Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Export LC Amendment

Export LC Amendment process enables the user to make an amendment to the LC which had been already advised.

The amendments may need consent from the beneficiary of the LC. In such scenarios, after the processing of amendment, the amended LC is parked awaiting beneficiary consent.

In the following sections, let's look at the details for Export LC amendment process.

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Exceptions
Multi Level Approval	Reject Approval

Common Initiation Stage

The user can initiate the new shipping guarantee request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

The screenshot shows the Oracle OBTFPM application interface. The top navigation bar includes the Oracle logo, the page title 'Initiate Task', and user information (JEEVA02, subham@gmail.com). The left sidebar contains a menu with 'Initiate Task' highlighted in red. The main content area shows a registration form with the following fields: Process Name (Export LC Amendment), LC Reference Number (PK2ELCT19081A8VH), and Branch (PK2-FLEXCUBE UNIVERSAL BANK). There are 'Proceed' and 'Clear' buttons at the bottom right of the form.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
LC Reference Number	Select the LC Reference Number.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

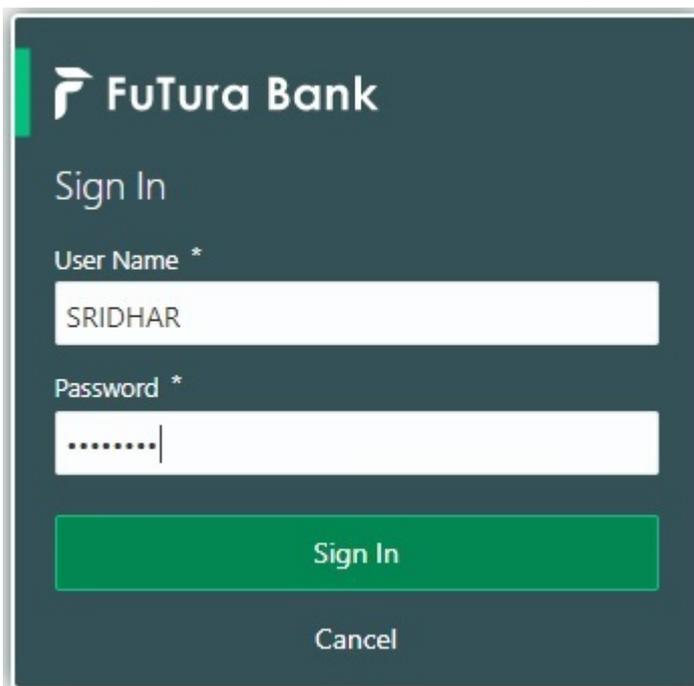

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

If the Letter Of Credit amendment request is submitted through branch, the Export LC amendment process starts from the Registration Stage.

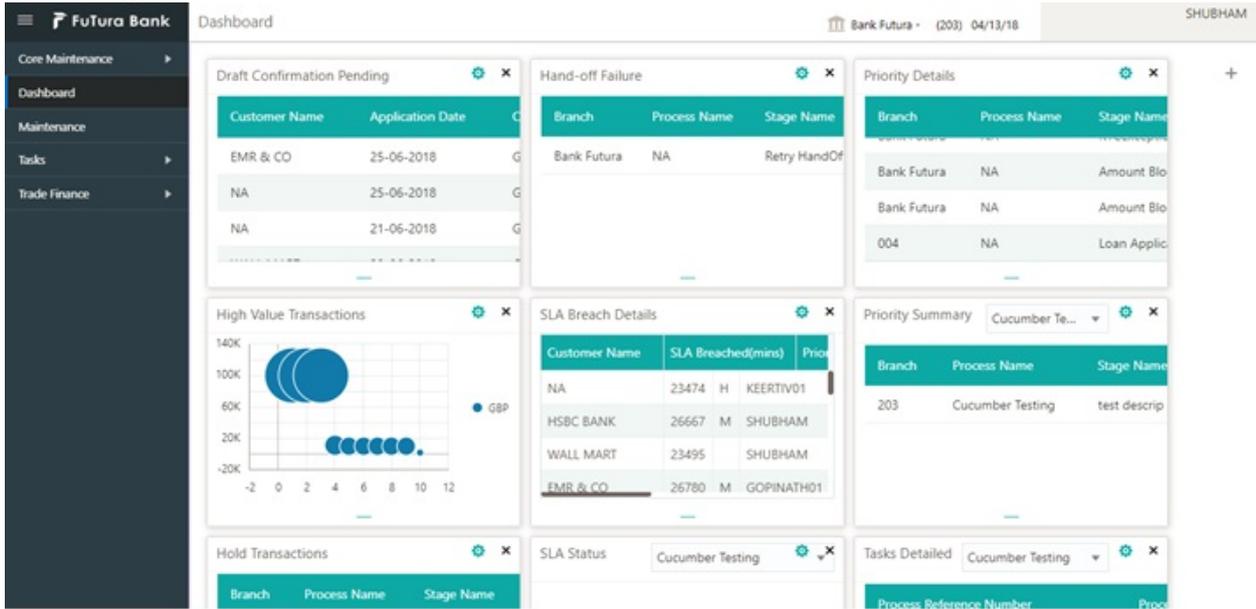

During Registration stage, user can capture the basic details of the application and upload the related documents of the applicant. On submit of the request, the request will be available for an LC Amendment expert to handle the request in the next stage.

3. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

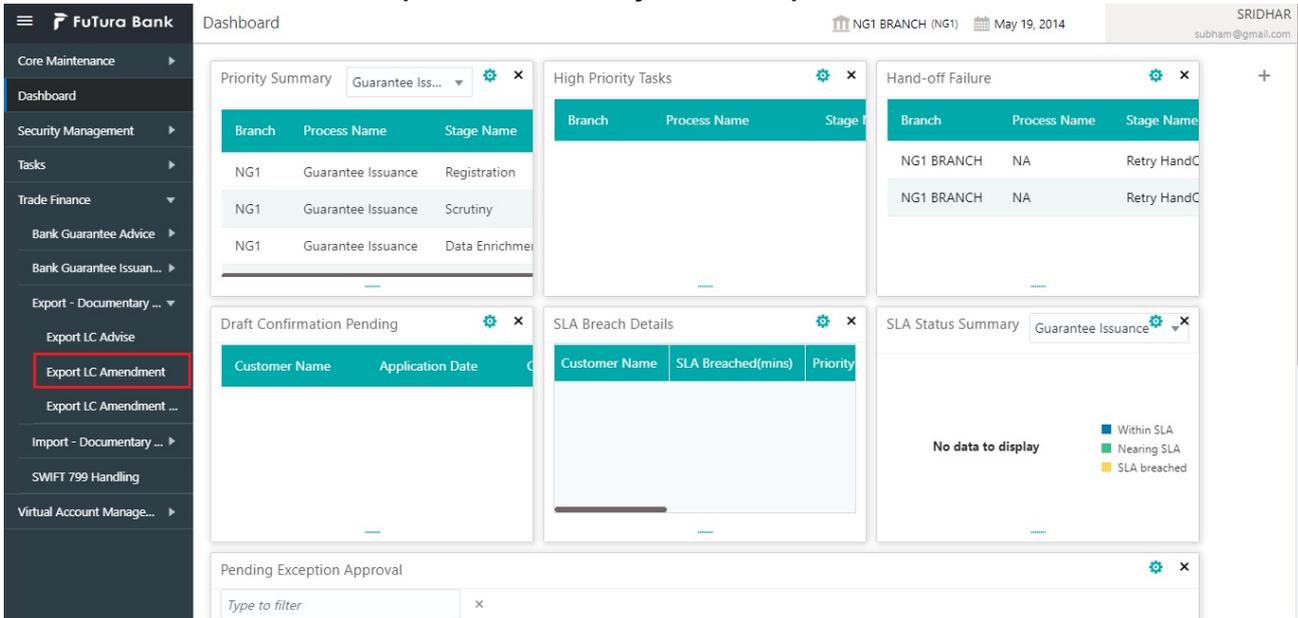

The screenshot shows a login interface for FuTura Bank. The header includes the bank's logo and name. The main heading is 'Sign In'. Below this, there are two required input fields: 'User Name *' containing the text 'SRIDHAR' and 'Password *' which is masked with dots. At the bottom of the form, there are two buttons: a prominent green 'Sign In' button and a smaller white 'Cancel' button.

4. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

5. Click Trade Finance> Export - Documentary Credit> Export LC Amendment.

The Registration stage has two sections Application Details and LC Amendment Details. Let's look at the details of Registration screens below:

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the amendment request. This information can be viewed by other users processing the request.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	

Action Buttons

Submit	On submit, task will get moved to next logical stage of Export LC Amendment. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
--------	--	--

Field	Description	Sample Values
Save & Close	Save the information provided and displays the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Export LC Amendment Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit. 	

Note

When an amendment to an Export LC which is linked to a Back to Back LC (Import LC) is initiated, system should display a message, the LC is linked to an Import LC.

Document Linkage

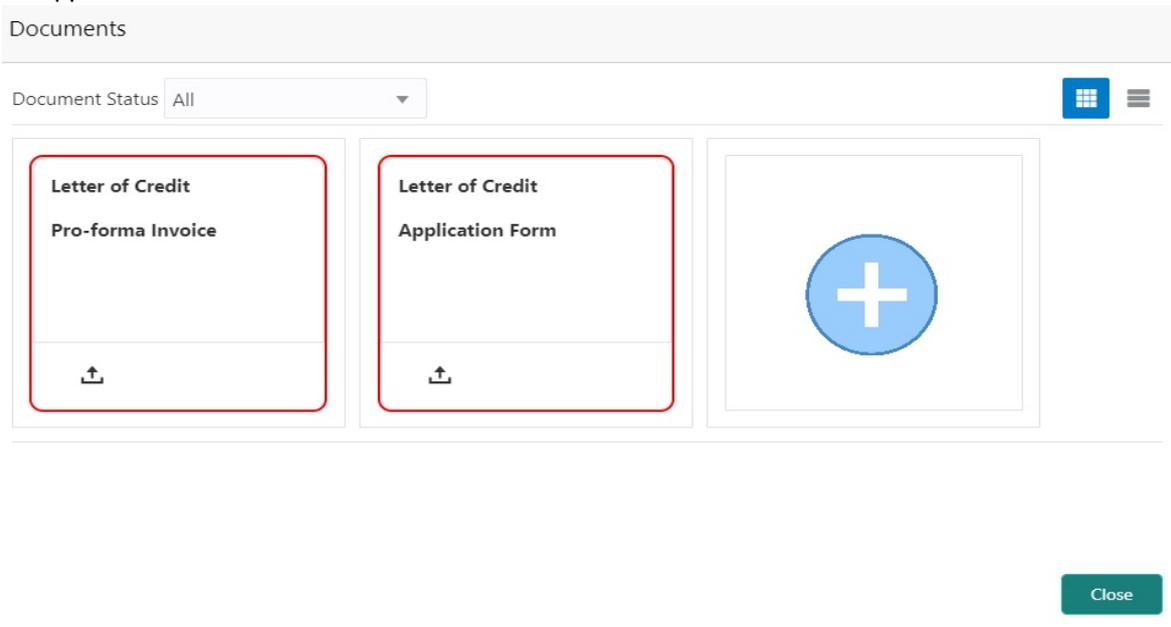

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.

