Table of Contents

1. Preface	1-1
1.1 Intended Audience	1-1
1.2 Documentation Accessibility	1-1
1.3 Access to Oracle Support	1-1
1.4 Structure	1-1
1.5 Related Information Sources	1-1
2. Oracle Banking Electronic Data Exchange for Corporates Integration Matrix.....	2-1
3. Uploaded Files Inquiry	3-1
3.1 Uploaded File inquiry	3-1
4. File Approval	4-1
4.1 File Approval	4-1
4.2 Record Level Approval	4-4

1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. Uploaded Files Inquiry

Corporates often look forward for an option to make multiple transactions and multiple maintenances quickly and conveniently through a single file upload typically for processing the salary of the corporate staff, for making the vendor payments or even for managing their Virtual Accounts through uploading a file.

Salary payments, fund transfers, vendor payments are a few examples of financial transactions that can be supported through bulk file upload. Similarly upload of virtual account creation records is an example of a non-financial file upload.

Note: The –Uploaded files inquiry facilitates viewing of the Bulk files uploaded via Oracle Banking Electronic Data Exchange for Corporates.

3.1 Uploaded File inquiry

Using this option, the user can view the files uploaded by the corporate using Oracle Banking Electronics Data Exchange (OBEDX) application (only those files that the user has access to) and their status, On OBDX platform.

- The search can be filtered on various parameters like status and file reference ID.
- The user can track the status of the file.
- The user can track file history and check Individual record details.

How to reach here:

Corporate Dashboard > Toggle Menu > File Upload > Uploaded Files Inquiry

OR

Corporate Dashboard > Quick Links > Uploaded Files Inquiry

3.1.1 Uploaded Files Inquiry – Search Filters

On accessing ‘Uploaded File Inquiry’ option from the menu, user will be navigated to search screen which display various filter criteria to search and view the uploaded file with their respective status.

Using this corporate user can search and view the Host-to-Host files that are uploaded under a corporate with the file identifier, date range, transaction type, transaction reference ID and view the record details under the same.

User can choose to view the details of the file by clicking on the File Reference ID or can even choose to search the files uploaded on previous days clicking search filters.

User is expected to provide at least two search parameters to get the better result.

To search and view the Uploaded files

1. Enter any two-search criteria in the search section.

2. Click **Search**. The search results appear on the **Uploaded Files Inquiry** screen based on the search parameters.
- OR
- Click **Clear** to reset the search criteria.
- OR
- Click **Cancel** to close the search panel.

Uploaded Files Inquiry – Search

Field Description

Field Name	Description
Search	
File Identifier	File identifier created earlier in order to identify the Host-to-Host File.
Transaction Type	Search with the transaction type associated with the file.
File Name	Search with the file name of the uploaded file.
File Reference ID	Search with the file reference number, which was generated while uploading the file.

Field Name	Description
File Status	Search with the status of the file uploads. <ul style="list-style-type: none">• Uploaded• Approved• Rejected• Processing In Progress• Error• Processed• Processed with Exceptions• Verified• Expired
From Date	From Date, to search for an uploaded file, in the specified date range.
To Date	To Date, to search for an uploaded file, in the specified date range.
Search Results	
Upload Details	Displays the file upload date and time.
Type	Displays the transaction type of file uploaded
File Identifier	Displays the file identifier selected while uploading the Host-o-Host file.
File Name	Displays the name of the Host-o-Host file.
File Reference ID	Displays the file reference number generated after the file was uploaded.

Field Name	Description
File Status	<p>Displays the status of the uploaded file.</p> <p>The file status could be:</p> <ul style="list-style-type: none"> • Uploaded: File Uploaded and file reference number is generated. • Verified: File has been pre-processed and authorization checks done (limit + account access check). File is now Pending Approval. • Error: File has been pre-processed and contains error. The end of the life cycle of the file (File Level). • Processing in Progress: File is not yet liquidated. • Rejected: File has been rejected (File level). The end of the life cycle of the file. • Approved: File has been fully approved. • Processed: File is completely liquidated. • Processed with exception: File is partially liquidated – i.e., while some records are processed, others are not. • Expired: File has expired.

3. Click the **File Reference ID** link to view the details. The **Uploaded Files Inquiry - File Details** screen appears.

3.1.2 Uploaded Files Inquiry – File Details

On clicking on the File Reference ID on the summary page, following screen is displayed to the user. Screen displays the basic file details like name, status, reference id etc. along with the file journey.

File details section also shows the records of the file in a summarized view along with respective status of each record.

User can also choose to view the record details by clicking on the link available on each record. User gets directed to the screen, which shows the individual record details along with the file details using which the record was uploaded. Each record details is specific to the transaction type which user is inquiring.

To view the Host-to-Host file details:

1. Navigate to the **Uploaded Files Inquiry** screen.
2. Enter any two-search criteria in the search section and click **Search**. The search results appear on the Host-to-Host Files Inquiry screen based on the search parameters.
3. Click the **File Reference ID** link to view the details. The **Uploaded Files Inquiry - File Details** screen appears.

Real Account Number	Display real account number

Note: Record Detailed Inquiry is not required in case of Virtual Account Closure & Add Special Rates hence the hyper link is not provided on Record Reference Number

5. Click **Back** to navigate to the previous screen.

FAQ

1. **If a payment file is in the approved status, does it mean that all the records are successfully liquidated?**

No, the file still has to successfully pass validations in the host system, before records are processed.

[Home](#)

4. File Approval

This option allows the approver to approve / reject the uploaded file. File approval could be either

- File Type
- Record Type

In a File type Approval, the approver accepts or rejects the entire file, and all records are either processed or rejected. While in a Record type approval, the approver could approve some records, and reject others. Only the approved records are processed further.

How to reach here:

Approver Dashboard > Pending for Approvals

4.1 File Approval

Once a file is uploaded and pre-processing checks are successfully completed, the file is pending approval, and is in the respective Approver's queue.

To approve / reject a file:

1. In the **Pending for Approval** section, select Financial in dropdown list for Payments & select Non Financial for Virtual Account Open, click the **Host-to-Host Bulk Files** tab. All the uploaded files that require approval appears.
2. Select the multiple files and click **Approve** to approve the transactions.
OR
Click the link under the **Reference No** column. The **File Details** screen appears.
