Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Import LC Drawing

Drawings under Import LC is initiated on account of one of the following 2 scenarios:

1. SWIFT MT 750 received from the presenting bank requesting for applicant's waiver of discrepancies.
2. Receipt of documents under LC from the presenting bank where an MT 750 has not been sent already.

This section contains the following topics:

Common Initiation Stage	Registration
Document Linkage	Data Enrichment
Exceptions	Multi Level Approval
Reject Approval	

Common Initiation Stage

The user can initiate the new import LC drawing request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
LC Reference Number	Select the LC Reference Number.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

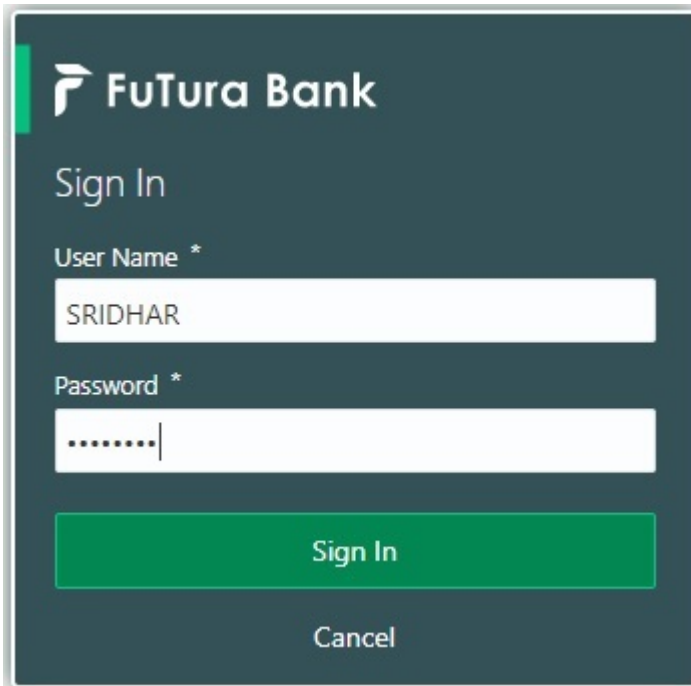

The process starts from Registration stage, if drawings are initiated on account of documents under LC received from presenting bank. No MT750 not received from presenting bank in this scenario.

During Registration stage, user can capture the basic details and upload the documents received from presenting bank. It also enables the user to capture some additional product related details as an option. On submit of the request the request will be available for an LC expert to handle the request in the next stage.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

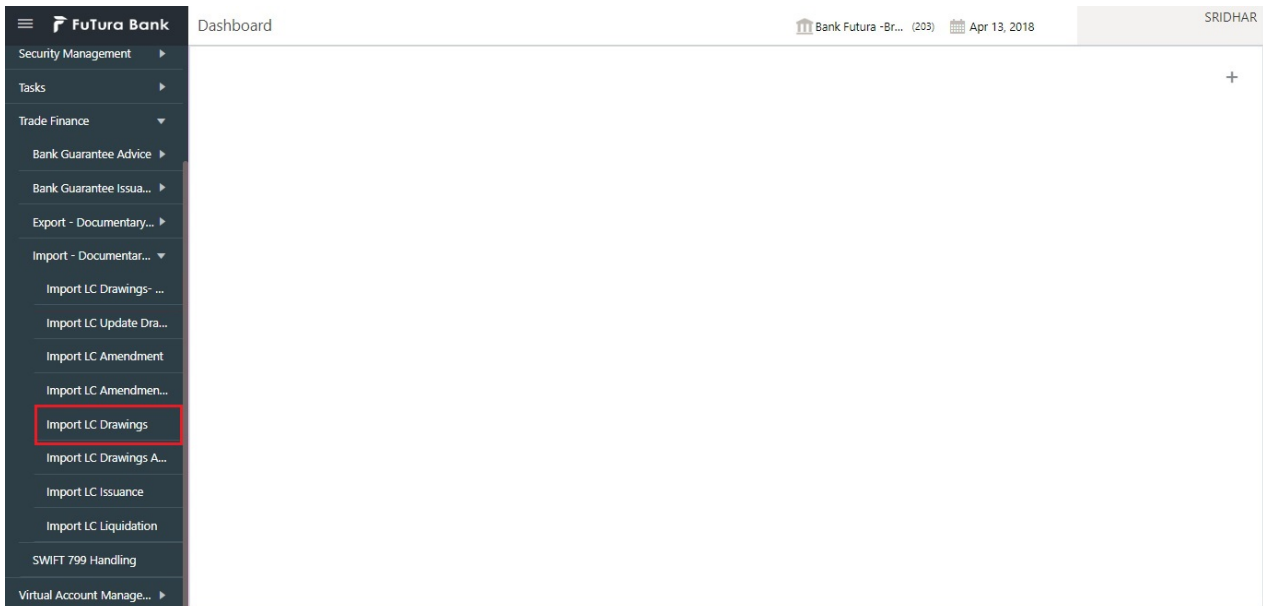

The screenshot shows a login interface for FuTura Bank. At the top left is the FuTura Bank logo. Below it, the text 'Sign In' is displayed. There are two input fields: 'User Name *' containing the text 'SRIDHAR' and 'Password *' containing masked characters. Below these fields are two buttons: a green 'Sign In' button and a 'Cancel' button.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Import - Documentary Credit> Import LC Drawings.

The Registration stage has two sections Basic Details and LC Details. Let's look at the details of Registration screens below:

Provide the Basic Details based on the description in the following table:

Field	Description	Sample Values
Documentary Credit Number	Provide the documentary credit number. Alternatively, user can search the documentary credit number using LOV. In the LOV, user can input Customer ID, Beneficiary, Currency, Amount and User Reference to fetch the LC details. Based on the search result, select the applicable LC for drawing.	
Received From - Customer ID	Read only field. Customer ID will be auto-populated based on the selected LC from the LOV.	001344
Received From - Customer Name	Read only field. Customer Name will be auto-populated based on the selected LC from the LOV.	EMR & CO
Branch	Read only field. Branch details will be auto-populated based on the selected LC from the LOV.	203-Bank Futura -Branch FZ1
Process Reference Number	Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	
Priority	System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated any time before submit.	High

Field	Description	Sample Values
Submission Mode	<p>Select the submission mode of Import LC Drawing request. By default the submission mode will have the value as 'Desk'.</p> <p>Desk- Request received through Desk Courier- Request received through Courier</p>	Desk
Drawing Date	By default, the application will display branch's current date and does not enables the user to change the date to any back date.	04/13/2018
Presenting Bank	<p>Select the Presenting Bank.</p> <p>Click the look up icon to search the presenting bank based on Party ID/Party Name. You can also input the party ID and on tab out system will validate and populate the 'Presenting Bank' name.</p> <p> Note In case the selected Bank is not RMA Compliant, the system displays error message "RMA arrangement not available, Only MT999 messages can be sent to the bank".</p> <p> Note If the Presenting Bank and the Presenting Bank Reference is already available for another Drawing under the same LC, system displays an error message, "Drawing (Drawing Ref) already Exists with same Presenting Bank Reference Ref no. Please use Update Process and Mark the Documents as Duplicate".</p>	
Presenting Bank Reference Number	User can enter the reference number provided by the presenting bank.	
Document Received Date	<p>By default, the application will display branch's current date and enables the user to change the date to any back date.</p> <p> Note Future date selection is not allowed.</p>	

LC Drawing Details

Registration user can provide drawing details in this section. Alternately, drawing details can be provided by Scrutiny user.

