1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

3. Payments

The digital banking application simplifies the user's requirement of transferring funds from one bank account to others. By using the payments module of the digital banking application, users can transfer funds from their own accounts to other accounts within the same bank or any other bank locally or a bank in another country.

A Note on Domestic (Local) Payments:

Local Payments are very region specific. For example NEFT is a network supported for local payments within India. The same will not be of any relevance in Europe. Similarly, SEPA is a network supported within Europe and will not have any relevance in Asia for local payments.

For Domestic (Local) Payments, the base product of Oracle Banking Digital Experience supports some local payments out of the box as mentioned in the Transaction Host Integration Matrix. Therefore more often than not, there will be a need for the implementation team to step in and implement the local network specific to the region that the bank is in.

The following sections in this document detail all the features offered to users through the payments module of the digital banking application.

Note: Payment Screens are not supported in the landscape mode of mobile applications and mobile browser.

3.1 Payments Widgets

In addition to a host of other banking features and information, the Small & Medium Business user dashboard also contains widgets related to payments which enable users to easily access payment transactions and also to gain a quick view of scheduled upcoming payments as well as to view the current status of initiated payments.

The screenshot displays the Futura Bank dashboard with the following widgets:

- My Net Worth:** Shows a total of £3,003,412.00 as of 27 Apr 2020. Breakdown includes Current & Savings (£3,003,412.00), Term Deposit (£0.00), Recurring Deposit (£0.00), and Wallet (£0.00).
- Recent Activity:** Lists transactions for 'Current And Savi...' on 22 Mar 2019, including two PRINCIPAL Liquidation payments of £1.00 Dr.
- My Spends:** Shows a total spend of £214,740.00 over the last 30 days, categorized as 100% Uncategorized.
- My Accounts:** Lists Current & Savings (£3,003,412.00), Term Deposits (£0.00), Recurring Deposits (£0.00), Loans and Finances (£182,711.23), and Credit Card (£600.00).
- My Bills:** States 'No bills presented due for payment' with options for Quick Recharge, Quick Bill Pay, and View All Bills.
- Upcoming Payments:** States 'Relax! You currently do not have any Upcoming Payments' with a Set Repeat Transfers option.
- Payments:** Includes icons for Transfer Money, Pay Bills, Favorites, Manage Payees, Request Money, and View Repeat Transfers.
- Service Request:** Shows two open requests: 'Block Debit Card' (Reference Number 1007) and 'Debit Card PIN Request' (Reference Number 1006).
- Notifications:** States 'No New Notifications' and prompts to check for new notifications.
- My Advisors:** Prompts to contact Futura Bank for advisor details at 1800-000-000.
- Available Balance:** Shows £0.00 with options to Add Money, Send Money, or View Statement.

Payments Widget Overview

The payments widget enables the user to gain easy access to the following transactions and features:

Transfer Money

This feature enables the user to transfer money to registered payees.

Favorites

By selecting this option, users can access money transfers that they have set as favorite. Users can subsequently initiate further transactions using these favorite transactions as templates.

Manage Payees

This feature enables users to manage payees. From the Manage Payees screen, the user can add new payees, and view, edit, or delete existing registered payees.

Request Money

The Request Money feature enables users to initiate SEPA direct debit requests.

View Repeat Transfers

This feature enables users to view previously initiated repeat transfers. Subsequently, users can also initiate repeat transfers by selecting the Set Repeat Transfers option available on the View Repeat Transfers screen.

4. Manage Payees

The online banking application enables users to register and maintain payees (beneficiaries) towards whom payments are to be made frequently.

The 'Manage Payees' feature not only enables users to register payees, but also enables them to add accounts to a registered payee (payee group) and view/edit/delete the accounts of existing payees.

Payees can be created and maintained for the following types of transfers:

- Internal Bank Account
- Domestic Bank Account
- International Bank Account
- Domestic Demand Drafts
- International Demand Drafts

Pre-Requisites

- Transaction access is provided to the Small & Medium Business user

Features Supported In the Application

- Create Payee
- View Payee
- Edit Payee
- Delete Payee
- Initiate payment towards a Payee

FAQ

1. **Can I delete payees towards whom I no longer need to make payments?**

You can delete individual accounts or demand drafts of a payee towards whom you no longer wish to make payments. If the payee has a single account or demand draft assigned, the payee record is also deleted. However, if the payee whose account or demand draft details you delete also has other accounts or demand drafts assigned, these accounts or demand draft details will not be impacted by the deletion of any other account or demand draft.

2. **Can I edit the payee name or account details of the payee once a payee has been created?**

No. You can only edit or remove the limits i.e. the daily or monthly limits assigned to the account or demand draft of the payee.

