Credit Amendment User Manual

About Credit Amendment

Credit Amendment is the process of modifying credit limit of the facility availed by the customer. This process can be initiated by the Relationship Manager, when the corporate customer requests for additional funding to cope up with their new business requirements. In Credit Amendment process, bankers evaluate the most recent data of the corporate customer and modify the facility limit.

> The Credit Proposal Amendment process explained in this user manual is a model flow. Banks can configure the data segments to appear in various stages of the process flow based on their requirement as part of implementation.

The stages available in the Credit Amendment process are:

- Amendment Initiation
- Amendment Enrichment
- Amendment Evaluation
- KYC Check (Optional)
- Amendment Structuring
- Amendment Review
- Amendment Approval
- Draft Generation
- Customer Acceptance
- Limit Configuration
- Handoff

Amendment Initiation

Credit Amendment is initiated either on the basis of customer's request or if the bank wants. The Amendment application enables amendment of facilities, collateral, covenants and T&C. In the Amendment Initiation stage, the user can view the list of existing facilities, collateral, covenants, and T&C, and propose addition/removal/ modification of collateral, facilities, covenants and T&Cs based on details such as facility over utilization detail, and covenant / T&C compliance details.

The following table provides a high level overview about the Amendment Initiation stage.

Information Available for User	Activities that can be performed by user
• Customer demographic information • Customer group structure • Liability details • Facility details • Other bank facilities • Group wise exposure • Connected party details • Facility over utilized • Facility overdue • Breached covenants • Breached T&C • Existing Collateral details • Existing covenants and T&C	• Capture changes in Liability • Capture changes in facility • Add collateral if required • Add write up if required • Add comments • Submit application for enrichment

The system will determine the holidays based on the selected Holiday Check option. For example, if Holiday Check is selected as Currency, then the system will refer the Currency Holiday Maintenance to determine holidays.

326. Select the **Holiday Currency** for which the holiday table must be checked.

327. Select the **Schedule Movement** option from the drop down list. The options available are: Move Backward and Move Forward.

If **Move Backward** option is selected, the system will schedule the revaluations that are due on holiday before the holiday.

If **Move Forward** option is selected, the system will schedule the revaluations that are due on holiday after the holiday.

328. Enable the **Move Across Month** check box, if required.

If you have chosen to move a schedule falling due on a holiday to the next working day, or the previous working day, and it crosses over into another month, the schedule date will be moved only if you indicate so. If not, the schedule date will be kept in the same month.

329. Enable the **Cascade Schedule** check box, if required. Next schedule will be fixed based on how the schedule date was moved for a holiday.

For example, if the **Revaluation Frequency** is Monthly and the schedule that is due on holiday (1st January) is moved forward to the next day (2nd January) based on selected **Schedule Movement** option, then from the next month (February), the schedule is shifted to 2nd of every month if the **Cascade Schedule** check box is enabled.

Amendment Enrichment

In this stage, the member of the operations/credit team enriches the amendment application by capturing detailed information about the customer (the customer hierarchy, funding requirement, collateral offered and the other business related information) required to evaluate the customers on parameters like credit worthiness, risk profiling and legal fitness. After performing the necessary actions, the user can send the application to three parallel stages as well as initiate the collateral evaluation and the customer on-boarding work flows.

The following table provides a high level overview about the Amendment Enrichment stage.

If Proceed is selected as Outcome, the amendment proposal is moved to Proposal Review stage.

If Additional Info is selected as Outcome, the amendment proposal is sent back to Amendment Enrichment stage.

Chapter 4 - Amendment Review

Amendment Review

This is a "Checker" stage in the work flow. In this stage, the senior member of the credit team reviews the amendment application and verifies if it is as per the banks policies. The user will have the option to send the application back to the previous stages in case any additional information is required or if the amendment proposal needs any modification. If all the conditions are satisfied, the proposal is sent to the approving authority for approval.

The following table provides a high level overview about the Amendment Review stage.

Amendment review process is similar to the amendment structuring process. Refer **Amendment Structuring** chapter for step-by-step instructions on reviewing the amendment proposal.

In Amendment Review stage, the amendment proposal can be only viewed and cannot be modified.

Chapter 4 - Amendment Approval

Amendment Approval

In this stage, members of the approving authority team review the application in its entirety, evaluate the recommendations given by the business and credit teams, and then finally make a judgment on the amendment proposed. The approving authority may refer the proposal back to the previous stages for any modification or reject the amendment proposal. If all the conditions are satisfied, the proposal is approved.

Document Upload and Checklist

In OBCFPM, supporting documents such as balance sheets and collateral documents can be uploaded in any stage of credit amendment process. Supporting documents help the senior officers in bank to accurately evaluate the credit worthiness of the organization and approve the amendment proposal. Documents added for the proposal can be removed whenever the document becomes invalid.

