1.1 Introduction

This manual is designed to help you to quickly get acquainted with the Oracle Banking Corporate Lending Process Management system. It provides an overview to the middle office module and takes you through the various steps involved in handling all the necessary activities in the life cycle of a corporate loan process along with various loan servicing module. This manual is designed to help you create all types of corporate loan.

1.2 Audience

This manual is intended for the following User/User Roles:

- Relationship Managers (RMs)
- Credit Risk Mangers (CRMs)
- Legal
- Back end operation
- Other loan executive staffs in charge of maintaining the loan accounts in the bank.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at

- <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.4 Organization

This manual is organized into the following chapters:

Chapter 1	<i>About this Manual</i> gives information on the intended audience. It also lists the various chapters covered in this User Manual.
Chapter 2	<i>Loan Syndication</i> explains about managing Pre Mandate, Post-Mandate, Closing stages of Loan Syndication Origination and Drawdown.
Chapter 3	<i>Dashboard</i> - OBCLPM dashboards provide various information to the Relationship Managers for their easy access and processing
Chapter 4	<i>Index</i> has alphabetical listing of important topics used in the module with page references for quick navigation.

1.5 Acronyms and Abbreviations

You may find the following acronyms/abbreviations in this manual.

API	Application Programming Interface
BIP	Oracle Business Intelligence Publisher
CAMS	Computer Age Management Services

KYC	Know Your Customer
LOV	List Of Values
OBCLPM	Oracle Banking Corporate Lending Process Management
REST	Representational State Transfer

1.6 Related Documents

For more information refer to the Oracle Banking Corporate Lending Process Management on:

- Configurations for Oracle Banking Corporate Lending Process Management

2. Loans Syndication

Loan Syndication is a lending process in which a group of lenders provide loan to one or more borrowers. Each lender in the syndicate contributes part of the loan amount, and they all share in the lending risk. The loan is governed by a single Loan Agreement. However, each Lender of the Syndicated Loan maintains a separate claim on and bears the credit risk for the respective portion of the loan provided by it.

OBCLPM is capable of managing Pre Mandate, Post-Mandate, Closing stages of Loan Syndication Origination and Drawdown.

OBCLPM has the below processes:

- Pre Mandate Lead Arranger Process – To handle the Bank role to invite Arrangers and to finalize the Mandate with the Borrower.
- Pre Mandate Co-Arranger Process – To support the Lead Arranger to finalize the Mandate with the Borrower.
- Post Mandate Agent Process – To manage the Agency role in Syndication Origination as a continuation of any of the Pre Mandate Process or as standalone process.
- Post Mandate Arranger Process – To manage the Arranger role in Syndication Origination to arrange Participants as a continuation of any of the Pre Mandate Process or as standalone process.
- Post Mandate Participant Process – To manage the Participant role in Syndication Origination.
- Operations Enrichment Process - To capture the details available during the Syndication Origination stages as
 - a continuation of any of the Post Mandate process or as standalone process to handover the details for the creation of Syndicated Deal in the back office.
- Participant Drawdown – to manage Syndicated Loan Participant Drawdown of a participant bank.
- Agency Drawdown – to manage Syndicated Loan Drawdown of an Agent Bank.

This chapter contains the following sections:

- [Section 2.1, "Pre-Mandate Lead Arranger"](#)
- [Section 2.2, "Pre-Mandate Co-Arranger"](#)
- [Section 2.3, "Post Mandate Agent"](#)
- [Section 2.4, "Post Mandate Arranger"](#)
- [Section 2.5, "Participant Process"](#)
- [Section 2.7, "Operations Enrichment"](#)
- [Section 2.8, "Agency Drawdown"](#)
- [Section 2.9, "Participant Drawdown"](#)
- [Section 2.16, "Syndication Payment"](#)
- [Section 2.18, "Natural Language Processing \(NLP\)"](#)

2.1 Pre-Mandate Lead Arranger

Pre-Mandate Lead Arranger Process manages the beginning of the Syndication process until the execution of the Mandate Letter. This process can manage initial analysis of Borrower requirement, Solution Proposal and negotiation with Borrower, Inclusion of Co-Arrangers before or after the Solution Proposal, Obtaining Credit Approvals, Preparation of Mandate

Documents and its execution. Upon Completion of Pre-mandate process, the details will be handed over for the creation of respective Post Mandate Process.

The process flow for Pre-Mandate Lead Arranger undergoes goes the below stages:

1. Entry

Pre-Mandate process starts with the bidding from the Borrower or the Bank approaching the Borrower User capture the basic details such as Borrower Information, Borrower Related Parties, Syndication Requirement, Expected Collateral value. Borrower and Borrower Related parties will be to Borrower on-boarding team to start the Borrower evaluation process. If more than one Borrower and related parties are there, then that many process will be initiated.

2. Review Pre Analysis

User will wait for the response from Borrower domain to get the initial analysis on the parties. Based on the response user will take the appropriate decision to proceed. Up on proceeding with the syndication application will create a task with internal legal department to prepare or review the draft Confidentiality Agreement (NDA).

3. NDA Preparation

Internal legal teams prepare and share the draft Confidentiality Agreement (NDA).

4. NDA Scrutiny

Up on receipt of draft NDA from the legal with their respective comment, user will send the NDA to the Borrower for review after the Scrutiny. If any amendments required, then the document will be sent back to the Legal team for modification. User will be able to send multiple advises at this stage with attaching the different versions of the NDA.

5. Borrower Review - NDA

Borrower reviews and sign the NDA if the Borrower is agreeable with the format else sends the borrower comments to the Legal for modification of the draft. (Execution of the documents takes place outside the system and Loans will only track the status of the Document).

6. Initiate QE

Once the NDA is signed, the user initiates quick evaluation on the customer with the Credit System and waits for the evaluation results or user himself performs the evaluation in credit system. User will be able view the status of the evaluation and will receive the result of the evaluation.

7. Review QE and Solution Structuring

Upon reviewing the customer evaluation, the user will take a decision to proceed with the syndication and draft a solution. Also the user will take a decision to proceed with the arrangers or not. If the Arranger Invitation DS is filled at least with one arranger then the application will trigger a different flow, in which the user will invite the arrangers to participate and help in providing the solution.

