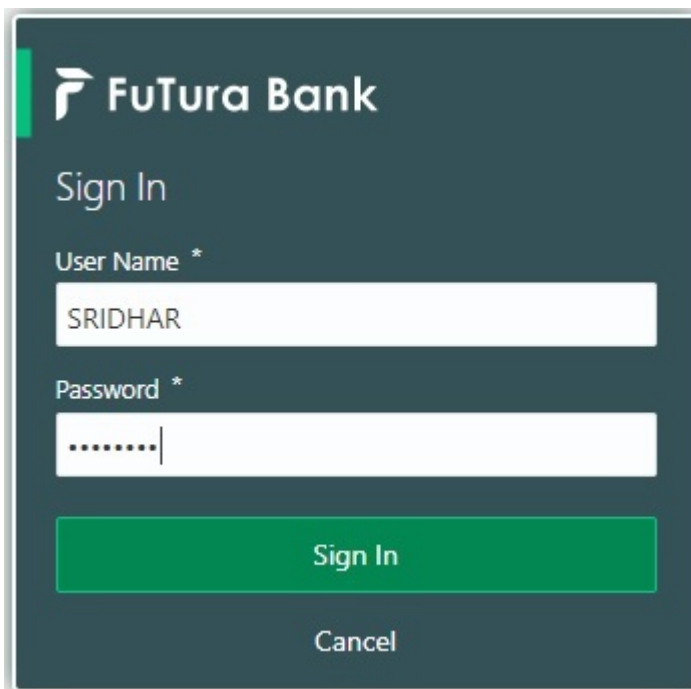

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

The user can register a request for the Closure of Guarantee/SBLC Issued received at the front desk (as an application received physically/received by mail/fax).

During registration stage, user can capture the basic details of the application, check the signature of the applicant and upload the related documents of the applicant. It also enables the user to capture some additional product related details as an option. On submit of the request, the customer will be notified with an acknowledgment and the request will be available for a Guarantee Issuance expert to handle the request in the next stage

1. Using the entitled login credentials for registration stage, login to the OBTFPM application.

FuTura Bank

Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	

Data Enrichment

On successful completion of registration of a Guarantee issuance request, the request moves to the Data Enrichment stage. At this stage the gathered information during registration are scrutinized. The transaction will have the details entered during the registration stage.

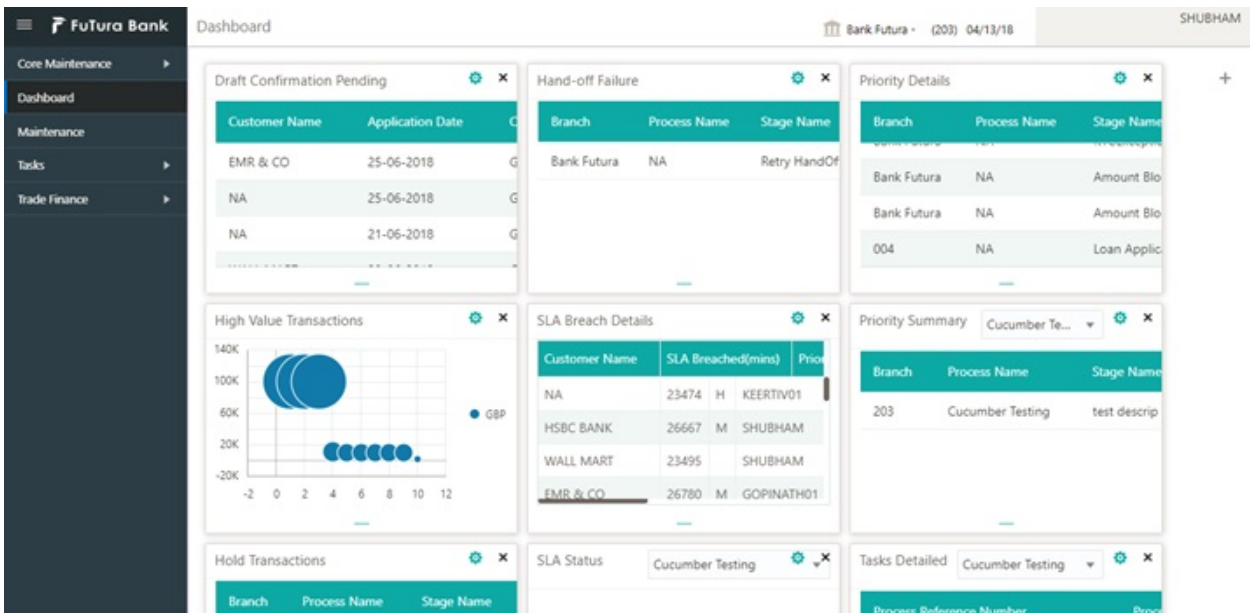

Do the following steps to acquire a task currently at Data Enrichment stage:

1. Using the entitled login credentials for scrutiny stage, login to the OBTFPM application.

The image shows the login interface for FuTura Bank. It features a dark blue header with the bank's logo and name. Below the header, the text "Sign In" is displayed. There are two input fields: "User Name *" with the value "SRIDHAR" and "Password *" with masked characters. A green "Sign In" button is located at the bottom of the form.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The image displays the FuTura Bank dashboard. The left sidebar contains navigation options: Core Maintenance, Dashboard, Maintenance, Tasks, and Trade Finance. The main content area is titled "Dashboard" and shows several widgets. The top row includes "Draft Confirmation Pending", "Hand-off Failure", and "Priority Details". The middle row features "High Value Transactions" (a bubble chart), "SLA Breach Details" (a table), and "Priority Summary". The bottom row contains "Hold Transactions", "SLA Status", and "Tasks Detailed".

Select a Reject code and give a reject description. This reject reason will be available in the remarks window throughout the process.	
Back	Click Back to move the task to the previous segment.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Summary

User can review the summary details for Closure of Guarantee/SBLC Issued request.

The user can see the summary tiles. The tiles must display a list of important fields with values. User must be also able to drill down from summary tiles into respective data segments.

The screenshot shows the Oracle application interface for a Guarantee Issuance Closure. The page title is "Guarantee Issuance Closure - DataEnrichment :: Application No: PK2GTEC000052957". The user is logged in as SRIDHAR02 (subham@gmail.com) on May 8, 2019. The interface includes a navigation menu on the left with options: Main Details, Additional Fields, Advices, Additional Details, Settlement Details, and Summary (selected). The main content area is titled "Summary" and contains a grid of summary tiles:

Main Details	Additional Fields	Advices	Settlement Details
SBLC/Guarantee Type : Submission Mode : Desk Date of Issue : 2019-03-22	Click here to view : Additional fields	Advice 1 : GUA_RELEAS Advice 2 : LC_CLOSE_ADV Advice 3 : GUAR_RELEASE Advice 4 : PAYMENT_ME	Component : OTHBNKCHG_ Account Number : PK20010440 Currency : GBP
Limits and Collaterals	Commission,Charges and Taxes	Preview Messages	Compliance details
Limit Currency : Limit Contribution : Limit Status : Not Verified Collateral Currency : GBP Collateral Contr. : 800 Collateral Status : Not Verified	Charge : GBP50 Commission : Tax : Block Status : Not Initia	Language : ENG Preview Message : -	KYC : Not Initia Sanctions : Not Initia AML : Not Initia
Parties Details	Accounting Details		
Applicant : GOODCARE PLC Beneficiary : MARKS AND Advising Bank : WELLS FARG	Event : ROPN Account Number : PK20010440 Branch : PK2		

At the bottom of the page, there is an "Audit" button on the left and a row of action buttons: "Reject", "Refer", "Hold", "Cancel", "Save & Close", "Back", "Next", and "Submit".

Tiles Displayed in Summary

- Main Details - User can view application details and Guarantee/SBLC Closure details.
- Guarantee Details - User can view the Counter Guarantee details and Guarantee details. The user can modify the details if required.
- Additional Fields - User can view the additional field details.
- Advices - User can view the advices details.
- Settlement Details: User can view the Settlement details.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to Upload the required documents. Application will display the mandatory and optional documents.	
Remarks	Click the Remarks icon to provide any additional information regarding the Guarantee Issuance. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view overrides, if any.	
View Undertaking	On click of this button, all SBLC/Guarantee details is displayed.	
Submit	On Submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Guarantee Issuance Closure. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in 'My Task' for working later. This option will not submit the request.	
Cancel	On click of Cancel, the task gets cancelled and system should clear the details captured in the screen. The task will get deleted.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant.	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Back	Click Back to move the task to the previous segment.	

Multi Level Approval

Approval user can review and approve the Closure of Guarantee/SBLC Issued. The user can view the summary of details updated in multilevel approval stage for Closure of Guarantee/SBLC Issued request.

The user log i to the application to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Authorization Re-Key (Non-Online Channel)

For non-online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Currency
- Undertaking Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.
