## 3. Personal Finance Management

Personal finance refers to how the customer manages their money, including their income, expenses and savings. This module enables customers to take control of their money by providing them with a holistic view of their finances with the bank. With the help of the personal finance management tools, the customer can plan their finances and track their expenditure, set up goals and follow budgets.

This module comprises of multiple tools, such as,

- **Spend Analysis**

This tool provides an insight on the pattern or areas of expenditures. Customers can make smarter financial decisions by tracking their expenses over time

- **Goals**

Enables users to visualize and reach their life goals more easily.

- **Budgeting**

Users can create custom thresholds, and can track their financial goals and relative performances.

### Pre-requisites

- Transaction access is provided to retail user.
- Accounts are maintained in the core banking system under a party ID mapped to the user.

### Workflow

## **Features Supported In Application**

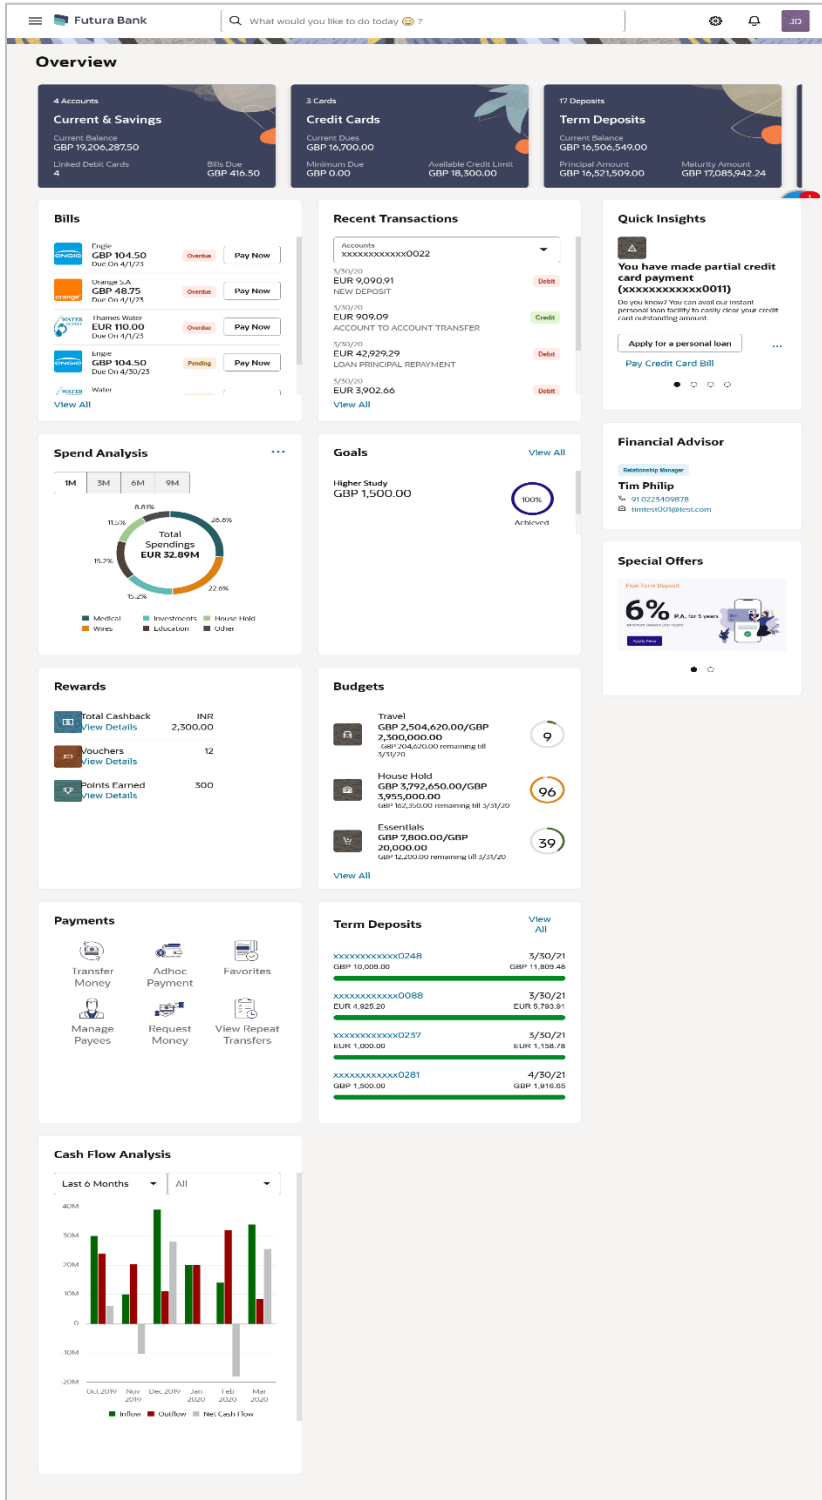

The Personal Finance Management module supports the following features:

- Spend Analysis
- Goals
- Goal Calculator (pre-login feature)
- Budgets

### 3.1 Personal Finance Management Overview

The retail dashboard displays an overview of spends of the user. By default it displays user's spends for last 1 month and the category name with expenditure amount is displayed, where spend has been maximum.

## Dashboard Overview

Trends dashboard shows widgets of PFM namely, Spends, Budgets and Goals. They give a brief snapshot of the current financial whereabouts of user with the bank.

### Goals

This widget displays all the active goals that are created by the user. Click the **View All** link to open the **Goals** transaction screen from which the customer can view, modify, contribute to a goal or even withdraw some amount from a goal.

### Budgets

This widget displays the all the budgets created by the user. Click the **View All** link to open the **Budgets** transaction screen where all budgets are listed. It allows user to create, view, edit and delete budget

### Spend Analysis

This widget displays the spend analysis of the customer. The spending patterns of the user are in the form of a donut chart. The details displayed in the chart will be based on the category wise expenditure in all savings accounts mapped to the user. The user can also view a period wise and account wise spend analysis. On mouse hover on donut chart category, user can view expenditure details of each category.

