Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Import LC Drawing Islamic

Under an import LC, the beneficiary of the LC after exporting the goods under LC submits the documents under the LC to the nominated bank. The nominated bank scrutinizes/negotiates and forwards the document to the Issuing bank. Issuing bank will lodge the same under import LC Drawing of Islamic process in OBTFPM.

The various stages involved for Islamic Import LC Drawing are:

- Receive and verify documents
- Input Import Drawing details
- Upload of related mandatory and non-mandatory documents.
- Verif/capture details and check documents for Discrepancies-Scrutiny Stage
- Input/Modify details of Import Drawing - Data Enrichment stage
- Check for limit availability if applicable.
- Check balance availability for amount block
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges if applicable
- Capture remarks for other users to check and act
- Hand off request to back office

The Islamic Import LC Drawing process flow is similar to that of conventional Import LC Drawing process flow.

This section contains the following topics:

Common Initiation Stage	Registration
Scrutiny	Data Enrichment
Exceptions	Multi Level Approval
Reject Approval	

Common Initiation Stage

The user can initiate the new import LC drawing request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.

2. Click Trade Finance > Initiate Task.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
LC Reference Number	Select the LC Reference Number.
Branch	Select the branch.

Action Buttons

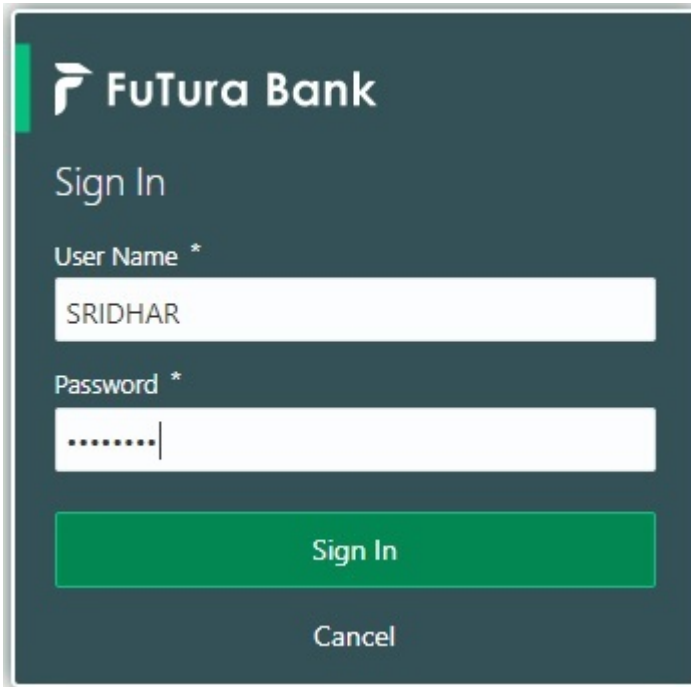

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

User can register a request for an Islamic Import LC Drawing at the front desk. During registration the user captures the basic details of the drawing and upload related documents. On submit of the request, the request should be available for an LC Drawing expert to handle in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

The image shows a login form for FuTura Bank. It features a dark blue header with the FuTura Bank logo and the text "Sign In". Below the header, there are two input fields: "User Name *" with the value "SRIDHAR" and "Password *" with masked characters. At the bottom, there are two buttons: a green "Sign In" button and a white "Cancel" button.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The image shows a dashboard for FuTura Bank. The dashboard is titled "Dashboard" and includes a sidebar with navigation options: Core Maintenance, Dashboard, Maintenance, Tasks, and Trade Finance. The main content area displays several widgets:

- Draft Confirmation Pending:** A table with columns Customer Name, Application Date, and Stage Name. Data rows include EMR & CO (25-06-2018), NA (25-06-2018), and NA (21-06-2018).
- Hand-off Failure:** A table with columns Branch, Process Name, and Stage Name. Data row includes Bank Futura, NA, and Retry HandOf.
- Priority Details:** A table with columns Branch, Process Name, and Stage Name. Data rows include Bank Futura, NA, Amount Blo, and 004, NA, Loan Applic.
- High Value Transactions:** A bubble chart showing transactions for GBP. The y-axis ranges from -20K to 140K, and the x-axis ranges from -2 to 12. There are three large blue bubbles and several smaller ones.
- SLA Breach Details:** A table with columns Customer Name, SLA Breached(mins), and Priority. Data rows include NA (23474, H, KEERTIV01), HSBC BANK (26667, M, SHUBHAM), WALL MART (23495, SHUBHAM), and EMR & CO (26780, M, GOPINATH01).
- Priority Summary:** A table with columns Branch, Process Name, and Stage Name. Data row includes 203, Cucumber Testing, test descrip.
- Hold Transactions:** A table with columns Branch, Process Name, and Stage Name.
- SLA Status:** A widget showing Cucumber Testing.
- Tasks Detailed:** A widget showing Cucumber Testing.

3. Click Trade Finance - Islamic > Import - Documentary Credit > Import LC Drawings Islamic.

The Registration stage has two sections Basic Details and LC Details. Let's look at the details of Registration screens below:

Limits/ Collateral Required	Toggle On: Set the toggle 'On' to enable limit check. Toggle Off: Set the toggle 'Off' to disable limit check.	
Shipping Guarantee Reference	User can link an existing Shipping Guarantee using this field.	

Field	Description	Sample Values
Back to Back LC	Flag to check if the Import LC is a back to back LC. Toggle On: Set the Toggle On if back to back LC is applicable. Toggle Off: Set the Toggle Off if back to back LC is applicable.	
Shipping Guarantee Amount	Shipping Guarantee amount is displayed in this field.	

Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the documents received under the LC.	
Remarks	Provide any additional information regarding the drawing. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Events	On click, system will display the details of LC issuance, amendments (if any), drawings (if any) and liquidations if any under the LC in chronological sequence from LC Issuance.	

Action Buttons

Field	Description	Sample Values
Submit	On submit, task will get moved to next logical stage of Import LC Drawing. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Import LC Drawing Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	

Scrutiny

On successful completion of Registration of an Import LC Drawing request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized for Islamic Import LC Drawing.

As part of scrutiny, the User will enter/update basic details of the Islamic LC Drawing request, check documents for discrepancies and can verify if the request can be progressed further.

