# Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction.

## Overview

OBTFPM is a Trade Finance Middle Office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

## Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of Trade transactions that reoccur periodically.

## Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# Guarantee Advise Cancellation - Islamic

As part of Conventional Guarantee Advise Cancel, System enables the user to cancel the Guarantee which had been already Advised.

The various stages involved for Guarantee Advise Cancel are:

- Receive and verify documents and Input basic details- Registration stage
- Upload of related mandatory and non-mandatory documents
- Input/Modify
- details of Cancel of Guarantee - Data Enrichment stage
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Guarantee Advise Cancel process flow is similar to that of conventional Guarantee Advise Cancel process flow.

This section contains the following topics:

[Common Initiation Stage](#)

[Common Initiation Stage](#)

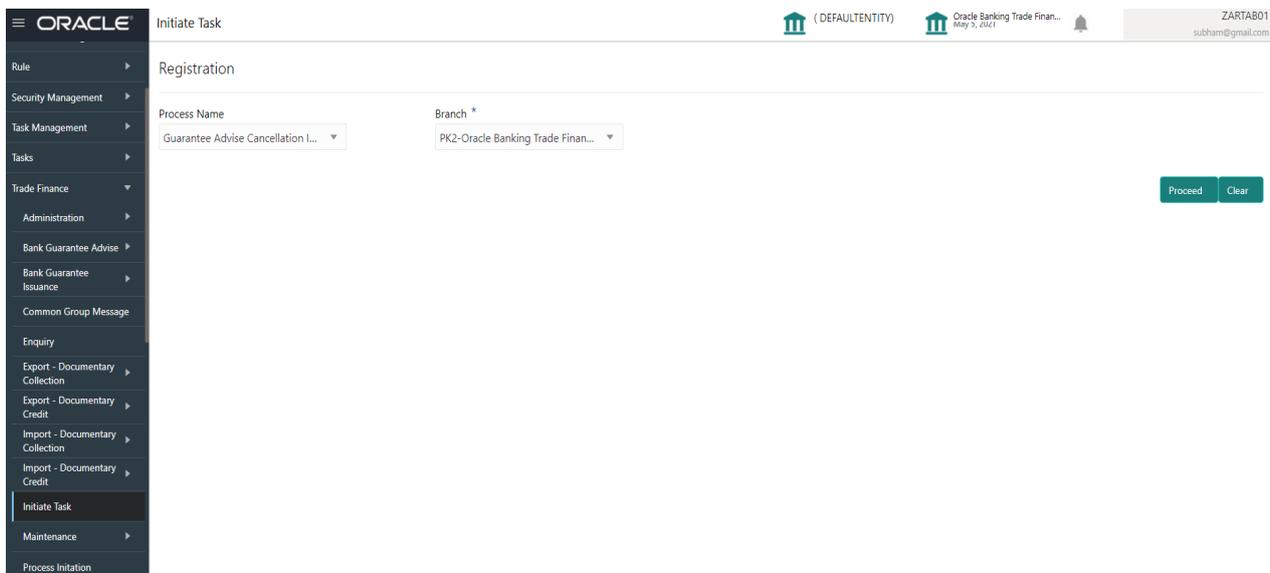

[Data Enrichment](#)

[Multi Level Authorization](#)

## Common Initiation Stage

The user can initiate the Islamic Guarantee Advise Cancellation request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.

Field	Description
Branch	Select the branch.

