1 Preface

1.1 Introduction

Welcome to the **Credit Card Origination** user guide for Oracle Banking Origination. This document provides an overview of the Credit Card Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Credit Card Origination.

1.2 Audience

This user manual is intended for the Relationship Managers (RMs), other executive staff- member in-charge of maintenance for the credit card accounts in the bank, and sales officer in-charge of sourcing the Credit Card products from prospect and customer of the bank. This user manual is also intended for the other bank personas such as bank operations manager, account opening officers or branch managers who may handle the specific stages of the lifecycle of the Credit Card Origination process based on the bank's internal operation and policies.

1.3 Document Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.4 Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Table 1: Acronyms table

Abbreviation	Description
DS	Data Segment
System	Oracle Banking Origination Module

1.5 List of Topics

This user manual is organized as follows:

Table 2: List of Topics

Topics	Description
Oracle Banking Origination Credit Card Origination Process Management	This topic describes the Credit Card Origination process and the Reference Process flow is updated in this chapter.
Overview of Oracle Banking Origination Credit Card Account Open Process	This topic describes the defined stages through which the Credit Card Origination application has to flow before it is ready to be sent to the Host for Account Creation is detailed in this chapter.
Error Codes and Messages	This topic provides the error codes and messages that you encounter while working with Oracle Banking Origination.
List Of Glossary	Glossary has the alphabetical list of data segments for Credit Card Account Open Process with page references for quick navigation.

1.6 Related Documents

The related documents are as follows:

1. Operations User Guide
2. Configuration User Guide
3. Savings Account Origination User Guide
4. Current Account Origination User Guide
5. Retail Loans Origination User Guide
6. Term Deposit Origination User Guide
7. Alerts and Dashboard User Guide
8. Oracle Banking Common Core User Guide

2 Credit Card Origination Process Management

This document provides an overview of the credit card origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a credit card origination process.

The document is designed to help you create following types of credit card:

- Retail Credit Card

3 Overview of Credit Card Origination Process

Oracle Banking Origination is the middle office banking solution with a comprehensive coverage of Retail Banking Origination processes for Savings Account, Current Account, Term Deposit, Credit Card and Loans comprising of Home Loan, Personal Loan, Education Loan and Vehicle Loan for Individual customers, and Term Loan and Business Loan for Small and Medium Business customers. It is a Host-Agnostic solution.

It enables banks to deliver the improved user experience for various bank personas such as Sales Officers, Relationship Manager, Account Opening Officers, Branch Supervisor/Managers, Loan Officers, and Credit Officers and so on, handling defined functions in the lifecycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architected by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the origination request before the Credit Card Account is created in the Host. The new workflow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

This user guide explains the reference workflow for the Credit Card Origination process and further details the data that needs to be captured in the data segment linked to the specific stages.

The pre-defined process flow for Credit Card origination process is as follows:

- [4.2 Credit Card Application Entry Stage](#)
- [4.3 Credit Card Underwriting Stage](#)
- [4.4 Credit Card Assessment Stage](#)
- [4.5 Supervisor Approval Stage](#)

4 Credit Card Origination Process

This chapter includes following sections:

- [4.1 Credit Card Account](#)
- [4.2 Credit Card Application Entry Stage](#)
- [4.3 Credit Card Underwriting Stage](#)
- [4.4 Credit Card Assessment Stage](#)
- [4.5 Supervisor Approval Stage](#)
- [4.6 Action Tabs](#)
- [4.7 Request Clarification](#)
- [4.8 Reference and Feedback](#)

4.1 Credit Card Account

The initiation request for a credit card can be originated by authorized branch users or relationship managers or by approved bank agents, either through the traditional branch channel or through dedicated protocol services made available on digital devices like tablets or mobiles. The initiation of credit card request can be made for both new and existing customer types. Also, the platform supports processing of the credit card request from the customer which are directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST based service APIs.

The selection of the relevant credit card product on which the credit card is required can be initiated using this process, provided the user has the required access rights.

Please refer to the detailed setup and operation workflows for both asset and liability products initiation made available in the **Operations** user guide.

4.2 Credit Card Application Entry Stage

As detailed in the **Operations** user guide, all the product originations are initiated in the Application Initiation stage from the product catalogue. The cart operation in product catalogue allows to originate single or multiple product initiation. Once the Credit Card origination process is initiated either as a single product origination or as part of the multiple product selection, process orchestrator generates the credit card process reference number on submit of the Application Initiation stage. Process orchestrator also updates the record in the Free Task process for the 'Application Entry' stage also referred as 'Task' from orchestrator perspective.

The Application Entry stage is the first stage in the Credit Card Account Open process. After the initiate process is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture.

Prerequisite

Specify **User Id** and **Password**, and login to **Home screen**.

1. From **Home screen**, click **Tasks**. Under **Tasks**, click **Free Tasks**.

→ The **Free Tasks** screen is displayed.

The Application Entry stage has the following reference data segments:

- [4.2.1 Customer Information](#)
- [4.2.2 Financial Details](#)
- [4.2.3 Card Preference](#)
- [4.2.4 Add-On Card Holder](#)
- [4.2.5 Charge Details](#)
- [4.2.6 Interest Details](#)
- [4.2.7 Summary](#)

Please refer the below sections for more details on these data segments.

4.2.1 Customer Information

Customer Information is the first data segment of Application Entry stage, which allows to capture the customer-related information for the application.

1. Click **Acquire and Edit** for the application for which the Application Entry stage has to be acted upon.

→ The **Customer Information** screen is displayed.

Figure 2: Customer Information

The screenshot shows the 'Customer Information' form for Stanley M Michael. The form is divided into several sections:

- Customer Information Summary:** Shows Customer Type (Individual), Ownership (Single), and Number of Applicants (1).
- Customer Profile:** Displays the customer's name (Stanley M Michael), Date of Birth, Email, and Mobile Number. It also indicates if the customer is Existing or Primary.
- Personal Details:** Includes fields for Title, First Name, Middle Name, Last Name, Name in Local Language, Gender, Date of Birth, Resident Status, Country of Residence, Birth Country, Nationality, Citizenship By, Marital Status, ID Type, Unique ID No., Valid Till, Customer Segment, Customer Category, Preferred Language, Preferred Currency, Customer Location, Details Of Special Need, Remarks For Special Need, and Relationship Manager ID.
- Address:** A section for adding or editing the communication address.
- Signature:** A section for uploading a signature and adding remarks.
- Signature List:** A table with columns for Signature ID, Signature, Remarks, and Action.

At the bottom of the form, there are navigation buttons: 'Request Clarification', 'Back', 'Next', 'Save & Close', and 'Cancel'. The page number 'Page 1 of 1 (1 of 1 items)' is also visible.

2. Specify the details in the relevant data fields. The fields which are marked with asterisk are mandatory. User can add another customer (New or Existing) at this stage. Adding customer will enable the user to add additional customer or applicants. For more information on fields, refer to the field description table below.

Table 4: Customer Information – Field Description

Field	Description
Holding Pattern*	Displays the holding pattern selected in the Application Initiate stage.
Ownership*	<p>Select the ownership from the drop-down list. Available options are:</p> <ul style="list-style-type: none"> • Single • Joint <p>By default, the system displays the ownership selected in the Application Initiate stage.</p> <p>For Credit Card product, Joint ownership is not supported.</p>
Number of Applicant*	Displays the number applicants added for the account.
Applicant Name	Displays the name of the applicant.
Date of Birth	Displays the date of birth of the applicant.
E-mail	Displays the e-mail ID of the applicant.
Mobile Number	Displays the mobile number of the applicant.
Phone Number	Displays the phone number of the applicant.
Last Updated On	<p>Displays the date on which the financial details of an existing applicant was last updated.</p> <p>For a new applicant, it will remain blank.</p>
Edit	<p>Click Edit to modify the existing customer details and address details.</p> <p>Click Save to save the modified details and click Cancel to cancel the modifications.</p> <p>Edit will be visible only for existing customers.</p>
Existing Customer	Select to indicate if customer is existing customer.

Field	Description
CIF Number	Search and select the CIF number. This field appears only if Existing Customer is selected.
Primary Customer	Select to indicate if customer is primary customer.
Title*	Select the title of the applicant from the drop-down list.
First Name*	Specify the first name of the applicant.
Middle Name	Specify the middle name of the applicant.
Last Name*	Specify the last name of the applicant.
Name in Local Language	Specify the name in local language of the applicant.
Gender*	Specify the Gender of the applicant from the drop-down list.
Date of Birth*	Select the date of birth of the applicant.
Resident Status*	Select the residential status of the applicant from the drop-down list. Available options are: <ul style="list-style-type: none"> • Resident • Non-Resident
County of Residence*	Search and select the country code of which the applicant is a resident.
Birth Country	Search and select the country code where the applicant has born.
Citizenship By*	Search and select the country code for which applicant has citizenship.

Field	Description
Marital Status*	Select the marital status of the customer from the drop-down list. Available options are: <ul style="list-style-type: none"> • Married • Unmarried • Legally Separated • Widow
ID Type*	Select the identification document type for the applicant from the drop-down list.
Unique ID No*	Specify the number of the identification document provided.
Valid Till	Select the valid till date of the identification document provided.
Customer Segment	Select the segment of the customer. Available options are: <ul style="list-style-type: none"> • Emerging Affluent • High Net worth Individuals • Mass Affluent • Ultra NHI • Very NHI
Customer Sub Type*	Select the sub type of the customer. Available options are: <ul style="list-style-type: none"> • Individual • Minor • Student • Senior Citizen • Foreigner
Preferred Language*	Select the preferred language.
Preferred Currency*	Select the preferred currency.
Customer Location*	Click Search icon and select the Customer Location.

Field	Description
Details Of Special Need	Select the special need details. Available options are: <ul style="list-style-type: none"> • Blindness • Cerebral Palsy • Low vision • Locomotor disability • Leprosy-cured • Mental retardation • Mental illness • Hearing Impairment
Remarks For Special Need	Specify the remarks for special need selected.
Relationship Manager ID	Click Search icon and select the Relationship Manager ID.
Staff	Select to indicate if customer is staff of the bank.
Address	Displays the address details. Click on the top right side of the Address Tile. View – Click View to view the address details of an existing customer. Edit - Click Edit to update the address details of an existing customer. Delete – Click Delete to delete the address of an existing customer. To add multiple addresses of the applicant, click + icon on the Address to add additional addresses.

