Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Claim Lodged Under Guarantee Advised - Islamic

The beneficiary of the Guarantee/SBLC can raise a claim under the Guarantee/SBLC within the validity period of Guarantee/SBLC.

The various stages involved for Claim under Guarantees Advised process are:

- Receive and verify documents (Non Online Channel)- Registration stage
- Input application details
- Upload of related mandatory and non-mandatory documents
- Input/Modify (On-Line/Non-Online) details of Claim - Data Enrichment stage
- Check balance availability for amount block
- Check for sanctions & KYC status
- Create amount block for charges
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Guarantee Advice Lodge Claim process flow is similar to that of conventional Guarantee Advice process flow.

In the subsequent sections, let's look at the details for Lodge Claim - Guarantee Advised process:

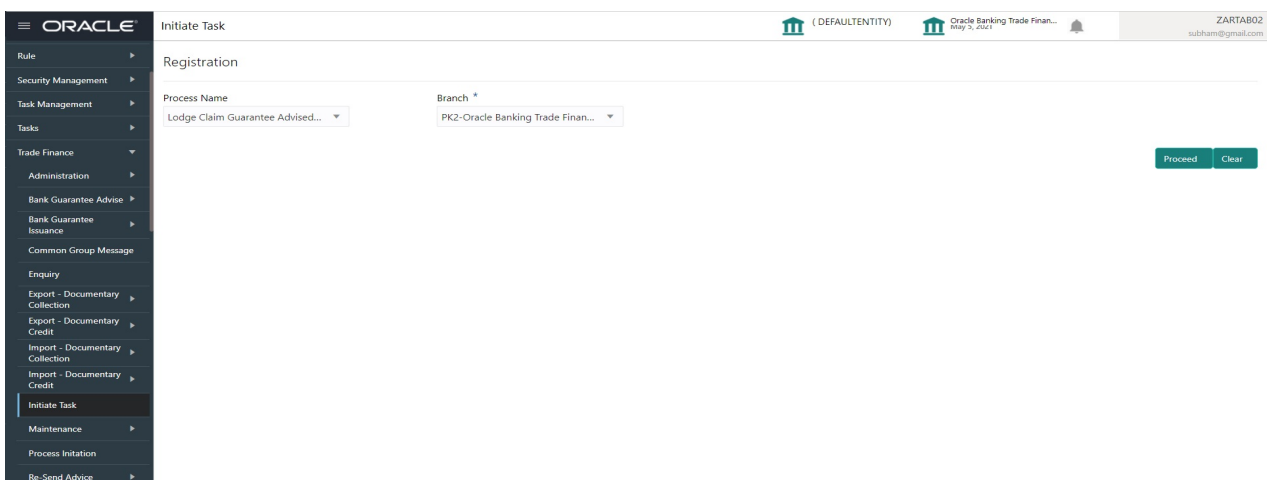

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Multi Level Approval

Common Initiation Stage

The user can initiate the new Claim under Islamic Guarantee Advise request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

As a Registration user, you can register a claim request against the Guarantee/SBLC Advised. During registration user can capture the basic details of the Claim information.

1. Using the entitled login credentials for registration stage, login to the OBTFPM application.

FuTura Bank

Sign In

User Name *

SRIDHAR

Password *

.....

