Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Export LC Advice

As part of Export LC Advice, the advising bank receives the LC to be advised to the beneficiary from the issuing bank. The letter of credit is advised to the beneficiary through the advising bank. The various stages involved for advice of an Export Letter of Credit are:

- Receive and verify documents (Non Online Channel) - Registration stage
- Input application details
- Upload of related mandatory and non mandatory documents
- Verify documents and capture details
- Input/Modify details of LC - Data Enrichment stage
- Check for limit availability (In case of confirmation)
- Check balance availability for amount block
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges, if applicable.
- Capture remarks for other users to check and act.
- Hand off request to back office

Note

The user can initiate the transfer of LC advise process from the Export LC Advise screen. The process can be initiated manually at the branch or by parsing the incoming MT 700/720.

In the following sections, let's look at the details for Export LC Advising process:

This section contains the following topics:

Common Initiation Stage	Document Linkage
Registration	Exceptions
Data Enrichment	Reject Approval
Multi Level Approval	Processing Incoming MT 710 at the Advise - Through Bank

Common Initiation Stage

The user can initiate the new export LC advise request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Customer Id	Select the customer id of the applicant or applicant's bank.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledged.	

Document Linkage

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.
2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

Field	Description	Sample Values
Document Type	Select the Document type from list. Indicates the document type from metadata.	

Field	Description	Sample Values
Document Code	Select the Document Code from list. Indicates the document Code from metadata.	
Document Title	Specify the document title.	
Document Description	Specify the document description.	
Remarks	Specify the remarks.	
Document Expiry Date	Select the document expiry date.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

4. Select the document to be uploaded or linked and click the **Link Document** link. The link Document pop up appears.
The value selected in Document Type and Document code of Document screen are defaulted in the Link Document Search screen.

The screenshot shows the 'Link Document' pop-up window. It includes input fields for Customer Id (001044), Document Id, Document Type (Letter of Credit), and Document Code (Insurance Policy). A 'Fetch' button is used to retrieve data. Below the inputs is a table with the following data:

Document Id	Customer Id	Document Type	Document Code	Link Document
2400	001044	INSURANCE		Link

