U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Table of Contents

1. Preface	1-1
1.1 Intended Audience	1-1
1.2 Documentation Accessibility	1-1
1.3 Access to Oracle Support	1-1
1.4 Structure	1-1
1.5 Related Information Sources	1-1
2. Configure Override Functionality	2-1

1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

The subsequent chapters describes following details:

- Introduction
- Preferences & Database
- Configuration / Installation.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Patchset Release 22.2.2.0.0, refer to the following documents:

- Oracle Banking Digital Experience Installation Manuals

2. Configure Override Functionality

All the configurable properties in OBDX are maintained in the **digx_fw_config_all_b** table with specific **categoryId**. These properties can be modified or overridden by admin transaction Configuration Override.

Follow the below steps to maintain the properties in the **digx_fw_config_all_b** table:

1. Navigate to the **Configuration Override** screen.

The screenshot shows the 'Configuration Override' screen in the Futura Bank application. The header includes the Futura Bank logo and a search bar. The main content area has a form with two fields: 'Category Id' with a dropdown menu showing 'Please Select' and a 'Required' label, and 'Property Id' with a text input field containing 'Property Id'. Below these fields are three buttons: 'Search', 'Cancel', and 'Clear'.

2. For Example: Account Number masking pattern is maintained in the tables with prop_id as **AccountNumberMasking** and category id **MaskingPattern**. With Current value as **xxxxxxxxxxxxNNNN**. The application displays details based on the specified search criteria.

The screenshot shows the 'Configuration Override' screen with search results. The 'Category Id' dropdown is now set to 'MaskingPattern' and the 'Property Id' text input is set to 'AccountNumberMasking'. The 'Search' button is highlighted. Below the form, a table displays the search results:

Property Id	Preference Name	Property Value	Action
AccountNumberMasking	MaskingPattern	xxxxxxxxxxxxNNNN	Edit

3. Account numbers are displayed in the current masking format. For example, the Demand Deposit Summary transactions show a list of masked account numbers.

4. Click **Update** to modify the property value.

As mentioned in the previous step, the user searches for and modifies the property. The property value will be overridden, and the updated entry will be inserted into the `digx_fw_config_all_o` table, retaining the same `prop_id` and `category_id` but with the new value.

5. Changes in the **Accounts** screen will be immediately reflected according to the updated value.