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

## Registration

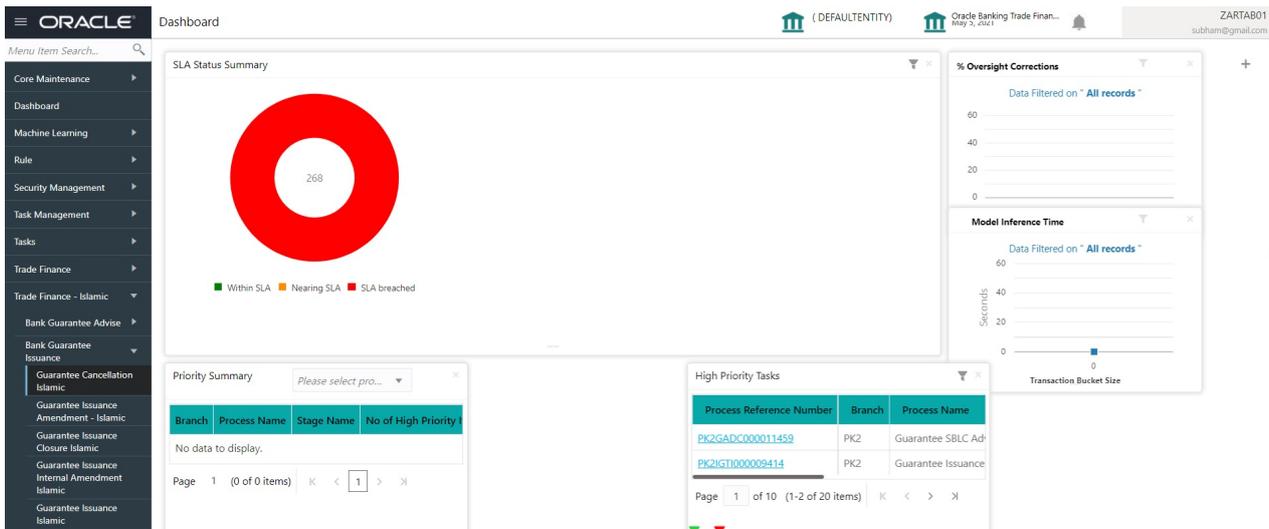

The first stage of Guarantee Advise Cancellation process starts from the Registration Stage. User can register a request for an Islamic Guarantee Advise Cancel received at the front desk (as an application received physically/received by mail/fax). During registration (Ref Fig-2), I will capture the basic details of the Cancel application, check the signature of the applicant and upload related documents. On submit of the Cancel request, the customer should be notified with acknowledgment and the request should be available for the Guarantee expert to handle in the next stage.

The user has the option to submit, hold, save and hold and cancel the application

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

### 3. Click Trade Finance - Islamic > Bank Guarantee Advise > Guarantee Advise Cancellation - Islamic.

The Registration stage has two sections Application Details and Guarantee Details. Let's look at the details of Registration screens below:

## Application Details

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Advising Bank Reference Number	The user can input the Advising Reference of the Guarantee to be cancelled.  Alternatively, user can search the Advising Bank Reference Number using LOV.  As part of LOV criteria; user can input the Customer Id, Beneficiary name, Currency and amount.	
Beneficiary	Read only field.  System will default the name of the customer as available in Guarantee Advise.	Toggle off
Branch	Read only field.  System will default the branch from Guarantee Advise.	
Priority	System will default the Priority as Low/Medium/.  High based on maintenance.  If no priority is maintained, system defaults the priority as Medium.	High

Field	Description	Sample Values
Submission Mode	Submission mode of Guarantee. Cancellation request. By default the submission mode will have the value as 'Desk'. <b>Desk</b> - Request received through Desk <b>Email</b> - Request received through Email <b>Courier</b> - Request received through Courier	Desk
Amendment Number	Read only field. Unique Amendment sequence number defaults from the back office.	
Process Reference Number	Unique sequence reference number for the transaction. This is auto generated by the system based on process name and branch code.	203GTEISS000 001134
Issuing Bank	Issuing Bank Name defaults from the Guarantee Advise details.	
Cancellation Date	By default, the application will display branch's current date. User can change the date to back date, future date is not allowed.	

## Guarantee Details

The user can view the latest LC values defaulted in the respective fields. All fields displayed in Guarantee details section are read only fields.

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Form of Undertaking	Read only field. Form of Undertaking defaults from Guarantee Advised.	
Undertaking Number	Read only field. Form of Undertaking number from Guarantee Advised.	

