2 Small and Medium Business (SMB) Onboarding

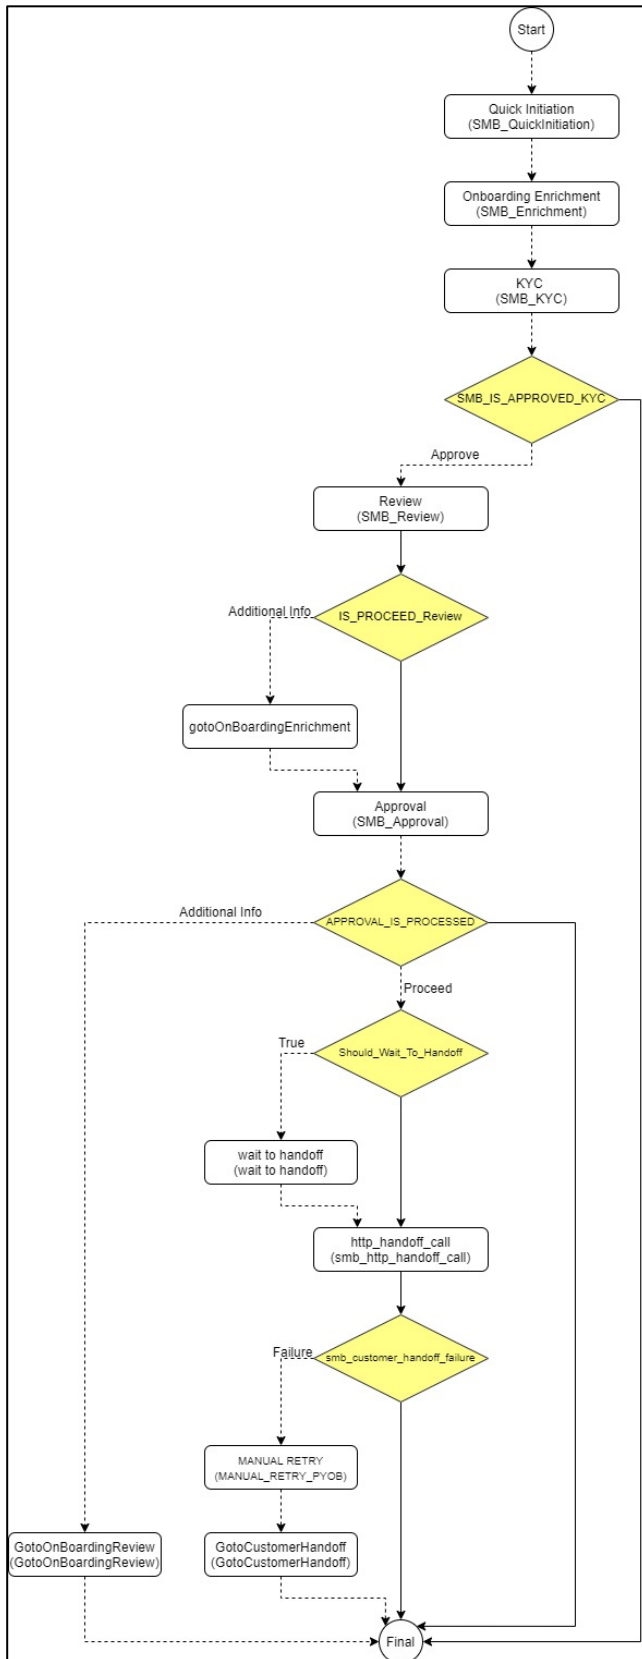

2.1 Overview

Small and Medium Business (SMB) Onboarding is the process of collecting, evaluating, and authorizing customer information for secured banking operations. The Relationship Managers can initiate this process when the customer shows interest in any of the bank's products or approaches the bank for an availing facility. The information collected throughout this process is stored in the bank's database for future reference.

2.1.1 Process Flow Diagram

The flow diagram illustrating the different stages in SMB Onboarding process is shown below for reference:

Figure 1: Process Flow

2.2 Onboarding Initiation

This section contains the following topics:

- [2.2.1 Basic Details](#)
- [2.2.2 Stakeholder Details](#)
- [2.2.3 Financial Information](#)
- [2.2.4 Interested Products](#)
- [2.2.5 Comments](#)
- [2.2.6 Review and Submit](#)

In this stage, the Relationship Manager can capture brief information about the SMB customer to be on-boarded using Oracle Banking Enterprise Party Management.

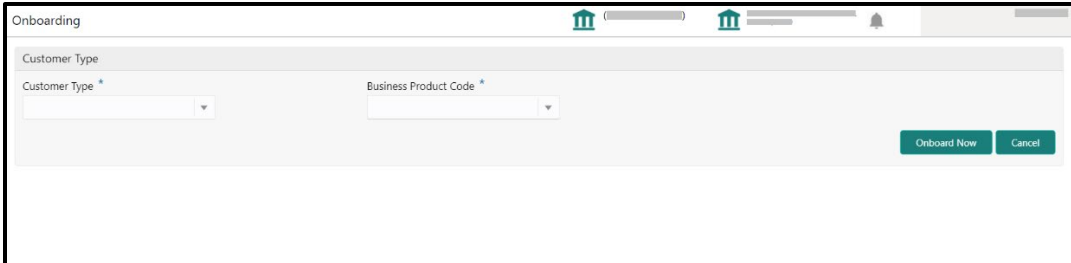

Prerequisites:

Before you begin, log in to the application Home page. For information on how to log in, refer to the *Getting Started User Guide*.