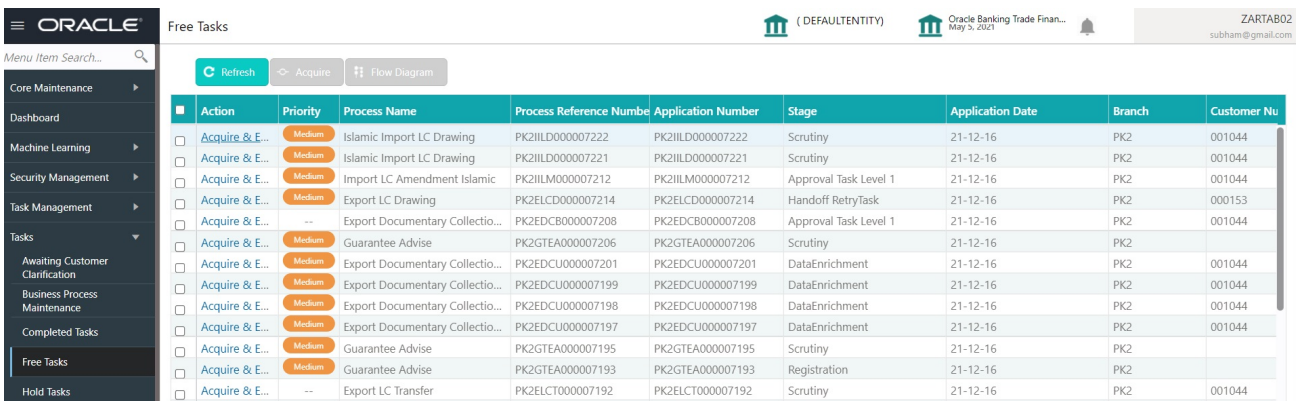

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

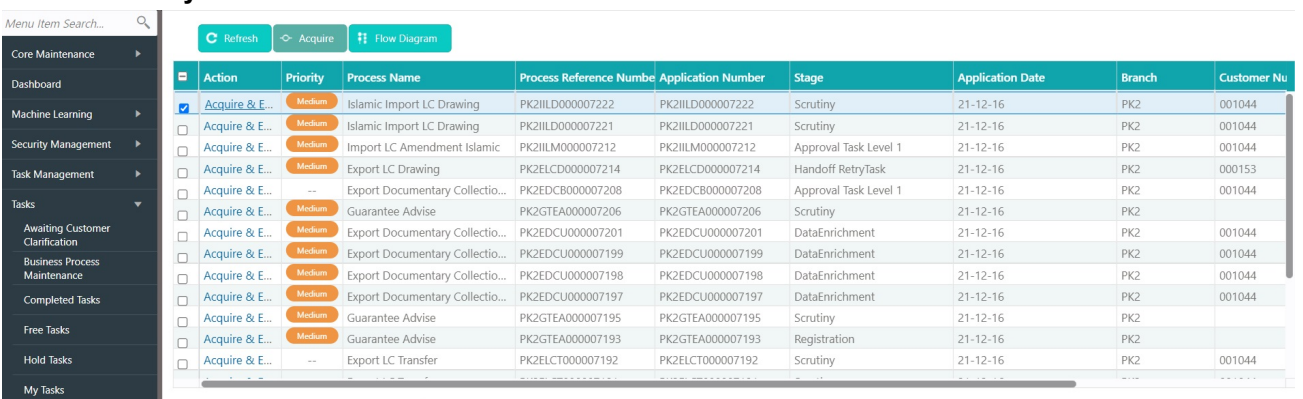

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance > Tasks > Free Tasks.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to scrutinize the registered task.

The Scrutiny stage has the following hops for data capture:

- Main Details
- Document Details
- Shipment Details
- Additional Conditions
- Discrepancy Details
- Maturity Details
- Additional Details
- Summary

Let's look at the details for Scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value from Registration/online channels may not be editable.

Audit - This button provides information about user initiated the transaction, initiated date, stage wise detail etc.

S.No	Stage Name	Pickup Time	Completed Time	Completed By	Outcome
1	Registration	2019-12-02 15:28:28	2019-12-02 15:37:43	SRIDHAR01	PROCEED

Main Details

Main details section has two sub section as follows:

- Application Details
- Drawing Details

Application Details

This section provides a quick snapshot of details of LC. All fields displayed under application details section, would be read only except for the **Priority**. Refer to [Application Details](#) for more information of the fields. This section is collapsible.

Following fields can be amended based on the description provided in the following table:

Field	Description	Sample Values
Priority	User can change the priority defaulted' Values are High, Medium and Low.	High
Submission Mode	Read only field. In case of non online channel, mode captured in Registration stage will be displayed. In case of MT 750, system will display the submission mode as 'SWIFT'.	Desk
Drawing Date	Non online channel - This field displays the value captured in Registration stage if any. SWIFT MT 750 - This field displays the date of receipt of MT750.	04/13/2018
Presenting Bank	System will display the details captured in Registration stage if already captured. SWIFT MT 750- System will populate the presenting bank details from incoming MT 750.	
Presenting Bank Reference Number	Non online channel - As the details are already captured in Registration, user can update the same. SWIFT MT 750. System will populate the presenting bank reference from the incoming SWIFT message.	

Field	Description	Sample Values
Document Received Date	<p>By default, the application will display branch's current date and enables the user to change the date to any back date.</p>  <p>Note Future date selection is not allowed.</p>	

LC Drawing Details

The fields listed under this section are same as the fields listed under the [LC Drawing Details](#) section in [Registration](#). Refer to [LC Drawing Details](#) for more information of the fields. During Registration, if user has not captured input, then user can capture the details in this section.