This displays the total amount expenditure incurred during a period of last 1 month. It also displays the name of the category in which the highest expenditure has been incurred for that period. Click the ... icon and click on the **View More** link to open the **Spend Analysis** transaction screen. This screen displays the records of all transactions made in the customer's accounts. The category that each transaction comes under is displayed against the transaction record.

## 4. Spend Analysis

This tool helps the user by providing an insight on the pattern or areas of expenditures. Customers can make smarter financial decisions by tracking their expenses over time.

The system defines categories and sub categories to which the transactions can be assigned. The categories or sub categories are assigned to the transactions, based on certain rules pre-defined by the system. The users can re-categorize the assignment of transactions to any categories or sub categories of his choice. The user can also split a transaction he has done into two or more sub transactions.

In addition to the existing default categories and sub categories (created by the bank), users can also create their own new categories and subcategories.

### Pre-requisites:

- Transaction access is provided to retail users.
- User has an account and have done few transactions.
- Basic categories and sub-categories are maintained and necessary rules are defined.

### How to reach here:

*Toggle menu > Menu > Personal Finance > Spend Analysis > Spend Analysis*  
OR

*Dashboard > Spends Analysis widget > Click ... > View More > Spend Analysis*  
OR

*Access through the kebab menu of **Manage Spend Categories** transaction*

OR  
Click **Cancel** to cancel the process.
6. The success message of re-categorization of the transaction appears on the screen.

## 4.2 **Spend Analysis – Split Transaction**

The split transaction feature allows the customer to divide a single transaction into multiple transactions of different categories/sub categories. For example, different items are bought with a single purchase at a departmental store and customer later wishes to split it into different categories / sub-categories, he can do so by using this option.

A transaction can be split into any number of transactions and each division can have their own categories/ sub-categories. The sum of values of all the split categories/ sub-categories transactions should be equal to the main transaction amount. A transaction can be split into categories/sub-categories only once. The split icon is no longer displayed against transactions which have been already split.