Provide the drawing LC Details based on the description in the following table:

Field	Description	Sample Values
Tenor Type	Select the Tenor Type from the LOV: <ul style="list-style-type: none"> Sight Usance Mixed 	
Documents Received	Set the document received status as 'Yes' or 'No' from the LOV.	
Document Set	Enables to user to select the number of sets of documents received from the LOV: <ul style="list-style-type: none"> First Second Both 	
Outstanding LC Value	Read only field. This field displays the value as per the LC.	
Product Code	Select the product code for the drawing.	
Product Description	Read only field. This field displays the description of the product as per the product code.	
User Reference Number	System defaults the user reference number based on the product code. The user can change the user reference number.	
Operation Type	Read only field. Operation Type will be auto-populated based on the selected LC.	
Drawing Reference Number	This is auto generated by the back end system.	
Drawing Amount	Provide the drawing amount under the LC for which documents have been submitted.	

Field	Description	Sample Values
Amount In Local Currency	The amount in the Local Currency is displayed.	
Additional Amount	This field enables user to provide any additional amount to be processed under this LC drawing.	
Limits/ Collateral Required	Toggle On: Set the toggle 'On' to enable limit check. Toggle Off: Set the toggle 'Off' to disable limit check.	
Back to Back LC	Flag to check if the Import LC is a back to back LC. Toggle On: Set the Toggle On if back to back LC is applicable. Toggle Off: Set the Toggle Off if back to back LC is applicable.	

Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Signature	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.	
Documents	Upload the documents received under the LC.	

Field	Description	Sample Values
Remarks	Provide any additional information regarding the drawing. This information can be viewed by other users processing the request.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Events	On click, system will display the details of LC issuance, amendments (if any), drawings (if any) and liquidations if any under the LC in chronological sequence from LC Issuance.	
Action Buttons		
Submit	<p>On submit, task will get moved to next logical stage of Import LC Drawing.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Import LC Drawing Registration stage inputs.	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	

Document Linkage

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.
2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

Field	Description	Sample Values
Document Type	Select the Document type from list. Indicates the document type from metadata.	
Document Code	Select the Document Code from list. Indicates the document Code from metadata.	
Document Title	Specify the document title.	
Document Description	Specify the document description.	
Remarks	Specify the remarks.	
Document Expiry Date	Select the document expiry date.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

4. Select the document to be uploaded or linked and click the **Link Document** link. The link Document pop up appears.

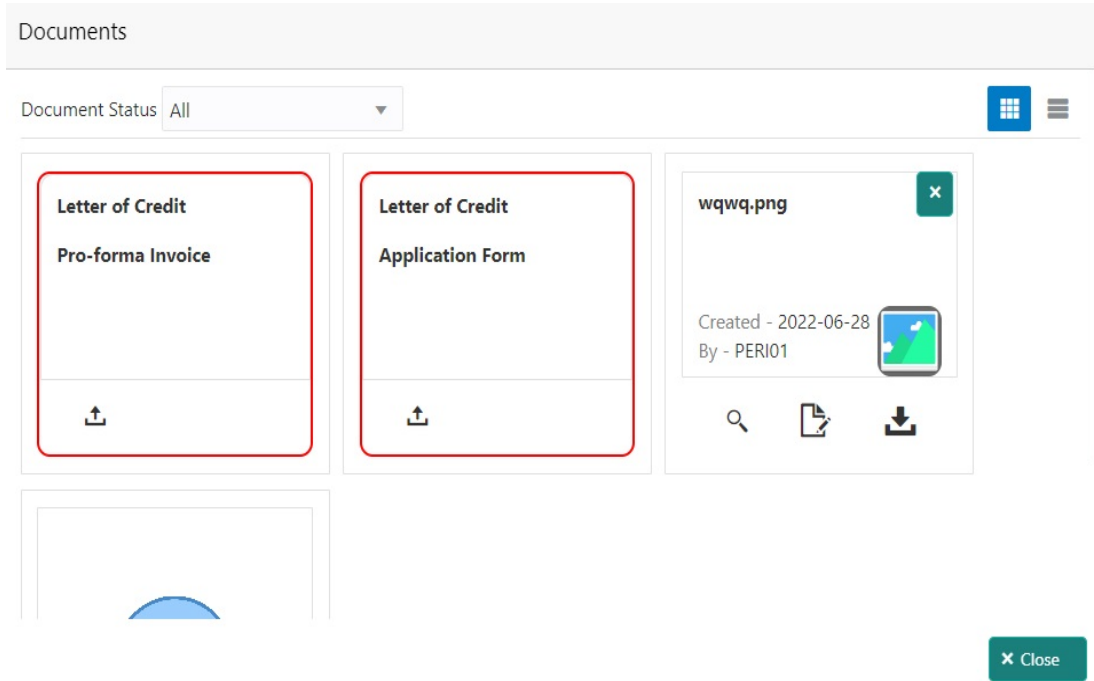

The value selected in Document Type and Document code of Document screen are defaulted in the Link Document Search screen.

5. Click **Fetch** to retrieve the details from DMS. System Displays all the documents available for the given Document Type and Document Code for the Customer.

Field	Description	Sample Values
Customer ID	This field displays the transaction Customer ID.	
Document ID	Specify the document Id.	
Document Type	Select the document type from list.	
Document Code	Select the document code from list.	
Search Result		
Document ID	This field displays the document Code from metadata.	
Customer ID	This field displays the transaction Customer ID.	
Document Type	This field displays the document type from metadata.	
Document Code	This field displays the document code from metadata.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

6. Click **Link** to link the particular document required for the current transaction.

Post linking the document, the user can View, Edit and Download the document.

7. Click **Edit** icon to edit the documents. The Edit Document screen is displayed.

The screenshot shows the 'Edit Document' form. It contains the following fields:

Document Id	2400	Document Title	wqwq
Application Reference Number	PK2ILCI000019041	Entity Reference Number	PK2ILCI000019041
Document Type Id	TFPM_DOCTYPE001	Document Description	
Remarks		Document Expiry Date	Jun 29, 2022

Below the fields is a dashed box containing the text 'Drop files here or click to select' and 'Current selected files: []'. At the bottom right, there are 'Update' and 'Cancel' buttons.