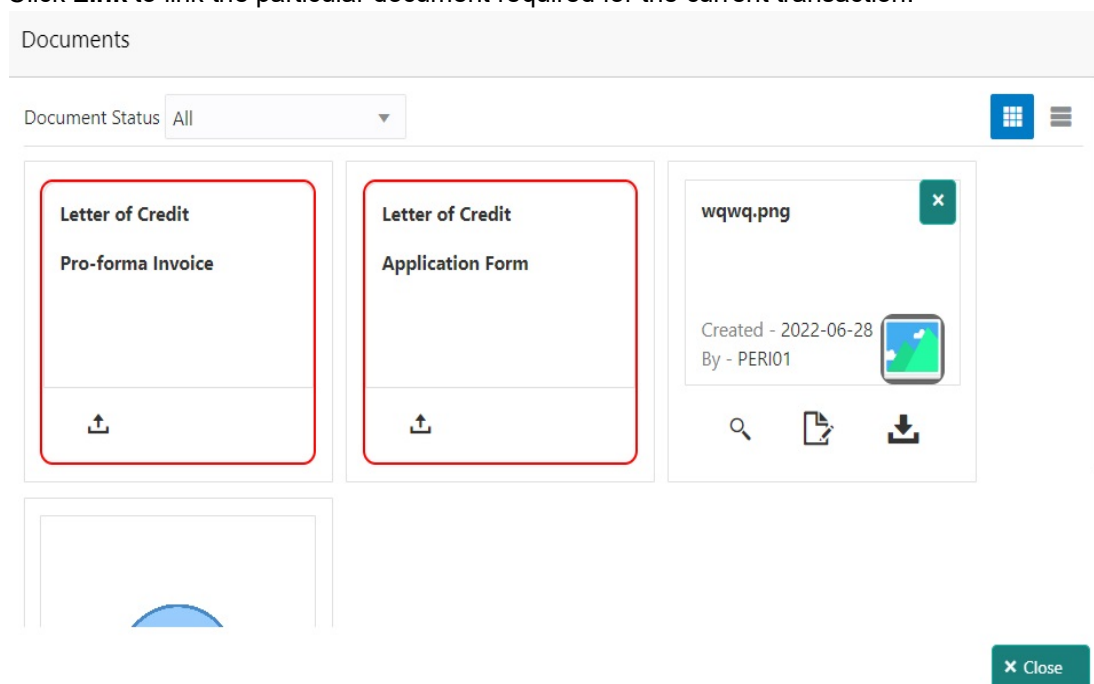

The page indicator shows 'Page 1 of 1 (1 of 1 items)'.

5. Click **Fetch** to retrieve the details from DMS. System Displays all the documents available for the given Document Type and Document Code for the Customer.

Scrutiny

On successful completion of Registration of an Export LC Advice request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized.

Non Online Channel - Export LC Advice requests that were received at the desk will move to Scrutiny stage post successful Registration. The request will have the details entered during the Registration stage.

Online Channel - Requests that are received via online channels like trade portal, external system and SWIFT are available directly for further processing from Scrutiny stage and available data for all data segments from Application stage to Data Enrichment stage would be auto populated.

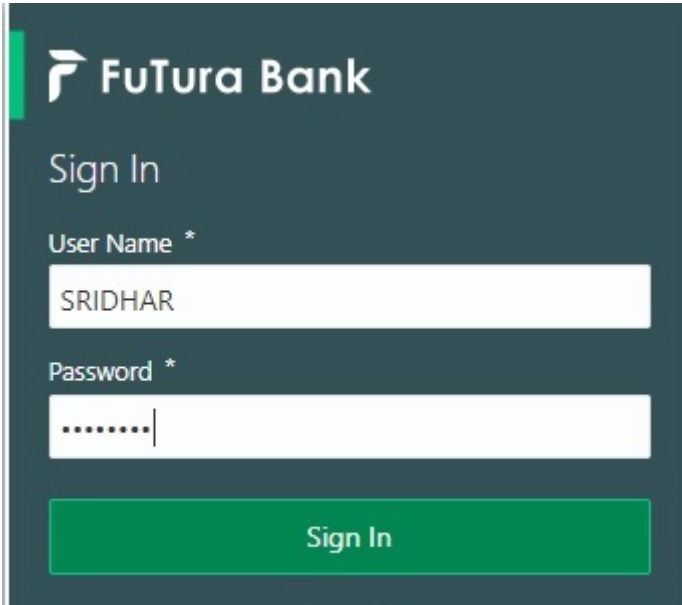

Note

In case of SWIFT MT720, requests that are received via online channels like trade portal, external system and SWIFT should be available directly for further processing in OBTfPM from Scrutiny stage

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

The Scrutiny stage has five sections as follows:

- Main Details
- Availability & Shipment
- Payment Details
- Additional Fields
- Additional Details
- Summary

Let's look at the details for Scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value from Registration/online channels may not be editable.

Main Details

Main details section has three sub section as follows:

- Application Details
- LC Details

Application Details

All fields displayed under Application details section, would be read only except for the **Priority** field. Refer to [Application Details](#) for more information of the fields.

Commission Details

Provide the Commission Details based on the description provided in the following table:

Field	Description	Sample Values
Event	Read only field. This field displays the event name.	
Event Description	Read only field. This field displays the description of the event.	
Component	Select the commission component	
Rate	Defaults from product. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	
Modified Rate	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Currency	Defaults the currency in which the commission needs to be collected	
Amount	An amount that is maintained under the product code defaults in this field. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPM. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	
Modified Amount	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	

Field	Description	Sample Values
Waive	<p>Select the check box to waive charges/ commission.</p> <p>Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.</p> <p>If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.</p>	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary	
Settlement Account	Details of the Settlement Account.	

