# 1. Preface

# 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

# 1.2 **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <a href="http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc">http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc</a>.

# 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs\_if you are hearing impaired.

## 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

# 1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Release 22.2.2.0.0, refer to the following documents:

- Oracle Banking Digital Experience Licensing Guide
- Oracle Banking Digital Experience Installation Manuals

# 2. File Upload

Corporates often look forward for an option to make multiple transactions and multiple maintenances quickly and conveniently through a single file upload typically for processing the salary of the corporate staff, for making the vendor payments or even for managing their Virtual Accounts or creating invoices on buyers through uploading a file.

File Upload module of Oracle Banking Digital Experience provides with an ability to the corporate customers to manage file uploads. Various financial and non-financial type of files can be upload by the corporate using pre-defined templates resulting in saving the transaction processing time than entering single record for each transaction.

Salary payments, fund transfers, vendor payments are a few examples of financial transactions that can be supported through file upload. A non-financial file upload facilitates upload of multiple payee creation records, Virtual Account creation, Virtual Account structure creation, Virtual Account closure and remitter list creation, at a single instance.

The File Upload functionality enables users to process the following with respect to Supply Chain Finance and Cash Management:

- Invoices
  - Invoices with Linked Purchase Orders
  - Purchase Orders
  - Credit Notes
  - Debit Notes
  - Payments
  - Cash Flow Transaction records

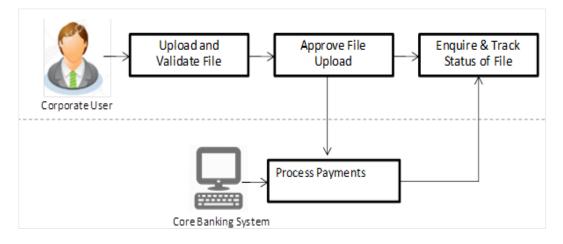

Oracle Banking Digital Experience File Upload module enables banks to upload files according to the agreed operational and business rules. It also allows the users view the status of the files and records uploaded using OBDX Platform. Further, users can view and download error and response files.

File Uploads facility is simple to use, has daily transaction limits and comes with the security of dual / multi signatory approvals with an option to approve the entire file (File Level approval) or each record uploaded as a part of the file (Record level approval).

#### Features Supported in the Application

- Upload a File
- Approve a File (File Authorization)
- View Uploaded Files and status of file and its records (Uploaded Files Inquiry)
- Access Error File (if any)
- Access Response File

#### Prerequisites

- Party Preferences set for Corporate
- Corporate user is created
- Transaction and Party ID access is provided to corporate user.
- Approval rule set up for corporate user to perform the actions.
- Account and Transaction access has been provided to the user
- Access of the file identifiers are provided to the party and user to perform uploads and view other details.

# 2.1 Upload a File

The 'File Upload' feature provides an option to the corporate user to upload files containing multiple records of supply chain and cash management instruments such as, invoices, or purchase orders, or debit/credit notes, or cash-flow transactions, or payments.

While files are managed entirely within the OBDX File Uploads module, the supply chain specific instruments/transactions are queued in the respective Core Banking system/Back office system, once submitted.

|                  | Information is displayed based on the parameters defined at the file identifier selected by the user.   |  |  |  |  |
| Approval Type    | Displays approval level of the file.  |  |  |  |  |
|                  | The approval could be:  |  |  |  |  |
|                  | <ul> <li>Record Level: In record type approval, the approver can<br/>approve some records (in a file), and reject others. Only<br/>approved records are processed.</li> </ul> |  |  |  |  |
|                  | <ul> <li>File Level: In a file type approval, the approver accepts or<br/>rejects the entire file, and all records are either processed<br/>or rejected.</li> </ul>           |  |  |  |  |
|                  | Information is displayed based on the parameters defined at the file identifier selected by the user.   |  |  |  |  |
| Accounting Type  | Displays accounting type of the file.   |  |  |  |  |
|                  | This field is displayed for the files that are financial in nature.   |  |  |  |  |
| File Name        | Choose the file from the local machine for upload.  |  |  |  |  |
|                  |   |  |  |  |  |
|                  | Post choosing the file, displays the file name.   |  |  |  |  |

3. Click Upload.

OR

Click **Cancel** to abort the file uploading process.