Scrutiny

On successful completion of Registration of an Import LC Drawing request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized.

Non-Online Channel - Import LC Drawing request that were received at the desk will move to Scrutiny stage post successful Registration. The requests will have the details entered during the Registration stage.

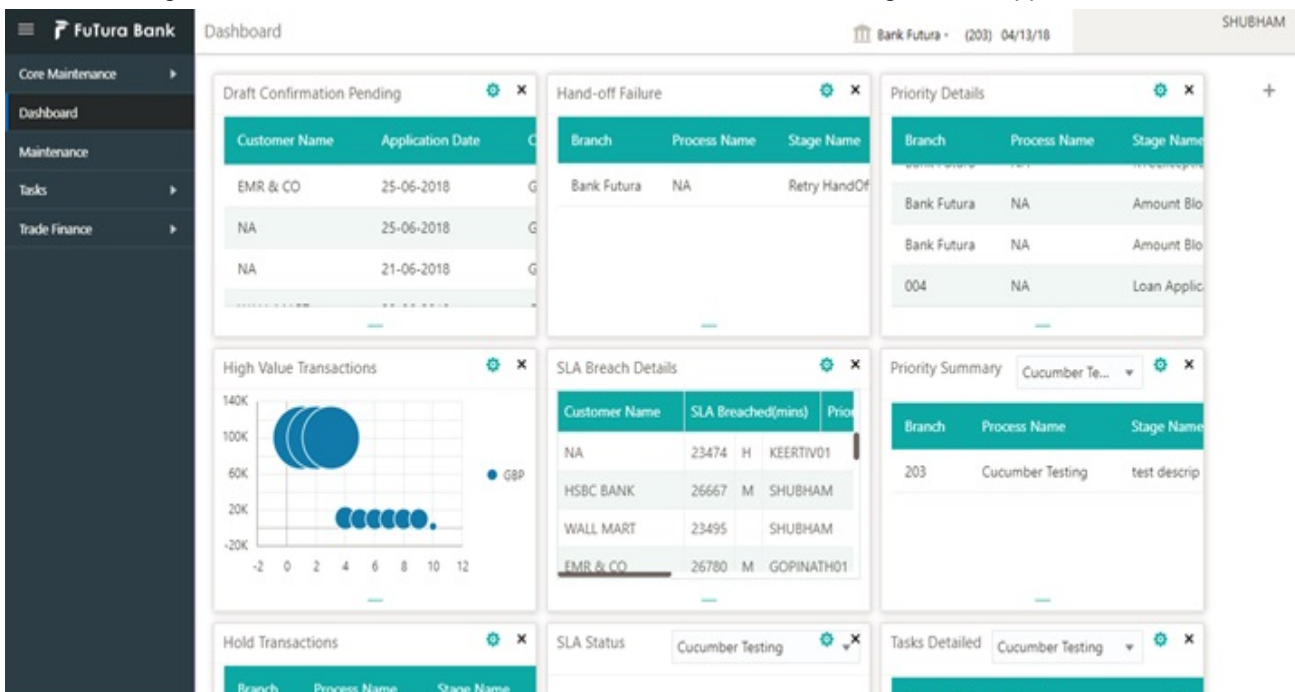

Online Channel - If MT750 is received, automatic task gets created and is available in the Scrutiny stage for further handling and available data for all data segments from Registration stage to Data Enrichment stage would be auto populated.

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Tasks> Free Tasks.

Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Document Details

User can verify the documents received and identify discrepancies, if any.

User can compare the document received with the required documents and identify the discrepancies, if any. Provide the information based on the description in the following table:

The screenshot shows the Oracle document details interface. The main table displays the following data:

Document Code	Document Reference Number	Copy	Original	Description	First Mail Original	First Mail Copy	Second Mail Original	Second Mail Copy	Received Description	Discrepant	Discrepancy Code	Di
AIRDOC		2	1/2							<input type="radio"/>		
AIRWAY				new doc for transport						<input type="radio"/>		
BOL										<input type="radio"/>		
INSDOC		2								<input type="radio"/>		
INVDOC			1/2							<input type="radio"/>		

Field	Description	Sample Values
Document Code	Document code is auto-populated from the latest LC.	
Document Reference Number	Enables to user to provide the reference number available in the documents.	
Copy	Number of duplicate copies of documents as required in LC.	
Original	Number of documents in original as required in LC.	
Description	Description of the document required as per LC.	
First Mail Original	Provide the number of originals of documents received from first mail.	
First Mail Copy	Provide the number of duplicate copies of documents received from first mail.	
Second Mail Original	Provide the number of originals of documents received from second mail.	

Field	Description	Sample Values
Second Mail Copy	Provide the number of duplicate copies of documents received from second mail.	
Received Description	Provide the description of the documents received from presenting bank.	
Discrepant	System marks the discrepant toggle as 'Yes' if there is difference between number of documents required and number of documents received. It also enables the user to make the changes, if any discrepancy identified in the document.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Action	Edit: Click edit to edit the document code Delete: Click Delete to delete the document code.	

Other Details

User can provide the shipping guarantee reference, other details and other bank charges.

Shipping Guarantee Reference

Provide the Shipping Guarantees Details based on the description in the following table:

Field	Description	Sample Values
-------	-------------	---------------

Click '+' sign to add multiple Shipping Guarantees to a Single Bill.

Field	Description	Sample Values
Shipping Guarantee Reference	Click Search to search and select the shipping guarantee reference number. User can link an existing Shipping Guarantee using this field.	
Transport Document Reference	System defaults the Transport Document Reference details. System validates the Shipping Guarantee Transport Document reference number with Transport Document Reference number in a Bill, if user manually provides the Shipping Guarantee detail.	
Transport Document Date	System defaults the transport document date provided in the Bill, which is linked with the Shipping Guarantee.	
Amount	Shipping Guarantee amount is displayed in this field.	
Action	Edit: Click edit to edit the shipping guarantee details. Delete: Click edit to edit the shipping guarantee detail.	

Other Details

Provide the other bank charges based on the description in the following table:

Field	Description	Sample Values
Debit Value Date	Provide the debit value date.	
Credit Value Date	Provide the credit value date.	
Value Date	Provide the value date.	
Allow Pre-Payment	Toggle On: Set the toggle 'On' to enable pre-payment. Toggle Off: Set the toggle 'Off' to disable pre-payment.	
Future Advance Date	Select the future advance date to capture advanced requested Date. Future Advance Date should be less than the Bill Maturity Date and should be greater than the current branch date. This field is enabled if the operation code is "ACC".	

Other Bank Charges

Provide the other bank charges based on the description in the following table:

Field	Description	Sample Values
Other Bank Charges - 1	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Charges - 2	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Charges - 3	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -1	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -2 to 3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	

Other Bank Interest

The user can enter the Interest details to be captured as a part of “Other Bank Interest” details section.