Charges Details

Provide the Charge Details based on the description provided in the following table:

Field	Description	Sample Values
Component	Charge Component type.	
Tag Currency	Defaults the tag currency in which the charges have to be collected.	
Tag Amount	Defaults the tag amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Modified	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	

Field	Description	Sample Values
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Waive	<p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Charge Party	Charge party will be applicant by default. You can change the value to beneficiary	
Settlement Account	Details of the settlement account.	

Tax Details

The tax component is calculated based on the commission. The tax component defaults if maintained in the product level. Tax detail cannot be updated by you and any change in Tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system.

Provide the Tax Details based on the information in the following table:

Field	Description	Sample Values
Component	Tax Component type	
Type	Type of tax Component.	
Value Date	This field displays the value date of tax component.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	<p>If taxes are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	

Field	Description	Sample Values
Defer	<p>If taxes have to be deferred and collected at any future step, this option has to be enabled.</p> <p>The user can enable/disable the option the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Settlement Account	Details of the settlement account.	

FX Linkage

This section enables the user to link the existing FX contract(s) to the LC transactions. User can link multiple forward FX contracts.

FX contract linkage with the Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the Bill

The Data Enrichment stage has five sections as follows:

- Main Details
- Availability & Shipment
- Documents Details
- Payment Details
- Additional Fields
- Additional Details
- Summary

Let's look at the details for Data Enrichment stage. You should be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

Main Details

Refer to [Main Details](#).

Availability & Shipment

Refer to [Availability & Shipment](#).

Document Details

User must provide the required documents and additional conditions (if applicable) in this section.

Code	Name	Copy	Original	Description	Action
AIRDOC	Air Way			new doc for transport	<input type="checkbox"/> <input type="checkbox"/>
INSDOC	Insurance				<input type="checkbox"/> <input type="checkbox"/>
INVDOC	Invoice				<input type="checkbox"/> <input type="checkbox"/>
MARDOC	Sea Way				<input type="checkbox"/> <input type="checkbox"/>
OTHERDOC	OTHERDOC				<input type="checkbox"/> <input type="checkbox"/>

Select	FFT Code	FFT Description
<input type="checkbox"/>	79NARRATIVE	79narrative

Documents Details

Code	Name	Copy	Original	Description	Action
AIRDOC	Air Way			new doc for transport	<input type="checkbox"/> <input type="checkbox"/>
INSDOC	Insurance				<input type="checkbox"/> <input type="checkbox"/>
INVDOC	Invoice				<input type="checkbox"/> <input type="checkbox"/>
MARDOC	Sea Way				<input type="checkbox"/> <input type="checkbox"/>
OTHERDOC	OTHERDOC				<input type="checkbox"/> <input type="checkbox"/>

Select	FFT Code	FFT Description
<input type="checkbox"/>	79NARRATIVE	79narrative

Online Channel - System will default the details received in the Description column. Based on the details populated, user can pick corresponding values for Document code, originals and copy.

Non Online Channel - User can further edit (add or remove) the documents or document description as per requirement. Application will display an alert message, if both 'Bill Of lading' and 'Airway Bill' are chosen.

Based on the 'Product' selected, Application will default the documents required under the LC. User can edit the details, delete an existing document and also add additional documents to the defaulted list.

Additional Conditions

Additional Conditions

				
Select	FFT Code	FFT Description		
<input type="checkbox"/>	79NARRATIVE	79narrative		

Online Channel - System will default the details received in the description column. System will parse the additional conditions required field into multiple line items based on line de-limiter (+) and shall populate each line item as a separate description. User can read the description and make any changes required to the description, also must be able to add more conditions.

Non Online Channel - User can use FFT to capture additional conditions and can edit the description populated from FFT. You should also be able to add additional FFT.