5. Add Payee - Demand Draft

A Demand Draft is a pre-paid negotiable instrument. The issuing bank undertakes to make payment in full when the instrument is presented by the payee. The demand draft is made payable at a specified centre and can be issued in local currency as well as in (allowed) foreign currencies. A foreign currency demand draft can be requested using International Demand Draft while a pay order or local currency demand draft can be requested using the Domestic Demand Draft transaction. A Demand Draft, as compared to a cheque is issued by the Bank against the Bank's own funds and hence there is a reduced risk of the cheque not clearing. Users are able to save the payee details of the draft through payee maintenance. Beneficiary for demand drafts are of two types:

- Domestic Demand Draft
- International Demand Draft

The application also provides an additional option to have the demand draft delivered at the customer's convenience. The following are provided for the same:

- My address – This option enables the user to select a branch of the bank (issuing bank) at which the draft is to be delivered.
- Branch Near Me – This option enables the user to specify which registered address of the user (out of the user's work, residential or postal address) the draft is to be delivered at.
- Other Address: This option enables the user to specify an address at which the draft is to be delivered. The user can select this option if he wishes to have the draft delivered to an address that is different from that of any of the bank's branches or any of the user's registered addresses.

FAQ

1. When can I make the payment to newly added payee?

After successfully adding a payee, you may proceed to transfer funds only after the cooling period (the time set by the bank during which fund transfer is not allowed to a newly added payee) or you may set a future date for the transaction to take place.

2. If I delete or edit a payee, what will happen to the in-flight transactions?

Payee modification or deletion will not have any impact on the transactions which are initiated towards the payee and that are pending further processing.

Field Description

Field Name	Description
Payee Name	Specify the name by which the payee group is to be identified. Once created, you can add multiple payees within a payee group. This is particularly useful when Small & Medium Business users want to add different bank accounts of the same beneficiary, as payees. The Payee Name would be the payee's name and the different accounts can be identified with different Nicknames.
Payee Photo	Select this option to upload a photo against the payee.
Payee Type	Select INTERNAL
Account Number	Specify the account number of the payee.
Confirm Account Number	The user is required to re-enter the payee's account number in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Payee Email ID	Email address of the payee. Please note that this field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.
Nickname	Specify a nickname to be assigned to the specific account of the payee for the purpose of easy identification.

Note:

Once a photo is uploaded against the payee, the options Change and Remove appear against the photo.

Click **Change** to modify the uploaded payee photo.

OR

Click **Remove** to delete the uploaded payee photo.

3. Click **Add** to add a payee.
OR

7. Transfer Money

Navigate to Payments > Payments and Transfers > Transfer Money

The Transfer Money feature enables the user to initiate online payments between his own accounts or perform one of the following types by using an existing payee:

- Internal Transfer
- Domestic Transfer
- International Transfer

On selecting the option, 'Existing Payee', the user has to select a payee group first and then select the specific account of the payee towards which the transfer is to be made. The user is not required to explicitly select the transfer type (internal, domestic or international) since this is defined at the time of payee creation.

Prerequisites:

- Transaction and account access is provided to Small & Medium Business user.
- Payees are registered for the purpose of transferring funds.
- Transaction limits are assigned to user to perform the transaction.
- Payee limits, cooling period along with transaction limits are maintained.

7.3 Suggestive Credit Value Date

The Payment framework provides the facility to display the suggestive credit value date on the review screen of a payment. This date is an indicative date only and it gives the end user an idea of when the payment would get credited to the payee's account, before he can confirm the transaction.

The service takes into account parameters like the network of payment, the currency etc. before arriving at the suggestive credit value date.

This service is currently available out of the box integrated only with Oracle Banking Payments. For other product processors a customization would be required.

7.5 Other Transfers - New Payee

By selecting the 'New Payee' option, the user is provided with three choices by which to initiate a fund transfer. They are as follows:

i. Email/Mobile

The Email/Mobile option enables the user to initiate a funds transfer towards an email or mobile contact. The user has to simply specify the email address or the mobile number of the intended payee and specify other transfer related details such as the transfer amount and source account. Once the transfer is initiated, the funds are transferred to the account number associated with that email address or mobile number.

ii. Bank Account

The user can select this option if he wishes to initiate a transfer towards a beneficiary who is not yet registered as a payee. On selecting this option, the user will be directed to a screen from which he can select the option to navigate to the screen on which he can register a payee.

iii. Facebook

By selecting this option, the user is able to transfer funds to a Facebook contact. Funds can be transferred towards only those Facebook contacts who have registered themselves for this facility with the bank via Facebook.

Using this option you can transfer funds from your account to payee account within the bank, within the country or outside the country by specifying email or mobile number or to your Facebook contacts having Futura Bank account.

iv. Twitter

On selecting this option, the user is able to transfer funds to a Twitter follower. The user can select any one follower as the recipient of the funds transfer.