 The success message along with the file reference ID and status of the transaction appears. Click OK to complete the file upload. OR Click the File Reference ID to inquire about the uploaded file status.

The Uploaded Files Inquiry screen appears.

## <u>FAQ</u>

#### 1. What are the different file formats that can be uploaded?

The file upload formats supported are:

Delimited (CSV, XLS, XLSX) / Fixed Length

Note: VAM supports only CSV file format for upload.

#### 2. Can a file upload fail, before generating a File Reference Number?

Yes, system performs validations on the uploaded file before generating a file reference number. If one or more validations fail – the error message will be displayed on the screen and the file reference number will not be generated.

Validations include a check for maximum size, that the file is not malicious in nature; that the file is not a duplicate file, that it has the correct extension, that it is not empty etc.

Home

# 2.2 Uploaded Files Inquiry

Through this option the user can view the files uploaded by the corporate user using OBDX platform (only those files that the user has access to) and their status.

- The search can be filtered on various parameters like status and file reference ID.
- The user can track the status of the file and in case of an error in the file, the user can download the error file to arrive at the exact reason for error.
- For files in the 'Processed' status, the user can download the Response file, to vet status of
  processing (in the host) for each record, of the file.
- The user can track file history and also check Individual record details.

#### How to reach here:

Corporate Dashboard > Toggle Menu > File Upload > Uploaded Files Inquiry OR Corporate Dashboard > Quick Links > Uploaded Files Inquiry

#### 2.2.1 Uploaded Files Inquiry

The corporate user can search and view files that are uploaded under a party with the file identifier, date range, file name, file reference ID, transaction type, file status, and view the record details.

Users can provide at least two search parameters to get better search results.

### Uploaded Files Inquiry – Search

| Field Name        | Description   |  |  |  |
|-------------------|---|--|--|--|
| Search Results    |   |  |  |  |
| Upload Details    | Displays the file upload date and time.                                   |  |  |  |
| Туре              | Displays the transaction type of file uploaded                            |  |  |  |
| File Identifier   | Displays the file identifier selected while uploading the file.           |  |  |  |
| File Name         | Displays the name of the uploaded file.                                   |  |  |  |
| File Reference ID | Displays the file reference number generated after the file was uploaded. |  |  |  |

| Field Name  | Description  |
|-------------|--|
| File Status | Displays the status of the uploaded file.  |
|             | The file status could be:  |
|             | <ul> <li>Uploaded: File Uploaded and file reference number is<br/>generated.</li> </ul>  |
|             | <ul> <li>Verified: File has been pre-processed and authorization<br/>checks done (limit + account access check). File is now<br/>Pending Approval.</li> </ul>                                      |
|             | <ul> <li>Error: File has been pre-processed and contains error.<br/>The end of the life cycle of the file (File Level). The user<br/>can download the error file at this stage.</li> </ul>         |
|             | <ul> <li>Processing in Progress: File is not yet liquidated.</li> </ul>  |
|             | <ul> <li>Rejected: File has been rejected (File level). The end of<br/>the life cycle of the file.</li> </ul>  |
|             | Approved: File has been fully approved.  |
|             | <ul> <li>Processed: File is completely liquidated. The user can<br/>download a response file at this stage.</li> </ul>   |
|             | <ul> <li>Processed with exception: File is partially liquidated – i.e.<br/>while some records are processed, others are not.</li> </ul>  |
|             | Expired: File has expired.   |
|             | Deleted: File was deleted.   |
| Action      | The available action icon against the uploaded file.   |
|             | The action is to delete the uploaded file. Only those files with recor type of approval, and which are uploaded with a future date can b deleted. Such files are in Processing in Progress status. |

Details screen appears.

OR

Click **Cancel** to cancel the transaction.

## 2.2.2 Uploaded Files Inquiry - File Details - Payments File

Through this option, the user can view files that have been uploaded by the corporate user with respect to Payments.

- In the **File Name** field, click it to download the originally uploaded file.
- In the **Response File Download** field click T to download the response file.
- Click the link under the **Record Reference Number** column of a particular record, to view its details.
- Click **Download as** to download the file in .pdf or .csv format.
- Click **Back** to navigate to the previous screen.

**Note**: If there is an error during file verification (i.e. the file is in error status), an option will be available to download the generated error file.