Payment Details

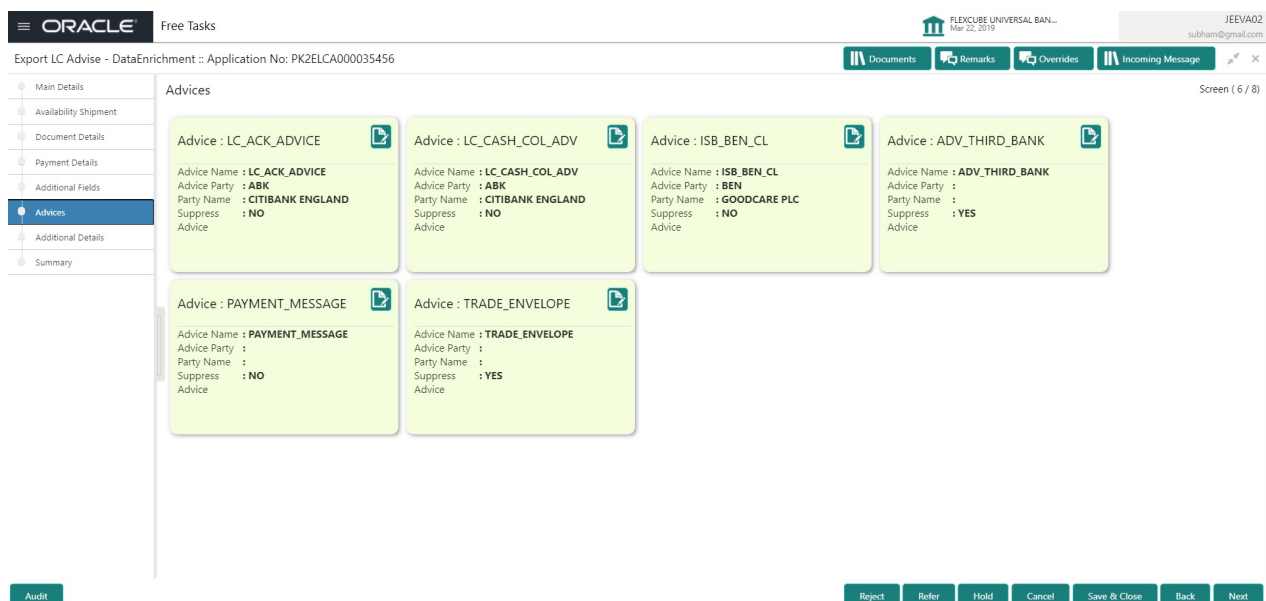

Refer to [Payment Details](#).

Additional Fields

Refer to [Additional Fields](#).

Advices

Advices menu displays the advices available under a product code from the back office as tiles. User can edit the fields in the tile, if required.

The screenshot shows the Oracle Advices menu interface. The top navigation bar includes the Oracle logo, 'Free Tasks', and user information (JEEVA02, subham@gmail.com). The main content area displays a list of advice tiles under the heading 'Advices'. The tiles are arranged in a grid and include the following details:

Commission Details

Provide the Commission Details based on the description provided in the following table:

Field	Description	Sample Values
Event	Read only field. This field displays the event name.	
Event Description	Read only field. This field displays the description of the event.	
Component	Select the commission component	
Rate	Defaults from product. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	
Modified Rate	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Currency	Defaults the currency in which the commission needs to be collected	
Amount	An amount that is maintained under the product code defaults in this field. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPM. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	
Modified Amount	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	

Field	Description	Sample Values
Waive	<p>Select the check box to waive charges/ commission.</p> <p>Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.</p> <p>If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.</p>	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary	
Settlement Account	Details of the Settlement Account.	

Charges Details

Provide the Charge Details based on the description provided in the following table:

Field	Description	Sample Values
Component	Charge Component type.	
Tag Currency	Defaults the tag currency in which the charges have to be collected.	
Tag Amount	Defaults the tag amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Modified	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	

Field	Description	Sample Values
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Waive	<p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Charge Party	Charge party will be applicant by default. You can change the value to beneficiary	
Settlement Account	Details of the settlement account.	