Provide the other bank interest based on the description in the following table:

Field	Description	Sample Values
Start Date	Provide the date from which the system starts calculating the Interest.	
Other Bank Interest-1, 2 and 3		
Component	This field displays the name of the interest Component.	
Component Description	Provide the description of the interest component.	
Interest Rate	Provide the rate to be applied for the interest component.	
Interest Basis	Select the calculation basis on which the Interest to be computed.	
Waive	Select whether the interest to be waived off. The options are: <ul style="list-style-type: none"> • Yes • No 	

Shipment Details

User must check whether the received documents of goods and shipment matches the requirement in LC.

Goods Details

Provide the Goods Details based on the description in the following table:

Field	Description	Sample Values
Goods Code	This field displays goods code as per latest LC.	
As per LC	This field displays description of the goods as per the latest LC.	
As per Documents	Provide the description of the goods as per the documents.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Country of Origin	Update the country of origin as per the documents received.	
Insurance Company	Update the details of insurance company as per the document received.	
Insurance Company Address	Update the insurance company address as per the document received.	

Shipment Details

Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
Date of Shipment	Update the date of shipment as per the documents received.	
Carrier Name	Update the carrier name as per the document received.	
Shipping Agent	Update the shipping agent details based on the documents received.	
Date of Presentation	Read only field. Auto-populated based on the system date.	
Details	Details represent the fields in latest LC.	
As per LC	This field displays description of the fields as per the latest LC.	
As Per Documents	Provide the description of the field as per document.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC terms and documents received.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	

Carrier Details

If the shipment involves multiple carrier and or shipment passes through multiple ports, the details will be captured under this segment.

Field	Description	Sample Values
Carrier Name	Provide the details of the carrier as per the documents received, if the goods got shipped via multiple carriers.	
Port	Provide the port details as per the document received, if the ship has transit on its way to the destination.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	<p>Click the Documents icon to Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	

Field	Description	Sample Values
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. 	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the Import LC Drawing Scrutiny stage inputs.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

Additional Conditions

Enables the user to check the whether the documents received comply with the additional conditions mentioned in LC.

This section displays the commission details:

Field	Description	Sample Values
Event	Read only field. This field displays the event name.	

Field	Description	Sample Values
Event Description	Read only field. This field displays the description of the event.	
Component	This field displays the commission component.	
Rate	Defaults from product. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	
Modified Rate	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Currency	Defaults the currency in which the commission needs to be collected	
Amount	An amount that is maintained under the product code defaults in this field. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPM. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	
Modified Amount	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	If check box is selected, charges/commissions has to be deferred and collected at any future step.	
Waive	Based on the customer maintenance, the charges/commission can be marked for Billing or Defer. If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary	
Settlement Account	Details of the Settlement Account.	

Charge Details

Field	Description	Sample Values
Component	Charge Component type.	
Tag Currency	Defaults the tag currency in which the charges have to be collected.	
Tag Amount	Defaults the tag amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field.	
Modified Amount	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Waive	<p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Charge Party	Charge party will be applicant by default. You can change the value to beneficiary	
Settlement Account	Details of the settlement account.	

Tax Details

The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system.

This section displays the tax details:

Field	Description	Sample Values
Component	Tax Component type	
Type	Type of tax Component.	
Value Date	This field displays the value date of tax component.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	If taxes are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing. This field is disabled, if 'Defer' toggle is enabled.	
Defer	If taxes have to be deferred and collected at any future step, this option has to be enabled. The user can enable/disable the option the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.	
Settlement Account	Details of the settlement account.	

Assignment of Proceeds

In this tile, assignment details for the applicable processes is displayed. Proceeds can be assigned only if the parties have been assigned during drawing or update drawing process.

Assignment of Proceeds x

Assignee Details

Sequence	Assignee Id & Assignee Details	Assignment %	Currency	Assigned Amount	Assignee Bank Details	Account With Institution
<input type="checkbox"/> 1	001204 <input type="text" value="test internal"/>	25	GBP	\$25,000.00	<input type="text"/>	001204 <input type="text"/>

Save & Close Cancel

Field	Description	Sample Values
Assignment Paid By Importer	Slide the toggle if assignment is paid by importer.	
Sequence	User can update the sequence number.	

Field	Description	Sample Values
Assignee ID & Assignee Details	<p>User can select the assignee id. Assignee details appear based on selected assignee ID.</p> <p>User can add multiple assignees to a single Bill under LC with the assignment amount or assignment percentage of parent LC.</p> <p> Note WALKIN customers is allowed as assignee.</p>	
Assignment %	<p>User can input the percentage of LC amount that has be assigned to the assignee. Once the user updates the rate, the system has to calculate the amount as per assigned rate and default in the assigned amount field. If the user directly captures the assigned amount then the assigned percentage has to calculate the percentage and the same to be populated in the screen. If contribution is more than 100%, system to display an alert message. Once contribution % is input system will default the amount. System to validate that Limit Contribution percentage plus Collateral percentage is equal to 100. Otherwise system to provide override.The assignment percentage should be rounded to two decimal places</p>	
Currency	<p>User can select the account currency of the settlement account of the assignee. Only the currencies for which the settlement account is available, only those currency will be displayed.</p>	
Assigned Amount	<p>User can input the amount that has to be assigned to the assignee. If the user has already inputted the assignment percentage, system to calculate the amount and populate the value</p>	
Assignee Bank Details	<p>User can select the assignee bank.</p>	
Account with Institution	<p>User can select the account number of the Account with Institution.</p>	

FX Linkage

This section enables the user to link the existing FX contract(s) to the LC transactions. User can link multiple forward FX contracts.

FX contract linkage with the Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the Bill.

FX Reference Number	Bought Currency	SOLD Currency	Available Contract Amount	Rate	Linked Amount	Current Utilized Amount	Total Utilized Amount	FX Expiry Date	Action

Provide the FX linkage detail based on the description in the following table:

Field	Description	Sample Values
FX Reference Number	<p>Select the FX contract reference number from the LOV.</p> <p>On select and save and close, system defaults the available amount, bot currency, sold currency and rate.</p> <p>Forward FX Linkage available for selection at bill would be as follows,</p> <ul style="list-style-type: none"> Counterparty of the FX contract should be the counterparty of the Bill contract. Active Forward FX transactions authorized not marked for auto liquidation. <p>Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill.</p>	

Field	Description	Sample Values
Bought Currency	This field displays the currency from the linked FX contract.	
Sold Currency	This field displays the currency from the linked FX contract.	
Available ContractAmount	Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.	
Rate	This field displays the rate at which the contract is booked.	
Linked Amount	Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage.	
Current Utilized amount	This field displays the liquidated /purchased / discounted /negotiated amount of BC contract. It cannot go beyond the linked FX amount.	
Total Utilized amount	This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version.	
Amount in Contract Currency	This field displays the amount in contract currency converted from FX currency.	
FX Expiry Date	This field displays the expiry date from the linked FX contract.	
FX Delivery Period - From	This field displays the date from which the contract is valid for utilization.	
FX Delivery Period - To	This field displays the date to which the contract is valid for utilization.	
Action	Click the Edit icon to modify the FX details. Click the Delete icon to delete the FX details.	
Average FX Rate	Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.