To initiate the Onboarding process:

1. On the Home page, click **Party Services**. Under **Party Services**, click **Onboarding**.
→ The **Onboarding** screen is displayed.

2.2.2 Stakeholder Details

Details about the stakeholder such as Owners, Authorized Signatories, guarantors, and Suppliers of the business can be added in this data segment. Stakeholders' detail is necessary for the bank to ascertain the credibility of the business.

Stakeholders to a customer can be either of the following:

- An existing customer of the Bank
- An existing party that is not a customer but is a stakeholder to another customer of the bank
- A new party, which is neither a customer nor an existing party (stakeholder)

Figure 6: Initiation – Stakeholder Details

The screenshot shows the 'Stakeholder Details' page. The left sidebar contains a navigation menu with the following items: Basic Details, Stakeholder Details (selected), Financial Information, Interested Products, Comments, and Review and Submit. The main content area is titled 'Stakeholder Details' and includes a sub-header with counts: Owners (0), Authorized Signatories (0), Guarantors (0), and Suppliers (0). Below this is a table with the following columns: Party Type, CIF/Party Id, Name, ID/Registration Number, Is Customer, and Action. The table is currently empty, displaying 'No data to display.' At the bottom right of the page, there are five buttons: Hold, Back, Next, Save & Close, and Cancel.

Perform the following steps to update the stakeholders details:

1. To add the desired stakeholder, select the corresponding stakeholder button on top of **Stakeholder Details** screen, and click the **+** icon.

→ The system displays the **Add New Owners** screen.

Figure 7: Add New Owners

2. Specify the existing CIF (if the stakeholder is an existing customer) or the existing Party Id (if the stakeholder is an existing party but not a customer) or select from the list of the recently added stakeholders to the same application.
3. If CIF/Party Id is not known, click search icon to launch **Search Party** screen and select from the list of values.

NOTE: This step is optional

- After updating the KYC details, click **Next**

→ The system displays the screen to capture relationship specific attributes for the stakeholder

Figure 12: Add New Stakeholder – Capture relationship specific attribute

- On **Add New Owners** screen, specify the **Ownership Percentage** and **Associated Since** values, and click **Submit**.

→ The system will link the stakeholder to the customer being onboarded and display the new added stakeholder on the **Stakeholder Details** screen

Figure 13: New Stakeholder Added

Party Type	CIF/Party Id	Name	ID/Registration Number	Is Customer	Action
Individual				No	[Action]

Ownership Percentage: 80% Associated Since: 2015-08-11

- If the stakeholder is an existing customer or an existing Party, then the linkage is based on the CIF/Party Id.

In case a new stakeholder is being added, the system will generate a Party Id for the newly added stakeholder. This Party Id is used to establish a link between the new customer and stakeholder.

2.2.3 Financial Information

Information about the customer's income, assets, and liability is added in this data segment. Financial information about the customer help bank in determining the credit worthiness of the customer in a better manner.

Figure 14: Initiation – Financial Information

Perform the following steps to update the financial information:

1. Select the **Annual Income** range of the customer.
2. Click and expand the **Asset Details** section.

→ The system displays the following options:

2.8 Straight Through Processing for onboarding requests received from Channels

For the onboarding requests received from Channels, there are configuration available to allow straight through processing of SMB onboarding and handoff to the core system without waiting for any manual intervention.

Refer below table for details of the configuration:

Table 20: Configurations

Configuration Parameter	Description	Default Value
STP_FLAG	This parameter indicates if straight through processing is allowed for SMB onboarding requests received from Channels subject to other mandatory information being available in the request. Accepted values are:	True

Configuration Parameter	Description	Default Value
	<p>TRUE - Straight through processing for SMB Onboarding shall be allowed subject to fulfillment of other mandatory details and business validation.</p> <p>FALSE - Straight through processing for SMB Onboarding shall not be allowed in any case, even if all mandatory and KYC details are sent from Channel.</p>	
CHANNEL_CONFIRMATION_REQUIRED	<p>This parameter indicates if a confirmation from channel is required before handoff to the core system. Accepted values are:</p> <p>True – System will wait for a confirmation from Channels before triggering the handoff to the core system</p> <p>False – System will go ahead with the handoff to the core system without waiting for any confirmation from Channels</p>	False

On receiving the SMB onboarding request from channels, the system will validate the configuration parameters as stated in the above table. If straight through processing is allowed i.e. STP_FLAG is set to True, the system validates if all the mandatory information including the KYC details are available in the request. Following cases are applicable:

1. Quick Onboarding - this will be quick onboarding with minimal attributes, equivalent to Quick Initiation. Further enrichment and KYC check for such requests can be done by a Bank user.
2. Detailed Onboarding without KYC Check - this will cover onboarding from channel with full customer details but without KYC Check. Such request shall fall under KYC stage. Bank users can pick such request and complete the remaining stages - KYC, review and Approval.
3. Detailed Onboarding with KYC Check (Straight **through processing**) - In this case, channel will capture and pass on all the mandatory information and KYC details. This shall be treated as straight through processing if STP_Flag is set to TRUE and the Party details shall be handed over to core system without need of any manual intervention.