8. Solution Firming

This decision will be reviewed by the approver. Approver can either approve the solution or cancel the application or proceed with the application in two ways one with co-Arranger and one without Co-arranger. If the process is without co-arrangers, then after the solution firming approval, user can send the solution to the borrower or modify the solution or cancel the application.

9. Solution with Arrangers

If any arranger details are captured other than the home bank, then user will be able to follow this process. Send invitation to the Arrangers captured in the Arranger Invitation data segment. Advice will be sent to the Arrangers along with Confidentiality Agreement (NDA). User will wait for the response from arrangers. User will be able to track the acceptance response and the status of NDA execution. Also will be able to send the reminders.

For the arrangers which are shown interest in the syndication and returned the signed NDA, the user will be able to send the additional details about the Borrower. Advice will be sent to the Arrangers with attachments. (Inter stage advises). For arrangers which are responded with not interested can mark as rejected. User will be able to capture more arrangers if required other than the invitations send earlier.

10. Solution Restructuring

All the above activities performed in the previous stage will be reviewed by the Approver and every action will be processed after the approval at this stage. User proceed to prepare the Proposal in coordination with the Arrangers (These discussions are outside the system and only proposal is captured in the system). After the solution firming approval, user can send the solution to the borrower and arrangers or modify the solution or cancel the application.

User can send the solution to the Borrower and arrangers and wait for the Borrower response.

11. Customer Acceptance

In this user can follow up with the Borrower if no response. Advice will be sent at this stage (Inter stage). Modify the proposal based on the comments from the Borrower. Cancel the application if the Borrower is not agreeing with the Proposal. Advises will be sent to borrower and arrangers. Proceed with the next phase Pre-Mandate once the proposal is finalized with the Borrower. Advises will be sent to borrower and arrangers.

12. Arranger Invitation

Once the proposal is agreed with the Borrower, the user can proceed with the syndication with co-arrangers if not included already. This stage will be occurred only if the user decided to proceed with co-arrangers and the co-arrangers are not selected before the solution proposal. This flow is not applicable if the arrangers are already finalized.

Capture the details of the Arrangers and send the invitations to the selected arrangers. Advice to be sent to the Arrangers along with Confidentiality Agreement (NDA). Up on sending the invites, user will come back to the Arranger invite stage to track the responses from the arrangers. User will be able to track the acceptance response and the status of NDA execution. Also will be able to send the reminders.

For the arrangers which are shown interest in the syndication and returned the signed NDA, the user should be able to send the additional details about the Borrower. Advice to be sent to the Arrangers with attachments. (Inter stage advises). For arrangers which are responded with not interested should mark as rejected. User will be able to capture more arrangers if required other than the invitations send earlier.

Once all the arrangers signed the NDA, user will be able to proceed to the next stage or user will be able to take decision to proceed with the responded arrangers. User will intimate the Arrangers regarding the finalization of arrangers.

13. Approval

All the above activities performed in the previous stage will be reviewed by the Approver and every action will be processed after the approval at this stage.

14. Arranger Commitment Confirmation

At this stage user will conduct the arranger meeting and capture the proposed amount from each arranger for their participation. Meeting will be outside the application.

User will also finalize the syndication party roles of each arranger.

Upon discussion with the arrangers, user will finalize the allocation for each arrangers and send for the approval.

If the Co-arrangers are finalised before Customer acceptance of the solution, then the process will starts from this stage. Also if the Lead Bank is proceeding without any co-arranger, then the process will starts from this stage.

15. Allocation Approval

If the approver is not agreeable to the allocation, the user will redo the allocation.

Upon finalization of the allocation user will initiate the credit approval for self Arranged portion if the syndication arrangement is underwriting.

16. Review Credit Approval

If the Credit approval is not received for the self-allotted amount then the user should go back and redo the allocation. Once the Credit approval is obtained, finalized allocation information will be sent to the Arrangers. Advises will be sent to the Arrangers.

If the self arrangement is on Best effort basis, then no credit approval is required and the user will be able to initiate the preparation of the mandate document with the help of internal legal upon finalization of the allocation.

17. Prepare Mandate Docs

Internal legal prepares the Mandate documents and sends to the user for review.

18. Mandate Docs Scrutiny

User do the scrutiny of the documents and sends back to the legal if any modification required. Else the user send the documents to the arrangers for their review. Advice will be sent to the Arrangers.

19. Arranger Comments

User will wait for Arrangers comments on the mandate documents and if the arrangers are not agreed with the mandate documents, then the user will send the mandate documents to the internal legal for modification. Once the Arrangers agree on the mandate documents, then the mandate documents will be send to the Borrower for the review. Advice will be sent to the Borrower.

20. Borrower Review - Mandate Docs

If the Borrower is not acceptable with the mandate documents the same will be sent to the internal legal for amendments along with the comments from the Borrower. Cancel the application if Borrower is not interested. If the Borrower agrees with the mandate documents then the mandate documents will be sent to all the parties for execution. Advises will be sent to all the parties.

21. Execution Status

User will track the status of the execution of mandate documents from all the parties. User will send the fully executed documents to all the parties. Advice will be sent. With this the pre-mandate stage will be closed.

Initiating Pre-Mandate Lead Arranger

The basic registration details for Pre-Mandate Lead Arranger for a prospective borrower can be initiated using this Initiation Screen, provided the user has the required access rights.

Initiate

How to initiate a Pre Mandate Arranger:

1. In the Pre Mandate Arranger screen, provide the required details:

Basic Details

- Business Product: Click Search to view and select the required business product.
- Application Date: Select an effective application date from the drop-down calendar. The system defaults the current system date as the application initiation date.
- Priority: Click High/Medium/Low button as per the priority.

Click **Initiate** to begin the process.

2.2 Pre-Mandate Co-Arranger

Pre-Mandate Co-Arranger Process manages the beginning of the Syndication process until the execution of the Mandate Letter along with the Lead Arranger. This process can manage initial analysis of Borrower requirement, Solution Proposal and negotiation with Borrower, Obtaining Credit Approvals, Preparation of Mandate Documents and its execution. Upon Completion of Pre-mandate process, the details will be handed over for the creation of respective Post Mandate Process.

The process flow for Pre-Mandate Co-Arranger undergoes goes the below stages:

1. Entry

Pre-Mandate Co-Arranger starts with the receipt of the invitation from the Lead Bank, to join the arrangement of the Syndication. User capture the basic details such as Borrower Information, Borrower Related Parties, Syndication Requirement, Expected Collateral value. Borrower and Borrower Related parties will be to Borrower on-boarding team to start the Borrower evaluation process. If more than one Borrower and related parties are there, then that many process will be initiated.

