## 1 Overview and Objective

Islamic Deposit is based on the Shariah contract of Mudarabah. In Mudarabah, interest is not paid. Instead, profits will be shared. This is similar to how venture capitalists invest in companies. They take a percentage stake of the company in return for capital. All management resides with the startup/Mudarib. It provides higher profit rate compared to normal saving account.

- Islamic Term deposit module of FLEXCUBE supports processing of products like:
  - Normal term Deposits
  - Mudarabah Deposits
- Options available to automate periodic processes such as:
  - Accrual of term deposits
  - Liquidation of term deposits on liquidation frequency defined
  - Profit rate update to accounts after PDM
  - Generation of advices
  - Maturity processing and transfer of proceeds
- Different types of profit products are supported like, Fixed and Floating rates.