Steps to upload documents

1. Click **Documents** at the top right corner of any page. The *Documents* window appears:
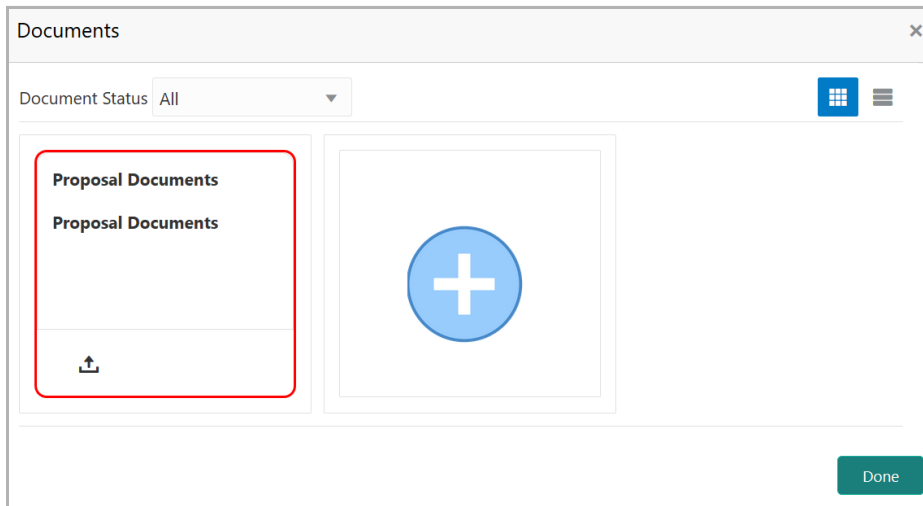

If the document list is configured in Business Process Maintenance, the same appears in the above window. You can also click the add icon to upload other documents.

In case the mandatory document is not uploaded, the system prompts an alert. You need to upload the necessary documents and proceed further.
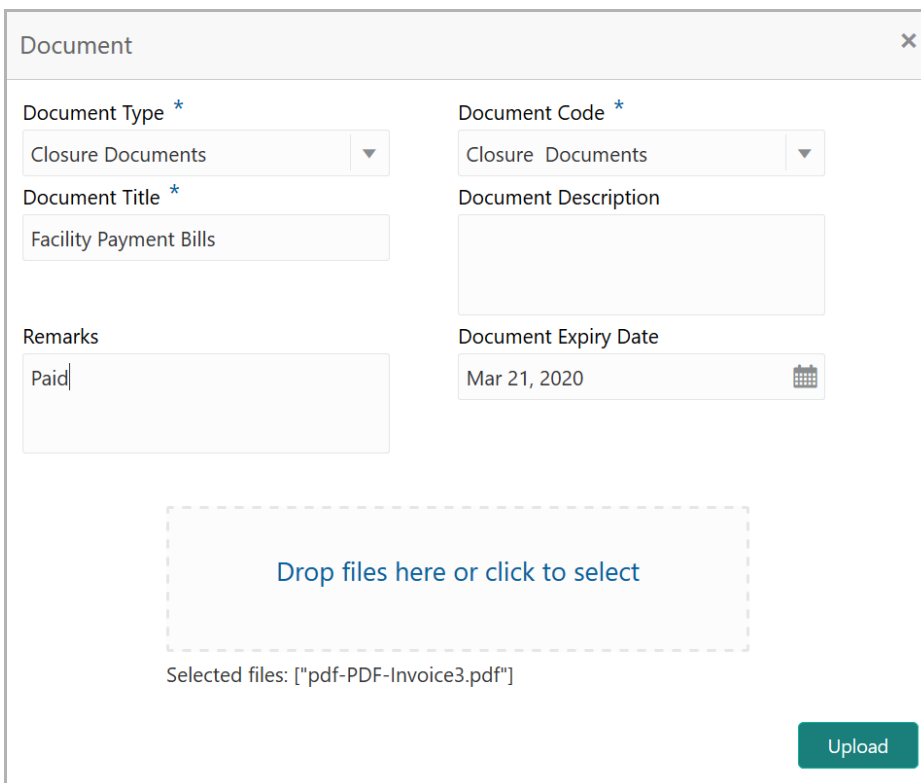

2. To change the table view to the list view, click the list icon at the top right corner. *Documents* window appears as shown below:

Business Overrides

The system generates overrides to alert the user whenever there is a discrepancy in the requested, proposed and approved amounts based on configuration. The user authorized to approve the override must acquire the task and then view and accept the overrides in order to proceed further with the process.
Business overrides can be viewed before or during submitting the task.

To view the business overrides after capturing the limit amounts, click **Overrides** at the top right corner.

Chapter 4 - Appendix
To view the business overrides in the *Submit* window, click **Submit** and navigate to the **Business** data segment.

After the authorized user accepts the overrides, the override status is changed to Accepted Overrides as shown in the above screenshot.

If the business override is generated in the Approval stage, the other user authorization is not required. The approver can directly accept the overrides and proceed with the application.
