1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. Introduction

A credit card is a plastic card issued by a financial institution that involves the card holder and the financial institution entering into an agreement that the card holder will pay the institution back in the future so that they can purchase something at present. The financial institution lends the card holder the money that they use to make the purchase and expects that the user pays them back over a period of time (generally a month). The card holder is required to pay the entire amount back including a fee or interest charge if the amount is not paid back in full by the due date.

Credit cards are used to make purchases online or at a point of sale (POS). The card holder's borrowing limit is pre-set based on the individual's credit rating.

The application enables users to manage cards effectively and efficiently. Through the credit card module, a user is able to perform a variety of functions such as viewing credit card details and statements, applying for automatic and adhoc payment of credit card dues, initiating service requests such as request for a change in card billing cycle, request for PIN etc. Additionally the user can also apply for a new credit card from the credit card dashboard. A facility is also provided to view the details of an add-on card issued under primary card and to perform a variety of functions. (An add-on credit card is an additional credit card that is issued under a primary card. The card can be issued to family members, parents, spouse or children of the primary card holder depending on the terms and conditions of the primary card).

This user manual covers all the services provided in the system with regards to credit cards.

Features Supported in Application:

The retail credit card module supports the following features:

- Credit Card Widget
- View Credit Card Details
- Credit Card Bill Payment
- Manage Auto Pay Instruction
- View and Change Card Bill Cycle
- Update Cash and Credit Limits
- Request PIN
- Reset PIN
- Block/Unblock Credit Card
- Cancel Credit Card
- Request for Add-On Card
- View Inactive/Blocked/Cancelled Credit Cards
- Transactions
- View and Redeem Rewards Points

Prerequisites

- Transaction access is provided to retail user.
- Credit cards are maintained in the credit card host system under a party Id mapped to the user.
- User has valid user credentials to login into OBDX.

Note: In application

1) Account searchable drop-down will allow user to search the account number basis on the Account Number, Account Name, Account Currency or Branch Code.

2) Bank can configure the fields to be shown as additional values in the accounts drop-down.

3.1 Overview Widget

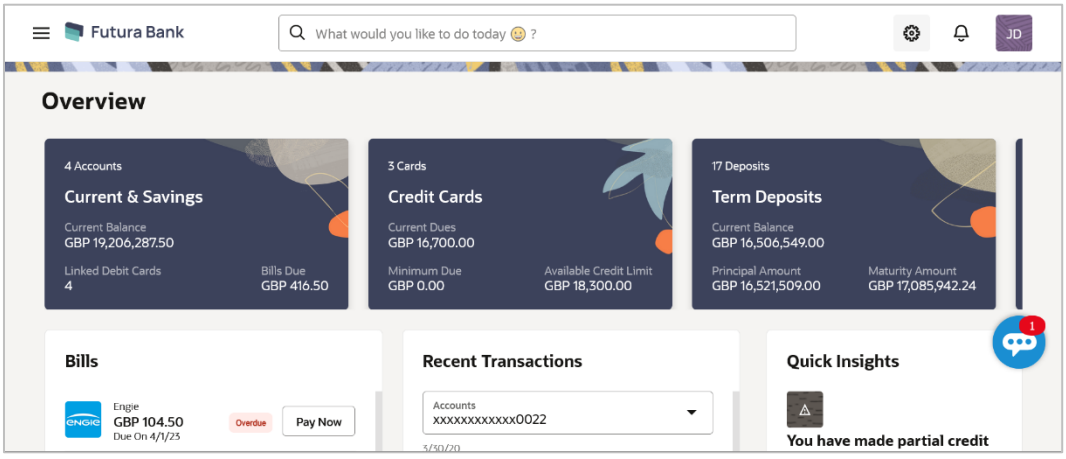
The retail dashboard page displays an overview of the customer's holdings with the bank as well as links to various transactions offered to the customer. The **Overview** widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans, Credit Cards, and Investments. It is a container and user can scroll from left to right, right to left. On clicking on any account type record, the widget displays details specific to that account type. One such example is that of Credit Cards on summary page. The widget displays information such as the total count of credit cards that the customer holds, the total and minimum amounts due across all credit cards as well as the total available credit limit available across all credit cards.

On the summary page, basic details of individual credit cards are displayed in cards that are displayed in the same manner as that of a physical credit card. Each card displays basic information of the card which comprises of the card number, the card product name, the name of the card holder, current dues, available credit, etc. Each card also has a kebab menu which enables the customer to quickly access related screens.

Note: The Overview widget is available on both desktop and mobile (responsive) view.

How to reach here:

Dashboard > Overview Widget > Credit Cards



Home

4. Credit Cards

The credit card summary page provides the user with a holistic view of all his credit cards held with the bank. Additional features available are to make credit card payments block the credit card, apply for a new credit card, and view of inactive cards.

All the active credit cards of the user including the add-on cards linked to the user's primary cards, total card limit, and total minimum due amount are displayed in a credit card widget form. In addition the credit card with its details like card number, expiry date, card holder name, card type, available credit limit, outstanding amount as well as the net repayment date are displayed. The user can view further details of each card or initiate requests such as request PIN, Block Card, etc. against a card by clicking on the kebab menu of each card.

You can also perform the following actions on each of credit card' kebab menu:

- Credit Card Details
- Transactions
- Card Payment
- Request PIN
- Block / Unblock Card
- Add-On Card
- Auto Pay
- Reset PIN
- Cancel Card

How to reach here:

Dashboard > Toggle menu > Menu > Credit Cards > Credit Cards
OR
Dashboard > Overview Widget > Credit Cards

Credit Cards

5.1 Update Limits

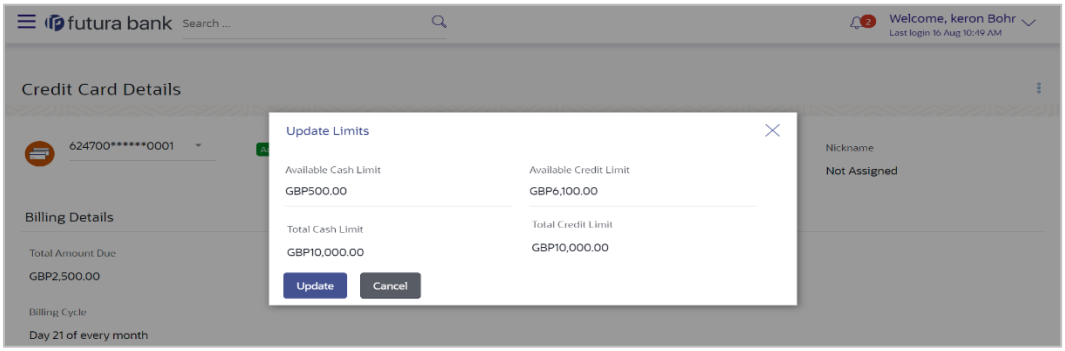
The user can view the existing cash and/or credit limit of a credit card limits. The **Update Limits** option from the kebab menu is available to specify the desired limit of cash and credit for the credit card selected.

