1. Release Notes

1.1 Background

Oracle Financial Services Software Limited has developed Oracle FLEXCUBE Universal Banking, which enable banks to create a distributed network of branches for effective marketing and efficient handling of customer transactions.

1.2 Purpose

The purpose of this Release Note is to propagate the enhancements in Oracle FLEXCUBE Universal Banking 14.6.2.0.0.

A patch release is an official Oracle patch release for Oracle FLEXCUBE Universal Banking. The fourth & fifth digit in a patch release string indicates the patch release number. The first three digits indicate the release to which the patch is applied. For example, release 14.6.2.0.0 is the first patch for Release 14.6.0.0.0 each patch release includes libraries and files that have been rebuilt to implement one or more fixes. Each patch release is incremental. In other words, the latest patch release includes new fixes released after last patch released for the same release.

1.3 Patch Requirements

Customers installing this release should refer to 14.6_Patchset_Deployment_Guidelines.docx and 14.6.2.0.0 Java Services Deployment Guidelines.docx included in the Patch Release zip file. Confirm this patch release applied after applications of previous patch releases up to 14.6.0.0.0 completed successfully.

1.4 Applying the Patch Release

Customers installing this patch release should refer to the "Installation Guide" chapter in the Oracle FLEXCUBE Universal Banking Release 14.6 Install and Upgrade Guide, which is available here:

https://docs.oracle.com/cd/F42208_01/install.htm

Customers installing this patch release should refer to the Readme, Patch set and Java Services deployment guides included in the Patch Release zip file

ORACLE