Following fields can be amended based on the description in the following table:

Field	Description	Sample Values
Tenor Type	<p>Select the Tenor Type from the drop down:</p> <ul style="list-style-type: none"> • Sight • Usance • Mixed 	
Documents Received	Set the document received status as 'Yes' or 'No' from the drop down.	
Document Set	<p>Enables to user to select the number of sets of documents received from the LOV:</p> <ul style="list-style-type: none"> • First • Second • Both 	
Duplicate	If documents received are duplicate and if the drawing is already completed, user can mark this as duplicate and submit.	
Drawing Number	This is auto generated by the back end system.	
LC Drawing Amount	Provide the amount to be drawn in this drawing.	

Field	Description	Sample Values

- Main Details - User can view details about application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
- Document Details - User can view document details.

- Shipment Details - User can view shipment details.
- Additional Conditions - User can view additional conditions of the drawing.
- Discrepancy Details - User can view the discrepancy noted for the current LC drawing.
- Maturity Details - User can view the maturity details.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- Revolving Details - User can view revolving details on revolving LC.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to Upload the required documents. Application will display the mandatory and optional documents.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
Submit	Task will get moved to next logical stage of Import LC Drawing. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. 	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Data Enrichment

Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

FuTura Bank

Sign In

User Name *

SRIDHAR

Password *

.....

Sign In

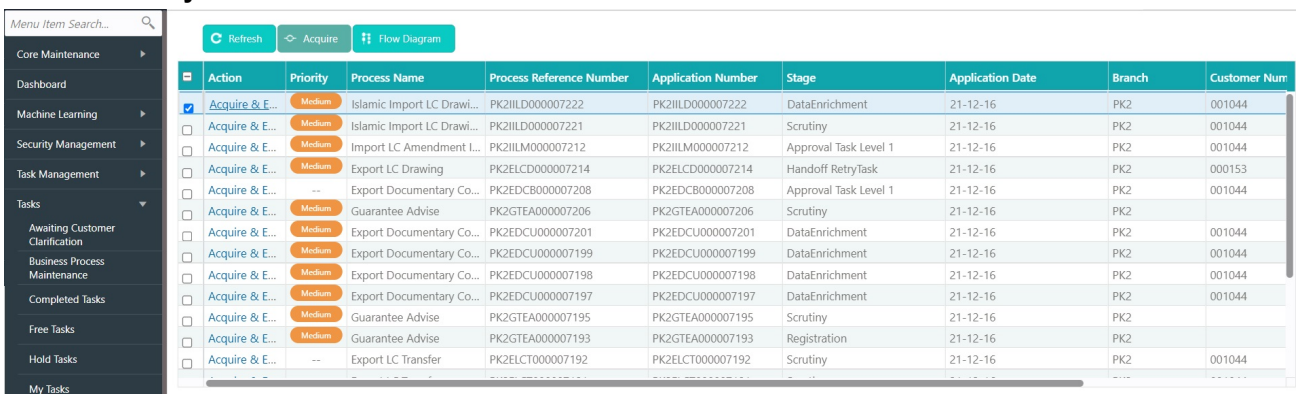

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Tasks> Free Tasks.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

Tracer Receiver Party	Read only field. 'Applicant' will be defaulted as tracer receiver party.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	

FX Linkage

This section enables the user to link the existing FX contract(s) to the drawing. User can link one or more FX deals to a drawing/bill. The linked value of an FX deal(s) must not exceed the value of the drawing/bill.

FX contract linkage with the Drawing/Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the drawing/bill.

Following are the features of FX Linkage in BC.

- FX linkage cannot be linked at Bills at initial stage.

