U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Table of Contents

1. Preface	1-1
1.1 Intended Audience.....	1-1
1.2 Documentation Accessibility.....	1-1
1.3 Access to Oracle Support.....	1-1
1.4 Structure	1-1
1.5 Related Information Sources	1-1
2. Configure Override Functionality.....	2-1

1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

The subsequent chapters describes following details:

- Introduction
- Preferences & Database
- Configuration / Installation.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Release 22.2.0.0.0, refer to the following documents:

- Oracle Banking Digital Experience Installation Manuals

2. Configure Override Functionality

All the configurable properties in OBDX are maintained in the **digx_fw_config_all_b** table with specific **categoryld**. These properties can be modified or overridden by admin transaction Configuration Override.

Follow the below steps to maintain the properties in the **digx_fw_config_all_b** table:

1. Navigate to the **Configuration Override** screen.

The screenshot shows the 'Configuration Override' screen in the Futura Bank application. At the top, there is a search bar and a 'Search' button. Below this, the 'Configuration Override' title is displayed. The main form contains two input fields: 'Category Id' with a dropdown menu showing 'Please Select' and a 'Required' label, and 'Property Id' with a text input field showing 'Property Id'. Below these fields are three buttons: 'Search', 'Cancel', and 'Clear'.

2. For Example: Account Number masking pattern is maintained in the tables with prop_id as **AccountNumberMasking** and category id **MaskingPattern**. With Current value as **xxxxxxxxxxxxNNNN**. The application displays details based on the specified search criteria.

The screenshot shows the 'Configuration Override' screen in the Futura Bank application. The 'Category Id' dropdown is now set to 'MaskingPattern' and the 'Property Id' text input field is set to 'AccountNumberMasking'. The 'Search' button is highlighted. Below the search form, a table displays the search results. The table has four columns: 'Property Id', 'Preference Name', 'Property Value', and 'Action'. The first row shows 'AccountNumberMasking' for 'Property Id', 'MaskingPattern' for 'Preference Name', and 'xxxxxxxxxxxxNNNN' for 'Property Value'. There is an edit icon in the 'Action' column.

Property Id	Preference Name	Property Value	Action
AccountNumberMasking	MaskingPattern	xxxxxxxxxxxxNNNN	

3. Account numbers are displayed in the current masking format. For example, the Demand Deposit Summary transactions show a list of masked account numbers.

Account Number	Status	Available Balance	Current Balance
My Salary Account, xxxxxxxxxxxx0055 John David \$100 HKD	Active	\$775.00	\$2,125.00
xxxxxxxxxx0044 John David \$100 HKD	Active	\$55,982.20	\$90,925.20
Savings Account, xxxxxxxxxxxx0053 Mark Rogers \$100 HKD	Active	\$354,292.50	\$65,807.50
Monthly Savings, xxxxxxxxxxxx0022 John David \$100 HKD	Active	\$166,817.55	\$221,475.50
Salary Advance, xxxxxxxxxxxx0043 John David \$500 HKD	Active	\$484,775.30	\$1,236.00

4. Click **Update** to modify the property value.

As mentioned in the previous step, the user searches for and modifies the property. The property value will be overridden, and the updated entry will be inserted into the `digx_fw_config_all_o` table, retaining the same `prop_id` and `category_id` but with the new value.

Configuration Override

Category ID:

Property ID:

Property Value:

PROP_ID	PREFERENCE_NAME	PROP_VALUE	DETERMINANT_VALUE	CREATED_BY	CREATION_DATE	LAST_UPDATED_BY	LAST_UPDATE
AccountNumberMasking	MaskingPattern	xxxxxxxxxxxxxx	OBIX_BU	superadmin	28-10-24 2:48:53.889000000 PM	superadmin	28-10-24 2:4

5. Changes in the **Accounts** screen will be immediately reflected according to the updated value.