Field	Description
Address Type*	<p>Select the address type for the applicant from the drop-down list.</p> <ul style="list-style-type: none"> • Permanent Address • Residential Address • Communication Address • Office Address <p>One of the address type must be Communication Address.</p>
Building*	Specify the house or office number, floor and building details.
Street*	Specify the street.
Locality	Specify the locality name of the address.
City*	Specify the city.
State*	Specify the state.
Country*	Specify the country code.
Zip Code	Specify the zip code of the address.
E-mail*	Specify the e-mail address of the applicant.
Mobile*	Specify the ISD code and the mobile number of the applicant.
Phone	Specify the ISD code and the phone number of the applicant.
Signatures	<p>Click  icon to upload the signatures for the customer.</p> <p>Click Add button to add the additional signatures.</p> <p>Click Cancel button to discard the added details.</p> <p>On Submit, signature will be handed off to Oracle Banking Party.</p>

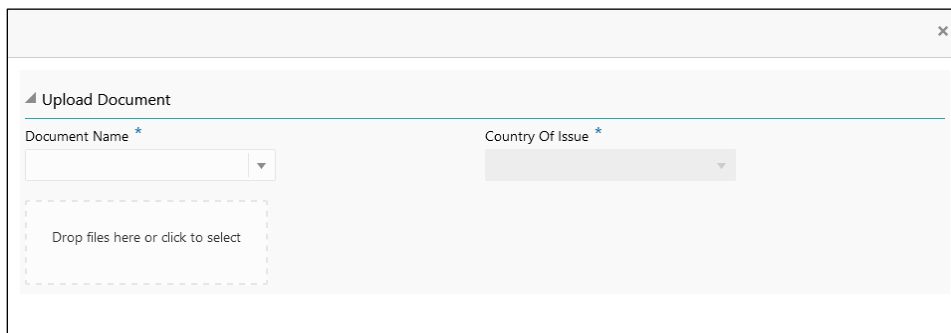

Field	Description
Upload Signature	Drag and drop the signature file or click on Select or drop files here to browse and upload the signature from the local system. NOTE: PNG & JPEG file formats are supported.
Uploaded Signature	Displays the uploaded signature.
Remarks	Specify the remarks related to the signature.
Signature ID	Displays the Signature ID for the added signature.
Signature	Displays the added signature.
Remarks	Displays the remarks for the added signature.
Action	Click  to edit the added signatures Click  to delete the added signatures.
Request Clarification	Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification , refer to the section Request Clarification .
Back	Click Back to navigate to the previous data segment within a stage.

Field	Description
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p>
Save & Close	<p>Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.</p>
Cancel	<p>Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.</p>

3. Click **Upload Document** to fetch the customer information from the uploaded documents.

→ The **Customer Information - Upload Document** screen is displayed

Figure 3: Customer Information – Upload Document

The fields which are marked with asterisk are mandatory. For more information on fields, refer to the field description table below.

Table 5: Customer Information - Upload Document – Field Description

Field	Description
Document Name*	Select the document name from the drop-down list. The available options are: <ul style="list-style-type: none"> • Driving License • Passport
Country of Issue*	This field is defaulted, for the document name is selected. NOTE: This fields is editable.
Upload Document	Drag and drop the document or click on Select or drop files here to browse and upload the document from the local system. NOTE: PNG & JPEG file formats are supported.

→ The **Verify Information** section is displayed after the document is uploaded.

Figure 4: Verify Information

The screenshot shows a 'Verify Information' form with a preview of an Arizona Driver License at the top. The license includes fields for CLASS, END, REST, DLN, DOB, EXP, SEX, HGT, WGT, EYES, HAIR, ISS, and DD. Below the preview are input fields for: First Name, Middle Name, Last Name, Date Of Birth, Gender, Unique Id Type (set to Driving License), Unique Id, Expiry Date, Address Type, Building, Street, City, State, Country, Zipcode, and Issue Date. There are also radio buttons for 'Update Address' (Yes/No) and an 'Update & Save' button at the bottom right.

4. On the **Verify Information** section, the fields are pre-populated with extracted data. For more information on fields, refer to the field description table below.

Table 6: Verify Information – Field Description

Field	Description
First Name	This field is pre-populated with the extracted data. Modify the first name of the applicant, if required.
Middle Name	This field is pre-populated with the extracted data. Modify the middle name of the applicant, if required.
Last Name	This field is pre-populated with the extracted data. Modify the last name of the applicant, if required.
Date of Birth	This field is pre-populated with the extracted data. Modify the date of birth of the applicant, if required.
Gender	This field is pre-populated with the extracted data. Modify the gender of the applicant, if required.
Unique Id Type	Displays the unique ID type of the applicant based on the document uploaded.
Unique Id No	This field is pre-populated with the extracted data. Modify the unique ID number of the uploaded document, if required.
Unique Id Expiry	This field is pre-populated with the extracted data. Modify the unique ID expiry date of the uploaded document, if required.
Birth Country	This field is pre-populated with the extracted data. Modify the birth country of the applicant, if required.
Nationality	This field is pre-populated with the extracted data. Modify the nationality of the applicant. NOTE: This field appears only if the Document Name is selected as Passport .

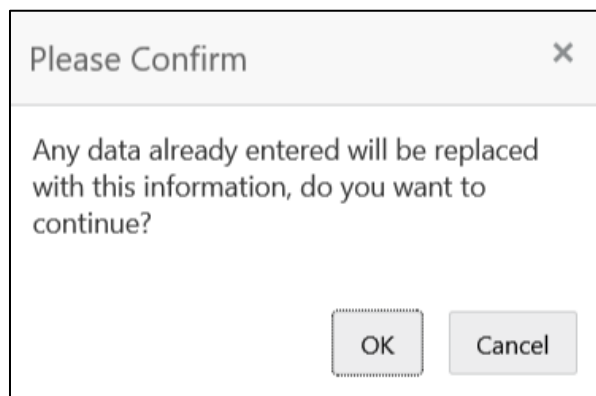

Field	Description
Address Type	<p>This field is pre-populated with the extracted data. Modify the address type of the applicant.</p> <p>The available options:</p> <ul style="list-style-type: none"> • Permanent address • Residential address • Communication address • Office address <p>NOTE: By default, the permanent address is selected. This field appears only if the Document Name is selected as Driving License.</p>

Update Address	Select the option whether the address has to be updated with the extracted data. The available options are <ul style="list-style-type: none"> • Yes • No

- Click **Update and Save** to pre-populated the data fields in the **Customer Information** screen.

→ The **Confirmation** screen displays.

Figure 5: Confirmation

- a. Click **OK** to override the data fields with the extracted data.
- b. Click **Cancel** to cancel the override action and return to **Verify Information** screen.

Customer Dedupe Check:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

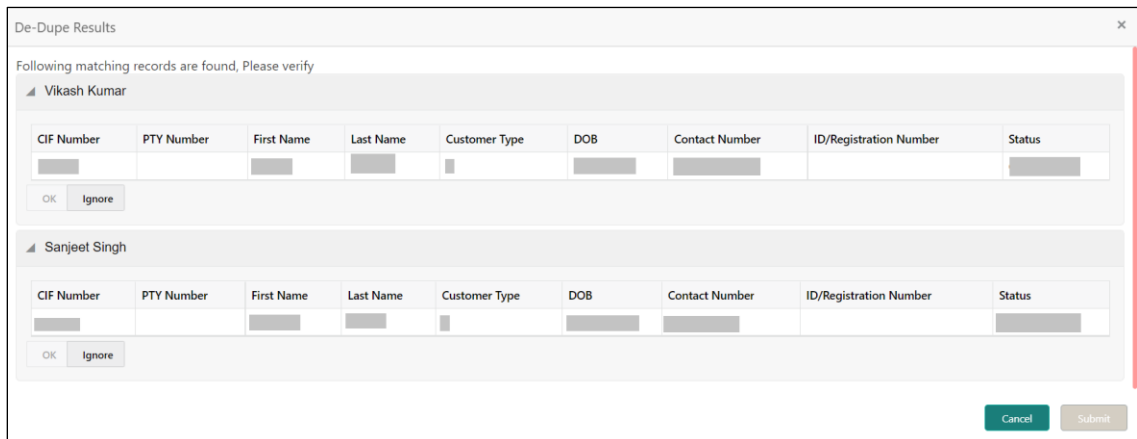

If the **Customer Dedupe** service check is enabled, upon capturing the New Customer details, the system compares the same with the existing customer’s records. If there are any matching hits, the list of Duplicate records which matches to the New Customer Details will be displayed.

The customer details are compared based on a set of attributes configured. (Refer to Oracle Banking Party Documentation for Dedupe attributes configuration)

6. Click **Next** to perform the dedupe check and display the result.

→ The **De-Dupe Result** screen is displayed.

Figure 6: De-Dupe Results

For more information on fields, refer to the field description table below.

Table 7: De-Dupe Results – Field Description

Field	Description
CIF Number	Displays the CIF Number.
PTY Number	Displays the PTY Number.
First Name	Displays the First Name.
Last Name	Displays the Last Name.

Field	Description
Customer Type	Displays the Customer Type.
DOB	Displays the Date of Birth.
Contact Number	Displays the Contact Number.
ID/Registration Number	Displays the Registration number.
Status	Displays the Status of the De-Dupe check.

The dedupe check result will be displayed within a grid and the user will have to select the relevant row with the following options:

- **OK** - If the user selects a row in the grid and click **OK**, the selected customer record data will be considered and it replaces the New Customer Details captured in the **Customer Information** data segment.
- **Ignore** - If the user does not want to select any row in the grid and click **Ignore**, the New Customer Details captured will be persisted and taken into the **Customer Information** data segment.
- **Submit** – If the user wants to submit the selected actions on the dedupe results, click **Submit**. This will take the user to the next data segment by performing the selected actions
- **Cancel** - If the user wants to cancel any action which needs to be taken on the Dedupe results, click **Cancel**. This will take the user back to the **Customer Information** data segment without any change in the data of the earlier captured New Customer details.

4.2.2 Financial Details

Financial details can be captured for a single applicant or a customer for the given credit card application as the case may be. Separate shutter panels are available applicant wise to capture the basic details and the income and expense details.

1. Click **Next** in **Customer Information** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Financial Details** screen is displayed.

Cancel	<p>Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.</p>

4.2.4 Add-On Card Holder

This data segment enables the user to capture any number of add-on card holder details for the given application.

1. Click **Next** in **Card Preference** screen to proceed with the next data segment, after successfully capturing the data.
→ The **Add-On Card Holder** screen is displayed.
2. Click **Add Card Holder** to add the details of the Add-on Applicants.

Figure 10: Add-On Card Holder

3. Specify the details in the relevant data fields. The fields which are marked with asterisk are mandatory. For more information on menus, refer to the field description table below.

Table 10: Add-On Card Holder – Field Description

Field	Description
Applicant Name	Displays the name of the Add-on applicant.
Date of Birth	Displays the date of birth of the Add-on applicant.
E-mail	Displays the e-mail ID of the Add-on applicant.
Mobile	Displays the mobile number of the Add-on applicant.
Phone	Displays the phone number of the Add-on applicant.