Data Enrichment

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The dashboard displays several widgets for user monitoring and management:

- Draft Confirmation Pending:** Table with columns: Customer Name, Application Date, Status.
- Hand-off Failure:** Table with columns: Branch, Process Name, Stage Name.
- Priority Details:** Table with columns: Branch, Process Name, Stage Name.
- High Value Transactions:** A bubble chart showing transaction values for different branches.
- SLA Breach Details:** Table with columns: Customer Name, SLA Breached(mins), Priority.
- Priority Summary:** Table with columns: Branch, Process Name, Stage Name.
- Hold Transactions:** Table with columns: Branch, Process Name, Stage Name.
- SLA Status:** A dropdown menu currently set to 'Cucumber Testing'.
- Tasks Detailed:** Table with columns: Branch, Process Name, Stage Name.

3. Click Trade Finance > Tasks > Free Tasks.

The Free Tasks page shows a list of tasks with the following table structure:

Action	Priority	Application Number	Branch	Customer Number	Amount	Process Name	Stage	Back Office Ref No.
Acquire & Edit	M	GS1ILCD000006139	GS1	000262	£100,000.00	Import LC Drawing	Data Enrichment	NA
Acquire & Edit	H	GS1ELCA000006128	GS1	000263	£99,999.19	Export LC Advising	Data Enrichment	GS1ELAC19032BLHN
Acquire & Edit	M	GS1ILCA000006124	GS1	000262	£12,000.00	Import LC Amendment	Retry HandOff	GS1ILSN19032ABYN
Acquire & Edit	H	GS1ELCA000006125	GS1	000263	£99,999.19	Export LC Advising	Data Enrichment	GS1ELAC19032BLHL
Acquire & Edit	H	GS1ELCA000006123	GS1	000263	£99,999.19	Export LC Advising	Scrutiny	GS1ELAC19032BLHK
Acquire & Edit	H	GS1ELCA000006121	GS1	000263	£99,999.19	Export LC Advising	Scrutiny	GS1ELAC19032BLHI

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

The screenshot shows the 'Free Tasks' page with the 'Acquire & Edit' button for the first task highlighted in red. The table structure is identical to the previous screenshot.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

Action	Priority	Application Number	Branch	Customer Number	Amount	Process Name	Stage	Back Office Ref No.
<input checked="" type="checkbox"/> Edit	M	GS1LCD000006139	GS1	000262	£100,000.00	Import LC Drawing	Data Enrichment	NA
<input type="checkbox"/> Edit		GS1LCD000006138	GS1	000263	£1,000.00	Import LC Drawing	Registration	NA

The Data Enrichment stage has five sections as follows:

- Main Details
- Beneficiary Confirmation Details
- Document Details
- Shipment Details
- Additional Conditions
- Discrepancy Details
- Maturity Details
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

Main Details

Refer to [Main Details](#). **Document Details**

Refer to [Document Details](#).

Other Details

Refer to [Other Details](#)

Shipment Details

Advices

The screenshot shows the Oracle Trade Finance interface. The top navigation bar includes 'Clarification Details', 'Documents', 'Remarks', 'Overrides', 'Customer Instruction', 'Common Group Messages', 'View LC', and 'Signatures'. The main content area is titled 'Advices' and displays a single advice tile for 'PAYMENT_MESSAGE'. The tile contains the following information:

- Advice Name : PAYMENT_MESSAGE
- Advice Party :
- Party Name :
- Suppress : NO
- Advice :

The interface also shows a sidebar with navigation options like 'Main Details', 'Document Details', 'Other Details', 'Shipment Details', 'Additional Conditions', 'Discrepancy Details', 'Maturity Details', 'Advices', 'Additional Details', 'Settlement Details', and 'Summary'. The bottom of the screen has a toolbar with buttons for 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

Advices menu displays the advices from the back office as tiles. User can edit the fields in the tile, if required.

Additional Details

The screenshot shows the Oracle Trade Finance interface with the 'Additional Details' menu selected. The main area displays a grid of detail tiles. The tiles contain the following information:

- Revolving Details :** Revolving : No, Revolving In, Revolving Frequency
- Limits and Collaterals :** Contribution Currency, Contribution Amount, Limit Status, Collateral Currency, Collateral, Contribution, Collateral Status
- Commission, Charges and Fees :** Charge, Commission, Tax, Block Status : Not Initiated
- Payment Details :** Immediate Liquidation: No, Required : No, Immediate : No, Acceptance Required
- FX Linkage :** FX Reference Number, Contract Currency, Contract Amount
- Loan Preferences :** Loan Product, Linkage Ref. No, Loan Tenor, Loan Currency, Loan Amount, Loan Maturity Date
- Preview Messages :** Language, Preview Advice
- Assignment of Proceeds :** AssignmentOfProceeds No, Assignee Name, Assigned Amount
- Interest Details :** Component, Amount
- Tracer Details :** Payment Tracer : No, Acceptance Tracer : No, Discrepancy Tracer : No

The interface also shows a sidebar with navigation options like 'Main Details', 'Document Details', 'Other Details', 'Shipment Details', 'Additional Conditions', 'Discrepancy Details', 'Maturity Details', 'Advices', 'Additional Details', 'Settlement Details', and 'Summary'. The bottom of the screen has a toolbar with buttons for 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

Page 1 of 1 (1-2 of 2 items)

Provide payment details based on the description in the following table:

Field	Description	Sample Values
Advance by Loan	Read only field. Advance by Loan enables creation of loan at the time of Final liquidation.	
Settle Available Amount	Enable this option, if during settlement, the amount as available in the CASA account of the customer has to be utilized and for the balance if a loan has to be availed.	
Transfer Collateral from LC	Enable this option, if collaterals are transferred from LC.	
Immediate Liquidation Required	This toggle is applicable only for sight LC's and only if the drawings are without discrepancy. Switch on the toggle to enable immediate liquidation for the drawing.	
Auto Liquidate	Toggle On: Set the toggle 'On' if the auto Liquidation is required. Toggle Off: Set the toggle 'Off' if the auto Liquidation is not required.	
Immediate Accept	This toggle is applicable only for Usance/multi tenor drawings and only if the drawings are without discrepancy. Switch on the toggle if acceptance to be sent immediately.	