2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

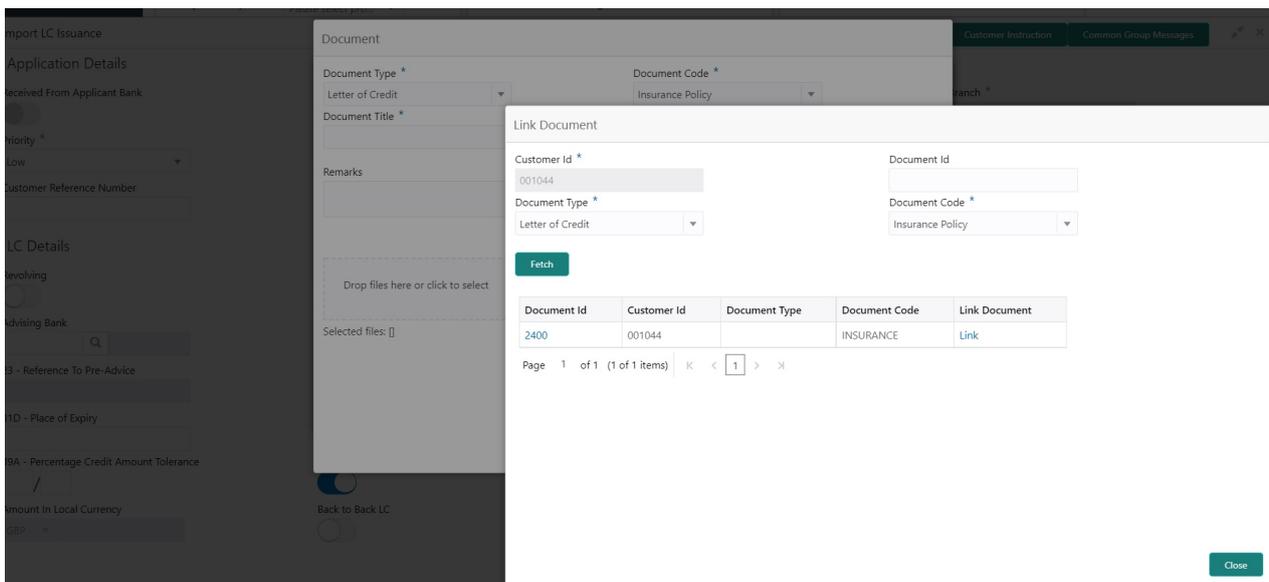

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

Field	Description	Sample Values
Document Type	Select the Document type from list. Indicates the document type from metadata.	
Document Code	Select the Document Code from list. Indicates the document Code from metadata.	
Document Title	Specify the document title.	

Field	Description	Sample Values
Document Description	Specify the document description.	
Remarks	Specify the remarks.	
Document Expiry Date	Select the document expiry date.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

4. Select the document to be uploaded or linked and click the **Link Document** link. The link Document pop up appears.

The value selected in Document Type and Document code of Document screen are defaulted in the Link Document Search screen.

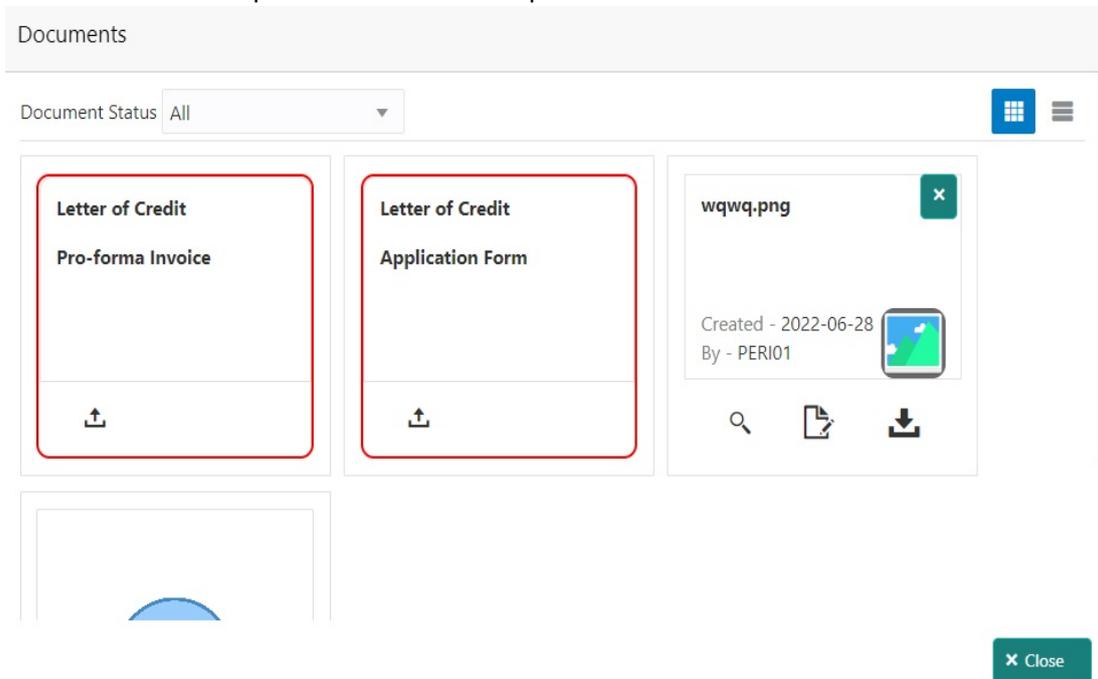

5. Click **Fetch** to retrieve the details from DMS. System Displays all the documents available for the given Document Type and Document Code for the Customer.

Field	Description	Sample Values
Customer ID	This field displays the transaction Customer ID.	
Document ID	Specify the document Id.	
Document Type	Select the document type from list.	
Document Code	Select the document code from list.	
Search Result		
Document ID	This field displays the document Code from meta data.	
Customer ID	This field displays the transaction Customer ID.	
Document Type	This field displays the document type from meta data.	
Document Code	This field displays the document code from meta data.	

Field	Description	Sample Values
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

6. Click **Link** to link the particular document required for the current transaction.

Post linking the document, the user can View, Edit and Download the document.

7. Click Edit icon to edit the documents. The Edit Documents

The 'Edit Document' form contains the following fields:

- Document Id: 2400
- Document Title: wqwq
- Application Reference Number: PK2ILCI000019041
- Entity Reference Number: PK2ILCI000019041
- Document Type Id: TFPM_DOCTYPE001
- Document Description: (empty)
- Remarks: (empty)
- Document Expiry Date: Jun 29, 2022

At the bottom, there is a dashed box with the text 'Drop files here or click to select' and 'Current selected files: []'. 'Update' and 'Cancel' buttons are located at the bottom right.