Field	Description
Last Updated On	Displays the date on which the Add-On Card Holder of an existing applicant was last updated. For a new applicant, it will remain blank.
Existing Customer	Select to indicate if customer is existing customer or not.
CIF Number	Search and select the CIF number. This field appears only if Existing Customer is selected.
Relationship with Applicant	Select the relationship with customer from the drop-down list. <ul style="list-style-type: none"> • Father • Mother • Friend • Spouse • Brother
Title*	Select the Title.
First Name*	Specify the first name.
Middle Name	Specify the middle name.
Last Name*	Specify the last name.
Date of Birth*	Select the date of birth.
ID Type*	Select the identification document type for the Add-on applicant from the drop-down list.
Unique ID No*	Specify the number of the identification document provided.
Valid Till*	Select the valid till date of the identification document provided.

Field	Description
Address	Address is to capture the address details of the Add-on applicant.
Building*	Specify the building.
Street*	Specify the street.
Locality*	Specify the locality.
City*	Specify the city.
State*	Specify the state.
Country*	Specify the country.
Zip Code	Specify the country.
E-mail*	Specify the e-mail id of the Add-on applicant.
Mobile*	Specify the mobile number of the Add-on applicant.
Phone	Specify the phone number of the Add-on applicant.
Card Preference	Specify the card preference details for the Add-on applicant.
Embossed Name*	Specify the name embossed on the card.
Card Limit Allowed*	Displays the maximum card limit allowed.
Image on Picture Card	Select the image file from the drive and click Upload to add the image to card.

Field	Description
Request Clarification	<p>Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer.</p> <p>For more information on Request Clarification, refer to the section Request Clarification.</p>
Back	<p>Click Back to navigate to the previous data segment within a stage.</p>
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p>
Save & Close	<p>Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.</p>
Cancel	<p>Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.</p>

4.2.5 Charge Details

The Charge Details data segment will enable the user to view the charges applicable / levied for this credit card application. These charge details are fetched from the Host (APIs – Pull).

1. Click **Next** in **Add-On Card Holder** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Charge Details** screen is displayed.

Figure 11: Charge Details

2. Specify the details in the relevant data fields. The fields which are marked with asterisk are mandatory. For more information on menus, refer to the field description table below.

Table 11: Charge Details – Field Description

Field	Description
Charge	Displays the charge.
Amount	Displays the amount.
Rate	Displays the rate for the charge component.
Waive	The user will have the option to waive all charges or selectively waive a particular type of charge. For example – Late Fee charges or Annual Charges.

Field	Description
Request Clarification	<p>Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer.</p> <p>For more information on Request Clarification, refer to the section Request Clarification.</p>
Back	<p>Click Back to navigate to the previous data segment within a stage.</p>
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p>
Save & Close	<p>Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.</p>
Cancel	<p>Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.</p>

4.2.6 Interest Details

Interest Details data segment will enable the user to view the interest rates and margin (%) applicable / levied for this credit card application.

1. Click **Next** in **Charge Details** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Interest Details** screen is displayed.

Figure 12: Interest Details

2. Specify the details in the relevant data fields. The fields which are marked with asterisk are mandatory. For more information on menus, refer to the field description table below.

Table 12: Interest Rates – Field Description

Field	Description
Interest Type	Interest Type is fetched from host back end product to which this credit card account is mapped via the Business Product configuration.
Interest Rate (In %)	Interest Rate is fetched from host back end product to which this credit card account is mapped via the Business Product configuration.
Margin	Specify the customer margin.
Effective Rate (In %)	Specify the effective rate for the loan calculated as Interest Rate + or – Margin .

Field	Description
Request Clarification	<p>Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer.</p> <p>For more information on Request Clarification, refer to the section Request Clarification.</p>
Back	<p>Click Back to navigate to the previous data segment within a stage.</p>
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p>
Save & Close	<p>Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.</p>
Cancel	<p>Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.</p>

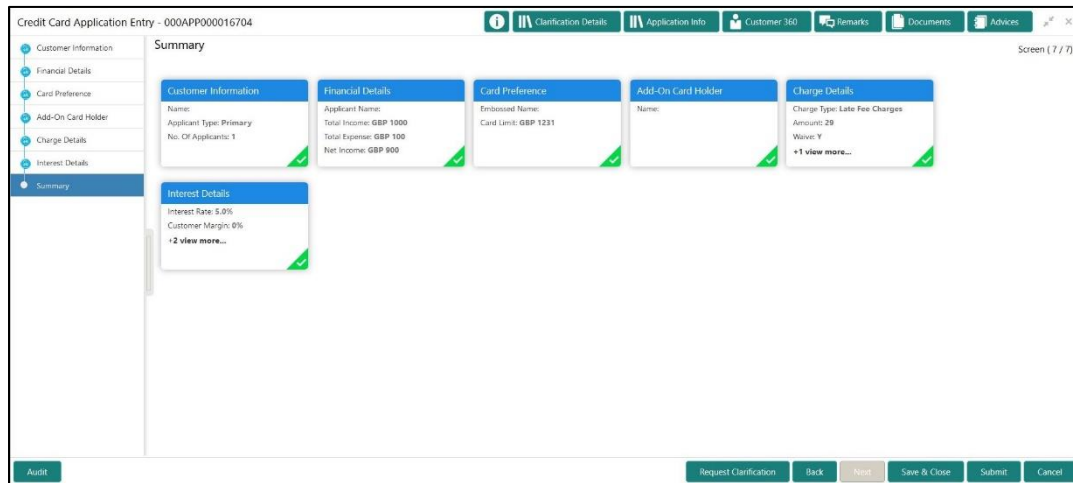

4.2.7 Summary

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Interest Details** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 13: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 13: Summary Application Entry – Field Description

Data Segment	Description
Customer Information	Displays the Customer information.
Financial Details	Displays the Financial details.
Card Preference	Displays the card preference information.
Add-On Card Holder	Displays the Add-On Card Holder details.
Charge Details	Displays the charge details.
Interest Details	Displays the interest details.

Data Segment	Description
Request Clarification	<p>Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer.</p> <p>For more information on Request Clarification, refer to the section Request Clarification.</p>
Back	Click Back to navigate to the previous data segment within a stage.
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p> <p>NOTE: Next is deactivated in the Summary screen as the capture of data across all the data segments in this stage are completed.</p>
Save & Close	Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Submit	Click Submit to submit the application. The system triggers the business validation to ensure the application is entitled for submission to the next stage.
Cancel	Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified.

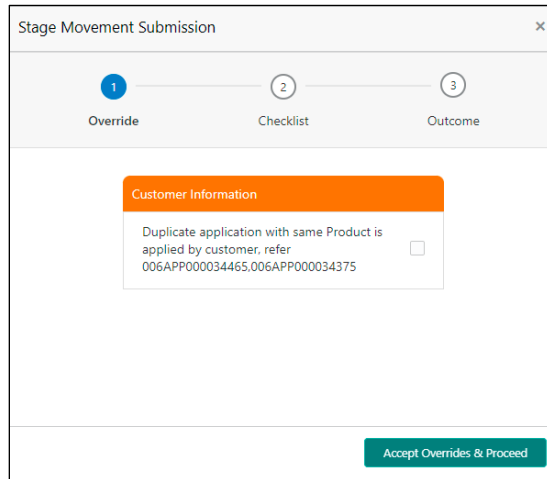

Application De-Dupe:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

→ The **Overrides** screen is displayed.

Figure 14: Overrides

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

The system displays the following error message if overrides are not accepted.

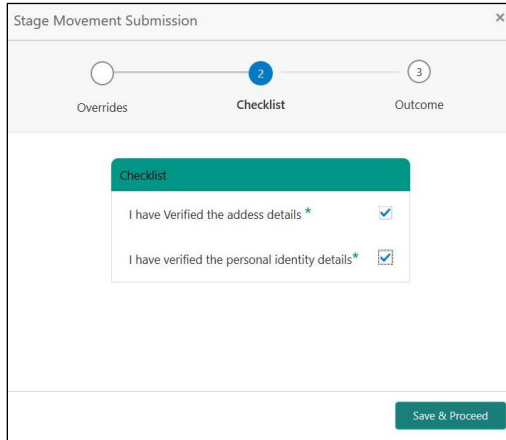

Figure 15: Error Message

3. Click **Accept Overrides & Proceed**.

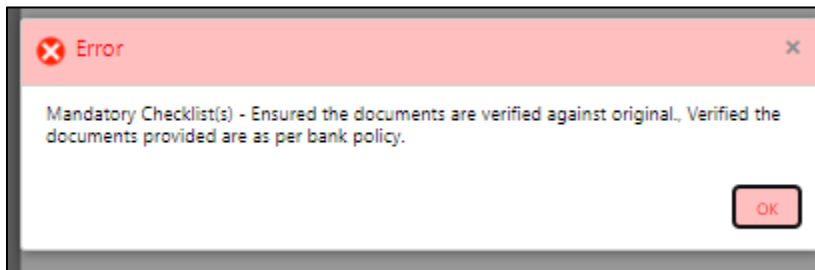

→ The **Checklist** screen is displayed.

Figure 16: Checklist

The system displays the following error message if checklist is not verified.

Figure 17: Error Message

4. Click **Save & Proceed**.

→ The **Outcome** screen is displayed.

Figure 18: Outcome

5. Select **Proceed** outcome from the drop-down list. Available options are:

- Proceed
- Reject By Bank

It will logically complete the **Application Entry** stage for the credit card application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Credit Card Application Underwriting** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

6. Enter the remarks in **Remarks**.

7. Click **Submit**.

→ The **Confirmation** screen is displayed.

Figure 19: Confirmation

8. Click **Go to Free Task**.

→ The **Free Tasks** screen is displayed.

The system successfully moves the Application Reference Number along with the process reference numbers [Credit Card Account] to the Credit Card Application Underwriting stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

NOTE:

- If an application is returned to the Application Entry stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.

4.3 Credit Card Underwriting Stage

The underwriting process of the lender bank or credit bureau is set to determine if an applicant's credit card application is an acceptable risk. It is a process to assess the applicant's ability to repay the credit card balance based on an analysis of their credit and financial capacity provided by the applicant.

The Credit Card Underwriting stage is the next representative stage in the Credit Card Account Open process. After the Credit Card Application Entry stage is completed successfully, the application can be acquired by the user who has to access rights for the given stage and progress with the data capture. The user can acquire the application from FREE TASK.

