Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Export LC Transfer Amendment- Beneficiary Consent - Islamic

Export LC Transfer Amendment process enables the bank to advise an amendment to the LC which had been already Transferred. The amendments may need consent from the second beneficiaries of the Transfer LC and the amended LC is parked awaiting beneficiary consent. Once the Second Beneficiary has accepted the amendment, the Transfer LC amendment Confirmation will be triggered.

The various stages involved for Islamic Export LC Transfer Amendment Beneficiary Consent are:

- Input basic data and Upload of related mandatory and non-mandatory documents in Registration stage
- Input/Modify details of amendment of Transferred LC - Data Enrichment stage
- Capture remarks for other users to check and act
- Notify customer on any negative statuses in any of the stages to the Beneficiary
- Hand off request to back office

The design, development and functionality of the Islamic Export LC Transfer Amendment process flow is similar to that of conventional Export LC Amendment process flow.

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Approval

Common Initiation Stage

The user can initiate the new Islamic export LC transfer amendment beneficiary consent request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

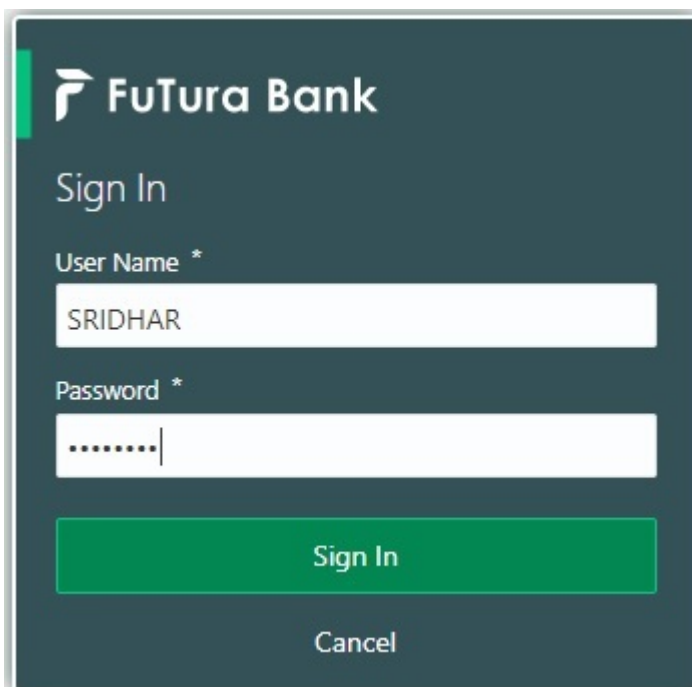

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

During the Registration stage, the user can register a request for an Islamic Export LC Transfer Amendment Beneficiary Consent.

User can capture the basic details of the response, check the signature of the signatory from the advising bank and upload the related documents. On submit of the request, the request should be available for an LC expert to handle in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.