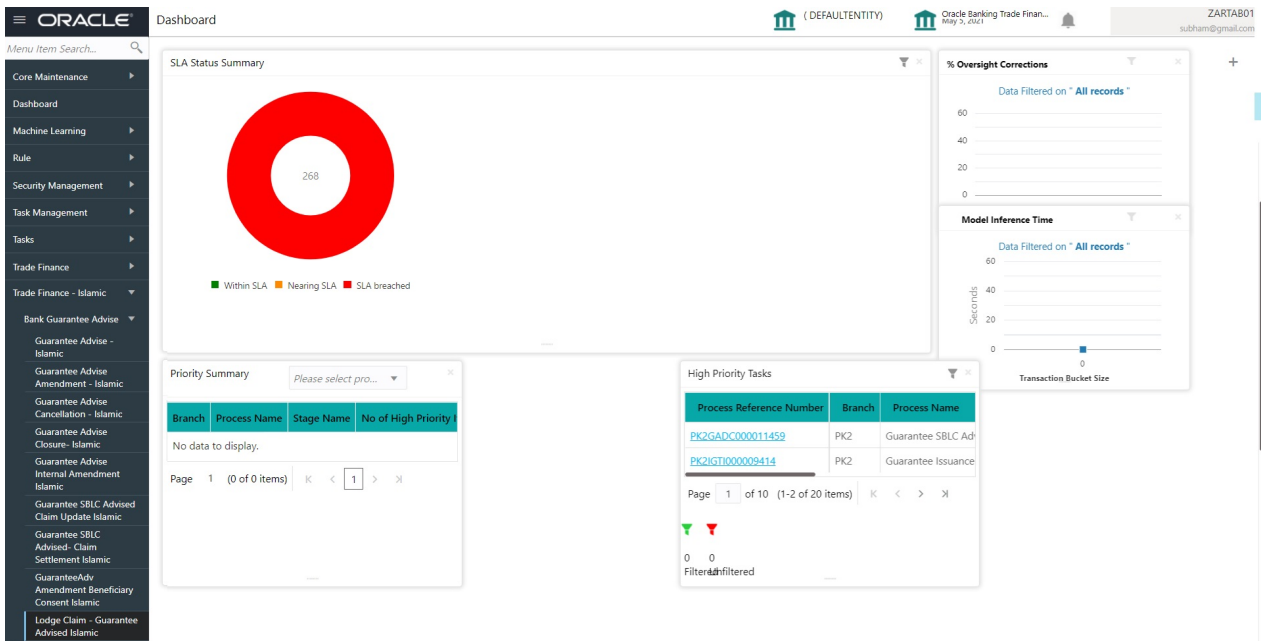

Sign In

Cancel

Hold Cancel Save & Close Submit

Enables the user to upload required documents. Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required claim documents.	
Remarks	Provide any additional information regarding the Guarantee Advice. This information can be viewed by other users processing the request.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
View Guarantee/SBLC	User can view the the latest Guarantee/Standby LC details.	
Guarantee/SBLC Events	User can view all the previous events under the Guarantee/Standby LC.	

Action Buttons

Submit	On Submit, system will give confirmation message for successful submission. Task will get moved to next logical stage of Guarantee Advice. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
--------	--	--

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Guarantee Advice Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit. 1. Signatures on Claim verified 2. Documents are verified and uploaded	

Bi-Directional Flow

1. In OBTFPM, user clicks on **Request Clarification**, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is "Online". In case submission mode is "Online", the user can enter the clarification details in "Clarification Required" placeholder.
2. In case submission mode is not "Online", the system will validate if the counterparty is a OBDX customer by checking the flag "Trade Finance Portal" in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.
3. In case submission mode is not "Online", and if the "Trade Finance Portal" flag is set to 'No' in Customer Maintenance Table, the system should display the error message that 'The customer is not subscribed to Trade Finance Portal'.
4. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

Data Enrichment

As part of Data Enrichment, user can enter/update the various fields of the claim request. The user can also input the transaction details.

For claims initiated through Registration stage, the user can verify/update details in Data Enrichment stage. For Claims received through MT 765/Internet Banking/MT 798 upload, the task will be created directly in Data Enrichment stage for further processing.