Tax Details

The tax component is calculated based on the commission. The tax component defaults if maintained in the product level. Tax detail cannot be updated by you and any change in Tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system.

Provide the Tax Details based on the information in the following table:

Field	Description	Sample Values
Component	Tax Component type	
Type	Type of tax Component.	
Value Date	This field displays the value date of tax component.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	<p>If taxes are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	

Field	Description	Sample Values
Defer	If taxes have to be deferred and collected at any future step, this option has to be enabled. The user can enable/disable the option the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.	
Settlement Account	Details of the settlement account.

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message "Value Date is different from Transaction Date for one or more Accounting entries..

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Submit	<p>Task will get moved to next logical stage of Export LC Advice.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Export LC Advice Data Enrichments stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	

Exceptions

The Export LC Advice request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral. Amount block check will be done for all the parties related to the LC.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM Application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account.

Amount Block Exception

This section will display the amount block exception details.

Exception - Know Your Customer (KYC)

As part of KYC validation, application must be checked if necessary KYC documents are available and valid for the beneficiary. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

- Documents & Condition - User can view and modify the documents required grid and the additional conditions grid, if required.

Log in into OBTPM Application KYC exception queue. KYC exception failed tasks for trade finance

transactions must be listed in your queue. Open details, if required. Summary tiles that display a summary of important fields with values.

- Revolving Details - User can view and modify revolving details on revolving LC, if applicable.

User can click on the action and then click on the modify action details, if required.

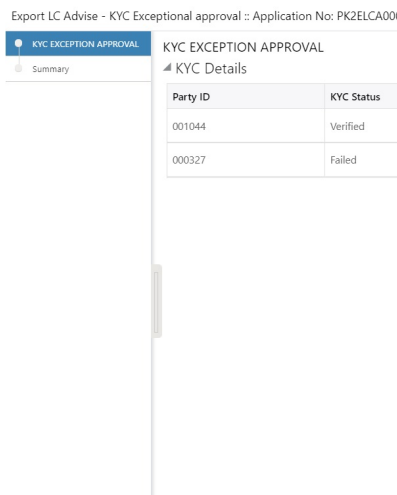

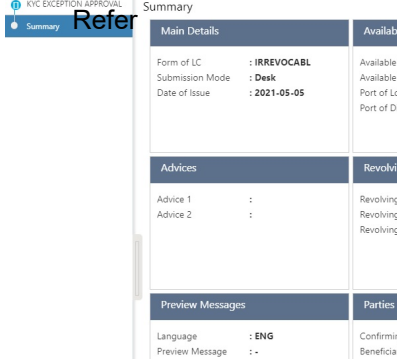

● Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

● After changing the KYC status in the back end application (outside this process).

Action Buttons

● Without changing the KYC status in the back end application.

Use action buttons based on the description in the following table:

KYC Details	Description	Sample Values
<p>Reject</p>  <p>This section will display the KYC details of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	<p>Hold</p>  <p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	<p>Summary</p>  <p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5- Others
<p>Cancel</p>  <p>Cancel the Import LC Issuance Limit exception check and the task gets landed in My Task menu.</p>	<p>Approve</p>  <p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage.</p>	
<p>Task Displayed in Summary:</p> <p>Back</p> <ul style="list-style-type: none"> ● Main Details - User can view and modify details about application details and LC details, if required. ● Party Details - User can view and modify party details like beneficiary, advising bank etc., if required ● Availability and Shipment - User can view and modify availability and shipment details, if required. ● Payments - User can view and modify all details related to payments, if required. 	<p>Task moves to previous logical step.</p>	

Multi Level Approval

Document Details - User can view and modify the documents required grid and the additional conditions grid, if required.

Log Limits and Collaterals - User can view and modify limits and collateral details, if required.
 Log In the OBTFM application and open the task to see the summary tiles. The tiles should display a list of important fields with values and user must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

- Revolving Details - User can view and modify revolving details on revolving LC, if applicable.