Field	Description	Sample Values
Reimbursement Claimed	Switch on the toggle if the reimbursement is already claimed. This field is applicable only if reimbursement is applicable and LC has reimbursement bank details.	
Reimbursing Bank	Read only field. Reimbursing bank details gets defaulted from the LC.  Note If the user selects another bank and in case the selected Bank is not RMA Compliant, the system displays error message "RMA arrangement not available".	
Reimbursement Date	This field will be enabled only if Reimbursement Claimed is 'Yes'. Enables user to capture the reimbursement date. If reimbursement date is later than the branch date, system will display an error.	
Liquidate using Collateral	Read only field.	
Settlement Details - Liquidation		
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	
Debit/Credit	Application displays debit/ credit for the component.	
Account	Customer account.	
Account Description	Description of the account.	
Branch	Branch of the customer's account.	
Account Currency	Currency of the account.	
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF	
Exchange Rate	The exchange rate.	
Deal Reference Number	The exchange deal reference number.	
		Disable

Field	Description	Sample Values
-------	-------------	---------------

Tracer Details

User can trace the response for the discrepancies identified.

Payment Tracer

Provide the payment tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Required	Toggle on - Switch on the toggle to capture the tracer details. Toggle off - Switch of the toggle, if user does not require to capture tracer details.	
Number of Tracers	Provide the number of tracers required.	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Medium	Select the tracer medium from the LOV: <ul style="list-style-type: none"> • Mail • Email • Swift 	
Tracer Receiver Party	Read only field. 'Applicant' will be defaulted as tracer receiver party.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	

Discrepancy Tracer

Provide the discrepancy tracer details based on the description in the following table:

The screenshot shows a 'Tracer Details' window with three sections: 'Payment Tracer', 'Discrepancy Tracer', and 'Acceptance Tracer'. The 'Discrepancy Tracer' section is highlighted with a red border. Each section contains the following fields:

- Tracer Required:** A toggle switch.
- Number of Tracers:** A text input field.
- Tracer Frequency:** A dropdown menu.
- Tracer Medium:** A dropdown menu.
- Tracer Receiver Party:** A dropdown menu.
- Tracer Start Date:** A text input field with a calendar icon.

At the bottom right of the form, there are two buttons: 'Save & Close' and 'Cancel'.

Field	Description	Sample Values
Tracer Required	<p>Toggle on - Switch on the toggle to capture the tracer details.</p> <p>Toggle off - Switch of the toggle, if user does not require to capture tracer details.</p>	
Number of Tracers	Provide the number of tracers required.	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Medium	<p>Select the tracer medium from the LOV:</p> <ul style="list-style-type: none"> • Mail • Email • Swift 	
Tracer Receiver Party	Read only field. 'Applicant' will be defaulted as tracer receiver party.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	

Acceptance Tracer

Provide the acceptance tracer details based on the description in the following table:

The screenshot shows a 'Tracer Details' window with three sections. The 'Acceptance Tracer' section is highlighted with a red border. Each section contains the following fields:

- Tracer Required:** A radio button toggle.
- Number of Tracers:** A text input field.
- Tracer Frequency:** A dropdown menu.
- Tracer Medium:** A dropdown menu.
- Tracer Receiver Party:** A dropdown menu.
- Tracer Start Date:** A date picker with a calendar icon.

At the bottom right of the form, there are two buttons: 'Save & Close' and 'Cancel'.

Field	Description	Sample Values
Tracer Required	Toggle on - Switch on the toggle to capture the tracer details. Toggle off - Switch of the toggle, if user does not require to capture tracer details.	
Number of Tracers	Provide the number of tracers required.	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Medium	Select the tracer medium from the LOV: <ul style="list-style-type: none"> • Mail • Email • Swift 	
Tracer Receiver Party	Read only field. 'Applicant' will be defaulted as tracer receiver party.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	

FX Linkage

This section enables the user to link the existing FX contract(s) to the drawing. User can link one or more FX deals to a drawing/bill. The linked value of an FX deal(s) must not exceed the value of the drawing/bill.

FX contract linkage with the Drawing/Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the drawing/bill.

Following are the features of FX Linkage in BC.

- FX linkage cannot be linked at Bills at initial stage.

- When a bill is drawn under LC, the details of forward contract linked as a part of the LC, will be defaulted at bill.
- Linked amount will be defaulted against the corresponding FX sequentially.
- User can delink or modify the defaulted FX details at in the Bill.
- Bill maturity date should be greater than or equal to FX Value date.
- Sum of Linked amount will not be greater than Bill contract amount.
- Linked amount will not be greater than the available amount for linkage.
- Current Utilized amount will display the liquidated/purchased/discounted/negotiated amount of Bill contract. It cannot go beyond the linked FX amount.
- When a bill is drawn under LC, delink of FX at BC is allowed only if the linked FX is not utilized by the bill.
- Multiple forward FX contract could be linked and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. The same will be populated in the Average FX Rate

Provide the FX linkage detail based on the description in the following table:

FX Reference Number	Bought Currency	SOLD Currency	Available Contract Amount	Rate	Linked Amount	Current Utilized Amount	Total Utilized Amount	FX Expiry Date	Action

Field	Description	Sample Values
Component	This field displays the component maintained in the back office.	
Component Description	This description of the component.	
Rate Type	System defaults the rate type maintained for the component in back office. Value can be: <ul style="list-style-type: none"> • Fixed Floating • Special 	
Rate Code	This field displays the rate code applicable for the Component.	
Min Spread	This field displays the minimum spread applicable for the Rate Code. This field have value only if the Rate Type is Floating .	
Max Spread	This field displays the maximum spread applicable for the Rate Code. This field have value only if the Rate Type is Floating .	
Spread	This field displays the spread applicable for the Component in case of Floating Rate Component. User can change the defaulted value. System validates whether the spread input is within the Minimum to Maximum Spread.	
Min Rate	This field displays the minimum rate applicable for the Rate Code.	
Max Rate	This field displays the maximum rate applicable for the Rate Code.	
Rate	This field displays the value applicable for the Rate Code. User can change the value if the Rate Type is Fixed . System validates whether the Rate input is between the Minimum and Maximum Rate.	
Modified Rate	This field displays the modified rate.	