Note

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

Do the following steps to acquire a task which completed the Registration and currently at Data enrichment stage:

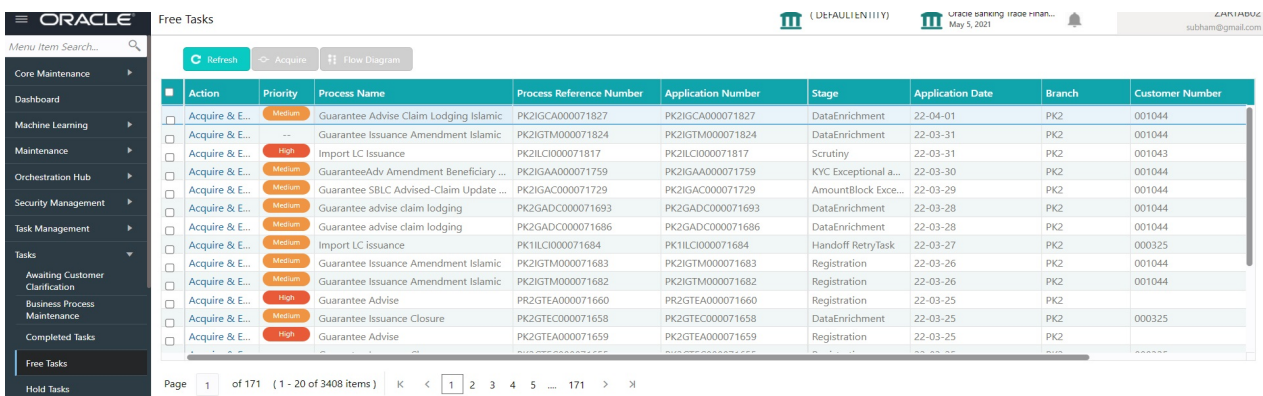

1. Using the entitled login credentials for scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Tasks > Free Tasks**.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.

The Data Enrichment stage has three sections as follows:

- Main Details
- Claim Details
- Document Details
- Additional Fields
- Additional Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following fields as part of claim under Guarantee/SBLC - DE Stage. Some of the fields that are already having value from registration/online channels may not be editable.

Main Details

Main details section has three sub section as follows:

- Application Details
- Guarantee Details

Application Details

All fields displayed under Application details section, would be read only except for the **Priority** field. Refer to [Application Details](#) for more information of the fields.

In case of SWIFT MT 765, the bank/ Financial institution can lodge a claim under a Guarantee/SBLC.

STP of MT 765 for Guarantee/SBLC advised is triggered when an incoming claim is received by the advising bank from the Presenting bank or Advise through bank or Beneficiary through SWIFT.

The incoming MT 765 should be parsed and the system should create a task directly in Data Enrichment Stage. Once the user clicks on the free task, the system should display the following fields.

Field	Description	Sample Values
ABK/ATB Reference Number	Read only field. System populates the undertaking number from the incoming SWIFT MT 765, Tag 21 Related Reference.	
Beneficiary ID/ Name	Read only field. System should populate the Applicant ID and Name and address from the underlying Guarantee/SBLC details from Back office.	001345
Branch	Read only field. System defaults the branch code as applicable.	203-Bank Futura -Branch FZ1
Claim Serial Number	Read only field. System defaults the claim serial number from Guarantee/ SBLC Advise. This should be the latest claim number available in back-end system +1.	
Process Reference Number	Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	203GTEISS000 001134

Field	Description	Sample Values
Priority	Priority maintained will be populated as either 'Low or Medium or High'. If priority is not maintained for a customer, 'Medium' priority will be defaulted.	Medium
Submission Mode	System should default the submission mode as SWIFT.	SWIFT
Claim Lodgement Date	Read only field. By default, the application will display branch's current date.  Note Future date and back date selection is not allowed.	04/13/2018
Beneficiary Reference Number	System populates Tag 23 - Beneficiary Reference Number from the Incoming MT 765.	

Guarantee Details

The fields listed under this section are same as the fields listed under the [Guarantee Details](#) section in [Registration](#). Refer to [Guarantee Details](#) for more information of the fields. During Registration, if user has not captured input, then user can capture the details in this section.

In case of SWIFT MT 765, the system displays the following fields.

