Preface

This Preface provides supporting information for the Oracle Insurance Performance (OIP) Application Pack Release Notes.

This preface includes the following topics:

- [Purpose of This Document](#)
- [Intended Audience](#)
- [Related Documents](#)

Purpose of This Document

This document contains release information for the following products:

- Oracle Financial Services Analytical Applications Infrastructure (OFS AAI)
- Oracle Insurance Performance Insight for General Insurance (OIPIGI)

Intended Audience

This document is intended for users of Oracle Insurance Performance (OIP) Application Pack.

Related Documents

This section identifies additional documents related to Oracle Insurance Performance (OIP) Application Pack 8.0.0.0. You can access Oracle documentation online from the Documentation Library for OFS IP 8.0.0.0 ([OTN](#)).

1 Introduction

This chapter covers following topic:

- Components of Oracle Insurance Performance (OIP) Application Pack

1.1 Components of Oracle Insurance Performance (OIP) Application Pack

Oracle Insurance Performance Application Pack includes the following applications:

- **Oracle Financial Services Analytical Applications Infrastructure:** In today's turbulent markets, financial institutions require a better understanding of their risk-return, while strengthening competitive advantage and enhancing long-term customer value. Oracle Financial Services Analytical Applications (OFSAA) enable financial institutions to measure and meet risk adjusted performance objectives, cultivate a risk management culture through transparency, lower the costs of compliance and regulation, and improve insight into customer behavior.

OFSAA uses industry-leading analytical methods, shared data model and applications architecture to enable integrated risk management, performance management, customer insight, and compliance management. OFSAA actively incorporates risk into decision making, enables to achieve a consistent view of performance, promote a transparent risk management culture, and provide pervasive intelligence.

OFSAA delivers a comprehensive, integrated suite of financial services analytical applications for both banking and insurance domain.

- **Oracle Insurance Performance Insight for General Insurance (OIPIGI):** This application is a comprehensive business intelligence system created exclusively for the General Insurance/Property and Casualty (P&C) insurance industry. OIPIGI provides a complete set of Web-based analytical and reporting components that enables you to generate, view, analyze, distribute, electronically store, and retrieve critical reports. It provides tools for data integration and includes customizable, pre-built dashboards and reports, a reporting data model, and user friendly functional subject areas for ad-hoc reporting. It enables you to actively plan, manage, and track key areas measuring organizational performance with pre-built reports, dashboards, and underlying data structures.

2 Oracle Financial Services Analytical Applications Infrastructure

This chapter includes the following topics:

- [Highlights](#)
- [Limitations and Known Issues](#)
- [Fixed Issues](#)

2.1 Highlights

The following new features are supported in this release:

- **Unified Install Experience**
Install multiple applications/products using a single installer. This release of OFSAA ships various Application Installers with related applications packaged together in groups. You can install all applications that belong to a group, but choose to enable only the licensed applications.
- **Schema Creator**
This release of OFSAA comes with a utility to allow hassle-free creation of database schemas required for the OFSAA installation. The utility avoids user errors in schema creation/assigning grants for the multiple schemas required.
- **Common Landing Page and Application Context**
A common landing page is available for all users until a preferred application landing page has been set. The landing page is divided into multiple tabs and each tab has specific links to OFSAA Infrastructure and/or Application modules. Depending on the OFSAA Application being accessed and the access roles mapped to the logged in User, the TAB and links would be displayed.
 - **Applications Tab**
This tab lists the various OFSAA Applications that are installed in the OFSAA setup and the “Select Application” drop-down lists the OFSAA Applications based on the logged in User and mapped OFSAA Application User Group(s). Links to related modules within Applications and Infrastructure are grouped appropriately to maintain a unified experience.
 - **Object Administration Tab**
This tab lists the various OFSAA Information Domains created in the OFSAA setup and the “Select Information Domain” drop-down lists the OFSAA Information Domains based on the logged in User and mapped OFSAA Application User Group(s). Links to modules that enable object traceability and migration of objects are grouped in this tab.
 - **System Configuration and Identity Management Tab**
This tab lists the OFSAA Infrastructure System Configuration and Identity Management modules. These modules work across Applications/ Information Domains and hence there are no Application/ Information Domain drop-down list in this tab). Links to modules

that allow the maintenance of setup installation and identity management tasks are grouped together in this tab.

- **Model Upload changes**

Use the NO VALIDATE option to bypass referential integrity checks during the model upload process.