Field	Description	Sample Values
Special Pricing Reference Number	<p>User can capture the Special Pricing Reference Number, when there is a special Interest rate to be provided for that customer against the interest component (Main Component).</p> <p>Special Pricing Reference is not applicable for Penal Interest components.</p> <p>For transactions initiated from OBDX, the Special Pricing Reference Number will be populated from OBDX and user cannot edit the same.</p> <p> Note</p> <p>System shows an override as “Special Pricing Applicable”, on clicking “Save” in the Interest Details screen, if Special Pricing Reference number has been provided.</p>	
Currency	System defaults the Interest currency in this field.	
Amount	User can input the interest amount, in case the Rate Type is Special , else user can not be able to input the amount. In such cases, the amount will be calculated by back office immediately only if the Interest is collected in Advance or if Back Dated Interest is collected. In that scenario, the Amount will be populated on Re-simulation from back office. Otherwise Interest will be calculated only in the batch as maintained.	
Waive	User can waive the Interest applicable. System displays an override, if the user has waived the Interest.	
Charge Party	<p>System displays the Charge Party based on the type of transaction.</p> <p>In case of Export Transactions, Drawer should be the defaulted Charge Party for Collection Bills and Beneficiary for the LC Bills. In case of Import Transactions, Drawee should be the Charge Party for Collection and Applicant for the LC Bills..</p>	
Settlement Account	<p>System defaults the Settlement Account of the Charge Party for debit of Interest. User can change the value. System should display an error if a different customer is chosen. If different account of the Charge Party is selected, system should display a override.</p> <p>In case the user modifies the Interest Rate, the user should click on Recalculate button to get the modified amount from the back office and display the new Amount.(Recalculation is done in back office and not in OBTFPM).</p>	

Loan Preference

This section enables the user to request for a loan to liquidate the drawing under the LC. This section will be enabled based on the product selected for booking the drawing under the LC.

Provide the loan preference details based on the description in the following table:

Field	Description	Sample Values
Drawing/Collection Ref	Read only field. This field displays the loan product linked to the drawing product.	
Bill Currency-Amount	Outstanding Drawing/ Collection Currency and Amount. Defaults from the underlying task. User cannot change the value.	
Customer ID	Read only field. This field displays the customer ID of the applicant/applicant bank.	
Customer Name	Read only field. This field displays the applicant/applicant bank name.	
Product Code	Defaults from the underlying Collection/ Drawing Product maintenance. User cannot change the value.	

Field	Description	Sample Values
Loan Currency-Amount	<p>Loan currency is defaulted from the bill currency. User can change this to Local Currency. System should display an error message on tab out if the currency selected is not a Bill currency or Local Currency.</p> <p>System populates the loan account based on the outstanding drawing/ Collection amount less the collateral amount. User cannot change the Loan amount.</p>	
Original Exchange Rate	System displays the Original Exchange rate.	
Exchange Rate	<p>Exchange rate applicable for Local Currency.</p> <p>User can enter the Exchange rate.</p> <p>System validates the exchange rate is within the allowed range.</p>	
Loan Tenor Units	Application defaults the loan tenor units based on the product.	
Tenor Type	System defaults the value. User can change the value. Values are Days, Months and Years. The numerical value for Days or months or Years is applicable.	
Rate Type	System defaults the rate type.	
Rate Code	System populates the Rate code as part of simulation.	
Loan/Finance Value Date	System defaults the branch date as Value date. User cannot change the value.	
Loan Maturity Date	System defaults the date based on the Loan value date and Loan tenor. User cannot change the value.	
Loan Interest/UDE Details		
User Defined Element ID	System populates the UDE Element ID as part of simulation. User are allowed to change the selection through LOV.	
UDE Description	System populates the UDE description as part of simulation. If a user changes the UDE ID, system should populate the description.	
Rate Code	System populates the Rate code as part of simulation.	
Usage	System populates the details as part of simulation.	

Field	Description	Sample Values
UDE Value	System populates the value as part of simulation.	
Limits		
Linkage Type	System defaults the linkage type as "Facility" from back office.	
Linkage Reference Number	System defaults the Linkage reference as part of simulation. User can change the value. Linkages available for the customer should be displayed for selection.	
Linked Percentage	User can enter the value. Maximum is 100. User cannot enter negative values.	
Limit Amount	System defaults the value. System should populate the value based on the contribution percentage.	

Preview

User can view the draft preview of the advise.

User can preview the MT999 messages for the applicable MT7XX messages generated by the Back office system in the Preview Message.

Provide the settlement details based on the description in the following table:

Field	Description	Sample Values
Current Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	
Debit/Credit	Application displays the debit/credit indicators for the components.	
Account	Application Displays the account details for the components.	
Account Description	Application displays the description of the selected account.	
Account Currency	Application defaults the currency for all the items based on the account number.	
Netting Indicator	Application displays the applicable netting indicator.	
Current Event	System defaults the current event as Y or N.	
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF	
Exchange Rate	The exchange rate.	
Deal Reference Number	The exchange deal reference number.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Select the transfer type from the drop list: <ul style="list-style-type: none"> • Customer Transfer • Bank Transfer for own account • Direct Debit Advice • Managers Check • Customer Transfer with Cover • Bank Transfer 	
Charge Details	Select the charge details for the transactions: <ul style="list-style-type: none"> • Beneficiary All Charges • Remitter Our Charges • Remitter All Charges 	
Netting Indicator	Select the netting indicator for the component: <ul style="list-style-type: none"> • Yes • No 	
Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Select the intermediary reimbursement institution from the LOV.	

Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	
Sender to Receiver 3	Provide the sender to receiver message.	

Field	Description	Sample Values
Sender to Receiver 4	Provide the sender to receiver message.	
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.	

Remittance Information

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Provide the payment details.	
Payment Detail 2	Provide the payment details.	
Payment Detail 3	Provide the payment details.	
Payment Detail 4	Provide the payment details.	

Summary

User can review the summary of details updated in Data Enrichment stage Import LC Drawing request.

The screenshot shows the Oracle Financials Summary page for an Import LC Drawing request. The page is titled 'Import LC Drawing Data Enrichment' with Application No: PK2ILCD000025615. The summary is organized into a grid of tiles:

- Main Details:** Product Code (IBLS), Currency (GBP), Amount (100).
- Beneficiary Confirmation Details:** Sequence Number 1 and 2.
- Document Details:** Document 1 (AIRDOC), Document 2 (INSDOC), Document 3 (INVDOC), Document 4 (MARDOC).
- Shipment Details:** Goods Code and Description.
- Additional Conditions:** FFT Code 1 (ADDCONDIS), FFT Code 2 (LCADV).
- Discrepancy Details:** Discrepancy Code 1 (PSB).
- Maturity Details:** Tenor Type (Usance).
- Advices:** Advice 1 (PAYMENT_MESS...).
- Revolving Details:** Revolving (NO), Revolving In, Revolving Frequency.
- Limits and Collaterals:** Contribution Currency, Contribution Amount, Limit Status (Not Verified), Collateral Currency, Collateral Contr., Collateral Status (Not Verified).
- Commission, Charges and Taxes:** Charge, Commission, Tax, Block Status (Not Initiate...).
- Payment Details:** Immediate Liquidations, Immediate Accept, Reim. Claimed.
- FX Linkage:** Reference Number, Linkage Amount, Contract Currency.
- Loan Preferences:** Loan Product, LinkageRefNo, Loan Tenor, Loan Currency, Loan Amount, Loan Maturity.
- Preview Messages:** Language (ENG), Preview Message (-).
- Settlement Details:** Component (REFUND_INTER...), Account Number (PK2001044001...), Currency (GBP).
- Parties Details:** Presenting Bank (WELLS FARGO ...), Reimbursing Bank (PK2WALKIR1), Drawee (GOODCARE PLC), Advising Bank (CITIBANK IRE...), Drawer (MARKS AND SP...).
- Compliance details:** KYC (Not Initiate...), Sanctions (Not Initiate...), AML (Not Initiate...).
- Accounting Details:** Event (BOOK), AccountNumber (263100002), Branch (PK2).
- Assignment of Proceeds:** Assignmentofproceeds (No), Assignee Name, Assigned Amount.
- Interest Details:** Component, Amount, Event.