Field	Description	Sample Values
Guarantee Type	Read only field. System defaults the value from underlying Guarantee/ SBLC Advised.	ADVP
Date of Issue	Read only field. System defaults the value from underlying Guarantee/ SBLC Advised.	04/13/18
Purpose of message	Read only field. System defaults the purpose of message from underlying Guarantee/ SBLC Advised.	
Expiry Type	Read only field. System defaults the value from underlying Guarantee/ SBLC Advised.	

Field	Description	Sample Values
Date Of Expiry	Read only field. System defaults the expiry date from underlying Guarantee/ SBLC Advised.	09/30/18
Claim Date	Read only field. System defaults the claim date from underlying Guarantee/ SBLC Advised.	04/13/2018
Claim Expiry Date	Read only field. System defaults the claim expiry date from underlying Guarantee/ SBLC Advised.	04/13/2018
Outstanding Currency/ Amount	Read only field. System defaults the outstanding currency and amount from underlying Guarantee/ SBLC Advised.	
Applicable Rules	Read only field. System defaults the value from underlying Guarantee/ SBLC Advised.	URDG - Uniform rules for demand guarantees
Applicant Bank	Read only field. System defaults the applicant bank details from underlying Guarantee/ SBLC Advised.	001345 Nestle
Applicant	Read only field. System defaults the applicant from underlying Guarantee/ SBLC Advised.	001345 Nestle
Advising Bank	Read only field. System defaults the advising bank from underlying Guarantee/ SBLC Advised.	001343 - Bank Of America
Advising Through Bank	Read only field. System defaults the advising through bank from underlying Guarantee/ SBLC Advised.	Advising Bank Reference
Counter Guarantee Issuing Bank	Read only field. System defaults the counter guarantee issuing through bank from underlying Guarantee/ SBLC Advised.	
Local Guarantee Issuing Bank	Read only field. System defaults the local guarantee issuing bank from underlying Guarantee/ SBLC Advised.	

Action Buttons

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p>  <p>Note Not applicable for STP of SWIFT MT 765.</p>	
Remarks	<p>Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.</p>	
Overrides	<p>Click to view the overrides accepted by the user.</p>	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	<p>Click Common Group Message button, to send MT799 and MT999 messages from within the task.</p>	
Incoming Message	<p>Clicking this button allows the user to see the message in case of STP of incoming MT 767.</p>	
View Undertaking	<p>Clicking this button allows the user to view the undertaking details.</p>	

Claim Details

As a part of Claim Details user can enter and scrutinize the claim details under a Guarantee/SBLC - DE stage. In case the request is received through online channel, user will verify the details populated.

Field	Description	Sample Values
Claiming Bank Reference	<p>The user can enter the claiming bank reference details, if the claimed is not received from Beneficiary.</p> <p>In case of SWIFT MT 765, system populates the Tag 20, Transaction Reference Number from the incoming MT 765.</p>	
Date of Demand	<p>User can enter the date on which the demand is issued by the beneficiary.</p> <p> Note The date cannot be a future date.</p> <p>In case of SWIFT MT 765, system populates the Tag 31L, Transaction Reference Number from the incoming MT 765.</p>	
Demand Indicator	<p>Read Only field.</p> <p>System defaults value from Guarantee /SBLC Advise.</p>	

Field	Description	Sample Values
Demand Type	<p>This field specifies the type of demand.</p> <p>The values are:</p> <ul style="list-style-type: none"> • Extend or Settle • Settle • Extend <p>In case of SWIFT MT 765, system populates the Tag 22G, Transaction Reference Number from the incoming MT 765.</p>	
Claim Currency/ Amount	User can select the currency for claim and enter the claim amount.	
New Expiry Date	<p>System defaults value from Guarantee /SBLC Advise.</p> <p>The New Expiry Date is not earlier than the Expiry Date or not earlier than Branch Date.</p> <p>In case of SWIFT MT 765, system populates the Tag 31E, Transaction Reference Number from the incoming MT 765.</p>	
Response Due Date	User can enter the Response Due Date.	
Demand Statement	<p>This field specifies the narrative text that constitutes the demand.</p> <p>In case of SWIFT MT 765, system populates the Tag 49A, Transaction Reference Number from the incoming MT 765.</p>	
Presentation Completion Details	<p>The user can enter the presentation of completion details, if demand statement is provided. This field specifies information about the presentation documentation. If the presentation is incomplete, this must specify how the presentation will be completed</p> <p>In case of Online, this field is defaulted from the incoming message.</p> <p>In case of Non-Online, as per the value in the incoming message.</p> <p>In case of SWIFT MT 765, system populates the Tag 77, Transaction Reference Number from the incoming MT 765.</p>	

