Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction.

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Claim Update Under Guarantee Issued

As part of update a claim lodged under a Guarantee/SBLC Issued process, the applicant can register an update to a claim against the Guarantee/SBLC issued.

The various scenarios to Update a claim lodged under a Guarantee/SBLC issued are:

- Capturing response from the Applicant/ Instructing party for Extend or Settle request

(As per Article 23 or URDG - Extend or Pay, the guarantor may suspend payment for a period not exceeding 30 calendar days following its receipt of the demand and in case of counter-guarantees, the counter-guarantor may suspend payment for a period not exceeding four calendar days less than the period during which payment of the demand under the guarantee was suspended)

- Capturing details of further Presentation details/ Documents received from Beneficiary or claiming party
- Capturing details of any legal injunctions received from the Applicant/ Instructing Party
- Update of Settlement account or any other information in the underlying claim

In the subsequent sections, let's look at the details for update a claim lodged under a Guarantee/SBLC Issued process:

This section contains the following topics:

Common Initiation Stage

Registration

Document Linkage

Multi Level Approval

Common Initiation Stage

The user can initiate the new update a claim lodged under a Guarantee/SBLC Issued request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

The screenshot displays the Oracle OBTFPM application interface. On the left, a vertical sidebar menu contains various navigation options, with 'Initiate Task' highlighted by a red rectangular box. The main content area is titled 'Initiate Task' and features a 'Registration' section. This section includes two dropdown menus: 'Process Name' set to 'Guarantee Claim' and 'Branch' set to '300-International Payments-Fast...'. At the bottom right of the registration area, there are two buttons: 'Proceed' and 'Clear'. The top of the interface shows the Oracle logo, the text 'Initiate Task', and user information including the username 'JEEVA02' and email 'subham@gmail.com'.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

During the Registration stage, the user can register an update to the claim lodged under a Guarantee/ SBLC Issued.

In this stage the user can initiate an update to the Guarantee/ SBLC Claim Lodged. The user can capture the basic details of the application, check the signature of the applicant and upload the related documents of the applicant.

1. Using the entitled login credentials for registration stage, login to the OBTFPM application.

A screenshot of the FuTura Bank Sign In interface. The background is dark teal. At the top left is the FuTura Bank logo, which consists of a stylized 'F' icon followed by the text 'FuTura Bank'. Below the logo, the text 'Sign In' is displayed. There are two input fields: 'User Name *' with the text 'SRIDHAR' entered, and 'Password *' with masked characters '.....'. Below the password field is a green 'Sign In' button. At the bottom center is a 'Cancel' link.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Trade Finance > Bank Guarantee Issuance > Guarantee SBLC Issuance - Claim Update**.

The Registration stage has two sections Application Details and Guarantee Details. Let's look at the registration screens below:

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	User can upload the claim documents. Application will display the mandatory and optional documents.	
Remarks	User can enter the additional information regarding the Claim Guarantee Issuance. This information can be viewed by other users in other stages of the process. Content from Remarks Field should be handed off to Remarks field in Backend application.	

Field	Description	Sample Values
Customer Instructions	Click to view/ input the following • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.	
View Guarantee/SBLC	User can view all the latest Guarantee/Standby LC details.	
Guarantee/SBLC Events	User can view all the previous events under the Guarantee/Standby LC.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	Cancels the Guarantee Issuance Claim Update Registration stage input.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Submit	On Submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Guarantee/ SBLC Claim. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit. 1. Signatures on Claim verified 2. Mandatory claim Documents received	

Document Linkage

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.
2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

Data Enrichment

On successful completion of Registration of a Guarantee SBLC Claim update request, the request moves to Data Enrichment stage. At this stage the bank user can update the various claim fields. The user can input the transaction details.

At this stage the gathered information during Registration stage and claim update request are scrutinized and enter the data as required.

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task currently at Data Enrichment stage:

1. Using the entitled login credentials for scrutiny stage, login to the OBTFPM application.

The Data Enrichment stage has five sections as follows:

- Main Details
- Claim Details

- Document Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following fields as part of Guarantee/SBLC claim update - Data Enrichment Stage. Some of the fields that are already having value from registration/ online channels may not be editable.