- When a bill is drawn under LC, the details of forward contract linked as a part of the LC, will be defaulted at bill.
- Linked amount will be defaulted against the corresponding FX sequentially.
- User can delink or modify the defaulted FX details at in the Bill.
- Bill maturity date should be greater than or equal to FX Value date.
- Sum of Linked amount will not be greater than Bill contract amount.
- Linked amount will not be greater than the available amount for linkage.
- Current Utilized amount will display the liquidated/purchased/discounted/negotiated amount of Bill contract. It cannot go beyond the linked FX amount.
- When a bill is drawn under LC, delink of FX at BC is allowed only if the linked FX is not utilized by the bill.
- Multiple forward FX contract could be linked and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. The same will be populated in the Average FX Rate

Provide the FX linkage detail based on the description in the following table:

FX Reference Number	Bought Currency	SOLD Currency	Available Contract Amount	Rate	Linked Amount	Current Utilized Amount	Total Utilized Amount	FX Expiry Date	Action
PK2FXF1200760501	EUR	GBP	US\$10,000.00	1.33	US\$10,000.00			28-Jun-2020

Field	Description	Sample Values
Component	This field displays the component maintained in the back office.	
Component Description	This description of the component.	
Rate Type	System defaults the rate type maintained for the component in back office. Value can be: <ul style="list-style-type: none"> • Fixed Floating • Special 	
Rate Code	This field displays the rate code applicable for the Component.	
Min Spread	This field displays the minimum spread applicable for the Rate Code. This field have value only if the Rate Type is Floating .	
Max Spread	This field displays the maximum spread applicable for the Rate Code. This field have value only if the Rate Type is Floating .	
Spread	This field displays the spread applicable for the Component in case of Floating Rate Component. User can change the defaulted value. System validates whether the spread input is within the Minimum to Maximum Spread.	
Min Rate	This field displays the minimum rate applicable for the Rate Code.	
Max Rate	This field displays the maximum rate applicable for the Rate Code.	
Rate	This field displays the value applicable for the Rate Code. User can change the value if the Rate Type is Fixed . System validates whether the Rate input is between the Minimum and Maximum Rate.	
Modified Rate	This field displays the modified rate.	

Field	Description	Sample Values
Special Pricing Reference Number	<p>User can capture the Special Pricing Reference Number, when there is a special Interest rate to be provided for that customer against the interest component (Main Component).</p> <p>Special Pricing Reference is not applicable for Penal Interest components.</p> <p>For transactions initiated from OBDX, the Special Pricing Reference Number will be populated from OBDX and user cannot edit the same.</p> <p> Note</p> <p>System shows an override as “Special Pricing Applicable”, on clicking “Save” in the Interest Details screen, if Special Pricing Reference number has been provided.</p>	
Currency	System defaults the Interest currency in this field.	
Amount	User can input the interest amount, in case the Rate Type is Special , else user can not be able to input the amount. In such cases, the amount will be calculated by back office immediately only if the Interest is collected in Advance or if Back Dated Interest is collected. In that scenario, the Amount will be populated on Re-simulation from back office. Otherwise Interest will be calculated only in the batch as maintained.	
Waive	User can waive the Interest applicable. System displays an override, if the user has waived the Interest.	
Charge Party	<p>System displays the Charge Party based on the type of transaction.</p> <p>In case of Export Transactions, Drawer should be the defaulted Charge Party for Collection Bills and Beneficiary for the LC Bills. In case of Import Transactions, Drawee should be the Charge Party for Collection and Applicant for the LC Bills..</p>	
Settlement Account	<p>System defaults the Settlement Account of the Charge Party for debit of Interest. User can change the value. System should display an error if a different customer is chosen. If different account of the Charge Party is selected, system should display a override.</p> <p>In case the user modifies the Interest Rate, the user should click on Recalculate button to get the modified amount from the back office and display the new Amount.(Recalculation is done in back office and not in OBTFPM).</p>	

Finance Preference

This section enables the user to request for a loan to liquidate the drawing under the LC. This section will be enabled based on the product selected for booking the drawing under the LC.