Field	Description	Sample Values
Additional Amount Information	<p>The user can enter the details on additional amount in this field.</p> <p>In case of Online, this field is defaulted from the incoming message.</p> <p>In case of Non-Online, as per the value in the incoming message.</p> <p>In case of SWIFT MT 765, system populates the Tag 78, Transaction Reference Number from the incoming MT 765.</p>	
Intermediary	<p>The user can enter the Intermediary bank details. This field specifies the financial institution through which the amount claimed must pass to reach the account with institution.</p> <p>In case of Online, this field is defaulted from the incoming message.</p> <p>In case of Non-Online, as per the value in the incoming message.</p> <p>In case of SWIFT MT 765, system populates the Tag 56A, Transaction Reference Number from the incoming MT 765.</p>	
Account with Institution	<p>The user can enter the details of Account with Institution.</p> <p>This field specifies the financial institution at which the amount claimed is to be settled.</p> <p>In case of Online, this field is defaulted from the incoming message.</p> <p>In case of Non-Online, as per the value in the incoming message.</p> <p>In case of SWIFT MT 765, system populates the Tag 57A, Transaction Reference Number from the incoming MT 765.</p>	
File Identification	<p>The user can enter the File identification.</p> <p>This field identifies the type of delivery channel and associated file name or reference.</p> <p>In case of Online, this field is defaulted from the incoming message.</p> <p>In case of Non-Online, as per the value in the incoming message.</p> <p>In case of SWIFT MT 765, system populates the Tag 23X, Transaction Reference Number from the incoming MT 765.</p>	

Field	Description	Sample Values
Sender to Receiver Information	<p>The user can enter the Sender to receiver information from the incoming message in this field.</p> <p>In case of Online, this field is defaulted from the incoming message.</p> <p>In case of Non-Online, as per the value in the incoming message.</p> <p>In case of SWIFT MT 765, system populates the Tag 72Z, Transaction Reference Number from the incoming MT 765.</p>	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	

Field	Description	Sample Values
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	Cancel the Guarantee Issuance scrutiny stage inputs.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents.  Note Not applicable for STP of SWIFT MT 765.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view the overrides accepted by the user.	
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.	
View Undertaking	Clicking this button allows the user to view the undertaking details.	

Document Details

In Document Details, the system defaults the document required under claim. If the claim is received to a Presenting bank, then the documents tile will be read only (non editable). A Data Enrichment user can verify the document details.

If documents to be submitted were provided in the Guarantee Advise they will be defaulted, else the user cannot capture the documents submitted under the claim in this documents hop.

All the Document Details fields are also applicable for STP and are processed in the same manner.

Provide the Document details based on the description in the following table:

Field	Description	Sample Values
Code	User can enter the document code.	
Name	System defaults the document name based on the document code.	
Copy	Copy of the document.	
Original	Original claim document.	
Description	User can enter the description of the document if any.	
Documents Received	User can enter the details of document received.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.

Multi Level Approval

A user can view the summary of details updated in multilevel approval stage of Guarantee claim request. This stage allows the approver user to approve a Claim Lodged under Guarantee Advised Transaction.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

Re-Key Authorization

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Applicant Name
- Beneficiary Name
- Undertaking Currency
- Undertaking
- Amount

- Expiry Date

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.