In case of requests received through SWIFT MT799, the task will be created in DE stage directly and the fields will be populated based on the incoming request.

Main Details

Main details section has three sub section as follows:

- Application Details
- Guarantee Details

Application Details

All fields displayed under Application details section, would be read only except for the **Priority**. Refer to [Application Details](#) in the Registration stage for more information of the fields.

User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.	
View Undertaking	Clicking this button allows the user should to view the undertaking details.	

Claim Details

As part of DE, the bank user can update the various claim fields. The user can also be able to input the transaction details.

The user can scrutinize the claim update request and input data as required.

In case of requests received through SWIFT MT799, the task will be created in DE stage directly and the fields will be populated based on the incoming request.

Provide the Claim details based on the description in the following table:

Field	Description	Sample Values
Claiming Bank Reference	Read Only field. System defaults value from Guarantee /SBLC claim.	
Date of Demand	Read Only field. System defaults value from Guarantee /SBLC claim.	
Demand Indicator	Read Only field. System defaults value from Guarantee /SBLC claim.	
Demand Type	Read Only field. System defaults value from Guarantee /SBLC claim.	
Claim Currency/ Amount	Read Only field. System defaults currency for claim and the claim amount from Guarantee /SBLC claim.	

Field	Description	Sample Values
New Expiry Date	Read Only field. System defaults value from Guarantee /SBLC claim. If the applicant has accepted the extension in expiry date, then the new expiry date should be updated in the Guarantee Amend module in OBTF. Any additional commission for the extension to be calculated from the Amendment module.	
Demand Statement	Read Only field. System defaults value from Guarantee /SBLC claim.	
Presentation Completion Details	Read Only field. System defaults value from Guarantee /SBLC claim.	
Additional Amount Information	Read Only field. System defaults value from Guarantee /SBLC claim.	
Intermediary	Read Only field. System defaults value from Guarantee /SBLC claim. This field specifies the financial institution through which the amount claimed must pass to reach the account with institution.	
Account with Institution	Read Only field. System defaults value from Guarantee /SBLC claim. This field specifies the financial institution at which the amount claimed is to be settled.	
File Identification	User can capture the 23X file Identification to be available in the outgoing MT787,MT759 message.FFT to be available are 23XFILEIDENMT787, 23XFILEIDENMT759	
Sender to Receiver Information	User can capture the sender to receiver information to be available in the outgoing MT787,MT759 message.FFT to be available are SND2RECMT765, SND2RECMT787, SND2RECMT759, SND2RECMT799.	

Claim Update Details

Provide the Claim Update details based on the description in the following table:

Field	Description	Sample Values
Guarantor Response	The user can select the guarantor response. This values are: • Accept Extension • Reject Extension • Invalid Claim	
Status	System with default status based on the user acceptance or rejection of the extension request. If the applicant has accepted the extension, the status of the claim update should be Extension – Accepted and handoff from OBTFPM should be provided to the Guarantee Amendment function id in OBTF. If the applicant has rejected the extension, the status of the claim update should be Extension – Rejected and handoff from OBTFPM should be provided to the Guarantee Claim Update function id in OBTF. If the applicant has provided the legal injunction, the status of the claim update should be Injunction and handoff from OBTFPM should be provided to the Guarantee Claim Update function id in OBTF. If the bank has found discrepancy in the claim, user selects Invalid Claim. The status should be Rejected and handoff from OBTFPM should be provided to the Guarantee Claim Update function id in OBTF.	
Legal Injunction	User can update the claim status if there is any legal injunction in processing the claim. Toggle On: If Legal injunction toggle is set to 'Yes' all other subsequent fields will be ready only. User cannot update any other field.	
Reason for Refusal	User can enter the reason for refusal.	
Disposal of Documents	User can enter the mode in which the documents have to be disposed in case of rejection of claim.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a reject description. This reject reason will be available in the remarks window throughout the process.	
Refer	On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later. This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Incoming Message	Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.	
View Undertaking	Clicking this button allows the user should to view the undertaking details.	