2. Review Pre Analysis

User will wait for the response from Borrower domain to get the initial analysis on the parties. Based on the response user will take the appropriate decision to proceed. If the decision is to proceed with the Syndication, user signs the NDA and send the acceptance confirmation to the Lead Bank. Else confirm the rejection. Advice will be sent along with attachments. User waits for the additional details to receive from the Lead Bank.

3. Initiate QE

Up on receipt of the additional details, the user initiates quick evaluation on the customer with the Credit System and waits for the evaluation results or user himself perform the evaluation in credit system. User will be able view the status of the evaluation and should receive the result of the evaluation.

4. Review QE

Upon reviewing the customer evaluation, the user will take a decision to proceed with the syndication or not.

5. Approval

This decision will be reviewed by the approver. Approver can either approve the solution or cancel the application or proceed with the application. Advice will be sent to the Lead bank confirming the outcome.

6. Solution Structuring

If the Syndication Solution has already agreed by the Borrower with the Lead Bank, then the user will move to the Commitment Confirmation Stage. If the solution is not finalized, then the user will finalize the solution in discussion with the Lead Bank.

7. Solution Firming

Approver can approve the agreed Syndication Solution or reject. Once the solution finalized and agreed by the Borrower, then the user will move to the Commitment Confirmation Stage

8. Commitment Proposal

At this stage user will up on discussion with the Lead Bank and other Co-Arrangers if any, user will finalize the commitment allocation for the Co-Arranger and send for the approval.

9. Commitment Approval

If the approver is not agreeable to the allocation, the user should redo the allocation. Upon finalization of the allocation user will initiate the credit approval for self Arranged portion if the syndication arrangement is underwriting.

10. Review Credit Approval

If the Credit approval is not received for the self-allotted amount then the user should go back and redo the allocation. Once the Credit approval is obtained the user will be able to communicate the Proposed Arranged amount to the Lead Bank and move to the next stage to wait for the confirmation from the Lead Bank. Advice will be sent to the Lead Bank.

If the self arrangement is on Best effort basis, then no credit approval is required and the user will be able to communicate the Proposed Arranged amount to the Lead Bank and move to the next stage to wait for the confirmation from the Lead Bank. Advice will be sent to the Lead Bank.

If no credit approval then cancel the application if the arrangement is underwriting.

11. Commitment Confirmation

User reviews the Arrangement allocation from the Lead Bank. If there is any difference in the allocation then the user will redo the allocation else move to the next stage to wait for the Mandate Docs. If no allocation cancel the application. User will also finalize the syndication roles of each arranger.

12. Mandate Docs Review

User receives the Draft mandate Docs from the Lead bank and send the same for the review of the internal legal.

13. Docs Review by Legal

Internal Legal Team reviews the documents and provides the comments.

14. Review Legal Comments

Up on receipt of the Legal comments, user sends the comments to the Lead Bank. Advice will be sent to the Lead bank along with attachments.

15. Document Execution

Up on receipt of execution version of the Docs, then the user will be able to move to the signing stage if there is no comments on the documents. If the Docs are not agreed by the Borrower then cancel the application.

User execute the documents and send the signed copy to the Lead Bank for consolidation. Advice will be sent along with attachments.

16. Track Executed Docs

User will track the receipt of fully executed documents.

With this the pre-mandate stage will be closed.

Initiating Pre-Mandate Co-Arranger

How to initiate a Post Mandate Agent:

1. In the **Post Mandate Agent** screen, provide the required details:

Basic Details

- Business Product: Click Search to view and select the required business product.
- Post Mandate Ref No.: Enter the reference number. (Only if the Syndication Origination is managed by OBCLPM).
- Application Date: Select an effective application date from the drop-down calendar. The system defaults the current system date as the application initiation date.
- Priority: Click High/Medium/Low button as per the priority.

Click **Initiate** to begin the process.

2.3 Post Mandate Agent

Post Mandate Agent process manages agency related activities of the Agent post assuming the role of an Agent after the execution of the Mandate Letter. This process manages the Preparation of Transaction Documents, Co-ordination with Arrangers and participant Banks, KYC of all the syndication parties, Execution of Transaction Documents and Condition Precedent Satisfaction. Upon completion of the Origination process, the details will be handed over to Operations Enrichment Process for the creation of Facility and Tranches in OBCL.

The process flow for Post Mandate Agent undergoes goes the below stages:

1. Entry

The data available during the Pre Mandates will be automatically fed in or captured manually. The user captures the additional data required. User captures the details and send the details to the Legal Counsel for the preparation of the Transaction Docs.

2. Transaction Docs Scrutiny

The user reviews the draft transaction docs. If any amendments required, it is send back to the legal counsel. If no amendments required, then send it to arrangers for review.

3. Arranger Comments Review

After the arrangers review, the arranger comments are reviewed. If any amendments required, it is send back to the legal counsel. If no amendments required, then send it to Borrower for review.

4. Borrower Comments Review

After the Borrower's review, the Borrower comments are reviewed. If any amendments required, it is send back to the legal counsel. If no amendments required, then final allocation of lenders is checked.

5. KYC and Allocation Verification

After the docs is finalized, final allocation of lenders, KYC and all the internal departmental approvals are checked for completion. If the allocation is not finalized, send back to legal with the finalized allocation. If KYC completion and internal department's approvals are pending, then user will wait until these are completed. Completion of KYC and internal departmental approvals are outside OBCLPM.

6. Transaction Docs Execution

After the KYC of all parties, all the internal departmental approvals and final allocation of lenders are in place, send Transaction docs to all the parties for execution. The user will track the execution status of all the docs for all the parties. After sending executed docs to all the parties, data is handed off to the operations team for creation of Facility and Tranche.

7. Review Condition Precedent Satisfaction

User will wait for the Condition Precedent to be satisfied, after satisfaction send it for approval.

8. Approve Condition Precedent Satisfaction

If Condition Precedent Satisfaction is satisfied. The user will approve it and then with this Post Mandate Agent process will end.

Initiating Post Mandate Agent

- Priority: Click High/Medium/Low button as per the priority.

Click **Initiate** to begin the process.