- **Support for generating DDLs with NLS_LENGTH_SEMANTICS as CHAR.**

Starting this release, support for generating DDLs with NLS_LENGTH_SEMANTICS as CHAR is introduced. Any new columns or entities now being introduced that should hold multi-lingual data should specify the attribute CHAR in the column data type definitions. For example, V_ML_DESC (VARCHAR 2 30 CHAR)

- **Support for new technologies**

Additional support for **Oracle Database12c, WebLogic Server 12c, WebSphere Application Server 8.5 +, Internet Explorer 11(Compatibility Mode), Windows 8.1 and Office 2010 and 2013** is available in this release. Encryption uses SSL 3.0

2.2 Limitations and Known Issues

The following table lists the Limitations and Known Issues for this release:

Component	Sub component	Bug ID	Description
Operations	Batch Cancellation	16281369	Batch Monitor screen displays the DCDQ Batches as Ongoing even if they have been cancelled or aborted from the Batch Cancellation screen.
Publish	Catalog	19333496	Online Help is not available for Catalog
Administration	Security Management	18937484	Segments/ Folder are not deleted if objects are present in it.
	Security Management	12744050	Users exceeding the Number of Invalid Login attempts/dormant day/Inactive Days are sent to System Authorizer for authorization even if there is an authorization pending for the same user whose details are modified.
Generic Issues		9540094	Keyboard backspace button when clicked from Infrastructure home

Component	Sub component	Bug ID	Description
			page logs out from the application
		9883414	Opened child window from the home page remains active even after the parent window is closed by clicking on "X" button; operations performed on child window are getting saved
		10144582	OFSAAI Login page cannot be accessed when Google toolbar for Internet Explorer is enabled. Workaround: Disable the "Google toolbar" from the tools properties of your browser.
	Expressions	12663701	Expressions containing special characters such as @, ~, # are displayed as "undefined" under Variants in Entity Group Selection pane
RDBMS	Programmatic Interface	18501701	Maximum length of CLOB object supported is 65535 characters.

2.3 Fixed Issues

The following table lists the fixed issues in this release:

Component	Sub component	Bug ID	Description
Data Model		16298167	Dimension columns are defined as null able in portfolio super class
Dimension Management	Members	18622015	Export icon is not available in AMHM
		10298590	Select a node error when searching for a dim member for source allocation
Install and Upgrade Issues	Base Installer	19434764	Appropriate message not prompted during revalues server

OIP Application Pack 8.0.0.0.0 Release Notes

Component	Sub component	Bug ID	Description
			start up for first time.
Metadata such as T2T, F2T, etc	T2T Issues	19353736	Specified Hints to be part of count query during T2T execution
	T2T Issues	18631137	Count query should not be fired if threshold is not set, in case of bulk mode.
System Configuration	Information Domain	20042362	Generate BI hierarchy option in Infodom creation is removed and defaulted as None
	Configuration	19332737	Database server details name can be only 20 characters
	Configuration	19073237	In clustered environment, configuration parameter updated are getting refreshed
Unified Metadata Manager	Business Metadata Management	13864672	PC hierarchy, nodes description to be sorted in alphabetical order

3 Oracle Insurance Performance Insight for General Insurance (OIPIGI)

This chapter includes the following topics:

- [Highlights](#)
- [Limitations and Known Issues](#)
- [Fixed Issues](#)

3.1 Highlights

- Consolidates data from multiple, disparate source systems to provide a strategic enterprise-wide view across various business and operational segments
- Provides an underlying data model constructed specifically for the general insurance industry. Addition of other predictive models like Market basket Analytics, Enhanced Lifetime Value calculations, and Channel Propensity
- Delivers information management, reporting and advanced analytics to end-users through an easy-to-use Web application

OIPIGI utilizes OBIEE technology to present:

- Behavioral and performance trends of its target segments – Line of Businesses, Products, regions, intermediaries, customers, revenues, expenses, claims and so on
- Performance tracking using key business performance indicators
- Performance of the overall business, profitability, intermediaries and underlying customers
- Performance of Business against goal/budget and plans
- Efficiency of the intermediaries and business lines in terms of new business revenue and business retention. Most and least active and revenue generating intermediaries and sales channels
- Most and least profitable line of business and products

3.2 Limitations and Known Issues

- Bug 20237738 - OIPIGI: Issues in Income Statement Report
- Bug [20834196](#) - OIPA_DQ_GROUP BATCH IS NOT GETTING COMPLETED, IT REMAINS IN ONGOING STATUS
- Bug [20848310](#)- INCORRECT SCD MAPPING FOR STG_PRODUCER_MASTER. V_PRDCR_TAX_LOCATION

3.3 Fixed issues

None

4 Hardware/Software Tech Stack Details

The hardware/software combinations required for OFS IP 8.0.0.0.0 are available at [OTN Tech Stack](#).

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a

lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS,

WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.