The user can also update the limits of an add-on card. In this case, in addition to the existing limit, the screen also displays the maximum limit amount that can be set for the card. This maximum limit amount is the limit assigned to the primary card.

To modify the limits of the credit card:

1. Click on the **Update Limits** option from the kebab menu on the **Credit Card Details** page, to update the limits as required.
   The **Update Limits** popup window appears.

Credit Card - Update Limits



2. Update the **Available Cash** and/or **Available Credit** limits, as required.
3. Click **Update** to save modified limits.
   OR
   Click **Cancel** to cancel the transaction.
4. A success message appears identifying that the request has been initiated successfully. The service request number is also displayed as part of the success message.
5. Click **Home** to go to the **Dashboard** screen.
   OR
   Click **View Card Details** to visit the card details page.

5.2 Change Billing Cycle

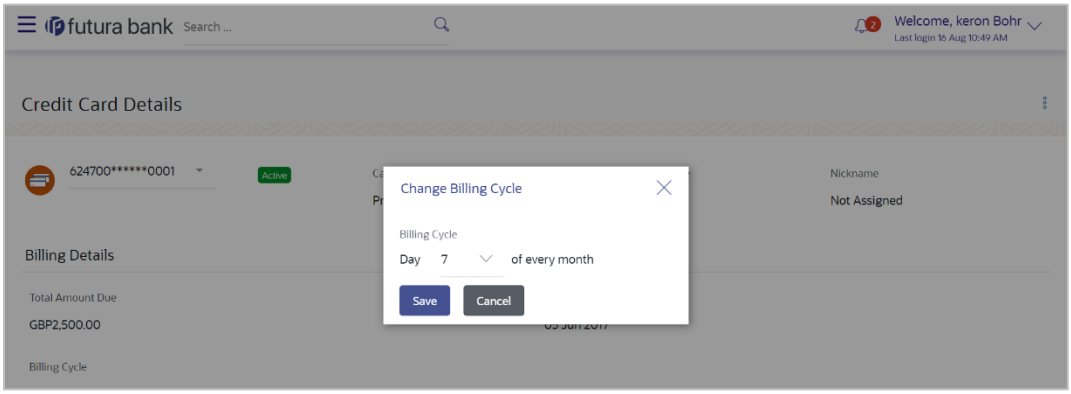
Users might want to change the billing cycle of a credit card to better suit their needs. The application enables users to set a new billing cycle for any credit card of which they are primary card holders so as to enable the users to better manage their funds.

The user can change '**Billing Cycle'** by clicking **Change Billing Cycle** option from the kebab menu on the **Credit Card Details** page of a specific credit card.

To change the billing cycle of a credit card:

1. Click on the **Change Billing Cycle** option from the kebab menu on the **Credit Card Details** page, to change the billing cycle.
   The **Change Billing Cycle** popup window appears.

Credit Card - Change Billing Cycle



2. From the **Billing Cycle** list, select the new billing day to assign to the selected credit card.
3. Click **Save** to save new billing date.
   OR
   Click **Cancel** to cancel the transaction.
4. A success message appears identifying that the request has been initiated successfully. The service request number is also displayed as part of the success message.
5. Click **Home** to go to the **Dashboard** screen.
   OR
   Click **View Card Details** to visit the card details page.

Home

6. Card Payment

This page provides the option to the user to make payments towards his credit card bills. The user can select the amount he is willing to pay, whether that is minimum due, outstanding amount or a specified amount. This page is displayed when the user selects the **Card Payment** option from the menu. The user can opt to pay the minimum amount due, the total outstanding amount due or can even specify an amount other than the minimum amount due or the total outstanding amount, to pay towards credit card bill payment.

All the linked current and savings accounts of the user will be available for selection from which to make the payment. Once the user selects a source account, the available limit of that account will be displayed against the field so as to enable better management of funds.

How to reach here:

Dashboard > Overview > Credit Cards > Credit Card Kebab Menu > Card Payment
OR
Dashboard > Toggle menu > Menu > Credit Cards > Card Payment
OR
Access through the kebab menu of transactions available under the ***Credit Cards*** *module*

    OR
    Click **View Card Details** to visit the card details page.

9. Block/Unblock Card

Loss of credit card or any fraudulent transaction suspected on a credit card is a nightmare for a user. In such a critical situation, visiting a branch or calling up customer care to block the card is time consuming. The user should be able to block his credit card instantly in such situations. The Block Card feature of the application enables the user to raise a request to block a credit card immediately.

The user can raise a request to block a credit card temporarily or permanently at any time and can even specify the reason for which the request is being raised. The user can also request for a replacement card to be issued as part of the permanent block card request and can identify where the new card is to be delivered i.e. either to the user's residence or a branch.

The user can also raise request to unblock for the blocked the credit card.

This feature is available for both primary and Add-On cards.

How to reach here:

Dashboard > Overview > Credit Cards > Credit Card Kebab Menu > Block/Unblock Card
OR
Dashboard > Toggle menu > Menu > Credit Cards > Block / Unblock Card
OR
Access through the kebab menu of transactions available under the ***Credit Cards*** *module*