2.4 Post Mandate Arranger

Post Mandate Arranger process helps the Bank to manage role of an Arranger post executing the Mandate Letter. This process involves the Syndication Invitation to the Participant Banks, Participation Allocation, Risk Review for self-participation, KYC, Internal Approvals, Execution of Transaction Docs and Condition Precedent confirmation. Upon completion of origination process, the details will be handed over to the Operations Enrichment Process accordingly.

The process flow for Post Mandate Arranger undergoes goes the below stages:

1. Entry

The data available during the Pre Mandates will be automatically fed in or captured manually.

Movement of this stage will create two parallel processes for the user and which will be worked separately.

- Participant Allocation
- Transaction Documents Review

Participant Allocation can be processed in two ways:

- Proceed with Additional Participants
- Proceed without Additional Participants

For Proceed without Additional Participants, User will move to the Participant Allocation stage after entry.

Process flow for Proceed with Additional Participants undergoes goes the below stages:

2. Participant Invitation

User will capture the details of the Participants and send the invitations to the selected Participants. After sending the invites, user will track the responses from the Participants and the status of NDA execution.

3. Approval

User will send the additional details about the Borrower to the Participants, who has shown interest in the Syndication and returned the signed NDA. For Participants, who has responded with not interested should be marked as rejected. If required, user should capture more Participants, other than the ones invited earlier.

4. Participant Commitment Confirmation

Once all the Participants sign the NDA, user will decide to proceed to next stage or to proceed with the responded Participants. Finalization of Participants will be intimated to the Participants. User will then move to the Participant Allocation stage. User will capture the proposed amount from each Participant for their participation. After discussion with the Participants, user will finalize the allocation for each Participant and send for the approval.

5. Allocation Approval

The approver will review the allocation. If the approver does not agree to the allocation, the user should re-allocate. On finalization of the allocation user will initiate the credit approval request for self-participant portion with CFPM. If there is self-participation for the Arranger, ensure there is self-participant commitment allocation given.

6. Review Credit Approval

The credit response will be reviewed. If the Credit approval request is rejected for the self-allotted amount, then the user should re-allocate. Once the Credit approval is obtained, the user will proceed to the next stage after sending the notice to the Participants. If there is no self-participation, then no credit approval is required and the user will to move to the next stage after sending the notice to the Participants.

7. KYC and Internal Approvals

8. The user checks KYC and all the internal departmental approvals for completion. Completion of KYC and Internal departmental Approvals are outside this application. If KYC and Internal departments are pending and the docs are not in order, then user should wait until it is confirmed.
9. Track Executed Docs

The user will track the execution status of all the docs and check if the same bank is managing the Agency role and if there is self-participation for arranger. If there is no self-participation, then the process will end. If the arranger is self-participant and playing the role of the Agent, then move to Receive Condition Precedent Satisfaction. If the arranger is self-participant and the Agent is different, then hand over the data to the Operations Enrichment and move to Receive Condition Precedent Satisfaction.

10. Receive Condition Precedent Satisfaction

User will wait for the Condition Precedent to be satisfied, after satisfaction send it for approval. After Condition Precedent Satisfaction is satisfied. The user will approve it and then with this Post Mandate Arranger process will end.

Transaction Documents Review

This will be managed as a parallel process. Process flow for Transaction Documents Review undergoes goes the below stages:

1. Transaction Docs Review

User will receive the Draft mandate Docs from the Agent and will send it to internal legal for review.

2. Docs Review by Legal

The docs is reviewed by the internal legal and the response is given to the RM

3. Review Legal Comments

The legal comments are reviewed. If any amendments required, then the user will send it to Agent to make the changes. On receipt of execution version of the Docs, with no further comments on the documents, the user should move to the KYC and Internal Approvals stage.

Initiating Post Mandate Arranger

The basic registration details for Post Mandate Arranger for a prospective borrower can be initiated using this Initiation Screen, provided the user has the required access rights.

How to reach here:

Corporate Lending > Operations > Syndication > Post Mandate Arranger

How to initiate a Post Mandate Arranger:

1. In the Post Mandate Arranger screen, provide the required details:

Basic Details

- Business Product: Click Search to view and select the required business product.
- Post Mandate Ref No.: Enter the reference number. (Only if the Syndication Origination is managed by OBCLPM).
- Application Date: Select an effective application date from the drop-down calendar. The system defaults the current system date as the application initiation date.
- Priority: Click High/Medium/Low button as per the priority.

Click **Initiate** to begin the process.

2.5 Participant Process

Participant Process handles Syndication Facility Origination process for Bank as Participant. This includes Syndication Invitation from the Arranger, Due diligence of the Borrower, KYC, Risk review, Participation decision and Transaction document execution. Upon completion of the Origination process, the application will hand over the details to Operations Enrichment Process for the Operation user to enrich and handover to OBCL.

The process flow for Participant process undergoes goes the below stages:

1. Entry

The user captures the borrower information and related party details manually. Borrower and Borrower Related parties details should be send to the Borrower on-boarding team to start the Borrower evaluation process.

2. Review Pre Analysis

The user reviews the borrower information and related party details. After review of the Borrower details, the user will decide to proceed with the Participation or to terminate the process. To proceed with the participation, user will confirm the interest to the Arranger along with the signed NDA.

3. Review Additional Details

The user will have to wait for the additional details about the facility including Terms Sheet. After review of the details received, user will propose the intended participation amount for approval.

4. Approval

The intended participation amount is reviewed for approval. If no amendments required, then the data is send for credit approval. If any amendments required, then send back to Review Additional Details. The user initiates credit request with CFPM.

5. Review Credit Approval

The credit response is reviewed and the user will decide to proceed with the Participation or to terminate the process. To participate, user sends confirmation to the arranger.

6. Commitment Allocation

User waits for the allocation confirmation from the arranger. If the allocation is not done, then the application will be cancelled or user will proceed to receive the draft transaction docs from the agent. If the user accepts the allocation, then the agent is informed.

7. Transaction Docs Review

The transaction docs are reviewed and send to the internal legal team for their review.

8. Docs Review by Legal

The docs is reviewed by the internal legal. Legal provides the comments to the Business user for their review.

9. Review Legal Comments

The legal comments are reviewed and communicated to the Agent. If no amendments required, then move to KYC and Internal Approvals. If any amendments required, then it is communicated to the agent and wait for the amended documents.