Document Details

In Document Details, the user can to view the Documents required for a claim and verify if the Claim Documents are submitted as per documents required. The user, can scrutinize the claim request and input data as required.

The user can view the documents as part of claim under Guarantee/SBLC - DE Stage.

If documents to be submitted were provided in the Guarantee Issuance they will be defaulted, else the user can capture the documents submitted under the claim in this section.

Provide the Document details based on the description in the following table:

Field	Description	Sample Values
Code	User can enter the document code.	

Field	Description	Sample Values
Name	System defaults the document name based on the document code.	
Copy	Copy of the document.	
Original	Original claim document.	
Description	User can enter the description of the document if any.	
Documents Received	User can enter the details of document received.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a reject description. This reject reason will be available in the remarks window throughout the process.	
Refer	On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant.	

Field	Description	Sample Values
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later. This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Incoming Message	Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.	
View Undertaking	Clicking this button allows the user should to view the undertaking details.	

Additional Fields

This stage displays the additional fields based on the User defined fields maintained in the system.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a reject description. This reject reason will be available in the remarks window throughout the process.	

Field	Description	Sample Values
Refer	On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others.

View Undertaking	Clicking this button allows the user should to view the undertaking details.	

Summary

User can review the summary screen for Guarantee /Standby Claim update request.

In this section the user can see the summary tiles. The tiles must display a list of important fields with values. The tiles where fields have been amended is highlighted in different color, User must be also able to drill down from summary tiles into respective data segments.

The screenshot shows the Oracle SBLC Issuance-Claim Update interface. The top navigation bar includes the Oracle logo, 'My Tasks', and user information (SRIDHAR02, subham@gmail.com). The main header displays 'Guarantee SBLC Issuance-Claim Update - DataEnrichment - Application No: PK2GISCO00054432'. The left sidebar lists navigation options: Main, Claim Details, Document Details, Additional Fields, Advices, Additional Details, Settlement Details, and Summary (selected). The main content area is titled 'Summary' and contains a grid of tiles. The tiles are organized into three rows and four columns. The first row includes 'Main', 'Claim Details', 'Document Details', and 'Additional Fields'. The second row includes 'Advices', 'Commission, Charges and taxes', 'Preview Messages', and 'Settlement Details'. The third row includes 'Party Details', 'Compliance', and 'Accounting Details'. Each tile displays key information related to the application. At the bottom, there is an 'Audit' button and a row of action buttons: Reject, Refer, Hold, Cancel, Save & Close, Back, Next, and Submit.

Tiles Displayed in Summary

- Main Details - User can view the application details and Guarantee/ Standby details. User can modify the details if required.
- Party Details - User can view the party details like beneficiary, advising bank etc.
- Claim Update Details - User can view the claim details.
- Documents Details - User can view the Document details.
- Additional Fields - User can view the additional fields.
- Commission, Charges and taxes - User can view the details provided for charges. User can modify the details if required.
- Preview Message - User can drill down to view the message preview, legal verification and customer draft confirmation details. The message preview screen has the Legal Verification details.
- Settlement Details – User should be able to view the settlement details.
- Accounting Entries - User can see the accounting details.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message "Value Date is different from Transaction Date for one or more Accounting entries."

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a reject description. This reject reason will be available in the remarks window throughout the process.	
Refer	On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later. This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Submit	On clicking Submit, system validates for all mandatory field values and the task should move to the next logical stage. If the user submits without visiting other mandatory steps, then error message is displayed and force the user to visit mandatory tabs/update mandatory fields.	

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Incoming Message	Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.	
View Undertaking	Clicking this button allows the user should to view the undertaking details.	

Multi Level Approval

This stage allows the approver user to approve a Claim Lodged under Guarantee Issued Transaction.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

Re-Key Authorization

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Applicant Name
- Beneficiary Name
- Undertaking Currency
- Undertaking Amount
- Expiry Date

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.