10. Cancel Card

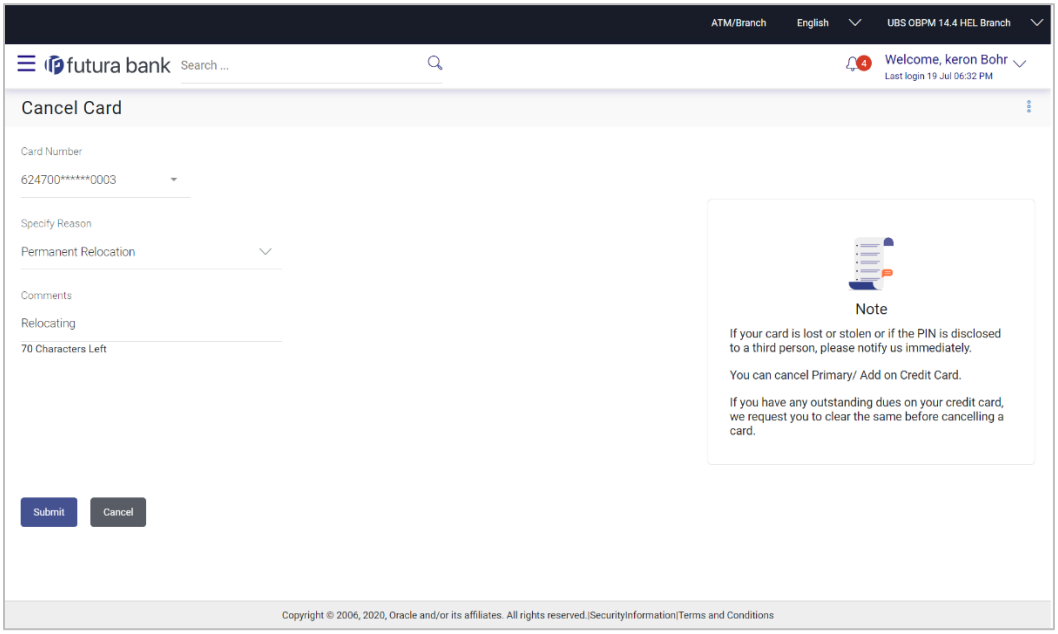
User might want to cancel a credit card for any number of reasons. The application supports the credit card cancellation feature. By means of the Cancel Credit Card feature, the user can cancel a credit card and can specify the reason for cancellation and also provide additional feedback as to why the card is being cancelled.

The application supports cancellation of both primary as well as Add-On cards.

How to reach here:

Dashboard > Toggle menu > Menu > Credit Cards > Cancel Card
OR
Access through the kebab menu of transactions available under the ***Credit Cards*** *module*

Cancel Card



Field Description

Field Name	Description
Card Number	Select the credit card that needs to be cancelled.

Field Name	Description
Specify Reason	The user is required to specify the reason for which the card is being cancelled. The options can be: • Permanent Relocation • Unhappy with services • Too many charges • Other

11. Apply for Add-On Card

Add-On cards, also known as supplementary cards, are cards issued to additional cardholders such as a spouse or a child, at the request of the primary card holder. The Add-On card holder might have the same limit as that of the primary card holder and cannot be held legally responsible for credit card payments. All expenses incurred on an Add-On card are billed to the primary card holder.

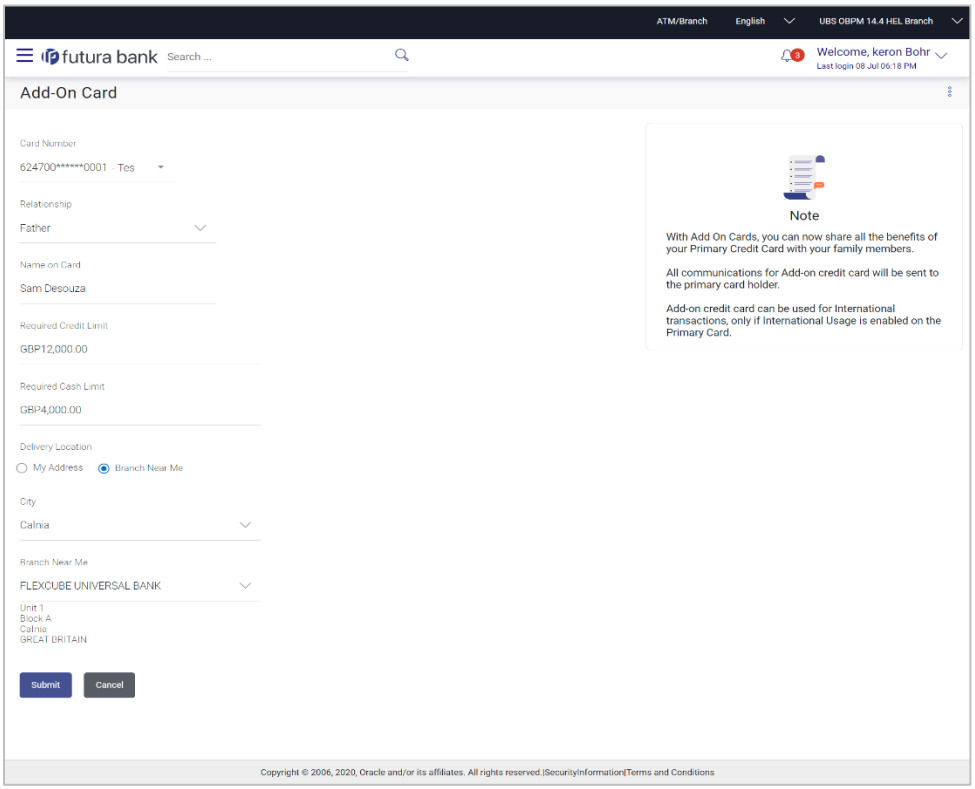
The application enables the primary card holder to apply for Add-On cards online. The user can apply for an Add-On card by selecting the option provided. The user can customize the Add-On card by specifying the name to be embossed on the card and also by defining the credit and cash limits of the card.

Note:
1) In case user is having an Add-on, and it is active card, he will be able to see the card details, Request pin for his card only, and block his card only.
2) In case user is having an Add-on Card, and it is inactive, he will be able to see the card details and able to block his card.
3) In case user is having an Add-on Card which is hotlisted, then he will be able to see just his card details.
4) In case user has Add-on Card is cancelled, then he will be able to see just the card details.

How to reach here:

Dashboard > Toggle menu > Menu > Credit Cards > Add-On Card
OR
Access through the kebab menu of transactions available under the ***Credit Cards*** *module*

Add-On Card Request



Field Description

Field Name	Description
Card Number	Select the primary credit card for which an add-on credit card is to be requested.
Relationship	Select the relationship that you have with the person for whom the add-on card is being requested. The options are: • Father • Mother • Son • Daughter • Spouse • Brother • Sister
Name on Card	Specify the name to be embossed on the Add-On card.
Required Credit limit	Specify the credit limit to be assigned to the Add-On card. The primary card's credit limit is displayed below this field so as to identify that the Add-On card's credit limit cannot exceed that of the primary card.
Required Cash limit	Specify the cash limit to be assigned to the Add-On card. The primary card's cash limit is displayed below this field so as to identify that the Add-On card's cash limit cannot exceed that of the primary card.
Delivery Location	Specify where the add-on card is to be delivered. The options are: • Branch Near Me • My Address

Following fields will be enabled if the **My Address** option is selected in the **Delivery Location** field.