10. KYC and Internal Approvals

KYC of all parties are checked to be complete. In addition, all the internal departmental approvals are checked to be in place. If KYC completion and internal department's approvals are pending, then user will wait until these are completed. Completion of KYC and internal departmental approvals are outside OBCLPM. If the KYC of all parties and all the internal departmental approvals are in place, then proceed for Document execution.

11. Track Executed Docs

The executed docs is tracked. If the participant bank is managing the Agency role, then the data will be handed off to OBCL. If the participant bank is not an agent, then the data is handed off to the operations team for creation of Facility and Tranche. Post data hand off if the Condition Precedent is not satisfied, then it is moved to Review Condition Precedent Satisfaction.

12. Review Condition Precedent Satisfaction

User will wait for the Condition Precedent to be satisfied. After satisfaction, the user will approve it and then with this participant process will end.

Initiating Participant Process

The basic registration details for Participant Process for a prospective borrower can be initiated using this Initiation Screen, provided the user has the required access rights.

How to reach here:

Corporate Lending > Operations > Syndication > Participant Process

Participant process In-Country Ret... (Apr 1, 2015 REVGANES1

Basic Details

Business Product *

How to initiate a Participant Process:

1. In the Participant Process screen, provide the required details:

Basic Details

- Business Product: Click Search to view and select the required business product.

- Post Mandate Ref No.: Enter the reference number. (Only if the Syndication Origination is managed by OBCLPM).

- Priority: Click High/Medium/Low button as per the priority.

Click **Initiate** to begin the process.

2.6 Participant Transfer

Participant Transfer is the process of allocating the Participants Commitment between the existing Participants or with a new Participants. This process also supports the removal of an existing Participant by allocating their commitment to another existing or new Participant. This process helps the user to amend the Participants commitment based on the amended Facility Agreement.

Initiating Participant Transfer Process

Participant Transfer Process can be initiated by giving the basic registration details in the Initiation Screen, provided the user has the required access rights.

How to reach here:

Corporate Lending > Operations > Syndication > Participant Transfer

The screenshot displays the 'Participant Transfer' initiation screen. At the top, there are navigation icons and user information: '(DEFAULTTENITY)', 'FIELD OFFICE (DMQ) Apr 1, 2015', and 'BINLMAI1M7 @mail.com'. The main content is organized into three sections:

- Basic Details:** Contains four input fields: 'Borrower Number *' (BR001), 'Borrower Name' (Octasun Corporation INC), 'Business Product Code *' (WCLN), and 'Application Date *' (Apr 1, 2015).
- Facility Details:** Displays three contract cards. The first two are blue and the third is green with a checkmark. Each card shows:
 - Contract Reference No. (e.g., DMOBFDI15091AKUC)
 - Facility Amount (e.g., \$350,000,000.00)
 - Available Amount (e.g., \$350,000,000.00)
- Tranche Details:** Displays one red tranche card showing:
 - Facility Name (DMOBFDI15091AKUC)
 - Tranche Amount (\$400,000,000.00)
 - Available Amount (\$400,000,000.00)

1. In the Participant Transfer Process initiate screen, provide the required details:

Basic Details

- Customer Number: Select the Borrower for which the Participant Transfer to be made.
- Business Product: Click Search to view and select the required business product.

- Application Date: System date will be defaulted as application date.
 - Facility Details: Select the applicable Facility listed upon selecting the Borrower.
 - Tranche Details: Select the respective Tranche under the Facility
2. Click Initiate to begin the process.

The process flow for Participant Transfer Process undergoes the below stages:

1. Participant Transfer Entry

User will be able to make the input at the entry stage. User can view the details about the existing Tranche Participants and will be able to amend the respective data segments to amend the Parties or Participants Commitments or related details.

Below Data Segments will be used in this stage.

Parties

Existing Parties details will be defaulted and user will be able to add or remove Participants in the Parties data segment, however user should not add or remove any parties other than the Participants

Tranche Details

Existing details of the Tranche will be defaulted and user should not make any changes to the Tranche Details.

Additional Tranche Details

Existing details of the Tranche will be defaulted and user should not make any changes to the this data segment.

Lenders Commitment

Participant share of the existing Tranche will default in this data segment and user can amend the details to reflect change in Participant commitment.

Entity Details

Details of the existing Participants will default in this data segment and user can make changes if any Participant is included or removed.

Settlement Details

Details of the existing Participants will default in this data segment and user can make changes if any Participant is included or removed.

2. Participant Transfer Approval

User will be able to review and approve all the details captured in the previous stage. If any corrections to be done in the data captured in Entry stage, user will be able to send back the application to the Entry stage for correction. Upon approving the application, OBCLPM will hand over all the information to OBCL. With this hand off OBCLPM will be able to amend the existing Tranche in OBCL with the details captured in the Entry stage.

Below Data Segments will be used in this stage as read-only and User will be able to review all the details in the data segment and will not be able to edit any details.

- Parties
- Tranche Details
- Additional Tranche Details
- Lenders Commitment
- Entity Details
- Settlement Details

2.7 Operations Enrichment

Operations Enrichment is the process to capture the details available during the Syndication Origination stages as a continuation of any of the Post Mandate process or as standalone process to handover the details for the creation of Syndicated Deal in the back office. Capturing of details can occur in the following ways:

- As a continuation of Post Mandate process, if the Syndication Origination is managed by OBCLPM, then the required data segments are filled in automatically.
- Syndication Origination details are captured manually.
- Back office specific details are captured manually.

The process flow for Operations undergoes goes the below stages:

1. Entry

The data available during the Syndication Origination will be automatically fed in or captured manually. In addition, the user reviews the prefilled data and amends it if required.

2. Operations Enrichment

The user captures the additional data required for the back office.

3. Approval

The loan details are reviewed for approval. If pre-filled data is not edited and no amendments required, then the data will be handed off to OBCL.

If any of the pre-filled data is edited, then send for Exceptional Approval.

If any amendments required, then send back to Entry. Post hand off if the Condition Precedent is not satisfied, then it is moved to Review Condition Precedent Satisfaction.

4. Review Condition Precedent Satisfaction

User will wait for the Condition Precedent to be satisfied, after satisfaction send it for approval.

5. Approve Condition Precedent Satisfaction

If Condition Precedent Satisfaction is satisfied. The user will approve it and then with this Operations Enrichment process will end.