The Credit Card Underwriting stage has the following reference data segments:

- [4.3.1 Credit Rating Details](#)
- [4.3.2 Qualitative Scorecard](#)
- [4.3.3 Summary](#)

4.3.1 Credit Rating Details

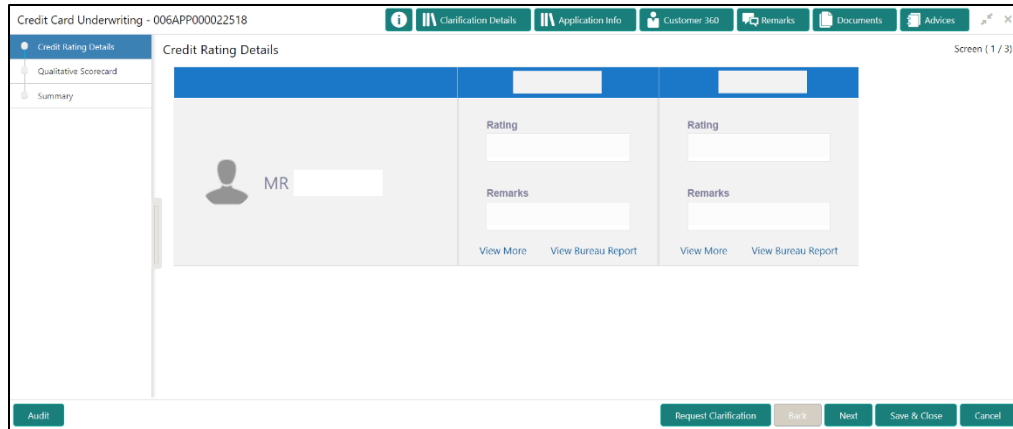

Credit Rating Details is the first data segment of Credit Card Underwriting stage. The user can acquire the application from Free Tasks list. This data segment will provide the information on the External Rating Agencies Rating / Scores for the Credit Card Applicant. The interface with external rating agencies will be provided.

Oracle Banking Origination is now integrated with Bureau Integration Service to fetch the details of the Rating for the given applicant(s).

1. Click **Acquire & Edit** in the Free Tasks screen of the previous stage – Credit Card Application Entry stage.

→ The **Credit Rating Details** screen is displayed.

Figure 21: Credit Rating Details

2. Specify the details in the relevant data fields. The fields which are marked with asterisk are mandatory. For more information on data elements, refer to the field description table below.

Table 14: Credit Rating Details – Field Description

Field	Description
Customer Name	Displays the customer name.
Agency Name	Displays the configured agency.
Rating	Specify the ratings. System populates the credit rating score from the Bureau Integration Service.
Remarks	Specify the remarks.
Request Clarification	Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification , refer to the section Request Clarification .

Field	Description
Back	Click Back to navigate to the previous data segment within a stage. NOTE: Since this is the first screen on the workflow, Back will be disabled.
Next	Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.
Save & Close	Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Cancel	Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.

3. Click **View More** to view the additional Credit Bureau details.

→ The **Additional Credit Bureau Details** screen is displayed.

Figure 22: Additional Credit Bureau Details

Institution Name	Account Number	Account Type	Loan Amount	Outstanding Balance	Account Opening Date	Installment Amount	Delinquency Bucket	Delinquency Amount
		Loan	100000	86820	2020-01-07	2162	NIL	NIL
		Overdraft	22000	0	2019-06-07	0	NIL	NIL

4. For more information on data elements, refer to the field description table below.

Table 15: Additional Credit Bureau Details – Field Description

Field	Description
Institution Name	Displays the institution name.
Account Number	Displays the account number of the applicant.
Account Type	Displays the account type.
Loan Amount	Displays the loan amount.
Outstanding Balance	Displays the outstanding balance.
Account Opening Date	Displays the account opening date.
Installment Amount	Displays the installment amount.
Delinquency Bucket	Displays the delinquency bucket.
Delinquency Amount	Displays the delinquency amount.

NOTE: Oracle Banking Origination has been integrated with Bureau Integration Service which will make a call to the Credit Bureau to get Credit Rating Score, additional details and Bureau report.

5. Click **View Bureau Report** to view and download the bureau report from the external agency.

4.3.2 Qualitative Scorecard

Qualitative Scorecard is the next data segment of Credit Card Underwriting stage. This segment enables the user to capture the relevant evaluation details for each applicant based on the configured Questionnaire Code. The Questionnaire Code is configured to the Credit Card Business Product.

Oracle Banking Origination is now integrated with Decision Service to fetch the Qualitative Score for the given applicant(s) based on the Question and Answers provided.

1. Click **Next** in **Credit Rating Details** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Qualitative Scorecard** screen is displayed.

Figure 23: Qualitative Scorecard

2. Specify the details in the relevant data fields. The fields which are marked with asterisk are mandatory. For more information on fields, refer to the field description table below.

Table 16: Qualitative Scorecard – Field Description

Field	Description
Applicant Name	Displays the name of the applicant.
Questionnaire Code	Displays the questionnaire code configured for the business product.
Questionnaire Description	Displays the description attached to the Credit Card Account.

Field	Description
Question and Answer	Displays applicant wise questions and answers.
Request Clarification	<p>Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer.</p> <p>For more information on Request Clarification, refer to the section Request Clarification.</p>
Back	Click Back to navigate to the previous data segment within a stage.
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p>
Save & Close	Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Cancel	Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.

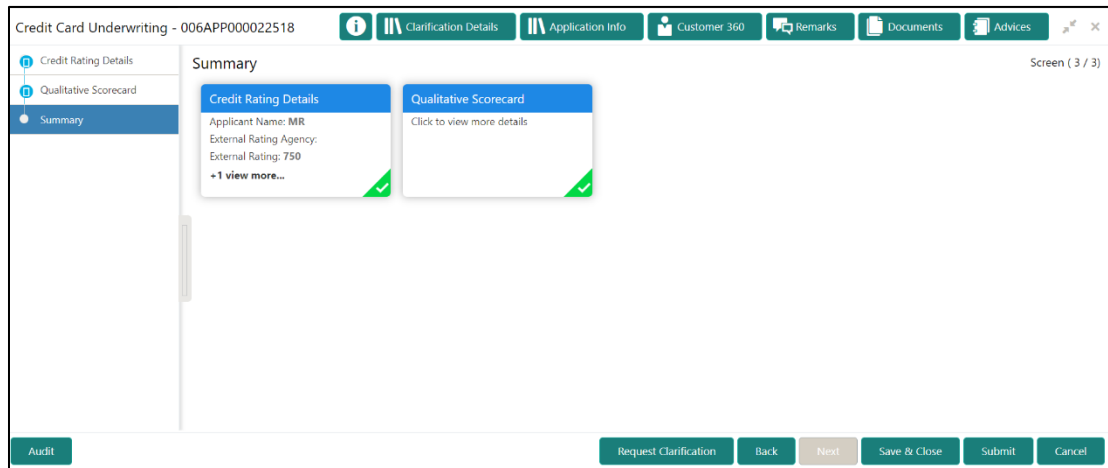

4.3.3 Summary

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Qualitative Scorecard** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 24: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on tiles, refer to the field description table below.

Table 17: Summary – Field Description

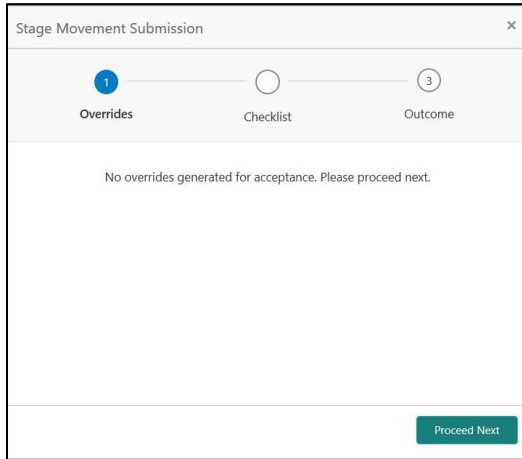

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Qualitative Scorecard	Displays the qualitative scorecard details.

Data Segment	Description

Back	Click Back to navigate to the previous data segment within a stage.
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p> <p>NOTE: Next is deactivated in the Summary screen as the capture of data across all the data segments in this stage are completed.</p>
Save & Close	Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Submit	Click Submit to submit the application. The system triggers the business validation to ensure the application is entitled for submission to the next stage.
Cancel	Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified.

→ The **Overrides** screen is displayed.

Figure 25: Overrides

The system displays the following error message if overrides are not accepted.

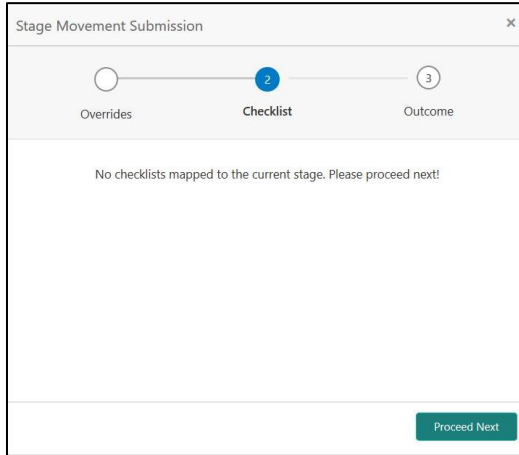

Figure 26: Error Message

3. Click **Accept Overrides & Proceed**.

→ The **Checklist** screen is displayed.

Figure 27: Checklist

The system displays the following error message if checklist is not verified.

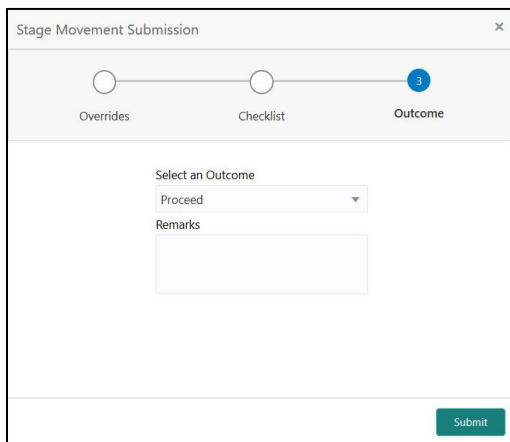

Figure 28: Error Message

4. Click **Save & Proceed**.

→ The **Outcome** screen is displayed.

Figure 29: Outcome

Select an **Outcome** drop-down has the following options:

- Proceed
- Return to Application Entry stage
- Reject By Bank

5. Select **Proceed** outcome from the drop-down list. It will logically complete the **Credit Card Underwriting** stage for the Credit Card Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Credit Card Assessment**.

The stage movement is driven by the business configuration for a given combination of **Process Code, Life Cycle and Business Product Code**.

6. Enter the remarks in **Remarks**.

7. Click **Submit**.

→ The **Confirmation** screen is displayed.

Figure 30: Confirmation

8. Click **Go to Free Task**.

→ The **Free Tasks** screen is displayed.

Figure 31: Free Tasks

The image shows a screenshot of the "Free Tasks" screen in a web application. The table below represents the data shown in the screenshot.

The system successfully moves the Application Reference Number along with the process reference numbers [Credit Card Account] to the Credit Card Assessment stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

4.4 Credit Card Assessment Stage

After the application entry and underwriting data segment details are captured and verified, the application is sent for assessment. The Credit Card Assessment stage of the Credit Card account open process workflow will enable the Bank to analyze the details that have been captured in the Credit Card Application Entry / Credit Card Underwriting stages and decide whether the application met the acceptance criteria as specified by the Bank or Credit Bureau.

Oracle Banking Origination is now integrated with Decision Service to fetch the assessment details and system recommendation for the given applicant(s) based on the details captured in the previous stages.