Field Name	Description
Select Address	Address where the new Add-On card is to be delivered. The options are: • Postal • Residence • Work Based on the selected option, the user's address details corresponding to the selected address as maintained are displayed.

Following fields will be enabled if the **Branch Near Me** option is selected in the **Delivery Location** field.

City	The user can filter branches based on the city in which they are located.
Branch Near Me	Branch name where the Add-On card is to be delivered.
Branch Address	The address of the branch selected is displayed on the screen.

To apply for an Add-On card:

1. From the **Card Number** list, select the credit card for which an add-on card is to be requested.
2. From the **Relationship** list, select the add-on card holder's relationship with that of the primary card holder.
3. In the **Name on Card** field, enter the name of the Add-On card holder.
4. In the **Required Credit limit** field, enter the desired credit limit for the Add-On card.
5. In the **Required Cash limit** field, enter the desired cash limit for the Add-On card.

   Note: It is mandatory to define either the credit or cash limit of the Add-On card.

6. In the **Delivery Location** field, select the delivery address of choice.
   a. If you select the **My Address** option;
      i. From the **Select Address** list, select the appropriate option.
      Based on the option selected, the complete address of the user as maintained by the bank is displayed.
   b. If you select the **Branch Near Me** option;
      i. From the **City** list, select the desired city.
      ii. From the **Branch Near Me** list, select the desired branch.

12. Auto Pay

Missing a credit card payment or not having the time to make the payment is a common occurrence. Penalties and extra charges are bound to be applied if a user fails to make a credit card payment on time.

In order to help users avoid such situations, the application supports the auto pay functionality. This feature enables a user to set automatic payment instructions for a specific credit card.

While setting up the auto pay instruction, the user identifies whether the minimum amount due has to be paid or whether the total amount due has to be paid or specific amount has to be paid. The user is also required to identify the linked current or savings account from which the funds are to be debited in order to make the payment.

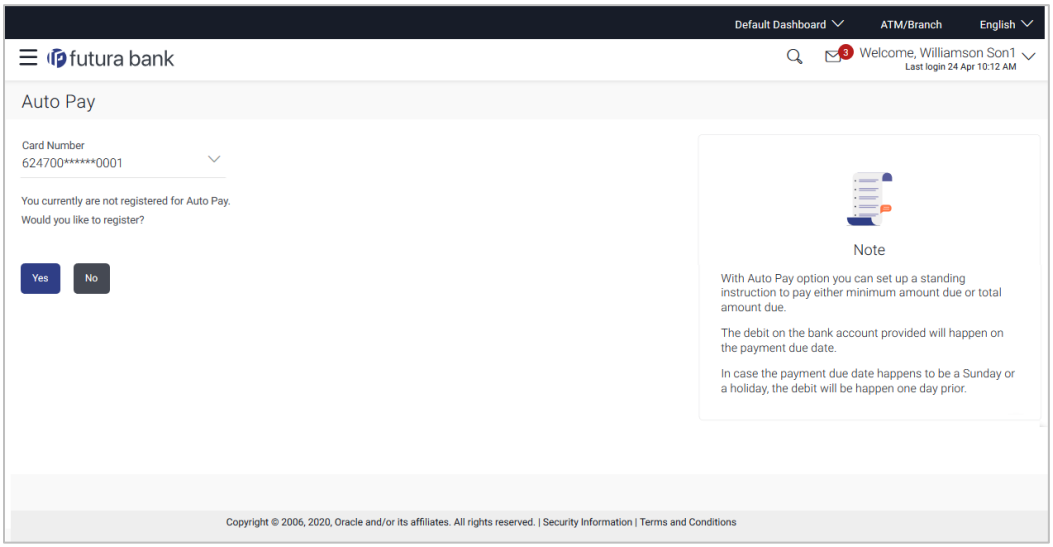
The Auto pay instruction is executed as per the credit card bill cycle for the selected card. The user can de-register from auto pay at any time.

How to reach here:

Dashboard > Toggle menu > Menu > Credit Cards > Auto Pay
OR
Access through the kebab menu of transactions available under the ***Credit Cards*** *module*

To update and de register the Auto Pay instruction for the Credit Card:

Auto Pay Register



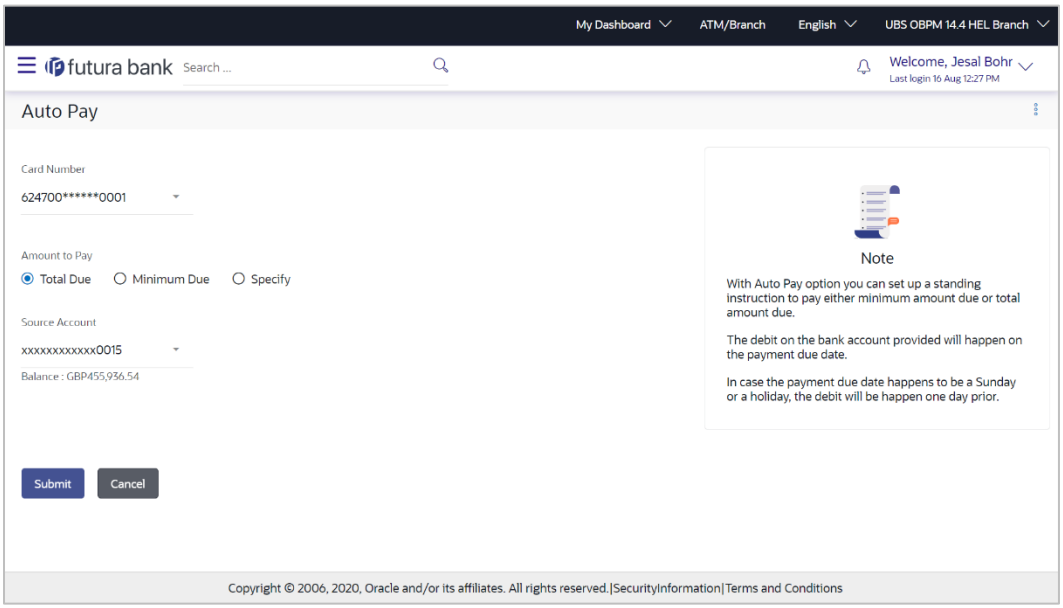
Field Description

Field Name	Description
Select Card	Select the credit card for which auto pay instructions are to be set or modified.