Initiating Operations Enrichment

The basic registration details for Operations Enrichment for a prospective borrower can be initiated using this Initiation Screen, provided the user has the required access rights.

How to reach here:

Corporate Lending > Operations > Syndication > Operations Enrichment

Basic Details

Business Product *	Post Mandate Ref No.	Application Date *	Priority
<input type="text" value=""/> <input type="button" value="🔍"/>	<input type="text" value=""/> <input type="button" value="🔍"/>	<input type="text" value="Apr 1, 2015"/> <input type="button" value="📅"/>	<input checked="" type="button" value="High"/> <input type="button" value="Medium"/> <input type="button" value="Low"/>

How to initiate an Operations Enrichment:

1. In the Operations Enrichment screen, provide the required details:

Basic Details

- Business Product: Click Search to view and select the required business product.
 - Post Mandate Ref No.: Enter the reference number. (Only if the Syndication Origination is managed by OBCLPM).
 - Application Date: Select an effective application date from the drop-down calendar. The system defaults the current system date as the application initiation date.
 - Priority: Click High/Medium/Low button as per the priority.
2. Click **Initiate** to begin the process.

2.8 Agency Drawdown

Agency Drawdown is a process in which the borrower will submit the Drawdown notice to Agent Bank to arrange the funds on a certain date. Agent bank will perform its due diligence on the Drawdown Notice and if satisfied then proceeds will be send to Borrower on the given date.

The process flow for Drawdown Agency undergoes the below stages:

1. Entry

In this stage, Agent bank will capture the funding requirement and perform the due diligence on the Drawdown notice received in form of PDF from the customer. Agent bank will also verify if all the Condition precedent along with Further Condition precedents and Drawdown Conditions has been satisfied.

2. Verification

All the data gathered in the previous stage will be checked and verified. If data input is incorrect, then the verifier can reject the application or send it back for correction. If the verifier is satisfied with all the data, then he can proceed. While submitting the stage all the notice configured will be generated and send to respective parties. In case of any discrepancy, bank will revert to borrower for more details or will move to next stage.

3. Treasury Rate

If agent is also participating as one of the lenders to the deal and has to cover exposure, then for the same amount treasury ticket to be booked. Treasury reference number and rate will be captured.

4. Enrichment

Under this stage, bank can configure additional data segment to capture more data which are required.

5. Funds Recon

Bank will send out the notices to all the lenders to arrange the funds on a Drawdown date. In addition, tracking for the lenders reply slip, if not received then reminder to be send.

Agent will reconcile each lenders share in Drawdown shares. If funds not received then reminders would be sent.

6. Exceptional Settlement Risk Approval

If the funds from any lender is not received or sighted, then Intra-day Risk approvals for funds will be arranged. User will request for intraday approval, if any lender has not sent the funds on DD date.

7. Exceptional Compliance Approval

In case of Drawdown, a Sanction check is performed on borrower. If any hits are found, then compliance approval can be obtained.

8. Approval

Post all the above step application will land into the final approval. After the approvals, cash will be remitted to the Borrower, before currency cut off.

Initiating Agency Drawdown

1. In the Payment Process screen, provide the required details:

Basic Details

- Customer: Select the Borrower for which the Loan payment to be made.
 - Facility Reference Number: Select the Facility Reference Number
 - Tranche Reference Number: Select the respective Tranche under the Facility
 - Contract Reference Number: Upon searching the contracts under the Facility and Tranche select the Loan Contract
 - Business Product: Click Search to view and select the required business product.
 - Effective Date: Select an effective application date from the dropdown calendar. The system defaults the current system date as the application initiation date.
 - Priority: Click High/Medium/Low button as per the priority.
2. Click Initiate to begin the process.

2.17 Consolidate Rollover

User can consolidate one or more contracts into a single parent contract. This can be done through the Consolidation Rollover menu under syndication module. User can initiate the process flow and the application will move through various stages of the business process flow. The process of consolidate rollover can be initiated by the Relationship Manager or any bank user (with relevant rights).

The list of stages that are required for a Consolidate Rollover process will be pre-defined in Conductor process and the data segments that are applicable for every stage can be configured in Business Process maintenance. Based on this setup, system derives the process flow for every loan application.

The process flow pre-defined for Consolidate Rollover is provided for quick reference:

1. Consolidation Rollover Entry
2. Consolidation Rollover Approval
3. Retry Consolidation Rollover Handoff

How to initiate Consolidation Rollover Process Flow:

1. In the Consolidation Rollover screen, provide the required details:

Basic Details

- Borrower Number: Click Search to view and select the required Customer Identification number or you can also type the Customer Number.
- Customer Name: Based on the Customer Number selected, the information is auto-populated.
- Business product: Click Search to view and select the required Business product. Based on the
- Business product, system derives the following details to process the loan application:
 - Applicable stages and its data segments
 - Required documents and checklists
 - Stage level advices
- Application Date: Select an application date from the drop-down calendar. The system defaults the current system date as the application initiation date.

Facility Details

Displays the list of all facilities that are created for the Customer Number. You can select the appropriate Facility ID.

Tranche Details

Displays the list of all tranches under the facility that are created for the Customer. You can select the appropriate tranche ID under which the loans to be consolidated.

2. Click **Initiate** to begin the process.

On submit of the screen, a unique Application Registration number will be auto generated by the system, which are used throughout the process and for further tracking.

Based on the user rights the system will navigate the user to the first manual stage of the process flow.

Data Segments

Provides information about the usage of data segments that are configured at each stage. Every data segment can be configured as a mandatory or non-mandatory at Business Process Code maintenance based on the business product code defined. Each data segment has the following action buttons.

- Back: System will move the task to the previous segment.
- Next: System will move the task to the next screen. If mandatory fields are not entered, system will display error.
- Save and Close: You can save and close the task and reopen it to work later.
- Cancel: You will be able to cancel the task window and return to dashboard. The data input will not be saved.

Each data segment has the option to upload the specific documents required for the application.

Below are the sample date segment which can be configured for this process flow.

2.18 Natural Language Processing (NLP)

NLP is a process in which the system identifies the document id, document type and content from an uploaded file and initiates the respective process.