Field	Description	Sample Values
Product Code	Read only field. This field displays the product code defaulted from Guarantee Advised.	
Product Description	Read only field. This field displays the description of the product as per the product code available in Guarantee Advised.	
Undertaking Amount	Read only field. System defaults the outstanding value available in Guarantee Advised.	
Amount In Local Currency	System fetches the local currency equivalent value for the transaction amount from back office (with decimal places).	
Purpose of Message	Read only field. Purpose of message defaults from Guarantee Advised.	
File Identification	Read Only Field. System will default the value available in Guarantee Advised.	
Narrative	Read Only Field. System defaults the value available in Guarantee Advised.	
Applicable Rules	Read only field. This field displays the rules of the Guarantee Advised.	
Narrative	System defaults the value available in Guarantee Advised.	
Type Of Undertaking	Read only field. System defaults the value available from Guarantee Advised details.	
Narrative	Read Only Field. System defaults the value available in Guarantee Advised.	
Date of Issue	Application will default the branch's current date in date of issue. User cannot change the defaulted date.  Application will populate the Date of Issue field with branch date on approval if date of approval is later than date of registration.	04/13/18

Field	Description	Sample Values
Expiry Type	Read Only Field. System defaults the expiry type available in Guarantee Advised.	
Date of Expiry	Read Only Field. System defaults the expiry date available in Guarantee Advised.	
Expiry Condition/ Event	Read Only Field. System defaults the expiry condition available in Guarantee Advised.	
Applicant	Read only field. This system defaults the applicant name available in Guarantee Advised.	
Obligor/ Instructing Party	Read only field. This system defaults the value available in Guarantee Advised.	
Advice Through Bank	Read only field. System defaults the value available in Guarantee Advised.	
Additional Amounts	Additional Amount Covered as per the latest LC details is displayed.	
Beneficiary Consent Required	<b>Toggle on:</b> Beneficiary consent required for cancellation. <b>Toggle off:</b> Switch off the toggle if beneficiary consent is not required for cancellation.

## Data Enrichment

As part of Data Enrichment, user can register and update the basic details of Guarantee Cancellation request. If the request is received by mail/Courier, the user should be able to update the request. In case the message is received by SWIFT, then the cancellation task needs to be auto created and available for the user to handle.

Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Tasks > Free Tasks**.

Provide the Charge Details based on the description provided in the following table:

Field	Description	Sample Values
Component	Charge Component type.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Modified	From the default value, if the rate is changed or the amount is changed, the same is updated in the modified amount field.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Defer	<p>Charges can not be deferred further.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	

Field	Description	Sample Values
Waive	If charges have to be waived, this check box has to be selected.  Based on the customer maintenance, the charges should be marked for Billing or for Defer.  This field is disabled, if 'Defer' toggle is enabled.	
Charge Party	Charge party will be applicant by default. You can change the value to beneficiary.	
Settlement Account	Details of the settlement account.	

### Commission Details

Provide the Commission Details based on the description provided in the following table:

Field	Description	Sample Values
Component	Select the commission component	
Rate	Defaults from product. User can change the rate, if required.	
Currency	Defaults the currency in which the commission needs to be collected.	
Amount	An amount that is maintained under the product code defaults in this field. User can modify the value, if required.	
Modified	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.  This field is disabled, if 'Defer' toggle is enabled.	
Waive	Select the check box to waive charges/ commission.  Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.  This field is disabled, if 'Defer' toggle is enabled.	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary.	
Settlement Account	Details of the Settlement Account.	

### Tax Details

The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/

commission will be available on click of Re-Calculate button or on hand off to back-end system. Tax details are defaulted from the back-end system.

Following Tax Details will be displayed:

Component	Currency	Amount	Billing	Defer	Settlement Account
No data to display.					

Field	Description	Sample Values
Component	Tax Component type.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	If tax are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	
Settlement Account	Details of the settlement account.	

## Action Buttons

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others. The user would be able to select a Reject code and give a Reject Description</li> </ul> <p>Other users should be able to see the reject reason in remarks window throughout the process.</p>
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes.</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul>
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.</p>

### Handoff:

On Approve, the task is handed off to the back office (LCDGUAMD) for postings. In the back office, the relevant accounting entries are posted, advises are generated, charges and tax to be collected are posted.

In case there is a failure in Handoff, the task lands to retry handoff queue. The user can manually try to initiate handoff.