Field Name	Description
You currently are not registered for Autopay. Would you like to register?	This text is displayed on the screen if no auto pay instruction has been set for the credit card. The user can proceed to set an auto pay instruction by selecting the **Yes** option or can reject setting up the instruction by selecting the **No** option.

1. From the **Select Card** list, select the credit card for which auto pay instructions need to be set/modified.
2. If the selected credit card has not been registered for the auto pay facility, a message is displayed on the screen informing the user of the same. The user is provided with the option to register the credit card for automatic payments.
3. Click **Yes** to set the Auto Pay instruction.
   OR
   Click **No** to cancel the transaction.

Auto Pay



Field Description

Field Name	Description
Card Number	Select the credit card for which auto pay instruction is to be set or modified.

Field Name	Description
Select Amount for Autopay	The user can identify whether the total amount due or the minimum amount due is to be paid every billing cycle. The options are: • Total Due • Minimum Due • Specify **Note:** In case of Auto payment of credit card using **Specify** option i.e. specific amount, the retail user will have the facility to set up some specific amount which he/she wants to pay in each cycle irrespective of the minimum due amount or overall due amount.
Amount	The amount to be auto paid against the credit card bill per billing cycle. This field will be displayed only if the option **Specify** has been selected in the previous field.
Source Account	Select the current or savings account number from which the amount is to be debited for credit card bill payment.

4. Specify whether the total amount due or the minimum amount due or a specific amount is to be paid per billing cycle.
5. From the **Account Number** list, select the current or savings account number that is to be debited for credit card bill payment per cycle.
6. Click **Submit** to update the Auto Pay Instruction.
   OR
   Click **Cancel** to cancel the **Auto Pay Instruction**.

Note: The **De-register** option is available only if auto pay has already been set up for the credit card. If the user opts to deregister the credit card for auto payment, the review screen will be displayed followed by the confirm screen once the user confirms deregistration.

7. The **Review** screen appears. Verify the details, and click **Confirm**.
   OR
   Click **Back** to go to the previous screen.
   OR
   Click **Cancel** to cancel the transaction.
8. The success message appears, along with the service request number.
9. Click **Home** to go to the **Dashboard** screen.
   OR
   Click **View Card Details** to visit the card details page.

Home

13. Transactions

The **Transactions** feature enables users to view details of all purchases, payments and any other debits and credits made on their credit card accounts. Users can select any card to view transactions initiated using that card. All transactions initiated on the card are displayed in chronological order of spending, with the latest transactions displayed first. Only primary cards are available for selection. On selecting a primary card, if any Add-On cards are linked to it, the transactions initiated on the Add-On card are also listed.

In addition to being able to select a specific card of which to view the statement details, users can also filter transactions based on billed or unbilled transactions. On selecting the option 'billed' the user can select the billing month to view the statement of that month.

Customers can also undertake the following from this screen:

- Download Pre-Generated Statements – The customer can select the Pre-Generated Statement option from the kebab menu on this page, in order to be provided with the facility to define the period for which he/she would like to download pre-generated statements.
- Subscribe for E-Statements – By selecting the E-Statement option from the kebab menu, the user will be able to either subscribe or unsubscribe (if subscription is active) for e-statements for the specific account. If the user opts to subscribe for e-statements, he/she will receive monthly e-statements on his/her registered email address.

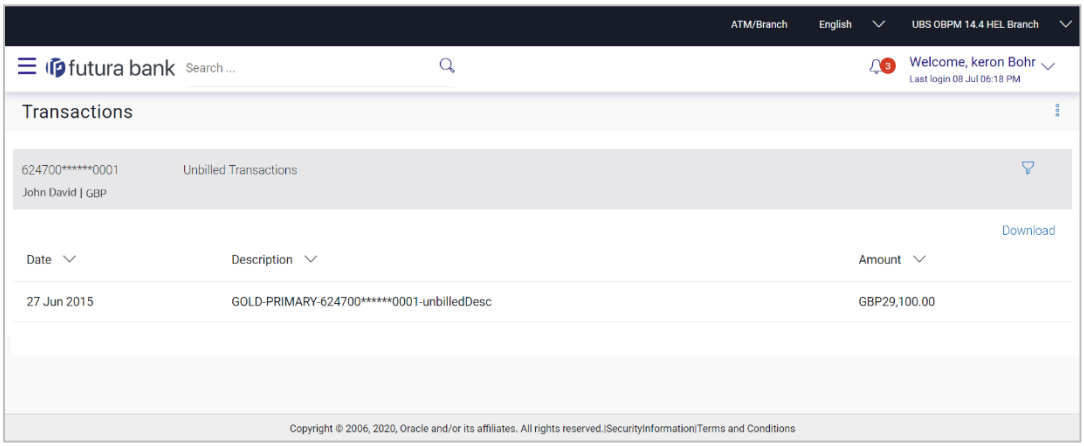
How to reach here:

Dashboard > Overview > Credit Cards > Credit Card Kebab Menu > Transactions
OR
Dashboard > Toggle menu > Menu > Credit Cards > Transactions
OR
*Access through the kebab menu of transactions available under the **Credit Cards** module*

To view transactions:

1. From the **Credit Card Number** list, select the credit card to view transactions initiated through that card.
2. From the **View Option** list, select the type of transactions to be viewed.
   If **Billed Transactions** is selected;
   a. From the **Month and Year** list, specify the year and month for which to view billed transactions.
      Based on the period, the credit card statement appears.
3. Click **Apply** to view transactions based on the defined criteria.
   OR
   Click **Reset** to clear the details entered.

Transactions – View Transactions



Field Description

Field Name	Description
Account Number	Select the credit card to view transactions initiated using that card. On selection, system displays the Account Number along with the Account Name, Account Currency, and Branch Code.
View Options	Filters to view the transaction type. The options are: • Billed Transactions • Unbilled Transactions
Month	The user is required to select a month so as to be able to view the billed transactions of that month. This field appears if you select the **Billed Transactions** option from the **Transaction Type** list.
Date	The date on which the transaction took place.
Description	Displays the name of the credit card associated with the transaction along with the description of the transaction.
Transaction Type	The type of transaction performed, i.e. if it was a debit or credit transaction.
Amount	The transaction amount.