In the Credit Card Assessment screen, provide the required details under each Data segment. The Credit Card Assessment stage has the following reference data segments:

- [4.3.1 Credit Rating Details](#) – View only as available in Underwriting stage
- [4.3.2 Qualitative Scorecard](#) – View only as available in Underwriting stage
- [4.4.1 Assessment Details](#)
- [4.4.2 Summary](#)

4.4.1 Assessment Details

Assessment Details is the first data segment of Credit Card Assessment stage. The user can acquire the application from FREE TASK. **Assessment Details** screen enables the user to understand the evaluation and view the system recommendation based on the following parameters.

- Logical Model
- Borrowing Capacity
- Qualitative Score
- Quantitative Score
- Decision & Grade

1. Click **Acquire & Edit** in the Free Tasks screen of the previous stage – Credit Card Underwriting Stage.

→ The **Assessment Details – Logical Model** screen is displayed.

Figure 32: Assessment Details – Logical Model

The screenshot shows the 'Assessment Details' screen for a credit card assessment. The interface includes a navigation menu on the left with options like 'Credit Rating Details', 'Qualitative Scorecard', and 'Assessment Details'. The main content area displays the following information:

- Requested Amount:** GBP 50000
- Tenure:** (represented by a clock icon)
- Rate Type:** Fixed
- Rate of Interest:** 5%
- Total Weighted Score:** 92
- Approved Amount:** GBP 50000
- Proposed Rate of Interest:** %
- Effective Rate:** % 5
- System Recommendation:** Approved
- Grade:** A

Below this information, there are five summary cards:

- Logical Model:** PASS
- Borrowing Capacity:** 320240.00
- Qualitative Score:** 88
- Quantitative Score:** 92.5
- Decision & Grade:** Grade : A

The 'Logical Model' section is expanded, showing the following details:

- Logical Model Code:** LMCC1001
- Description:** Logic Model for Credit Card
- Status:** PASS

A table below lists the rules used in the logical model:

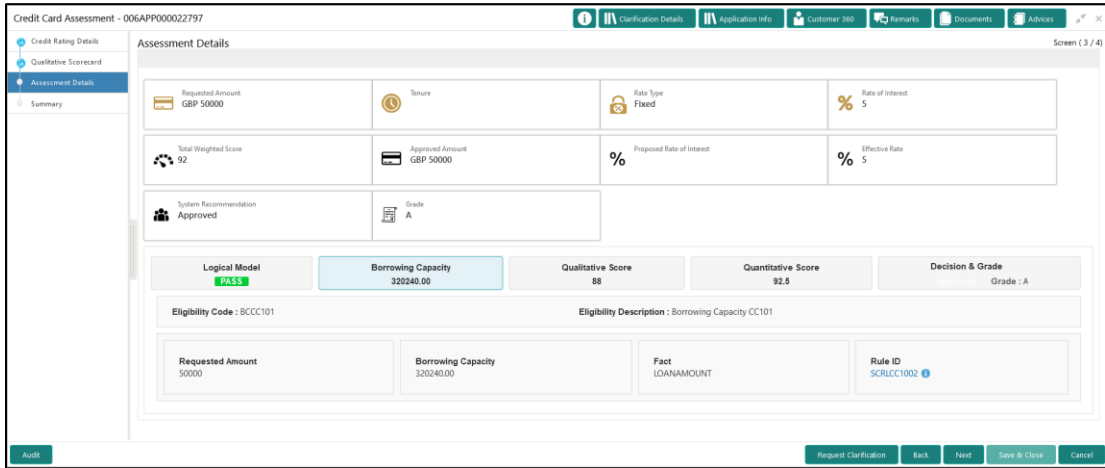

Rule ID	Sequence	Status
Rule1001	1	PASS
CRSCR	2	PASS

At the bottom of the screen, there are navigation buttons: 'Back', 'Request Clarification', 'Next', 'Save & Close', and 'Cancel'.

2. Click **Borrowing Capacity** tab under **Assessment Details** screen to view the borrowing capacity of the applicant.

→ The **Assessment Details – Borrowing Capacity** screen is displayed.

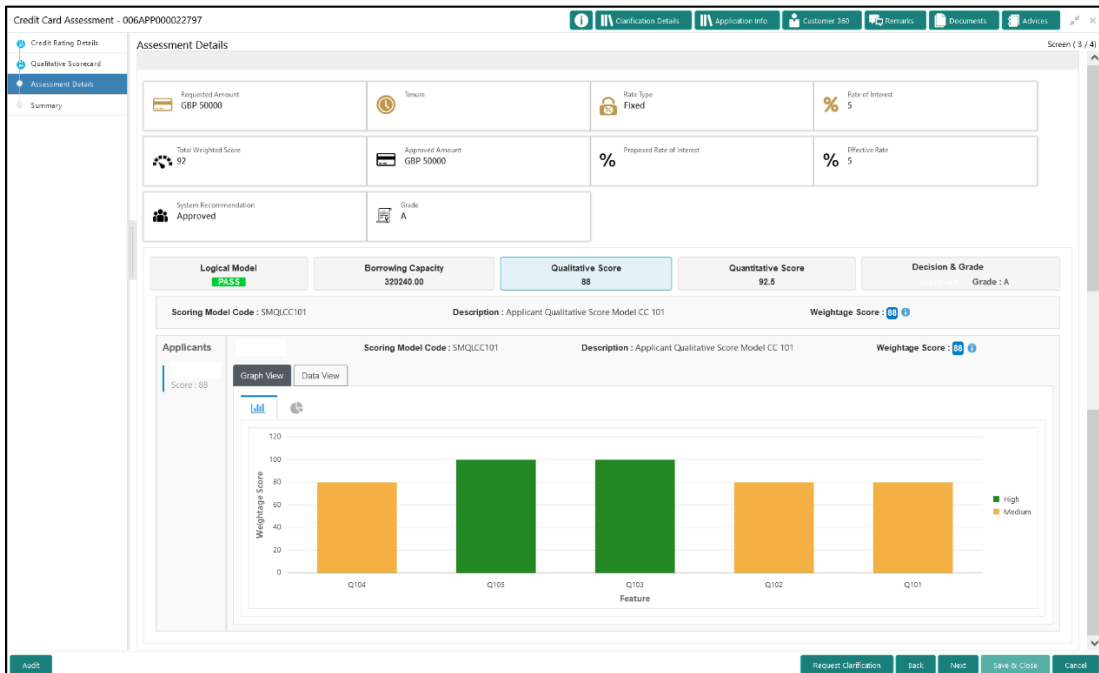

Figure 33: Assessment Details – Borrowing Capacity

3. Click **Qualitative Score** tab under **Assessment Details** screen to view the qualitative score for the applicant.

→ The **Assessment Details – Qualitative Score – Graph View** screen is displayed.

Figure 34: Assessment Details – Qualitative Score – Graph View

- Click **Data View** tab under **Qualitative Score** screen to view the qualitative scoring data of the applicant.

→ The **Assessment Details – Qualitative Score – Data View** screen is displayed.

Figure 35: Assessment Details – Qualitative Score – Data View

The screenshot displays the 'Assessment Details' screen for a credit card application. The interface includes a navigation menu on the left with options like 'Credit Rating Details', 'Qualitative Scorecard', 'Assessment Details', and 'Summary'. The main content area shows several key metrics:

- Requested Amount:** GBP 50000
- Tenure:** (represented by a clock icon)
- Rate Type:** Fixed
- Rate of Interest:** 5%
- Total Weighted Score:** 92
- Approved Amount:** GBP 50000
- Proposed Rate of Interest:** (represented by a percentage icon)
- Effective Rate:** 5%
- System Recommendations:** Approved
- Grade:** A

Below these metrics, there are summary boxes for 'Logical Model' (PASSED), 'Borrowing Capacity' (20240.00), 'Qualitative Score' (88), 'Quantitative Score' (92.5), and 'Decision & Grade' (Grade: A). The 'Scoring Model Code' is SMQ/C/C101, and the description is 'Applicant Qualitative Score Model CC 101'. The 'Weightage Score' is 88.

The 'Applicants' section shows a 'Score: 88' and a 'Data View' tab. The 'Scoring Details' table is as follows:

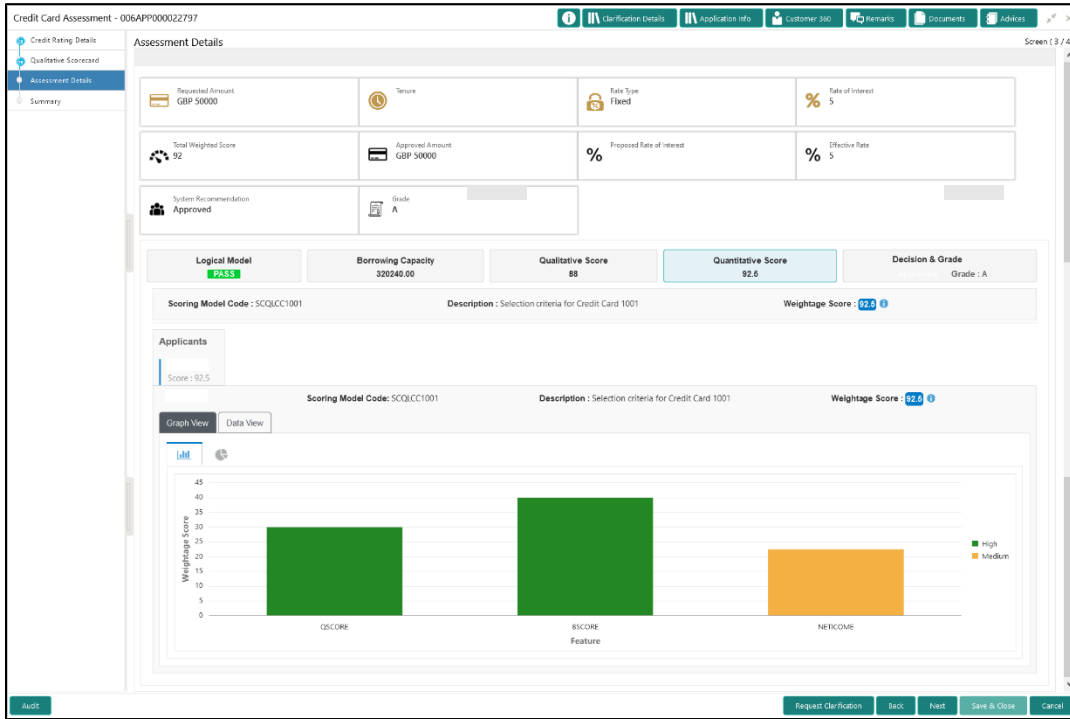

Question Code	Question	Value	Score
Q104	How Many Years in the Current Employment?	Less than 10 years	80
Q105	Whether Applicant Undergoing Any Medical Treatment?	None	100
Q103	What is Current Residence Type	Own House	100
Q102	How Long Applicant Staying in the Current Residence	Less than 10 years	80
Q101	How long applicant staying in the current residence	Less than 10 years	80

NOTE: For multi borrower applications, the user can view the Qualitative details of individual borrowers by clicking on each borrower's name.