Scrutiny

On successful completion of Registration of an Export LC Amendment request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized.

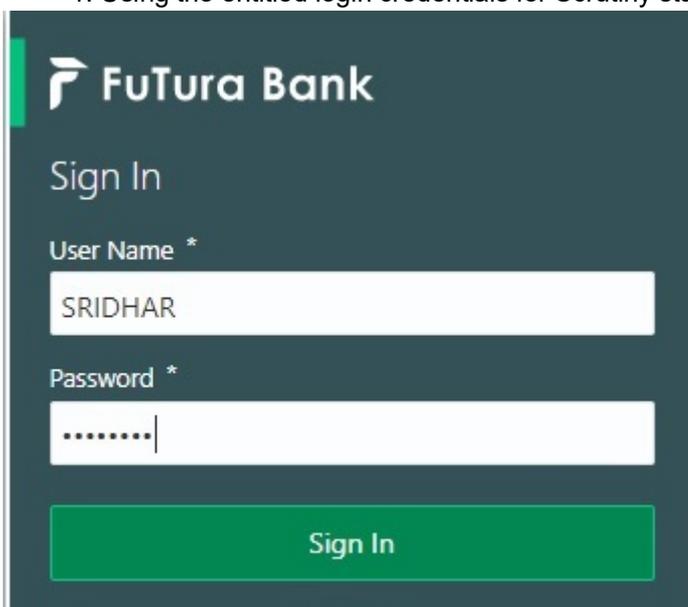

Non-Online Channel - Export LC Amendment request that were received at the desk will move to Scrutiny stage post successful Registration. The requests will have the details entered during the Registration stage.

Online Channel - Requests that are received via like SWIFT are available directly for further processing from Scrutiny stage and available data for all data segments from Application stage to Data Enrichment stage would be auto populated. When customer initiates an Export LC amendment response through SWIFT (Corporate to SWIFT) channel, the incoming MT798 message Accept or Reject Export LC Amendment.

If the incoming message is MT 707, requests that are received via online channels like trade portal, external system and SWIFT should be available directly for further processing in OBTFPM from Scrutiny stage.

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

FuTura Bank

As part of amendment, user can change the values available in the fields based on the description in the following table:

Field	Description	Sample Values
Available With	<p>This field identifies the bank with which the credit is available.</p> <p>User must capture the bank details or any free text.</p> <ul style="list-style-type: none"> If the LC is restricted to any particular bank,, search the bank with SWIFT code (BIC) or Bank Name.  <p>On selection of the record if SWIFT code is available, then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address gets defaulted.</p> <ul style="list-style-type: none"> If the LC is not restricted to any bank, provide free text - (YOURSELVES, WITH ANY BANK etc.). 	

Field	Description	Sample Values
Available By	<p>This field displays the value of 'Available By' as per the issued LC. Choose one of the following values from drop down, if required.</p> <ul style="list-style-type: none"> ● BY ACCEPTANCE ● BY DEF PAYMENT ● BY MIXED PAYMENT ● BY NEGOTIATION ● BY PAYMENT <p>Validation:</p> <p>1) If By Mixed Payment option is selected, there must be a value in tag 42M- Mixed payment</p> <p>2) If By deferred payment is selected, there must be a value in tag 42P- Deferred payment</p> <p>3) If By payment is selected, payment at sight is applicable. It must be applicable for Sight Type of product only.</p>	
Drafts At	<p>This field displays the details of tenor of drafts to be drawn under the documentary credit as per the issued LC.</p>	
Drawee	<p>This field displays the Drawee value as per the issued LC.</p> <p>This field will have value only if 'Drafts at' field has values.</p> <p>Select the Drawee bank (Advising bank or Confirming bank).</p> <ul style="list-style-type: none"> ● Search the bank with SWIFT code (BIC) or Bank Name. <div data-bbox="568 1323 1166 1525" style="border: 1px solid #ccc; padding: 5px; margin: 10px 0;"> <p>Available With ✕</p> <p>BIC <input type="text"/> Bank Name <input type="text"/></p> <p>Fetch</p> <p>BIC <input type="text"/> Bank Name <input type="text"/></p> <p>No data to display.</p> <p>Page 1 (0 of 0 items) ⏪ < 1 > ⏩</p> </div> <p>On selection of the record if SWIFT code is available, then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address to be defaulted.</p> <div style="text-align: center; margin: 10px 0;">  <p>Note</p> </div> <p>This field is mandatory if value is provided at Drafts At field.</p>	
Tenor	<p>This field displays the value of Tenor as per the issued LC and can be modified if required.</p>	

Shipment Details

As part of amendment, user can change the values available in the fields based on the description in the following table:

Field	Description	Sample Values
Partial Shipments	<p>This field displays the value of Partial Shipments as per the LC and can be modified if required.</p> <p>This field specifies whether or not partial shipments are allowed under the documentary credit.</p> <p>Select the appropriate value from the drop down. Available values are:</p> <ul style="list-style-type: none"> • ALLOWED • CONDITIONAL • NOT ALLOWED 	
Transshipment	<p>This field displays the value of Transshipments as per the LC and can be modified if required.</p> <p>This field specifies whether or not transshipment is allowed under the documentary credit.</p> <p>Select the appropriate value from the drop down. Available values are:</p> <ul style="list-style-type: none"> • ALLOWED • CONDITIONAL • NOT ALLOWED 	