The process flow for NLP undergoes goes the below stages:

1. When a document is uploaded from or a poller receives a document of loan processing type NLP framework will initiate the NLP process from syndication service with the document id (from document management system), document type and document content.
2. These data will be stored in NLP Data Segment. During this initiation, the process will land in a system task called Enrich NLP Details. Enrich NLP will extract the values along with the request and identify the respect business values for the extracted tags and also will enrich the information.

3. Once the enrich identifies all the business values for the tags then data would go to the decision.

If it is successful, then it will initiate the respective process using the enriched values. And the workflow ends.

If it is failure, then process will land in the manual correction. User will have the NLP values that separate during the initiation process. User will manually update the missing values and proceed.

4. The enrich values will be updated, with that the NLP framework will mark the document against the application for Transaction log update task and will continue to initiate the process.

With this the workflow will end.

5. On failure, it will land in Manual Retry stage. In this stage, the user will retry the data. User will also check the NLP details again for correction. Then again the Transaction Logs will be updated.

On failure of initiation, it will land in decision. In the manual stage, if the user gets cancel then the workflow will be terminated.

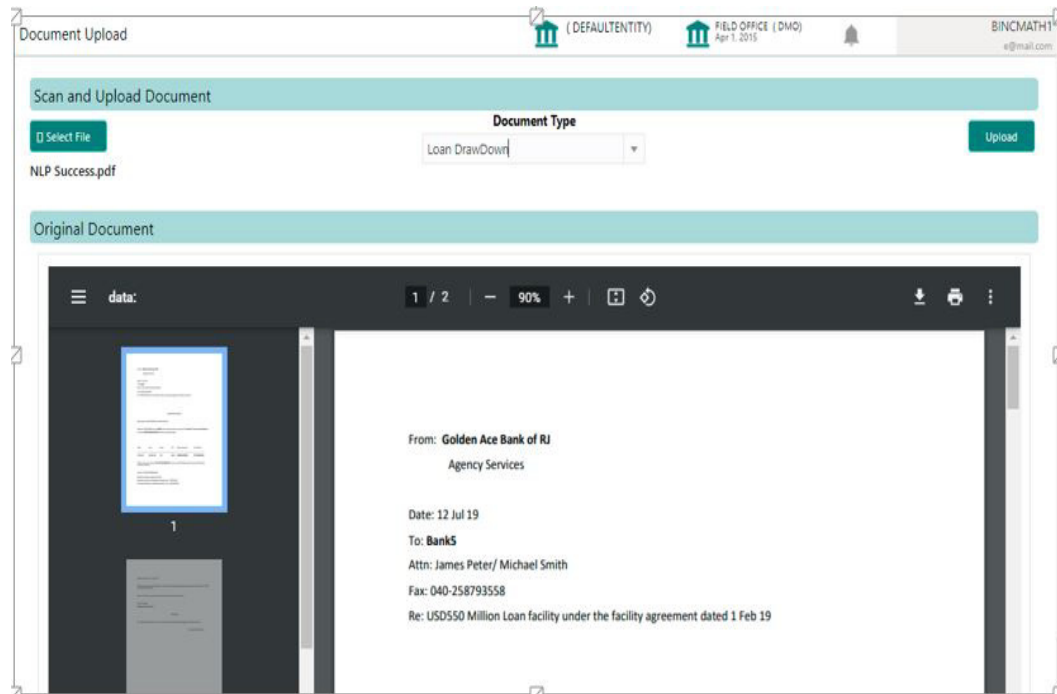

2.18.1 Participant Drawdown by Machine Learning

This process helps the user to initiate the Syndication Participant Drawdown process with the support of Machine Learning. On uploading the Drawdown notice from lead agent, the machine learning job automatically analyses the document, extract its contents & creates a Participant Drawdown task for the corresponding Syndication Facility and Tranche. This process will also fill in the extracted information in the respective fields of the applicable data segments. This task will be available in the task pool, enabling user to take forward for further evaluation & approvals.

Initiating Machine Learning Process for Drawdown

Machine Learning Process for Drawdown can be initiated by giving the basic registration details in the Initiation Screen, provided the user has the required access rights.

How to reach here: Machine Learning > Document Upload

User needs to go to the above specified menu option and select the file to upload. Once the Drawdown notice from the Agent is selected, system will read the document and displays the content of the document. Select the appropriate Document Type from the dropdown and click on upload button to initiate the task.

Upon submitting the document ML process will parse the document and initiate the Participant Drawdown process and the task will be available in My Task of the user to proceed further. In case if the ML process is unable to initiate the Drawdown process, then the task will be available in Free Task in manual correction stage. User can acquire the task and manually fill in the required details to initiate the process. The task will move to My Task upon providing the right information, for the user to proceed further with the additional information.

2.18.2 Drawdown Rollover by Machine Learning

This process helps the user to initiate the Syndication Participant Drawdown Rollover process with the support of Machine Learning. On uploading the Rollover notice from lead agent, the machine learning job automatically analyses the document, extract its contents & creates a Rollover task for the corresponding Syndication Facility and Tranche. This process will also fill in the extracted information in the respective fields of the applicable data segments. This task will be available in the task pool, enabling user to take forward for further evaluation & approvals.

Initiating Machine Learning Process for Rollover

Machine Learning Process for Rollover can be initiated by giving the basic registration details in the Initiation Screen, provided the user has the required access rights.

How to reach here:
Machine Learning > Document Upload

User needs to go to the above specified menu option and select the file to upload. Once the Rollover notice from the Agent is selected,

system will read the document and displays the content of the document. Select the appropriate Document Type from the dropdown and click on upload button to initiate the task.

Upon submitting the document ML process will parse the document and initiate the Rollover process and the task will be available in My Task of the user to proceed further. Incase if the ML process is unable to initiate the Rollover process, then the task will be available in Free Task in manual correction stage. User can acquire the task and manually fill in the required details to initiate the process. The task will move to My Task upon providing the right information, for the user to proceed further with the additional information.

