Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Table of Contents

1. Pre	eface	1–1
1.1	Intended Audience	1–1
1.2	Documentation Accessibility	1–1
	Access to Oracle Support	
1.4	Structure	1–1
1.5	Related Information Sources	1–1
2. Ad	ding a New Report	
		= =

1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs_if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

The subsequent chapters describes following details:

- Introduction
- Preferences & Database
- Configuration / Installation.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Patchset Release 22.2.2.0.0, refer to the following documents:

Oracle Banking Digital Experience Installation Manuals

2. Adding a New Report

1. Create UI component with required criteria fields for that new report. This criteria fields will be available once the report is selected from drop down. Currently each report has 2 fields are common. (Report Name, Report Format)

≡ 🏟 fu	utura bank					
Reports	6					
ADHOC	Schedule					
Report Name	Select Report	t Type	\sim			
Generate R	eport Cancel	Clear				
≡ @futura	bank			auditadmin \vee	ATM/Branch	English V UBS OBPM 14.4 HEL Branch V
Reports	Dalik				~	Last login 31 Mar 03:29 PM
ADHOC	Schedule					
Report Name	Date wise User creation Report	\sim				
Report Format	Select Report Format	\sim				
Party ID		User Type	Select		\sim	Tips With this option, you can generate adhoc
Duration	From 🗊 To					reports which are internal or related to customers. You need to select the Report Name, Frequency, Duration and Format in which you want to generate it. Once
Generate Report	Cancel					submitted you can view and download the generated reports from My Reports option.
 > bill-pay > biller-re > biller-re > daily-ba > external > fatca-co > fatca-co > META-III > party-pa > pending > report-g > report-f > report-s 	aram-report g-approvals-report generation ist search	-report				

2. Add Entry **ParamsComponent_admin.json** for new report. This will pick up your new report component once it is selected from drop down.

	() paramsComponent_admin.json ×
v CHANNEL 日早む日	components > reports > report-generation > {} paramsComponent_admin.json > {} A2
biller-reconciliation-report biller-registration-report daily-balance-position-report external-payment-report fata-compliance-declaration-report fata-compliance-declaration-status-report META-INF party-param-report pending-approvals-report report-generation	<pre>component : "sport report generation of parameters in part of the second part of the</pre>
JS loader.js JS model.js () paramsComponent_admin.json	<pre>13 }, 14 "A4": { 15 "component": "wallets-opened-report",</pre>
 report-generation.html report-generation.js report-generation.scs 	<pre>16 "module": "reports" 17 }, 18 "A5": { 19 "component": "wallets-user-activity-report", 20 "module": "reports"</pre>
> report-list > report-search > report-user-map	<pre>21), 22 "A6": { 23 "component": "wallets-txn-activity-report", 24 "module": "reports"</pre>
> report-user-search > reports-type > resource-role-mapping-report > review-report-generation	<pre>24 module: reports 25 }, 26 "A7": { 27 "component": "party-param-report", 28 "module": "reports"</pre>
> review-report-user-map	29 },

3. Add entry in DIGX_RP_DEFINITION table-

	r down to perform "Go to Declaration"		

4. Add adapter with extension AbstractReportDataGenerator implements IReportDataAdapter and override generateReport() method

5. Use this adapter to work on parameter and get the data for report and provide data to applyXSLFO method.

	<pre>ReportResponseDomainDTO repResp = new ReportResponseDomainDTO(); repResp.setDto(adapter.listAPIconsumption(sessionContext, listRequestDTO));</pre>
	<pre>repResp.setParamMap(reportReqDTO.getParamMap());</pre>
	<pre>dataByte = super.applyXSLFO(repResp, reportReqDTO, ReportResponseDomainDTO.class,</pre>
	APIAuditListResponseDTO.class);
}	return dataByte;

6. Once all the steps are done, Just map the report to your user and Start using it.