4. Click on the icon to enter filter new criteria. Based on the defined criteria you can view transactions.
   OR

Click **Download** and select the format in which the statement is to be downloaded. The statement gets downloaded.

The following actions can also be performed in the screen:

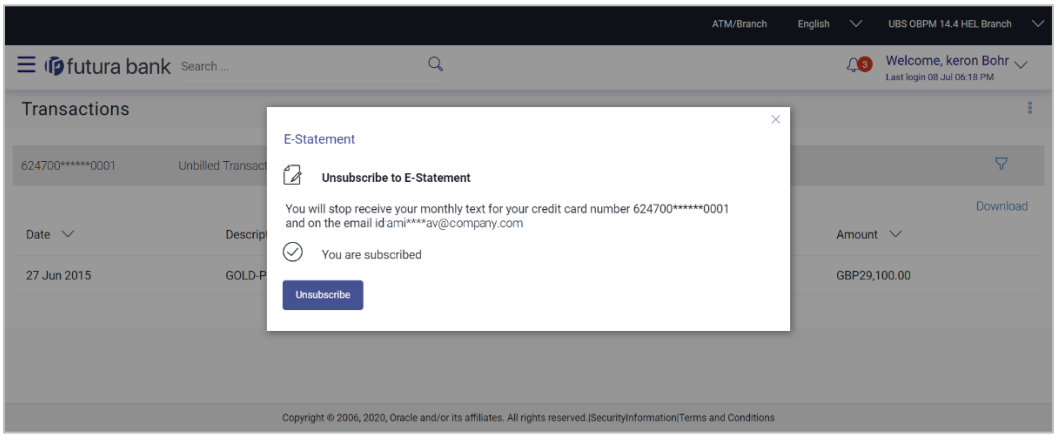
- Subscribe for E-Statements.
- Download Pre-Generated Statements

13.1 E-Statements

To subscribe / unsubscribe for e-statements:

1. Click on the icon on the **Transactions** screen, and click **E-Statement** to subscribe / unsubscribe for e-statements.

E-statement



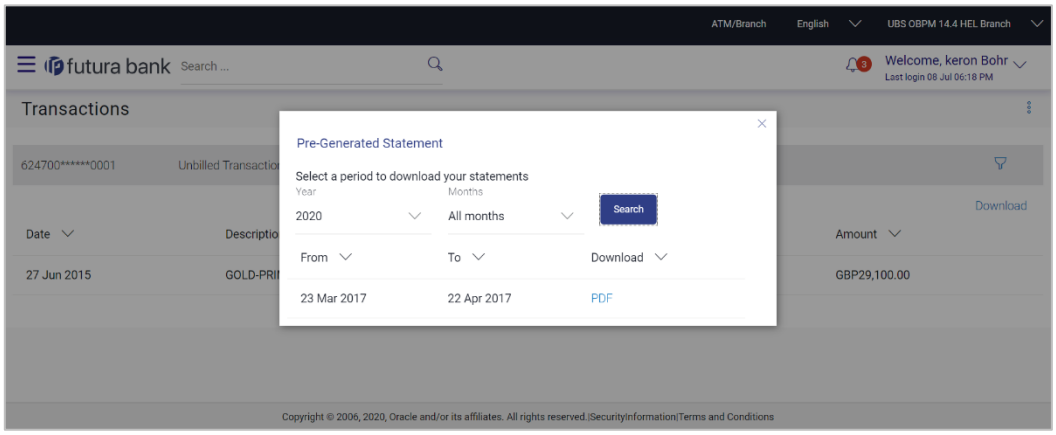
2. The E-Statement pop-up screen appears with a message stating, 'You will receive monthly statements for your credit card <Credit Card Number in masked format> by email at <User's email address in masked format>'.
   a. Click **Subscribe** to opt to receive monthly statements on your registered email address.
      The success message of request submission appears. Click **OK** to complete the transaction.
3. If the user has already subscribed for e-statements, the pop up message contains a message stating that the user is subscribed to receive e-statements. The option to unsubscribe for e-statements is provided.
   a. Click **Unsubscribe** to opt out of receiving monthly statements on your registered email address.
4. The success message of request submission appears.
5. Click **Home** to go to the Dashboard screen.
   OR
   Click **View Card Details** to visit the card details page.

13.2 Pre-generated Statements

To download pre-generated statements

1. Click on the icon on the **Transactions** screen, and click Pre-**generated Statement** to download a pre-generated statement. The pre-generated statement screen appears.

Download Pre-generated Statement



Field Description

Field Name	Description
Select a period to download your pre-generated statement	
Period	
Year	The year for which the pre-generated statement is to be viewed / downloaded / printed.
Month	The month for which the pre-generated statement is to be viewed / downloaded / printed.

2. The **Pre-Generated Statements** pop up screen appears.
   a. From the **Period** lists, select the desired year and month to be displayed all the statements generated within that period.
   b. Click **Search** to be displayed all statements generated within the specified period.
   c. Click on the link (.pdf) available against any statement record to download that particular statement.

Home

14. Inactive Cards Details

All cards that have been cancelled, blocked or deactivated are displayed on the **Inactive Cards** page. Users should be able to track all cards that are inactive so as to identify if any action needs to be taken regarding the status of these cards. Through the Inactive Cards feature of the application, users can view details of all their credit cards that have been cancelled, blocked or deactivated.

The following actions can be taken on cards that are inactive:

- **Blocked Cards** – The user can pay the outstanding amount due.
- **Deactivated Cards** – The user can raise a request to activate the card and also pay any outstanding amount due on the card.
- **Cancelled Cards** – No action can be taken on these cards.

Once a card has been activated, it will no longer be displayed under inactive cards and will be available on the credit cards dashboard under the section listing down all the active credit cards.

The details of cancelled cards will not be displayed. Instead, the user can only view the summary of any cards that have been cancelled.