Tiles Displayed in Summary

- Main Details - User can view details about application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
- Beneficiary Confirmation Details - User can view the beneficiary confirmation details.
- Document Details - User can view the document details.
- Shipment Details - User can view the shipment details.
- Additional Conditions - User can view the details of additional conditions.
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Maturity Details - User can view the maturity details.

- Advices - User can view the details of the advices.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- Payment Details - User can view the payment details.
- Preview Details - User can view the preview the draft message.
- Tracer Details - User can view the tracer details.
- Settlement Details - User can view the settlement details.
- Preferences - User can view set loan preferences.
- FX Linkage - User can view the details of FX Linkage.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Accounting Details - User can view the accounting entries generated in back office.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message “ Value Date is different from Transaction Date for one or more Accounting entries.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to Upload the required documents. Application will display the mandatory and optional documents.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	

Field	Description	Sample Values
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Submit	<p>Task will get moved to next logical stage of Import LC Drawing.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request</p>	
Cancel	Cancel the Data Enrichment stage inputs.	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Exceptions

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. The checks to external system/internal system is initiated after the Data Enrichment stage.

The amount Block Earmark and Limit Earmarks, if applicable are also initiated after the Data Enrichment stage.

If a negative response is received for any of the checks, the task lands in respective exceptional queue which require further manual handling/approval.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Application

Refer to [Application Details](#).

Amount Bock Exception

This section will display the amount block exception details.

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charge Details - User can view and modify details provided for charges, if required.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others 	
Cancel	<p>Cancel the Import LC Drawing Amount Block Exception check.</p>	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage.</p>	
Back	<p>Task moves to previous logical step.</p>	

Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the customer. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can select a transaction and do the following actions:

Approve

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).

Application

Refer to [Goods Details](#).

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none">• R1- Documents missing• R2- Signature Missing• R3- Input Error• R4- Insufficient Balance/Limits• R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	

Field	Description	Sample Values
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	Cancel the Import LC Drawing KYC exception check.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Exception - Limit Check/Credit

The transactions that have failed limit check due to non-availability of limits will be available in limit check exception queue for further handling.

Log in into OBTFPM application, limit check exception queue. Limit check exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

Note

On Approval of the exception task, system should validate the Limit Availability, Limit Expiry Date in the Limit System and create Earmark in the ELCM system. In case if the Limit is not available or the Limit is expired, then system should display an error message and should not allow the user to approve and proceed.

Limit check Exception approver can do the following actions:

Approve

- Limit enhanced in the back end (outside this process).
- Without enhancing limit in the back end.

Refer

- Refer back to DE providing alternate limit id to map
- Refer additional collateral to be mapped

Reject

The transaction due to non-availability of limits capturing reject reason.

Application

Refer to [Application Details](#).

Limit/Credit Check

This section will display the amount block exception details.

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Availability and Shipment - User can view and modify availability and shipment details, if required.
- Payments - User can view and modify all details related to payments, if required.
- Documents & Condition - User can view and modify the documents required grid and the additional conditions grid, if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charges - User can view and modify charge details, if required.
- Revolving Details - User can view and modify revolving details on revolving LC, if applicable.
- Preview Messages - User can view and modify preview details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none">• R1- Documents missing• R2- Signature Missing• R3- Input Error• R4- Insufficient Balance/Limits• R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	

Field	Description	Sample Values
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	Cancel the Import LC Amendment Limit exception check.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Multi Level Approval

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

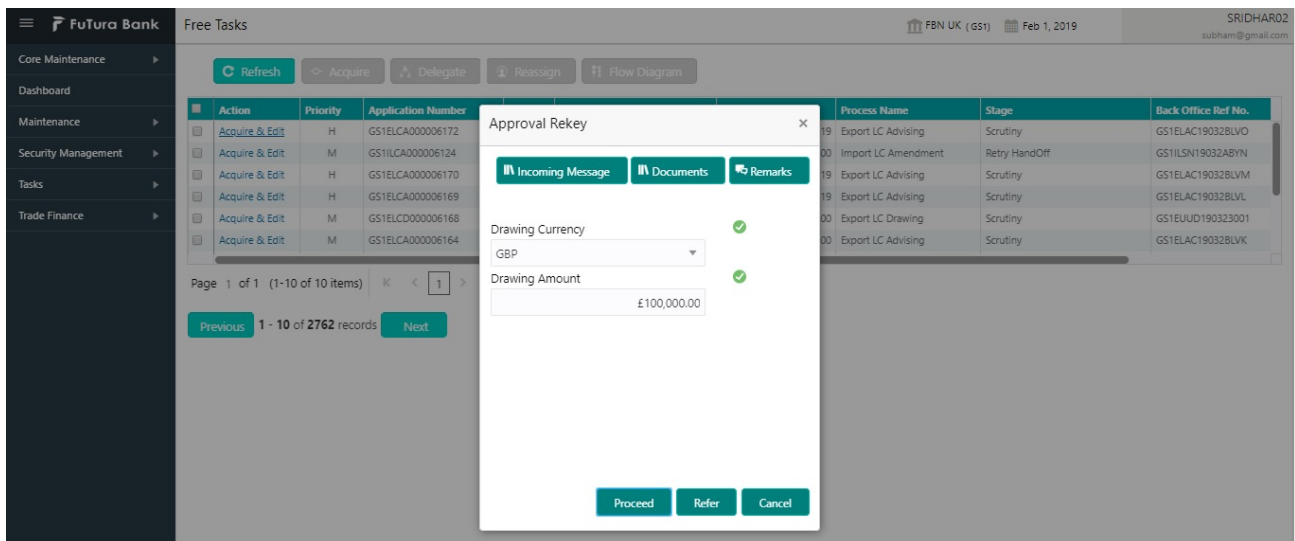

Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Drawing Currency
- Drawing Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.

Application

Refer to [Application Details](#).

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Incoming Message	Displays the incoming message, if any.	
Action Buttons		
Proceed	On proceed, the screen navigates to approval summary screen.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R5 - Others 	
Cancel	Cancel the Import LC Drawing Approval Rekey.

User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others 	
Cancel	Cancel the approval.	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.</p>	

Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Import LC Drawing in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

Application Details

The application details data segment have values for requests received from both non-online and online channels.

Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view details about application details and LC details.