Provide the loan preference details based on the description in the following table:

Field	Description	Sample Values
Drawing/Collection Ref	Read only field. This field displays the loan product linked to the drawing product.	
Bill Currency-Amount	Outstanding Drawing/ Collection Currency and Amount. Defaults from the underlying task. User cannot change the value.	
Customer ID	Read only field. This field displays the customer ID of the applicant/applicant bank.	
Customer Name	Read only field. This field displays the applicant/applicant bank name.	
Product Code	Defaults from the underlying Collection/ Drawing Product maintenance. User cannot change the value.	
Currency-Amount	Loan currency is defaulted from the bill currency. User can change this to Local Currency. System should display an error message on tab out if the currency selected is not a Bill currency or Local Currency. System populates the loan account based on the outstanding drawing/ Collection amount less the collateral amount. User cannot change the Loan amount.	

Field	Description	Sample Values
Original Exchange Rate	System displays the Original Exchange rate.	
Exchange Rate	Exchange rate applicable for Local Currency. User can enter the Exchange rate. System validates the exchange rate is within the allowed range.	
Tenor Units	Application defaults the loan tenor units based on the product.	
Tenor Type	System defaults the value. User can change the value. Values are Days, Months and Years. The numerical value for Days or months or Years is applicable.	
Rate Type	System defaults the rate type.	
Rate Code	System populates the Rate code as part of simulation.	
UDE Details		
User Defined Element ID	System populates the UDE Element ID as part of simulation. User are allowed to change the selection through LOV.	
UDE Description	System populates the UDE description as part of simulation. If a user changes the UDE ID, system should populate the description.	
Rate Code	System populates the Rate code as part of simulation.	
Usage	System populates the details as part of simulation.	
UDE Value	System populates the value as part of simulation.	
Limits		
Linkage Type	System defaults the linkage type as "Facility" from back office.	
Linkage Reference Number	System defaults the Linkage reference as part of simulation. User can change the value. Linkages available for the customer should be displayed for selection.	
Linked Percentage	User can enter the value. Maximum is 100. User cannot enter negative values.	

Field	Description	Sample Values
Limit Amount	System defaults the value. System should populate the value based on the contribution percentage.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message “ Value Date is different from Transaction Date for one or more Accounting entries.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Submit	Task will get moved to next logical stage of Import LC Drawing. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Data Enrichment stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none">• R1- Documents missing• R2- Signature Missing• R3- Input Error• R4- Insufficient Balance/Limits• R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	

Exceptions

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. The checks to external system/internal system is initiated after the Data Enrichment stage.

The amount Block Earmark and Limit Earmarks, if applicable are also initiated after the Data Enrichment stage.

If a negative response is received for any of the checks, the task lands in respective exceptional queue which require further manual handling/approval.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Application

Refer to [Application Details](#).

Amount Block Exception

This section will display the amount block exception details.

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charge Details - User can view and modify details provided for charges, if required.

Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Multi Level Approval

User can view the summary of details updated in multilevel approval stage of Islamic Import LC Drawing.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Drawing Currency
- Drawing Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

The screenshot displays the Futura Bank application interface. On the left is a navigation menu with categories like Core Maintenance, Dashboard, Maintenance, Security Management, Tasks, and Trade Finance. The main area shows a 'Free Tasks' list with columns for Action, Priority, and Application Number. A modal window titled 'Approval Rekey' is open, featuring tabs for 'Incoming Message', 'Documents', and 'Remarks'. It contains two input fields: 'Drawing Currency' with a dropdown menu showing 'GBP' and a green checkmark, and 'Drawing Amount' with a text input field containing '£100,000.00' and a green checkmark. At the bottom of the modal are 'Proceed', 'Refer', and 'Cancel' buttons. The background table lists various tasks with details like 'Process Name', 'Stage', and 'Back Office Ref No.'.

Application

Refer to [Application Details](#).

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Incoming Message	Displays the incoming message, if any.	
Action Buttons		
Proceed	On proceed, the screen navigates to approval summary screen.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R5 - Others 	
Cancel	Cancel the Import LC Drawing Approval Rekey.