- Click **Quantitative Score** tab under **Assessment Details** screen to view the quantitative score for the application.

→ The **Assessment Details – Quantitative Score – Graph View** screen is displayed.

Figure 36: Assessment Details – Quantitative Score – Graph View

- Click **Data View** tab under **Quantitative Score** screen to view the quantitative scoring data of the applicant.

→ The **Assessment Details – Quantitative Score – Data View** screen is displayed.

Figure 37: Assessment Details – Quantitative Score – Data View

The screenshot displays the 'Assessment Details' screen for a credit card application. The 'Quantitative Score' section is active, showing a score of 92.5. Below this, there is a table titled 'Scoring Details' with the following data:

Feature	Value	Range Type	Range	Weightage %	Score	Weightage Score
Qualitative Score	88.00	Value	70-100.01	30	100	30
Credit Bureau Score	750	Value	750-1000	40	100	40
Net Income	80060	Value	50000-99999	30	75	22.5

NOTE: For multi borrower applications, the user can view the Qualitative details of individual borrowers by clicking on each borrower’s name.

- Click **Decision & Grade** tab under **Assessment Details** screen to view the decision and grade for the application.

→ The **Assessment Details – Decision & Grade** screen is displayed.

Figure 38: Assessment Details – Decision & Grade

The screenshot displays the 'Assessment Details' screen for a credit card application, focusing on the 'Decision & Grade' section. The decision is 'Approved' and the grade is 'A'. Below this, there is a table titled 'Decision' and 'Grade' with the following data:

Quantitative Score	Quantitative Score Range	Decision
92.50	70-100	Approved

Quantitative Score	Quantitative Score Range	Grade
92.50	70-100	A

For more information on fields, refer to the field description table below.

Table 18: Assessment Details – Field Description

Field	Description
Requested Amount	Specify the requested card limit.
Tenure	Displays the tenure.
Rate Type	Displays the rate type.
Rate of Interest	Displays the interest rate.
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved card limit.
Proposed Rate of Interest	Displays the proposed rate of interest.
Effective Rate	Displays the effective rate of interest.
System Recommendation	<p>Displays the system recommendations.</p> <p>Available options are:</p> <ul style="list-style-type: none"> • Approved • Rejected
Grade	Displays the grade of the applicant.
Logical Model	
Logical Model Code	Displays the logical model code configured for the product.
Description	Displays the description of the configured logical model.
Status	Displays the overall status of the logical model.
Rule ID	Displays the Rule ID configured in the logical model.
Sequence	Displays the sequence of the configured rules.
Status	Displays the status of the configured rule.

Field	Description
Borrowing Capacity	
Eligibility Code	Displays the unique eligibility code configured for the product.
Eligibility Description	Displays the description of the configured eligibility.
Requested Amount	Displays the requested card limit. If the calculated Borrowing Capacity is more than the Requested Amount, then Approved Amount is stamped to Requested Amount.
Borrowing Capacity	Displays the calculated borrowing capacity of the applicant.
Fact	Displays the fact configured in the eligibility code.
Rule ID	Displays the rule configured in the eligibility code.
Qualitative Score	
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Weightage Score	Displays the overall weightage score for the applicant(s). The weightage score also appears in the respective applicant's tab in case of the multiple applicants.
Qualitative Score - Scoring Details	
Question Code	Displays the question code configured for Qualitative Scoring Model
Question	Displays the question configured in question code.
Value	Displays the answers provided by the applicant.
Score	Displays the calculated score based on the answers.
Quantitative Score	
Scoring Model Code	Displays the scoring model code configured for the product.

Field	Description
Description	Displays the description of the scoring model.
Weightage Score	Displays the overall weightage score for the applicant(s). The weightage score also appears in the respective applicant's tab in case of the multiple applicants.
Quantitative Score - Scoring Details	
Feature	Displays the feature configured in the Quantitative Scoring Model.
Value	Displays the value of the application for the configured feature.
Range Type	Displays the range type configured in the Quantitative Scoring Model.
Range	Displays the range for the value of the application.
Weightage %	Displays the weightage percentage configured for the feature.
Score	Displays the score configured for the range.
Weightage Score	Displays the calculated weightage for each feature.
Decision & Grade	
Model Code	Displays the model code configured for the product.
Model Description	Displays the description of the model code.
Decision	Displays the recommended decision for the application.
Grade	Displays the recommended grade for the application
Decision & Grade – Decision	
Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Decision	Displays the decision configured for the quantitative score.

Field	Description
Decision & Grade – Grade	
Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Grade	Displays the grade configured for the quantitative score.
Request Clarification	<p>Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer.</p> <p>For more information on Request Clarification, refer to the section Request Clarification.</p>
Back	<p>Click Back to navigate to the previous data segment within a stage.</p> <p>Since this is the first screen on the workflow, Back will be disabled.</p>
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p>
Save & Close	Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Cancel	Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.

Based on the range of qualitative and quantitative scores, the system provides a suggestive recommendation and the Card Limit which can be sanctioned.

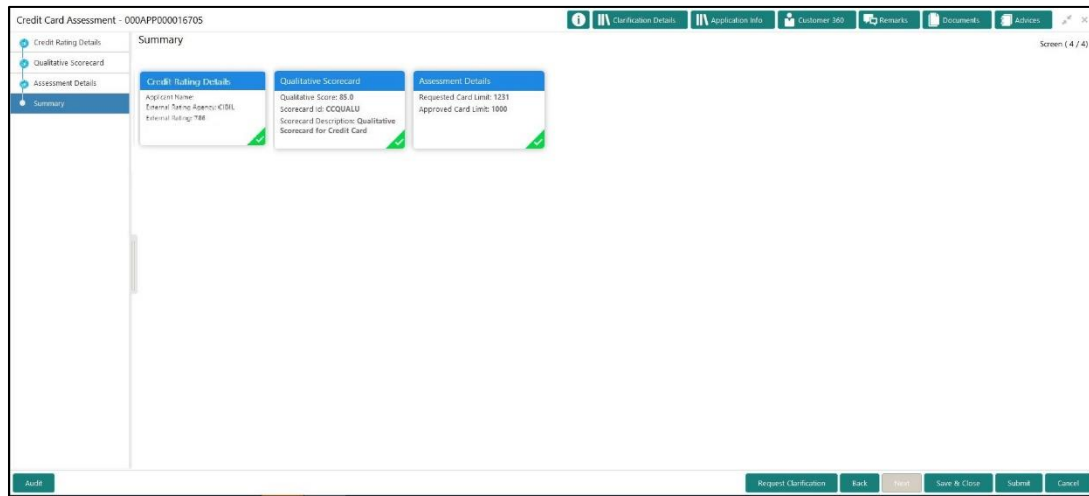

4.4.2 Summary

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Assessment Details** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 39: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 19: Summary Assessment – Field Description

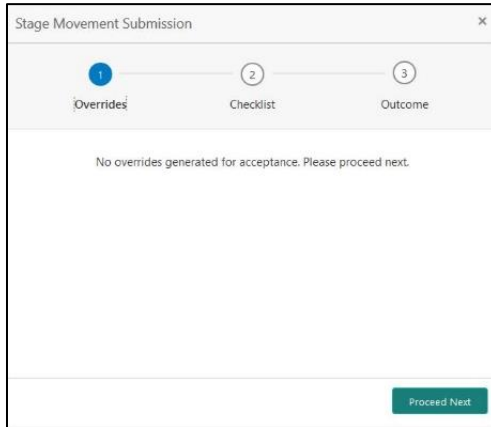

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Qualitative Scorecard Details	Displays the qualitative scorecard details.
Assessment Details	Displays the assessment details.

Data Segment	Description
Request Clarification	<p>Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer.</p> <p>For more information on Request Clarification, refer to the section Request Clarification.</p>
Back	<p>Click Back to navigate to the previous data segment within a stage.</p>
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p> <p>NOTE: Next is deactivated in the Summary screen as the capture of data across all the data segments in this stage are completed.</p>
Save & Close	<p>Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.</p>
Submit	<p>Click Submit to submit the application. The system triggers the business validation to ensure the application is entitled for submission to the next stage.</p>
Cancel	<p>Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.</p>

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified.

→ The **Overrides** screen is displayed.

Figure 40: Overrides

The system displays the following error message if overrides are not accepted.

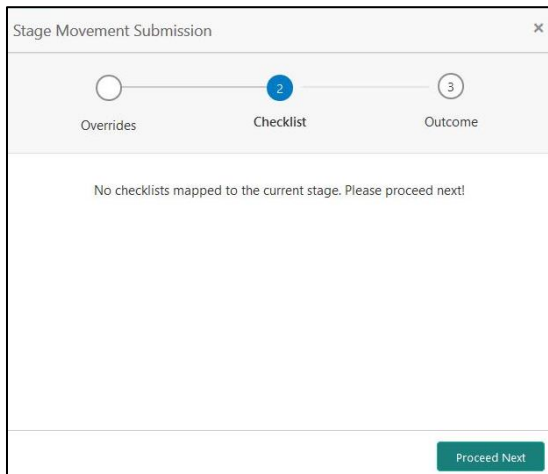

Figure 41: Error Message

3. Click **Accept Overrides & Proceed**.

→ The **Checklist** screen is displayed.

Figure 42: Checklist

The system displays the following error message if checklist is not verified.

Figure 43: Error Message

4. Click **Save & Proceed**.

→ The **Outcome** screen is displayed.

Figure 44: Outcome

5. Select **Proceed** outcome from the drop-down list. Available options are:

- Proceed
- Return to Application Underwriting stage
- Return to Application Entry stage
- Reject By Bank

It will logically complete the **Credit Card Assessment** stage for the Credit Card Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Supervisor Approval** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

6. Enter the remarks in **Remarks**.

7. Click **Submit**.

→ The **Confirmation** screen is displayed.

Figure 45: Confirmation

8. Click **Go to Free Task**.

→ The **Free Tasks** screen is displayed.

Auto Approved Credit Card application will be moved to Supervisor Approval stage, if configured, else will be straight away passed on to the host application to open the Credit Card Account

Auto Rejected – Such applications get rejected and will result in termination of the process. The rejected applications can also be routed to the relevant previous stages and do the Assessment all over again to consider the application.

The system successfully moves the Application Reference Number along with the process reference numbers [Credit Card Account] to the Supervisor Approval stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

4.5 Supervisor Approval Stage

The Supervisor Approval stage has the following reference data segments:

- [4.2.1 Customer Information](#) — View only as available in Application Entry stage
- [4.2.2 Financial Details](#) – View only as available in Application Entry stage
- [4.2.4 Add-On Card Holder](#) – View only as available in Application Entry stage
- [4.2.3 Card Preference](#) – View only as available in Application Entry stage
- [4.5.1 Assessment Summary](#)
- [4.5.2 Approval Details](#)
- [4.5.3 Summary](#)

4.5.1 Assessment Summary

Assessment Summary is the first and read-only data segment of Supervisor Approval stage. The user can acquire the application from FREE TASK.

