Button

Buttons communicate actions. They direct users to initiate or take actions and they work with a single tap, click, or keystroke. Buttons are used throughout the UI, on pages and dialogs, and with other components such as toolbars, tables, lists, cards, input fields, and forms.

Badge

Badges are brief textual or numerical labels that provide at-a-glance status info to bring attention to items in a particular state or condition. Typically one word, but it can also be a number, which can be supplemented with a tooltip.