Field	Description	Sample Values
Place Of Taking In Charge	<p>This field displays the value of place of taking in charge as per the LC and can be modified if required.</p> <p>This field specifies the place of taking in charge (in case of a multi-modal transport document), the place of receipt (in case of a road, rail or inland waterway transport document or a courier or expedited delivery service document), the place of dispatch or the place of shipment to be indicated on the transport document.</p> <p> Note</p> <p>This field is alternate to Port Of Loading. Any of these fields must have value and if both the fields has values, application will display an error message.</p>	
Port Of Loading	<p>This field displays the value of port of loading as per the LC and can be modified if required.</p> <p>This field specifies the port of discharge or airport of destination to be indicated on the transport document.</p> <p> Note</p> <p>This field is alternate to Place Of Taking In Charge. Any of these fields must have value and if both the fields has values, application will display an error message.</p>	
Port Of Discharge	<p>This field displays the value of port of discharge as per the LC and can be modified if required.</p> <p>This field specifies the port of discharge or airport of destination to be indicated on the transport document.</p> <p> Note</p> <p>This field is alternate to Place Of Final Destination. Any of these fields must have value and if both the fields has values, application will display an error message.</p>	

Field	Description	Sample Values
Place Of Final Destination	<p>This field displays the value of Place of Final Destination as per the LC and can be modified if required.</p> <p>This field specifies the final destination or place of delivery to be indicated on the transport document.</p>  <p>Note This field is alternate to Port Of Discharge. Any of these fields must have value and if both the fields has values, application will display an error message.</p>	
Latest Date Of Shipment	<p>This field displays the value of Latest Date of Shipment as per the LC and can be modified if required.</p> <p>This field is alternate to Shipment Period. Latest date of shipment or shipment period must have value and if both the fields has values, application will display an error message.</p>  <p>Note If amendment to the Shipment date (advancing the Latest Shipment Date before the Latest Shipment date of the underlying Import LC), system validates the amended value against the Back-to-Back LC value and display configurable override.</p>	
Shipment Period	<p>This field displays the value of shipment period as per the LC and can be modified if required.</p>  <p>Note This field is alternate to Latest Date Of Shipment.</p> <p>Latest date of shipment or shipment period must have value and if both the fields has values, application will display an error message.</p>	

Description Of Goods And Or Services

Goods Code	Goods Type	Goods Description	No of Units	Price per Unit	Total Amount	Action
METAL	A	Metallic Mercury	25	£100.00	£2,500.00	

This field contains a description of the goods and/or services of the issued LC and can be amended if required. Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
INCO Terms	Select the appropriate INCO terms.	
INCO Term Description	The description of the INCO Term.	
+ Icon	Click + icon to add goods details.	
- Icon	Click - icon to remove goods details.	
Goods Code	Click look up icon to select the goods code.	
Goods Type	The goods type is auto populated depending on selected goods code.	
Goods Description	The goods description is auto populated depending on selected goods code.	
No of Units	Enter the number of units being imported or exported.	
Price per Unit	Enter the value for price per unit.	
Total Amount	System to calculate the total price In case of online request, the system should populate the total amount from incoming request. System should validate that the total amount is equal to the value of the transaction (LC/ Collection).	
Action	Click Edit icon to edit the goods detail. Click Delete icon to delete the goods detail.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Overrides	Click to view the overrides accepted by the user.	
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Export LC amendment Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others.

As part of amendment, user can change the values available in the fields based on the description in the following table:

Field	Description	Sample Values
Special Payment conditions for beneficiary	This field displays the value of Spl Paymt Cond - Beneficiary as per the LC and can be modified if required. If any special payment condition has to be provided to beneficiary, the details for the same must be captured in this field.	
Special Payment conditions for receiving bank	This field displays the value of Spl Paymt Cond - Rec Bank as per the LC and can be modified if required. If any special payment condition has to be provided to receiving bank, the details for the same must be captured in this field. This field specifies special payment conditions applicable to the receiving bank without disclosure to the beneficiary, for example, post-financing request/ conditions for receiving bank only.	

Field	Description	Sample Values
Period for Presentation	<p>This field displays the value of Period for Presentation as per the LC and can be modified if required.</p> <p>If the period of presentation is based on any event other than shipment, then you can capture the event name in text along with the number of days in number.</p>	
Confirmation Instructions	<p>This field displays the value of Confirmation Instructions as per the LC and can be modified if required.</p> <p>Select the confirmation instruction for the LC from the available LOV values – CONFIRM, MAY ADD, WITHOUT.</p> <p>Applicable only if field 49 - confirmation instruction is 'confirm' or 'may add'. You can search through LOV, Party type with banks should only be displayed in LOV. The system must display the following:</p> <p>a) SWIFT code (if available),</p> <p>b) Name and address of the bank</p> <p>On selection of the record, if SWIFT code is available then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address to be defaulted.</p>	
Partial Confirmation Allowed	<p>Toggle On: Set the toggle 'On' to enable partial confirmation.</p> <p>Toggle Off: Set the toggle 'Off' to disable partial confirmation.</p> <div style="text-align: center;">  <p>Note</p> <p>This field is applicable only if Confirmation Instructions is set to Confirm.</p> </div>	
Silent Confirmation	<p>This option when enabled:</p> <ul style="list-style-type: none"> • Confirmation Percentage should default as 100 and Silent Confirmation Amount should display the full LC outstanding value. User should not be able to modify them. • All other confirmation fields to be blank and disabled. <p>This field is added only for LC in which Issuing Bank does not request confirmation,</p> <p>This field is enabled, if Confirmation Instruction field has value Without or May Add.</p>	

Field	Description	Sample Values
Confirmation%	<p>Provide the confirmation percentage.</p> <p> Note This field is applicable only if Confirmation Instructions is set to Confirm and Partial Confirmation Toggle is 'On'.</p> <p> Note This field is alternate to 'Confirmation Amount'.</p>	
Confirmation Amount	<p>Provide the confirmation percentage.</p> <p> Note This field is applicable only if Confirmation Instructions is set to Confirm and Partial Confirmation Toggle is 'On'.</p> <p> Note This field is alternate to 'Confirmation Amount'.</p>	
To be confirmed by Advising Bank	<p>Toggle On: Set the toggle on to confirm by advising bank.</p> <p>Toggle Off: Set the toggle off for not to be confirmed by advising bank.</p>	
Requested Confirmation Party	<p>This field displays the value of Requested Confirmation Party as per the issued LC and can be modified if required.</p> <p> Note This field is applicable only for LC Type - Confirmed LC.</p>	