## 2.2.9 Uploaded Files Inquiry - File Details – Cash Flow Transactions File

Through this option, the user can view files that have been uploaded by the corporate user with respect to Cash Flow Transactions.

#### File Details

| If the user is inquiring a fields are displayed. | bout 'Cash Flow Transaction' type of transaction, then the following  |  |  |  |  |
| Reference Number                                 | The reference ID for identification of each cash flow transaction record. This is a hyperlink which when clicked displays the details of the cash flow transaction. |  |  |  |  |
| Customer Reference<br>Number                     | The reference number assigned to the cash flow transaction by the customer, as fetched from the host system.  |  |  |  |  |
| Туре   | The type of cash flow transaction, whether Inflow or Outflow.   |  |  |  |  |
| Category   | The category of the cash flow transaction.  |  |  |  |  |
| Expected Date                                    | The date when the cash flow transaction was/will be made.   |  |  |  |  |
| Status   | Status of the record in the uploaded file.  |  |  |  |  |

- 1. In the Uploaded Files Inquiry File Details screen, you can do one of the following:
  - In the **File Name** field, click T to download the originally uploaded file.
  - In the **Response File Download** field click T to download the response file.
  - Click the link under the **Reference Number** column of a particular record, to view its details.
  - Click **Download as** to download the file in .pdf or .csv format.
  - Click **Back** to navigate to the previous screen.

**Note**: If there is an error during file verification (i.e. the file is in error status), an option will be available to download the generated error file.

# 1. What are some of the validations that a file goes through at various stages, in its life cycle?

The following are the validations performed on an uploaded file by OBDX and subsequently by the Host, before file is liquidated.

| Sr<br>No | Events                     | Applicable to | Checks   |
|----------|----------------------------|---------------|--|
| 1        | On File Upload             | All Files     | File contents should not match an already uploaded file  |
| 2        | On File Upload             | All Files     | File should not exceed the Maximum Size limit  |
| 3        | On File Upload             | All Files     | The File Extension type should be the ones permitted   |
| 4        | On File Upload             | All Files     | The file should not be Malicious   |
| 5        | At Pre-<br>Processing      | All Files     | The format for all fields, should be as per template<br>viz., Date, Currency in accordance with ISO<br>standards, CIF- numeric, account number-<br>alphanumeric etc. |
| 6        | At Pre-<br>Processing      | All Files     | The CIF should be valid, should exist  |
| 7        | File At Pre-<br>Processing | All Files     | CIF and Debit account should belong to each other  |
| 8        | At Pre-<br>Processing      | All Files     | User should have access to Debit Account   |
| 9        | At Pre-<br>Processing      | All Files     | Debit account should not be in closed status   |
| 10       | At Pre-<br>Processing      | All Files     | Transaction Limits are not violated at user level  |
| 11       | At Pre-<br>Processing      | All Files     | Payment date should not be in the past   |
| 12       | At Pre-<br>Processing      | All Files     | Payment date should not be a holiday as per the host calendar maintenance  |
| 13       | At Pre-<br>Processing      | All Files     | Debit account should be a CASA account, not loan or TD   |

| Sr<br>No | Events                 | Applicable to           | Checks   |
|----------|------------------------|-------------------------|--|
| 14       | At Pre-<br>Processing  | All Files               | Debit currency in the file, should match the<br>currency of the CASA account                               |
| 15       | At Pre-<br>Processing  | Internal Files          | Transaction currency should match either the debit or credit CASA  |
| 16       | At Pre-<br>Processing  | Internal Files          | The Credit Account should be a CASA account, not loan or TD  |
| 17       | At Pre-<br>Processing  | All SDSC and SDMC files | A file with multiple records, should have the same debit account   |
| 18       | At Pre-<br>Processing  | Internal Ad<br>hoc      | The Purpose of remittance should be valid  |
| 19       | At Pre-<br>Processing  | Domestic Files          | The NEFT / RTGS code should be valid   |
| 20       | At Approval            | All Files               | Cumulative limits should not be violated either for the Approver and the Party                             |
| 21       | Validations in<br>Core | All Files               | The Debit account should have sufficient balance   |
| 22       | Validations in<br>Core | All Files               | Debit account should not be in dormant status  |
| 23       | Validations in<br>Core | All Files               | Debit account should not be in debit block status  |
| 24       | Validations in<br>Core | Internal Files          | The Credit CASA account should not be closed   |
| 25       | Validations in<br>Core | Internal Files          | There should not be a Credit Block on the CASA account   |
| 26       | Validations in<br>Core | International<br>Files  | The BIC / SWIFT code should be valid, as per the BIC / Clearing directory as maintained in the host system |