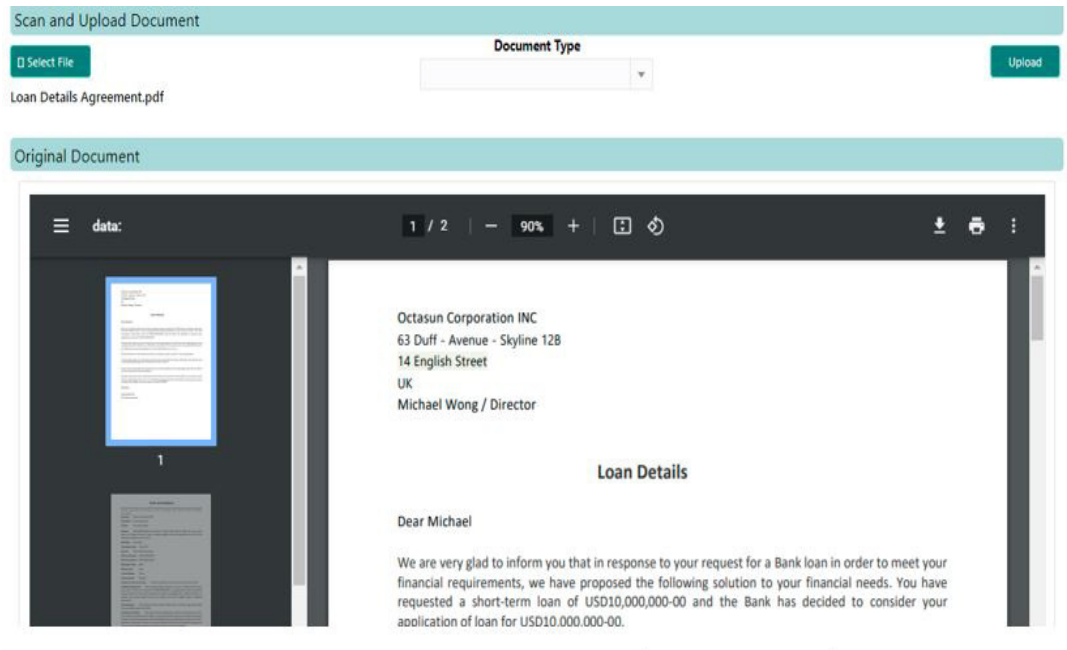

2.18.3 Loan Origination by Machine Learning

This process helps the user to initiate the Bilateral Loan Origination process with the support of Machine Learning. On uploading the Loan Details Agreement, the machine learning job automatically analyses the document, extract its contents & creates a Loan Origination task. This process will also fill in the extracted information in the respective fields of the applicable data segments. This task will be available in the task pool, enabling user to take forward for further evaluation & approvals.

Initiating Machine Learning Process for Loan Origination

Machine Learning Process for Loan Origination can be initiated by giving the basic registration details in the Initiation Screen, provided the user has the required access rights.

How to reach here: Machine Learning > Document Upload

User needs to go to the above specified menu option and select the file to upload. Once the Loan Details Agreement is selected, system will read the document and displays the content of the document. Select the appropriate Document Type from the dropdown and click on upload button to initiate the task.

Upon submitting the document ML process will parse the document and initiate the Loan Origination process and the task will be available in My Task of the user to proceed further. In case if the ML process is unable to initiate the Loan Origination process, then the task will be available in Free Task in manual correction stage. User can acquire the task and manually fill in the required details to initiate the process. The task will move to My Task upon providing the right information, for the user to proceed further with the additional information.

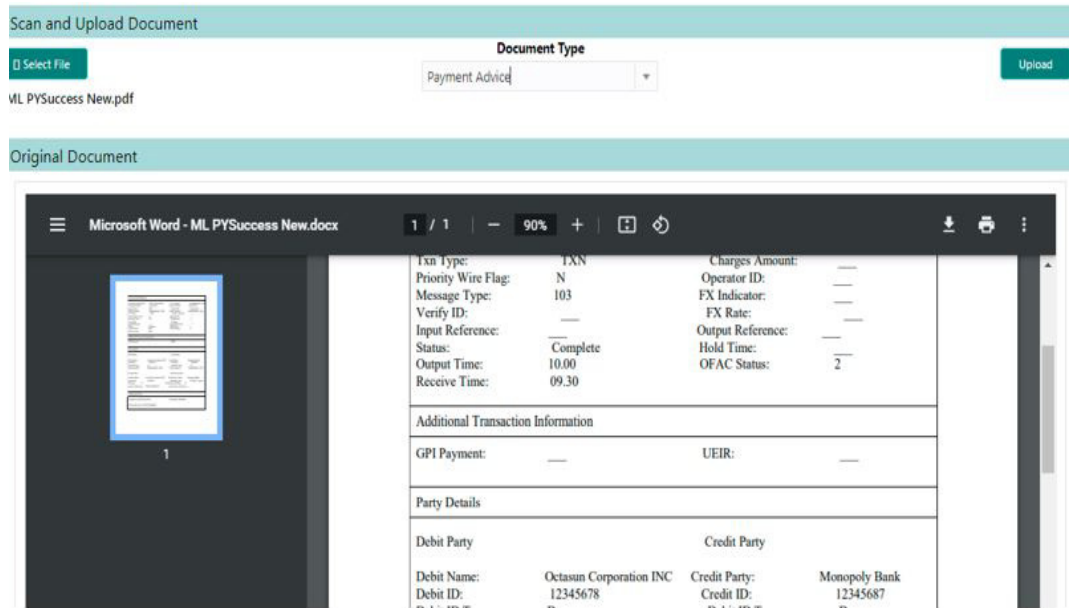

2.18.4 Sight Funding by Machine Learning

This process helps the user to resolve the Payment advices received and match the same during the Syndication payment Process. On uploading the Payment Advises, the machine learning job automatically analyses the document, extract its contents park the item in the resolved queue. While the user process a Syndication Payment, during the sight fund stage, these resolved funds will be available for matching.

Initiating Machine Learning Process for Sight Fund

Machine Learning Process for Sight Fund can be initiated by giving the basic registration details in the Initiation Screen, provided the user has the required access rights.

How to reach here:
Machine Learning > Document Upload

User needs to go to the above specified menu option and select the file to upload. Once the Payment Advise is selected, system will read the document and displays the content of the document. Select the appropriate Document Type from the dropdown and click on upload button to initiate the task.

Upon submitting the document ML process will parse the document and resolve the document and resolved task will be available in My Task. This task will get closed once the corresponding fund is matched in the applicable Payment Process. Incase if the ML process is unable to resolve the Payment advice, then the task will be available in Free Task in manual correction stage. User can acquire the task and manually fill in the required details to complete the process. The task will move to My Task upon providing the right information.