---

**Note:** The categorization cannot be reversed to original once the transaction is split.

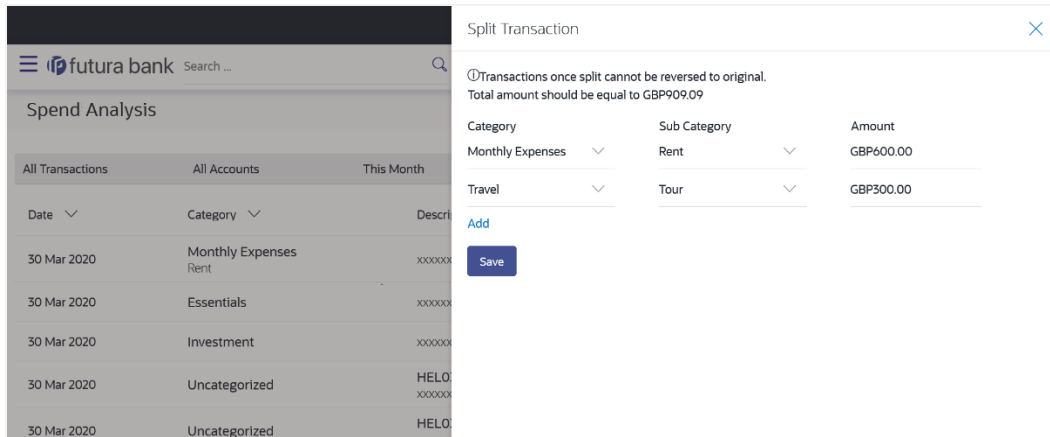

---

### **To split a transaction:**

Note: The user should not be able to add another category option once the maximum number is reached.

OR

Click the  icon to close the Split Transaction overlay screen.

- The success message appears on the **Spend Analysis** screen.

## 5. Manage Spend Categories

All the user defined categories appear in the Manage Spend Categories screen. This screen enables users to view and manage all the categories and sub categories created by them. The user can also modify existing categories and add new categories.

While creating a new category or sub category the system checks that the category being created does not already exist for the user. In case of sub category the system checks that a sub category with the same name does not exist under the same parent category. It is however possible to have duplicate sub categories across different categories for the same user.

## 6. Budgets

A budget enables the user to set a virtual cap over expenditures. It is the key, the essential ingredient in taking command over one's money. Setting a budget, and sticking to it for a long term, can help to cut down a user's unwanted expenses and thereby enabling him to create wealth.

The Budgeting tool enables a customer to track the progress of budget as well as to create, modify or even delete an existing budget. It enables users to set a limit on various spend categories. Over a period of time user can then observe and analyze the status and progress of expenditures against the budgeted value. Users can further set the periodicity of budget, that is, whether they want it for the current month, a period of months or on a recurring basis, while the frequency is set as monthly. This can be created for new customized user defined categories as well. Once created, users can adjust the budget as per the spending pattern, thus ensuring maximum savings.

### Pre-requisites:

- Transaction access is provided to retail user.
- Accounts are maintained in the core banking system under a party ID mapped to the user.