# 2. If some records in a file are liquidated, others are deleted, what will the status of the file be?

The following table shows the file status which is followed to depict various status of the file upload. So if all the records of file are liquidated then the file status is processed, and if any of the records in the file is liquidated while all the other are rejected the file status will be processed, and if any of the records is liquidated and rest all have an error the file status will be processed with exception.

| Verified | Approv<br>ed | Proces<br>sing in<br>Progre<br>ss | Liquida<br>ted | Rejecte<br>d | Deleted | Error | File Status                 |
|----------|--------------|-----------------------------------|----------------|--------------|---------|-------|-----------------------------|
| All      |              |                                   |                |              |         |       | Verified                    |

|          |              |                                   | 1              | 1            | 1       |       | Processed                   |
|          |              |                                   | 1              | 1            | 1       | 1     | Processed with exception    |
|          |              |                                   |                | 1            | 1       |       | Deleted                     |
|          |              |                                   |                | 1            |         | 1     | Processed with exception    |
|          |              |                                   |                |              | 1       | 1     | Processed with exception    |

# 3. If a payment file is in the approved status, does it mean that all the records are successfully liquidated?

No, the file still has to successfully pass validations in the host system, before records are processed.

4. Can a user delete the entire file or deletion of only individual records within a file is allowed?

Whether only records can be deleted, or the entire file will be deleted depends on the accounting type of the file, and the approval type (Record Level or File level)

The table below throws light on the combinations allowed

| Sr No | Accounting<br>Type | Authorization<br>Type | File / Record Deletion allowed?                                |
|-------|--------------------|-----------------------|--|
| 1     | SDMC               | File Level            | The entire file, as well as individual records can be deleted. |
| 2     | SDSC               | File Level            | The entire file, as well as individual records can be deleted. |

# 5. If a working window is set for the File Upload transaction – how will processing be impacted outside of the working window?

Outside of the transaction working window set for file uploads, processing will depend on whether the file has a Record Level approval or a File Type approval.

Files with a File Type approval – will be rejected, outside of the transaction working window Files with Record Type approval – if some records are processed within the working window, will be completed – if processing of some records, falls outside of the working window – these will be rejected.

#### 6. What is the impact of limits on processing of File Upload transactions?

File uploads transaction will utilize limits depending on if the transfer is an internal, domestic, or international funds transfer.

Further, for domestic funds transfer – limits are defined for each network – NEFT, RTGS and IMPS. Limits will be checked at the pre-processing's stage for file uploads.

#### 7. Does this functionality solely cater to bulk payment transactions?

No, File uploads is used for bulk payment transactions and to add multiple payees. Internal, domestic or international payees can be added through the file upload functionality.

#### 8. After a file is successfully uploaded, is the user provided notifications on its status?

Yes, Users mapped to the FI – initiators and approvers of the file, are provided with alerts / notification, as file progresses from the Uploaded stage to Approved to Processing in Progress to the Processed stage. Alternately, users can log in to view the status of the file.

<u>Home</u>

# 3. File Approval

This option allows the approver to approve / reject the uploaded file. File approval could be either

- File Type
- Record Type

In a File type Approval, the approver accepts or rejects the entire file, and all records are either processed or rejected, respectively. While in a Record type approval, the approver could approve some records, and reject others. Only the approved records are processed further.

#### How to reach here:

*Approver Dashboard > Pending for Approvals* 

## 3.1 File Approval

OR

Once a file is uploaded and pre-processing checks are successfully completed, the file is pending approval, and is in the respective Approver's queue.

#### To approve / reject a file:

- 1. In the **Pending for Approval** section, click the **Bulk File** tab. All the uploaded files that require approval appears.
- 2. Select the multiple files and click **Approve** to approve the transactions.

Click the link under the **Reference No** column. The **File Details** screen appears.