Field	Description	Sample Values
Confirmation Expiry Date	<p>The user can select the Confirmation Expiry Date.</p> <p>This field indicates the date up to which the Confirmation is valid. When the underlying Confirmed LC is amended to have a new Expiry Date, the value will be populated in OBTFPM also. If new expiry date is to be confirmed, user can update the Confirmation Expiry Date to the new Expiry Date. If the new expiry date is not to be confirmed, user should not update the New Confirmation Expiry Date. System should validate that the value is only either the original expiry date or the new expiry date.</p> <p>In case Confirmation Expiry Date is to be extended, then on hand-off the related flag should be set to yes in back office system. In case Confirmation Expiry Date is not to be extended, then on hand off, related flag should be set to No in back office.</p>	
Reimbursing Bank	<p>This field displays the value of Reimbursing Bank as per the LC and can be modified if required.</p> <p>Search through LOV. Party type with banks will be displayed in LOV.</p> <ul style="list-style-type: none"> • SWIFT code (if available), • Name and address of the bank <p>On selection of the record if SWIFT code is available, then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address to be defaulted.</p>	

Field	Description	Sample Values
Advise Through Bank	<p>Online Channel – User can update the details received.</p> <p>Non-Online Channel -</p> <p>Search through LOV. Party type with banks must be displayed in LOV.</p> <ul style="list-style-type: none"> • SWIFT code (if available) • Name and address of the bank <p>On selection of the record if SWIFT code is available, then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address to be defaulted.</p> <p> Note</p> <p>In case the selected Bank is not RMA Compliant, the system displays error message “RMA arrangement not available”.</p> <p>In case of SWIFT MT707 message, this field is empty.</p>	
Instructions to P/A/N Bank	This field displays the value of Instructions to P/A/N Bank as per the LC and can be modified if required.	
Sender to Receiver Information	This field displays the value of Sender to Receiver Information (FFT Details) as per the LC and can be modified, if required.	
Charges	This field displays the charges and can be modified, if required.	
Amendment charges payable by	<p>Select the party to pay the amendment charges:</p> <ul style="list-style-type: none"> • Applicant • Beneficiary • Others 	

Information to Issuing Bank

Provide MT730 - Information to Issuing Bank details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver Information	This field displays the additional information to receiver and can be modified, if required.	
Narrative	This field displays the additional information from the advising bank to the issuing bank and can be modified, if required.	

Field	Description	Sample Values
Issuing Bank Account Number	This field displays the issuing bank account number from the LOV and can be modified, if required.	
Charges to be Claimed	This field displays the FFT from the LOV for the charges to be claimed and can be modified, if required.	
Charges	This field displays the charge details for advising and can be modified, if required.	
Issuing Bank Date	This field displays the issuing bank date and can be modified, if required.	
Account with Bank	This field displays the account to which the charges needs to be paid and can be modified, if required.	

Information to Advise Through Bank

Provide MT710 - Information to Advise Through Bank details based on the description in the following table:

Field	Description	Sample Values

Limits & Collateral

Limit availability needs to be checked if amendment involves increase in amount or tolerance or both and the LC is confirmed/ to be confirmed with the amended values.

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number" to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFFPM) and should Earmark the limit from the Back office.

In case multiple Lines are applicable, Limit Earmark Reference for all lines to be passed to the back office.

Provide the Limit Details based on the description in the following table:

If default charges are available under the product, they should be defaulted here with values. If customer or customer group specific charges are maintained, then the same will be defaulted from back end system.

Field	Description	Sample Values
Event	Read only field. This field displays the event name.	

Field	Description	Sample Values
Event Description	Read only field. This field displays the description of the event.	
Commission Details		
Commission Details are auto-populated from back-end system.		
Edit Icon	Click edit link to edit any existing Charge Details.	
Component	This field displays the commission component	
Rate	Defaults from product. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	
Modified Rate	From the default value, if the rate is changed the value gets updated in this field.	
Currency	Defaults the currency in which the commission needs to be collected	
Amount	An amount that is maintained under the product code defaults in this field. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPM. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	
Modified	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	

Field	Description	Sample Values
Waive	<p>Select the check box to waive charges/ commission.</p> <p>Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.</p> <p>If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.</p>	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary	
Settlement Account	Details of the Settlement Account.	
Charge Details		
Component	Charge Component type.	
Tag Currency	Defaults the tag currency in which the charges have to be collected.	
Tag Amount	Tag amount that is maintained under the product code.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Modified	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	

Field	Description	Sample Values
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Waive	<p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer. This field is disabled, if 'Defer' toggle is enabled.</p>	
Charge Party	Charge party will be beneficiary by default. You can change the value to applicant	
Settlement Account	Details of the settlement account.	

The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system.

Tax details are defaulted from the back-end system.

Field	Description	Sample Values
Component	This field displays the tax Component.	
Type	This field displays the type of tax Component.	
Value Date	This field displays the value date of tax component.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	<p>If taxes are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Defer	<p>If taxes have to be deferred and collected at any future step, this option has to be enabled.</p> <p>The user can enable/disable the option the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	

Field	Description	Sample Values
Component	This field displays the tax Component.	
Type	This field displays the type of tax Component.	
Value Date	This field displays the value date of tax component.	
Settlement Account	Details of the settlement account.	

Assignment of Proceeds

In this tile, assignment details for the applicable processes is displayed. Proceeds can be assigned only if the parties have been assigned during drawing or update drawing process.