1. Click **Acquire & Edit** in the Free Tasks screen of the previous stage – Credit Card Assessment Stage.

→ The **Assessment Summary** screen is displayed.

Figure 47: Assessment Summary

2. For more information on menus, refer to the field description table below Table 21: Approval Details – Field Description.

Table 20: Assessment Summary – Field Description

Field	Description
Requested Amount	Displays the requested card limit.

Field	Description
Tenure	Displays the tenure.
Rate Type	Displays the rate type.
Rate of Interest	Displays the interest rate.
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved card limit.
Proposed Rate of Interest	Displays the proposed rate of interest.
Effective Rate	Displays the effective rate of interest.
System Recommendation	<p>Displays the system recommendation.</p> <p>Available options are:</p> <ul style="list-style-type: none"> • Approved • Rejected
Grade	Displays the grade for the application.
Manual Decision	<p>Displays the manual decision.</p> <p>By default, this field is left blank.</p>
Request Clarification	<p>Click Request Clarification to raise a new clarification request.</p> <p>The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer.</p> <p>For more information on Request Clarification, refer to the section Request Clarification.</p>
Back	Click Back to navigate to the previous data segment within a stage.

Field	Description
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p>
Save & Close	<p>Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.</p>
Cancel	<p>Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.</p>

4.5.2 Approval Details

Approval Details is the first data segment of Supervisor Approval stage. The user can acquire the application from FREE TASK.

1. Click **Next** in **Assessment Summary** screen to proceed with the next data segment.

→ The **Approval Details** screen is displayed.

Figure 48: Approval Details

The screenshot shows the 'Approval Details' screen for Supervisor Approval - 006APP00023261. The interface includes a top navigation bar with icons for Clarification Details, Application Info, Customer 360, Remarks, Documents, and Advices. A left sidebar lists navigation options: Customer Information, Financial Details, Add-On Card Holder, Card Preference, Assessment Summary, Approval Details (selected), and Summary. The main content area displays the following details:

- Card Type:** Retail Credit Card
- Product Code:** CCREWA
- Product Name:** MaxRewards
- Limit Currency:** GBP
- Approved Card Limit:** 50000
- User Recommendation:** User Action: APPROVED

At the bottom of the screen, there are buttons for 'Audit', 'Request Clarification', 'Back', 'Next', 'Save & Close', and 'Cancel'.

2. For more information on menus, refer to the field description table below.

Table 21: Approval Details – Field Description

Field	Description
Card Type	Displays the card type.
Product Code	Displays the product code selected for this credit card account.
Product Name	Displays the product name selected or this credit card account.
Limit Currency	Displays the currency.
Approved Card Limit	Displays the final credit limit.
User Recommendation	Select the User recommendation. Available options are: <ul style="list-style-type: none"> • Approved • Rejected

Field	Description
User Action	Displays the user action based on user recommendation.
Request Clarification	<p>Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer.</p> <p>For more information on Request Clarification, refer to the section Request Clarification.</p>
Back	Click Back to navigate to the previous data segment within a stage.
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p>
Save & Close	Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Cancel	Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.

4.5.3 Summary

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Approval Details** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 49: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 22: Summary– Field Description

Data Segment	Description
Customer Information	Displays the customer information.
Financial Details	Displays the financial details.
Add-On Card Holder	Displays the add-on card holder details.
Card Preference	Displays the card preference details.
Assessment Summary	Displays the assessment summary.
Approval Details	Displays the approval details.

Data Segment	Description
Request Clarification	<p>Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer.</p> <p>For more information on Request Clarification, refer to the section Request Clarification.</p>
Back	<p>Click Back to navigate to the previous data segment within a stage.</p>
Next	<p>Click Next to navigate to the next data segment, after successfully capturing the data.</p> <p>The system will validate for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action.</p> <p>User will not be able to proceed to the next data segment, without capturing the mandatory data.</p> <p>NOTE: Next is deactivated in the Summary screen as the capture of data across all the data segments in this stage are completed.</p>
Save & Close	<p>Click Save & Close to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.</p>
Submit	<p>Click Submit to submit the application. The system triggers the business validation to ensure the application is entitled for submission to the next stage.</p>
Cancel	<p>Click Cancel to terminate the application and the status of the application. Such applications cannot be revived later by the user.</p>

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified.

→ The **Overrides** screen is displayed.

Figure 50: Overrides

The system displays the following error message if overrides are not accepted.

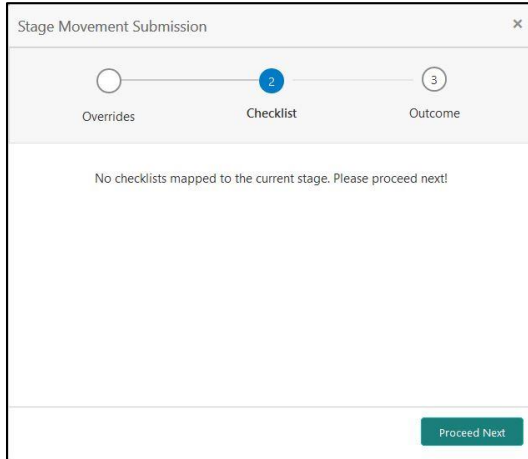

Figure 51: Error Message

3. Click **Accept Overrides & Proceed**.

→ The **Checklist** screen is displayed.

Figure 52: Checklist

The system displays the following error message if checklist is not verified.

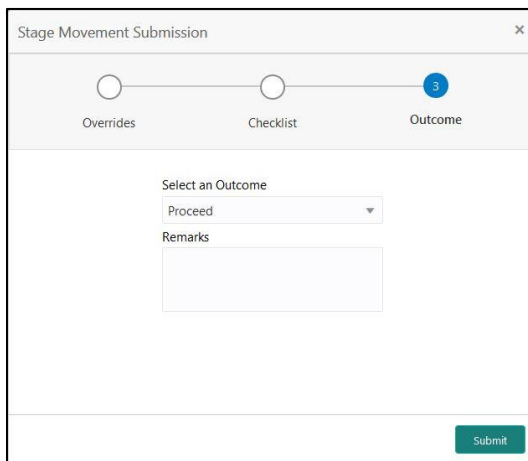

Figure 53: Error Message

4. Click **Save & Proceed**.

→ The **Outcome** screen is displayed.

Figure 54: Outcome

5. Select **Proceed** outcome from the drop-down list. Available options are:
 - Proceed
 - Reject By Bank
6. Select **Proceed** outcome from the drop-down list. It will logically complete the **Supervisor Approval** stage for the Credit Card Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Account Creation**.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

7. Enter the remarks in **Remarks**.
8. Click **Submit**.

→ The **Confirmation** screen is displayed.

Figure 55: Confirmation

The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

Reject by Bank will terminate the application and no further action will be allowed on this reference number.

After the Host creates the Credit Card Account successfully, the response is sent back to the Oracle Banking Origination with the Credit Card Account Number.

The details of all the applications which have logically completed all their stage movements, (Rejected / Account Created) will be made available in Completed tasks for query purpose only.

Refer to **Alerts and Dashboard User Guide** for the Dashboard details.

4.6 Action Tabs

This section includes the following subsections:

- [4.6.1 Icon](#)
- [4.6.2 Clarification Details](#)
- [4.6.3 Customer 360](#)
- [4.6.4 Application Info](#)
- [4.6.5 Remarks](#)
- [4.6.6 Documents](#)
- [4.6.7 Advices](#)

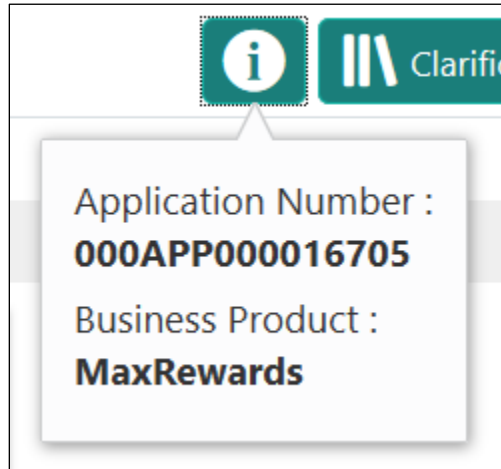

The functions available in the various tabs can be accessed during any point in the Application Entry stage. Details about the tabs are as follows:

4.6.1 Icon

1. Click it to view the **Application Number** and the **Business Product** detail.

→ The **Icon** screen is displayed.

Figure 56: Icon Screen

4.6.2 Clarification Details

1. Click **Clarification Details** to view the list of requested clarifications.

→ The Clarification **Details** screen is displayed.

Figure 57: Clarification Details

Clarification	Raised By	Clarification Date	Response Type	Clarification Status	Status Update Date
Clarification Request		March 26, 2020 12:00 AM	MANUAL	Clarification Requested	March 26, 2020 12:00 AM
New Clarification Needed		March 26, 2020 12:00 AM	MANUAL	Clarification Withdrawn	March 26, 2020 12:00 AM

New Clarification

The **Clarification Details** screen displays the details about customer clarification request raised. For more information on fields, refer to the field description table below.

Table 23: Clarification Details

Field	Description
Clarification	Displays the subject of the requested clarification.
Raised By	Displays the user id of the user who has raised the clarification request.
Clarification Date	Displays the clarification date on which the request was raised.
Response Type	Displays the response type.
Clarification Status	Displays the status of clarification. Available options are: <ul style="list-style-type: none"> • Clarification Requested • Clarification Withdrawn • Clarification Completed
Status Update Date	Displays the status update date.

Field	Description
New Clarification	Click New Clarification to raise a new clarification request.

2. Select any specific clarification request row.

→ The **Clarification Details** for the selected clarification request is displayed.

Figure 58: Clarification Details

The **Clarification Details** screen displays details about the specific customer clarification request raised. For more information on fields, refer to the field description table below.

Table 24: Clarification Details

Field	Description
Clarification ID	Displays the unique clarification ID.
Clarification Subject	Displays the subject of clarification request.
Raised By	Displays the user id of the user who has raised the clarification request.
Clarification Date	Displays the clarification date.
Status	Displays the status of clarification.