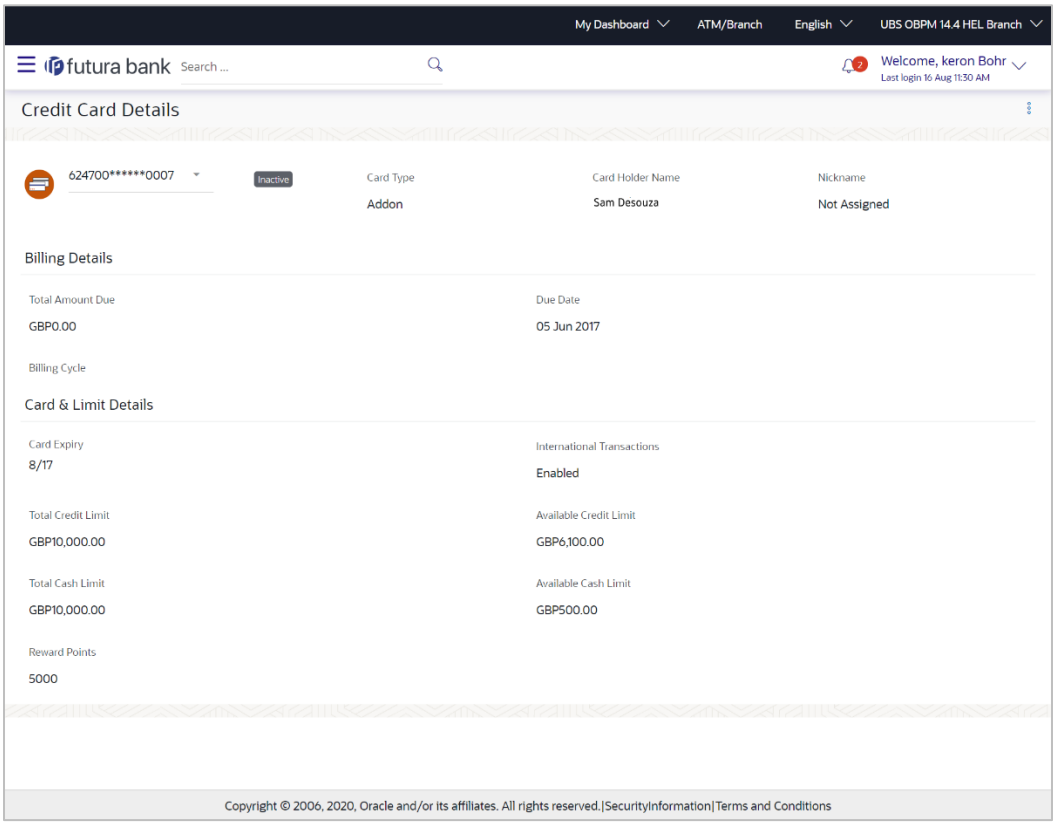
How to reach here:

Dashboard > Toggle menu > Menu > Credit Cards > Credit Card Details > Credit Card Number > Inactive Credit Card

To view inactive credit card details:

1. Select the option **Inactive/Closed** from the provided filter option on the credit cards widget.
   All the inactive credit cards held by the user appear.
2. Click on a specific credit card record in order to view details of that card.
   Details of the selected credit card appear on the Credit Card Details screen.

Inactive Card Details



Field Description

Field Name	Description
Credit Card Number	Select a credit card to view details of the same.
Card Status	Displays the current status of the card, i.e. whether the card is active, inactive, hotlisted or cancelled. If the card is inactive, the user can select the option provided to activate the card.

Add On card: Card Details

Home

15. Activate Card

User might need to activate a credit card in the following cases:

- A new card is issued to the user, which needs to be activated
- The card which was in Deactivate state is now ready for use.

While initiating a request to activate a card, the user is required to specify the reason for which the card is being activated.

Once a card has been activated, it will no longer be displayed under inactive cards and will be available on the credit cards dashboard under the section listing down all the active credit cards.

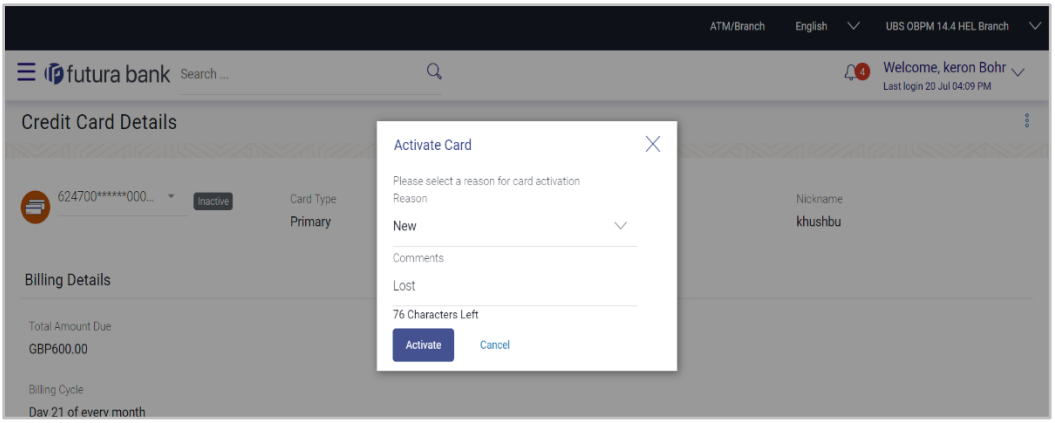
How to reach here:

Dashboard > Toggle menu > Menu > Credit Cards > Credit Card Details > Credit Card Number > Inactive Credit Card

To activate a deactivated card:

1. Select the inactive card which is to be activated.
2. The **Inactive Card Details** screen appears.
3. From the kebab menu select **Activate Card** option to activate the card.
   The **Activate Card** popup screen appears.

Activate Card



Field Description

Field Name	Description
Reason	The user is required to specify the reason for which the card is being activated. The options are: • Deactive • New

Field Name	Description
Comment	The user can define any additional specifications as to the reason for which the card is being activated. This field is optional.

4. From the **Reason** list, select appropriate reason for card activation.
5. In the **Comment** field, enter the comment for the card activation.
6. Click **Activate** to activate the card.
   OR
   Click **Cancel** to cancel the transaction.
7. The success message appears, along with the service request number.
8. Click **Home** to go to the **Dashboard** screen.
   OR
   Click **View Card Details** to visit the card details page.

Home

16. Card Nickname

Users can assign their own description or name to all of their credit cards. User's nickname is the unique ID. Nicknames will be displayed on various transactions instead of the standard account description. This option also allows user to modify or delete the nickname whenever required.

The customer can avail this option by selecting the **Add/Edit Nickname** option from the kebab menu.