Assignment of Proceeds x

Assignee Details + -

Sequence	Assignee Id & Assignee Details	Assignment %	Currency	Assigned Amount	Assignee Bank Details	Account With Institution

Save & Close Cancel

Field	Description	Sample Values
Assignment Paid By Importer	Slide the toggle if assignment is paid by importer.	
Sequence	User can update the sequence number.	
Assignee ID & Assignee Details	<p>User can select the assignee id. Assignee details appear based on selected assignee ID.</p> <p>User can add multiple assignees to a single Bill under LC with the assignment amount or assignment percentage of parent LC.</p> <div style="text-align: center;">  <p>Note</p> <p>WALKIN customers is allowed as assignee.</p> </div>	

Field	Description	Sample Values
Assignment %	User can input the percentage of LC amount that has be assigned to the assignee. Once the user updates the rate, the system has to calculate the amount as per assigned rate and default in the assigned amount field. If the user directly captures the assigned amount then the assigned percentage has to calculate the percentage and the same to be populated in the screen. If contribution is more than 100%, system to display an alert message. Once contribution % is input system will default the amount. System to validate that Limit Contribution percentage plus Collateral percentage is equal to 100. Otherwise system to provide override.The assignment percentage should be rounded to two decimal places	
Currency	User can select the account currency of the settlement account of the assignee. Only the currencies for which the settlement account is available, only those currency will be displayed.	
Assigned Amount	User can input the amount that has to be assigned to the assignee. If the user has already inputted the assignment percentage, system to calculate the amount and populate the value	
Assignee Bank Details	User can select the assignee bank.	
Account with Institution	User can select the account number of the Account with Institution.	

FX Linkage Details

This section enables the user to link the existing FX contract(s) to the LC transactions. User can link multiple forward FX contracts.FX contract linkage with the Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the Bill.

Following are the conditions of FX Linkage:

- If any LC Amendment is pending for beneficiary confirmation with FX changes, then the system, will not allow another amendment on this contract further.
- FX request will be processed in external system, only after successful amendment confirmation has been done.
- Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage.
- Delink of linked FX or Reduction of linked amount from the LC is allowed if the same is not attached to any Bills.

- Reduction of LC contract amount with FX, through LC amendment will be restricted, when the contract amount goes below the FX linkage amount. User will be intimated with the message.

Field	Description	Sample Values
FX Reference Number	<p>Select the FX contract reference number from the LOV. On selection, system defaults date, available amount, bought currency, sold currency and rate.</p> <p>Forward FX Linkage available for selection at bill would be as follows,</p> <ul style="list-style-type: none"> Counterparty of the FX contract should be the counterparty of the Bill contract. Active Forward FX transactions authorized not marked for auto liquidation. Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill. 	

Field	Description	Sample Values
Currency	System defaults from the linked FX contract.	
Bought Currency	System defaults from the linked FX contract.	
Sold Currency	System defaults from the linked FX contract.	
Available Contract Amount	Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.	
Rate	Exchange rate is defaulted from the linked FX contract.	
Linked Amount	Sum of Linked amount will not be greater than Bill/LC contract amount. Linked amount will not be greater than the available amount for linkage.	
Current Utilized Amount	Current Utilized amount displays the liquidated / purchased /discounted /negotiated amount of BC contract. It cannot go beyond the linked FX amount.	
Total Utilized Amount	Total Utilized amount displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version.	
FX Expiry Date	System defaults expiry date from the linked FX contract.	
FX Delivery Period From	Displays the FX delivery start date.	
FX Delivery Period To	Displays the FX delivery end date.	
Action	Click the Edit icon to edit the FX linkage details. Click the Delete icon to delete the FX linkage details.	
Average FX Rate	Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	

Field	Description	Sample Values
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Overrides	Click to view the overrides accepted by the user.	
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Summary

User can review the summary of details updated in Scrutiny Export LC Amendment request.

Log in to Oracle Banking Trade Finance Process Management (OBTfPM) system to see the summary tiles. The tiles must display a list of important fields with values. User can drill down from summary Tiles into respective data segments.

The screenshot shows the Oracle Banking Trade Finance Process Management (OBTfPM) system interface. The main content area is titled "Summary" and displays a grid of summary tiles for an Export LC Amendment request. The tiles are organized into two rows and four columns:

- Main Details:** Form of LC : IRREVOCABLE, Submission Mode : Desk, Date of Issue : 2019-05-06, Date of Expiry : 2019-10-12, Place of Expiry : CHN
- Availability Shipment:** Available With : PPBKG21456, Available By : PAYMENT, Port of Loading : CHN, Port of Discharge : BRISTOL
- Payment Details:** Period of Present. : , Confirmation Instr. : WITHOUT
- Amendment Details:** Click here to view : Amended/Updated Details
- Limits and Collaterals:** Limit Currency : USD, Limit Contribution : 1001, Limit Status : Not Verified, Collateral Currency : GBP, Collateral Contr. : 80.08, Collateral Status : Not Verified
- Commission, Charges and Taxes:** Charge : GBP50, Commission : , Tax : , Block Status : Not Initia
- Revolving Details:** Revolving : N, Revolving In : , Revolving Frequency :
- Assignment of Proceeds:** Assignment of proceeds : No, Assignee Name : , Assigned Amount :

The interface includes a navigation menu on the left with options like Main Details, Availability Shipment, Payment Details, Amendment Details, Additional Details, and Summary. The top header shows the Oracle logo, "Free Tasks", and user information (SRIDHAR02, subham@gmail.com). The bottom bar contains action buttons: Audit, Reject, Refer, Hold, Cancel, Save & Close, Back, Next, and Submit.

Tiles Displayed in Summary

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view party details like beneficiary, advising bank etc.
- Availability and Shipment - User can view and modify availability and shipment details, if required.
- Payments - User can view and modify all details related to payments, if required.
- Amendment Details - User can view the amended details of LC.
- Additional Fields - User can view the additional fields of LC.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charges - User can view and modify charge details, if required.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Overrides	Click to view the overrides accepted by the user.	
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	

Field	Description	Sample Values
Submit	<p>Task will get moved to next logical stage of Export LC Amendment.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Back	Task moves to the previous screen.	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request</p>	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>

Data Enrichment

As part of Data Enrichment, user can enter/update basic details of the incoming request.