Preview Messages - User can view and modify preview details, if required.
 In case of MT 798, on approval the task is handed off to back office system to create LC contract and generate the required MT 700/701/740 messages.
 Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.
 Use action buttons based on the description in the following table.

Field	Description	Sample Values
Authorization Re-Key		
Reject	On click of Reject, user must select a reject reason will request displayed by few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.	
Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:	<ul style="list-style-type: none"> • R1- Segments missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. 	
<ul style="list-style-type: none"> • Currency • Amount 	Select a reject code and give a reject description.	
Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.	This reject reason will be available in the remarks window throughout the process.	

	<ul style="list-style-type: none"> • R5 - Others 	
Cancel	Cancel the Export LC Advice KYC Exception check.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents. Application displays mandatory documents to be uploaded for Export LC Advise. Place holders are also available to upload additional documents submitted by the applicant.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Incoming Message	Displays the incoming message, if any.	
Action Buttons		
Proceed	On proceed, the screen navigates to approval summary screen.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R5 - Others 	
Cancel	Cancel the Import LC Issuance Approval Rekey.

- Payment - User can view and modify all details related to payments, if required.
- Documents & Condition - User can view and modify the documents required grid and the additional conditions grid, if required.
- Limits and Collateral Details - User can view and modify limits and collateral details, if required.
- Charges - User can view and modify charge details, if required.
- Revolving Details - User can view and modify revolving details on revolving LC, if applicable.
- Preview Message details - User can view and modify preview details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	<p>Cancel the approval and the task gets landed in My Task menu.</p>	

Field	Description	Sample Values
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the Back End system for posting.	

Processing Incoming MT 710 at the Advise - Through Bank

An advise-through bank is involved in an Export LC Advising process, when the advising bank passes on the LC through another bank for advising the LC to the beneficiary.

The OBTFPM user can process the incoming MT 710 for further advising to the beneficiary. The advise through bank will process the incoming MT 710 in OBTFPM and advise the LC to the beneficiary.

The incoming MT 710 is processed as an STP transaction and the system creates a task in Scrutiny stage of LC Advising process. The MT 710 can also be manually processed if required.

Registration Stage

Application Details

All fields displayed under Application details section, would be same as **Export LC Advise - Registration - Application Details**. Refer to [Application Details](#) for more information of the fields.

The screenshot shows the Oracle Export LC Advise Application Details form. The form is divided into several sections: Application Details, LC Details, and a bottom section for Limits/Collateral Required. Fields include Beneficiary (006214), Branch (PK2-FLEXCUBE UNIVERSAL BANK), Priority (Medium), Advising Date (Mar 22, 2019), Submission Mode (Desk), Issuing Bank (006218), Product Code, Product Description, Contract Reference Number, Date Of Expiry, and 39A - Percentage Credit Amount Tolerance. The form also includes a 'Limits/Collateral Required' toggle switch and buttons for 'Hold', 'Cancel', 'Save & Close', and 'Submit'.

LC Details

The fields listed under this section are same as the fields listed under the **Export LC Advise LC Details** section in [Registration](#). Refer to [LC Details](#) for more information of the fields.

Following fields are the additional new fields or label changed apart from the fields carried over from [LC Details](#) of [Registration](#).

Provide the details for the additional fields based on the description in the following table:

Field	Description	Sample Values
Form of Documentary Credit (with same values as 40A –in MT 700)	This field gets auto populated from incoming MT 710.	

Field	Description	Sample Values
Documentary Credit Number (Same as 20-Documentary Credit Number in MT 700).	This field represents the issuing bank reference and gets auto populated from incoming MT 710.	
Sender's Reference	This field represents the issuing bank reference and field gets auto populated from incoming MT 710.	

Scrutiny

All the fields in the incoming MT 710 will be auto populated in Scrutiny Stage, if the MT 710 is received and processed as an STP transaction.

Main Details

Fields listed under the MT710 Scrutiny stage is same as **Export LC Advise** [Document Linkage](#) stage [Main Details](#) section. Refer to [Main Details](#) for more information of the fields.