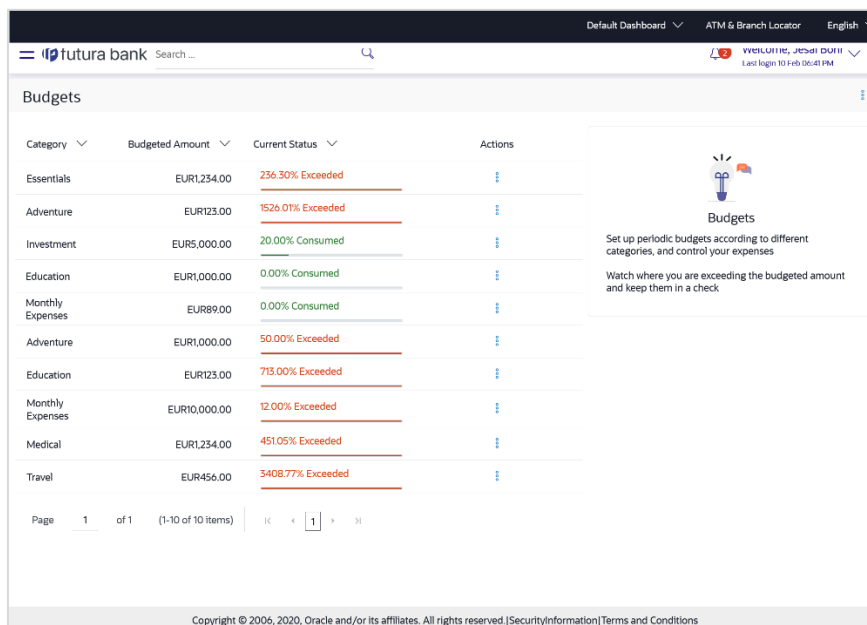

## 6.1 Budgets

The user can view the budgets set by him and can also view the progress of each budget on this screen. Additionally, the user can also edit or delete a budget by selecting the option provided against each budget.

## 7.5 Goal Calculator

The goal calculator helps to calculate how much money the user will need to contribute at a regular frequency in order to arrive at a specific savings goal.

This option allows the user to identify the amount of savings that has to be done to achieve a certain goal. This feature, hence, enables the user to figure out the feasibility of creating a goal based on the regular contribution amount for a defined period.

The user needs to enter the goal details along with his targeted amount. The outcome will be based on the values entered by user.

## **FAQ**

### **1. How do I set a budget for a one-time expense?**

You can budget a one-time expense by selecting the option 'This Month' from the Periodicity field while creating the budget.

### **2. How can I identify how much I have spent against a set budget?**

The bar graph displays the amount consumed against a budget as a percentage value. The amount spent can also be viewed in terms of actual amount value by hovering over the bar graph.

### **3. Can I edit my Goal amount?**

Yes, you can adjust your goal amount as per your requirements; however the amount should be within the range of the product under which you have created your goal.

### **4. Can I change the maturity instructions of my goal after it has been created?**

Yes, you can change these maturity instructions by selecting the option to edit a goal from the Goal Details page.

### **5. Can I stop the standing instructions set for a goal?**

Yes, you can stop, alter and restart the standing instructions defined on a goal.

### **6. How much can a user withdraw from a goal account?**

The user can withdraw a partial amount or the entire amount of the goal. Please note that if you withdraw the entire amount of the goal, the goal account gets closed. From there on the Goal can be viewed in the closed account section.

### **7. What happens to the interest accrued in my Goal account if I withdraw some amount?**

The interest of the amount withdrawn for that period along with the penalty, if any, will be credited to the Goal account if it is active, in case of full withdrawal, the interest would be credited to the maturity account defined at the time of goal creation.

### **8. Can a goal be funded from an account of a different currency than that of the goal account?**

Yes, however the total value will always be shown as per the base currency of account.

### **9. Are the interest components added to my Goal account also visible in the Goal Details page?**

Amount with interest accumulated in the goal account appears on the Goal details page. Separate interest component is not shown.

**10. Can I view the transactions performed on my goal that is currently closed?**

No, you cannot view the transactions performed on a goal that has been closed.

**11. Is there a minimum amount I must contribute initially at the time of goal creation?**

Yes, the bank defines a minimum contribution amount for each goal product. At the time of goal creation, you are required to credit the goal account with an amount that is not lower than this minimum amount defined.

**12. Are there any validations on the standard instructions to be defined at the time of Goal Creation?**

Yes, the validations to be adhered to while defining standing instructions are as follows:

- The standing instruction must be set from a savings account you hold with the bank.
- The end date of the instruction should not be later than the date on which the goal ends.

**13. What do the values in the fields 'You Pay' and 'We Pay' displayed in the Goal Calculator page signify?**

The value displayed in the 'You Pay' field is the amount that you contribute towards your goal, while value displayed in the 'We Pay' component is interest to be accrued by the bank towards fulfillment of your goal.

**14. Can I calculate the time I will require to achieve a Goal if I contribute a certain amount every month?**

No, the goal calculator helps you to identify the amount you need to contribute at a defined frequency and time period. The Goal Calculator does not enable calculation of amount of time required to achieve a goal.