7.6 Other Transfers – Between Wallets

The '**Between Wallets**' feature enables a Small & Medium Business user, having a wallet account with the bank, to initiate payments from his wallet to another user's wallet by specifying the intended beneficiary's mobile number. This is an easy, quick and safe method of payment wherein the user just needs to enter the mobile number of payee and amount to be paid. This method of payment is especially simple and secure considering that the beneficiary need not share his account information in order to receive payments. Moreover, users need not maintain payees as a prerequisite to transfer funds using this method.

To transfer from one wallet to another wallet:

1. **Menu >> Payments >> Payments and Transfers >> Other Transfers**, select the **Between Wallets** option.

Transfer Money – Between Wallets

The screenshot shows the Futura Bank mobile app interface for transferring money. The 'Transfer Money' screen has several tabs: Favorites, Adhoc Demand Draft, Other Transfers (selected), Adhoc Transfer, Multiple Transfers, Issue Demand Drafts, Payment Status Inquiry, and Add Mo. Under 'Transfer Type', 'New Payee' is unselected and 'Between Wallets' is selected. The 'Transfer From' is set to 'Wallet'. The 'Recipient's Mobile Number' is 9812123434. The 'Amount' is €11.00. The account balance is €2,400.00. There are 'Transfer' and 'Cancel' buttons at the bottom left. A promotional message on the right says 'Transferring money has never been easier!' and includes a chatbot button that says 'Hey, I am here to help if you need it!'.

FAQ

1. **Can I use the Transfer Money transaction to transfer the funds towards the repayment of a loan that I hold in same bank?**

No, fund transfers can be made only to current or savings account through the transfer money transaction.

2. **Can I set a future date for a fund transfer?**

You can set a future date for a payment using the Pay Later option.

3. **What happens if I have set up a future dated transfer, but don't have enough funds in my account on the transaction date for the transfer?**

Balance check will not be performed at the time of transaction initiation with future date. The transaction will get declined in case of insufficient funds in the account on the given transaction date.

4. **What happens if the transaction amount is less than set Transaction Limit?**

If the transaction amount is less than the minimum limit or more than the maximum transaction limit set by the Bank, the user will not be able to initiate the transfer.

5. Can I make a payment to an account which is currently not registered as my payee?

If you want to make a payments towards a beneficiary who is not yet registered you can select the option, 'Bank Account' under the 'New Payee' option to be navigated to the screen on which you can register the intended beneficiary as a payee. You can then initiate transfers towards this payee via the 'Existing Payee' option. Alternately, you can transfer funds towards accounts that you have not registered through the 'Adhoc Transfer' transaction.

8. Multiple Transfers

The Multiple Transfers feature enables users to initiate transfers towards a group of people as part of a single transaction. Through this feature, users can initiate transfers towards registered payees of different transfer types i.e. internal, domestic and international transfers, with different transfer dates, all at once from a single screen.

Prerequisites:

- Transaction and account access is provided to the Small & Medium Business user
- Registered payees are maintained
- Transaction limits are assigned to the user to perform the transaction
- Payee limits and cooling period limits are maintained

FAQ

- 1. Can I use the adhoc transfer transaction to transfer funds towards the repayment of a loan which I hold in the same bank?**

No, fund transfers can be made only to current or savings account through the adhoc transfer transaction.

- 2. Can I set a future date for a fund transfer?**

You can set a future date for a payment using the Pay Later option.

- 3. What happens if I have set up a future dated transfer, but don't have enough funds in my account on the transaction date for the transfer?**

Balance check will not be performed at the time of transaction initiation with future date. The transaction will get declined in case of insufficient funds in the account on the given transaction date.

- 4. What happens if the transaction amount is less than set Transaction Limit?**

If the transaction amount is less than the minimum limit or more than the maximum transaction limit set by the Bank, the user will not be able to initiate the transfer.

- 5. Can I make a payment towards an account which is currently not registered as my payee?**

Yes, you can make payments to the accounts which are not registered as payees through the adhoc transfer transaction.

- 6. Are separate transaction limits applicable for when I initiate a transfer using Adhoc Transfer and using Transfer Money by selecting a payee?**

Transaction limits are defined based on each payment network. The same limits get utilized if the transaction is initiated from Adhoc Transfer or by using Transfer Money (provided the payment network is the same).

10. Adhoc Demand Draft

Users can initiate requests for demand drafts to be payable towards beneficiaries that are not registered as payees in the system, via the adhoc demand draft feature. Since the demand draft request is for an unregistered beneficiary, the user is required to specify details of the beneficiary along with demand draft details at the time of adhoc demand draft request.

Once the request for the demand draft is initiated, the user can register the beneficiary as a payee by selecting the Add as Payee option provided on the confirm screen.

Pre-Requisites

- Transaction and account access is provided to Small & Medium Business user.
- Transaction working window is maintained.
- Transaction limits are assigned to user to perform the transaction.