Following fields are the additional new fields or label changed apart from the fields carried over from [Main Details](#) of [Document Linkage](#).

Field	Description	Sample Values
Beneficiary	The system will check the Beneficiary name available in the incoming MT 710 with the bank customers data and populate the CIF and the details of the customer if the Beneficiary is a customer of the bank. If the beneficiary is not a customer of the bank, the system should populate the Walk-in CIF and the user should be able to update the name and address of the beneficiary.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Request Clarification	On click the Request Clarification button the user can request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details.	
Submit	Task will get moved to next logical stage of Export LC Advice. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the informations provided and holds the task in you queue for working later. This option will not submit the request	

Field	Description	Sample Values
Cancel	Cancel Scrutiny stage inputs and return to dashboard.	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Next	Click Next to move to next logical step in Scrutiny stage.	
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Availability Shipment

The fields are populated with the value available in MT 710, in case of STP of MT 710.

For field descriptions, refer [Availability & Shipment](#) section of **Export LC Advise Document Linkage** stage.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Request Clarification	On click the Request Clarification button the user can request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details.	
Submit	Task will get moved to next logical stage of Export LC Advise. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the informations provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel Scrutiny stage inputs and return to dashboard.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Next	Click Next to move to next logical step in Scrutiny stage.	
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Payment Details

In case LC is processed through STP, system should populate the fields with the value available in MT 710.

Fields listed under the MT710 Scrutiny stage Payment Details section is same as **Export LC Advise Document Linkage** stage **Payment Details** section. Refer to **Payment Details** for more information of the fields.

The screenshot shows the Oracle Export LC Advise - Scrutiny interface. The main section is titled 'Payment Details' and contains several sub-sections with input fields and buttons. The left sidebar lists navigation options: Main Details, Availability Shipment, Payment Details (selected), Additional Fields, Additional Details, and Summary. The top bar displays the Oracle logo, 'My Tasks', and user information (JEEVA02, subham@gmail.com). The bottom bar features buttons for 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

Following fields are the additional new fields or label changed apart from the fields carried over from [Payment Details](#) of [Document Linkage](#).

Field	Description	Sample Values
To be confirmed by Advising Bank	<p>Toggle On: Set the toggle on to confirm by advising bank.</p> <p>Toggle Off: Set the toggle off for not to be confirmed by advising bank.</p>	

MT730 - Acknowledgment Sent

Fields listed under this section is same as [MT730 - Acknowledgement Sent](#) section in **Export LC Advise Payment Details** section. Only the section label is changed. Refer to [MT730 - Acknowledgement Sent](#) for more information of the fields.

Confirmation to be done by ATB only if To be confirmed by ATB is enabled.

Action Buttons

Use action buttons based on the description in the following table:**Additional fields** – Same as in Export LC

Field	Description	Sample Values
Request Clarification	On click the Request Clarification button the user can request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details.	
Submit	<p>Task will get moved to next logical stage of Export LC Advice.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Save & Close	<p>Save the informations provided and holds the task in you queue for working later.</p> <p>This option will not submit the request</p>	
Cancel	Cancel Scrutiny stage inputs and return to dashboard.	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Next	Click Next to move to next logical step in Scrutiny stage.	
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Additional Fields

Fields listed under the MT710 Additional Fields Scrutiny stage is same as **Export LC Advise Document Linkage** stage [Additional Fields](#) section. Refer to [Additional Fields](#) for more information of the fields.

Action Buttons

Use action buttons based on the description in the following table: **Additional fields** – Same as in Export LC

Field	Description	Sample Values
Request Clarification	On click the Request Clarification button the user can request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details.	
Submit	Task will get moved to next logical stage of Export LC Advice. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the informations provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel Scrutiny stage inputs and return to dashboard.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a reject reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a reject code and give a reject description. This reject reason will be available in the remarks window throughout the process.	
Next	Click Next to move to next logical step in Scrutiny stage.	
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.