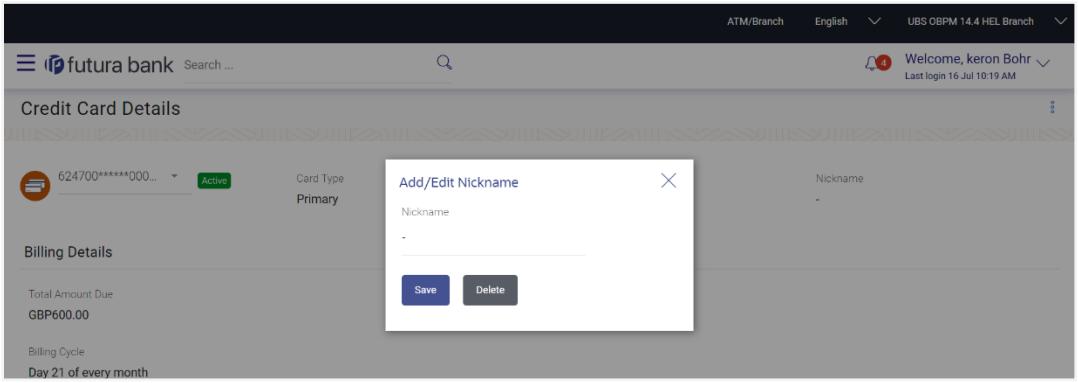
How to reach here:

Dashboard > Toggle Menu > Menu > Credit Cards > Credit Card Details > kebab menu > **Add/Edit** *Nickname*

To add nickname to credit card:

1. Click on the icon on the screen, and click **Add/Edit Nickname** option to add nickname to card. The **Add/Edit Nickname** popup appears.

Add Nickname



Field Description

Field Name	Description
Nickname	Specify a nickname to be assigned to the credit card. If a nickname has already been assigned to the account, it will be displayed in editable mode.

1. In the **Nickname** field, enter the nickname you want to use.
2. Click **Save** to save your changes.
   Nicknames will be displayed on various transactions instead of the standard account description.
   OR
   Click **Delete** to delete nickname.

FAQ

1. **What is the advantage of adding a nickname to an account?**

   You can personalize your account by giving it a nickname. This way you will be able to easily identify it when viewing cards summary.

2. **How can I check my credit card account balance?**

   The credit card details page displays a summary of your current account status, including outstanding balance, available credit limit and information as to when your next payment is due.

3. **The bill / Statement indicate 'Minimum Amount Due' and 'Total Amount Due'. What is the amount required to be paid by me?**

   The amount indicated as ‘Total Amount Due’ is required to be paid by the ‘payment due’ date. In case this is not done, interest will be charged on the outstanding balance and on any new transaction undertaken from the date of the transaction till such time that the past dues are paid in full.

   In case the ‘Minimum Amount Due’ is paid, no late payment fee will be charged. However, interest will be charged on the balance outstanding amount due after the due date for payment. Interest will also be levied on all cash advances from the date of the transaction until the date of payment.

4. **What is a Credit Limit?**

   The 'Credit limit' is the maximum amount that a user can spend/borrow on a single credit card. This limit is defined by the bank/financial institution based on the user’s credit rating and history.

5. **What is a Cash Limit?**

   The cash limit of a credit card is the maximum amount of money that can be withdrawn using the credit card.

6. **Can I update the limits applicable on an Add-On credit card?**

   Yes, you can update both the cash and credit limits of an Add-On card. However, the limits of an Add-On card cannot exceed the respective limits of the primary card to which it is linked.

7. **What is the impact on the billing cycle of an Add-On card when the billing cycle of the primary card, to which it is linked, is changed?**

   When the billing cycle of a primary card is changed, the same billing cycle will be applicable on all linked Add-On cards as well.

8. **Is the bank required to manually accept a request for change in billing cycle or does it get automatically approved?**

Depending on the bank's configuration, manual acceptance by the bank might be required or it could be a straight through process where in the billing cycle gets changed automatically when a request to change is initiated by the user.

9. **If I suspect someone has stolen my credit card or used it to make a fraudulent purchase, what should I do?**

   You should block the card immediately from your online banking portal. If you do not have access to the online application you should call up at the bank's call centre and inform the bank to block the card immediately.

10. **What happens to Add-On cards linked to a primary card if the primary card is blocked?**

    The status of the Add-On cards, linked to a primary card that is blocked, remains active. The card holders can continue to transact using the Add-On cards.

11. **Will the bank cancel a credit card if the card holder requests bank to do so?**

    Yes. The bank cancels the credit card on request, provided that the outstanding amount, if any, is settled/ paid.

12. **Where can I view details of all cancelled, blocked and deactivated credit cards?**

    You can view the details of all cards that have been cancelled, blocked or deactivate in the Inactive Cards page by selecting the View All option available in the Inactive Cards widget on the Credit Cards dashboard.

13. **What is Auto Pay' and what is the difference between auto pay and scheduled payments?**

    Auto Pay or automatic payment is a request initiated by a user instructing the bank to make regular credit card bill payments via automatic direct debit from a specified savings or checking account. The difference between auto pay and scheduled payments is that once a user sets up an auto pay instruction with the bank, he need not manually make payments towards credit card bill payment. The bank will automatically debit the selected account for the credit card bill amount (depending on instruction which could be to pay the minimum due or the total amount due) subject to availability of funds in the account. If an auto pay instruction is not made, the user will be required to make scheduled manual payments towards credit card bill payment.

14. **I made a mistake while setting the auto pay instruction for my credit card. Can I update the same?**

    You can update the auto pay instruction of a credit card if it has been accepted by the bank. If the request is still in process, you cannot update the instruction.

15. **How do I view the transactions undertaken by the Add-On card holder?**

    The description of each transaction record displays details of the transaction as well as the card name and number using which the transaction was performed. Based on the name and number, you can identify which transaction was initiated by the primary card and which was initiated by the Add-On card.

16. **How does the bank keep the card holder informed of the transactions initiated using the credit card issued?**

    Banks sends a monthly statement to all card holders giving details of the transactions made using the card and the amount required to be paid to settle any dues.

17. **Will my e-Statement look the same as my paper statement?**

    Yes. Your e-Statement looks exactly like your paper statement.

18. **Can approver approve or reject the credit card transactions initiated by maker?**

    Yes. Approver can approve or reject the transactions because he has the responsibility to ensure correctness of financial or non-financial transaction as per the bank and corporate mandate.

19. **Can approver send credit card transactions back to maker?**

    Yes. ‘Send to Modify’ option is available to the Approver for sending the transactions back to maker for any modification. If the approver is sending any transaction back to maker for modification, the maker will be able to make the changes in the same transaction and re-submit the same.