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”. Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

The image shows the login interface for FuTura Bank. It features a dark blue header with the FuTura Bank logo and the text "Sign In". Below the header, there are two input fields: "User Name *" with the value "SRIDHAR" and "Password *" with masked characters. A green "Sign In" button is positioned at the bottom of the form.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The image displays the FuTura Bank dashboard. The top navigation bar includes the FuTura Bank logo, the word "Dashboard", and user information: "Bank Futura · (203) 04/13/18" and "SHUBHAM". A left sidebar contains menu items: "Core Maintenance", "Dashboard", "Maintenance", "Tasks", and "Trade Finance". The main dashboard area is populated with several widgets:

- Draft Confirmation Pending:** A table with columns "Customer Name" and "Application Date".

Customer Name	Application Date
EMR & CO	25-06-2018
NA	25-06-2018
NA	21-06-2018
- Hand-off Failure:** A table with columns "Branch", "Process Name", and "Stage Name".

Branch	Process Name	Stage Name
Bank Futura	NA	Retry HandOf
- Priority Details:** A table with columns "Branch", "Process Name", and "Stage Name".

Branch	Process Name	Stage Name
Bank Futura	NA	Amount Blo
Bank Futura	NA	Amount Blo
004	NA	Loan Applic
- High Value Transactions:** A bubble chart showing transaction values for GBP. The y-axis ranges from -20K to 140K, and the x-axis ranges from -2 to 12. There are three large blue bubbles at approximately x=0, y=100K and two smaller blue bubbles at approximately x=4, y=20K.
- SLA Breach Details:** A table with columns "Customer Name", "SLA Breached(mins)", and "Priority".

Customer Name	SLA Breached(mins)	Priority
NA	23474	H KEERTIV01
HSBC BANK	26667	M SHUBHAM
WALL MART	23495	M SHUBHAM
EMR & CO	26780	M GOPINATH01
- Priority Summary:** A table with columns "Branch", "Process Name", and "Stage Name".

Branch	Process Name	Stage Name
203	Cucumber Testing	test descrip
- Hold Transactions:** A table with columns "Branch", "Process Name", and "Stage Name".
- SLA Status:** A widget showing "Cucumber Testing" with a gear icon.
- Tasks Detailed:** A widget showing "Cucumber Testing" with a gear icon.

3. Click Trade Finance> Tasks> Free Tasks.

Limits & Collateral

Limit availability needs to be checked if amendment involves increase in amount or tolerance or both. This is applicable for confirmation of the unconfirmed LC or increasing the amount or tolerance if already LC is already confirmed.

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number" to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFPM) and should Earmark the limit from the Back office.

In case multiple Lines are applicable, Limit Earmark Reference for all lines to be passed to the back office.

Provide the Limit Details based on the description in the following table:

Limits and Collaterals

Limit Details

Customer ID	Line ID	Contribution %	Contribution Currency	Contribution Amount	Limit Check Response	Response Message	Edit	Delete

If default charges are available under the product, they should be defaulted here with values. If customer or customer group specific charges are maintained, then the same will be defaulted from back end system.

Commission Details

Provide the Commission Details based on the description provided in the following table:C

Field	Description	Sample Values
Event	Read only field. This field displays the event name.	
Event Description	Read only field. This field displays the description of the event.	
Component	Select the commission component	
Rate	Defaults from product. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	
Currency	Defaults the currency in which the commission needs to be collected	
Amount	An amount that is maintained under the product code defaults in this field. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPM. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	
Modified Amount	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	

Field	Description	Sample Values
Waive	<p>Select the check box to waive charges/ commission.</p> <p>Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.</p> <p>If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.</p>	
Charge Party	Charge party will be 'Beneficiary' by Default. You can change the value to Applicant	
Settlement Account	Details of the Settlement Account.	

Charge Details

Field	Description	Sample Values
Component	Charge Component type.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Modified Amount	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Waive	<p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Charge Party	Charge party will be beneficiary by default. You can change the value to applicant.	
Settlement Account	Details of the settlement account.	

Tax Details

The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/

commission will be available on click of Re-Calculate button or on hand off to back-end system.

Tax details are defaulted from the back-end system.

Field	Description	Sample Values
Component	Tax Component type	
Type	Type of tax Component.	
Value Date	This field displays the value date of tax component.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	If taxes are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing. This field is disabled, if 'Defer' toggle is enabled.	
Defer	If taxes have to be deferred and collected at any future step, this option has to be enabled. The user can enable/disable the option the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.	
Settlement Account	Details of the settlement account.

- Accounting Details - User can view the accounting entries generated in back office.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message "Value Date is different from Transaction Date for one or more Accounting entries."

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Submit	Task will get moved to next logical stage of Export LC Amendment. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Data Enrichment stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none">• R1- Documents missing• R2- Signature Missing• R3- Input Error• R4- Insufficient Balance/Limits• R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	

Exceptions

The Export LC Amendment request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block.

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Back	Task moves to previous logical step.	

Multi Level Approval

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

Summary

The screenshot displays the 'Summary' page for an 'Export LC Amendment - Approval1' task. The page is organized into a grid of 12 summary tiles, each with a blue header and a white body containing key-value pairs. Each tile has a green checkmark in the bottom right corner, indicating that the data is valid or complete. The tiles are arranged in three rows and four columns. At the bottom of the page, there is an 'Audit' button on the left and a row of five buttons: 'Reject', 'Hold', 'Refer', 'Cancel', and 'Approve' on the right. The top of the page shows the 'FuTura Bank' logo, 'Free Tasks' status, and user information including 'SRIDHAR02' and 'subham@gmail.com'.

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Availability and Shipment - User can view and modify availability and shipment details, if required.
- Payments - User can view and modify all details related to payments, if required.
- Amended Details - User can view the amended details of the issued LC.
- Documents & Condition - User can view and modify the documents required grid and the additional conditions grid, if required.

- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charges - User can view and modify charge details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	Cancel the approval.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.	

Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Export LC Amendment in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

Application Details

The application details data segment have values for requests received from both non-online and online channels.

Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view and modify details about application details and LC details, if required.
