Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Export LC Transfer Amendment- Beneficiary Consent -Islamic

Export LC Transfer Amendment process enables the bank to advise an amendment to the LC which had been already Transferred. The amendments may need consent from the second beneficiaries of the Transfer LC and the amended LC is parked awaiting beneficiary consent. Once the Second Beneficiary has accepted the amendment, the Transfer LC amendment Confirmation will be triggered.

The various stages involved for Islamic Export LC Transfer Amendment Beneficiary Consent are:

- Input basic data and Upload of related mandatory and non-mandatory documents in Registration stage
- Input/Modify details of amendment of Transferred LC Data Enrichment stage
- Capture remarks for other users to check and act
- Notify customer on any negative statuses in any of the stages to the Beneficiary
- Hand off request to back office

The design, development and functionality of the Islamic Export LC Transfer Amendment process flow is similar to that of conventional Export LC Amendment process flow.

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Approval

Common Initiation Stage

The user can initiate the new Islamic export LC transfer amendment beneficiary consent request from the common Initiate Task screen.

- 1. Using the entitled login credentials, login to the OBTFPM application.
- 2. Click Trade Finance > Initiate Task.

\equiv ORACLE [°]	Initiate Task		(DEFAULTENTITY)	Oracle Banking Trade Finan 🗎	ZARTAB02 subham@gmail.com

Initiate Task					

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

During the Registration stage, the user can register a request for an Islamic Export LC Transfer Amendment Beneficiary Consent.

User can capture the basic details of the response, check the signature of the signatory from the advising bank and upload the related documents. On submit of the request, the request should be available for an LC expert to handle in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents. If mandatory documents are not uploaded, system should display an error on submit.	
Remarks	Provide any additional information regarding the Beneficiary Consent. This information can be viewed by other users processing the request.	
Customer Instructions	Click to view/ input the following	
	 Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. 	
	 Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
View LC	User can view the Transfer LC details.	
Events	User can view the Transfer LC Events.	
LC Version	System displays the Transfer LC version wise if there are any amendments. In case there are no amendments then system should display transfer LC details directly under version 1.	

Action Buttons

Field	Description	Sample Values
Submit	On submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Export LC Amendment - Beneficiary Consent. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Export LC Amendment - Beneficiary Consent Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit. The checklist items under Registration Stage are: • Verified Beneficiary Instructions • All Documents uploaded	

Data Enrichment

DE User can process new request for Islamic Export LC Transfer Amendment Beneficiary Consent.

As a part of Data Enrichment stage, User can enter/update basic details of the incoming request and verify if the request can be progressed further.

Request that are received via online channels like trade portal, external system and SWIFT are available directly for further processing in OBTFPM from registration and available data for all data segments from Application stage to Data Enrichment stage would be auto populated.

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

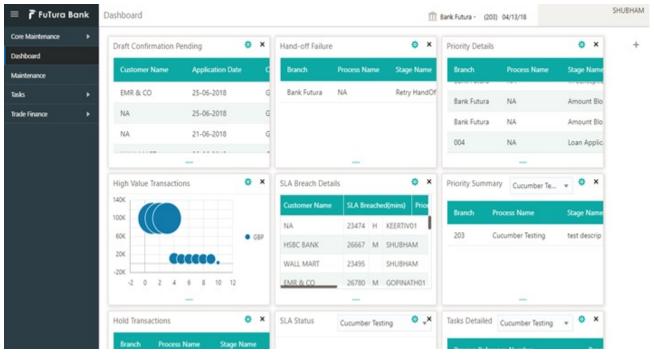

Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Beneficiary Consent Response Capture stage, login to the OBTFPM application.