11. Issue Demand Draft

The Issue Demand Draft transaction enables users to request the bank to issue demand drafts towards payees. In order to initiate a demand draft issue request, the user has to first ensure that the payee i.e. the recipient of the demand draft is registered as a demand draft payee through the Manage Payees feature. Once the payee is registered, the user can initiate a request to the bank to issue a demand draft.

Prerequisites:

- Transaction access is provided to the Small & Medium Business user
- Transaction working window is maintained
- Required payees are maintained
- Transaction limits are assigned to user to perform the transaction

Features supported in application

The user can request for two types of demand drafts:

- Domestic Demand Draft – Where the draft is payable within the country
- International Demand Draft – Where the draft is payable outside the country

Workflow

How to reach here:

Toggle menu > Payments > Payments and Transfers > Issue Demand Drafts

OR

Dashboard > Payments menu > Issue Demand Drafts

A user can initiate a request for a Demand Draft using this transaction. All Demand Draft payees (Domestic and International Demand Draft payees) created by the user are listed for selection. Details of the payee are auto populated on the transaction screen once a selection has been made. The user is then required to fill in details such as the source account to be debited, the amount for which the draft is to be drawn and the date on which the draft is payable, in order to initiate the demand draft request.

12. Repeat Transfers

Repeat Transfers, also referred to as Standing Instructions or Standing Orders, are instructions given by a payer (bank account holder) to the bank to transfer a specific amount to another account at regular intervals.

Once initiated, these transfers are executed repeatedly till the end date.

The application has simplified the user's task of initiating repetitive payments by introducing the **Repeat Transfers** feature. Through this feature, users can set instructions for funds to be transferred at regular intervals towards registered payees or to the user's own accounts. Once initiated, the details of these transfers can be viewed in the View Repeat Transfers screen. The user can also cancel a repeat transfer instruction, if so desired, from the View Repeat Transfers screen.

Pre-Requisites

FAQ

1. Can I cancel a Repeat Transfer instruction?

Yes, you can cancel Repeat Transfer transactions provided that the instruction has some instructions that have not yet been executed. You cannot reverse transfers that have already been initiated.

Once an instruction has been cancelled, it will no longer be visible on the View Repeat Transfer screen.

2. What happens if I have set up a transfer for a future date, but on that date I don't have enough funds in my account to cover the transfer?

In this case, the transfer will not be made. Transfers are executed only if there are funds available in your account.

3. Can I cancel a specific installment of a repeat transfer/ recurring payment?

No, you cannot cancel the specific installment of recurrent payment, but you can cancel entire instruction given for recurring payment.

15. Payment Status Inquiry

The Payment Status Inquiry screen enables users to review and keep track of all their payments. This feature displays details of all payments initiated from the user's current and savings accounts, irrespective of the channel from which they were initiated. These transactions can include internal, domestic and international transfers along with transfers made to own accounts.

The Payment Status Inquiry summary screen lists down payment transactions initiated by the user based on search criteria defined in the provided search fields. Users can search for a payment record based on the account from which the transfer was initiated, reference number or even by defining a date range (date of initiation) or amount range. The number of transactions that are displayed on the Payment Status Inquiry summary screen by default, depends on the configuration set by the bank.

The user can view additional details of a payment by selecting the provided reference number link and navigating to the Payment Status Inquiry Details screen.

Pre-requisites:

Transaction access is provided to the Small & Medium Business user.

How to reach here:

To cancel payment:

1. Verify the payment details and click on '**Cancel Payment**'.
2. Click on '**Back**', to navigate to the Payment Status Inquiry Screen.

15.4 Payment Cloning

The "copy" icon on the Payment Status Inquiry table provisions the user to clone a payment. On click of the icon, the user will be redirected to the Adhoc Payments transaction with most of the data of the existing payment copied to the input fields.

This is to make it convenient for the end user to initiate the same payment again, on a different date. The cloning does not intend to stop the user from changing any of the data. Therefore it is just another Adhoc Payment transaction, and the user will be able to change any fields he wants to.

The feature, out of the box, will support International, Internal and SEPA Credit transfers only.

Having entitlements to Adhoc Payments is a pre-requisite for taking advantage of this feature.

For a Self-Transfer that was initiated from OBDX and visible in Payment Status Inquiry, clicking on the Clone button will open up the Adhoc Internal Payment page. This is because, from the bank's perspective both Self Transfer and Internal Transfer are payments between accounts within the bank.

The Payments seen in Payment Status Inquiry are a combination of all payments posted to the back end payments processor. The payments could have originated from other channels too, or directly from the payments processor itself. And therefore to repeat/copy the same payment at a later time, OBDX makes use of the Adhoc Payments transaction since the beneficiary information may not be present within OBDX as a payee.