Field	Description
Status Update Date	Displays the status update date.
New Conversation	<p>Click New Conversation to raise conversation for the selected clarification request.</p> <p>The system also allows to view and update the conversation from the My Application and Application Search dashboard by clicking the 'More Info' hyperlink from the Product card. If the new conversation is updated by any other user, instead of the user who initially raised the clarification request; a bell notification will be sent to the user who has raised the request.</p> <p>Available options are:</p> <ul style="list-style-type: none"> • Save & Close • Cancel <p>Click Save & Close to save the conversation.</p> <p>Click Cancel to cancel the conversation update.</p>
Withdraw Clarification	<p>Click Withdraw Clarification to withdraw and close the selected clarification request. Updating the clarification details is mandatory to withdraw the clarification. Users can update the reason why the clarification is being withdrawn and can also upload any document, if needed.</p> <p>Available options are:</p> <ul style="list-style-type: none"> • Save & Close • Cancel <p>Click Save & Close to withdraw the clarification</p> <p>Click Cancel to cancel the withdraw clarification action.</p>

Field	Description
Accept Clarification	<p>Click Accept Clarification to close the clarification raised. Updating the clarification details is mandatory to accept the clarification. Users can update the detail of why the clarification is being accepted and can also upload any document, if needed.</p> <p>Once the clarification request is accepted, no further conversation can be raised on the Clarification ID. Also, the application status will change to My Task.</p> <p>Available options are:</p> <ul style="list-style-type: none"> • Save & Close • Cancel <p>Click Save & Close to accept the clarification</p> <p>Click Cancel to cancel the withdraw clarification action.</p>

4.6.3 Customer 360

1. Click it to select the **Customer ID** of existing customer, and then view the Mini Customer 360.

→ The **Customer 360** screen is displayed.

Figure 59: Customer 360

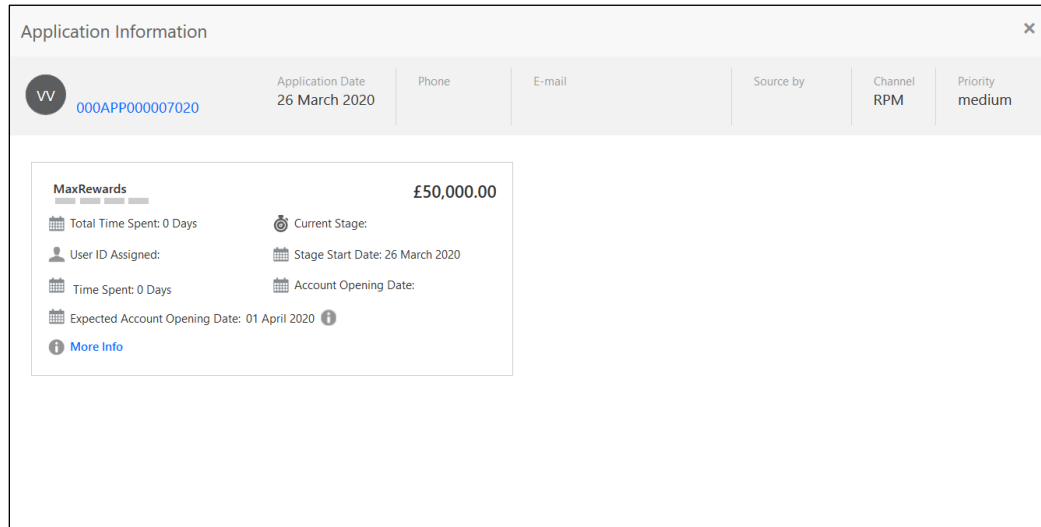

The screen shows the list of Customer IDs in case of Joint Accounts. Select the specific Customer ID to view their Mini Customer 360. The CIF Numbers are populated in the Customer 360 screen only post the CIF number has been keyed in the Customer Information data segment.

4.6.4 Application Info

1. Click **Application Info** to view the application information.

→ The **Application Information** screen is displayed.

Figure 60: Application Information

2. Click  icon to launch the **Data Points** pop-up screen.

→ The **Date Points** pop-up is displayed.

Figure 61: Data Points

Generalized Linear Model			
Name	Actual Value	Weight	Rank
NO_OF_APPLICANTS	0	-.713	2

The **Application Information** screen displays separate cards for various products initiated as part of the application. For more information on fields, refer to the field description table below.

Table 25: Application Information – Field Description

Field	Description
Application Date	Displays the application date.

Field	Description
Phone	Displays the phone number.
E-mail	Displays the E-mail ID.
Source By	Displays the name of the user who has sourced the application.
Channel	Displays the channel name.
Priority	Displays the priority of the application. <ul style="list-style-type: none"> • High • Medium • Low
Application Number	Displays the application number
Total time spent	Displays the time spent for the product process since initiation of the application.
User ID Assigned	Displays the User ID of the user currently working on the product process. NOTE: This is blank, in case the product process task is not acquired by any user.
Time spent	Displays the days spent in the current phase/stage.
Expected Account Opening Date	Displays the expected date when the account will be created.
	Displays the information on the features considered to predict the expected account opening date.
More Info	Click More Info hyperlink to view more details about the customer clarification raised. For more information, refer to Clarification Details .

Field	Description
Current Stage	Displays the stage in which the product process is currently in. NOTE: If the phase is configured for the product, the current stage will be displayed as current phase.
Stage Start Date	Displays the stage in which the product process is currently in. NOTE: If the phase is configured for the product, the stage start date will be displayed as phase start date.
Account Opening Date	Displays the account opening date.

NOTE: Application Info tab will not be visible in Application Initiation stage.

4.6.5 Remarks

1. Click **Remarks** to update any remarks that you want to post for the application that you are working on.

→ The **Remarks** screen is displayed.

Figure 62: Remarks

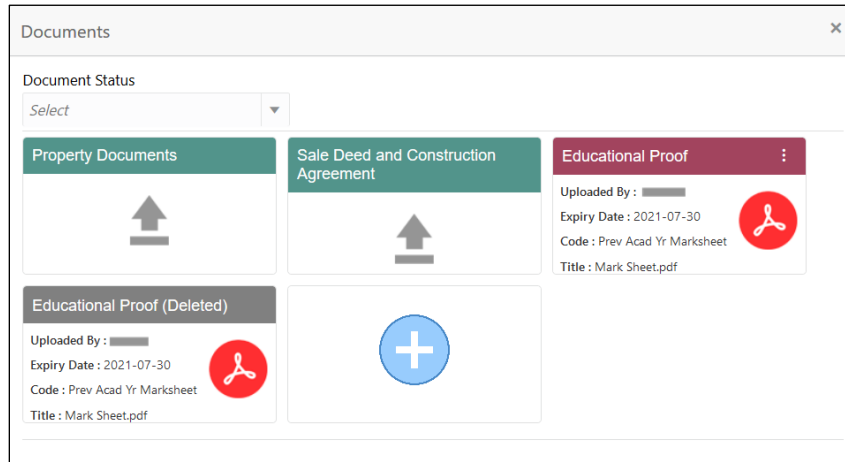

Remarks posted are updated with your User ID, Date, and are available to view in the next stages for the users working on that application.

4.6.6 Documents

1. Click **Documents** to upload the documents linked for the stage.

→ The **Documents** screen is displayed.

Figure 63: Documents

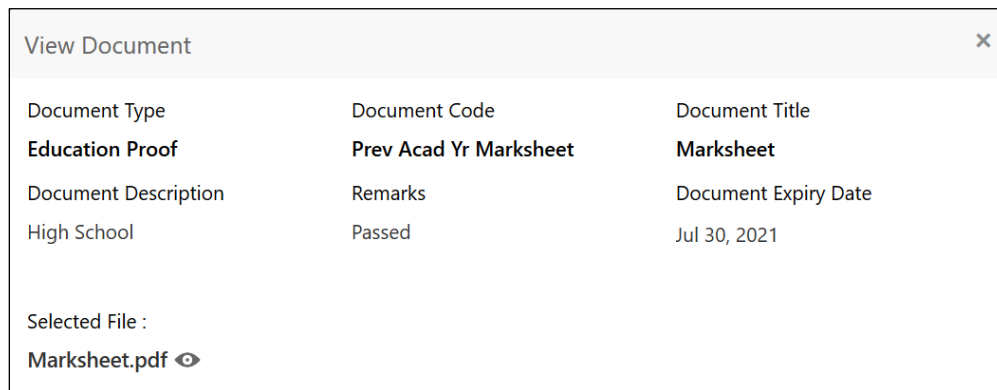

2. Select the document status to filter the document based on the status.

Available options are All, Open and Deleted.

3. Click  on the Document tile to view, download and delete the document.
4. Click **View** to view the document.

→ The **View Document** is displayed.

Figure 64: View Document

5. Click **Download** to download the document.
6. Click **Delete** to delete the document.

NOTE: Deleted Documents is displayed as Icon, but the user cannot view the document.

7. Click  to upload the new document to the application.

→ The **Upload Document** screen is displayed.

Figure 65: Upload Document

8. Specify the details in the relevant data fields. The fields which are marked with asterisk are mandatory. For more information on fields, refer to the field description table below.

Table 26: Upload Document – Field Description

Field	Description
Document Type*	Select the document type.
Document Code*	Select the document code.
Document Title*	Specify the document title.
Document Description	Specify the description for the document.
Remarks	Specify the remarks for the document.
Document Expiry Date*	Select the document expiry date.
Drop files here or Click to select	Drag and drop the document or Select the document from the machine.
Upload	Click Upload to upload the document.

NOTE: Ensure that mandatory documents are uploaded, as the system will validate the same during the stage submission.

Mandatory documents can only be deleted in the same stage where it is uploaded.

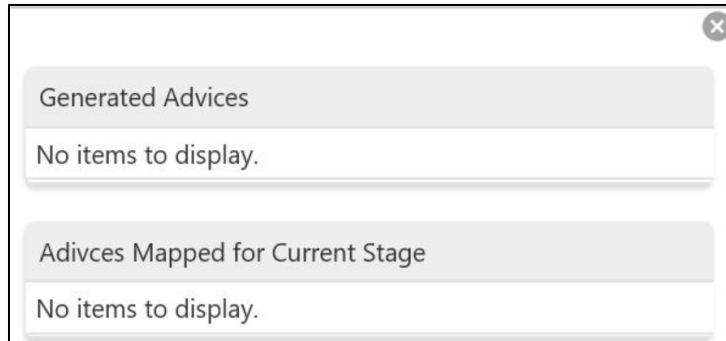

Non-mandatory documents can be deleted in any stage.

4.6.7 Advices

1. Click **Advices** to view the advice linked for the stage.

→ The **Advices** screen is displayed.

Figure 66: Advices

The system will generate the advice on submission of the stage. For Application Entry stage of Current Product, no advice is configured.

4.7 Request Clarification

1. Click **Request Clarification** to raise a new customer clarification request. You need to update the Clarification subject and the clarification detail in the New Clarification Pop-up screen.

Figure 67: New Clarification

- You need to update the Clarification subject and the clarification detail in the New Clarification Pop-up screen. The system also allows you to upload the document for the Clarification being raised.

Figure 68: Upload Documents

- Once the details are updated, click **Save**. Clarification Request once raised moves the application to 'Awaiting Customer Clarification' state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the **Awaiting Customer Clarification** sub-menu available under **Task** menu.

Select the Application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu. Click on the **Clarification Details** from the header.

Figure 69: Clarification Details
